The Docket Management Facility maintains the public docket for this notice. Comments and material received from the public, as well as documents mentioned in this notice as being available in the docket, will become part of this docket and will be available for inspection or copying at room PL-401 (Plaza level), 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at *http://dms.dot.gov*.

Copies of the complete ICRs are available for inspection and copying in public dockets. Copies are available in docket USCG 2001-11237 of the Docket Management Facility between 10 a.m. and 5 p.m., Monday through Friday, except Federal holidays; for inspection and printing on the internet at *http://dms.dot.gov;* and for inspection from the Commandant (G-CIM-2), U.S. Coast Guard, room 6106, 2100 Second Street SW., Washington, DC, between 10 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Barbara Davis, Office of Information Management, 202-267-2326, for questions on this document; Dorothy Beard, Chief, Documentary Services Division, U.S. Department of Transportation, 202-366-5149, for questions on the docket.

SUPPLEMENTARY INFORMATION

Regulatory History

This request constitutes the 30-day notice required by OIRA. The Coast Guard has already published [66 FR 64336 (December 12, 2001)] the 60-day notice required by OIRA. That notice elicited no comments.

Request for Comments

The Coast Guard invites comments on the proposed collection of information to determine whether the collection is necessary for the proper performance of the functions of the Department. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the collection; (2) the accuracy of the Department's estimated burden of the collection; (3) ways to enhance the quality, utility, and clarity of the information that is the subject of the collection; and (4) ways to minimize the burden of collection on respondents, including the use of automated collection techniques or other forms of information technology.

Comments, to DMS or OIRA, must contain the OMB Control Number of the ICR addressed. Comments to DMS must contain the docket number of this request, USCG 2001-11106. Comments to OIRA are best assured of having their full effect if OIRA receives them 30 or fewer days after the publication of this request.

Information Collection Request

1. *Title:* Claims Under the Oil Pollution Act of 1990.

OMB Control Number: 2115-0596.

Type of Request: Extension of a currently approved collection.

Affected Public: Claimants and responsible parties of oil spills.

Forms: This collection of information does not require the public to fill out forms, but does require the public to provide initial information in writing. Follow-up information, if necessary, may be provided by letter, fax or e-mail.

Abstract: The Coast Guard will use the information collected to determine whether claims submitted to the Oil Spill Liability Trust Fund are compensable and, if they are, to ensure that the Fund reimburses them in the correct amounts.

Annual Estimated Burden Hours: The estimated burden is 13,722 hours a year.

2. *Title:* State Access to the Oil Spill Liability Trust Fund for Removal Costs Under the Oil Pollution Act of 1990.

OMB Control Number: 2115-0597.

Type of Request: Extension of a currently approved collection.

Affected Public: State Governments.

Forms: This collection of information does not require the public to fill out Coast Guard forms, but does require the public to provide information in writing.

Abstract: The Coast Guard will use information provided by the State to the Coast Guard National Pollution Funds Center to determine whether expenditures submitted by the State to the Fund are compensable and, if they are, to ensure payment of the correct amount of funding from the Oil Spill Liability Trust Fund.

Annual Estimated Burden Hours: The estimated burden is 3 hours a year.

Dated: March 20, 2002.

V.S. Crea,

Director of Information and Technology.

BILLING CODE 4910-15-P

DEPARTMENT OF TRANSPORTATION

Coast Guard

[USCG-2002-11893]

Review of Boating Safety Regulations

AGENCY: Coast Guard, DOT.

ACTION: Request for comments.

SUMMARY: The Coast Guard is conducting a comprehensive review of current boating safety regulations in three stages. These stages correspond with sequential meetings of the National Boating Safety Advisory Council (NBSAC). This notice requests comments for the second stage, involving manufacturer requirements to prevent drownings. We will provide NBSAC members with a summary of the comments before the October 2002 meeting and will consider all relevant public comments and NBSAC recommendations in determining which regulations, if any, should be changed.

DATES: Comments and related material for the second stage of the review must reach the Docket Management Facility on or before May 28, 2002.

ADDRESSES: To make sure that your comments and related material are not entered more than once in the docket, please submit them by only one of the following means:

(1) By mail to the Docket Management Facility, (USCG-2002-11893), U.S. Department of Transportation, room PL-401, 400 Seventh Street SW, Washington, DC 20590-0001.

(2) By delivery to room PL-401 on the Plaza level of the Nassif Building, 400 Seventh Street SW, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-366-9329.

(3) By fax to the Docket Management Facility at 202-493-2251.

(4) Electronically through the Web Site for the Docket Management System at *http://dms.dot.gov*.

The Docket Management Facility maintains the public docket for this notice. Comments and material received from the public, as well as documents mentioned in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at room PL-401 on the Plaza level of the Nassif Building, 400 Seventh Street SW, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at *http://dms.dot.gov*. You may obtain a copy of this notice by calling the U.S. Coast Guard Infoline at 1-800-368-5647, or read it on the Internet, at the Web Site for the Office of Boating Safety, at *http://www.uscgboating.org* or at *http://dms.dot.gov*.

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, contact Carlton Perry, Project Manager, Office of Boating Safety, U.S. Coast Guard, by telephone at 202-267-0979 or by e-mail at *cperry@comdt.uscg.mil*. If you have questions on viewing or submitting material to the docket, call Dorothy Beard, Chief, Dockets, Department of Transportation, telephone 202-366-5149.

SUPPLEMENTARY INFORMATION:

Background and Purpose

NBSAC is an advisory committee created under 46 U.S.C. 13110(a). It advises the Coast Guard on substantive matters of boating safety. Its 21 members come from 3 segments of the boating community: the boating industry; State officials on boating safety; and representatives of national recreational boating organizations and the general public. NBSAC meets twice a year, in the spring and fall. The meetings are open to the public. Under 46 U.S.C. 4302 (c)(4),the Coast Guard must consult NBSAC in the formulation of boating safety regulations.

Past Comprehensive Reviews

In 1981, 1986, 1992, and 1997, we conducted comprehensive reviews of our boating safety regulations in conjunction with a single NBSAC meeting. We asked NBSAC to determine whether the regulations were still necessary, beneficial, cost-effective, and consistent with current technology. These periodic reviews led NBSAC to make numerous recommendations to improve and update specific provisions in the regulations.

Current Comprehensive Review

We are conducting this review in three stages at sequential NBSAC meetings. We published the first notice announcing in the **Federal Register** on August 30, 2001 [66 FR 45791], stating that NBSAC would review regulations of the first stage in April 2002. We will publish notices in the future, requesting comments for the remaining stage, announcing the specific date of the meeting. Each stage will evaluate current boating safety regulations, but will not include any rules under development.

The first review stage includes administrative requirements for manufacturers and importers of recreational vessels (33 CFR part 179 and part 181, subparts B and C) and fire and explosion prevention requirements for manufacturers and importers of recreational vessels (33 CFR part 183, subparts I, J, and K). NBSAC will review these regulations and comments at its April 2002 meeting.

The second review stage includes requirements for manufacturers and importers of recreational vessels to prevent drownings (33 CFR part 183, subparts B, C, D, F, G, H, and L). NBSAC will review these regulations and comments at its October 2002 meeting.

The third review stage includes requirements for operators (33 CFR parts 95, 100, 173, 174, 175, 177 and 46 CFR part 25, subparts 25.30, 25.35 and 25.40, and part 58, subparts 58.03 and 58.10). NBSAC will review these regulations and comments at its April 2003 meeting.

You may find copies of the boating safety regulations at any public library that carries the United States Code of Federal Regulations. You may buy them from the Superintendent, Government Printing Office, telephone: 202-512-2250; facsimile: 202-512-1800. You may also access them on the Internet at URL address *http://www.gpo.gov/nara/cfr*.

Request for Comments

We encourage interested persons from all sectors of the boating community to participate in this second regulatory review stage by submitting comments and related material regarding any changes to the current boating safety regulations, including elimination or revocation of any requirements. If you submit comments, please include your name and address, identify the docket number for this notice (USCG-2002-11893) and give the reasons for each comment. You may submit your comments and material by mail, hand delivery, fax, or electronic means to the Docket Management Facility at the address under **ADDRESSES**; but please submit your comments and material by only one means. If you submit them by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit them by mail and would like to know they reached the Facility, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period.

VOL
67
ISS
58
MR
26
2002
UMI

We are especially interested in responses to the following questions:

- *Need*—Is there still a need for the regulation? Is the problem that the regulation was originally intended to solve still a problem?
- *Technical Accuracy*—Has the regulation kept pace with the technological, economic, environmental, or other relevant conditions? Would any particular changes make it more effective in achieving its intended goal?
- *Cost/Benefit*—What are the costs, or other burdens or adverse effects, including impacts on use of energy, of the regulation? What are the benefits of the regulation in terms of personal safety or other values? Do the benefits outweigh the costs?
- *Problems*—Are there any problems or complaints in understanding or complying with the regulation?
- *Alternative*—Are there any nonregulatory ways to achieve the goal of the regulation at a lower cost, lower burden, or adverse effect?

We will summarize all comments received in response to this request during the comment period and will provide a copy of the summary to the NBSAC members for their consideration before the October 2002 meeting. We will consider all relevant comments in the formulation of any changes to the boating safety regulations that may result from this review stage.

Dated: March 20, 2002.

Kenneth T. Venuto,

Rear Admiral, Coast Guard, Director of Operations Policy.

BILLING CODE 4910–15–P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Draft Environmental Impact Statement: Marshall and St. Joseph Counties in Indiana

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for proposed improvements to US 31 in Marshall and St. Joseph Counties in Indiana.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Dirks, Environmental Specialist, Federal Highway Administration, 575 North Pennsylvania Street, Room 254, Indianapolis, Indiana 46204. Telephone: (317) 226–7492, Fax: (317) 226–7341, e-mail: *robert.dirks@fhwa.dot.gov.*

SUPPLEMENTARY INFORMATION: The FWHA in cooperation with the Indiana Department of Transportation (INDOT) will prepare an EIS to improve the US 31 corridor through Marshall and St. Joseph Counties in Indiana. The proposed corridor is between US 30 near Plymouth and US 20 in South Bend, a distance of about 20 miles.

This project is intended to evaluate various transportation alternatives that would reduce traffic congestion and improve safety on US 31 with minimal impacts to the environment. The project would also provide greater accessibility to north-central Indiana and would accommodate the transportation needs of the growing population and employment of northern Indiana. Along this 20 mile section of US 31, many of the intersections are currently experiencing traffic congestion and travel delay.

FHWA and INDOT will determine the purpose and need for the project, evaluate alternatives that satisfy the needs, describe the affected environment, discuss the environmental consequences regarding the alternatives, while providing agency coordination and public involvement. The project will follow Indiana's Streamlined EIS Procedures, which can be found on their website at *www.fhwa.dot.gov/indiv/procedur.htm.*

Early Coordination letters will be sent to appropriate federal, state, and local agencies describing the proposed action and inviting the agencies to be Participating Agencies in the study. Once the draft purpose and need has been developed and preliminary alternatives identified, the agencies and the public will have an opportunity to review and comment on this information. Agencies and the public will also have an opportunity to comment when the preliminary alternatives have been screened to those carried forward for more detailed environmental evaluation in the Draft Environmental Impact Statement (DEIS).

Upon completion of the DEIS, the DEIS will be available for public review and hearings will also be held. Public notice will be given as to the time and place of the meetings and hearings. Another interagency meeting will be held to offer the opportunity to comment on the preferred alternative and mitigation measures that are recommended.

To ensure that the full range of issues related to this proposed action is addressed and any significant impacts are identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and this EIS should be directed to the FHWA contact provided above.

(Catalog of Federal Domestic Assistance Program No. 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to the program).

Authority: 23 USC 315; 49 CFR 1.48.

Issued on: February 22, 2002.

Robert Dirks,

Environmental Specialist, FHWA, Indianapolis, Indiana.

BILLING CODE 4910–22–M

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2002–11732]

Notice of Request for Renewal of a Currently Approved Information Collection: Financial Responsibility, Trucking and Freight Forwarding

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, this notice announces the intention of FMCSA to request the Office of Management and Budget (OMB) to renew its clearance of the currently approved information collection identified below under Supplementary Information. This information collection provides registered motor carriers, property brokers, and freight forwarders a means of meeting financial security documentation requirements.

DATES: Comments must be submitted on or before May 28, 2002.

ADDRESSES: Mail or hand deliver comments to the U.S. Department of Transportation, Dockets Management Facility, Room PL–401, 400 Seventh Street, SW., Washington, DC 20590. Comments may also be submitted on the Internet by using the universal resource locator (URL) at: *http://dmses.dot.gov/submit*, or by fax to (202) 493–2251. Internet users may view all comments received by the Document Management System (DMS) on the Internet at: *http://dms.dot.gov*. Please follow the instructions online for more information and help. Please include the docket number appearing in the heading of this document on your comment. All comments received will be available for examination and copying at the above address from 9 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays. If you would like to be notified when your comments are received, you must include a self-addressed, stamped postcard; or you may print the acknowledgement page that appears after submitting comments electronically.

FOR FURTHER INFORMATION CONTACT: Ms. Marian Lee, (202) 358–7028, Insurance Compliance Division (MC–ECI), Federal Motor Carrier Safety Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Financial Responsibility, Trucking and Freight Forwarding.

OMB Number: 2126–0017.

Background: The Secretary of Transportation (Secretary) is authorized to register for-hire motor carriers of regulated commodities under the provisions of 49 U.S.C. 13902, surface freight forwarders under the provisions of 49 U.S.C. 13903, and property brokers under the provisions of 49 U.S.C. 13904. These persons may conduct transportation services only if they are registered pursuant to 49 U.S.C. 13901. The Secretary has delegated authority pertaining to these registrations to the FMCSA. Registration remains valid only as long as the transportation entities maintain, on file with the FMCSA, evidence of the required levels of insurance coverage pursuant to 49 U.S.C. 13906. Regulations governing financial responsibility requirements are found at 49 CFR 387.

Forms BMC–91, 91X, and 82 provide evidence of the required coverage for bodily injury and property damage (BI&PD) liability. Forms BMC–34 and 83 establish compliance with cargo liability requirements. Forms BMC–84 and 85 are filed by brokers to comply with the requirement for a $10,000 surety bond or trust fund agreement. Forms BMC–35, 36, and 85 cancel prior filings. Forms BMC–90 and 32 are endorsements that must be attached to BI&PD and cargo insurance policies, respectively, but are not filed with the FMCSA.

Motor carriers can also apply to self-insure BI&PD and/or cargo liability in lieu of filing certificates of insurance or surety bonds with the FMCSA. Form BMC–40 is the application used to apply for self-insurance authority.

Respondents: Motor carriers, freight forwarders, and brokers.

Estimated Average Burden per Response: The estimated average burden per response for the BMC–40 is 40 hours. The estimated average burden per response for each of the other forms (BMC–32, 34, 35, 36, 82, 83, 84, 85, 90, 91, and 91X) is 10 minutes per form.

Estimated Total Annual Burden: The estimated total annual burden is 200 hours for the BMC–40 based on 5 filings per year [5 filings per year × 40 hours to complete = 200]. The estimated total annual burden for all of the other forms described above is 45,025 hours based on 270,152 filings per year [270,152 filings per year × 10 minutes to complete divided by 60 minutes = 45,025 total burden hours]. Therefore, the total burden hour request is 45,225 [200 estimated annual burden hours for the BMC–40 + 45,025 hours for the other forms = 45,225 total burden hours].

Frequency: Certificates of insurance, surety bonds, and trust fund agreements are required when the transportation entity first registers with the FMCSA and then when such coverages are replaced. Notices of cancellation are required only when such certificates of insurance, surety bonds or trust fund agreements are canceled. Form BMC–40 is generally filed only when a carrier seeks approval to self-insure its BI&PD and/or cargo liability.

Public Comments Invited: Interested parties are invited to send comments regarding any aspect of this information collection, including but not limited to: (1) The necessity and utility of the information collection for the proper performance of the functions of the FMCSA; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB's clearance for a renewal of this information collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35, as amended, and 49 CFR 1.73.

Issued on: March 18, 2002.

Joseph M. Clapp,

Administrator.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Docket No. MARAD–2002–11871]

Information Collection Available for Public Comments and Recommendations

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Maritime Administration's (MARAD's) intentions to request extension of approval for three years of a currently approved information collection.

DATES: Comments should be submitted on or before May 28, 2002.

ADDRESSES: Comments should refer to the docket number that appears at the top of this document. Written comments may be submitted to the Docket Clerk, U.S. DOT Dockets, Room PL–401, 400 Seventh Street, SW., Washington, DC 20590. Comments may also be submitted by electronic means via the Internet at *http://dmses.dot.gov/submit*. Specifically address whether this information collection is necessary for proper performance of the functions of the agency and will have practical utility, accuracy of the burden estimates, ways to minimize this burden, and ways to enhance the quality, utility, and clarity of the information to be collected. All comments received will be available for examination at the above address between 10 a.m. and 5 p.m. ET, Monday through Friday, except Federal Holidays. An electronic version of this document is available on the World Wide Web at *http://dms.dot.gov.*

FOR FURTHER INFORMATION CONTACT: Kenneth Kline, Maritime Administration, 400 7th Street, SW., Washington, DC 20590. Telephone: 202–366–5744; fax: 202–366–7901, or e-mail: *kenneth.kline@marad.dot.gov.*

Copies of this collection can also be obtained from that office.

SUPPLEMENTARY INFORMATION:

Title of Collection: Obligation Guarantees—46 CFR part 298, Title XI.

Type of Request: Extension of currently approved information collection.

OMB Control Number: 2133–0018.

Form Numbers: MA–163, MA–163A

Expiration Date of Approval: October 31, 2002.

Summary of Collection of Information: In accordance with the Merchant Marine Act, 1936, MARAD is authorized to execute a full faith and

VOL
67

26
2002
UMI

credit guarantee by the United States of debt obligations issued to finance or refinance the construction or reconstruction of vessels. In addition, the program allows for financing shipyard modernization and improvement projects.

Need and Use of the Information: The information collected is necessary for MARAD officials to evaluate an applicant's project and capabilities, make the required determinations, and administer any agreements executed upon approval of loan guarantees.

Description of Respondents: Individuals/businesses interested in obtaining loan guarantees for construction or reconstruction of vessels satisfying criteria under the Merchant Marine Act, as well as businesses interested in shipyard modernization and improvements.

Annual Responses: 21.

Annual Burden: 1470 hours.

By Order of the Maritime Administrator.

Dated: March 19, 2002.

Joel C. Richard,

Secretary, Maritime Administration.

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Docket Number: MARAD–2002–11872]

Requested Administrative Waiver of the Coastwise Trade Laws

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel LADY CATHERINE.

SUMMARY: As authorized by Public Law 105–383, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by MARAD. The vessel, and a description of the proposed service, is listed below. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines that in accordance with Public Law 105–383 and MARAD's regulations at 46 CFR part 388 (65 FR 6905; February 11, 2000) that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels, a waiver will not be granted.

DATES: Submit comments on or before April 25, 2002.

ADDRESSES: Comments should refer to docket number MARAD–2002–11872. Written comments may be submitted by hand or by mail to the Docket Clerk, U.S. DOT Dockets, Room PL–401, Department of Transportation, 400 7th St., SW., Washington, DC 20590–0001. You may also send comments electronically via the Internet at *http://dmses.dot.gov/submit/*. All comments will become part of this docket and will be available for inspection and copying at the above address between 10 a.m. and 5 p.m., E.T., Monday through Friday, except federal holidays. An electronic version of this document and all documents entered into this docket is available on the World Wide Web at *http://dms.dot.gov*.

FOR FURTHER INFORMATION CONTACT: Kathleen Dunn, U.S. Department of Transportation, Maritime Administration, MAR–832 Room 7201, 400 Seventh Street, SW., Washington, DC 20590. Telephone 202–366–2307.

SUPPLEMENTARY INFORMATION: Title V of Public Law 105–383 provides authority to the Secretary of Transportation to administratively waive the U.S.-build requirements of the Jones Act, and other statutes, for small commercial passenger vessels (no more than 12 passengers). This authority has been delegated to the Maritime Administration per 49 CFR 1.66, Delegations to the Maritime Administrator, as amended. By this notice, MARAD is publishing information on a vessel for which a request for a U.S.-build waiver has been received, and for which MARAD requests comments from interested parties. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD'S regulations at 46 CFR part 388.

Vessel Proposed for Waiver of the U.S.-build Requirement

(1) Name of vessel and owner for which waiver is requested. Name of vessel: LADY CATHERINE. Owner: Felton Havins, Jr.

(2) Size, capacity and tonnage of vessel. According to the applicant: "Twenty-five thousand pounds gross weight, 49.2 Feet Length"

(3) Intended use for vessel, including geographic region of intended operation and trade. According to the applicant: The vessel is currently located in Amelia Island, Florida and will be use primarily in that part of the coastal southeastern US with occasional transits to the Bahamas. The vessel is principally for my personal use with proposed leasing from time to time to a local sailing school as an instructional vehicle for their advanced/offshore courses. I also anticipate occasional (approximately six times per year) charters for a maximum of six passengers"

(4) Date and Place of construction and (if applicable) rebuilding. Date of construction: 1991. Place of construction: France.

(5) A statement on the impact this waiver will have on other commercial passenger vessel operators. According to the applicant: "LADY CATHERINE is the largest and most fully equipped sailing vessel available in the local six passenger sailing charter market. The local sailing school has no access to any other comparably equipped vessel for their advanced classes of instruction"

(6) A statement on the impact this waiver will have on U.S. shipyards. According to the applicant: "LADY CATHERINE was built in 1991. Therefore, there is no foreseeable negative impact on US shipyards. To the contrary, currently all maintenance and upgrades are being performed locally in US owned/operated shipyards."

By Order of the Maritime Administrator.

Dated: March 19, 2002.

Joel C. Richard,

Secretary, Maritime Administration.

An electronic version of this document and all documents entered into this docket is available on the World Wide Web at *http://dms.dot.gov*.

FOR FURTHER INFORMATION CONTACT: Kathleen Dunn, U.S. Department of Transportation, Maritime Administration, MAR–832 Room 7201, 400 Seventh Street, SW., Washington, DC 20590. Telephone 202–366–2307.

SUPPLEMENTARY INFORMATION: Title V of Public Law 105–383 provides authority to the Secretary of Transportation to administratively waive the U.S.-build requirements of the Jones Act, and other statutes, for small commercial passenger vessels (no more than 12 passengers). This authority has been delegated to the Maritime Administration per 49 CFR 1.66, Delegations to the Maritime Administrator, as amended. By this notice, MARAD is publishing information on a vessel for which a request for a U.S.-build waiver has been received, and for which MARAD requests comments from interested parties. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD'S regulations at 46 CFR part 388.

Vessel Proposed for Waiver of the U.S.-build Requirement

(1) Name of vessel and owner for which waiver is requested. Name of vessel: MISTLETOE. Owner: Dr. & Mrs. Wesley A. Dunn.

(2) Size, capacity and tonnage of vessel. According to the applicant: "55 feet loa, beam 16', depth 5', Gross Tonnage 29, Net 23".

(3) Intended use for vessel, including geographic region of intended operation and trade. According to the applicant: "Florida Atlantic and Gulf coast Waters to Louisiana including adjacent waters. We plan primarily to do custom cruises for lunch, golf outings, or sunset dinner cruises in an upscale manner with an upper limit of 12 and a Coast Guard Licensed Captain. We would also do overnight trips for no more than 4 passengers with appropriate licensed crew. We would anticipate doing some fishing, should our passengers wish, although we would not consider our yacht a charter fishing boat."

(4) Date and Place of construction and (if applicable) rebuilding. Date of construction: 1994. Place of construction: Ping Tong, Taiwan.

(5) A statement on the impact this waiver will have on other commercial passenger vessel operators. According to the applicant: "Impact on other local charter boats would be minimal. Charter boat operations in our area are primarily fishing charters involving smaller vessels. There are about 4 large boats that carry 30 or more passengers on daytime and sunset cruises. Neither type operation wold be in competition with our low volume, high-end market."

(6) A statement on the impact this waiver will have on U.S. shipyards. According to the applicant: "this waiver would have no impact on US shipyards. We have been using US ship yards for our yearly haul outs, maintenance and repairs."

Dated: March 19, 2002.

By Order of the Maritime Administrator.

Joel C. Richard,

Secretary, Maritime Administration.

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Docket Number: MARAD–2002–11874]

Requested Administrative Waiver of the Coastwise Trade Laws

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel TRADEWINDS.

SUMMARY: As authorized by Pub. L. 105–383, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by MARAD. The vessel, and a description of the proposed service, is listed below. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines that in accordance with Pub. L. 105–383 and MARAD's regulations at 46 CFR part 388 (65 FR 6905; February 11, 2000) that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels, a waiver will not be granted.

DATES: Submit comments on or before April 25, 2002.

ADDRESSES: Comments should refer to docket number MARAD–2002–11874. Written comments may be submitted by hand or by mail to the Docket Clerk, U.S. DOT Dockets, Room PL–401, Department of Transportation, 400 7th St., SW., Washington, DC 20590–0001. You may also send comments electronically via the Internet at *http://dmses.dot.gov/submit/*. All comments will become part of this docket and will be available for inspection and copying at the above address between 10 a.m. and 5 p.m., E.T., Monday through Friday, except federal holidays. An electronic version of this document and all documents entered into this docket is available on the World Wide Web at *http://dms.dot.gov*.

FOR FURTHER INFORMATION CONTACT: Kathleen Dunn, U.S. Department of Transportation, Maritime Administration, MAR–832 Room 7201, 400 Seventh Street, SW., Washington, DC 20590. Telephone 202–366–2307.

SUPPLEMENTARY INFORMATION: Title V of Pub. L. 105–383 provides authority to the Secretary of Transportation to administratively waive the U.S.-build requirements of the Jones Act, and other statutes, for small commercial passenger vessels (no more than 12 passengers). This authority has been delegated to the Maritime Administration per 49 CFR 1.66, Delegations to the Maritime Administrator, as amended. By this notice, MARAD is publishing information on a vessel for which a request for a U.S.-build waiver has been received, and for which MARAD requests comments from interested parties. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to

properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.

Vessel Proposed for Waiver of the U.S.-build Requirement:

(1) Name of vessel and owner for which waiver is requested.

Name of vessel: Tradewinds. Owner: Jay Hill, Daniel Tingley and Pam Tingley.

(2) Size, capacity and tonnage of vessel. *According to the applicant: "Size of vessel:* 37.9', *Capacity of Vessel:* 14 Net Tons or 32 persons, *Tonnage of Vessel:* 18 Gross Tons".

(3) Intended use for vessel, including geographic region of intended operation and trade. *According to the applicant: "Intended use for this vessel is three-fold as follows:* (1) Local knowledge indoctrination sailings from Kemah, Texas (Clear Lake) to Galveston, Texas (Galveston Island) including day sailing in the Gulf of Mexico coastal region not to exceed 20 miles offshore for hire with not more than four passengers. This indoctrination is designed to allow aspiring sailors who have participated in sail training programs, to move from inland waters to coastal and near-coastal environments with the advantage of experienced Captain and Crew aboard. (2) Sail training for American Sailing Association and US sailing Keelboat Certification Systems in the Gulf of Mexico and neighboring coastal waters including offshore passage making from Galveston Bay to Florida, Maine, Bahamas, and limited areas of Mexico * * * (3) Owners' personal recreational use."

(4) Date and Place of construction and (if applicable) rebuilding. *Date of construction:* 1977. *Place of construction:* Tamsui Taipei Hsien, Republic of China.

(5) A statement on the impact this waiver will have on other commercial passenger vessel operators. *According to the applicant:* "This waiver will allow an additional Uninspected Passenger Vessel to begin operations in the Galveston Bay area. Due to the targeted customer base, the only impacts we can foresee in the use of this vessel is its addition to the water traffic in the Clear Lake (Kemah Inlet) and Galveston Bay (Houston Ship Channel) waterways, and the addition of a Captained Charter Vessel in the area. After extensive research, we have found that existing operators are of the following types: (1) Inspected vessels that conduct short-duration bay cruises for hire, (2) inspected vessels that conduct guided fishing excursions, dinner cruises, or special event cruises for hire, (3) uninspected vessels that conduct near-shore sail training in the Galveston Bay direct regional area, (4) uninspected charter vessels where customers may hire a Captain to operate the vessel. We feel our niche in the market will not adversely affect any of the above operators."

(6) A statement on the impact this waiver will have on U.S. shipyards. *According to the applicant:* "This waiver for a single uninspected vessel with a passenger limit of six passengers will not adversely impact U.S. shipyards in that U.S. shipyards currently build/manufacture large quantities of vessels capable of performing the same intended uses listed in (3) above. No attempt to broker, endorse, sell, or advertise the vessel type and manufacturer in this waiver is intended nor will it be made. We simply enjoy the vessel and wish to use it in our business."

Dated: March 19, 2002.

By Order of the Maritime Administrator.

Joel C. Richard,

Secretary, Maritime Administration.

BILLING CODE 4910–81–P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Announcing the Eighth Quarterly Meeting of the Crash Injury Research and Engineering Network (CIREN)

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Meeting announcement.

SUMMARY: This notice announces the Eighth Quarterly Meeting of members of the Crash Injury Research and Engineering Network. CIREN is a collaborative effort to conduct research on crashes and injuries at ten Level 1 Trauma Centers linked by a computer network. Researchers can review data and share expertise, which could lead to a better understanding of crash injury mechanisms and the design of safer vehicles.

DATES AND TIMES: The meeting is scheduled from 9 a.m. to 5 p.m. on Thursday, April 25, 2002.

ADDRESSES: The meeting will be held at the U.S. Department of Transportation headquarters, 400 Seventh Street, SW, Room 2230, Washington, D.C. 20590.

SUPPLEMENTARY INFORMATION: The CIREN System has been established and crash cases have been entered into the database by each Center. CIREN cases may be viewed from the NHTSA/CIREN web site at: *http://www-nrd.nhtsa.dot.gov/include/bio_and_trauma/ciren-final.htm.* NHTSA has held three Annual Conferences where CIREN research results were presented. Further information about the three previous CIREN conferences is also available through the NHTSA website. NHTSA held the first quarterly meeting on May 5, 2000, with a topic of lower extremity injuries in motor vehicle crashes; the second quarterly meeting on July 21, 2000, with a topic of side impact crashes; the third quarterly meeting on November 30, 2000, with a topic of thoracic injuries in crashes; the fourth quarterly meeting on March 16, 2001, with a topic of offset frontal collisions; the fifth quarterly meeting on June 21, 2001, on CIREN outreach efforts; the sixth quarterly meeting (held in Ann Arbor, Michigan) with a topic of injuries involving sport utility vehicles, and the seventh quarterly meeting on December 6, 2001, with a topic of Age Related Injuries (Elderly and Children). Presentations from these meetings are available through the NHTSA website.

NHTSA plans to continue holding quarterly meetings on a regular basis to disseminate CIREN information to interested parties. This is the eighth such meeting. The topic for this meeting is Brain and Traumatic Head Injuries. Subsequent meetings have tentatively been scheduled for August 2002 and December 2002. These meetings are in lieu of an annual CIREN conference.

Please be aware that this is a closed building. Attendees to this meeting must present photo identification, pass through the xray and magnetometer, and be escorted to the meeting room so please allow sufficient time to complete this process.

Should it be necessary to cancel the meeting due to inclement weather or to any other emergencies, a decision to cancel will be made as soon as possible and posted immediately on NHTSA's web site *http://www.nhtsa.dot.gov/nhtsa/announce/meetings/.* If you do not have access to the web site, you may call the contact listed below and leave your telephone or fax number. You will be called only if the meeting is postponed or canceled.

FOR FURTHER INFORMATION CONTACT: Mrs. Donna Stemski, Office of Human-Centered Research, 400 Seventh Street, SW, Room 6220, Washington, DC 20590, telephone: (202) 366–5662.

Issued on: March 21, 2002.

Raymond P. Owings,

Associate Administrator for Research and Development, National Highway Traffic Safety Administration.

National Highway Traffic Safety Administration

[Docket No. NHTSA–2002–11780]

Notice of Receipt of Petition for Decision That Nonconforming 2001 and 2002 Vespa ET2 and ET4 Motor Scooters Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for decision that nonconforming 2001 and 2002 Vespa ET2 and ET4 motor scooters are eligible for importation.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that 2001 and 2002 Vespa ET2 and ET4 motor scooters that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because (1) they are substantially similar to vehicles that were originally manufactured for importation into and sale in the United States and that were certified by their manufacturer as complying with the safety standards, and (2) they are capable of being readily altered to conform to the standards.

DATES: The closing date for comments on the petition is April 25, 2002.

ADDRESSES: Comments should refer to the docket number and notice number, and be submitted to: Docket Management, Room PL–401, 400 Seventh St., SW., Washington, DC 20590. [Docket hours are from 9 am to 5 pm]

FOR FURTHER INFORMATION CONTACT: George Entwistle, Office of Vehicle Safety Compliance, NHTSA (202–366–5306).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register.**

Automobile Concepts, Inc. of North Miami, Florida ("ACI") (Registered Importer 01–278) has petitioned NHTSA to decide whether non-U.S. certified 2001 and 2002 Vespa ET2 and ET4 motor scooters are eligible for importation into the United States. The vehicles, which ACI believes are substantially similar, are 2001 and 2002 Vespa ET2 and ET4 motor scooters that were manufactured for importation into and sale in the United States and certified by their manufacturer, Piaggio & Co. SpA. as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared non-U.S. certified 2001 and 2002 Vespa ET2 and ET4 motor scooters to their U.S. certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.

ACI submitted information with its petition intended to demonstrate that non-U.S. certified 2001 and 2002 Vespa ET2 and ET4 motor scooters, as originally manufactured, conform to many Federal motor vehicle safety standards in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 2001 and 2002 Vespa ET2 and ET4 motor scooters are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 106 *Brake Hoses,* 116 *Brake Fluid,* 119 *New Pneumatic Tires for Vehicles other than Passenger Cars,* 122 *Motorcycle Brake Systems,* and 205 *Glazing Materials.*

The petitioner also states that the original manufacturer has stamped into the frame of each non-U.S. certified 2001 and 2002 Vespa ET2 and ET4 motor scooters a unique 17-digit vehicle identification number (VIN) that meets the requirements of 49 CFR Part 565.

Petitioner additionally contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated below:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:* (a) Replacement of all bulbs, including headlamp, stop lamp, and directional signals, with U.S.-certified components; (b) replacement of the stop lamp lens with a U.S.-certified component; (c) installation of U.S.-certified front amber reflectors; (d) installation of a U.S.-certified rear reflector; (e) installation of U.S.-certified rear red reflector.

Standard No. 111 *Rearview Mirrors:* Inscription of the required warning statement on the rearview mirrors, or replacement of those mirrors with U.S.-model components.

Standard No. 120 *Tire Selection and Rims for Vehicles other than Passenger Cars:* Installation of a tire information label that displays the recommended tire size, rim size, and cold inflation pressure. The petitioner states that the vehicles are equipped from the factory with rims that are marked in accordance with the standard, identical to those on their U.S.-certified counterparts.

Standard No. 123 *Motorcycle Controls and Displays:* (a) Installation of a U.S. model speedometer calibrated in miles per hour and a U.S. model odometer that measures distance traveled in miles; (b) installation of a supplemental engine stop control on the right side of the handlebar, identified as "engine stop," with "off" and "run" positions.

The petitioner states that when the vehicle has been brought into conformity with all applicable Federal motor vehicle safety standards, a certification label that meets the requirements of 49 CFR part 567 will be affixed to the frame of the motor scooter.

Comments should refer to the docket number and be submitted to: Docket Management, Room PL–401, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal**

DEPARTMENT OF THE TREASURY

Submission for OMB Review; Comment Request

March 20, 2002.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2110, 1425 New York Avenue, NW., Washington, DC 20220.

DATES: Written comments should be received on or before April 25, 2002, to be assured of consideration.

Internal Revenue Service (IRS)

OMB Number: 1545–0146.

Form Number: IRS Form 2553.

Type of Review: Extension.

Title: Election by a Small Business Corporation.

Description: Form 2553 is filed by a qualifying corporation to elect to be an S corporation as defined in Code section 1361. The information obtained is necessary to determine if the election should be accepted by the IRS. When the election is accepted, the qualifying corporation is classified as an S corporation and the corporation's income is taxed to the shareholders of the corporation.

Respondents: Business or other for-profit, farms.

Estimated Number of Respondents/Recordkeepers: 500,000.

Estimated Burden Hours Per Respondent/Recordkeeper:

Recordkeeping	8 hr., 51 min.
Learning about the law or the form	3 hr., 10 min.
Preparing, copying, assembling, and sending the form to the IRS	3 hr., 27 min.

Frequency of Response: Other (once).

Estimated Total Reporting/Recordkeeping Burden: 7,745,000 hours.

OMB Number: 1545–0819.

Regulation Project Number: 26 CFR 601.201.

Type of Review: Extension.

Title: Instructions for Requesting Rulings and Determination Letters.

Description: The National Office issues ruling letters and District Directors issue determination letters to taxpayers interpreting and applying the tax laws to a specific set of facts. The National Office also issues other types of letters. The procedural regulations set forth the instructions for requesting ruling and determination letters.

Respondents: Business or other for-profit, individuals or households, not-for-profit institutions, farms, Federal Government, State, Local or Tribal Government.

Estimated Number of Respondents: 271,914.

Estimated Burden Hours Per Respondent: 55 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 248,496 hours.

OMB Number: 1545–0988.

Form Number: IRS Form 8609 and Schedule A.

Type of Review: Extension.

Title: Low-Income Housing Credit Allocation Certification (8609); and Annual Statement (Schedule A).

Description: Owners of residential low-income rental buildings may claim a low-income housing credit for each qualified building over a 10-year credit period. Form 8609 is used to get a credit allocation from the housing-credit agency. The form, along with Schedule A, is used by the owner to certify necessary information required by the law.

Respondents: Business or other for-profit, individuals or households, State, Local or Tribal Government.

Estimated Number of Respondents/Recordkeepers: 120,000.

Estimated Burden Hours Per Respondent/Recordkeeper:

Form	Recordkeeping	Learning about the law or the form	Preparing and sending the form to the IRS
Form 8609	8 hr., 51 min.	3 hr., 4 min	3 hr., 21 min.
Schedule A (8609)	6 hr., 41 min.	1 hr., 12 min	1 hr. 20 min.

Frequency of Response: Annually.

Estimated Total Reporting/Recordkeeping Burden: 2,770,200 hours.

Clearance Officer: Glenn Kirkland, Internal Revenue Service, Room 6411, 1111 Constitution Avenue, NW, Washington, DC 20224.

OMB Reviewer: Alexander T. Hunt, Office of Management and Budget, Room 10202, New Executive Office Building, Washington, DC 20503, (202) 395–7860.

2002
UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4723–N–01]

Super Notice of Funding Availability (SuperNOFA) for HUD's Discretionary Grant Programs for Fiscal Year 2002

AGENCY: Office of the Secretary, HUD.

ACTION: Super Notice of Funding Availability (SuperNOFA) for HUD Discretionary Grant Programs.

SUMMARY: This Fiscal Year (FY) 2002 SuperNOFA announces the availability of approximately $2.2 billion in HUD program funds covering 41 grant categories within programs operated and administered by HUD offices. The General Section of this SuperNOFA provides the application procedures and requirements that are applicable to all the programs in this SuperNOFA. The Program Section of this SuperNOFA provides a description of the specific programs for which funding is made available and describes any additional procedures and requirements that are applicable to a specific program. Please be sure you read both the General Section and the Program Section of this SuperNOFA to ensure you respond to all the requirements for funding.

APPLICATION DUE DATES: The information in this "APPLICATION DUE DATES" section applies to all programs that are part of this SuperNOFA. You, the applicant, must submit a completed application to HUD on or before the respective program's application due date. Application due dates can be found in the HUD FY 2002 SuperNOFA Funding Chart located in this General Section. Information for each program is reiterated in the appropriate Program Section of this SuperNOFA. HUD will not accept any applications sent by facsimile (fax).

ADDRESSES AND APPLICATION SUBMISSION PROCEDURES:

New Security Procedures. HUD has implemented new security procedures that apply to application submission. Please read the following instructions carefully and completely. HUD's new policy is:

- No hand deliveries will be accepted;
- Applications sent to the Robert C. Weaver HUD Headquarters Building or the Public and Indian Housing Grants Management Center may only be shipped using DHL, Falcon Carrier, Federal Express (FedEx), United Parcel Service (UPS), or United States Postal Service (USPS);
- Applications submitted to HUD Field Offices must be sent via the USPS;
- All mailed applications must be postmarked on or before midnight of their due date and received within 15 days of the due date; and,
- All applicants who mail applications must have a Certificate of Mailing (USPS Form 3817) as their documentary evidence that the application was filed on time.

Addresses. You, the applicant, must submit a complete application and the required number of copies to the locations identified in the Program Section of this SuperNOFA. When submitting your application, you must refer to the name of the program for which you are seeking funding.

If your application is due to the Robert C. Weaver Building, HUD Headquarters, you must send the application to the following address: Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410. Applications submitted to the Public and Indian Housing Grants Management Center (GMC) should be addressed to Grants Management Center, 501 School Street, SW, Suite 800, Washington, DC 20024. (See the HUD FY 2002 SuperNOFA Funding Chart or Program Section for room location and additional information regarding the addresses for application submission.) Please make sure that you note the correct room number to ensure that your application is not misdirected. Addresses for HUD Field Offices are listed in Appendix A–1 of the General Section of this SuperNOFA.

Applications Sent by Overnight/Express Mail Delivery to HUD Headquarters or the Public and Indian Housing Grants Management Center. If your application is sent by overnight delivery or express mail to HUD Headquarters or the Public and Indian Housing Grants Management Center, your application will be filed on time if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service no later than the application due date. Delivery must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM, Eastern Time, Monday through Friday.

Copies of Applications. The Program Section of this SuperNOFA may specify that to facilitate the processing and review of your application, one or more copies of the application also must be sent to an additional HUD location (for example, a copy to the HUD Field Office and the original application to HUD Headquarters). Please follow the directions of the Program Section to ensure that you submit your application to the proper location(s). If you are required to submit applications to HUD Headquarters *and* Field Offices, timeliness of submission will be based on the time your application is received at HUD Headquarters.

FOR APPLICATION KITS, FURTHER INFORMATION AND TECHNICAL ASSISTANCE: The information in this section is applicable to all programs that are part of this SuperNOFA. This section describes how you may obtain application kits, additional information about the SuperNOFA, and technical assistance. A guidebook to HUD programs titled "Connecting with Communities: A User's Guide to HUD Programs and the 2002 SuperNOFA process" is available from the SuperNOFA Information Center and the HUD website at www.hud.gov. This guidebook provides a brief description of all HUD programs, a description of the SuperNOFA programs, eligible applicants for these programs, and examples of how programs can work in combination to serve local community needs. To obtain a guidebook, application kit, or print copy of the General Section or program NOFA, call the SuperNOFA Information Center at 1–800–HUD–8929 or 1–800–HUD–2209 (TTY). Copies of all documents related to the SuperNOFA may be downloaded from HUD's website, www.hud.gov.

For Application Kits and SuperNOFA User Guide. HUD is pleased to provide you with instructions for applying for all HUD programs that are part of this SuperNOFA. The instructions are designed to guide you through the application process and ensure that your application addresses all requirements for the program funding you are seeking. For some announcements of funding availability in this SuperNOFA, HUD provides an application kit; for others, no application kit is required. Each Program Section will specify whether there is an application kit, or only the instructions in the SuperNOFA.

Please note that if there is a discrepancy between information provided in the application kit and the information provided in the published SuperNOFA, the information in the published SuperNOFA prevails. Therefore, please be sure to review your application submission against the requirements in the SuperNOFA.

You may request general information and application kits from the SuperNOFA Information Center (1–800–HUD–8929 or 1–800–HUD–2209 (TTY)). When requesting an application kit, please refer to the name of the program you are interested in. Be sure to provide your name, address (including zip code), and telephone number (including area code). To ensure sufficient time to prepare your application, requests for application kits can be made immediately following publication of the SuperNOFA. The SuperNOFA Information Center opens for business simultaneously with the publication of the SuperNOFA. You can also obtain information on this SuperNOFA and application kits for this SuperNOFA through the HUD website, www.hud.gov.

Consolidated Application Submissions. If you, the applicant, would like to apply for funding under more than one program in this SuperNOFA, you need only submit one original SF–424 and set of assurances and certifications, accompanied by the HUD–424M provided in this SuperNOFA. Once you have submitted one original set of forms, certifications, and assurances, you need send only copies of these standard items with any additional application you submit. Make sure to specify the correct program, however, on each copy of the SF–424 application form and indicate the program to which you have submitted the original signature forms for the standard assurances and certifications. Additionally, the Program Section may specify additional forms, certifications, assurances, or other information that may be required for a particular program in this SuperNOFA.

For Further Information. For answers to questions you may have about this SuperNOFA, you have several options. You may call the SuperNOFA Information Center at 1–800–HUD–8929 or 1–800–HUD–2209 (TTY) between the hours of 9:00 AM and 8:00 PM Eastern Time or you may contact the HUD Office or Processing Center serving your area at the telephone number listed in the SuperNOFA for the program in which you are interested. You may also obtain information on this SuperNOFA and application kits for this SuperNOFA through the HUD website, www.hud.gov.

For Technical Assistance. Before the application due date, HUD staff will be available to provide you with general guidance and technical assistance about this SuperNOFA. However, HUD staff are not permitted to assist in preparing your application. Following selection of applicants, but before awards are made, HUD staff are available to assist in clarifying or confirming information that is a prerequisite to the offer of an award or Annual Contributions Contract (ACC) by HUD.

Satellite Broadcasts. HUD will hold information broadcasts via satellite for potential applicants to learn more about the programs in this SuperNOFA and preparation of the applications. For more information about the date and time of each broadcast, consult the HUD website, www.hud.gov.

Streamlining Grants. The Federal Financial Assistance Management Improvement Act of 1999 (Public Law 106–107) directs each Federal agency to develop and implement a plan that, among other things, streamlines and simplifies the application, administrative, and reporting procedures for Federal financial assistance programs administered by the agency. This law also requires the Director of the Office of Management and Budget (OMB) to direct, coordinate, and assist Federal agencies in establishing (1) a common application and reporting system and, (2) an interagency process for addressing ways to streamline and simplify Federal financial assistance application and administrative procedures and reporting requirements for program applicants.

This law also requires OMB to consult with the grantee community as it works with the Federal agencies to develop and implement the course of action that would be undertaken by the Federal agencies to establish an electronic site for accessing grant information and applications. Over the last year, HUD has held outreach sessions informing you of the goals of this new law and seeking your input as the Federal agencies work together to achieve implementation. To find out about the work being done by the Federal agencies to streamline and consolidate the grant application and reporting requirements please go to www.iaegc.gov.

HUD is an active member in the Federal agency working group working to streamline grant application requirements and has established a website where you can obtain information about all grant programs within HUD. You can access this site from our homepage at www.hud.gov by clicking on "HUD Program inventory." In the future, HUD plans to link this site to grant information of other Federal agencies. If you are interested in finding out more about the "Federal Commons" and the work being done by other agencies, please visit the Inter-Agency Electronic Grants Committee (IAEGC) website at www.fedcommons.gov.

Introduction to the FY 2002 SuperNOFA

HUD'S FY 2002 SUPERNOFA PROCESS

Background

This is the fifth year HUD is issuing a SuperNOFA for the majority of its competitive grant programs and other financial assistance programs. The SuperNOFA announces the availability of the majority of HUD's discretionary funds. The document is designed to simplify the application process, bring consistency and uniformity to the application and selection process, and make it easier to find funding opportunities available from the Department because they are released early in the year and at the same time. Equally important, the SuperNOFA approach is designed to increase the ability of applicants to consider and apply for funding under a wide variety of HUD programs. The SuperNOFA provides a "menu" of HUD programs. From this menu, communities will be made aware of funding available for their jurisdictions. Non-profit organizations, public housing agencies, local and State governments, tribal governments and tribally-designated housing entities, veterans service organizations, faith-based and other community-based non-profit organizations, and others will be able to identify the programs for which they are eligible for funding.

By providing access to information about available funding at one time, HUD believes applicants are better able to coordinate service within communities to avoid duplication and more efficiently serve those most in need of assistance.

HUD's Strategic Goals

As part of its internal strategic planning processes, the Department has re-assessed its policy goals and priorities for the next five years and, as a result, is in the process of updating the HUD Strategic Plan framework. Activities funded through this SuperNOFA are meant, to the extent practicable, to support the new Strategic Goals described below. Note that these goals reflect an interim change to HUD's Strategic Plan. In FY 2002, the Department will fully revise its Strategic Plan after consultation with stakeholders and Congress.

Strategic Goal 1: Make the home-buying process less complicated, the paperwork less demanding and the mortgage process less expensive. This is a new Strategic Goal that will help to focus the Department's work in

2002
UMI

enforcing the Real Estate Settlement Procedures Act and countering predatory lending. HUD's activities under this Strategic Goal will help to make homeownership more accessible and less expensive for millions of families and help protect them from predatory lending.

Strategic Goal 2: Help families move from rental housing to homeownership. HUD's second Strategic Goal focuses on HUD's activities to expand homeownership opportunities for minorities, persons with disabilities, and other Americans, and to help families that rent be able to afford the costs of rental housing.

Strategic Goal 3: Improve the quality of public housing and provide more choices for its residents. HUD's goals for its public and assisted housing programs go beyond simply providing affordable housing. HUD also strives to improve the *quality* of the housing opportunities provided to families in public and assisted housing. This Goal focuses on improving the management accountability and physical conditions of public and assisted housing and on maximizing the potential of these programs to help families make progress towards self-sufficiency and become homeowners.

Strategic Goal 4: Strengthen and expand faith-based and other community partnerships that enhance communities. HUD has a long and rich history of cooperating with faith-based and other community-based organizations to address the needs of underserved communities, including the needs of those Americans for whom homelessness, the lack of affordable housing, and limited alternatives for special needs housing lead to despair and hopelessness. Building on this history, HUD plans to strengthen and expand its partnerships with faith-based and other community-based groups to take further advantage of their capacity to provide quality services to communities and families.

Strategic Goal 5: Effectively address the challenge of homelessness. HUD is the primary agency responsible for providing housing and related resources to prevent homelessness and help homeless families and individuals move to permanent housing. HUD has a number of objectives with respect to its homelessness work, including that of ending chronic homelessness in 10 years.

Strategic Goal 6: Embrace high standards of ethics, management and accountability. In order to be effective in meeting HUD's other Strategic Goals, it is essential that HUD and HUD's partners embrace high standards of ethics, management, and accountability. The Secretary has established improved ethics and accountability of HUD staff and HUD's partners as "perhaps the most important" of HUD's priorities. This Goal cuts across all of HUD's programs and applies to each HUD employee and to every organization that partners with HUD to help HUD accomplish its mission.

Strategic Goal 7: Ensure equal opportunity and access to housing. HUD's core mission has always been to help families find affordable and decent housing. This mission will be fulfilled when all Americans are given an equal opportunity to buy or rent housing that matches their individual needs. Unfortunately, instances of discrimination against minorities, architectural barriers to persons with disabilities, and a lack of housing options for the elderly have all combined to exclude some Americans from enjoying the fruits of America's prosperity. HUD is committed to ending the practice of discrimination through enforcement of fair housing laws as well as through educating lenders, landlords, and tenants in complying with the laws.

Strategic Goal 8: Support community and economic development efforts. HUD funds a variety of programs that help to support the community and economic development efforts of state and local communities. The largest of these programs is the Community Development Block Grant program. Other programs include Section 108 loan guarantees, the Brownfields Economic Development Initiative, the Lead Hazard Reduction and the Healthy Homes Program, the University Partnership Programs, the Indian Community Development Block Grant and Renewal Communities, Empowerment Zones and Enterprise Communities. Additionally, HUD's Native eDGE initiative supports a telephone call center, a publications clearinghouse, website, and a technical assistance information center so that tribes, Native Americans, lending institutions, and private businesses wishing to do business with Tribal governments and entities can collaborate to promote economic growth.

Changes in the SuperNOFA Process for FY 2002

Rating Factors. Applications for most programs in this SuperNOFA will be rated according to five standard Rating Factors (see Section III (C) below). For FY 2002, Rating Factor 5, "Coordination, Self-Sufficiency and Sustainability," has been expanded to reflect this Administration's priority for fostering self-sufficiency.

Coordination means you, the applicant, are working with other organizations that are *not* directly participating in your proposed work activities and have agreed to share information and outcomes that result from the successful completion of your activities, so that the other organizations and members of the community can benefit from the results and improve the overall success of related activities within the community. The goal of coordination is to ensure that programs do not operate in isolation. Coordination looks beyond the support given to the applicant's program claimed by the applicant under Rating Factor 4, Leveraging, and asks "How does the applicant's program fit into other activities and programs that are being carried out by others in the community?"

Self-sufficiency refers to the extent to which proposed activities can result in increased independence and empowerment. Increased independence can result from expanded job opportunities, homeownership, or housing in a wider range of neighborhoods, additional educational opportunities, and improved living environments.

Sustainability refers to two distinct issues: (1) The potential for an applicant organization to become financially self-sustaining; and, (2) the potential of a specific project or activity to be sustained into the future absent any HUD funding. Just as a business plan presents to a commercial lender an outline of a course of action for an organization to become profitable, the information in the application for this factor will outline a realistic path for the applicant to become financially independent without a need for continued HUD funding.

Applicant Debriefing. Beginning not less than 30 days after the awards for assistance are announced in the **Federal Register**, and for at least 120 days after awards for assistance are announced, HUD will provide any requesting applicant with a debriefing on their application. All requests for debriefing must be made in writing or by email by the authorized official whose signature appears on the SF–424 or his or her successor in office. Submit your request to the person or organization identified as the Contact under the section entitled "Further Information and Technical Assistance" or as specified in the Program Section of the SuperNOFA under which you applied for assistance. Information provided to you during your debriefing will include, at a minimum, the final score you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

Points Deducted for Poor Performance. As part of HUD's efforts to place greater emphasis on accountability, applicants who received prior awards and failed to meet their program goals may have points deducted from their rating score. Specific details on how points will be deducted are included, as applicable, in the Program Section of the SuperNOFA.

New Programs and Changes to Programs. The FY 2002 SuperNOFA includes the following new funding opportunities:

- Housing Counseling Services Targeting the Colonias;
- Public Housing Resident Opportunity and Self-Sufficiency (ROSS) for Neighborhood Networks Program; and
- Public Housing Resident Opportunity and Self-Sufficiency (ROSS) for Homeownership Supportive Services Program.

Funding opportunities that have changed significantly or been renamed include:

- Housing Choice Voucher (HCV) Family Self-Sufficiency (FSS) Program Coordinators Program, replacing Family Self Sufficiency (FSS) Program Coordinators;
- Healthy Homes Demonstration Program, replacing the Healthy Homes Demonstration and Education Program of Fiscal Year 2001; and
- Healthy Homes and Lead Technical Studies, replacing the program for Healthy Homes Research.

Not Available for FY 2002. Funding opportunities that were part of the FY 2001 SuperNOFA but are not available in FY 2002 are:

- Public Housing Drug Elimination—Technical Assistance Program (DETAP);
- Indian Housing Drug Elimination Program;
- Drug Elimination New Approach Anti-Drug Program;
- Drug Elimination Grants for Multifamily Low Income Housing; and,
- Community Housing Development Organization (CHDO) TA.

Funding will be announced later in the year for:

- Revitalization of Severely Distressed Public Housing (HOPE VI);
- Homeownership Research Studies;
- Lead Elimination Action Program (LEAP); and
- Urban Scholars Fellowship Program.

Funding Notices Issued Prior to the SuperNOFA. Due to statutory deadlines for the obligation of funds or for other reasons, there are several programs that have been issued prior to the SuperNOFA. These include:

- Fair Share Allocation of Incremental Voucher Funding;
- Community Development Work Study Program; and
- Capacity Building for Community Development and Affordable Housing. Information on these programs is available on the HUD website at *www.hud.gov.*

Changes to the HOPE VI Program. As indicated earlier, HOPE VI is not included in the FY 2002 SuperNOFA. The HOPE VI NOFA will be published separately in the **Federal Register** at a later date and will be posted on the HUD website, www.hud.gov. Each eligible PHA will receive a HOPE VI Application Kit that will also include the published NOFA. HUD anticipates that the FY 2002 HOPE VI NOFA will reflect some significant changes. Thresholds and rating criteria are being re-examined with a particular emphasis on issues of project readiness, extent of severe distress, leverage, grant amounts and distribution, homeownership, and relocation-related services.

Changes to Policy Priorities. Section VI of this SuperNOFA has been updated to reflect the changes in policy priorities. Please be sure to read the section carefully. Among the new priorities are the inclusion of faith-based and other community-based organizations in program development and implementation, and an emphasis on services to the Colonias. This SuperNOFA also reflects administrative initiatives announced by the Secretary, including a commitment to core values and ethical business practices and an intention to foster intergovernmental partnership and strengthen state and local participation in Federal programs.

Organization of the SuperNOFA

The SuperNOFA is divided into two major sections, the General Section and the Program Section. The General Section of the SuperNOFA describes the procedures and requirements applicable to all applications. The Program Section of the SuperNOFA describes each program and program component that is part of this SuperNOFA. For each funding opportunity, the Program Section describes the eligible applicants, eligible activities, factors for award, and any additional requirements or limitations. Please read both sections carefully to be sure your application is complete. Your attention to the sections will ensure that you apply for funding for which your organization is eligible and that you fulfill all the requirements for application submission.

As part of the simplification of this funding process and to avoid duplication of effort, the SuperNOFA provides for consolidated applications for several of the programs that are part of this SuperNOFA. HUD programs that provide assistance for, or complement, similar activities (for example, the Continuum of Care programs and CPD Technical Assistance programs) have a consolidated application that reduces the administrative and paperwork burden applicants would otherwise encounter. The Program Chart in this introductory section of the SuperNOFA identifies the programs that have been consolidated and for which a consolidated application is made available to eligible applicants.

HUD provides copies of all required forms in this publication. The standard forms, certifications, and assurances applicable to all programs, or the great majority of programs, in the SuperNOFA follow the General Section as Appendix B. The forms and any additional certifications and assurances that are unique to the individual program will follow that program section of the SuperNOFA.

The specific statutory and regulatory requirements of the programs that are part of this SuperNOFA continue to apply to each program. The SuperNOFA will identify, where necessary, the statutory requirements and differences applicable to the specific programs. *Please pay careful attention to the specific submission requirements that are identified for each funding opportunity. Not all applicants are eligible to receive assistance under all funding opportunities identified in this SuperNOFA.*

The Programs of This SuperNOFA and the Amount of Funds Allocated

The funding opportunities that are part of this SuperNOFA are identified in the following chart. The amount of funds available is based on funds appropriated in FY 2002 and funds recaptured from prior years' appropriations. In the event that HUD recaptures program funds or other funds become available for a program, HUD reserves the right to increase the available funding by these additional amounts.

The chart also includes the application due date, the OMB approval number for the information collection requirements, and the Catalog of Federal Domestic Assistance (CFDA) number for each funding opportunity.

BILLING CODE 4210–32–P

HUD FY 2002 SuperNOFA Funding

Program Name	Funding Available (funding is approximate)	Application Due Date	Submission Location and Room
HOUSING AND COMMUNITY DEVELOPMENT			
Community Development Technical Assistance (TA)	**Up to $10 million**		
HOME TA CFDA No. 14.239 OMB Approval No: 2506-0166	Up to $5 Million	June 7, 2002	HUD Headquarters Room 7251 and a copy to appropriate local HUD Office

Doctoral Dissertation Research Grant Program CFDA No.: 14.516 OMB Approval No.: 2528-0213	Up to $400,000	June 20, 2002	HUD Headquarters Room 8106

VOL 67 ISS 58 MR 26 2002 UMI

Paperwork Reduction Act Statement. The information collection requirements in this SuperNOFA have been approved by OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The preceding chart provides the OMB approval number for each program that is part of this SuperNOFA. Where the chart notes that an OMB number is pending, this means that HUD has submitted the information to OMB to obtain an approval number and HUD's request for the number is pending. As soon as HUD receives the approval number, the number will be published in the **Federal Register** and provided to the SuperNOFA Information Center. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

General Section of the SuperNOFA

I. Authority, Purposes of the FY 2002 SuperNOFA, Funding Amounts, Restrictions Concerning Tobacco Products and Eligible Applicants and Activities

(A) *Authority.* HUD's authority for making funding available under this SuperNOFA is the FY 2002 Department of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations Act, Public Law 107–73, approved November 26, 2001 (FY 2002 HUD Appropriations Act). Generally, this statement of authority is not repeated in the individual program sections of this SuperNOFA. The authority provision in the program sections identifies additional statutes and regulations that authorize the requirements listed for the funding competitions that make up this SuperNOFA.

(B) *Purposes.* The purposes of this SuperNOFA are to:

(1) *Make funding available to empower communities and residents.* The funding made available by this SuperNOFA will assist community leaders and residents, including low- and moderate-income residents and faith-based and other community-based grassroots organizations, in using HUD funds to develop viable communities and provide decent housing for all citizens, without discrimination.

(2) *Simplify the application process for funding under HUD programs.* For the majority of funding in this year's SuperNOFA, the SuperNOFA continues to provide a single, uniform set of rating factors and submission requirements. This year's SuperNOFA also allows you, the applicant, to apply for more than one program with a single application.

(3) *Promote comprehensive approaches to housing and community development.* Through the SuperNOFA process, HUD encourages you, the applicant, to focus on the interrelationships that exist in your community and in the use of HUD's funding programs to build community-wide efforts that coordinate the resources of multiple applicants and programs. To successfully address community needs, solve community problems, and take advantage of existing resources, HUD encourages members of a community to join together and pool all available resources in a common, coordinated effort. By making all of HUD's competitive funding available in one document, HUD encourages you, the applicant, to be able to relate the activities proposed for funding under this SuperNOFA to the community's Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI). Applicants who demonstrate a coordinated effort will obtain higher scores than applicants who do not.

(4) *Promote self-sufficiency and economic opportunity* for the persons and communities being served by your program of activities. HUD's goal is to promote the self-sufficiency of those most in need of assistance, ensuring that the funds provided can result in measurable progress in increasing homeownership opportunities for low income and minority households, providing training and job opportunities so individuals and families can be economically self-sufficient, and better coordinating the delivery of services to homeless persons, persons with disabilities and minorities or residents where English may be a second language.

(C) *Funding Available.* As noted in the Introductory Section of this SuperNOFA, the HUD programs in this SuperNOFA are allocated amounts based on appropriated funds. If HUD recaptures funds in any program, HUD reserves the right to increase the available funding by those amounts.

(D) *Restrictions on the Use of HUD Funds in Support of the Sale of Tobacco Products.* Section 211 of the FY 2001 HUD Appropriations Act prohibits the use of HUD funds to construct, operate, or otherwise benefit a facility or facilities with a designated portion that sells or intends to sell predominantly cigarettes or other tobacco products. The Act defines the predominant sale of cigarettes or other tobacco products to mean sales representing more than 35 percent of annual in-store, non-fuel sales. Therefore, any programs funded with remaining or recaptured FY 2001 funds must adhere to this prohibition.

(E) *Eligible Applicants and Eligible Activities.* The Program Section of the SuperNOFA describes the eligible applicants and eligible activities for each program.

II. Requirements and Procedures Applicable to All Programs

Except as may be modified in the Program Section of this SuperNOFA, the requirements, procedures and principles listed below apply to all programs that are part of this SuperNOFA. Please read the Program Section of the SuperNOFA for additional requirements or information.

(A) *Statutory Requirements.* To be eligible for funding under this SuperNOFA, you, the applicant, must meet all statutory and regulatory requirements applicable to the program or programs for which funding is sought. If you need copies of the program regulations, they are available from the SuperNOFA Information Center or through the HUD website, www.hud.gov. HUD will not consider an application from an ineligible applicant. See the Program Section for instructions on how HUD will respond to proposed activities that are ineligible. With the exception of the Section 202 and Section 811 programs, HUD may also eliminate the ineligible activities from funding consideration and reduce grant amounts accordingly.

(B) *Threshold Requirements.*

(1) *Compliance with Fair Housing and Civil Rights Laws.*

(a) With the exception of federally recognized Indian tribes and their instrumentalities, all applicants and their subrecipients must comply with all Fair Housing and Civil Rights laws, statutes, regulations, and Executive Orders as enumerated in 24 CFR 5.105(a). If you are a federally recognized Indian tribe, you must comply with the non-discrimination provisions enumerated at 24 CFR 1003.601, as applicable. In addition to these requirements, there may be program-specific threshold requirements identified in the Program Sections of the SuperNOFA.

(b) If you, the applicant:

(i) Have been charged with a systemic violation of the Fair Housing Act alleging ongoing discrimination;

(ii) Are a defendant in a Fair Housing Act lawsuit filed by the Department of Justice alleging an on-going pattern or practice of discrimination; or,

(iii) Have received a letter of non-compliance findings under Title VI, Section 504, or Section 109, and if the charge, lawsuit, or letter of findings has not been resolved to HUD's satisfaction before the application deadline stated in the individual program NOFA, you may not apply for assistance under this SuperNOFA. HUD will not rate and rank your application. HUD's decision regarding whether a charge, lawsuit, or a letter of findings has been satisfactorily resolved will be based upon whether appropriate actions have been taken to address allegations of on-going discrimination in the policies or practices involved in the charge, lawsuit, or letter of findings.

(2) *Conducting Business In Accordance With Core Values and Ethical Standards.* Entities subject to 24 CFR Parts 84 and 85 (most non-profit organizations and State, local and tribal governments or government agencies or instrumentalities who receive Federal awards of financial assistance) are required to develop and maintain a written code of conduct (see Sections 84.42 and 85.36(b)(3)). Consistent with regulations governing specific programs, your code of conduct must: prohibit real and apparent conflicts of interest that may arise among officers, employees, or agents; prohibit the solicitation and acceptance of gifts or gratuities by your officers, employees and agents for their personal benefit in excess of minimal value; and, outline administrative and disciplinary actions available to remedy violations of such standards. If awarded assistance under this SuperNOFA, you will be required, prior to entering into a grant agreement with HUD, to submit a copy of your code of conduct and describe the methods you will use to ensure that all officers, employees, and agents of your organization are aware of your code of conduct.

(3) *Other Threshold Requirements.* The Program Section for the funding for which you are applying may specify other threshold requirements. Additional threshold requirements may be identified in the discussion of "eligibility" requirements in the Program Section.

(C) *Additional Non-discrimination Requirements.* You, the applicant, and your subrecipients must comply with the Americans with Disabilities Act of 1990 (42 U.S.C. 1201 *et seq.*) and Title IX of the Education Amendments Act of 1972 (20 U.S.C. 1681 *et seq*).

(D) *Affirmatively Furthering Fair Housing.* Under Section 808(e)(5) of the Fair Housing Act, HUD is obliged to affirmatively further fair housing. HUD requires the same of its grant recipients. Unless otherwise specified in the Program Section of this SuperNOFA, if you are a successful applicant, you will have a duty to affirmatively further fair housing opportunities for classes protected under the Fair Housing Act. Protected classes are color, national origin, religion, sex, disability or perceived ability, and family status. Unless otherwise instructed in the Program Section of this SuperNOFA, your application must include specific steps to:

(1) Overcome the effects of impediments to fair housing that were identified in the jurisdiction's Analysis of Impediments (AI) to Fair Housing Choice;

(2) Remedy discrimination in housing; and/or

(3) Promote fair housing rights and fair housing choice.

Further, you, the applicant, have a duty to carry out the specific activities provided in your responses to the SuperNOFA rating factors that address affirmatively furthering fair housing. Please see the Program Section of this SuperNOFA for further information.

The requirements to affirmatively further fair housing apply to:

- Alaskan Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC);
- Assisted Living Conversion Program (ALCP) for Eligible Multifamily Housing Projects;
- Brownfields Economic Development Initiative (BEDI);
- Community Outreach Partnership Centers (COPC);
- Continuum of Care Homeless Assistance Programs (SHP, Shelter Plus Care, Section 8 Moderate Rehab);
- Fair Housing Initiatives Program (FHIP);
- Funding Availability for Rental Certificate/Housing Choice Voucher Family Self-Sufficiency (FSS) Program;
- Healthy Homes Demonstration Program;
- Healthy Homes Initiative and Lead Technical Studies;
- Hispanic-Serving Institutions Assisting Communities (HSIAC);
- Historically Black Colleges and Universities (HBCU) Program;
- Housing Counseling;
- Housing Opportunities for Persons With AIDS (HOPWA);
- Lead Hazard Control Program;
- Mainstream Housing Opportunities for Persons with Disabilities;
- Public Housing Resident Opportunities and Self-Sufficiency (ROSS) Program;
- Rental Assistance for Non-Elderly Persons with Disabilities in Support of Designated Housing Plans;
- Rental Assistance for Non-Elderly Persons with Disabilities Related to Certain Developments;
- Resident Opportunities for Self-Sufficiency (ROSS) for Homeownership Supportive Services;
- Rural Housing and Economic Development (RHED);
- Section 202 Supportive Housing for Elderly Persons;
- Section 811 Supportive Housing for Persons with Disabilities;
- Self-Help Homeownership Opportunity Program (SHOP);
- Service Coordinators in Multifamily Housing; and
- YouthBuild Program.

(E) *Economic Opportunities for Low- and Very Low-Income Persons (Section 3).* Certain programs in this SuperNOFA require recipients of assistance to comply with Section 3 of the Housing and Urban Development Act of 1968 (Section 3), 12 U.S.C. 1701u (Economic Opportunities for Low- and Very Low-Income Persons in Connection with Assisted Projects) and the HUD regulations at 24 CFR part 135, including the reporting requirements at subpart E. Section 3 requires recipients to ensure that, to the greatest extent feasible, training, employment and other economic opportunities will be directed to low- and very-low income persons, particularly those who are recipients of government assistance for housing, and business concerns which provide economic opportunities to low- and very low-income persons. As noted in the Program Section of this SuperNOFA, Section 3 is applicable to the following programs:

- Alaska Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC);
- Assisted Living Conversion Program (ALCP);
- Brownfields Economic Development Initiative (BEDI);
- Community Development Block Grant Program for Indian Tribes and Alaska Native Villages;
- Continuum of Care Homeless Assistance Programs;
- Healthy Homes and Lead Technical Studies;
- Healthy Homes Demonstration Program;
- Hispanic-Serving Institutions Assisting Communities (HSIAC);
- Historically Black Colleges and Universities (HBCU) Program;
- Housing Opportunities for Persons With AIDS (HOPWA);
- Lead Hazard Control;
- Resident Opportunities and Self-Sufficiency Program (ROSS);
- Section 202 Supportive Housing for the Elderly Program;
- Section 811 Supportive Housing for Persons with Disabilities Program.
- Self-Help Homeownership Opportunity Program (SHOP); and
- YouthBuild Program.

(F) *Ensuring the Participation of Small Businesses, Small Disadvantaged*

VOL
67
ISS
58
MR
26
2002
UMI

Businesses, and Women-Owned Businesses. HUD is committed to ensuring that small businesses, small disadvantaged businesses, and women-owned businesses participate fully in HUD's direct contracting and in contracting opportunities generated by HUD grant funds. Too often, these businesses still experience difficulty accessing information and successfully bidding on Federal contracts. State, local, and tribal governments are required by 24 CFR 85.36(e) and non-profit recipients of assistance (grantees and sub-grantees) by 24 CFR 84.44(b), to take all necessary affirmative steps in contracting for purchase of goods or services to assure that minority firms, women's business enterprises, and labor surplus area firms are used when possible, or as specified in the Program Section.

(G) *Relocation.* The relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and the implementing government-wide regulation at 49 CFR part 24 cover any person who moves permanently from real property or moves personal property from real property directly because of acquisition, rehabilitation, or demolition for an activity undertaken with HUD assistance. Some HUD program regulations also cover persons who are temporarily relocated.

Applicants should review the regulations for the programs for which they are applying when planning their project.

(H) *Forms, Certifications, and Assurances.* You, the applicant, are required to submit signed copies of the standard forms, certifications, and assurances listed in this section, unless the requirements in the Program Section specify otherwise. Also, the Program Section may specify additional forms, certifications, assurances or other information that may be required for a particular program in this SuperNOFA.

As part of HUD's continuing efforts to improve the SuperNOFA process, several of the required standard forms have been simplified this year. The standard forms, certifications, and assurances are:

- Standard Form for Application for Federal Assistance (SF–424) (which includes civil rights/fair housing certification);
- Federal Assistance Funding Matrix and Certifications, (HUD–424M);
- Standard Form for Budget Information—Non-Construction Programs (SF–424A) or Standard Form for Budget Information-Construction Programs (SF–424C), as applicable;
- Standard Form for Assurances—Non-Construction Programs (SF–424B) or Standard Form for Assurances—Construction Programs (SF–424D), as applicable;
- Drug-Free Workplace Certification (HUD–50070);
- Certification of Payments to Influence Federal Transaction (HUD–50071) and, if engaged in lobbying, the Disclosure Form Regarding Lobbying (SF–LLL) (federally recognized tribes and tribally designated housing entities (TDHEs) established by federally recognized Indian tribes as a result of the exercise of the tribe's sovereign power are excluded from coverage of the Byrd Amendment, but State recognized Indian tribes and TDHEs established under State law are required to submit this certification);
- Applicant/Recipient Disclosure/Update Report (HUD–2880);
- Certification Regarding Debarment and Suspension (HUD–2992) as required by 24 CFR 24.510 (The provisions of 24 CFR part 24 apply to the employment, engagement of services, awarding of contracts, sub-grants, or funding of any recipients, or contractors or subcontractors, during any period of debarment, suspension, or placement in ineligibility status, and a certification is required);
- Certification of Consistency with RC/EZ/EC Strategic Plan (HUD–2990), if applicable;
- Certification of Consistency with the Consolidated Plan (HUD–2991) if applicable;
- Acknowledgment of Application Receipt (HUD–2993); and,
- Client Comments and Suggestions (HUD 2994).

Copies of these standard forms follow this General Section of the SuperNOFA. Copies of forms that are particular to an individual program follow the funding information for that program. Also included in Appendix B to the General Section is the Funding Application for the Housing Choice Voucher Program (HUD 52515).

Note: Forms SF–424A and SF–424C ask for information which is similar to the information required by form HUD 4123—Cost Summary which is listed as a required form under the ICDBG Program Section of this SuperNOFA and which is a required form for that program. Also note that there are assurances separate from SF–424B and 424D for the ICDBG program, which are specific to that program.

(I) *OMB Circulars and Government-wide Regulations Applicable to Grant Programs.* Certain OMB circulars also apply to programs in this SuperNOFA. The policies, guidance, and requirements of OMB Circular A–87 (Cost Principles Applicable to Grants, Contracts and Other Agreements with State and Local Governments), OMB Circular A–21 (Cost Principles for Education Institutions), OMB A–122 (Cost Principles for Nonprofit Organizations), OMB Circular A–133 (Audits of States, Local Governments, and Non-Profit Organizations), and the regulations in 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals, and other Non-Profit Organizations), and 24 CFR part 85 (Administrative Requirements for Grants and Cooperative Agreements to State, Local, and Federally recognized Indian tribal governments), may apply to the award, acceptance, and use of assistance under the programs of this SuperNOFA, and to the remedies for non-compliance, except when inconsistent with the provisions of the FY 2002 HUD Appropriations Act, other Federal statutes or regulations, or the provisions of this SuperNOFA. Compliance with additional OMB Circulars or government-wide regulations may be specified for a particular program in the Program Section of the SuperNOFA. Copies of the OMB Circulars may be obtained from EOP Publications; Room 2200; New Executive Office Building; Washington, DC 20503; telephone (202) 395–7332 (this is not a toll free number); or, from the website, www.whitehouse.gov/omb/circulars/index.html.

(J) *Environmental Requirements.* If you become a grantee under one of the programs in this SuperNOFA that assist physical development activities or property acquisition, you are generally prohibited from acquiring, rehabilitating, converting, leasing, repairing or constructing property, or committing or expending HUD or non-HUD funds for these types of program activities, until one of the following has occurred:

(1) HUD has completed an environmental review in accordance with 24 CFR part 50; or

(2) For programs subject to 24 CFR part 58, HUD has approved a grantee's Request for Release of Funds (HUD Form 7015.15) following a Responsible Entity's completion of an environmental review.

You, the applicant, should consult the Program Section of the SuperNOFA for the applicable program to determine the procedures for, timing of, and any exclusions from environmental review under a particular program. For applicants applying for funding under the Sections 202 or 811 Programs, please note the environmental review requirements for these programs.

(K) *Conflicts of Interest.* If you are a consultant or expert who is assisting HUD in rating and ranking applicants for funding under this SuperNOFA, you are subject to 18 U.S.C. 208, the Federal criminal conflict of interest statute, and the Standards of Ethical Conduct for Employees of the Executive Branch regulation published at 5 CFR part 2635. As a result, if you have assisted or plan to assist applicants with preparing applications for this SuperNOFA, you may not serve on a selection panel and you may not serve as a technical advisor to HUD for this SuperNOFA. All individuals involved in rating and ranking this SuperNOFA, including experts and consultants, must avoid conflicts of interest or the appearance of conflicts. Individuals involved in the rating and ranking of applications must disclose to HUD's General Counsel or HUD's Ethics Law Division the following information, if applicable: how the selection or non-selection of any applicant under this SuperNOFA will affect the individual's financial interests, as provided in 18 U.S.C. 208; or, how the application process involves a party with whom the individual has a covered relationship under 5 CFR 2635.502. The individual must disclose this information prior to participating in any matter regarding this SuperNOFA. If you have questions regarding these provisions or if you have questions concerning a conflict of interest, you may call the Office of General Counsel, Ethics Law Division, at 202–708–3815.

(L) *Accessible Technology.* The Rehabilitation Act Amendments of 1998 apply to all electronic information technology (EIT) used by a grantee for transmitting, receiving, using, or storing information to carry out the responsibilities of any federal grant awarded. The Act's coverage includes, but is not limited to, computers (hardware, software, word-processing, email, and web pages), facsimile machines, copiers and telephones. When developing, procuring, maintaining, or using EIT, funding recipients must ensure that the EIT allows employees with disabilities and members of the public with disabilities to have access to and use of information and data that is comparable to the access and use of information and data by employees and members of the public who do not have disabilities. If these standards impose a hardship on a funding recipient, they may provide an alternative means to allow the individual to use the information and data. However, no grantee will be required to provide information services to a person with disabilities at any location other than the location at which the information services is generally provided.

III. Application Selection Process

(A) *Rating Panels.* To review and rate applications, HUD may establish panels. These panels may include persons not currently employed by HUD. HUD may include these non-HUD employees to obtain certain expertise and outside points of view, including views from other Federal agencies.

(1) *Rating.* HUD will evaluate and rate all applications for funding that meet the threshold requirements and rating factors for award described in this SuperNOFA. This will include rating the applicant and/or the applicant's organization and staff for technical merit or threshold compliance as well as any sub-contractors, consultants, sub-recipients, and members of consortia that are firmly committed to the project. In evaluating applications for funding HUD will take into account applicants' past performance in managing funds, including the ability to account for funds appropriately; timely use of funds received either from HUD or other Federal, State, or local programs; meeting performance targets for completion of activities; and, number of persons to be served or targeted for assistance. HUD may include information at hand or available from public sources such as, but not limited to, newspapers, Inspector General or Government Accounting Office Reports or Findings, and/or hotline complaints that have been proven to have merit. In evaluating past performance, HUD may elect to deduct points from the rating score or establish threshold levels as specified under the Factors for Award in the Program Section of this SuperNOFA.

(2) *Ranking.* HUD will rank applicants within each program or, for Continuum of Care applicants, across the three programs identified in the Continuum of Care section of this SuperNOFA. HUD will rank applicants only against those applying for the same program funding. Where there are set-asides within a program competition, you, the applicant, will compete against only those applicants in the same set-aside competition.

(B) *Threshold Requirements.* HUD will review your application to determine whether it meets all of the threshold requirements described in Section II(B), above. Only applications that meet all of the threshold requirements will be eligible to be rated and ranked.

(C) *Factors for Award Used to Evaluate and Rate Applications.* For each program that is part of this SuperNOFA, the points awarded for the rating factors total 100. Depending upon the program for which you the applicant seek funding, the funding opportunity may provide for up to six bonus points as provided in paragraphs (1)–(3) of this Section III(C).

(1) *RC/EZ/EC.* The SuperNOFA provides for the award of two bonus points for eligible activities/projects that the applicant proposes to be located in federally designated Empowerment Zones (EZs), Enterprise Communities (ECs), Urban Enhanced Enterprise Communities (EECs), Strategic Planning Communities, or Renewal Communities (RCs), serve the residents of these areas, and are certified to be consistent with the area's strategic plan. (For ease of reference in the SuperNOFA, all these federally designated areas are collectively referred to as "RC/EZ/ECs" and residents of any of these federally designated areas as "RC/EZ/EC residents.") The individual funding announcement will indicate if the bonus points are available for that funding. The SuperNOFA contains a certification that must be completed for the applicant to be considered for RC/EZ/EC bonus points. A list of RCs, EZs, ECs, EECs, and Strategic Planning Communities is attached to this General Section of the SuperNOFA as Appendix A–2 and is also available from the SuperNOFA Information Center, and the HUD website, www.hud.gov.

(2) *Brownfield Showcase Communities:* In the BEDI competition, two bonus points are available for federally designated Brownfields Show Case Communities. (Please see BEDI section of this SuperNOFA for additional information.) A list of the federally designated RCs, EZs, ECs, Enhanced ECs, and Brownfield Showcase Communities is available from the SuperNOFA Information Center or through the HUD website, www.hud.gov.

(3) *Court-Ordered Consideration.* For any application submitted by the City of Dallas, Texas, for funds under this SuperNOFA for which the City of Dallas is eligible to apply, HUD will consider the extent to which the strategies or plans in the application or applications will be used to eradicate the vestiges of racial segregation in the Dallas Housing Authority's low-income housing programs. The City of Dallas should address the effect, if any, that vestiges of racial segregation in Dallas Housing Authority's low-income housing programs have on potential participants in the programs covered by this SuperNOFA, and identify proposed actions for remedying those vestiges. HUD may add up to 2 bonus points to

VOL
67
ISS
58
MR
26
2002
UMI

the score based upon this consideration. This special consideration results from an order of the U.S. District Court for the Northern District of Texas, Dallas Division. (This Section III(C)(2) is limited to applications submitted by the City of Dallas.)

(4) *The Five Standard Rating Factors.* The majority of programs in this SuperNOFA use the five rating factors described below. Additional details about the five rating factors and the maximum points for each factor are provided in the Program Section of the SuperNOFA. You, the applicant, should carefully read the factors for award as described in the Program Section of the SuperNOFA. HUD has established these five factors as the basic factors for award in every program that is part of this SuperNOFA. For a specific funding opportunity, however, HUD may have modified these factors to take into account specific program needs or statutory or regulatory limitations imposed on a program. The standard factors for award, except as modified in the program area section, are:

Factor 1: Capacity of the Applicant and Relevant Organizational Staff

Factor 2: Need/Extent of the Problem

Factor 3: Soundness of Approach

Factor 4: Leveraging Resources

Factor 5: Coordination, Self-Sufficiency and Sustainability

The Continuum of Care Homeless Assistance Programs have only two factors that receive points: Need and Continuum of Care.

(D) *Negotiation.* After HUD has rated and ranked all applications and made selections, HUD may require, depending upon the program, that all winners participate in negotiations to determine the specific terms of the grant agreement and budget. In cases where HUD cannot successfully conclude negotiations with a selected applicant or a selected applicant fails to provide HUD with requested information, an award will not be made to that applicant. In this instance, HUD may offer an award, and proceed with negotiations with the next highest-ranking applicant.

(E) *Adjustments to Funding.*

(1) HUD reserves the right to fund less than the full amount requested in your application to ensure the fair distribution of the funds and that the purposes of a specific program are met.

(2) HUD will not fund any portion of your application that: is not eligible for funding under specific program statutory or regulatory requirements; does not meet the requirements of this SuperNOFA; or may be duplicative of other funded programs or activities from previous years' awards or other selected applicants. Only the eligible portions of your application (including non-duplicative portions) may be funded.

(3) If funds remain after funding the highest-ranking applications, HUD may fund all or part of the next highest-ranking application in a given program. If you, the applicant, turn down an award offer, HUD will make an offer of funding to the next highest-ranking application. If funds remain after all selections have been made, remaining funds may be available for other competitions for each program where there is a balance of funds.

(4) In the event HUD commits an error that, when corrected, would result in selection of an otherwise eligible applicant during the funding round of this SuperNOFA, HUD may select that applicant when sufficient funds become available.

(F) Performance and Compliance Actions of Grantees. HUD will measure and address the performance and compliance actions of grantees in accordance with the applicable standards and sanctions of their respective programs.

IV. Application Submission Requirements

As discussed in the Introductory Section of this SuperNOFA, part of the simplification of this funding process is to reduce the duplication of effort that has been required of applicants in the past. Before the SuperNOFA process, many of HUD's applicants were required to complete and submit similar applications for HUD funded programs. As the Program Chart shows, the FY 2002 SuperNOFA provides, as did the previous SuperNOFAs, for consolidated applications for several of the programs for which funding is available under this SuperNOFA.

V. Corrections to Deficient Applications

After the application due date, HUD may not, consistent with its regulations in 24 CFR part 4, subpart B, consider any unsolicited information you, the applicant, may want to provide. HUD may contact you to clarify an item in your application or to correct technical deficiencies. HUD may not seek clarification of items or responses that improve the substantive quality of your response to any rating factors. In order not to unreasonably exclude applications from being rated and ranked, HUD may contact applicants to ensure proper completion of the application and will do so on a uniform basis for all applicants. Examples of curable (correctable) technical deficiencies include failure to submit the proper certifications or failure to submit an application that contains an original signature by an authorized official. In each case, HUD will notify you in writing by describing the clarification or technical deficiency. HUD will notify applicants by facsimile or by USPS, return receipt requested. Clarifications or corrections of technical deficiencies in accordance with the information provided by HUD must be submitted within 14 calendar days of the date of receipt of the HUD notification. (If the due date falls on a Saturday, Sunday, or Federal holiday, your correction must be received by HUD on the next day that is not a Saturday, Sunday, or Federal holiday.) If the deficiency is not corrected within this time period, HUD will reject the application as incomplete and it will not be considered for funding. (Sections 202 and 811 Programs provide for appeal of rejection of an application on technical deficiency. Please see the Program Section for these programs for additional information and instructions.)

VI. HUD's FY 2002 SuperNOFA Policy Priorities

This Section describes important initiatives that HUD is encouraging applicants to undertake in implementing programs funded under this SuperNOFA. Seven SuperNOFA policy priorities are listed below. Each of the seven policy priorities support the interim Strategic Goals listed in Part II of this NOFA, as noted below.

(A) *Increasing Homeownership Opportunities for Low- and Moderate-Income Persons, Persons with Disabilities, the Elderly, Minorities, and Families where English may be a Second Language.* Too often these individuals and families are shut out of the housing market through no fault of their own. HUD encourages applicants to work aggressively to open up the realm of homeownership to many who want the joy, security, and sense of community that comes from owning a home of their own. Proposed activities can support Strategic Goals 1, 2, and 7.

(B) *Improving the Quality of Public Housing and Providing More Choices for Its Residents.* HUD wants to improve the quality of life for those living in public housing, not only by improving the physical surroundings of public housing developments, but by providing residents greater opportunities to move from public housing into homeownership opportunities or into a community with greater housing choices and better educational and employment opportunities. Proposed activities directly support Strategic Goal 3, but can also support Strategic Goals 4, and 7.

(C) *Encouraging Accessible Design Features.* As described in Section II (B) and (H), applicants must be in compliance with applicable civil rights laws including the Fair Housing Act, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. These laws, and regulations implementing them, provide for nondiscrimination based on disability and require housing and facilities to incorporate certain features intended to provide for their use and enjoyment by persons with disabilities.

HUD is encouraging applicants to add accessible design features beyond those required under civil rights laws and regulations. These features would eliminate many other barriers limiting the access of persons with disabilities to housing and other facilities. These accessible design features are intended to promote visitability and incorporate features of universal design as described below:

(i) Visitability in New Construction and Substantial Rehabilitation. Applicants are encouraged to incorporate visitability standards where feasible in new construction and substantial rehabilitation projects. Visitability standards allow a person with mobility impairments access into the home, but do not require that all features be made accessible. Visitability means at least one entrance at grade (no steps), approached by an accessible route such as a sidewalk; the entrance door and all interior passage doors are at least 2 feet 10 inches wide, allowing 32 inches of clear passage space. A visitable home also serves persons without disabilities, such as a mother pushing a stroller or a person delivering a large appliance. Copies of the Uniform Federal Accessibility Standards (UFAS) are available from the SuperNOFA Information Center (1–800–HUD–8929 or 1–800–HUD–2209 (TTY)) and also from the Office of Fair Housing and Equal Opportunity; U.S. Department of Housing and Urban Development; Room 5230, 451 Seventh Street, SW.; Washington, DC 20410; 202–755–5404 or 1–800–877 8399 (TTY Federal Information Relay Service). Proposed activities support Strategic Goal 7.

(ii) Universal Design. Applicants are encouraged to incorporate universal design in the construction or rehabilitation of housing, retail establishments, and community facilities funded with HUD assistance. Universal design is the design of products and environments to be usable by all people to the greatest extent possible, without the need for adaptation or specialized design. The intent of universal design is to simplify life for everyone by making products, communications, and the built environment more usable by as many people as possible at little or no extra cost. Universal design benefits people of all ages and abilities. In addition to any applicable required accessibility features under Section 504 of the Rehabilitation Act of 1973 or the design and construction requirements of the Fair Housing Act, the Department encourages applicants to incorporate the principles of universal design when developing housing, community facilities, electronic communication mechanisms, or when communicating with community residents at public meetings or events. HUD believes that by creating housing that is accessible to all, it can increase the supply of affordable housing for all, regardless of ability or age. Likewise, creating places where people work, train, and interact which are useable and open to all residents increases opportunities for economic and personal self-sufficiency. Proposed activities under this priority will support Strategic Goals 2, 7, and 8.

(D) *Improving Computer Access, Literacy, and Employment Opportunities.* The Department seeks to promote activities that provide access to computers to low- and moderate-income adults and children who do not have access and, therefore, may be disadvantaged with respect to education, work, and training opportunities. HUD encourages applicants to incorporate education and job training opportunities through initiatives such as HUD's Neighborhood Networks. Neighborhood Networks enhance the self-sufficiency, employability, and economic self-reliance of low-income families and the elderly living in HUD-insured or HUD-assisted properties, and public housing by providing on-site computer access and training resources.

Applicants are encouraged to teach adults and children how to use computers to achieve economic self-sufficiency, provide job training and placement, and establish public-private partnerships to support community-learning centers and provide apprenticeship opportunities. Proposed activities can support Strategic Goals 2, 3, 4, 5, 7, and 8.

(E) *Providing Full and Equal Access to Faith-Based and Other Community-Based Organizations in HUD Program Implementation.* (1) HUD encourages non-profit organizations, including grassroots faith-based and other community-based organizations, to participate in the vast array of programs for which funding is available through this SuperNOFA. HUD believes that grassroots organizations, e.g., civic organizations, congregations, and faith-based and other community-based organizations, have not been effectively utilized. These grassroots organizations have a strong history of providing vital community services such as assisting the homeless and preventing homelessness, counseling individuals and families on fair housing rights, providing elderly housing opportunities, developing first time homeownership programs, increasing homeownership and rental housing opportunities in neighborhoods of their choice, developing affordable and accessible housing in neighborhoods across the country, creating economic development programs, and supporting the residents of public housing facilities. The goal of this policy priority is to make HUD's programs more effective, efficient, and accessible by expanding opportunities for grassroots organizations to participate in developing solutions for their own neighborhoods. Additionally, HUD encourages applicants to include these faith-based and other community-based grassroots organizations in their workplans. Applicants, their partners, and participants must review the Program Section of this SuperNOFA to determine eligibility. Faith-based and other community-based grassroots organizations, and applicants who currently or propose to partner, fund, or subcontract with grassroots organizations, including faith-based or other community-based non-profits eligible under applicable program regulations, in conducting their work programs will receive higher rating points as specified in the program section of this SuperNOFA.

(2) Definition of Grassroots Organizations.

(a) HUD will consider an organization a "grassroots organization" if the organization is headquartered in the local community to which it provides services; and,

(i) Has a social services budget of $300,000 or less, or

(ii) Has six or fewer full-time equivalent employees.

(b) Local affiliates of national organizations are not considered "grassroots." Local affiliates of national organizations are encouraged, however, to partner with grassroots organizations but must demonstrate that they are currently working with a grassroots organization, e.g., having a congregation or civic organization, or other charitable organization provide volunteers.

VOL 67 ISS 58 MR 26 2002 UMI

(c) The cap provided in paragraph (2)(a)(i) above includes only that portion of an organization's budget allocated to providing social services. It does not include other portions of the budget such as salaries and expenses. Activities under this priority directly support Strategic Goal 4.

(F) *Ensuring that Programs are Accountable for the Promises Made and the Actions Taken.* HUD encourages applicants to include program measures to ensure that promises made in your application for funding for persons to be assisted, units to be constructed or rehabilitated, timelines and budgets to be followed, and results to be achieved can be accounted for and independently assessed to ensure performance goals have been met. Applicants who have included means of assessing progress and tracking performance goals and achievements against promises made in the application will receive higher rating points. Actions taken to support this priority directly support Strategic Goal 6.

(G) *Colonias.* HUD seeks to improve housing conditions for families living in Colonias. Colonia means any identifiable community that:

(i) is located in Arizona, California, New Mexico, or Texas;

(ii) is within 150 miles of the border between the United States and Mexico; and

(iii) meets objective need criteria, including lack of potable water supply, lack of adequate sewage systems, and lack of decent, safe, sanitary, and accessible housing.

Activities performed under this priority primarily support Strategic Goal 8, but can also support Strategic Goals 3, 4, and 7.

VII. Findings and Certifications

(A) *Environmental Impact.* A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50 that implement Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332). The Finding of No Significant Impact is available for public inspection during regular business hours in the Office of the General Counsel, Regulations Division, Room 10276, U.S. Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410–0500.

(B) *Executive Order 13132, Federalism.* Executive Order 13132 prohibits, to the extent practicable and permitted by law, an agency from promulgating policies that have federalism implications and either impose substantial direct compliance costs on State and local governments and are not required by statute, or preempt State law, unless the relevant requirements of Section 6 of the Executive Order are met. This SuperNOFA does not have federalism implications and does not impose substantial direct compliance costs on State and local governments or preempt State law within the meaning of the Executive Order.

(C) *Executive Order 12372, Intergovernmental Review of Federal Programs.* Executive Order 12372 was issued to foster intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of Federal financial assistance and direct Federal development. The Order allows each State to designate an entity to perform a State review function. The official listing of State Points of Contact (SPOC) for this review process can be found at www.whitehouse.gov/omb/grants/spoc.html. States not listed on the website have chosen not to participate in the intergovernmental review process and, therefore, do not have a SPOC. If your State has a SPOC, you should contact them to see if they are interested in reviewing your application prior to submission to HUD. Please make sure that you allow ample time for this review process when developing and submitting your applications. If your State does not have a SPOC, you may send applications directly to HUD.

(D) *Prohibition Against Lobbying Activities.* You, the applicant, are subject to the provisions of Section 319 of the Department of Interior and Related Agencies Appropriation Act for Fiscal Year 1991, 31 U.S.C. 1352 (the Byrd Amendment), which prohibits recipients of Federal contracts, grants, or loans from using appropriated funds for lobbying the executive or legislative branches of the Federal government in connection with a specific contract, grant, or loan. You are required to certify, using the certification found at Appendix A to 24 CFR part 87, that you will not and have not used appropriated funds for any prohibited lobbying activities. In addition, you must disclose, using Standard Form LLL "Disclosure of Lobbying Activities," any funds, other than federally appropriated funds, that will be or have been used to influence Federal employees, members of Congress, and congressional staff regarding specific grants or contracts. Federally recognized Indian tribes and tribally designated housing entities (TDHEs) established by federally recognized Indian tribes as a result of the exercise of the tribe's sovereign power are excluded from coverage of the Byrd Amendment, but State-recognized Indian tribes and TDHEs established under State law must comply with this requirement.

(E) *Section 102 of the HUD Reform Act, Documentation and Public Access Requirements.* Section 102 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3545) (HUD Reform Act) and the regulations codified in 24 CFR part 4, subpart A, contain a number of provisions that are designed to ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. On January 14, 1992, HUD published a notice that also provides information on the implementation of Section 102 (57 FR 1942). The documentation, public access, and disclosure requirements of Section 102 apply to assistance awarded under this SuperNOFA as follows:

(1) *Documentation and public access requirements.* HUD will ensure that documentation and other information regarding each application submitted pursuant to this SuperNOFA are sufficient to indicate the basis upon which assistance was provided or denied. This material, including any letters of support, will be made available for public inspection for a five-year period beginning not less than 30 days after the award of the assistance. Material will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations (24 CFR part 15).

(2) *Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the above-mentioned **Federal Register** notice and for at least 120 days after awards for assistance are announced, HUD will provide a debriefing to any applicant requesting one on their application. All debriefing requests must be made in writing or by email by the authorized official whose signature appears on the SF–424 or his or her successor in office, and submitted to the person or organization identified as the Contact under the section entitled "Further Information and Technical Assistance" in the Program Section of the SuperNOFA under which you applied for assistance. Information provided during a debriefing will include, at a minimum, the final score you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

(3) *Disclosures.* HUD will make available to the public for five years all applicant disclosure reports (HUD Form 2880) submitted in connection with this SuperNOFA. Update reports (also reported on HUD Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period of less than three years. All reports, both applicant disclosures and updates, will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations (24 CFR part 5).

(4) *Publication of Recipients of HUD Funding.* HUD's regulations at 24 CFR part 4 provide that HUD will publish a notice in the **Federal Register** to notify the public of all decisions made by the Department to provide:

(i) Assistance subject to Section 102(a) of the HUD Reform Act; and/or

(ii) Assistance provided through grants or cooperative agreements on a discretionary (non-formula, non-demand) basis, but that is not provided on the basis of a competition.

(F) *Section 103 of the HUD Reform Act.* HUD's regulations implementing Section 103 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3537a), codified in 24 CFR part 4, subpart B, apply to this funding competition. The regulations continue to apply until the announcement of the selection of successful applicants. HUD employees involved in the review of applications and in the making of funding decisions are limited by the regulations from providing advance information to any person (other than an authorized employee of HUD) concerning funding decisions or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance in this competition should confine their inquiries to the subject areas permitted under 24 CFR part 4.

Applicants or employees who have ethics related questions should contact the HUD Ethics Law Division at 202–708–3815. (This is not a toll-free number.) HUD employees who have specific program questions should contact the appropriate field office counsel or Headquarters counsel for the program to which the question pertains.

VIII. The FY 2002 SuperNOFA Process and Future HUD Funding Processes

Each year, HUD strives to improve its SuperNOFA. The FY 2002 SuperNOFA was revised based upon comments received during the FY 2001 funding process. HUD continues to welcome comments and feedback from applicants and other members of the public on how HUD may further improve its competitive funding process.

The description of programs for which funding is available under this SuperNOFA follows this General Section and its appendices.

Dated: March 14, 2002.

Mel Martinez,

Secretary.

Appendix B

This appendix to the General Section of the SuperNOFA contains the standard forms, certifications and assurances used by the majority if not all of the programs that are part of the SuperNOFA.

Application for Federal Assistance

OMB Approval No. 0348-0043

	2. Date Submitted (mm/dd/yyyy)	Applicant Identifier
1. Type of Submission Application: ☐ Construction ☐ Non-Construction Pre-application: ☐ Construction ☐ Non-Construction	3. Date Received by State (mm/dd/yyyy)	State Application Identifier
	4. Date Received by Federal Agency (mm/dd/yyyy)	Federal Identifier

5. Applicant Information

Legal Name	Organizational Unit
Address (give city, county, State, and zip code)	Name and telephone number of the person to be contacted on matters involving this application (give area code)

6. Employer Identification Number (EIN) (xx-yyyyyyy)

7. Type of Applicant (enter appropriate letter in box) ☐

A. State
B. County
C. Municipal
D. Township
E. Interstate
F. Inter-municipal
G. Special District
H. Independent School Dist.
I. State Controlled Institution of Higher Learning
J. Private University
K. Indian Tribe
L. Individual
M. Profit Organization
N Nonprofit
O Public Housing Agency
P. Other (Specify)

8. Type of Application:

☐ New ☐ Continuation ☐ Revision

If Revision, enter appropriate letter(s) in box(es): ☐ ☐

A. Increase Award B. Decrease Award C. Increase Duration
D. Decrease Duration Other (specify)

9. Name of Federal Agency

10. Catalog of Federal Domestic Assistance Number (xx-yyy)

Title:

11. Descriptive Title of Applicant's Project

12. Areas Affected by Project (cities, counties, States, etc.)

13. Proposed Project		14. Congressional Districts of	
Start Date (mm/dd/yyyy)	Ending Date (mm/dd/yyyy)	a. Applicant	b. Project

15. Estimated Funding

Complete form HUD-424-M, Funding Matrix

16. Is Application Subject to Review by State Executive Order 12372 Process?

a. **Yes** This pre-application/application was made available to the State Executive Order 12372 Process for review on:

Date (mm/dd/yyyy)_____

b. **No** ☐ Program is not covered by E.O. 12372

or ☐ Program has not been selected by State for review.

17. Is the Applicant Delinquent on Any Federal Debt?

☐ Yes If "Yes," attach an explanation ☐ No

18. To the best of my knowledge and belief, all data in this application/pre-application are true and correct, the document has been duly authorized by the governing body of the applicant and the applicant will comply with the attached assurances if the assistance is awarded.

a. Typed Name of Authorized Representative	b. Title	c. Telephone Number (Include Area Code)
d. Signature of Authorized Representative		e. Date Signed (mm/dd/yyyy)

form SF-424 (7/97)
Prescribed by OMB Circular A-102

Instructions for the SF-424

Public reporting burden for this collection of information is estimated to average 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0043, Washington, DC 20503.

Please do not return your completed form to the Office of Management and Budget. Send it to the address provided by the sponsoring agency .

This is a standard form used by applicants as a required face sheet for pre-applications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant's submission.

Item Entry

1. Self-explanatory.
2. Date application submitted to Federal agency (or State if applicable) and applicant's control number (if applicable).
3. State use only (if applicable).
4. If this application is to continue or revise an existing award, enter present Federal identifier number. If for a new project, leave blank.
5. Legal name of applicant, name of primary organizational unit which will undertake the assistance activity, complete address of the applicant, and name and telephone number of the person to contact on matters related to this application.
6. Enter Employer Identification Number (EIN) as assigned by the Internal Revenue Service.
7. Enter the appropriate letter in the space provided.
8. Check appropriate box and enter appropriate letter(s) in the space(s) provided:
   - "New" means a new assistance award.
   - "Continuation" means an extension for an additional funding budget period for a project with a projected completion date.
   - "Revision" means any change in the Federal Government's financial obligation or contingent liability from an existing obligation.
9. Name of Federal agency from which assistance is being requested with this application.
10. Use the Catalog of Federal Domestic Assistance number and title of the program under which assistance is requested.
11. Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For pre-applications, use a separate sheet to provide a summary description of this project.

Item Entry

12. List only the largest political entities affected (e.g., State, counties, cities).
13. Self-explanatory
14. List the applicant's Congressional District and any District(s) affected by the program or project.
15. **Use form HUD-4243-M, Funding Matrix.** Amount requested or to be contributed during the first funding/budget period by each contributor. Value of in-kind contributions should be included on appropriate lines as applicable. If the action will result in a dollar change to an existing award, indicate only the amount of the change. For decreases, enclose the amounts in parentheses. If both basic and supplemental amounts are included, show breakdown on an attached sheet. For multiple program funding, use totals and show breakdown using same categories as item 15.
16. Applicants should contact the State Single Point of Contact (SPOC) for Federal Executive Order 12372 to determine whether the application is subject to the State intergovernmental review process
17. This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include delinquent audit disallowances, loans and taxes.
18. To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for you to sign this application as official representative must be on file in the applicant's office. (Certain Federal agencies may require that this authorization be submitted as part of the application.)

OMB Approval (pending)

Federal Assistance Funding Matrix

The applicant must provide the funding matrix shown below, listing each program for which Federal funding is being requested, and complete the certifications.

Program*	Applicant Share	Federal Share	State Share	Local	Other	Program Income	Total
Grand Totals							

* For FHIPs, show both initiative and component

Instructions for the HUD-424-M

Public reporting burden for this collection of information is estimated to average 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number.

This form is to be used by applicants requesting funding from the Department of Housing and Urban Development for application submissions for Federal assistance.

Enter the following information:

Program: The HUD funding program you are applying under.

Applicant Share: Enter the amount of funds or cash equivalent of in-kind contributions you are contributing to your project or program of activities.

Federal Share: Enter the amount of HUD funds you are requesting with your application.

State Share: Enter the amount of funds or cash equivalent of in-kind services the State is contributing to your project or program of activities.

Local Share: Enter the amount of funds or cash equivalent of in-kind services your local government is contributing to your project or program of activities.

Other: Enter the amount of other sources of private, non-profit, or other funds or cash equivalent of in-kind services being contributed to your project or program of activities.

Program Income: Enter the amount of program income you expect to generate and contribute to this program over the life of your award.

Total: Please total all columns and fill in the amounts.

Instructions for the SF-424A

Public Reporting Burden for this collection of information is estimated to average 3.0 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Please do not return your completed form to the Office of Management and Budget; send it to the address provided by the sponsoring agency.

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the later case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a **single** Federal grant program (Federal Domestic Assistance Catalog number) and **not requiring** a functional or activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a **single** program **requiring** budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in **Column** (a) and the respective catalog number on each line in Column (b).

For applications pertaining to **multiple** programs where one or more programs **require** a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5—Show the totals for all columns used.

Section B. Budget Categories

In the column headings (a) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Lines 6a-i—Show the totals of Lines 6a to 6h in each column.

Line 6j—Show the amount of indirect cost.

Line 6k—Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7—Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program narrative statement the nature and source of income. The estimated amount of program income may be considered by the federal grantor agency in determining the total amount of the grant.

Section C. Non-Federal Resources

Lines 8-11—Enter amounts of non-Federal resources that will be used on the grant. If in-kind contributions are included, provide a brief explanation on a separate sheet.

Column (a)—Enter the program titles identical to Column (a), Section A. A breakdown by function or activity is not necessary.

Column (b)—Enter the contribution to be made by the applicant.

Column (c)—Enter the amount of the State's cash and in-kind contribution if the applicant is not a State or State agency. Applicants which are a State or State agencies should leave this column blank.

Column (d)—Enter the amount of cash and in-kind contributions to be made from all other sources.

Column (e)—Enter totals of Columns (b), (c), and (d).

Line 12—Enter the total for each of Columns (b)-(e). The amount in Column (e) should be equal to the amount on Line 5, Column (f) Section A.

Section D. Forecasted Cash Needs

Line 13—Enter the amount of cash needed by quarter from the grantor agency during the first year.

Line 14—Enter the amount of cash from all other sources needed by quarter during the first year.

Line 15—Enter the totals of amounts on Lines 13 and 14.

Section E. Budget Estimates of Federal Funds Needed for Balance of the Project

Lines 16-19—Enter in Column (a) the same grant program titles shown in Column (a), Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20—Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Section F. Other Budget Information

Line 21—Use this space to explain amounts for individual direct object-class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

Line 22—Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Line 23—Provide any other explanations or comments deemed necessary.

Assurances—Non-Construction Programs

OMB Approval No. 0348-0040

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Please do not return your completed form to the Office of Management and Budget; send it to the address provided by the sponsoring agency.

Note: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case you will be notified.

As the duly authorized representative of the applicant I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.O. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 36701 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply, as applicable, with the provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§ 276a and 276a-7), the Copeland Act (40 U.S.C. § 276c and 18 U.S.C. §§ 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction subagreements.
10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.
11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (e) evaluation of flood hazards in flood plains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 et seq.); (f) conformity of Federal actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clear Air Act of 1955, as amended (42 U.S.C. § 7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).
12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§ 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the national Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.).
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. 2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984 or OMB Circular No. A-133, Audits of Institutions of Higher Learning and other Non-profit Institutions.
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations and policies governing this program.

Budget Information—Construction Programs

Note: Certain Federal assistance programs require additional computations to arrive at the Federal share of project costs eligible for participation. If such is the case you will be notified.

Cost Classification	a. Total Cost	b. Costs Not Allowable for Participation	c. Total Allowable Costs (Column a-b)
1. Administrative and legal expenses	$ .00	$ .00	$ .00
2. Land, structures, rights-of-way, appraisals, etc.	$ .00	$ .00	$ .00
3. Relocation expenses and payments	$ .00	$ .00	$ .00
4. Architectural and engineering fees	$ .00	$ .00	$ .00
5. Other architectural and engineering fees	$ .00	$ .00	$ .00
6. Project inspection fees	$ .00	$ .00	$ .00
7. Site work	$ 00	$ .00	$ 00
8. Demolition and removal	$ 00	$ .00	$ .00
9. Construction	$ .00	$ .00	$ 00
10. Equipment	$ .00	$ .00	$ .00
11. Miscellaneous	$ .00	$ .00	$ .00
12. **Subtotal**	$ .00	$ .00	$ .00
13. Contingencies (sum of lines 1-11)	$ .00	$ .00	$ .00
14. **Subtotal**	$ .00	$ .00	$ .00
15. Project (program) income	$ .00	$ .00	$ .00
16. **Total Project Costs** (subtract #15 from #14)	$ .00	$ .00	$ .00
Federal Funding			
17. Federal assistance requested, calculate as follows: Enter eligible costs from line 16c _____ Multiply x _____ % (Consult Federal agency for Federal percentage share). Enter the resulting Federal share.			$ .00

Instructions for HUD-424C

Public reporting burden for this collection of information is estimated to average 3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Office of Management and Budget, Paperwork Reduction Project (0348-0041), Washington, D.C. 20503. Please do not return your completed form to the Office of Management and Budget; send it to the address provided by the sponsoring agency.

This sheet is to be used for the following types of applications: (1) "New" (means a new [previously unfunded] assistance award); (2) "Continuation" (means funding in a succeeding budget period which stemmed from a prior agreement to fund); and (3) "Revised" (means any changes in the Federal government's financial obligations or contingent liability from an existing obligation). If there is no change in the award amount there is no need to complete this form. Certain Federal agencies may require only an explanatory letter to effect minor (no cost) changes. If you have questions please contact the Federal agency.

Column a.—If this is an application for a "New" project, enter the total estimated cost of each of the items listed on lines 1 through 16 (as applicable) under "**Cost Classifications.**"

If this application entails a change to an existing award, enter the eligible amounts **approved under the previous award** for the items under "**Cost Classification.**"

Column b.—If this is an application for a "New" project, enter that portion of the cost of each item in Column a. which is not allowable for Federal assistance. Contact the Federal agency for assistance in determining the allowability of specific costs.

If this application entails a change to an existing award, enter the adjustment [+ or (–)] to the previously approved costs (from column a.) reflected in this application.

Column c.—This is the net of lines 1 through 16 in columns "a." and "b.".

Line 1—Enter estimated amounts needed to cover administrative expenses. Do not include costs which are related to the normal functions of government. Allowable legal costs are generally only those associated with the purchase of land which is allowable for Federal participation and certain services in support of construction of the project.

Line 2—Enter estimated site and right(s)-of-way acquisition costs (this includes purchase, lease, and/or easements).

Line 3—Enter estimated costs related to relocation advisory assistance, replacement housing, relocation payments to displaced persons and businesses, etc.

Line 4—Enter estimated basic engineering fees related to construction (this includes start-up services and preparation of project performance work plan).

Line 5—Enter estimated engineering costs, such as surveys, tests, soil borings, etc.

Line 6—Enter estimated engineering inspection costs.

Line 7—Enter estimated costs of site preparation and restoration which are not included in the basic construction contract.

Line 9—Enter estimated cost of the construction contract.

Line 10—Enter estimated cost of office, shop, laboratory, safety equipment, etc. to be used at the facility, if such costs are not included in the construction contract.

Line 11—Enter estimated miscellaneous costs.

Line 12—Total of items 1 through 11.

Line 13—Enter estimated contingency costs. (Consult the Federal agency for the percentage of the estimated construction cost to use.)

Line 14—Enter the total of lines 12 and 13.

Line 15—Enter estimated program income to be earned during the grant period, e.g., salvaged materials, etc.

Line 16—Subtract line 15 from line 14.

Item 17—This block is for the computation of the Federal share. Multiply the total allowable project costs from line 16, column "c." by the Federal percentage share (this may be up to 100 percent; consult Federal agency for Federal percentage share) and enter the product on line 17.

Assurances — Construction Programs

OMB Approval No. 0348-0042

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Please do not return your completed form to the Office of Management and Budget; send it to the address provided by the sponsoring agency.

Note: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case you will be notified.

As the duly authorized representative of the applicant I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure nondiscrimination during the useful life of the project.
4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.
5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or State.
6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.
10. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibit discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 93-255), as amended, relating to non-discrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), as amended, relating to non-discrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other non-discrimination Statute(s) which may apply to the application.
11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§ 276a and 276a-7), the Copeland Act (40 U.S.C. § 276c and 18 U.S.C. § 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction subagreements.
14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.
15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. § 7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).
16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§ 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and preservation of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.).
18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.
19. Will comply with all applicable requirements of all other Federal laws, Executive Orders, regulations and policies governing this program.

Certification for a Drug-Free Workplace

U.S. Department of Housing and Urban Development

Applicant Name

Program/Activity Receiving Federal Grant Funding

Acting on behalf of the above named Applicant as its Authorized Official, I make the following certifications and agreements to the Department of Housing and Urban Development (HUD) regarding the sites listed below:

I certify that the above named Applicant will or will continue to provide a drug-free workplace by:

a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Applicant's workplace and specifying the actions that will be taken against employees for violation of such prohibition.

b. Establishing an on-going drug-free awareness program to inform employees ---

(1) The dangers of drug abuse in the workplace;

(2) The Applicant's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

c. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph a.;

d. Notifying the employee in the statement required by paragraph a. that, as a condition of employment under the grant, the employee will ---

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

e. Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph d.(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federalagency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

f. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph d.(2), with respect to any employee who is so convicted ---

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

g. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs a. thru f.

2. **Sites for Work Performance.** The Applicant shall list (on separate pages) the site(s) for the performance of work done in connection with the HUD funding of the program/activity shown above: Place of Performance shall include the street address, city, county, State, and zip code. Identify each sheet with the Applicant name and address and the program/activity receiving grant funding.)

Check here ☐ if there are workplaces on file that are not identified on the attached sheets.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate.

Warning: HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

Certification of Payments to Influence Federal Transactions

U.S. Department of Housing and Urban Development
Office of Public and Indian Housing

Applicant Name

Program/Activity Receiving Federal Grant Funding

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, Disclosure Form to Report Lobbying, in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate.

Warning: HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.

2. Identify the status of the covered Federal action.

3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.

4. Enter the full name, address, city, State and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.

5. If the organization filing the report in item 4 checks "Subawardee," then enter the full name, address, city, State and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.

7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number, the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."

9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.

10. (a) Enter the full name, address, city, State and zip code of the lobbying registrant under the Lobbying Disclosure Act of 1995 engaged by the reporting entity identified in item 4 to influence the covered Federal action.

    (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).

11. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, DC 20503.

Part I Threshold Determinations

1. Are you applying for assistance for a specific project or activity? These terms do not include formula grants, such as public housing operating subsidy or CDBG block grants (For further information see 24 CFR Sec. 4.3). ☐ Yes ☐ No

2. Have you received or do you expect to receive assistance within the jurisdiction of the Department (HUD), involving the project or activity in this application, in excess of $200,000 during this fiscal year (Oct. 1 - Sep. 30)? For further information, see 24 CFR Sec. 4.9 ☐ Yes ☐ No.

If you answered **"No"** to either question 1 or 2, **Stop**! You do not need to complete the remainder of this form.
However, you must sign the certification at the end of the report.

Part II Other Government Assistance Provided or Requested / Expected Sources and Use of Funds.
Such assistance includes, but is not limited to, any grant, loan, subsidy, guarantee, insurance, payment, credit, or tax benefit.

Department/State/Local Agency Name and Address	Type of Assistance	Amount Requested/Provided	Expected Uses of the Funds

(**Note**: Use Additional pages if necessary.)

Part III Interested Parties. You must disclose:
1. All developers, contractors, or consultants involved in the application for the assistance or in the planning, development, or implementation of the project or activity and
2. any other person who has a financial interest in the project or activity for which the assistance is sought that exceeds $50,000 or 10 percent of the assistance (whichever is lower).

Alphabetical list of all persons with a reportable financial interest in the project or activity (For individuals, give the last name first)	Social Security No. or Employee ID No.	Type of Participation in Project/Activity	Financial Interest in Project/Activity ($ and %)

(**Note**: Use Additional pages if necessary.)

Certification

Warning: If you knowingly make a false statement on this form, you may be subject to civil or criminal penalties under Section 1001 of Title 18 of the United States Code. In addition, any person who knowingly and materially violates any required disclosures of information, including intentional non-disclosure, is subject to civil money penalty not to exceed $10,000 for each violation.
I certify that this information is true and complete.

Signature:	Date: (mm/dd/yyyy)
X	

Form **HUD-2880** (3/99)

VOL 67 ISS 58 MR 26 2002 UMI

Public reporting burden for this collection of information is estimated to average 2.0 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection information unless that collection displays a valid OMB control number.

Privacy Act Statement. Except for Social Security Numbers (SSNs) and Employer Identification Numbers (EINs), the Department of Housing and Urban Development (HUD) is authorized to collect all the information required by this form under section 102 of the Department of Housing and Urban Development Reform Act of 1989, 42 U.S.C. 3531. Disclosure of SSNs and EINs is optional. The SSN or EIN is used as a unique identifier. The information you provide will enable HUD to carry out its responsibilities under Sections 102(b), (c), and (d) of the Department of Housing and Urban Development Reform Act of 1989, Pub. L. 101-235, approved December 15, 1989. These provisions will help ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. They will also help ensure that HUD assistance for a specific housing project under Section 102(d) is not more than is necessary to make the project feasible after taking account of other government assistance. HUD will make available to the public all applicant disclosure reports for five years in the case of applications for competitive assistance, and for generally three years in the case of other applications. Update reports will be made available along with the disclosure reports, but in no case for a period generally less than three years. All reports, both initial reports and update reports, will be made available in accordance with the Freedom of Information Act (5 U.S.C. §552) and HUD's implementing regulations at 24 CFR Part 15. HUD will use the information in evaluating individual assistance applications and in performing internal administrative analyses to assist in the management of specific HUD programs. The information will also be used in making the determination under Section 102(d) whether HUD assistance for a specific housing project is more than is necessary to make the project feasible after taking account of other government assistance. You must provide all the required information. Failure to provide any required information may delay the processing of your application, and may result in sanctions and penalties, including imposition of the administrative and civil money penalties specified under 24 CFR §4.38.

Note: This form only covers assistance made available by the Department. States and units of general local government that carry out responsibilities under Sections 102(b) and (c) of the Reform Act must develop their own procedures for complying with the Act.

Instructions

Overview.

A. Coverage. You must complete this report if:

(1) You are applying for assistance from HUD for a specific project or activity **and** you have received, or expect to receive, assistance from HUD in excess of $200,000 during the dunng the fiscal year;

(2) You are updating a prior report as discussed below; or

(3) You are submitting an application for assistance to an entity other than HUD, a State or local government if the application is required by statute or regulation to be submitted to HUD for approval or for any other purpose.

B. Update reports (filed by "Recipients" of HUD Assistance):

General. All recipients of covered assistance must submit update reports to the Department to reflect substantial changes to the initial applicant disclosure reports.

Line-by-Line Instructions.

Applicant/Recipient Information.

All applicants for HUD competitive assistance, must complete the information required in blocks 1-5 of form HUD-2880:

1. Enter the full name, address, city, State, zip code, and telephone number (including area code) of the applicant/recipient. Where the applicant/recipient is an individual, the last name, first name, and middle initial must be entered.
2. Entry of the applicant/recipient's SSN or EIN, as appropriate, is optional.
3. Applicants enter the HUD program name under which the assistance is being requested.
4. Applicants enter the amount of HUD assistance that is being requested. Recipients enter the amount of HUD assistance that has been provided and to which the update report relates. The amounts are those stated in the application or award documentation. NOTE: In the case of assistance that is provided pursuant to contract over a period of time (such as project-based assistance under section 8 of the United States Housing Act of 1937), the amount of assistance to be reported includes all amounts that are to be provided over the term of the contract, irrespective of when they are to be received.
5. Applicants enter the name and full address of the project or activity for which the HUD assistance is sought. Recipients enter the name and full address of the HUD-assisted project or activity to which the update report relates. The most appropriate government identifying number must be used (e.g., RFP No.; IFB No.; grant announcement No.; or contract, grant, or loan No.) Include prefixes.

Part I. Threshold Determinations - Applicants Only

Part I contains information to help the applicant determine whether the remainder of the form must be completed. **Recipients filing Update Reports should not complete this Part.**

If the answer to ***either*** questions 1 or 2 is No, the applicant need not complete Parts II and III of the report, but must sign the certification at the end of the form.

Part II. Other Government Assistance and Expected Sources and Uses of Funds.

A. Other Government Assistance. This Part is to be completed by both applicants and recipients for assistance and recipients filing update reports. Applicants and recipients must report any other government assistance involved in the project or activity for which assistance is sought. Applicants and recipients must report any other government assistance involved in the project or activity. Other government assistance is defined in note 4 on the last page. For purposes of this definition, other government assistance is expected to be made available if, based on an assessment of all the circumstances involved, there are reasonable grounds to anticipate that the assistance will be forthcoming.

Both applicant and recipient disclosures must include all other government assistance involved with the HUD assistance, as well as any other government assistance that was made available before the request, but that has continuing vitality at the time of the request. Examples of this latter category include tax credits that provide for a number of years of tax benefits, and grant assistance that continues to benefit the project at the time of the assistance request.

The following information must be provided:

1. Enter the name and address, city, State, and zip code of the government agency making the assistance available.
2. State the type of other government assistance (e.g., loan, grant, loan insurance).
3. Enter the dollar amount of the other government assistance that is, or is expected to be, made available with respect to the project or activities for which the HUD assistance is sought (applicants) or has been provided (recipients).
4. Uses of funds. Each reportable use of funds must clearly identify the purpose to which they are to be put. Reasonable aggregations may be used, such as "total structure" to include a number of structural costs, such as roof, elevators, exterior masonry, etc.

B. Non-Government Assistance. Note that the applicant and recipient disclosure report must specify all expected sources and uses of funds - both from HUD ***and any other source*** - that have been or are to be, made available for the project or activity. Non-government sources of

funds typically include (but are not limited to) foundations and private contributors.

Part III. Interested Parties.

This Part is to be completed by both applicants and recipients filing update reports. Applicants must provide information on:

1. All developers, contractors, or consultants involved in the application for the assistance or in the planning, development, or implementation of the project or activity and
2. any other person who has a financial interest in the project or activity for which the assistance is sought that exceeds $50,000 or 10 percent of the assistance (whichever is lower).

Note: A financial interest means any financial involvement in the project or activity, including (but not limited to) situations in which an individual or entity has an equity interest in the project or activity, shares in any profit on resale or any distribution of surplus cash or other assets of the project or activity, or receives compensation for any goods or services provided in connection with the project or activity. Residency of an individual in housing for which assistance is being sought is not, by itself, considered a covered financial interest.

The information required below must be provided.

1. Enter the full names and addresses. If the person is an entity, the listing must include the full name and address of the entity as well as the CEO. Please list all names alphabetically.
2. Entry of the Social Security Number (SSN) or Employee Identification Number (EIN), as appropriate, for each person listed is optional.
3. Enter the type of participation in the project or activity for each person listed: i.e., the person's specific role in the project (e.g., contractor, consultant, planner, investor).
4. Enter the financial interest in the project or activity for each person listed. The interest must be expressed both as a dollar amount and as a percentage of the amount of the HUD assistance involved.

Note that if any of the source/use information required by this report has been provided elsewhere in this application package, the applicant need not repeat the information, but need only refer to the form and location to incorporate it into this report. (It is likely that some of the information required by this report has been provided on SF 424A, and on various budget forms accompanying the application.) If this report requires information beyond that provided elsewhere in the application package, the applicant must include in this report all the additional information required.

Recipients must submit an update report for any change in previously disclosed sources and uses of funds as provided in Section I.D.5., above.

Notes:

1. All citations are to 24 CFR Part 4, which was published in the Federal Register. [April 1, 1996, at 63 Fed. Reg. 14448.]
2. Assistance means any contract, grant, loan, cooperative agreement, or other form of assistance, including the insurance or guarantee of a loan or mortgage, that is provided with respect to a specific project or activity under a program administered by the Department. The term does not include contracts, such as procurements contracts, that are subject to the Fed. Acquisition Regulation (FAR) (48 CFR Chapter 1).
3. See 24 CFR §4.9 for detailed guidance on how the threshold is calculated.
4. "Other government assistance" is defined to include any loan, grant, guarantee, insurance, payment, rebate, subsidy, credit, tax benefit, or any other form of direct or indirect assistance from the Federal government (other than that requested from HUD in the application), a State, or a unit of general local government, or any agency or instrumentality thereof, that is, or is expected to be made, available with respect to the project or activities for which the assistance is sought.
5. For the purpose of this form and 24 CFR Part 4, "person" means an individual (including a consultant, lobbyist, or lawyer); corporation; company; association; authority; firm; partnership; society; State, unil of general local government, or other government entity, or agency thereof (including a public housing agency); Indian tribe; and any other organization or group of people.

Certification Regarding Debarment and Suspension

U.S. Department of Housing and Urban Development

Certification A: Certification Regarding Debarment, Suspension, and Other Responsibility Matters - Primary Covered Transactions

1. The prospective primary participant certifies to the best of its knowledge and belief that its principals;

a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal debarment or agency;

b. Have not within a three-year period preceding this proposal, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

c. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

d. Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

2. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Certification (A)

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was place when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause of default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to whom this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms **covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded**, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of these regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines this eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph (6) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause of default.

Certification B: Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Certification (B)

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms **covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded**, as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of these regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph (5) of these instructions, if a participant in a lower covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies including suspension and/or debarment.

Funding Application

Section 8 Tenant-Based Assistance
Rental Certificate Program
Rental Voucher Program

U.S. Department of Housing and Urban Development
Office of Public and Indian Housing

OMB Approval No. 2577-0169
(exp.9/30/2002)

Send the original and two copies of this application form and attachments to the local HUD Field Office

Public reporting burden for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Eligible applicants (HAs) must submit this information when applying for grant funding for tenant-based housing assistance programs under Section 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f). HUD will use the information to evaluate an application based on selection criteria stated in the Notice of Funding Availability (NOFA). HUD will notify the HA of its approval/disapproval of the funding application. Responses are required to obtain a benefit from the Federal Government. The information requested does not lend itself to congidentiality.

Name and Mailing Address of the Housing Agency (HA) requesting housing assistance payments

Application/Project No. (HUD use only)

Do you have an ACC with HUD	No	Yes	Date of Application	Legal Area of Operation (area in which the HA has authority under State and local law to administer the program)
for Section 8 Certificates?	☐	☐		
for Section 8 Vouchers?	☐	☐		

A. Area(s) From Which Families To Be Assisted Will Be Drawn.

Locality (city, town, etc.)	County	Congressional District	Units

B. Proposed Assisted Dwelling Units. (Complete this section based on the unit sizes of the applicants at the top of the waiting list)

	Number of Dwelling Units by Bedroom Size

Certificates	$	$	$	$	$	$	$
Vouchers	$	$	$	$	$	$	$

D. Need for Housing Assistance. Demonstrate that the project requested in this application is responsive to the condition of the housing stock in the community and the housing assistance needs of low-income families residing in or expected to reside in the community. (If additional space is needed, add separate pages.)

E. Housing Quality Standards (HQS). (Check applicable box)

☐ HUD's HQS will be used with no modifications ☐ Attached for HUD approval are HQS acceptability criteria variations

F. New HA Information. Complete this section if HA currently does not administer a tenant-based certificate or voucher program.

Financial and Administrative Capability. Describe the experience of the HA in administering housing or other programs and provide any other relevant information which evidences present or potential management capability for the proposed rental assistance program. Submit this narrative on a separate page.

Qualification as an HA. Demonstrate that the applicant qualifies as an HA and is legally qualified and authorized to administer the funds applied for in this application. Submit the relevant enabling legislation and a supporting legal opinion.

Note: If this application is approved, the HA must submit for HUD approval a utility allowance schedule and budget documents.

G. Certifications. The following certifications are incorporated as a part of this application form. The signature on the last page of this application of the HA representative authorized to sign the application signifies compliance with the terms of these certifications.

Equal Opportunity Certification

The Housing Agency (HA) certifies that:

(1) The HA will comply with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and regulations issued pursuant thereto (24 CFR Part 1) which state that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the applicant receives financial assistance; and will take any measures necessary to effectuate this agreement.

(2) The HA will comply with the Fair Housing Act (42 U.S.C. 3601-19) and regulations issued pursuant thereto (24 CFR Part 100) which prohibit discrimination in housing on the basis of race, color, religion, sex, handicap, familial status, or national origin, and administer its programs and activities relating to housing in a manner to affirmatively further fair housing.

(3) The HA will comply with Executive Order 11063 on Equal Opportunity in Housing which prohibits discrimination because of race, color, creed, or national origin in housing and related facilities provided with Federal financial assistance and HUD regulations (24 CFR Part 107).

(4) The HA will comply with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and regulations issued pursuant thereto (24 CFR Part 8) which state that no otherwise qualified individual with handicaps in the United States shall solely by reason of the handicap be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

(5) The HA will comply with the provisions of the Age Discrimination Act of 1975 (42 U.S.C. 6101-07) and regulations issued pursuant thereto (24 CFR Part 146) which state that no person in the United States shall on the basis of age be excluded from participation in, be denied the benefits of, or be subjected to discrimination under a program or activity receiving Federal financial assistance.

(6) The Housing Agency will comply with the provisions of Title II of the Americans with Disabilities Act (42 U.S.C. 12131) and regulations issued pursuant thereto (28 CFR Part 35) which state that subject to the provisions of Title II, no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs or activities of a public entity, or be subjected to discrimination by any such entity.

The following provisions apply only to housing assisted with Project-Based Certificates:

(7) The HA will comply with Executive Order 11246 and all regulations pursuant thereto (41 CFR Chapter 60-1) which state that no person shall be discriminated against on the basis of race, color, religion, sex or national origin in all phases of employment during the performance of Federal contracts and shall take affirmative action to ensure equal employment opportunity.

(8) The HA will comply with Section 3 of the Housing and Urban Development Act of 1968, as amended (12 U.S.C. 1701u) and regulations issued pursuant thereto (24 CFR Part 135), which require that, to the greatest extent feasible, opportunities for training and employment be given to low-income persons residing within the unit of local government for metropolitan area (or nonmetropolitan county) in which the project is located.

Certification Regarding Lobbying

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement..

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions..

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Certification Regarding Drug-Free Workplace Requirements

Instructions for Drug-Free Workplace Requirements Certification:

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

4. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

5. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph three).

6. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All *direct charge* employees; (ii) All *indirect charge* employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees or subrecipients or subcontractors in covered workplaces).

A. The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, State, zip code)

FUNDING AVAILABILITY FOR COMMUNITY DEVELOPMENT TECHNICAL ASSISTANCE (CD–TA) PROGRAMS—HOME, MCKINNEY-VENTO ACT HOMELESS ASSISTANCE AND HOPWA

Program Overview

Purpose of the Program. The purposes of the technical assistance programs in this SuperNOFA are:

HOME Technical Assistance. To help HOME participating jurisdictions design and implement HOME programs, including: Improving their ability to design and implement housing strategies and incorporate energy efficiency into affordable housing; facilitating the exchange of information to help participating jurisdictions carry out their programs; facilitating the establishment and efficient operation of employer-assisted housing programs and land bank programs consistent with the purposes of the HOME statute; and encouraging private lenders and for-profit developers of low-income housing to participate in public-private partnerships.

McKinney-Vento Act Homeless Assistance Programs Technical Assistance. To provide applicants, potential applicants, grantees, and project sponsors for McKinney-Vento Act funded Emergency Shelter Grants, Supportive Housing Program, Section 8 Moderate Rehabilitation Single Room Occupancy and Shelter Plus Care projects with technical assistance to promote the development of housing and supportive services as part of the Continuum of Care approach, including innovative approaches to assist homeless persons in the transition from homelessness, and to enable them to live as independently as possible.

Housing Opportunities for Persons with AIDS (HOPWA). To train HOPWA grantees, project sponsors, and potential recipients of program funds in comprehensive housing strategies and responsive area programs that assist residents who are living with HIV/AIDS; in the sound management of HOPWA programs to support program operations in an efficient and effective manner, including undertaking community consultations, program planning, housing development and operations, program evaluation and reporting on accomplishments; and to build the capacity of nonprofit organizations to carry out activities as HOPWA project sponsors.

Available Funds. Approximately $10 million in FY 2002 funds is available for the three CD–TA programs.

Eligible Applicants. Specific eligibility requirements for the CD–TA programs are found below in Section III(C). Up to twenty five percent of the HOME and McKinney-Vento Act Homeless Assistance technical assistance funds is limited to qualified providers who have not previously received a CPD technical assistance award. This limitation is not applicable to HOPWA technical assistance.

Application Deadline. June 7, 2002.

Match. None.

Additional Information

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Submit your completed applications (an original and one copy) on or before June 7, 2002 at the address shown below.

The original application that you submit to Headquarters is considered the official application. Send a copy of your application on or before the application deadline date to the HUD CPD Field Office(s) in which you are seeking to provide services. Only one application per applicant is permitted; however, one application can include as few as one or as many as all three CD–TA programs.

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that apply to application submission. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12 midnight on the application due date and received by the designated HUD office on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, FedEx, DHL and Falcon Carrier. Delivery by these services must be made during HUD Headquarters business hours, between 8:30 AM and 5:30 Eastern time, Monday to Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Addresses for Submitting Applications. HUD Headquarters. Your completed application consists of one original application and one copy. Submit your original application to HUD Headquarters, U.S. Department of Housing and Urban Development, CPD Processing and Control Branch, Room 7251, 451 Seventh Street, SW., Washington, DC 20410.

Copy to Field Office. Send a copy of the application to the appropriate CPD Field Office(s) at the address shown on the list of HUD CPD Field Offices included as Appendix B.

When submitting your application, please refer to the Community Development Technical Assistance Program. Be sure to include your name, mailing address (including zip code), telephone number (including area code), and fax number (including area code).

For Application Kits. For an application kit and any supplemental information, please call the SuperNOFA Information Center at 1–800–HUD–8929. Persons with hearing or speech impairments may call the Center's TTY number at 1–800–HUD–2209. When requesting an application kit, please refer to "Community Development Technical Assistance Programs or CD–TA." Please be sure to provide your name, address (including zip code), telephone number (including area code), and fax number (including area code).

For Further Information and Technical Assistance. You may contact the HUD CPD Office serving your area at the telephone number listed in the list of HUD CPD Field Offices included in the application kit, or you may contact Karen E. Daly at 202–708–3176, x5552 in HUD Headquarters. Persons with hearing and speech challenges may access the above number via TTY (text

VOL 67 ISS 58 MR 26 2002 UMI

telephone) by calling the Federal Relay Service at 1–800–877–8339 (this is a toll-free number). Information on this SuperNOFA also may be obtained through the HUD web site on the Internet at www.hud.gov.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at www.hud.gov.

II. Amount Allocated

(A) The amounts allocated for each CD–TA program are as follows:

HOME TA FY 2002 funds: up to$5,000,000

McKinney-Vento Act Homeless Assistance Programs FY 2002 TA funds: up to $3,000,000

HOPWA FY 2002 TA funds: up to $2,000,000

(B) Each HUD/CPD Field Office has been allocated a "fair-share" of CD–TA funds for purposes of this competition, except for the HOPWA TA funds which will be awarded only through a national competition (see CD–TA Appendix A for the fair share allocations). The amounts are based on allocations of HOME and McKinney-Vento Act Homeless Assistance formula funds and competitive programs for which Field Offices have management oversight. These amounts are only for guidance purposes for you to develop your program budgets by Field Office jurisdiction and are not the exact amounts to be awarded to you in each area.

HUD will determine the total amount to be awarded to any provider based upon the size and needs of the provider's service area within each Field Office jurisdiction in which the provider is selected to operate, the funds available for that area, the number of other awardees selected in that area, and the scope of the technical assistance to be provided. Additionally, HUD may reduce the amount of funds allocated for Field Office jurisdictions to fund national CD–TA providers and other CD–TA providers for activities which cannot be budgeted or estimated by Field Office jurisdiction. HUD may require selected applicants, as a condition of funding, to provide coverage on a geographically broader basis than applied for in order to supplement or strengthen the intermediary network in terms of the location (service area), types and scope of technical assistance proposed.

(C) In order to reach new technical assistance providers in the HOME and McKinney-Vento Act Homeless Assistance program areas up to 25% of the funds in each of these two program areas within a Field Office (or at the national level) will be awarded to applicants who have not previously been funded under a CPD technical assistance competition. Therefore, up to $1.25 million will be awarded to new providers in HOME and $750,000 in McKinney-Vento Act Homeless Assistance. If qualified new applicants are not found in each program area in each Field Office and/or at the national level, the remaining funds will be made available for previously funded providers. The reverse also is true.

(D) To the extent permitted by funding constraints, HUD intends to provide coverage for as full a range as possible, of eligible CD–TA activities of each CD–TA program in each Field Office jurisdiction. To achieve this objective, HUD will fund the highest ranking providers that bring the required expertise in one or more specialized activity areas, and fund portions of providers' proposed programs in which they have the greatest skill and capability for given geographic areas or on a national basis. HUD also may require national, multi-jurisdictional, or other providers to provide coverage to Field Office jurisdictions which cannot otherwise receive cost-effective support from a CD–TA provider. In selecting applicants for funding, in addition to the rating factors, HUD will apply program policy criteria identified in Section V of this CD–TA Program section of SuperNOFA to select a range of providers and activities that would best serve program objectives for each program serviced by the CD–TA funded under this SuperNOFA.

III. Program Description; Program Award Period; Eligible Applicants; Eligible Activities; and Sub-Grants

(A) *Program Description.* Up to $10 million in technical assistance (TA) funds is available from three separate technical assistance programs: HOME TA, McKinney-Vento Act Homeless Assistance TA, and HOPWA TA (collectively "CD–TA").

The funding of these three CD–TA programs through a single funding availability announcement will not affect the ability of eligible applicants to seek CD–TA funding. Eligible applicants are able to apply for funding under as few as one, and as many as three, separate CD–TA programs, individually or collectively, singularly or in combination. The specific provisions of the three separate CD–TA programs have not been changed. This Community Development Technical Assistance Programs section of the SuperNOFA reflects the statutory requirements and differences in the three different CD–TA programs.

(B) Program Award Period

(1) Cooperative Agreements will be for a period of up to 36 months. HUD, however, reserves the right to:

(a) Terminate awards in accordance with provisions contained in OMB Circular A–102, and 24 CFR parts 84 and 85 anytime after 12 months;

(b) Withdraw funds from a specific provider, if HUD determines that the urgency of need for the assistance is greater in other Field Office jurisdictions or the need for assistance is not commensurate with the award for assistance;

(c) Extend the performance period of individual awardees up to a total of 12 additional months.

(2) In cases where an applicant selected for funding under this CD–TA program section of the SuperNOFA currently is providing CD technical assistance under an existing CD–TA grant/cooperative agreement, HUD reserves the right to adjust the start date of funding under this program to coincide with the conclusion of the previous award, or to incorporate the remaining activities from the previous award into the new agreement, adjusting the funding levels as necessary.

(C) Eligible Applicants

(1) *General.* The eligible applicants for each of the three CD–TA programs are listed in paragraphs (2), (3), and (4) of this Section (C). This paragraph (1) lists requirements applicable to all applicants.

(a) Many organizations are eligible to apply for more than one CD–TA program and are encouraged to do so to the extent they have the requisite experience, expertise and capability.

(b) All applicant organizations must have demonstrated ability to provide CD–TA in a geographic area larger than a single city or county and must propose to serve an area larger than a single city or county.

(c) An organization may not provide assistance to itself.

(d) A consortium of organizations may apply for one or more CD–TA programs, but HUD will require that one organization be designated as the legal applicant, where legally feasible. Where one organization cannot be so designated for all proposed activities, HUD may execute more than one cooperative agreement with the members of a consortium. However, in general HUD will not award more than one cooperative agreement per application unless necessary due to legal requirements.

(e) All applicants must meet minimum statutory eligibility requirements for each CD–TA program for which they are chosen in order to be awarded a cooperative agreement. Copies of the Technical Assistance program regulations will be provided with the application kit.

(f) All eligible CD–TA providers may propose assistance using in-house staff, consultants, sub-contractors and sub-recipients, networks of private consultants and/or local organizations with requisite experience and capabilities. Whenever possible, applicants should make use of technical assistance providers located in the Field Office jurisdiction receiving services. This draws upon local expertise and persons familiar with the opportunities and resources available in the area to be served while reducing travel and other costs associated with delivering the proposed technical assistance services.

(g) All applicants must meet the applicable threshold requirements of Section II(B) of the General Section of the NOFA.

(2) *McKinney-Vento Act Homeless Assistance Programs TA Eligible Applicants.*

(a) States, units of general local government, and public housing authorities.

(b) Public and private non-profit or for-profit groups, including educational institutions and area-wide planning organizations, qualified to provide technical assistance on McKinney-Vento Act Homeless Assistance projects.

(3) *HOME TA Eligible Applicants.* (a) A for-profit or non-profit professional and technical services company or firm that has demonstrated capacity to provide technical assistance services;

(b) A HOME participating jurisdiction (PJ) or agency thereof;

(c) A public purpose organization responsible to the chief elected official of a PJ and established pursuant to State or local legislation;

(d) An agency or authority established by two or more PJs to carry out activities consistent with the purposes of the HOME program;

(e) A national or regional non-profit organization that has membership comprised predominantly of entities or officials of entities of PJs or PJs' agencies or established organizations.

(4) *HOPWA TA Eligible Applicants.*

(a) Non-profit organizations; and

(b) States and units of general local government.

(D) *Eligible Activities.* Eligible activities as appropriate for each of the three CD–TA programs are listed below:

(1) *HOME Technical Assistance.* HUD will provide assistance to:

(a) Facilitate the exchange of information that would help participating jurisdictions carry out the purposes of the HOME statute, including information on program design and accessibility, housing finance, land use controls, and building construction techniques;

(b) Improve the ability of States and units of local government to design and implement housing strategies, particularly those States and units of local government that are relatively inexperienced in the development of affordable housing;

(c) Encourage private lenders and for-profit developers of low-income housing to participate in public-private partnerships to achieve the purposes of the HOME statute;

(d) Improve the ability of States and units of local government, community housing development organizations, private lenders, and for-profit developers of low-income housing to incorporate energy efficiency into the planning, design, financing, construction and operation of affordable housing;

(e) Facilitate the establishment and efficient operation of employer-assisted housing programs, through research, technical assistance, and demonstration projects; and

(f) Facilitate the establishment and efficient operation of land bank programs, under which title to vacant and abandoned parcels of real estate located in or causing blighted neighborhoods is cleared for use consistent with the purposes of the HOME statute.

(2) *McKinney-Vento Act Homeless Assistance Programs Technical Assistance.* Funds are available to provide technical assistance to McKinney-Vento Act funded Homeless Assistance projects. Funds may be used to provide technical assistance to prospective applicants, applicants, recipients or other providers (project sponsors) of McKinney-Vento Act funded housing and supportive services for homeless persons. The assistance may include, but is not limited to, written information such as papers, manuals, guides and brochures; person-to-person exchanges; on-site assessments and provision of technical expertise; and training and related costs.

(3) *HOPWA Technical Assistance.* For the purposes of this CD–TA program section of the SuperNOFA, HOPWA technical assistance shall mean the transfer to HOPWA grantees and project sponsors and potential recipients of program funds, the skills and knowledge needed to develop, operate and support HOPWA-eligible projects and activities.

An applicant for HOPWA TA funds must propose activities on a national basis, a regional basis (e.g. serving a multi-state area) or within a State or community. The application should emphasize how activities will advise and train communities and project sponsors in undertaking program planning, community consultations, housing development and operations, coordination with related health-care and other supportive services, and evaluation and reporting on program performance. The Department has established the following national goal for all HOPWA TA projects:

• *National Goal " Sustainable and Sound Management of HOPWA Programs and Projects.*

HOPWA TA funds may be used to help to build the capacity of grantees, project sponsors and potential applicants. The national goal is to enhance (1) the organization's ability to use HUD funds in a manner that upholds the public trust in the operation of the program, and (2) the organization's ability to sustain their projects through financial downturns and beyond the term of the grant. Technical assistance providers should plan programs on financial assessments, developing cost-cutting strategies, long range strategic planning, management and operational efficiency, redirecting resources to essential housing programs, how to identify new financial resources, fund-raising strategies and implementing community-wide planning to avoid duplication of service provision. To achieve this goal, HOPWA TA can be used in the following areas:

(a) Management and operations through such activities as:

(i) Advising on management practices to ensure responsive, efficient and cost effective facility and program operations;

(ii) Advising on fiscal management to ensure accountability in the use of funds and in the development of long-term strategies to assure financial viability including strategic planning, merger and acquisition consideration, financial development programs; and

(iii) Assisting projects in using the Department's information technology, financial systems and information management systems.

(b) State, local, and community planning through such activities as:

(i) Advising on the coordination of housing with health-care and other

VOL
67
ISS
58
MR
26
2002
UMI

related supportive services for eligible persons;

(ii) Assisting in developing collaborations with local, State and Federal agencies that administer HIV/AIDS-related programs, including programs funded under the Ryan White CARE Act;

(iii) Creating or linking to existing needs assessments of the area's housing needs of persons living with HIV/AIDS and their families;

(iv) Creating or linking to comprehensive multiple-year HIV/AIDS housing plans that are undertaken in collaboration with local, State and federal programs including the Ryan White CARE Act programs; and

(v) Creating or linking to existing plans that address specialized needs of clients, including assistance for clients with serious mental illness, chronic alcohol and other drug abuse issues, and homelessness.

(c) Program evaluation through such activities as:

(i) Advising on data collection and program evaluation and dissemination of results; and

(ii) Developing and providing program handbooks, guidance materials, audio/visual products, training, and other activities to promote good management practices.

HOPWA TA applicants should demonstrate that they will assist in the development of Sustainable and Sound Management of HOPWA Programs by serving grantees who assist underserved populations and presenting a plan that describes an outreach and technical assistance program directed to organizations who serve identified underserved populations. The Department has been advised by persons living with HIV/AIDS, HIV/AIDS housing providers, and national organizations, of the continuing disparity in accessing health-care and HIV/AIDS treatment among underserved populations, such as, racial and ethnic minority populations, women, youth, post-incarcerated populations and persons living in rural areas. For the purposes of the HOPWA TA portion of this NOFA, underserved populations are defined as low-income populations living with HIV/AIDS and their families, such as racial or ethnic minority groups, women, persons living in rural areas, youth, post-incarcerated populations, or other underserved groups as determined by your service area, whose housing and related service needs are not currently being met in your service area. To meet this definition of an underserved population, you must present reliable statistics and data sources (i.e. Census, health department statistics, research, scientific studies, Consolidated Plan, and Continuum of Care documentation), showing the unmet need in the provision of housing and supportive services for the identified underserved population under Rating Factor 2 (1). HUD will consider your presentation of statistics and data sources based on soundness and reliability and the specificity of information to the underserved population and the area to be served.

In an effort to meet this continuing need, the highest rated applicants will demonstrate an outreach and assistance program to an identified underserved population as detailed under Rating Factor 3, Soundness of Approach (2) and will support the National HOPWA Goal of Sustainable and Sound Management. Such assistance could include linking HOPWA grantees and project sponsors to other community based organizations that serve an underserved population but have no, or limited, experience with providing housing services. Additionally, HOPWA TA providers could provide assistance to collaborations targeting an underserved population funded under the HOPWA competitive program.

(E) *Sub-Grants Applicants.* Sub-Grant Applications may propose to make sub-grants to achieve the purposes of their proposed CD–TA programs in accordance with program requirements in Section IV of this CD–TA Program section of the SuperNOFA.

IV. Program Requirements

In addition to the program requirements listed in the General Section of this SuperNOFA (please especially note a new requirement regarding Conducting Business in Accordance with Core Values and Ethical Standards found in General Section II(B)(2)), applicants are subject to the following requirements:

(A) *Program Requirements for HOME and McKinney-Vento Act Homeless Assistance.*

(1) *Profit/Fee.* No increment above cost, no fee or profit, may be paid to any recipient or subrecipient of an award under this CD–TA Program section of the SuperNOFA.

(2) *Demand/Response Delivery System.*

(a) As an awardee, you must operate within the structure of the demand/response system described in this section. You must coordinate your plans with, and operate under the direction of, each HUD Field Office within whose jurisdiction you are operating. When so directed by a Field Office, you will coordinate your activities instead through a lead CD–TA provider or other organization designated by the Field Office.

(b) If selected as the lead CD–TA provider in any Field Office jurisdiction, as an awardee you must coordinate the activities of other CD–TA providers selected under this CD–TA Program section of the SuperNOFA under the direction of the HUD Field Office. Joint activities by CD–TA providers may be required.

(c) Under the demand/response system, CD–TA providers will be required to:

(i) When requested by a Field Office or Government Technical Representative (GTR), market the availability of their services to existing and potential clients to include local jurisdictions in which the assistance will be delivered.

(ii) Respond to requests for assistance from the HUD Field Office(s) with oversight of the geographic service area for which the technical assistance will be delivered, including responding to priorities established by the Field Office in its Grants Management System. HOME PJs, and McKinney-Vento Act Homeless Assistance grantees may request assistance from the CD–TA provider directly, but such requests must be approved by the local HUD Field Office.

(iii) When requested by a Field Office or GTR, conduct a Needs Assessment to identify the type and nature of the assistance needed by the recipients of the assistance. These needs assessments should typically identify the nature of the problem to be addressed by the technical assistance services; the plan of action to address the need including the type of technical assistance services to be provided, the duration of the service, the staff assigned to provide the assistance, anticipated products and/or outcomes, and the estimated cost for the provision of services; and the relationship of the proposed services to the planned or expected Consolidated Plan submission to HUD and to other technical assistance providers providing service within the locality.

(iv) Obtain approval for the Technical Assistance Delivery Plan (TADP) from the HUD Field Office(s) with oversight for the area in which service will be provided. (See Section 3 below).

(v) Work cooperatively with other CD–TA providers in their geographic areas to ensure that clients are provided with the full range of CD–TA services needed and available. CD–TA providers are expected to be knowledgeable about the range of services available from other providers, make referrals and arrange visits by other CD–TA providers when appropriate, and carry out CD–TA activities concurrently when it is cost-effective and in the interests of the client to do so. HUD Field Offices may direct CD–TA providers to conduct joint activities.

(3) *Technical Assistance Delivery Plan (TADP).*

(a) After selection for funding but prior to award, you must develop a TADP for each Field Office jurisdiction or National Program for which you have been selected, in consultation with the Field office and/or GTR.

(b) In developing the TADP, you must follow the Field Office's management plan determining your priority work activities, location of activities, and organizations to be assisted during the cooperative agreement performance period.

(c) The Field Office management plan should indicate the issues to be addressed by CD–TA, the improved performance expected as a result of CD–TA, and methods for measuring the success of the CD–TA.

(d) The TADP must delineate all the tasks and sub-tasks for each CD program the applicant will undertake in each Field Office jurisdiction. The TADP must show the location of the community/State in which the CD–TA activities will occur, the level of CD–TA funding and proposed activities by location, the improved program performance or other results expected from the CD–TA and the methodology to be used for measuring the success of the CD–TA. A time schedule for delivery of the activities, budget summary, budget-by-task and staffing plan must be included in the TADP.

(4) *Negotiation.* After all applications have been rated and ranked and a selection has been made, HUD requires that all winners participate in negotiations to determine the specific terms of the TADP and the budget. HUD will follow the negotiation procedures described in Section III(D) of the General Section of the SuperNOFA.

(5) *Forms, Certifications and Assurances.* You must submit with your application the forms, certifications and assurances listed in the General Section of this SuperNOFA.

(6) *Financial Management and Audit Information.* After selection for funding but prior to award, you must submit a certification from an Independent Public Accountant or the cognizant government auditor, stating that your financial management system meets prescribed standards for fund control and accountability required by 24 CFR part 84 for Institutions of Higher Education and other Non-Profit Institutions, 24 CFR part 85 for States and local governments, or the Federal Acquisition Regulations (for all other applicants). The information should include the name and telephone number of the independent auditor, cognizant Federal auditor, or other audit agency as applicable.

(7) *Training Sessions.* When conducting training sessions as part of its CD–TA activities, CD–TA providers are required to:

(a) Design the course materials as "step-in" packages (also called "train-the trainer" packages) so that a Field Office or other CD–TA provider may separately give the course on its own;

(b) Arrange for joint delivery of the training with Field Office participation when so requested by the Field Office or by the GTR for national grants; and

(c) When requested by a Field Office and/or GTR, provide for professional videotaping of the workshops/courses and ensure their production in a professional and high-quality manner, suitable for viewing by other CD clients (if this requirement is implemented, additional funds may be requested).

(d) When required by HUD, deliver HUD-approved training courses that have been designed and developed by other HUD contractors or HUD cooperating parties on a "step-in" basis for CD–TA clients, and send trainers to HUD-approved Train-the Trainer sessions.

(8) *Reports to Field Offices and/or GTRs.* CD–TA providers will be required to report to the HUD Field Office(s) with oversight of the geographic area(s) in which CD-TA services are provided or to Headquarters GTRs in the case of national providers. At a minimum, this reporting will be on a quarterly basis unless otherwise specified in the approved TADP.

(9) *Active Participation.* HUD Field Offices will be active participants in the delivery of all technical assistance by funded providers throughout the term of the cooperative agreement.

(10) *HOME TA Program Limitations.* Pursuant to section 243(b) of the Cranston-Gonzalez National Affordable Housing Act, funding to any single eligible HOME TA organization, whether as an independent or joint applicant, is limited to not more than 20% of the operating budget of the recipient organization in any one year and is limited to 20% of the funds available under this CD–TA program section of the SuperNOFA.

(11) *HOME National TA Program Guidance.* With the funds designated for a national TA program, HUD intends to fund applications which propose activities to help HOME participating jurisdictions design and implement HOME programs, including: improving their ability to design and implement housing strategies and incorporate energy efficiency into affordable housing, facilitating the exchange of information to help participating jurisdictions carry out their programs; facilitating the establishment and efficient operation of employer-assisted housing programs; and/or encouraging private lenders and for-profit developers of low-income housing to participate in public-private partnerships. Proposals should directly address how the capacity of participating jurisdictions may be improved to ensure that HOME funds are used effectively, efficiently and in compliance with the HOME rules to develop affordable housing. Emphasis should be placed on the basic skills and systems needed to develop, maintain and manage well designed and constructed affordable housing over the long term when using Federal funds.

(12) *Affirmatively Furthering Fair Housing.* Section II(D) of the General Section of the SuperNOFA does not apply to these technical assistance programs.

(B) *Program Requirements for HOPWA Technical Assistance.*

(1) *General Requirements.* The items listed below specify the requirements that apply to the HOPWA TA applications as follows: in Section IV(A), Paragraphs: (1) Profit/Fee; (4) Negotiation, except that the TADP reference will apply to a workplan negotiated between the applicant and the GTR for the HOPWA TA grant in HUD Headquarters; (5) Forms, Certifications and Assurances; (6) Financial Management and Audit Information; (7) Training Sessions; (8) Reports to Field Offices and/or GTRs, except that you must report to the HOPWA Headquarters GTR, at a minimum, on a quarterly basis, unless otherwise specified in an approved HOPWA TA workplan and you will be expected to meet the following performance benchmarks: (i) you are required to begin technical assistance activities within one year of your selection (i.e., one year from the date of the signing of your selection letter by HUD); and (ii) you are requested to provide an initial report to the Field Office and the Headquarters GTR on the startup of the planned activities within six months of your selection. Please outline any accomplishments in implementing the funds along with identifying any barriers or issues for which the Department may provide assistance. If a selected project does not meet the appropriate performance benchmark, HUD reserves the right to cancel or withdraw the grant funds.

VOL 67 ISS 58 MR 26 2002 UMI

(2) *Coordination of HOPWA TA Requests.* Except for national meetings, research, information and other activities that are conducted on a program-wide basis in cooperation with HUD Headquarters, as the grantee of HOPWA TA funds, you must work cooperatively with HUD Field Offices. You must notify the applicable HUD Field Office of the planned activities; must consider the views or recommendations of that office, if any; must follow those recommendations, to the degree practicable; and must report to the applicable Field Office on the accomplishments of this assistance.

V. Application Selection Process

(A) Rating and Ranking

(1) HUD will evaluate applications competitively and rank them against all other applicants that have applied for the same CD–TA program (HOME, McKinney-Vento Act Homeless Assistance) within each Field Office or as a National Provider under HOPWA. There will be separate rankings for each CD–TA program, and you will be ranked only against others that have applied for the same CD–TA program.

(2) Once scores are assigned, all applications will be listed in rank order for each CD–TA program for which they applied by Field Office jurisdiction and/or the HOPWA National Program. In each Field Office jurisdiction or National Program area, all applications for the HOME TA program will be listed in rank order on list, all applications for the McKinney-Vento Act Homeless Assistance TA program will be listed in rank order on another list, and all applications for the HOPWA TA national projects will be ranked separately on a third list. Under this system, a single application from one organization for all CD–TA programs could be assigned different scores and different rankings for each program in different Field Offices.

(3) Applications will be funded in rank order for each CD–TA program by Field Office jurisdiction, except for HOPWA TA national providers and others which cannot be ranked by Field Office jurisdiction. National providers and others will be ranked separately and funded in rank order for each CD–TA program. Irrespective of final scores, HUD may apply program policy criteria to select one applicant in each of the two HOME and McKinney-Vento Act Homeless Assistance) CD–TA programs in each Field Office or nationally, to ensure diversity of methods, approaches, or kinds of projects. HUD will apply these program policy criteria to provide coverage of CD–TA services for minorities; women, particularly women in the homebuilding professions under section 233(b)(7) of the Cranston-Gonzalez National Affordable Housing Act; persons with disabilities; homeless; persons with special needs; and rural areas.

(4) In addition to the authority in the General Section to adjust funding, HUD reserves the right to adjust funding levels for each applicant for each CD–TA program, as follows:

(a) Adjust funding levels for any provider based upon the size and needs of the provider's service area within each Field Office jurisdiction in which the provider is selected to operate, the funds available for that area, the number of other awardees selected in that area, funds available on a national basis for providers that will be operating nationally, or the scope of the technical assistance to be provided;

(b) To negotiate increased grant awards with applicants approved for funding if HUD requests them to offer coverage to geographic areas for which they did not apply or budget, or if HUD receives an insufficient amount of applications.

(5) If funds remain after all selections have been made, remaining funds may be:

(a) Distributed among all HUD Field Offices (in proportion to their fair-share awards) and/or the National Program, or

(b) Made available for other CD–TA program competitions.

(6) If you apply for HOPWA TA funds, you must propose activities that will be carried out on a national, regional, State or community basis. The Department reserves the right to adjust the amount of requested funds that are awarded to correspond with the size of the intended service area in comparison to the planned national scope of activities to ensure the best use of these limited resources. Additionally, HUD may also modify the service area of a selected application, if practicable.

(B) *Factors for Award Used to Evaluate and Rate Applications.* The factors and maximum points for each factor are provided below. The maximum number of points to be awarded for a CD–TA application is 100. The minimum score for an applicant to be considered in funding range is 70, with a minimum of 15 points in Factor 1. The CD–TA program is not an eligible program for bonus points, as described in Section III(C)(1)–(3) of the General Section of the SuperNOFA.

Rating of the "applicant" or the "applicant's organization and staff", unless otherwise specified, will include any sub-contractors, consultants, sub-recipients, and members of consortia which are firmly committed to the project.

When addressing the Factors for Award, you should discuss the specific TA projects, activities, tasks, etc. that you suggest be carried out during the term of the cooperative agreement. See Sections IV(A)(2) and (3) of this CD–TA program section for a discussion of the extent to which such activities may be revised at or after the time of award. In responding to the Factors, you should be specific about the type of experience, knowledge, skills and abilities your organization, your staff, and any subcontractors firmly committed to the project have with the CD–TA programs and you should provide relevant examples to support your application. You should also be specific when detailing the communities, populations (HOPWA only) and/or organizations which you propose to serve, especially in response to Factor 3, Subfactor 2 and in detailing the dollar amounts you have leveraged in Factor 4.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (25 points) (Minimum for Funding Eligibility 15 points)

In rating this factor, HUD will consider the extent to which the application demonstrates in relation to CD–TA program funding that is requested:

(1) (10 points) Recent, relevant and successful experience of your organization and staff in providing technical assistance in all eligible activities and to all eligible entities for the CD–TA program(s) applied for, as described in the regulations;

(2) (8 points) The relevant experience, competence, knowledge, skills, and abilities of your key personnel in managing complex, multi-faceted or multi-disciplinary programs that require coordination with other CD–TA entities or multiple, diverse units in an organization;

(3) (7 points) You have sufficient personnel or access to qualified experts or professionals with the knowledge, skills, and abilities to deliver the proposed level of technical assistance in each proposed service area in a timely and effective fashion.

Rating Factor 2: Potential Effectiveness of the Application in Meeting Needs of Target Groups/Localities and Accomplishing Project Objectives for Each CD–TA Program for which Funds Are Requested (20 Points)

In rating this factor, HUD will consider the extent to which your application:

(1) (8 points) Identifies high priority needs and issues for the CD program in each community or Field Office jurisdiction for which CD–TA funding is requested, or on a national or regional basis for national HOPWA grants;

(2) (7 points) Outlines a clear and cost-effective plan of suggested TA activities for addressing those needs and aiding a broad diversity of eligible grantees and/or beneficiaries, including those which traditionally have been under-served; and

(3) (5 points) Identifies creative activities to assist eligible grantees in participating in the development of, and improving, local Consolidated Plans and comprehensive strategies.

Rating Factor 3: Soundness of Approach (35 Points)

In rating this factor, HUD will consider the extent to which your application evidences a sound approach in addressing identified needs and:

(1) (13 points) Provides a cost effective plan for designing, organizing, managing and carrying out the suggested technical assistance activities within the framework of the Demand/Response System or, for HOPWA TA applicants, in addressing the HOPWA TA goal.

(2) (12 points) Demonstrates an effective outreach and assistance program to specifically identified disadvantaged communities, populations (HOPWA only) and/or organizations which previously have been underserved and have the potential to participate in CPD programs.

(3) (5 points) Provides for full geographic coverage, including urban and rural areas, (directly or through a consortium of providers) of a single State or Field Office jurisdiction or is targeted to address the needs of rural areas, minority groups or other under-served groups or for HOPWA TA applicants, addresses other approaches that respond to identified needs.

(4) (5 points) Proposes a feasible, creative plan, which uses state of the art or new promising technology, to transfer models and lessons learned in each of its CD–TA program's activities to grantees and/or program beneficiaries in other CD–TA programs.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses your ability to secure community resources (note: financing is a community resource) that can be combined with HUD's program resources to achieve program purposes. In evaluating this factor HUD will consider: The extent to which you have partnered with other entities to secure additional resources to increase the effectiveness of the proposed program activities.

Resources may include funding or in-kind contributions, such as services or equipment, allocated to the purpose(s) of the award you are seeking. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities willing to partner with the applicant. You also may partner with other program funding recipients to coordinate the use of resources in the target area.

You must provide evidence of leveraging/partnerships by including in the application letters of firm commitments, memoranda of understanding, or agreements to participate from those entities identified as partners in the application. Each letter of commitment, memorandum of understanding, or agreement to participate should include the organization's name, proposed level of commitment and responsibilities as they relate to the proposed program and preferably be submitted on the organization's letterhead. The commitment must also be signed by an official of the organization legally able to make commitments on behalf of the organization.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which you coordinate your activities with other known organizations, participate or promote participation in a community's Consolidated Planning process and Continuum of Care homeless assistance strategy, and are working towards addressing a need identified in your application as high priority in a holistic and comprehensive manner through linkages with other activities in the community.

In evaluating this factor, HUD will consider the extent to which you demonstrate you have:

(1) Coordinated your proposed activities with those of other groups or organizations prior to submission in order to best complement, support and coordinate all known activities and if funded, the specific steps you will take to share information on solutions and outcomes with others. Describe any written agreements, memoranda of understanding in place, or that will be in place after award.

(2) Taken or will take specific steps to work with recipients of technical assistance services to become active in the community's Consolidated Planning process (including the Analysis of Impediments to Fair Housing Choice) established to identify and address a need/problem that is related to the activities you propose.

(3) Taken or will take specific steps to develop linkages to coordinate comprehensive solutions through meetings, information networks, planning processes or other mechanisms with:

(a) Other HUD-funded projects/activities outside the scope of those covered by the Consolidated Plan; and

(b) Other Federal, State or locally funded activities, including those proposed or on-going in the community.

(C) *Applicant Debriefing.* As described in the General Section, Introduction to the FY 2002 SuperNOFA, applicant debriefings will be conducted beginning not less than 30 days after the awards for assistance are announced in the **Federal Register**. Refer to the General Section for details.

VI. Application Submission Requirements

In addition to the forms, certifications and assurances listed in Section II(H) of the General Section of the SuperNOFA (collectively referred to as the "standard forms"), your application must, at a minimum, contain the following items (except that the following paragraphs (C), (D), and (E), do not apply to HOPWA TA applicants). The standard forms can be found in Appendix B to the General Section of the SuperNOFA.

(A) Transmittal Letter which identifies the SuperNOFA, the CD–TA programs for which funds are requested and the dollar amount requested for each program, and the applicant or applicants submitting the application. If your organization has never received a CPD technical assistance award, please include a statement to this effect in the transmittal letter. Additionally, HOPWA TA applicants are requested to submit a two-page executive summary outlining the key elements of the proposed TA activities.

(B) Narrative statement addressing the Factors for Award described in Section V(B) of this CD–TA Program section of this SuperNOFA. You should number the narrative response in accordance with each factor for award. This narrative statement will be the basis for evaluating your application. It should include a plan of suggested TA activities as described in Factors 2, 3, and elsewhere. These suggested TA activities may form a starting point for negotiating the TADP described in Section IV(A)(3) of this CD–TA Program section of the SuperNOFA. However, they are used primarily for purposes of rating and evaluation and may be substantially altered and revised during negotiations with the Field Offices on the content of the TADPs (see Section

VOL 67 ISS 58 MR 26 2002 UMI

IV(A)(3)) or Headquarters program office for national projects.

(C) Statement that identifies the Field Office jurisdictions in which you propose to offer services. If you will not offer services throughout the full jurisdictional area of the Field Office, your statement should identify the service areas involved (e.g., States, counties, etc.), as well as the communities in which you propose to offer services.

(D) A matrix that summarizes the amount of funds you are requesting for each CD–TA program in each Field Office jurisdiction. (See the CD–TA application kit for a copy of the matrix to be submitted.)

(E) A statement as to whether you propose to be considered for the role of lead CD–TA provider in one or more specific program areas in a Field Office jurisdiction, and if so, your organization's capabilities and attributes that qualify you for the role.

(F) Budget Summary identifying costs for implementing the plan of suggested TA activities by cost category for each CD–TA program for which funds are requested by Field Office or as a National Provider (in accordance with the following):

(1) Direct Labor by position or individual, indicating the estimated hours per position, the rate per hour, estimated cost per staff position and the total estimated direct labor costs;

(2) Fringe Benefits by staff position identifying the rate, the salary base the rate was computed on, estimated cost per position, and the total estimated fringe benefit cost;

(3) Material Costs indicating the item, quantity, unit cost per item, estimated cost per item, and the total estimated material costs;

(4) Transportation Costs, as applicable.

(5) Equipment charges, if any. Equipment charges should identify the type of equipment, quantity, unit costs and total estimated equipment costs;

(6) Consultant Costs, if applicable. Indicate the type, estimated number of consultant days, rate per day, total estimated consultant costs per consultant and total estimated costs for all consultants;

(7) Subcontract Costs, if applicable. Indicate each individual subcontract and amount;

(8) Other Direct Costs listed by item, quantity, unit cost, total for each item listed, and total other direct costs for the award;

(9) Indirect Costs should identify the type, approved indirect cost rate, base to which the rate applies and total indirect costs.

These line items should total the amount requested for each CD–TA program area. The grand total of all CD–TA program funds requested should reflect the grand total of all funds for which application is made.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

In accordance with 24 CFR 50.19(b)(9) and 58.34(a)(9), the assistance provided by these programs relates only to the provision of technical assistance and is categorically excluded from the requirements of the National Environmental Policy Act and not subject to environmental review under the related laws and authorities. This determination is based on the ineligibility of real property acquisition, construction, rehabilitation, conversion, leasing or repair for HUD assistance under these technical assistance programs.

IX. Authority

HOME Technical Assistance. The HOME Technical Assistance Program is authorized by the HOME Investment Partnerships Act (42 U.S.C. 12781–12783); 24 CFR part 92.

McKinney-Vento Act Homeless Assistance Programs Technical Assistance. The Supportive Housing Program is authorized under 42 U.S.C. 11381 *et seq.*; 24 CFR 583.140. The Emergency Shelter Grant, Section 8 Moderate Rehabilitation Single Room Occupancy Program and Shelter Plus Care Technical Assistance Programs are authorized by the FY 2002 HUD Appropriations Act.

HOPWA Technical Assistance. The HOPWA Technical Assistance program is authorized under the FY 2002 HUD Appropriations Act. The HOPWA program is authorized under the AIDS Housing Opportunities Act (42 U.S.C. 12901) and the HOPWA regulations are found at 24 CFR part 574.

APPENDIX A TO CD–TA PROGRAM: "FAIR-SHARE" AMOUNTS ALLOCATED TO EACH HUD CPD OFFICE

HUD CPD field office	HOME TA	McKinney-Vento Act homeless assistance TA	HOPWA TA
Alabama State Office	50,000	40,000

FUNDING AVAILABILITY FOR THE COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM FOR INDIAN TRIBES AND ALASKA NATIVE VILLAGES

Program Overview

(A) Authority

Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 *et seq.*) and the regulations in 24 CFR part 1003.

(B) Purpose of the Program

The purpose of the Community Development Block Grant Program for Indian Tribes and Alaska Native Villages (ICDBG) is the development of viable Indian and Alaska Native communities, including the creation of decent housing, suitable living environments, and economic opportunities primarily for persons with low and moderate incomes as defined in 24 CFR 1003.4.

(C) Available Funds

The FY 2002 appropriation for the ICDBG Program is $70,000,000. In addition, any FY 2001 ICDBG carry-over funding would be available for distribution in FY 2002.

(D) Eligible Applicants

Eligible applicants are Indian tribes or tribal organizations on behalf of Indian tribes.

(E) Application Deadline

June 6, 2002.

(F) Match

None.

(G) Additional Information

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information.

Please note: when used in this NOFA the word "tribe" means an Indian tribe, band, group or nation, including Alaska Indians, Aleuts, Eskimos, Alaska Native Villages, ANCSA Village Corporations, and ANCSA Regional Corporations.

I. Application Due Date, Addresses for Submission, Tips for Application Preparation, Application Kits, Further Information, and Technical Assistance

(A) Application Due Date

Your completed application (one original and two copies) must be postmarked on or before 12:00 midnight, on June 6, 2002 and be received by the designated Area Office of Native American Programs (ONAP) on or within 15 days of the application due date.

See the General Section of this SuperNOFA for specific procedures that you must follow for the form of application submission. Please note that for security purposes, applications can *only* be delivered to Area ONAPs via the United States Postal Service. Hand carried applications will not be accepted.

(B) Addresses for Submitting Applications to the Appropriate Area ONAP

Submit original signed application and two copies to the appropriate Area ONAP for your jurisdiction. A list of jurisdictions is given below. Please note that for security purposes, applications can *only* be delivered to Area ONAPs via the *United States Postal Service.*

If you are applying from this geographic location then * * *	send your application to this Area ONAP:
All States East of the Mississippi River, Plus Iowa and Minnesota.	Eastern/Woodlands Office of Native American Programs Grants Management Division, 77 West Jackson Blvd., Room 2400, Chicago, IL 60604–3507, Telephone: (312) 886–4532, Ext. 2815.
Louisiana, Kansas, Oklahoma, and Texas, except West Texas.	Southern Plains Office of Native American Programs, Grants Management Division, 500 W. Main Street, Suite 400, Oklahoma City, OK 73102–3202, Telephone: (405) 553–7525.
Colorado, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.	Northern Plains Office of Native American Programs, Grants Management Division, First Interstate Tower North, 633 17th Street, Denver, CO 80202–3607, Telephone: (303) 672–5465.
Arizona, California, and Nevada	Southwest Office of Native American Programs, Grants Management Division, Two Arizona Center, Suite 1650, 400 N. Fifth Street, Phoenix, AZ 85004–2361, Telephone: (602) 379–3865.
New Mexico and West Texas	Southwest Office of Native American Programs, Grants Management Division, Albuquerque Plaza, 201 3rd Street N.W., Suite 1830, Albuquerque, NM 87102–3368, Telephone: (505) 346–6923.
Idaho, Oregon, Washington	Northwest Office of Native American Programs, Grants Management Division, Federal Office Building, 909 First Avenue, Suite 300, Seattle, WA 98104–1000, Telephone: (206) 220–5271.
Alaska	Alaska Office of Native American Programs, Grants Management Division, 949 E. 36th Avenue, Suite 401, Anchorage, AK 99508–4399, (907) 271–4603.

(C) General Tips for ICDBG Application Preparation

In order to expedite the review of your application and to ensure that your application is given a thorough and complete review of all responses to each of the components of the selection criteria, please indicate on the first page of each project submission, the type of project(s) being proposed: Economic Development, Homeownership Assistance, Housing Rehabilitation, Land Acquisition to Support New Housing, Microenterprise Programs, New Housing Construction or Public Facilities & Improvements. This will help to ensure that the appropriate project specific thresholds and rating sub-factors will be applied.

In addition, please use separate tabs for each rating factor and rating sub-factor. In order to be rated, make sure the response is beneath the appropriate heading. Keep the responses in the same order as the NOFA. Limit your narrative explanations to 200 words or less and provide the necessary data such as a market analysis, a pro forma, housing survey data, etc., that support the response. Include all relevant material to a response under the same tab. Only include that documentation that will clearly and concisely support your response to the rating criteria.

HUD suggests that you do a preliminary rating for your project, providing a score according to the NOFA point system. This will help to show you how your project might be scored by reviewers. Also, it will help to show you where the strengths and weaknesses of the application are

VOL
67
ISS
58
MR
26
2002
UMI

located. This will help you determine where improvements can be made to your application prior to its submission.

(D) Application Kits

For an application kit and any supplemental material please call the SuperNOFA Information Center at 1–800–HUD–8929 or the appropriate Area ONAP for your jurisdiction as listed above. Persons with hearing or speech impairments may call the Center's TTY number at 1–800–HUD–2209. An application kit also will be available on the Internet through the HUD Web site at *http://www.hud.gov/grants*. When requesting an application kit, please refer to ICDBG and provide your name, address (including zip code), and telephone number (including area code).

(E) Further Information

You should direct general program questions to the Area ONAP serving your area or to Jackie Kruszek, Office of Native American Programs, Office of Public and Indian Housing, Department of Housing and Urban Development, 1999 Broadway, Suite 3390, Denver, CO 80202; telephone (800) 561–5913. Persons with speech or hearing impairments may call HUD's TTY number (202) 708–0770, or 1–800–877–8399 (the Federal Information Relay Service TTY). Other than the "800" number, these numbers are not toll-free.

(F) Technical Assistance

Before the application due date, we will be available to provide you with general guidance and technical assistance. We, however, are not permitted to assist in preparing your application. Following selection of applicants, but before awards are made, we are available to assist you in clarifying or confirming information that is required to address a pre-award requirement or condition but will not affect the rating or ranking of your application.

Amount Allocated

(A) Available Funds

The FY 2002 appropriation for the ICDBG Program is $70,000,000. In addition, any FY 2001 ICDBG carry-over funding would be available for distribution in FY 2002.

(B) General

Title I of the Housing and Community Development Act of 1974 which authorizes CDBG requires grants for Indian tribes be awarded on a competitive basis in accordance with selection criteria contained in a regulation promulgated by the Secretary after notice and public comment. All grant funds awarded in accordance with this NOFA are subject to the requirements of 24 CFR part 1003. Applicants within an Area ONAP's geographic jurisdiction compete only against each other for that Area ONAP's allocation of funds.

(C) Allocations

The requirements for allocating funds to Area ONAPs responsible for program administration are found at 24 CFR 1003.101. Following these requirements, based on an appropriation of $70,000,000 less $2,000,000 retained to fund Imminent Threat Grants, the allocations for FY 2002 are as follows:

Eastern/Woodland	$ 5,905,403
Southern Plains	12,608,675
Northern Plains	10,791,499
Southwest	27,710,487
Northwest	4,741,105
Alaska	6,242,832
Total	68,000,000

(D) Imminent Threats

The criteria for grants to alleviate or remove imminent threats to health or safety that require an immediate solution are described at 24 CFR part 1003, subpart E. In order to satisfy these criteria, the problem to be addressed must be such that an emergency situation exists or would exist if the problem were not addressed. In addition, you may use funds only to address imminent threats that are not of a recurring nature and that represent a unique and unusual circumstance that impacts an entire service area. In accordance with the provisions of 24 CFR part 1003, subpart E, we will retain $2,000,000 to meet the funding needs of imminent threat applications submitted to any of the Area ONAPs. The grant ceiling for imminent threat applications for FY 2002 is $350,000. We established this ceiling pursuant to the provisions of 24 CFR 1003.400(c).

You do not have to submit a request for assistance under the imminent threat set-aside (24 CFR part 1003, subpart E) by the deadline established in this NOFA. The deadline applies only to applications submitted for assistance under 24 CFR part 1003, subpart D, Single purpose grants.

If, in response to a request for assistance, an Area ONAP issues you a letter to proceed under the authority of 24 CFR 1003.401(a), then your application must be submitted to and approved by the Area ONAP before a grant agreement may be executed. This application must contain: Standard Form 424, Application for Federal Assistance; a brief description of the proposed project; Form HUD–4123, Cost Summary; Form HUD–4125, Implementation Schedule; Form HUD–2880, Applicant/Recipient Disclosure/Update Report; and, Form HUD–50070, Certification for a Drug-Free Workplace.

III. Program Description; Eligible Applicants; Eligible Activities; and Definitions

(A) Program Description

The purpose of the ICDBG Program is the development of viable Indian and Alaska Native communities, including the creation of decent housing, suitable living environments, and economic opportunities primarily for persons with low and moderate incomes.

(B) Eligible Applicants

To apply for funding you must be eligible as an Indian Tribe (or as a tribal organization) by the application submission date.

Tribal organizations are permitted to submit applications under 24 CFR 1003.5(b) on behalf of eligible tribes when one or more eligible tribe(s) authorize the organization to do so under concurring resolutions. As is stated in this regulatory section, the tribal organization must itself be eligible under title I of the Indian Self-Determination and Education Assistance Act. A determination of such eligibility must be made by the Bureau of Indian Affairs or the Indian Health Service, as appropriate. This determination must be provided to the ONAPs by the application submission date.

If a tribe or tribal organization claims that it is a successor to an eligible entity, the ONAPs must review the documentation to determine whether it is in fact the successor entity.

Due to the unique structure of tribal entities eligible to submit ICDBG applications in Alaska, and as only one ICDBG application may be submitted for each area within the jurisdiction of an entity eligible under 24 CFR 1003.5, a tribal organization that submits an application for activities in the jurisdiction of one or more eligible tribes or villages must include a concurring resolution from each such tribe or village authorizing the submittal of the application. Each such resolution must also indicate that the tribe or village does not itself intend to submit an ICDBG application for that funding round. The hierarchy for funding priority continues to be the IRA Council, the Traditional Village Council, the ANCSA Village Corporation, and the ANCSA Regional Corporation.

On March 13, 2000 (65 FR 13298), the Bureau of Indian Affairs published a

Federal Register notice entitled "Indian Entities Recognized and Eligible to Receive Services From the United States Bureau of Indian Affairs." This notice provides a listing of Indian Tribal Entities in Alaska found to be Indian Tribes as the term is defined and used in 25 CFR part 83. Additionally, pursuant to title I of the Indian Self-Determination and Education Assistance Act, ANCSA Village Corporations and Regional Corporations are also considered tribes and therefore eligible applicants for the ICDBG program.

Any questions regarding eligibility determinations and related documentation requirements for entities in Alaska should be referred to the Alaska Area ONAP prior to the application submission date. (See 24 CFR 1003.5 for a complete description of eligible applicants.)

(C) Eligible Activities

Activities that are eligible for ICDBG funding are identified at 24 CFR part 1003, subpart C. Please note that although this subpart has not yet been revised to include the restrictions on activity eligibility that were added to section 105 of the CDBG statute by section 588 of the Quality Housing and Work Responsibility Act of 1998, these restrictions apply. Specifically, ICDBG funds may not be used to assist directly in the relocation of any industrial or commercial plant, facility, or operation, from one area to another, if the relocation is likely to result in a significant loss of employment in the labor market area from which the relocation occurs. The rating factors included under V (J) specify many of the activities listed as eligible under part 1003, subpart C. Those listed include new housing construction, housing rehabilitation, land acquisition to support new housing, homeownership assistance, public facilities and improvements, economic development, and micro-enterprise programs. However, the following eligible activities not clearly identified by the rating factors may be proposed and rated as described below. For a complete description of eligible activities, please refer to 24 CFR Part 1003 Subpart C.

(1) *Acquisition of property.* This activity can be proposed as Land to Support New Housing or as part of New Housing Construction, Public Facilities and Improvements or Economic Development depending on the purpose of the land acquisition to support new construction.

(2) *Assistance to Institutions of Higher Learning.* If such entities have the capacity, they can help the ICDBG grantees to implement eligible projects.

(3) *Assistance to Community Based Development Organizations (CBDO's).* Grantees may provide assistance to these organizations to undertake activities related to neighborhood revitalization, community economic development or energy conservation.

(4) *Clearance, Demolition.* These activities can be proposed as part of Housing Rehabilitation, New Housing Construction, Public Facilities and Improvements or Land to Support New Housing.

(5) *Code Enforcement.* This activity can be proposed as Housing Rehabilitation. The activity must comply with the requirements at 24 CFR 1003.202. HUD approval is required prior to demolition of any assisted housing.

(6) *Comprehensive Planning.* This activity is eligible, and can be proposed, as part of any otherwise eligible project to the extent allowed by the 20 percent cap on the grant for planning/administration.

(7) *Energy Efficiency.* Associated activities can be proposed under Housing Rehabilitation or Public Facilities and Improvements depending upon the type of energy efficiency activity.

(8) *Lead Based Paint Abatement and Evaluation.* These activities can be proposed under Housing Rehabilitation.

(9) *Non-Federal Share.* ICDBG funds can be used as a match for any non-ICDBG funding to the extent allowed by such funding and the activity is eligible under 24 CFR part 1003, Subpart C.

(10) *Privately and Publicly Owned Commercial or Industrial Buildings (real property improvements).* These activities can be proposed under Economic Development. Privately owned commercial rehabilitation is subject to the requirements at 24 CFR 1003.202.

(11) *Privately Owned Utilities.* Assistance to privately owned utilities can be proposed under Public Facilities and Improvements.

(12) *Removal of Architectural Barriers.* This includes removing barriers that restrict mobility and access for elderly and persons with disabilities. This activity can be proposed under Housing Rehabilitation or Public Facilities and Improvements depending upon the type of structure where the barrier will be removed.

(D) Definitions

(1) *Adopt.* To approve by formal tribal resolution.

(2) *Assure.* To comply with a specific NOFA requirement. As an applicant, you must state your compliance or your intent to comply in your application.

(3) *Document.* To supply supporting written information and/or data in the application that satisfies the NOFA requirement.

(4) *Entity Other than Tribe.* A distinction is made between the requirements for point award under Rating Factor 3 if a tribe or an entity other than the tribe will assume maintenance and related responsibilities for projects other than economic development and land acquisition to support new housing. Entities other than the tribe must have the following characteristics: must be legally distinct from the tribal government; their assets and liabilities cannot be considered to be assets and liabilities of the tribal government; claims against such entities cannot be made against the tribal government; and, must have governing boards, boards of directors, or groups or individuals similar in function and responsibility to such boards which are separate from the tribe's general council, tribal council, or business council, as applicable.

Entities other than the tribe may be completely external to the tribe, e.g., a Federal agency, or may be an entity formed or chartered under provisions of tribal law, e.g., a tribally chartered non-profit or for-profit corporation, tribal utility authority, or tribal political subdivision. For example, a housing office that is operated as a department of the tribe would be considered the tribe. However, a housing office that is operated as a tribally designated housing entity (TDHE) would be considered an entity other than the tribe.

(5) *Homeownership Assistance Programs.* Tribes may apply for assistance to provide direct homeownership assistance to low- and moderate-income households to: subsidize interest rates and mortgage principal amounts for low- and moderate-income homebuyers; finance the acquisition by low- and moderate-income homebuyers of housing that is occupied by the homebuyers; acquire guarantees for mortgage financing obtained by low- and moderate-income homebuyers from private lenders (except that ICDBG funds may not be used to guarantee such mortgage financing directly, and grantees may not provide such guarantees directly); provide up to 50 percent of any downpayment required from a low- and moderate-income homebuyer; or, pay reasonable closing costs (normally associated with the purchase of a home) incurred by a low- or moderate-income homebuyer.

VOL
67
ISS
58
MR
26
2002
UMI

(6) *Leverage.* Resources that you will use in conjunction with ICDBG funds to achieve the objectives of the project. Resources include, but are not limited to: tribal trust funds; loans from individuals or organizations; State or Federal loans or guarantees; other grants; and non-cash contributions and donated services. (See Rating Factor 4 of this NOFA for documentation requirements for point award for leveraged resources.)

(7) *Microenterprise Programs.* Tribes may apply for assistance to operate programs to fund the development, expansion and stabilization of microenterprises. Microenterprises are defined as commercial entities with five or fewer employees, including the owner. Microenterprise program activities may entail the following assistance to eligible businesses: providing credit, including, but not limited to, grants, loans, loan guarantees, and other forms of financial support for the establishment, stabilization, and expansion of microenterprises; providing technical assistance, advice, and business support services to owners of microenterprises and persons developing microenterprises; and providing general support, including, but not limited to, peer support programs, counseling, child care, transportation, and other similar services to owners of microenterprises and persons developing microenterprises.

(8) *Operations and Maintenance (O&M) for Public Facilities and Improvements.* While various items of cost will vary in importance and significance depending on the type of facility proposed, there are items of expense related to the operation of the physical plant which must be addressed in a O&M plan (tribe assumes responsibility) or letter of commitment (entity other than tribe will assume these responsibilities). These items include daily or other periodic maintenance activities; repairs such as replacing broken windows; capital improvements or replacement reserves for repairs such as replacing the roof; fire and liability insurance (may not be applicable to most types of infrastructure projects such as water and sewer lines); and, security (may not be applicable to many types of infrastructure projects such as roads).

Please note that while it is possible that the service provider may, in its agreement with a tribe, commit itself to cover certain or all facility O&M costs, as defined, these O&M costs do not include the program service provision costs related to the delivery of services (social, health, recreational, educational or other) which may be provided in a facility.

(9) *Project Cost.* The total cost to implement the project. Project cost includes both ICDBG and non-ICDBG funds and resources.

(10) *Standard Housing/Standard Condition.* Housing that meets the housing quality standards (HQS) adopted by the applicant. The HQS adopted by the applicant must be at least as stringent as the Section 8 HQS contained in 24 CFR 982.401 (Section 8 Tenant-Based Assistance: Housing Choice Voucher Program) unless the ONAPs approve less stringent standards based on a determination that local conditions make the use of Section 8 HQS infeasible. You may submit, before the application due date, a request for the approval of standards less stringent than Section 8 HQS. If you submit the request with your application, you should not assume automatic approval by the ONAPs. The adopted standards must provide for a safe house, in physically sound condition with all systems performing their intended design functions; a livable home environment and an energy efficient building and systems that incorporate energy conservation measures; and, an adequate space and privacy for all intended household members.

IV. Program Requirements

In addition to the program requirements listed in the General Section of this SuperNOFA, as an applicant you must comply with the following requirements:

(A) Program Requirements Applying to All Projects

(1) *Grant Ceilings.* The authority to establish grant ceilings is found at 24 CFR 1003.100(b)(1). Grant ceilings are established for FY 2002 funding at the following levels:

Area ONAP	Population	Ceiling
Eastern/Woodlands	ALL	$500,000
Southern Plains	ALL	750,000
Northern Plains	ALL	800,000
Southwest	50,001+	5,000,000
	10,501–50,000	2,500,000
	7,501–10,500	2,000,000
	6,001–7,500	1,000,000
	1,501–6,000	750,000
	0–1,500	550,000
Northwest	ALL	500,000
Alaska	ALL	500,000

For the Southwest Area ONAP jurisdiction, the population used to determine ceiling amounts is the Native American population that resides on a reservation or rancheria. Please contact that office before submitting your application if you are unsure of the population level to use to determine the ceiling amount for your tribe or if you believe that the level used for previous years needs to be revised or corrected. The Southwest ONAP must approve any corrections or revisions to Native American population data before you submit your application.

(2) *Environmental Requirements.* As required by 24 CFR 1003.605, ICDBG grantees must perform environmental reviews of ICDBG activities in accordance with 24 CFR part 58. Grantees may not commit or expend any ICDBG or nonfederal funds on project activities (other than those listed in 24 CFR 58.34 or 58.35(b)) until HUD has approved a Request for Release of Funds and environmental certification submitted by the grantee. The expenditure or commitment of ICDBG or nonfederal funds for such activities prior to HUD approval may result in the denial of assistance for the project or activities under consideration.

(3) *Indian Preference.* HUD has determined that the ICDBG program is subject to section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e(b)). The provisions and requirements for implementing this section are in 24 CFR 1003.510.

(4) *Anti-discrimination Provisions.* Under the authority of section 107(e)(2) of the CDBG statute, HUD waived the requirement that recipients comply with the anti-discrimination provisions in section 109 of the CDBG statute with respect to race, color, and national origin. You must comply with the other prohibitions against discrimination in section 109 (HUD's regulations for section 109 are in 24 CFR part 6) and with the Indian Civil Rights Act.

(5) *Conflict of Interest.* In addition to the conflict of interest requirements with respect to procurement transactions found in 24 CFR 85.36 and 84.42, as applicable, the provisions of 24 CFR 1003.606 apply to such activities as the provision of assistance by the recipient or sub-recipients to businesses, individuals, and other private entities under eligible activities that authorize such assistance.

(6) *Economic Opportunities for Low and Very Low-Income Persons (Section 3).* Section 3 requirements apply to the ICDBG Program, but as stated in 24 CFR 135.3(c), the procedures and requirements of 24 CFR part 135 apply to the maximum extent consistent with, but not in derogation of, compliance with Indian Preference.

(B) Program Requirements Applying to Specific Projects

(1) *Low and Moderate Income Status for Rehabilitation Projects.* All households that receive grant assistance under a housing rehabilitation project will be of low- and moderate-income status.

(2) *Housing Rehabilitation Cost Limits.* Grant funds spent on rehabilitation per house must fall within the following limits for each Area ONAP jurisdiction:

(i) Eastern/Woodlands	$35,000
(ii) Southern Plains	20,000
(iii) Northern Plains	35,000
(iv) Southwest	40,000
(v) Northwest	40,000
(vi) Alaska	55,000

(3) *Commitment to Housing for Land Acquisition to Support New Housing Projects.* For land acquisition to support new housing projects, your application must include evidence of a financial commitment and an ability to construct at least 25 percent of the housing units to be built on the land proposed for acquisition. This evidence must consist of one (or more) of the following: a firm or conditional commitment to construct (or to finance the construction of) the units; documentation that an approvable application for the construction of these units has been submitted to a funding source or entity; or, documentation that these units are specifically identified in the Indian Housing Plan (IHP), (one-Year Financial Resources Narrative; Table 2, Financial Resources, Part I., Line 1E; and Table 2, Financial Resources, Part III) submitted on or on behalf of the applicant as an affordable housing resource with a commensurate commitment of Indian Housing Block Grant (IHBG) (aka the Native American Housing Block Grant (NAHBG)) resources. If the IHP for the IHBG (aka NAHBG) Program year that coincides with the implementation of the ICDBG proposed project has not been submitted, you must provide an assurance that when submitted, the IHP will specifically reference the proposed project.

(4) *Health Care Facilities.* If you propose a facility that would provide health care services funded by the Indian Health Service (IHS), you must assure that the facility meets all applicable IHS facility requirements. We recognize that tribes that are contracting services from the IHS may establish other facility standards. These tribes must assure that these standards at least compare to nationally accepted minimum standards.

(C) Inapplicable General Section Program Requirements

Please note that the requirements in the General Section regarding conducting business in accordance with HUD core values and ethical standards do not apply to the ICDBG Program. The provision in II(C) of the General Section giving two bonus points for eligible activities/projects to be located in a RC/EZ/EC does not apply. In addition, the requirements in Section II(D) of the General Section of the SuperNOFA regarding applicability of affirmatively furthering fair housing do not apply. The requirement is inconsistent with section 106(a) of the Housing and Community Development Act of 1974, as amended, which specifically makes inapplicable to the ICDBG program the requirement of section 104(b)(2) that the grantee certify that it will affirmatively further fair housing.

V. Application Selection Process

You, the applicant, must meet all of the applicable threshold requirements of Section II(B) of the General Section of the SuperNOFA. Your application must meet all screening for acceptance requirements and all applicant and project specific thresholds listed below. HUD will review each application and assign points in accordance with the selection factors described in this section. A maximum of 100 points may be awarded under Rating Factors 1 through 5 including 1 point awarded for applications incorporating accessible design features into the proposed project with associated performance measures. To be considered for funding, your application must receive a minimum of 15 points under rating factor 1 and an application score of 70 out of the possible total of 100.

(A) Screening for Acceptance

ONAPs will screen applications for single purpose grants. The ONAPs will reject an application that fails this screening and will return the application unrated. The ONAPs will accept your application if it meets all the criteria listed below as items (1) through (6):

(1) Your application is received or submitted in accordance with the requirements set forth under Address and Application and Submission Procedures in the General Section of this SuperNOFA;

(2) You are eligible;

(3) The proposed project is eligible;

(4) Your application contains substantially all the components specified in VI of the ICDBG Program Section of this SuperNOFA;

(5) Your application shows that at least 70% of the grant funds are to be used for activities that benefit low and moderate income persons, in accordance with the requirements of 24 CFR 1003.208; and

(6) Your application is for an amount that does not exceed the grant ceilings that are established by the NOFA.

(B) Threshold Review

ONAPs will review each application that passes the screening process to ensure that each applicant and each proposed project meets the applicant threshold requirements set forth in 24 CFR 1003.301(a) and the project specific threshold requirements set forth in 24 CFR 1003.302.

(C) Rating

The ONAPs will review and rate each project that meets the acceptance criteria and threshold requirements. The total points for all rating factors is 100. A maximum of 100 points may be awarded under Rating Factors 1 through 5 including 1 point awarded for applications incorporating accessible design features into the proposed project with associated performance measures. Promoting accessible design features is one of HUD's FY 2002 policy priorities as describes in Section (V) of the General Section of this SuperNOFA. To be considered for funding, your application must receive a minimum of

15 points under rating factor 1 and an application score of 70 out of the possible total of 100.

(D) Public Service Projects

Because there is a statutory 15 percent cap on the amount of grant funds that may be used for public services activities, you may not receive a single purpose grant solely to fund public services activities. Your application, however, may contain a public services component for up to 15 percent of the total grant. This component may be unrelated to the other project(s) included in your application. If your application does not receive full funding, we will reduce the public services allocation proportionately so that it comprises no more than 15 percent of the total grant award. In making such reductions, the feasibility of the proposed project will be taken into consideration. If a proportionate reduction of the public services allocation renders such a project infeasible, the project will not be funded.

(E) Final Ranking

We will rank all projects against each other according to the point totals they receive, regardless of the type of project or component under which the points were awarded. We will select projects for funding based on this final ranking, to the extent that funds are available. We will determine individual grant amounts in a manner consistent with the considerations set forth in 24 CFR 1003.100(b)(2). Specifically, ONAPs may approve a grant amount less than the amount requested. In doing so, ONAPs may take into account the size of the applicant, the level of demand, the scale of the activity proposed relative to need and operational capacity, the number of persons to be served, the amount of funds required to achieve project objectives, and the reasonableness of the project costs. If the ONAPs determine that there are not enough funds available to fund a project as proposed by the applicant, they may decline to fund that project and may fund the next highest-ranking project or projects for which adequate funds are available. The ONAPs may select, in rank order, additional projects for funding if one of the higher-ranking projects is not funded or if additional funds become available.

(F) Tiebreakers

When rating results in a tie among projects and insufficient resources remain to fund all tied projects, the ONAPs will approve projects that can be fully funded over those that cannot be fully funded. When that does not resolve the tie, the ONAPs will use the following factors in the order listed to resolve the tie:

(1) The applicant that has not received an ICDBG over the longest period of time.

(2) The applicant with the fewest active ICDBGs.

(3) The project that would benefit the highest percentage of low and moderate income persons.

(G) Pre-award Requirements

If there are technical deficiencies in successful applications, you must satisfactorily address these deficiencies before we can make a grant award. Please see Section V of the General Section of this NOFA for a definition of such a deficiency and a description of the process to address and correct the deficiency. You must correct all technical deficiencies within the timeframe established by HUD. If they are not corrected, we will not make the grant award and will reject your application.

We also may require a successful applicant to provide supporting documentation concerning the management, maintenance, operation, or financing of proposed projects before a grant agreement can be executed. We will normally give you no less than thirty (30) calendar days to respond to these requirements. If you do not respond within the prescribed time period or you make an insufficient response, the ONAPs may determine that you have not met the requirements and may withdraw the grant offer. The ONAPs require you to submit supporting documentation if specific questions remain concerning the scope, magnitude, timing, or method of implementing the project; or you have not provided information verifying the commitment of other resources required to complete, operate, or maintain the proposed project. You may not substitute new projects for those originally proposed in your application nor will this information affect your project's rating and ranking. We will award, in accordance with the provisions of this NOFA, grant amounts that had been allocated for applicants unable to meet pre-award requirements.

(H) General Threshold Requirement

According to 24 CFR 1003.301(a), an applicant who has an outstanding ICDBG obligation to HUD that is in arrears, or one that has not agreed to a repayment schedule will be disqualified from the competition.

(I) Project Specific Threshold Requirements

Please indicate on the first page of each project submission, the type of project(s) (Economic Development, Homeownership Assistance, Housing Rehabilitation, Land Acquisition to Support New Housing, Microenterprise Programs, New Housing Construction or Public Facilities & Improvements) that is (are) being proposed. This will help to ensure that the appropriate project specific thresholds and rating sub-factor will be applied.

In addition, for definitions of "assure" and "document", please refer to Section III(D), Definitions of this Program Section of the SuperNOFA.

(1) *Housing Rehabilitation Project Thresholds.*

(a) In accordance with 24 CFR 1003.302(a), for housing rehabilitation projects, you must adopt rehabilitation standards and rehabilitation policies before you submit an application. *You must submit these standards and policies with the application.*

(b) In accordance with 24 CFR 1003.302(a), you must also provide an assurance that project funds will be used to rehabilitate HUD-assisted houses only when the tenant/homebuyer's payments are current or the tenant/homebuyer is current in a repayment agreement except in an emergency situation. Exceptions to this requirement must be approved by the ONAP Administrator on a case-by-case basis.

(2) *Land Acquisition to Support New Housing Project Thresholds.* No project specific thresholds.

(3) *New Housing Construction Project Thresholds.* (a) In accordance with 24 CFR 1003.302, new housing construction can only be implemented through a Community Based Development Organization (CBDO). Eligible CBDOs are described in 24 CFR 1003.204(c). You must provide documentation establishing that the entity implementing your new housing construction project qualifies as a CBDO.

(b) In accordance with 24 CFR 1003.302, you must also submit with your application a current tribal resolution adopting and identifying construction standards. The construction standards may be a tribal building code or a nationally recognized model code. If it is a tribal code, it must regulate all of the areas and sub-areas identified in 24 CFR 200.925(b). If the code is recognized nationally, it must be the latest edition of one of the codes incorporated by reference in 24 CFR 200.925(c).

(c) In accordance with 24 CFR 1003.302, you must also include in your application documentation supporting the following:

(i) All households to be assisted under a new housing construction project must be of low or moderate income status;

(ii) No other housing is available in the immediate reservation area that is suitable for the households to be assisted;

(iii) No other funding sources including an IHBG (aka NAHBG) can meet the needs of the household(s) to be served; and

(iv) The house occupied by the household to be assisted is not in standard condition and rehabilitation is not economically feasible, the household is currently in an overcrowded house (more than one household per house), or the household to be assisted has no current residence.

(4) *Homeownership Assistance Project Thresholds.* No project specific thresholds.

(5) *Public Facilities and Improvements Project Thresholds.* No project specific thresholds.

(6) *Economic Development Project Thresholds.* In accordance with 24 CFR 1003.302, for economic development assistance you must provide a financial analysis. The financial analysis must demonstrate that the project is financially feasible and the project has a reasonable chance of success. The analysis must also demonstrate the public benefit resulting from the ICDBG assistance. The more funds you request, the greater public benefit you must demonstrate. The analysis must also establish that to the extent practicable, reasonable financial support will be committed from non-federal sources prior to disbursement of federal funds; any grant amount provided will not substantially reduce the amount of non-federal financial support for the activity; not more than a reasonable rate of return on investment is provided to the owner; and that grant funds used for the project will be disbursed on a pro-rata basis with amounts from other sources. In addition, it must be established that the project is financially feasible and has a reasonable chance of success.

(7) *Microenterprise Program Thresholds.* No project specific threshold.

(J) Factors for Award Used To Evaluate and Rate Applications

The factors for rating and ranking applications and the points for each factor are provided below. A maximum of 100 points may be awarded under Rating Factors 1 through 5. To be considered for funding, your application must receive a minimum of 15 points under rating factor 1 and an application score of 70 out of the possible total of 100, the maximum any project can receive. The following summarizes the points assigned to each rating factor and each rating sub-factor and lists which rating sub-factors apply to which project types. Please use this table to ensure you are addressing the appropriate rating sub-factor for your project.

Rating factor	Rating and sub-factor	Points	Project type
1	Total	30	Minimum of 15 Points Required.
	(1)(a)	10	All Project Types.
	(1)(b)	*5 or 7	All Project Types.
	(1)(c)	*3 or 8	All Project Types.
	(1)(d)	*2 or 5	All Project Types.
	(2)(a)	*2 or 0	All Project Types.
	(2)(b)	*2 or 0	All Project Types.
	(2)(c)	*2 or 0	All Project Types.
	(2)(d)	*2 or 0	All Project Types.
	(2)(e)	*2 or 0	All Project Types.
2	Total	20	All Project Types.
	1	5	All Project Types.
	(2)(a)	15	Public Facilities and Improvements and Economic Development Projects.
	(2)(b)	15	New Housing Construction, Housing Rehabilitation, Land Acquisition to Support New Housing, and Homeownership Assistance Projects.
	(2)(c)	15	Microenterprise Programs.
3	Total	35	
	(1)	19	All Project Types.
	(2)	1	All Project Types.
	(3)	1	All Project Types.
	(4)(a)(i)	15	Public Facilities and Improvements (tribe assumes O&M responsibilities).
	(4)(a)(ii)	15	Public Facilities and Improvements (entity other than tribe assumes O&M responsibilities).
	(4)(b)	15	New Housing Construction, Housing Rehabilitation, and Homeownership Assistance Projects.
	(4)(c)	15	Economic Development.
	(4)(d)	15	Microenterprise Programs.
	(4)(e)	15	Land Acquisition to Support New Housing.
4	Total	10	All Project Types.
5	Total	5	All Project Types.
Total possible.		100	Minimum of 70 Points Required.

* The first number listed indicates the maximum number of points available to current ICDBG grantees under this sub-factor. The second number indicates the maximum number of points available to new applicants.

Rating Factor 1: Capacity of the Applicant (30 Points)

This factor addresses the extent to which you have the organizational resources necessary to successfully implement the proposed activities in a timely manner. If applicable, past performance in administering previous ICDBG grants will be taken into consideration. Please specifically address the existence or availability of these resources for the *specific type of*

VOL 67 ISS 58 MR 26 2002 UMI

activity for which you are applying. You must receive a minimum of 15 points under this factor for your proposed activity to be eligible for funding. HUD will not rate any projects further that do not receive a minimum of 15 points under this factor.

(1) Managerial, Technical, and Administrative Capability

(20 points for current ICDBG grantees)
(30 points for new applicants)

Your application must include documentation demonstrating that you possess or can obtain managerial, technical, and/or administrative capability necessary to carry out the proposed project. Your application must address who will administer the project and how you plan to handle the technical aspects of executing the project.

(a) Managerial and Technical Staff

(10 points)

The extent to which your application describes the roles/responsibilities and the knowledge/experience of your overall proposed project director and staff, including the day-to-day program manager, consultants and contractors in planning, managing and implementing projects for which funding is being requested. Experience will be judged in terms of recent, relevant and successful experience of your staff to undertake eligible program activities. In rating this factor, HUD will consider experience within the last 5 years to be recent; experience pertaining to the specific activities being proposed to be relevant; and experience producing specific accomplishments to be successful. The more recent the experience and the more experience your own staff members who work on the project have in successfully conducting and completing similar activities, the greater the number of points you will receive for this rating factor.

(b) Project Management Plan and Method

(5 points for current ICDBG grantees)
(7 points for new applicants)

The extent to which your project management plan identifies the specific actions that you and your partners contractors and/or sub grantees will take to complete your proposed project on time and within budget. Your management plan must include a description of the management structure for the program and a schedule outlining the estimated completion of all tasks associated with your proposed project.

(c) Financial Management

(3 points for current ICDBG grantees)
(8 points for new applicants)

The extent to which your application describes how your financial management systems will facilitate effective fiscal control over your proposed project. Effective fiscal control will be judged in terms of your financial management and/or internal control policies and procedures meeting 24 CFR part 85 and 24 CFR part 1003 requirements as evidenced by a tribal resolution adopting such policies and procedures and the adopted resolution is included with your application; how you will apply your financial systems to the specific project for which you are applying; and, the findings of your most recent financial audit or a letter of endorsement from your auditor if the most recently conducted audit report has not been finalized is included with your application.

(d) Procurement and Contract Management

(2 points for current ICDBG grantees)
(5 points for new applicants)

The extent to which your application describes how your procurement and contract administration policies and procedures will facilitate effective procurement and contract control over your proposed project. Effective procurement and contract control will be judged in terms of your procurement and contract administration policy and procedures meeting 24 CFR part 85 and 24 CFR part 1003 requirements as evidenced by an adopted resolution and included with your application, and how you will apply your procurement and contract systems to the specific project for which you are applying.

(2) Past Performance

(10 points for current ICDBG grantees)
(0 points for new applicants)

Your performance in administering ICDBG grants over the preceding 12-month period on any open ICDBG grant will be evaluated based on the following performance measures.

(a) (2 points for current ICDBG grantees) (0 points for new applicants) You have had satisfactory progress in meeting the time frames established in the HUD-approved Implementation Schedule for the ICDBG Program.

(b) (2 points for current ICDBG grantees) (0 points for new applicants) You have had timely submission of required reports including the Annual Status and Evaluation Report and Federal Cash Transaction Report for the ICDBG Program.

(c) (2 points for current ICDBG grantees) (0 points for new applicants) You have submitted close-out documents to HUD in a timely manner. Close-out documents are required for the ICDBG Program within 90 days of the date it is determined that the criteria for close out at 24 CFR 1003.508 have been met.

(d) (2 points for current ICDBG grantees) (0 points for new applicants) You have submitted in a timely fashion annual audits in accordance with the ICDBG Program requirements and OMB Circular A–133 and its compliance supplements.

(e) (2 points for current ICDBG grantees) (0 points for new applicants) You have resolved in a timely fashion ICDBG monitoring findings and controlled audit findings or no findings in current reports.

Rating Factor 2: Need/Extent of the Problem (20 Points)

This factor addresses the extent to which there is a need for the proposed project to address a documented problem among the intended beneficiaries.

(1) (5 points) Your application includes documentation demonstrating that the proposed project meets an essential community development need by fulfilling a function that is critical to the continued existence or orderly development of the community.

(2) (15 points) Your project benefits the neediest segment of the population. The criteria for this sub-factor vary according to the type of project for which you are applying. Please note that you may submit data that are unpublished and not generally available in order to meet the requirements of this section. However, to do so, you must submit a demographic data certification along with supporting documentation as described in Section VI (A) and (C)(6) below.

(a) Public Facilities and Improvements and Economic Development Project

The proposed activities benefit the neediest segment of the population, as identified below. For economic development projects, you may consider beneficiaries of the project as persons served by the project and/or persons employed by the project.

(15 points) 85 percent or more of the beneficiaries are low or moderate income.

(10 points) At least 75 percent but less than 85 percent of the beneficiaries are low or moderate income.

(5 points) At least 55 percent but less than 75 percent of the beneficiaries are low or moderate income.

(0 points) Less than 55 percent of the beneficiaries are low or moderate income.

(b) New Housing Construction, Housing Rehabilitation, Land Acquisition to Support New Housing, and Homeownership Assistance Projects

(15 points) The Indian tribe's IHBG (aka NAHBG) amount was $100,000 or less in IHBG (aka NAHBG) funds.

(10 points) The Indian tribe's IHBG (aka NAHBG) amount was more than $100,000 but at most $300,000 in IHBG (aka NAHBG) funds.

(5 points) The Indian tribe's IHBG (aka NAHBG) amount was more than $300,000 but at most $500,000 in IHBG (aka NAHBG) funds.

(0 points) The Indian tribe's IHBG (aka NAHBG) amount was more than $500,000 in IHBG (aka NAHBG) funds.

(c) Microenterprise Programs

The owner(s) of the microenterprise must be low or moderate income and the majority of the jobs created or retained will be for low- or moderate-income persons. To evaluate need, the nature of the jobs created or retained will be evaluated. The owners of the microenterprises are low and moderate income *and:*

(15 points) All employees are low or moderate income.

(10 points) At least 75 percent but less than 100 percent of the employees are low or moderate income.

(5 points) At least 55 percent but less than 75 percent of the employees are low or moderate income.

(0 points) Less than 55 percent of the employees are low and moderate income.

Rating Factor 3: Soundness of Approach (35 Points)

This factor addresses the quality and anticipated effectiveness of your proposed project in meeting the needs you have identified in Rating Factor 2 and the commitment to sustain your proposed project. The populations that were described in demographics that documented need should be the same populations that will receive the primary benefit of the proposed project.

(1) (14 points) Description of and Rationale for Proposed Project

The extent to which your proposed project is a viable and cost effective approach to address the needs outlined under Rating Factor 2 of your application. You must describe the proposed project in detail and indicate why you believe the proposed project will be most effective in addressing the identified need. Appropriate information to address this subfactor includes the size, type and location of the project; rationale for project design; and, anticipated cost savings due to innovative program design and/or construction methods. For land acquisition to support new housing projects, you must establish that there is a reasonable ratio between the number of net usable acres to be acquired and the number of low- and moderate-income households to benefit from the project.

(2) (5 points) Budget and Cost Estimates

The quality, thoroughness, and reasonableness of the proposed project budget. Cost estimates must be broken down by line item for each proposed activity and documented by outside sources when appropriate.

(3) (1 point) Accessible Design Features

Your application incorporates accessible design features into your proposed project and provides associated performance measures. Promoting accessible design features is one of HUD's FY 2002 policy priorities as describes in Section (V) of the General Section of this SuperNOFA.

(4) (15 points) Commitment to Sustain Activities

Your application demonstrates your commitment to sustain your proposed activities. The criteria for this sub-factor vary according to the type of project for which you are applying.

(a) Public Facilities and Improvement Projects

(i) *If the tribe assumes operation and maintenance responsibilities for public facilities and improvements,* a resolution that both adopts the operation and maintenance plan and commits necessary funds must be included in the application

(15 points) The plan itself is included and addresses maintenance, repairs, insurance, replacement reserves and includes a cost breakdown for annual expenses; for community buildings only, the source of operating funds is identified for any recreation, social or other services to be provided by the tribe or other entities and letters of commitment from service providers are included which address both operating expenses and space needs.

(10 points) A resolution adopting the operation and maintenance plan and committing funds is included; the plan is included and addresses most, but not all above items, but does include a satisfactory cost breakdown; for community buildings only, above service provider commitments (if applicable) as well as the source of operating funds are included. Information provided is sufficient to determine that the project will proceed effectively.

(5 points) A resolution adopting the plan and committing funds, or a plan addressing most of the above items is included. Information provided is sufficient to determine that the project will proceed effectively.

(0 points) None of the above criteria are met.

(ii) *If an entity other than the tribe commits to pay for operation and maintenance for public facilities and improvements,* the application must contain a letter of commitment from the entity that assumes the operation and maintenance responsibilities.

(15 points) Your application contains a letter of commitment from the entity that identifies the maintenance responsibilities and, if applicable, responsibilities for operations the entity will assume, as well as commits the necessary funds to provide for these responsibilities; for community buildings only, the source of funds for program service provision is identified for any recreation, social or other services to be provided by the tribe or other entities and letters of commitment from service providers are included which address both these funds and space needs.

(10 points) Your application contains a letter of commitment identifying maintenance responsibilities and, if applicable, responsibilities for operations the entity will assume, but no information committing the necessary funds is included; for community buildings only, the source of funds for program service provision is identified for any applicable services to be provided by the tribe or other entities and letters of commitment from applicable providers are included which address both these funds and space needs.

(5 points) Your application identifies the maintenance provider and, if applicable, responsibilities for operations the entity will assume, but a letter of commitment is not provided; for community buildings only, letters of commitment to provide services are included but no information regarding the provision of these funds or space needs is provided.

(0 points) None of the above criteria are met.

(b) New Housing Construction, Housing Rehabilitation, and Homeownership Assistance Projects

(15 points) The ongoing maintenance responsibilities are clearly identified for

VOL 67 ISS 58 MR 26 2002 UMI

the tribe and/or the participants, as applicable. All participant maintenance responsibilities are included on a statement to be signed by the participant as a condition of receiving grant assistance and the statement to be used is included in the application.

(10 points) Maintenance responsibilities are identified, but lacking in detail, and the above statement to be signed by the participant is submitted.

(5 points) Tribal maintenance responsibilities are identified but participant responsibilities are either not addressed or do not exist.

(0 points) None of the above criteria are met.

(c) Economic Development Projects

You must include information or documentation which addresses or provides the following in the application: A description of the organizational system and capacity of the entity that will operate the business; the feasibility and market analysis of the proposed business activity and the financial viability of the project.

Appropriate documents to include in the application to address these items include:

(i) Articles of incorporation, by-laws, resumes of key management positions and board members.

(ii) Business operating plan.

(iii) Market study no more than two years old.

(iv) Feasibility study indicating how the proposed business will capture a fair share of the market.

(v) Detailed cost summary for the development of the project.

(vi) Five year operating or cash flow financial projections.

(vii) For the expansion of an existing business, copies of financial statements for the most recent three years (or the life of the business, if less than three years).

(15 points) All above documents applicable to the proposed project are included in your application and provide evidence that the project's chance for financial success is excellent.

(8 points) All or most of the above documents applicable to the proposed project are included and provide evidence that the project's chance for financial success is reasonable.

(0 points) Neither of the above criteria is met.

(d) Microenterprise Programs

You must include the following information or documentation in the application that addresses or provides a description of how your microenterprise program will operate. Appropriate information to include in the application to address program operations includes:

(i) Program description. A description of your microenterprise program including the types of assistance offered to microenterprise applicants and the types of entities eligible to apply for such assistance.

(ii) Processes for selecting applicants. A description of your processes for analyzing microenterprise applicants' business plans, market studies and financial feasibility. For credit programs, you describe your process for determining the loan terms (i.e. interest rate, maximum loan amount, duration, loan servicing provisions) to be offered to individual microenterprise applicants.

(15 points) All of the above information or documentation applicable to the proposed project are thoroughly addressed in the application and the chances for success are excellent.

(8 points) All or most of the above information or documentation applicable to the proposed project are addressed in the application and the chances for success are reasonable.

(0 points) Neither of the above criteria is met.

(e) Land Acquisition Projects to Support New Housing

Submissions must include the results of a preliminary investigation conducted by a qualified independent entity demonstrating that the proposed site has suitable soil conditions for housing and related infrastructure, available drinking water, access to utilities, vehicular access, drainage, nearby social and community services, and no known environmental problems.

(15 points) The submissions include all of the above-mentioned items and all necessary infrastructure is in place.

(8 points) The submissions demonstrate that the proposed site(s) is/are suitable for housing but that not all necessary infrastructure is in place. A detailed description of resources to be used and a detailed implementation schedule for development of all necessary infrastructure demonstrates that such infrastructure, as needed for proposed housing development, will be developed in time for such development, but no later than two years after site purchase.

(0 points) Neither of the above criteria is met.

Rating Factor 4: Leveraging Resources (10 Points)

HUD believes that ICDBG funds can be used more effectively to benefit a larger number of Native American persons and communities if projects are developed that use tribal resources and resources from other entities in conjunction with ICDBG funds. To encourage this, we will award points based on the percentage of non-ICDBG resources provided relative to project costs as follows:

Non-ICDBG resources to project costs	Points
Less than 5 percent	0
At least 5 percent but less than 10 percent	2
At least 10 percent but less than 15 percent	4
At least 15 percent but less than 20 percent	6
At least 20 percent but less than 25 percent	8
25 percent or more	10

Contributions which could be considered as leveraged resources for point award include, but are not limited to: Tribal trust funds; loans from individuals or organizations; State or Federal loans or guarantees; other grants including IHBG (aka NAHBG) funds; donated goods and services needed for the project; land needed for the project; and, direct administrative costs.

Contributions that will not be considered include, but are not limited to: Indirect administrative costs as identified in OMB Circular A–87, attachment A, section F; contributions of resources to pay for anticipated operations and maintenance costs of the proposed project; and, in the cases of expansions to existing facilities, the value of the existing facility.

To be considered for point award, letters of firm commitments, memoranda of understanding, or agreements to participate from any entity, including the tribe that will be providing a contribution to the project must accompany the application.

To demonstrate the commitment of tribal resources, the application must contain a council resolution or legal equivalent that identifies and commits the tribal resources to the project, subject to approval of the ICDBG assistance and favorable outcome of any environmental review required under 24 CFR part 58 for the project. In the case of IHBG (aka NAHBG) funds, whether they are administered by the tribe or a TDHE, an approved IHP must identify and commit the IHBG (aka NAHBG) resources to the project. If the tribe/TDHE intends to include the leveraged commitment in a future IHP, the application must contain a council resolution or legal equivalent that identifies and commits the IHBG (aka NAHBG) resources to the project subject to the same requirements as above.

To demonstrate the commitment of public agency, foundation, or other private party resources, a letter of commitment, memorandum of understanding, and/or agreement to participate, including any conditions to which the contribution may be subject, must be submitted with the application. All letters of commitment must include the donor organization's name, the specific resource proposed, the dollar amount of the financial or in-kind resource and method for valuation, and the purpose of that resource within the proposed project. The commitment must be signed by an official of the organization legally authorize to make commitments on behalf of the organization and must be conditional upon favorable outcome of any environmental review required under 24 CFR part 58 for the project.

In addition to the above requirements, for all contributions of goods, services and land, you must demonstrate that the donated items are necessary to the actual development of the project and include comparable costs (or time estimates, if appropriate) that support the donation. Land valuation must be established using one of the following methods and the documentation must be contained in the application: A site specific appraisal no more than two years old; an appraisal of a nearby comparable site also no more than two years old; a reasonable extrapolation of land value based on current area realtor value guides; or, a reasonable extrapolation of land value based on recent sales of similar properties in the same area.

Rating Factor 5: Comprehensiveness and Coordination (5 Points)

This factor addresses the extent to which your project planning and proposed implementation reflect a coordinated, community-based process of identifying and addressing needs including assisting beneficiaries and the program to achieve self-sufficiency/sustainability.

(1) (2 points) Your application addresses the extent to which you have coordinated your activities with other organizations that are not directly participating in your proposed work activities (not project partners such as those listed under Rating Factor 4: Leveraging), but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner. For example, your project is consistent with and, to the extent possible, identified in the IHP (One-Year Financial Resources Narrative; Table 2, Financial Resources, Part I., Line 1E; and, Table 2, Financial Resources, Part II) submitted by you or on your behalf for the IHBG (aka NAHBG) Program. If the IHP for the IHBG (aka NAHBG) program year that coincides with the implementation of the ICDBG proposed project has not been submitted, you must provide an assurance that when submitted, the IHP will specifically reference the proposed project.

(2) (3 points) Your proposed project will accomplish measurable outcomes such as number of jobs created or obtained; education or job training opportunities provided, increased economic self-sufficiency of recipients of program beneficiaries; increased homeownership rates; and, reduction of drug-related crime or health related hazards.

VI. Application Submission Requirements

(A) Demographic Data

You may submit data that are unpublished and not generally available in order to meet the requirements of this section. You must certify that:

(1) Generally available, published data are substantially inaccurate or incomplete;

(2) Data provided have been collected systematically and are statistically reliable;

(3) Data are, to the greatest extent feasible, independently verifiable; and

Data differentiate between reservation and BIA service area populations, when applicable.

(B) Publication of Community Development Statement

You must prepare and publish or post the community development statement portion of your application according to the citizen participation requirements of 1003.604.

(C) Application Submission

Your application must contain the items listed below. You must also include the forms, standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding and can be found in Appendix B to the General Section of the SuperNOFA. Those forms listed in that Appendix that are applicable to this funding are as follows:

(1) Standard Form for Application for Federal Assistance (SF–424)

(2) Federal Assistance Funding Matrix and Certifications (HUD–424M)

(3) Drug-Free Workplace Certification (HUD–50070).

(4) Applicant/Recipient Disclosure/Update Report (HUD–2880).

(5) Certification Regarding Debarment and Suspension (HUD–2992).

(6) Certification of Consistency with RC/EZ/EC Strategic Plan (HUD–2990), if applicable;

(7) Acknowledgement of Application Receipt (HUD–2993).

(8) Client Comments and Suggestions (HUD–2994), optional.

In addition, if the application has been submitted by a tribal organization as defined in 24 CFR 1003.5(b), on behalf of an Indian tribe, you must submit concurring resolutions from the Indian tribe stating that the tribal organization is applying on the tribe's behalf.

The other required items are as follows:

(1) Community Development Statement that includes:

(a) Components that address the general threshold requirement and the relevant project specific thresholds and rating factors;

(b) A schedule for implementing the project (form HUD–4125, Implementation Schedule); and

(c) Cost information for each separate project, including specific activity costs, administration, planning, technical assistance, and total HUD share (form HUD–4123, Cost Summary);

(2) Certifications (form HUD 4126);

(3) A map showing project location, if appropriate;

(4) If the proposed project will result in displacement or temporary relocation, a statement that identifies:

(a) The number of persons (families, individuals, businesses, and nonprofit organizations) occupying the property on the date of the submission of the application (or date of initial site control, if later);

(b) The number to be displaced or temporarily relocated;

(c) The estimated cost of relocation payments and other services;

(d) The source of funds for relocation; and

(e) The organization that will carry out the relocation activities;

(5) If applicable, evidence of the disclosure required by 24 CFR 1003.606(e) regarding conflict of interest.

(6) If applicable, the demographic data certification described in Section VI(A) and V(J), Rating Factor 2 of this NOFA. The data accompanying the certification must identify the total number of persons benefiting from the project and the total number of low-and-moderate persons benefiting from the project. Supporting documentation must

include a sample copy of a completed survey form and an explanation of the methods used to collect the data, and a listing of incomes by household.

VIII. Applicant Debriefing

Please refer to Section VII (E)(2) of the General Section of this SuperNOFA.

IX. Error and Appeals

Judgments made within the provisions of this NOFA and the program regulations (24 CFR part 1003) are not subject to claims of error. You may bring arithmetic errors in the rating and ranking of applications to the attention of the ONAPs within 30 days of being informed of your score. If an arithmetic error was made in the application review and rating process that, when corrected, would result in the award of sufficient points to warrant the funding of an otherwise approvable project, the ONAPs may fund that project in the next funding round without further competition.

Appendix A

The non-standard forms, which follow, are required for your ICDBG application.

BILLING CODE 4210–32–P

APPENDIX A

Cost Summary

Indian Community Development Block Grant (ICDBG)

U.S. Department of Housing and Urban Development
Office of Public and Indian Housing

OMB Approval No. 2577-0191
(exp. 5/31/2003)

See Instructions and Public Reporting Statement on back.

1. Name of Applicant (as shown in item 5, Standard Form 424)

2. Application/Grant Number (to be assigned by HUD upon submission)

3. ☐ Original (check here if this is the first submission to HUD) ☐ Revision (check here if submitted with implementation on schedule as part of pre-award requirements) ☐ Amendment (check here if submitted after HUD approval of grant)

Date (mm/dd/yyyy)

4. Project Name & Project Category (see instructions on back) a	ICDBG Amount Requested for each activity b	Program Funds (in thousands of $) Other Source Amount for each activity c	Other Source of Other Funds for each activity d
	$	$	
5. Administration a. General Management and Oversight			
b. Indirect Costs: Enter indirect costs to be charged to the program pursuant to a cost allocation plan.			
c. Audit: Enter estimated cost of Program share of A-133 audits.			
Administration Total *			
6. Planning The Project description must address the proposed use of these funds.			
7. Technical Assistance Enter total amount of ICDBG funds requested for technical assistance. **			
8. Sub Total Enter totals of columns b. and c.	$	$	
9. Grand Total Enter sum of column b. plus column c			$

* The total of items 5 and 6 cannot exceed 20% of the total ICDBG funds requested.

** No more than 10% of ICDBG funds requested may be used for technical assistance. If funds are requested under this line item, a separate project description must accompany the application to describe the technical assistance the application intends to obtain. Only technical assistance costs associated w/in the development of a capacity to undertake a specific funded program activity are eligible (24 CFR 1003.205).

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

This collection of information requires that each eligible applicant submit information to enable HUD to select the best projects for funding during annual competitions for the ICDBG Program. The information will be used by HUD to determine whether applications meet minimum screening eligibility requirements and application submission requirements. Applicants provide general information about the project which is preliminary to the review of the applicant's response to the criteria for rating the application. The information is essential for HUD in monitoring grants to ensure that grantees are making proper use of Federal dollars. Responses to the collection are required by Section 105 of the Department of Housing and Urban Development Reform Act (P.L. 101-235) as amended by the Cranston-Gonzales National Affordable Housing Act of 1990. The information requested does not lend itself to confidentiality.

Instructions for Item 4.
Project Name and Project Type

Participants enter the project name and the name of one of the following three categories of activities:

- Housing
- Community Facilities
- Economic Development

Also enter the component name if applicable. Use a separate Cost Summary sheet (form HUD-4123) for each project included in the application.
Examples of categories and/or components including examples of eligible activities are listed below.

Housing

Rehabilitation Component
- Rehabilitation
- Demolition

Land to Support New Housing Component

New Housing Construction Component

Community Facilities

Infrastructure Component
- Water
- Sewer
- Roads and Streets
- Storm Sewers

Buildings Component
- Health Clinic
- Daycare Center
- Community Center
- Multi-purpose Center

Economic Development
- Commercial (wholesale, retail)
- Industrial
- Motel/Hotel
- Restaurant
- Agricultural Development

OMB Approval No. 2577-0191
(exp 9/31/2003)

U.S. Department of Housing and Urban Development
Office of Public and Indian Housing

Implementation Schedule
Indian Community Development Block Grant (ICDBG)

See Instructions and Public Reporting Statement on back.
Submit a separate implementation schedule for each project category.

Certifications

Indian Community Development Block Grant (ICDBG)

U.S. Department of Housing and Urban Development
Office of Public and Indian Housing

OMB Approval No. 2577-0191
(exp. 5/31/2003)

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

This collection of information requires that each eligible applicant submit information to enable HUD to select the best projects for funding during annual competitions for the ICDBG Program. The information will be used by HUD to determine whether applications meet minimum screening eligibility requirements and application submission requirements. Applicants provide general information about the project which is preliminary to the review of the applicant's response to the criteria for rating the application. The information is essential for HUD in monitoring grants to ensure that grantees are making proper use of Federal dollars. Responses to the collection are required by Section 105 of the Department of Housing and Urban Development Reform Act (P.L. 101-235) as amended by the Cranston-Gonzales National Affordable Housing Act of 1990. The information requested does not lend itself to confidentiality.

The grantee hereby certifies and assures that it will comply with the regulations, guidelines, and requirements with respect to the acceptance and use of Federal funds for this Federally-assisted program. Also, the grantee gives assurances and certifies with respect to the grant that:

A. It possesses the legal authority to apply for the grant and execute the proposed program.

B. The governing body has duly authorized the filing of the application, including all understandings and assurances contained in the application and has directed and authorized the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

C. It will comply with the HUD general administration requirements in 24 CFR Part 85.

D. It will comply with the requirements of Title II of Public Law 90-284 (25 USC 1301) (the Indian Civil Rights Act).

E. It will comply with the Indian preference provisions required in 24 CFR 1003.510.

F. It will establish written safeguards to prevent employees from using positions funded under the ICDBG programs for a purpose that is, or gives the appearance of being, motivated by private gain for themselves, their immediate family or business associates. Nothing in this certification should be construed as to limit employees from benefiting from program activities for which they would otherwise be eligible.

G. It will give HUD and the Comptroller General access and right to examine all books, records, papers, or documents related to the grant for a period of not less than three years after program completion or until resolution of any final audit findings.

H. Neither the applicant nor its principals are presently excluded from participation in any HUD programs, as required by 24 CFR part 24.

I. It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, implementing regulations at 49 CFR part 24 and the requirements of 24 CFR 1003.602.

J. The chief executive officer or other official of the applicant approved by HUD:

1. Consents to assume the status of a responsible Federal official under the National Environmental Policy Act of 1969 insofar as the provisions of the Act apply to the applicant's proposed program pursuant to 24 CFR 1003.605.

2. Is authorized and consents on behalf of the applicant and him/her self to accept the jurisdiction of the Federal courts for the purpose of enforcement of his/her responsibilities as such an official.

Note: Applicants for whom HUD has approved a claim of incapacity to accept the responsibilities of the Federal government for purposes of complying with the environmental review requirements of 24 CFR part 58 pursuant to 24 CFR 1003.605 need not include the provision of paragraph J in their assurance.

K. It will comply with the requirements of Section 3 of the Housing and Urban Development Act of 1968 and the regulations in 24 CFR part 135 (Economic Opportunities for Low and Very Low Income Persons) to the maximum extent consistent with, but not in derogation of, compliance with Section 7(b) of the Indian Self-Determination and Education Assistance Act (25 USC. 450e(b)).

L. It will comply with the requirements of the Fire Authorization Administration Act of 1992 (Pub.L. 102-522).

M. It will provide the drug-free workplace required by 24 CFR part 24, subpart F.

N. It will comply with 24 CFR, part 4, subpart A, showing full disclosure of all benefits of the project as collected by Form HUD-2880, Applicant/Recipient Disclosure Report.

O. Prior to submission of its application to HUD, the grantee has met the citizen participation requirements which includes following traditional means of member involvement, as required in 24 CFR 1003.604.

P. It will administer and enforce the labor standard requirements prescribed in 24 CFR 1003.603.

Q. The Program has been developed so that not less than 70 percent of the funds received under this grant will be used for activities that benefit low- and moderate-income persons.

Note: Applicants receiving Imminent Threat Grants need not include the provision of this paragraph in their assurance.

FUNDING AVAILABILITY FOR THE COMMUNITY OUTREACH PARTNERSHIP CENTERS PROGRAM (COPC)

PROGRAM OVERVIEW

Purpose of the Program. To provide funds to community colleges, four-year colleges, and universities to establish and operate Community Outreach Partnership Centers (COPCs) to address the problems of urban areas.

Available Funds. Approximately $7.5 million as appropriated in the FY 2002 VA–HUD appropriation act.

Eligible Applicants. Public and private nonprofit institutions of higher education granting two- or four-year degrees and accredited by a national or regional accrediting agency recognized by the U.S. Department of Education.

Application Deadline. June 20, 2002

ADDITIONAL INFORMATION

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Your completed application is due on or before June 20, 2002, at HUD Headquarters.

Address for Submitting Applications. New Security Procedures. HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FED EX, DHL, or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date, when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, Fed EX, and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not serve your area, you should submit your application via the United States Postal Service.

For Application Kits. For an application kit and supplemental material you should call the SuperNOFA Information Center at 1–800–HUD–8929. Persons with hearing or speech impairments may call the Center's TTY number at 1–800–HUD–2209. When requesting an application kit, you should refer to COPC and provide your name, address (including zip code), and telephone number (including area code). You may also download the application kit on the Internet through the HUD Web site at http://www.hud.gov.

For Further Information and Technical Assistance. You may contact Armand W. Carriere of HUD's Office of University Partnerships at (202) 708–3061, ext. 3181. If you have a speech or hearing impairment, you may call HUD's TTY number (202) 708–0770, or 1–800–877–8399 (the Federal Information Relay Service TTY). Other than the "800" number, these numbers are not toll-free. You may also reach Mr. Carriere via the Internet at Armand_W._Carriere@hud.gov.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of an application. For more information about the date and time of this broadcast, you should consult the HUD web site at the web address listed above.

II. Amount Allocated

Up to $7.5 million has been allocated to fund grants under the program. This year, HUD will award two kinds of grants—(A) New Grants to applicants who have never received a COPC grant before to undertake eligible work and (B) New Directions Grants to fund previous COPC recipients (as identified in Section III.(B) below) to undertake new directions in their activities. HUD will use up to $6.1 million to fund approximately 16 New Grants and up to $1.4 million to fund approximately 7 New Directions Grants.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* The main purpose of this COPC Program is to assist in establishing or carrying out outreach and applied research activities addressing the problems of urban areas. But HUD also looks to the program to encourage structural change, both within an institution of higher education and in the way the institution relates to its neighbors. Funding under this program is used to establish and operate local Community Outreach Partnership Centers (COPC). The five key concepts that your COPC Program should include are:

(1) Outreach, technical assistance, and applied research should be provided to neighborhoods and neighborhood-based organizations based on what the residents decide is needed, rather than what the institution concludes is appropriate for that neighborhood;

(2) Community-based organizations and residents should be empowered by the project and be your partners throughout the life of the project and beyond, from planning to implementation to activities beyond the grant;

(3) Your applied research should be related to the outreach activities and be used to influence your activities within the grant period or shortly after it ends. HUD will not fund research without practical application;

(4) The assistance you provide should be primarily by faculty, students, or to a limited extent, by neighborhood residents or community-based organizations funded by the university; and

(5) Your program should be part of your institution's broader effort to meet its urban mission, and be supported by its senior officials, rather than just the work of a few faculty members. Your proposed activities should not duplicate those of other entities in the community and should be appropriate for an institution of higher education to undertake in light of its teaching, and research, and service missions.

(B) *Eligible Applicants.* Eligible applicants for both New Grants and New Directions Grants are public or private nonprofit institutions of higher education granting two- or four-year degrees and accredited by a national or regional accrediting agency recognized by the U.S. Department of Education.

VOL
67
ISS
58
MR
26
2002
UMI

For New Grants, only applicants that have never previously received a New Grant, a New Directions Grant, or an Institutionalization Grant are eligible. Institutions that participated in a COPC grant as a member of a consortium of colleges or universities will be eligible to apply for a New Grant if they received 25% or less of the earlier grant. For New Directions Grants, applicants must meet the following requirements: you must have received a New Grant in FY 1994, 1995, 1996, 1997, 1998 or 1999; you must never have received a New Directions Grant; and you must have drawn down (i.e., requests for reimbursement have been processed), by the application due date, at least 75% of the funds you received from any previous COPC award. Joint Community Development Program grantees are not eligible for either kind of funding, nor are FY 2000 and 2001 COPC Grantees.

Consortia of eligible institutions may apply, as long as one institution is designated the lead applicant. Since the Statement of Work and other facets of the technical review are assessed in the context of the proposed staffing, and in order to fund as many eligible applicants as possible, HUD has determined that you may be part of only one consortium or submit only one application or the application will be disqualified. HUD will hold you responsible for ensuring that neither you nor any part of your institution, including specific faculty, participate in more than one application. For New Directions Grants, if you originally received funding as a consortium, you are not required to submit again with all the consortium members. Members of a previously approved consortium may submit on their own or as part of their old consortium. However, as with New Grants, only one application from an institution will be permitted.

Different campuses of the same university system are eligible to apply, even if one campus has already received COPC funding. Such campuses are eligible as separate applicants only if they have administrative and budgeting structures independent of other campuses in the system.

(C) *Eligible Activities.* Your COPC Program must combine research with outreach, work with communities and local governments and address the multidimensional problems that beset urban areas. To meet the threshold requirements, your New Grant application must be multifaceted and address three or more urban problems and you must propose at least one distinct activity to address each separate urban problem. Urban problems include issues related to housing, economic development, neighborhood revitalization, infrastructure, health care, job training, education, crime prevention, planning, the environment, community organizing, and other areas deemed appropriate by the Secretary. Single purpose applications are not eligible. For example, if you propose to undertake health education for elementary school children, organizing around health issues, and job readiness for the health professions, HUD will deem your application as single purpose, because it really only addresses the problem of health care. Likewise, if you propose to address housing, economic development, and health care problems by developing a Geographic Information System, your application would also be considered single purpose because it does not propose separate and distinct activities for each of the problems you address. As examples of eligible projects, if you propose a health care project for the elderly, a job training program on construction trades for high school seniors, and an affordable housing fair, you would meet the test of addressing three urban problems, each with a separate activity. Alternatively, if you propose a Geographic Information System to identify economic development potential, an oral history of the neighborhood, and the creation of block watches, you would also meet the test. These are just examples. For more information about the projects that have actually been funded under the program, you should look at the Office of University Partnerships' web site at www.oup.org. If you are applying for a New Directions Grant, you will only be required to address two urban problems and undertake at least one activity for each of these problems.

The statute creating COPC is very specific that the programs address the problems of urban areas. HUD uses the Census definition of an urban area: a single geographic place (e.g., a city, town, or village, but not a county) with a population of 2,500 or more. You cannot meet this test by aggregating several places smaller than the population threshold in order to meet this requirement.

Funded research must have a clear near-term potential for solving specific, significant urban problems. You must have the capacity to apply your research results and to work with communities and local institutions, including neighborhood groups, local governments, and other appropriate community stakeholders, in applying these results to specific real-life urban problems.

While the list of eligible and ineligible activities is the same for both New Grant applicants and New Directions Grant applicants, New Directions Grant applicants must demonstrate that the proposed activities either implement new eligible projects in the current target neighborhood(s) or implement eligible projects in a new target neighborhood(s). New Directions applicants will be required to specifically describe how the activities described in the New Directions application differ from the activities described in the original COPC application.

Eligible activities include:

(1) Research activities that have practical application for solving specific problems in designated communities and neighborhoods, including evaluation of the effectiveness of the outreach activities. In order to ensure that the primary focus of your project is on outreach, research may not total more than one-quarter of the total project costs contained in any grant made under this COPC funding announcement (including the required 50% match).

(2) Outreach, technical assistance and information exchange activities which are designed to address specific urban problems in designated communities and neighborhoods. Such activities must total no less than three-quarters of your total project costs (including the required 25% match). Examples of outreach activities include, but are not limited to:

(a) Assistance to communities to improve consolidated housing and community development plans and eliminate impediments to the design and implementation of such plans;

(b) Design of community or metropolitan strategies to resolve urban problems of communities and neighborhoods;

(c) Innovative use of funds to provide direct technical expertise and assistance to local community groups, residents, and other appropriate community stakeholders to assist them in resolving local problems such as homelessness, housing discrimination, and impediments to fair housing choice;

(d) Technical assistance in business start-up activities for low- and moderate-income individuals and organizations, including business start-up training and technical expertise and assistance, mentor programs, assistance in developing small loan funds, business incubators, etc;

(e) Technical assistance to local public housing authorities on welfare-to-work initiatives and physical transformations of public or assisted housing, including development of accessible and visitable housing;

(f) Job training and other training projects, such as workshops, seminars, and one-on-one and on-the-job training;

(g) Assistance to communities to design ways to use HUD's Partnership for Advancing Technology in Housing (PATH) technology such as analyzing building codes and building materials or designing new building systems. (Remember that actual physical development activities are not eligible under COPC.) For more information, see the General Section of the SuperNOFA or visit the website at www.pathnet.org;

(h) Assistance to communities to improve their fair housing planning process; and

(i) Regional projects that maximize the interaction of targeted inner city distressed neighborhoods with suburban job opportunities similar to HUD's Bridges-to-Work or Moving to Opportunity programs. (For more information see www.HUDUSER.org).

(3) Funds for faculty development including paying for course time or summer support to enable faculty members to work on the COPC.

(4) Funds for stipends or salaries for students (but the program cannot cover tuition and fees) while they are working on the COPC.

(5) Activities to carry out the "Responsibilities" listed under Section IV (B) below. These activities may include leases for office space in which to house the Community Outreach Partnership Center, under the following conditions:

(a) The lease must be for existing facilities not requiring rehabilitation or construction;

(b) No repairs or renovations of the property may be undertaken with Federal funds; and

(c) Properties in the Coastal Barrier Resource System designated under the Coastal Barrier Resources Act (16 U.S.C. 3501) cannot be leased with Federal funds.

(6) Components of your program may address metropolitan or regional strategies. You must clearly demonstrate how:

(a) Your strategies are directly related to what the targeted neighborhoods and neighborhood-based organizations have decided is needed; and

(b) Neighborhoods and neighborhood organizations are involved in the development and implementation of the metropolitan or regional strategies.

(D) *Ineligible Activities.* Activities ineligible for funding under this program are as follows:

(1) Research activities that have no clear and immediate practical application for solving urban problems or do not address specific problems in designated communities and neighborhoods.

(2) Any type of construction, rehabilitation, or other physical development costs.

(3) Costs used for routine operations and day-to-day administration of institutions of higher education, local governments or neighborhood groups.

IV. Program Requirements

In addition to the program requirements listed in the General Section of this SuperNOFA, grantees must meet the following program requirements:

(A) *Grant Sizes and Terms.* If you are applying for a New Grant, you may not request less than $250,000 or more than $400,000. This amount must be spent over a three-year period, and your budget must reflect this period. Since the Statement of Work (in Section VI.(G)) and the Narrative Statement Addressing the Factors for Award (in Section VI.(H)) are assessed in the context of the proposed budget and grant request, and in the interest of fairness to all applicants, HUD will not accept a New Grant application that is under $250,000 or over $400,000.

If you are applying for a New Directions Grant, you may not request a grant that exceeds $150,000. This amount must be spent over a two-year period. Since the Statement of Work and other facets of the technical review are assessed in the context of the proposed budgei and grant request, and in the interest of fairness to all applicants, HUD will not accept a New Directions application that is over $150,000.

(B) *Responsibilities.* You are required to:

(1) Employ the research and outreach resources of your institution of higher education to solve specific urban problems identified by communities served by your Center;

(2) Establish outreach activities in areas identified in your application as the communities to be served;

(3) Establish a community advisory committee comprised of representatives of local institutions and residents of the communities to be served to assist in identifying local needs and advise on the development and implementation of strategies to address those issues;

(4) Coordinate outreach activities in communities to be served by your Center;

(5) Facilitate public service projects in the communities served by your Center;

(6) Act as a clearinghouse for dissemination of information;

(7) Develop instructional programs, convene conferences, and provide training for local community leaders, when appropriate; and

(8) Exchange information with other Centers.

The clearinghouse function in Section IV(B)(6) above refers to a local or regional clearinghouse for dissemination of information and is separate and distinct from the functions in (8) above, which relate to the provision of information to the University Partnerships Clearinghouse, which is the national clearinghouse for the program.

(C) *Cap on Research Costs.* No more than 25% of your total project costs (Federal share plus match) can be spent on research activities. You are, however, not required to undertake any research as part of your project. You may apply for a project that is totally for outreach activities.

(D) *Match.* The non-Federal share may include cash or the value of non-cash contributions, equipment and other allowable in-kind contributions as detailed in 24 CFR part 84, and in particular § 84.23 entitled "cost sharing or matching." You may not count as match any costs that would be ineligible for funding under the program (e.g., housing rehabilitation).

(1) If you are a New Grant applicant, you must meet the following match requirements:

(a) *Research Activities.* 50% of the total project costs of establishing and operating research activities.

(b) *Outreach Activities.* 25% of the total project costs of establishing and operating outreach activities.

(2) If you are a New Directions Grant applicant, you must meet the following match requirements:

(a) *Research Activities.* 60% of the total project costs of establishing and operating research activities.

(b) *Outreach Activities.* 35% of the total project costs of establishing and operating outreach activities.

In previous competitions, some applicants incorrectly based their match calculations on the Federal grant amount, not the total project costs. An example of how you should calculate the match correctly and a worksheet for the calculation are included in the application kit. The worksheet, which is also included in the program area section of the SuperNOFA, should be included with your application.

(E) *Administrative.* Your grant will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations), A–21 (Cost Principles

VOL
67
ISS
58
MR
26
2002
UMI

for Education Institutions), and A–133 (Audits of States, Local Governments, and Non-Profit Organizations. You may not spend more than 20% of your grant on planning or administrative costs. The application kit contains a detailed explanation of what these costs are. You can access the OMB circulars at the White House website at http:whitehouse.gov/omb/circulars/index.html.

V. Application Selection Process

There will be two separate competitions—one for New Grants and one for New Directions Grants. For each type of grant, applications will be rated, ranked, and selected separately. Two types of reviews will be conducted: a threshold review to determine your application's eligibility; and a technical review to rate your application based on the rating factors in Section V(A) below.

(A) *Additional Threshold Requirements For Funding Consideration.* Under the threshold review, your application can only be rated if you are both in compliance with the requirements of the General Section of the SuperNOFA and if the following additional standards are met:

(1) You have met the statutory match requirements, if applying for a New Grant or the higher match levels described above, if applying for a New Directions Grant.

(2) You have proposed a program in which at least 75% of the total project costs will be for outreach activities.

(3) For New Grants, you have requested a Federal grant between $250,000 and $400,000. For New Directions Grants, you have requested a Federal grant that is no more than $150,000.

(4) You have addressed at least three urban problems (2 urban problems if you are a New Directions applicant), such as affordable housing, fair housing, economic development, neighborhood revitalization, infrastructure, health care; job training, education, crime prevention, planning, the environment, and community organizing and have proposed at least one separate and distinct activity for each problem you propose to address.

(5) You and any part of your organization are participating in only one application.

(6) Your project will operate in an urban area.

(B) *Factors For Award Used To Evaluate and Rate Applications.* The factors for rating and ranking applicants, and maximum points for each factor, are provided below. The maximum number of points for this program is 102. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA. Unless otherwise noted, New Grant applications and New Directions Grant applications will receive the same number of points on a given factor.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (15 Points)

This factor addresses the extent to which you have the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor HUD will consider the extent to which the proposal demonstrates:

(1) *For New Grants* (15 points). *For New Direction Grants* (7 points).

(a) The knowledge and experience of your overall proposed project director and staff, including the day-to-day program manager, consultants and contractors in planning and managing programs for which funding is being requested. Experience will be judged in terms of recent, relevant and successful experience of your staff to undertake eligible program activities. In rating this factor, HUD will consider experience within the last 5 years to be recent; experience pertaining to the specific activities being proposed to be relevant; and experience producing specific accomplishments to be successful. The more recent the experience and the more experience your own staff members who work on the project have in successfully conducting and completing similar activities, the greater the number of points you will receive for this rating factor. The following categories will be evaluated:

(i) Undertaking research activities in specific communities that have a clear near-term potential for practical application to significant urban issues, such as affordable housing, fair housing including accessible and visitable housing, economic development, neighborhood revitalization, infrastructure, health care, job training, education, crime prevention, planning, and community organizing;

(ii) Undertaking outreach activities in specific communities to solve or ameliorate significant urban issues;

(iii) Undertaking projects with community-based organizations or local governments; and

(iv) Providing leadership in solving community problems and making national contributions to solving long-term and immediate urban problems.

(b) Past Performance. *For New Directions Grants only* (8 points). The extent to which you performed successfully under your previous COPC grant(s), as measured by:

(i) Your achievement of specific measurable outcome objectives;

(ii) Your leveraging of funding beyond the funds originally proposed to be leveraged for that project; and

(iii) The effectiveness of your administration of any previous COPC grants (including the timeliness and completeness of your compliance with COPC reporting requirements and your ability to have resolved problems which presented themselves during the grant period). In addressing timeliness of reports, you should compare when your reports were due with when they were actually submitted.

(c) Full points will be awarded for exceptional performance, which consistently meets and exceeds promised goals.

Rating Factor 2: Need/Extent of the Problem (15 Points)

This factor addresses the extent to which there is a need for funding your proposed program activities and your indication of the urgency of meeting the need in the target area. In responding to this factor, you will be evaluated on the extent to which you document the level of need for the proposed activity and the urgency in meeting the need.

You should use statistics and analyses contained in a data source(s) that is sound and reliable. To the extent that the targeted community's Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem and the urgency in meeting the need, you should include references to these documents in your response.

If the proposed activity is not covered under the scope of the Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI), you should indicate such, and use other sound data sources to identify the level of need and the urgency in meeting the need. Types of other sources include Census reports, Continuum of Care gaps analysis, law enforcement agency crime reports, Public Housing Authorities' Comprehensive Plan, and other sound and reliable sources appropriate for your program. You may also address needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements.

To the extent possible, the data you use should be specific to the area where the proposed activity will be carried out. You should document needs as they apply to the area where activities will be targeted, rather than the entire locality or state.

Rating Factor 3: Soundness of Approach (50 Points)

This factor addresses the quality and cost-effectiveness of your proposed work plan. There must be a clear relationship between your proposed activities, community needs and the purpose of the program funding for you to receive points for this factor. The factor will be evaluated based on the extent to which the proposed work plan will:

(1) (10 points). Identify the specific services or activities to be performed. Note that you are not required to undertake research as part of the grant. In reviewing this subfactor, HUD will consider the extent to which:

(a) There is a clear research agenda;

(i) With identifiable research projects and outcomes (e.g., reports, surveys, etc.)

(ii) That identifies each task and who will be responsible for it;

(iii) Which is tied to the outreach agenda (e.g., if you proposed to study the extent of housing abandonment in a neighborhood and then design a plan for reusing this housing, you would be able to demonstrate the link between your proposed research and outreach strategies); and

(iv) Which does not duplicate research by your institution or by others for the target area previously completed or currently underway. If other complimentary research is underway, you need to describe how the proposed research agenda would complement it.

(b) There is a clear outreach agenda:

(i) With identifiable outreach projects;

(ii) That identifies each task and who will be responsible for it;

(iii) That involves your institution as a whole (i.e., many academic disciplines and administrative offices);

(iv) That provides for on-site or frequent presence in the target area; and

(v) That does not duplicate outreach activities by your institution or others for the target area previously completed or currently underway.

(2) (7 points). Involve the communities to be served in a partnership for the planning and implementation of your activities. In reviewing this subfactor, HUD will look at the extent to which:

(a) You have formed or will form one or more Community Advisory Committees, representative of the communities' diversity (including businesses, community groups, residents, and others) to be served to develop and implement strategies to address the needs identified in Factor 2. You will be expected to demonstrate that you have already formed such a committee(s) or secured the commitment of the appropriate persons to serve on the committee(s), rather than just describing generally the types of people whose involvement you will seek.

(b) You have involved a wide range of neighborhood organizations and local government entities in the identification of your research and outreach activities.

(c) The committee and your partners will play an active role in all stages of the project and will not serve as merely advisors or monitors.

(d) Your outreach agenda includes training projects for local community leaders, for example, to increase their capacity to direct their organizations or undertake various kinds of community development projects.

(3) (6 points). Help solve or address an urgent problem as identified in Rating Factor 2 and will achieve the purposes of the program within the grant period. In reviewing this subfactor, HUD will look at the extent to which:

(a) You identify specific time phased and measurable objectives to be accomplished; your proposed short and long term program objectives to be achieved as a result of the proposed activities; the tangible and measurable impacts your work program will have on the community in general and the target area or population in particular including affirmatively furthering fair housing for classes protected under the Fair Housing Act; and the relationship of your proposed activities to other ongoing or proposed efforts to improve the economic, social or living environment in the impact area; and

(b) Grant funds will pay for activities you conduct directly, rather than passing funds through to other entities (In order for your application to be competitive, no more than 25 percent of your grant funds should be passed to other entities); and

(c) The activities you propose to undertake are pressing and urgent needs, as identified in the documents described in Factor 2.

(4) (4 points). Potentially yield innovative strategies or "best practices" that can be replicated and disseminated to other organizations, including nonprofit organizations, State and local governments. In reviewing this subfactor, HUD will assess your demonstrated ability to disseminate results of research and outreach activities to other COPCs and communities. HUD will evaluate your past experience and the scope and quality of your plan to disseminate information on COPC results, strategies, and lessons learned through such means as conferences, cross-site technical assistance, publications, etc. The more proactive your plan for providing information to a wide range of audiences, the greater the number of points you will receive.

(5) (5 points) Include activities that affirmatively further fair housing, for example:

(a) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in the sale of rental of housing or in advertising, provision of brokerage services, or lending;

(b) Promoting fir housing choice through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(c) Providing housing mobility counseling services.

(6) HUD 2002 Policy Priorities (6 Points)

The extent to which your application will further and support the following priorities of HUD. The quality of the response you provide to one or more of HUD's priorities (described below) will determine the score you receive. You will receive one point for each policy priority addressed, up to a total of 6 points. For a fuller explanation of each policy priority, please refer to Section VI. of the General Section of this SuperNOFA.

(a) Increasing Homeownership Opportunities for Low and Moderate Income persons, Persons with Disabilities and the Elderly, and Minorities and families where English may be a second language.

(b) Improving the Quality of Public Housing and Increasing Economic Mobility Choices for Residents.

(c) Encouraging Accessible Design Features.

(d) Improving Computer Access, Literacy, and Employment Opportunities.

(e) Providing Full and Equal Access to Faith-Based and Other Community Organizations in HUD Program Implementation.

(f) Ensuring that Programs are Accountable for the Promises Made and the Actions Taken.

(g) In addition to the HUD policy priorities, the following is a program priority: Using PATH Technologies in Housing Construction and Rehabilitation. HUD encourages participation in Partnership for Advancing Technology in Housing (PATH) for programs that intend to use funding for construction or rehabilitation. PATH's goal is to achieve dramatic improvement in the quality of

VOL
67
ISS
58
MR
26
2002
UMI

American housing by the year 2010. PATH encourages leaders from the home building, product manufacturing, insurance and financial industries and representatives from federal agencies dealing with housing issues to work together to spur housing design and construction innovations, particularly those innovations that make housing more affordable to low and moderate income persons and which are energy efficient. PATH has a FY 2002 budget of $8.75 million.

PATH will provide technical support in design and cost analysis of advanced technologies to be incorporated in project construction. Applicants should see *www.pathnet.org* on the Internet for more information, the list of technologies, latest PATH Newsletter, results from field demonstrations and PATH projects. Applicants are encouraged to employ PATH technologies to exceed prevailing national building practices by: Reducing costs; improving durability; increasing energy efficiency; improving disaster resistance, and reducing environmental impact.

(7) *For New Grants* (12 points): *For New Directions Grants* (7 points). Result in the COPC function and activities becoming part of the urban mission of your institution and being funded in the future by sources other than HUD. The bases for rating an application for this selection factor will be different, depending on whether the application is for a New Grant or a New Directions Grant.

In reviewing this subfactor for a New Grant, HUD will consider the extent to which:

(a) COPC activities relate to your institution's urban mission; demonstrate support and involvement of the institution's executive leadership; are linked by a formal organizational structure to other units related to outreach and community partnerships; are reflected in budget and planning documents; are part of a climate that rewards faculty work on these activities through promotion and tenure policies; benefit students because they are part of a service learning program or professional training at your institution (rather than just volunteer activities); and are reflected in your curriculum. HUD will look at your institution's commitment to faculty and staff continuing work in COPC neighborhoods or replicating successes in other neighborhoods and to your longer term commitment (e.g., five years after the start of the COPC) of hard dollars to COPC work. HUD will consider the extent to which your proposed activities are appropriate for an institution of higher education because they are tied to your institution's teaching or research mission. In addition, HUD will consider the extent to which your faculty, staff and students from across many disciplines are involved in COPC-like activities as a way of demonstrating your institution's commitment to these kinds of activities.

(b) You have received commitments for funding from sources outside the university for related COPC-like projects and activities in the targeted neighborhood or other distressed neighborhoods. Funding sources to be considered include, but are not limited to, local governments, neighborhood organizations, private businesses, your institution, and foundations.

In reviewing this subfactor for a New Directions Grant, HUD will consider the extent to which your New Directions project will sustain the institutional capacity and commitment of your institution to undertake outreach activities. HUD will be looking for increases in the number of faculty undertaking this kind of work, increases in the number of courses linked to outreach activities and the number of students taking these courses, formal changes in institutional policies related to support of outreach, and other measures of the impact of this work on your institution.

(8) *For New Direction Grants only* (5 points). Previous grantees have a wealth of knowledge that they can and should share with other institutions. If you send a faculty member of your team who has been listed in your application to participate in the peer review process for New Grants, you will receive 5 points.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses the ability of the applicant to secure community resources which can be combined with HUD's program resources to achieve program purposes. This factor measures the extent to which you have established partnerships with other entities to secure additional resources to increase the effectiveness of your proposed program activities. Resources may include funding or in-kind contributions, such as services or equipment, allocated to the purpose(s) of the award you are seeking. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities willing to establish partnerships with you. You may also establish partnerships with funding recipients in other grant programs to coordinate the use of resources in the target area. In evaluating this factor, HUD will allocate points as follows:

(1) Five (5) points will be awarded for a match that is 50% over the required match, as described in Section IV(D) above. Fewer points will be assigned depending on the extent of the match. Matching funds must be provided unconditionally in order to be counted for this factor.

HUD is concerned that applicants should be providing hard dollars as part of their matching contributions to enhance the tangible resources going into targeted neighborhoods. Thus, while indirect costs can count towards meeting the required match, they will not be used in calculating match overage. Only direct costs can count in this factor.

(2) Up to an additional 5 points will be awarded for the extent to which you document that matching funds are provided from eligible sources other than your institution (e.g., funds from the city, including CDBG, other State or local government agencies, public or private organizations, or foundations). Fewer points will be assigned depending on the extent of the outside match.

You must provide evidence of leveraging/partnerships by including in the application letters of firm commitment, memoranda of understanding, or agreements to participate from any entity, including your own institution, that will be providing matching funds to the project. Each letter of commitment, memorandum of understanding, or agreement to participate should include the organization's name, proposed total level of commitment and responsibilities as they relate to the proposed program. The commitment must also be signed by an official of the organization legally able to make commitments on behalf of the organization. Unless matching funds are accompanied by a commitment letter citing the specific dollar amount pledged, they will not be counted towards the match.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (Maximum 10 points)

This factor addresses the extent to which you coordinated your activities with other known organizations, participate or promote participation in your community's Consolidated Planning process, and are working towards addressing a need in a holistic and comprehensive manner through linkages with other activities in the community. If you propose to work in a Community Development Block Grant (CDBG) non-entitlement jurisdiction, you will only need to address subfactors (1) and (3). If you are working in a CDBG non-entitlement area, please note that at the beginning of the discussion of this factor.

In evaluating this factor, HUD will consider:

(1) The extent to which you have coordinated your activities with other known organizations that are not directly participating in your proposed worked activities, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner;

(2) The extent to which your application implements practical solutions within the grant term to result in assisting beneficiaries of grant program funds in achieving independent living, economic empowerment, educational opportunities; housing choices or improved living environments;

(3) The extent to which your program exhibits the potential to be financially self-sustaining by decreasing dependence on Federal funding and relying more on state, local and private funding so your activities can be continued after your grant award period is completed.

(4) Institutionalization of Project Activities. HUD will also consider the extent to which your project will result in the kinds of activities that will be sustained by the university by becoming part of the mission of the institution. HUD will also look at the university's monetary commitment to continuing to work in the target area or other similar areas and to its longer term commitment of hard dollars to similar work.

(C) *Selections.* In order to be funded under COPC, you must receive a minimum score of 70. HUD intends to fund at least one eligible applicant that serves colonias, as defined by section 916(d) of the Cranston-Gonzalez National Affordable Housing Act, as long as the applicant receives a minimum score of 70. HUD will select the highest ranking colonias application from among the rated colonias applications.

If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 4, Leveraging Resources shall be selected.

HUD reserves the right to make selections out of rank order to provide for geographic distribution of funded COPCs. If HUD decides to use this option, it will do so only if two adjacent HUD regions do not yield at least one fundable COPC on the basis of rank order. If this occurs, HUD will fund the highest ranking applicant within the two regions as long as the minimum score of 70 points is achieved.

After all applications have been rated and ranked and selections have been made, HUD may require you, if you are selected, to participate in negotiations to determine the specific terms of your Statement of Work and grant budget. In cases where HUD cannot successfully conclude negotiations, or you fail to provide HUD with requested information, an award will not be made. In such instances, HUD may elect to offer an award to the next highest ranking applicant, and proceed with negotiations with that applicant.

VI. Application Submission Requirements

You should include an original and two copies of the items listed below. In order to be able to recycle paper, please do not submit applications in bound form; binder clips or loose leaf binders are acceptable. Also, please, do not use colored paper. Please note the page limits for some of the items listed below and do not exceed them.

Your application must contain the items listed in this section. These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively, referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the "non-standard" forms can be found as Appendix A to this program section of the SuperNOFA. The items are as follows:

(A) *SF–424,* Application for Federal Assistance.

(B) *HUD–424M,* Federal Assistance Funding Matrix.

(C) *Application Checklist.*

(D) *Transmittal Letter* signed by the Chief Executive Officer of your institution or his or her designee. If a designee signs, your application must include the official delegation of signatory authority;

(E) *Abstract.* (1 page limit) An abstract describing the goals and activities of your program.

(F) *Narrative statement addressing the Factors for Award in Section V(B).* (50 page limit, including letters of commitment, tables and maps, but not including letters of matching commitments, the match calculation worksheet, and budget forms). (Please note that although submitting pages in excess of the page limit will not disqualify your application, HUD will not consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.) For FY 2002 the statement of work and the budget are now a part of Factor 3, Soundness of Approach.

(1) The Statement of Work incorporates all activities to be funded in your application and details how your proposed work will be accomplished. Following an activity and tasks under each activity format, your Statement of Work must:

(a) Arrange the presentation of related major activities by project functional category (e.g., economic development, affordable housing, capacity building), summarize each activity, identify the primary persons involved in carrying out the activity, and delineate the major tasks involved in carrying it out.

(b) Indicate the sequence in which the tasks are to be performed, noting areas of work which must be performed simultaneously.

(c) Identify specific numbers of quantifiable intermediate and end products and objectives you will deliver by the end of the award agreement period as a result of the work performed.

(d) Identify whether you propose to work in a Community Development Block Grant (CDBG) entitlement area or not.

(2) Your budget presentation should be consistent with your Statement of Work and include:

(a) Budget Form—The budget form (Form HUD–424–CB) should be used to prepare the budget.

(b) A narrative explanation of how you arrived at your cost estimates, for any line item over $5,000.

(c) A statement of your compliance with the 20% limitation on "Planning and Administration" Costs.

(d) An explanation of your compliance with the requirement that not more than 25% of the total budget be allocated to research activities (Form HUD–30002).

(3) Your narrative response should be numbered in accordance with each factor and subfactor.

(G) *Certifications.*

(1) SF–424B, Assurances for Non-Construction Programs.

(2) HUD–50071, Certification of Payments to Influence Certain Federal Transactions;

VOL
67
ISS
58
MR
26
2002
UMI

(3) SF–LLL, Disclosure of Lobbying Activities (if applicable);
(4) HUD–2880, Applicant/Recipient Disclosure/Update Form;
(5) HUD–50070, Certification of Drug-Free Workplace;
(6) HUD–2992, Certification Regarding Debarment and Suspension;
(7) HUD–2991, Certification of Consistency with the Consolidated Plan; and
(8) HUD–2990, Certification of Consistency with the RC/EZ/EC Strategic Plan (if applicable);

(H) *Acknowledgment of Receipt of Applications (HUD–2993).* If you wish to confirm that HUD received your application, please complete this form. This form is optional.

(I) *Client Comments and Suggestions (HUD–2994).* If you wish to offer comments on the COPC NOFA of this SuperNOFA or the SuperNOFA process, please complete this form. This form is optional.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

In accordance with 24 CFR 50.19(b) of the HUD regulations, activities assisted under this program are categorically excluded from the requirements of the National Environmental Policy Act and are not subject to environmental review under the related laws and authorities.

IX. Other Items

(1) *Executive Order 12372. Intergovernmental Review of Federal Programs.* You must comply with this Executive Order. Please refer to the General Section VII(C) for details.

(2) *Conducting Business in Accordance with Core Values and Ethical Standards.* HUD requires that all grantees adhere to core values and ethical business practices, as described in Section II(B)(2)) of the General Section of this SuperNOFA as a condition of award.

(3) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* HUD requires grantees to take all necessary affirmative steps in contracting with businesses, small disadvantaged businesses and women-owned businesses in conducting your work activities. Please refer to section II (F) of the General Section of this SuperNOFA for specific requirements.

(4) *Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the above-mentioned **Federal Register** notice, and for not less than 120 days after awards for assistance are announced, HUD will provide a debriefing to any applicant requesting a debriefing on their application. All requests for debriefings must be made in writing and submitted to Armand Carriere Office of University Partnerships at (202) 708–3061, ext. 3181. If you have a speech or hearing impairment, you may call HUD's TTY number (202) 708–0770, or 1–800–877–8399 (the Federal Information Relay Service TTY). Other than the "800" number, these numbers are not toll-free. You may also reach Mr. Carriere via the Internet at Armand_W._Carriere@hud.gov. Materials provided to you during your debriefing will include the final scores you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

IX. Authority

This program is authorized under the Community Outreach Partnership Act of 1992 (42 U.S.C. 5307 note; the "COPC Act"). The COPC Act is contained in section 851 of the Housing and Community Development Act of 1992 (Pub. L. 102–550, approved October 28, 1992) (HCD Act of 1992). Section 801(c) of the HCD Act of 1992 authorized $7.5 million for each year of the 5-year demonstration to create Community Outreach Partnership Centers as authorized in the COPC Act. The FY 2002 HUD Appropriations Act (P.L. 107–73) continued the program beyond the initial five-year demonstration by providing funding for Community Outreach Partnership Centers for FY 2002.

Office of Policy Development and Research

OMB Approval No. 9999-9999 (exp. 99/99/9999)

Public reporting burden for this collection of information is estimated to average 5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The information collected on this form is utilized to calculate and verify the amount of matching resources as a percentage of total project costs. This collection of information is authorized by Public Law 100-242, section 501. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

FUNDING AVAILABILITY FOR THE HISTORICALLY BLACK COLLEGES AND UNIVERSITIES PROGRAM

PROGRAM OVERVIEW

Purpose of the Program. To assist HBCUs expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development, principally for persons of low and moderate income, consistent with the purposes of Title I of the Housing and Community Development Act of 1974.

Available Funds. Approximately $10.5 million.

Eligible Applicants. Only HBCUs as determined by the Department of Education in 34 CFR 608.2 in accordance with that Department's responsibilities under Executive Order 12876, dated November 1, 1993, are eligible for funding under the HBCU Program.

Application Deadline. June 20, 2002.

Match: None.

ADDITIONAL INFORMATION

If you are interested in applying for funding under the HBCU program, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Your completed application is due on or before June 20, 2002 at HUD Headquarters with a copy to the appropriate HUD CPD Field Office.

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), Fed EX, DHL, or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date, when you submitted your application to the US Postal Service. The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, Fed EX, and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 a.m. and 5:30 p.m. Eastern Time, Monday to Friday. If these companies do not service your area, you should submit your application via the US Postal Service.

Address for Submitting Applications. Your completed application consists of one original and two copies of your application. Submit your original signed application and one of the two copies to the following address: Processing and Control Branch, Office of Community Planning and Development; Department of Housing and Urban Development, 451 Seventh Street, SW., Room 7251, Washington, DC, 20410. When submitting your application, please refer to the HBCU Program, and include your name, mailing address (including zip code) and telephone number (including area code).

Copies of Applications to HUD Field Offices. To facilitate processing and review of your application, submit one copy (the second copy) to the Community Planning and Development (CPD) Director in the appropriate HUD Field Office for the HBCU by 5:30 p.m. Eastern Time on June 20, 2002. The list of HUD Field Offices with CPD Directors is included in Appendix A to this program section of the SuperNOFA.

HUD will accept only *one* application per HBCU. If HUD receives more than one application from a single HBCU, HUD will ask the HBCU to identify which application it wants evaluated. If the HBCU does not respond within the stipulated period (see Section V of the General Section of this SuperNOFA), all of the applications received from the HBCU will be disqualified. You should take this policy into account to ensure that multiple applications are not submitted.

For Application Kits. For an application kit and any supplemental materials, you should call the SuperNOFA Information Center at 1–800–HUD–8929. If you have a hearing or speech impairment, please call the Center's TTY number at 1–800-HUD–2209. When requesting an application kit, you should refer to the HBCU Program and provide your name, address (including zip code), and telephone number (including area code). You may also download the application on the Internet through the HUD web site *at http://www.hud.gov.*

For Further Information and Technical Assistance. You may contact Ophelia Wilson, Historically Black Colleges and Universities Program, Office of University Partnerships, Policy Development and Research, Department of Housing and Urban Development, 451, Seventh St. SW., Washington, DC 20410. telephone (202) 708–3061 ext. 4390. (This is not a toll-free number.) If you have a hearing or speech impairment, you may access this number via TTY by calling the Federal Information Relay Service toll-free at 1–800–877–8339. You may also obtain information from the HUD Field Office located in your geographic area. Appendix A of this program section of the SuperNOFA contains the names, addresses and telephone numbers of the HUD Field Offices. For general information and information regarding training on this HBCU Program section of the SuperNOFA, you can call the SuperNOFA Information Center at 1–800–HUD–8929.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at *http://www.hud.gov.*

II. Amount Allocated

Approximately $10.5 million is being made available for funding under this program section of the SuperNOFA. Additional funds may be available if funds are recaptured, deobligated, appropriated or otherwise made available during the fiscal year.

(A) *Allocation of Funding.* In order to ensure that some previously unfunded HBCUs will receive awards in this competition, approximately $1.7 million of the available funds will be awarded to HBCUs that have not previously been funded under the HUD HBCU program. Previously unfunded HBCUs are listed in Appendix B of this HBCU Program section of the SuperNOFA.

VOL
67
ISS
58
MR
26
2002
UMI

The remaining approximately $8.8 million of FY 2002 funds will be awarded to HBCUs that have received funding under previous HBCU competitions. Previously funded HBCUs are listed in Appendix C of this HBCU Program section of the SuperNOFA.

If recaptured funds are made available, those funds will also be divided proportionately between the two types of applicant funding pools.

HUD reserves the right to make awards for less than the maximum amount or less than the amount requested in a particular application. The maximum amount awarded to previously unfunded applicants will be up to $340,000 and the maximum amount awarded to previously funded applicants will be up to $550,000. Applicants requesting more than the maximum amount will be disqualified.

(B) *Term of Grant.* The maximum period for performance of your proposed program under this SuperNOFA for the HBCU Program is 36 months. The performance period will commence on the effective date of your grant agreement.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* The HBCU Program assists HBCUs expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development, consistent with the purposes of Title I of the Housing and Community Development Act of 1974.

(1) For the purposes of this program, the term "locality" includes any city, county, town, township, parish, village, or other general political subdivision of a State or the U.S. Virgin Islands within which an HBCU is located.

(2) If your HBCU is located in a metropolitan statistical area (MSA), as established by the Office of Management and Budget, you may consider your locality to be one or more of these entities within the entire MSA. The nature of the locality for each HBCU may differ, therefore, depending on its location.

(3) A "target area" is the locality or the area within the locality in which your HBCU will implement its proposed HUD grant activities.

(B) *Eligible Applicants.* Only HBCUs as determined by the Department of Education in 34 CFR 608.2 in accordance with that Department's responsibilities under Executive Order 12876, dated November 1, 1993, are eligible for funding under the HBCU Program. Applicants must be accredited by a national or regional accrediting agency recognized by the U.S. Department of Education.

(C) *Eligible Activities.* (1) *General.* Each activity you propose for funding must meet both a Community Development Block Grant (CDBG) Program national objective AND the CDBG eligibility requirements. Eligible activities that may be funded under the HBCU Program are those activities eligible for CDBG funding. The eligible activities are listed in 24 CFR part 570, subpart C, particularly §§ 570.201 through 570.206. Additionally, not less than 51% of the aggregated expenditures of a grant must benefit low and moderate income persons under the criteria specified in 24 CFR 570.208(a) or 570.208(d)(5) or (6). Each activity that may be funded under this SuperNOFA for the HBCU Program must meet one of the three national objectives of the Community Development Block Grant program which are:

(a) Benefit to low- or moderate-income persons;

(b) Aid in the prevention or elimination of slums or blight; or

(c) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community, and other financial resources are not available to meet such needs.

Criteria for determining whether an activity addresses one or more of these objectives are provided at 24 CFR 570.208.

(2) *Examples of Eligible Activities.* Examples of activities that generally can be carried out with these funds include, but are not limited to:

(a) Acquisition of real property;

(b) Clearance and demolition;

(c) Rehabilitation of residential structures including lead-based paint hazard evaluation and reduction; and encouraging accessible design features in accordance with the requirements of section 504 of the Rehabilitation Act of 1973;

(d) Acquisition, construction, reconstruction, rehabilitation, or installation of public facilities and improvements, such as water and sewer facilities and streets;

If you are proposing to undertake any of the activities listed in (a) through (d), you will be required to provide at least two reasonable appraisals/estimates, from a *qualified* entity other than the HBCU, of the cost to complete the activities. This information is to be submitted with your application. Such an entity must be involved in the business of housing rehabilitation, construction, and/or management;

(e) Relocation payments and other assistance for permanently and temporarily relocated individuals, families, businesses, nonprofit organizations, and farm operations where the assistance is:

(i) Required under the provisions of 24 CFR 570.606(b) or (c); or

(ii) Determined by the grantee to be appropriate under the provisions of 24 CFR 570.606(d);

(f) Direct homeownership assistance to low- and moderate-income persons, as provided in section 105(a)(25) of the Housing and Community Development Act of 1974;

(g) Special economic development activities described at 24 CFR 570.203;

(h) Assistance to facilitate economic development by providing technical or financial assistance for the establishment, stabilization, and expansion of microenterprises, including minority enterprises;

(i) Assistance to a CBDO to carry out a CDBG neighborhood revitalization, community economic development, or energy conservation project, in accordance with 24 CFR 570.204. This could include activities in support of a HUD approved local entitlement grantee CDBG Neighborhood Revitalization Strategy (NRS) or HUD approved State CDBG Community Revitalization Strategy (CRS); and

(j) Eligible public service activities, including but not limited to such activities as those concerned with employment, crime prevention, child care, health, drug abuse, education, fair housing counseling, energy conservation, homebuyer down payment assistance, or recreational needs. If grant funds are used to provide public services, you are bound by the CDBG statutory requirement that not more than 15% of the total grant amount be used for public service activities that benefit low and moderate income persons. Therefore, you must propose to use at least 85% of the grant amount for activities qualifying under an eligibility category other than public services (as described at 24 CFR 570.201(e)). If you propose an activity which otherwise is eligible it may not be funded if State or local law requires that it be carried out by a governmental entity.

The CDBG Publication entitled "Community Development Block Grant Program Guide to National Objectives and Eligible Activities for Entitlement Communities" describes the regulations, and a copy can be obtained from HUD's SuperNOFA Information Center at 1–800–HUD–8929 or 1–800–HUD–2209 for the hearing impaired.

(k) Fair housing services designed to further the fair housing objectives of the Fair Housing Act (42 U.S.C. 3601–20) by making all persons, without regard to race, color, religion, sex, national origin, family status and/or disability aware of the range of housing opportunities available to them; and

(l) Payment of reasonable grant administrative costs and carrying charges related to the planning and execution of community development activities assisted in whole or in part with grant funds.

(3) *Activities Designed to Promote Training and Employment Opportunities.* In selecting proposed eligible activities, we urge you to consider undertaking activities designed to promote opportunities for training and employment of low-income residents in connection with HUD initiatives such as "Twenty/20 Education Communities" in public housing and "Neighborhood Networks" (NN) in other Federally-assisted or insured housing. We also encourage you, whenever feasible, to propose implementing activities in a Federally-designated Urban or Rural (HUD or Department of Agriculture) Empowerment Zone, Urban or Rural Enterprise Community (EZ or EC), or a HUD-approved local CDBG Neighborhood Revitalization Strategy Area or HUD-approved State CDBG Community Revitalization Strategy Area.

(D) *Ineligible CDBG Activities* are listed at § 570.207.

IV. Program Requirements

In addition to the program requirements listed in the General Section of this SuperNOFA, you are subject to the following requirements:

(A) *Institutional Eligibility.* Institutions with two (2) or more active HBCU grants and who have drawn down less than 50% of the funding for each active grant prior to the 2002 application date will be ineligible to apply for a 2002 HBCU grant.

(B) *Leveraging.* Although a match is not required to qualify for funding, applicants that provide letters evidencing a firm commitment from other Federal (e.g., Americorps Programs), State, local, and/or private sources to provide funding, and/or in-kind goods or services to implement the proposed activities will receive points under Rating Factor 4. These letters must be dated no earlier than the date of this published SuperNOFA. If you do not have evidence of leveraging, you will receive zero (0) points for Rating Factor 4.

(C) *Affirmatively Furthering Fair Housing.* Please see Section II(D) of the General Section of this SuperNOFA.

(D) *Employment of Local Area Residents (Section 3).* Please see Section II(E) of the General Section of this SuperNOFA. The requirements are applicable to certain activities that may be funded under this program section of the SuperNOFA.

(E) *Labor Standards.* If you are awarded a grant, you must comply with the labor standards (Davis-Bacon) as found at 24 CFR 570.603.

(F) *OMB Circulars.* Your grant will be governed by: (1) OMB Circular A–21 entitled "Cost Principles for Educational Institutions"; (2) OMB Circular A–133 entitled "Audits of States, Local Governments, and Non-Profit Organizations"; and (3) the provisions of 24 CFR part 84 entitled "Grants and Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations. You can access the OMB Circulars at the White House website at http://whitehouse.gov/omb/circulars/index.html

(G) *Nondiscrimination.* In addition to the fair housing and other civil rights assurances described under Section II (B) of the SuperNOFA General Section, applicants for the HBCU Program must comply with Section 109 of the Housing and Community Development Act of 1974, as amended. Implementing regulations for Section 109 are found under 24 CFR part 570, including, but not limited to, reporting and record-keeping requirements under 24 CFR 570.506 and 570.507.

(H) *Conducting Business In Accordance With HUD Core Values and Ethical Standards.* HUD requires that all grantees adhere to core values and ethical business practices, as described in Section II (B)(2) of the General Section of this SuperNOFA as a condition of award.

(I) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* HUD requires grantees to take all necessary affirmative steps in contracting with businesses, small disadvantaged businesses and women-owned businesses in conducting your work activities. Please refer to section II (F) of the General Section of this SuperNOFA for specific requirements.

V. Application Selection Process

(A) *Threshold Factors for Funding Consideration.* HUD will conduct a review to insure that applications are complete and consistent with the threshold requirements of Section II (B), of the General Section of the SuperNOFA, including Compliance with Fair Housing and Civil Rights Laws, this HBCU Program section of the SuperNOFA and the HBCU Program regulations (24 CFR 570.404) before reviewing the application for rating and ranking. The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

(B) *Funding of Applications.* To be considered for funding, your application must receive a minimum score of 70 out of the possible total of 100 points for Factors 1 through 5. In addition, two bonus points may be awarded for RC/EZ/EC, as described in the General Section of the SuperNOFA. Within each category of eligible applicants, HUD will fund applications in rank order, until it has awarded all available funds for that category of applicant, or until there are no fundable applications remaining in that category. If there is a tie in the point scores of two applications, the rank order will be determined by the score on Rating Factor 3, 4, 2, 1, 5 in that order. HUD will give the higher rank to the application with the most points for a factor in the above order.

If funds remain after approving all fundable applications within a category of applicants, HUD may choose to add those funds to the funds available for the other category of applicants.

(C) *After Selection.* After selection, but prior to award, you will be required to:

(a) Negotiate. After HUD has rated and ranked all applications and HUD has selected the competition winners, HUD requires that all winners participate in negotiations to determine the specific terms of the Statement of Work and the final grant budget. HUD will follow the negotiation procedures described in Section III(D) of the General Section of the SuperNOFA.

(b) Provide Financial Management and Audit Information. If you are selected for funding, you will be required to submit a copy of your most recent audit from an Independent Public Accountant, or the cognizant government auditor, stating that your financial management system meets prescribed standards for fund control and accountability required by OMB Circular A–133, as codified at 24 CFR part 84 and provides your approved fringe benefit and overhead rates.

(D) *Factors For Award Used To Evaluate and Rate Applications.* HUD will use the Factors For Award set forth below to evaluate applications. Your application must contain sufficient information for HUD to review it for its merits. The score for each factor will be based on the qualitative and quantitative aspects of your response to that factor. You are not to exceed a total of fifty (50) pages to respond to Rating Factor 1 through 5. This limitation applies to your narrative response,

VOL
67
ISS
58
MR
26
2002
UMI

tables, and maps, and NOT to firm commitment letters, and the performance narrative for previously funded HBCUs.

The maximum number of points that may be awarded is 102. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (25 Points)

This factor addresses the extent to which you have the organizational resources necessary to successfully implement your proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which:

(1) *Knowledge and Experience.* (5 Points for previously funded applicants and 25 Points for previously unfunded applicants). Your application demonstrates the knowledge and experience of the overall project director and staff, including the day-to-day program manager, consultants (including technical assistance providers) and contractors in planning and managing the kinds of programs for which funding is being requested. Experience will be judged in terms of recent, relevant and successful experience of your staff to undertake eligible program activities. In rating this factor, HUD will consider the extent to which your organization and staff have recent, relevant, and successful experience in:

(a) Undertaking specific successful community development projects with community-based organizations or local governments; and

(b) Providing proven leadership in solving community problems which have a direct bearing on the proposed activity.

(2) *Past Performance* (20 Points for previously funded applicants). The extent to which you have performed successfully under your previous and current HBCU grant(s), as measured by:

(a) Your achievement of specific measurable outcome objectives consistent with timelines in your grant proposal;

(b) Your leveraging of funding consistent with or exceeding the Fund originally proposed to be leveraged for that project; and

(c) The effectiveness of your administration of any previous HBCU grants (including the timeliness and completeness of your compliance with HBCU reporting requirements and your ability to take action to resolve problems which presented themselves during the grant period). In addressing timeliness of reports, you should compare when your reports were due with when they were actually submitted.

(d) Full points will be awarded for exceptional performance, which consistently meets and exceeds promised goals.

For each open HUD HBCU grant, you must submit a *performance narrative as outlined in Appendix D.*

Rating Factor 2: Need/Extent of the Problem (10 Points)

This factor addresses the extent to which there is a need for funding your proposed program activities and an indication of the importance of meeting the need in the target area. In responding to this factor, you will be evaluated on the extent to which you *document* the level of need for the proposed activities and the importance of meeting the need.

You should use statistics and analyses contained in one or more data sources that are sound and reliable. To the extent that your community's (State or local government's) Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem and the urgency in meeting the need, you should include references to these documents in your response to this factor. If your proposed activities are not covered under the scope of the Consolidated Plan and AI, you should indicate such, and use other sound data sources to identify the level of need and the urgency in meeting the need. Types of other sources include, but are not limited to, Census reports, HUD's Continuum of Care gaps analysis and its E-MAPS (www.hud.gov/emaps), law enforcement agency crime reports, Public Housing Authorities' Comprehensive Plan, community needs analysis such as provided by the United Way, local Urban League, the HBCU and other sound and reliable sources appropriate for the HBCU program. You also may address needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements.

To the extent possible, the data you use should be specific to the area where your proposed activities will be carried out. You should document needs as they apply to the area where the activities will be targeted, rather than the entire locality or State, unless the target area is the entire locality or State.

Rating Factor 3: Soundness of Approach (45 Points)

This factor addresses the quality and cost-effectiveness of your proposed work plan, the commitment of your institution to sustain the proposed activities, and your actions regarding Affirmatively Furthering Fair Housing.

(1) *Quality of the Work Plan* (40 Points). This factor includes your statement of work and budget.

(a) Work Plan Impact (10 Points). Describe how your proposed activities will:

(i) Expand the role of the HBCU in its community;

(ii) Alleviate and/or fulfill the needs identified in Factor 2;

(iii) Relate to and not duplicate other activities in the target area. Duplicative efforts will be acceptable, if you are able to demonstrate that there is a population in need that is not being served;

(iv) Involve and empower the citizens of the target area; and

(v) Be disseminated to a wide variety of audiences, both academic and community-based, using a wide variety of media, including print and internet technology.

(b) *Specific Services and/or Activities.* (25 Points). Your work plan must incorporate all proposed activities. HUD will consider the feasibility of success of your program, the measurable objectives, and how timely your products will be delivered.

Describe each proposed activity, and the tasks required to implement and complete the activity. If your proposed work activity triggers federal relocation laws, you must comply with the regulations in 24 CFR 570.606 and, 49 CFR part 24, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA) (42 U.S.C. 4601–4655).

Also, for each activity, describe:

(i) How it meets a CDBG national objective;

(ii) The sequence, duration, and the products to be delivered in 6 month intervals, up to (36) months. You should indicate which staff member, described in your response to Factor 1, will be responsible and accountable for the deliverables; and

(iii) Measurable objectives to be accomplished, e.g. the number of: persons to be trained and employed; houses to be built (pursuant to 24 CFR 570.207) or rehabilitated; minority owned businesses to be started, etc.

(c) HUD Priorities (5 Points). The extent to which your application will further and support the following priorities of HUD. The quality of the response you provide to one or more of HUD's priorities will determine the score you receive. You will receive one point for each policy priority addressed, up to a total of five (5) points. For a fuller explanation of each policy priority, please refer to Section VI of the General Section of this SuperNOFA.

(i) Increasing Homeownership Opportunities for Low and Moderate Income Persons, Persons with Disabilities and the Elderly, and Minorities and families where English may be a second language.

(ii) Improving the Quality of Public Housing and Increasing Economic Mobility Choices for Residents.

(iii) Improving Computer Access, Literacy, and Employment Opportunities.

(iv) Providing Full and Equal Access to Faith-Based and Other Community Based Organizations in HUD Program Implementation.

(v) Ensuring that Programs are Accountable for the Promises Made and the Actions Taken.

(vi) Encouraging Accessible Design Features.

(2) *Affirmatively Furthering Fair Housing* (5 Points). The extent to which you propose to undertake activities designed to affirmatively further fair housing, for example:

(a) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in the sale or rental of housing or in advertising, provision of brokerage services, or lending;

(b) Promoting fair housing through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(c) Providing mobility counseling.

In evaluating Rating Factor 3, HUD will consider the extent to which your budget is consistent with the Work Plan and the dollars indicated on the Standard Form (SF) 424. Your budget submission must include:

(i) A budget summary covering the Federal and non-Federal share of the costs proposed by cost category. You should pay particular attention to accurately estimating costs, determining the necessity for and reasonableness of costs; and correctly computing all budget items and totals. Indirect costs must be substantiated and approved by the cognizant Federal agency or you must provide an indirect cost rate plan. The indirect cost rate should be indicated in your budget;

(ii) A budget justification, which should be a narrative statement indicating how you arrived at your costs. When possible, you should use quotes from vendors or historical data. You must support all direct labor and salaries with mandated city/state pay scales or other documentation; and

(iii) A budget-by-activity which includes a listing of tasks to be completed for each activity needed to implement the program, the overall costs for each activity, and the cost for each funding source.

You must submit at least two reasonable appraisals/estimates supplied by *qualified* entities, other than the HBCU, if you are proposing to do any of the following: acquisition of real property; clearance and demolition; rehabilitation of residential, commercial and/or industrial structures; *and/or* acquisition, construction, or installation of public facilities and improvements. You may obtain guidance for securing these estimates from the local HUD's Office of Community Planning and Development.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses your ability to secure resources which can be combined with HUD program funds to implement the proposed activities. Potential Sources of Assistance are:

- Federal, State and local governments
- Housing Authorities
- Local or national nonprofit organizations
- Banks and private businesses
- Foundations
- Faith-based and other community based organizations
- The HBCU

For each match, cash or in-kind contribution to your program, you must submit a letter from the provider on the provider's letterhead. The date of the letter from the CEO of the provider organization must be dated no earlier than the date of this published SuperNOFA. A firm commitment letter should address the following:

- The cash amount contributed or dollar value of the in-kind goods and/or sevices committed;
- How the match is to be used;
- The date the match will be made available and a statement that it will be for the duration of the grant period;
- Any terms and conditions affecting the commitment, other than receipt of a HUD HBCU Grant; and
- The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services.

In evaluating this factor, HUD will consider the extent to which you have secured firm commitments for additional resources to increase the effectiveness of your proposed activities. Resources may include funding or in-kind contributions, such as services or equipment, allocated solely for the purpose(s) of the award you are seeking. A higher number of points will be awarded for a cash match than in-kind goods or services of the same value. The maximum number of rating points you can receive for leveraging is ten (10). Applicants will receive no points for undocumented claims. Use the format provided, to respond to this factor.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which you have coordinated your activities with other known organizations, participate or promote participation in your community's Consolidated Planning process, and are working towards addressing a need in a holistic and comprehensive manner through linkages with other activities in the community. For specific information about your locality's planning process, contact the local Community Development Agency or the local HUD Field Office.

In evaluating this factor, HUD will consider the extent to which you demonstrate you have:

(1) Coordinated your proposed activities with those of other groups or organizations *before* submission in order to best complement, support and coordinate all known activities, and if funded, the specific steps you will take to share information on solutions and outcomes with others. You should describe any written agreements, memoranda of understanding in place, or that will be in place after award.

(2) Taken or will take specific steps to become active in the community's Consolidated Planning process (including the Analysis of Impediments to Fair Housing Choice) established to identify and address a need/problem that is related to your proposed activities.

(3) Taken or will take specific steps to develop linkages to coordinate comprehensive solutions through meetings, information networks, planning processes or other mechanisms with:

(a) Other HUD-funded projects/activities outside the scope of those covered by the Consolidated Plan; and

(b) Other Federal, State or locally funded activities, including those proposed or on-going in the community.

(4) Institutionalization of Project Activities. HUD will also consider the extent to which your project will result in the kinds of activities that will be sustained by the HBCU by becoming part of the mission of the HBCU. HUD will also look at the HBCUs monetary commitment to continuing to work in the target area or other similar areas and to its longer term commitment of hard dollars to similar work.

VOL 67 ISS 58 MR 26 2002 UMI

VI. Application Submission Requirements

(A) *Forms, Certifications and Assurances.* Your application must contain the items listed in this Section VI. These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively referred to as the "standard forms"). The standard forms follow the General Section of the SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the "non-standard forms" can be found in Appendix D to this program section of the SuperNOFA.

Forms applicable to the HBCU application are as follows:

(1) Standard Form SF–424, Application for Federal Assistance.

(2) Standard Form SF–424B, Assurances for Non-Construction Programs.

(3) Standard Form SF–4240, Assurances for Construction Programs.

(4) Form HUD–424M Budget Matrix

(5) Form HUD–50070, Certification for a Drug-Free Workplace.

(6) Form HUD–50071, Certification of Payments to Influence Federal Transactions. If you did do any lobbying then you must also complete the Certification and Disclosure Form Regarding Lobbying (SF–LLL).

(7) Form HUD–2880, Applicant/ Recipient Disclosure Update Report.

(8) Form HUD–2992, Certification Regarding Debarment and Suspension. This certification is required by 24 CFR 24.510. (The provisions of 24 CFR part 24 apply to the employment, engagement of services, awarding of contracts, subgrants, or funding of any recipients, or contractors or subcontractors, during any period of debarment, suspension, or placement in ineligibility status, and a certification is required).

(9) Form HUD–2991, Certification of Consistency with the Consolidated Plan; and

(10) Form HUD–2990, Certification of Consistency with the RC/EZ/EC Strategic Plan. RC/EZ/EC bonus points will only be awarded when the HBCU is located within the geographic boundaries of a HUD or Department of Agriculture RC/EZ/EC. If applicable, you will need to indicate on this form if the college or university is located within the geographic boundaries of the RC/EZ/EC.

(B) *Transmittal Letter.* A transmittal letter must accompany your application. Your cover letter must be signed by the Chief Executive Officer (usually the President or Provost) of your institution. If the Chief Executive Officer has delegated this responsibility to another official, that person may sign, but a copy of the delegation must also be included.

(C) *Letter Certifying Local Approval.* This letter certifies that the jurisdiction in which your activities will take place approve the implementation of your activities.

(D) *Abstract/Executive Summary* (one page limit) describing the goals and activities of your project.

(E) *Narrative Statement Responding To the Factors For Award* (50 page limit, including tables and maps, but not including firm commitment letters, and the performance narrative). The narrative should be numbered in accordance with each factor and subfactor.

Please note that all certification forms must be signed by the authorized certifying official.

(F) *HUD Form 40076, Budget Information.* Also, HUD will not consider appendices to an application. You must submit your documentation, including firm commitment letters and the performance narrative with your responses to the pertinent factors in order to receive points for it.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance under this program part, in accordance with 24 CFR part 50. The results of the environmental review may require that your proposed activities be modified or that your proposed sites be rejected. You are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties prior to HUD approval of specific properties or areas. Your application constitutes an assurance that your institution will assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select an alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair or construct property and not commit or expend HUD or local funds for these program activities with respect to any eligible property, until HUD approval of the property is received. In supplying HUD with environmental information, you should use the same guidance as provided in the HUD Notice CPD–99–01 entitled "Field Environmental Review Processing for HUD Colonias Initiative (HCI) Grants," issued January 27, 1999.

IX. Other Matters

(1) Disclosures. HUD will make available to the public for 5 years all applicant disclosure reports (HUD Form 2880) submitted in connection with this SuperNOFA. Update reports (update information also reported on Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period less than 3 years. All reports' both applicant disclosures and updates'will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR 4.7 Part 5.

(2) Publication of Recipients of HUD Funding. HUD's regulations at 24 CFR 4.7 provide that HUD will publish a notice in the **Federal Register** to notify the public of all decisions made by the Department to provide:

(i) Assistance subject to section 102(a) of the HUD Reform Act; or

(ii) Assistance that is provided through grants or cooperative agreements on a discretionary (non-formula, non-demand) basis, but that is not provided on the basis of a competition.

(3) Section 103 HUD Reform Act. HUD's regulations implementing section 103 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3537a), codified in 24 CFR part 4, subpart B, apply to this funding competition. The regulations continue to apply until the announcement of the selection of successful applicants. HUD employees involved in the review of applications and in the making of funding decisions are limited by the regulations from providing information to any person (other than an authorized employee of HUD) concerning funding decisions, or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance in this competition should confine their inquires to the subject areas permitted under 24 CFR part 4.

(4) Debriefing. Beginning not less than 30 days after the awards for assistance are announced in the above-mentioned **Federal Register** notice, and for not longer than 120 days after awards for assistance are announced, HUD will provide a debriefing to any applicant requesting a debriefing on their application. All requests for debriefings must be made in writing and submitted to the person or organization identified as the Contact under the section entitled For Further Information and Technical Assistance in the program section of the Super NOFA under which you applied for assistance. Materials provided to you during your debriefing will include the final scores you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

X. Authority

This program is authorized under section 107(b)(3) of the Housing and Community Development Act of 1974 (42 U.S.C. 5307(b)(3)), which was added by section 105 of the Department of Housing and Urban Development Reform Act of 1989 (Pub.L. 101–235, approved December 15, 1989). The HBCU Program is governed by regulations contained in 24 CFR 570.400 and 570.404, and in 24 CFR part 570, subparts A, C, J, K, and O.

FUNDING AVAILABILITY FOR THE HISPANIC-SERVING INSTITUTIONS ASSISTING COMMUNITIES PROGRAM (HSIAC)

PROGRAM OVERVIEW

Purpose of the Program. To assist Hispanic-serving institutions of higher education (HSIs) expand their role and effectiveness in addressing community development needs in their localities, consistent with the purposes of Title I of the Housing and Community Development Act of 1974, as amended.

Available Funds. Approximately $10.1 million ($7.5 million from FY 2002 appropriation + $2.6 million carry over from FY 2001).

Eligible Applicants: Only nonprofit Hispanic-serving institutions of higher education that meet the definition of an HSI established in Title V of the 1998 Amendments to the Higher Education Act of 1965 (Pub.L. 105–244; enacted October 7, 1998).

Application Deadline. June 20, 2002

Match. None.

ADDITIONAL INFORMATION

If you are interested in applying for funds under the Hispanic-serving Institutions Assisting Communities Program (HSIAC), please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Your completed application is due on or before June 20, 2002 at HUD Headquarters.

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), Fed Ex, DHL, or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date, when you submitted your application to the US Postal Service. The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, Fed EX, and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not service your area, you should submit your application via the US Postal Service.

Address for Submitting Applications. Your completed application consists of an original signed application and two copies of the application. Submit your completed application to the following address: Processing and Control Branch, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7251, Washington, DC, 20410. When submitting your application, please refer to HSIAC and include your name, mailing address (including zip code), and telephone number (including area code).

HUD will accept only one application per HSI campus for this program. If your institution submits more than one application, per campus, HUD will ask you to identify which application you want evaluated. Only one application may be evaluated. If you do not respond within the stipulated cure period (see Section V of the General Section of this SuperNOFA), all of your applications will be disqualified. You should take this policy into account and take steps to ensure that multiple applications are not submitted.

For Application Kits. For an application kit and any supplemental material, you should call the SuperNOFA Information Center at 1–800-HUD–8929. If you have a hearing or speech impairment, please call the Center's TTY number at 1–800-HUD–2209. When requesting an application kit, you should refer to HSIAC and provide your name and address (including zip code) and telephone number (including area code). You may also access the application on the Internet through the HUD web site at http//www.hud.gov/grants.

For Further Information and Technical Assistance. You may contact Armand Carriere of HUD's Office of University Partnerships at 202–708–3061 extension 3181. If you have a hearing or speech impairment, you may access this number via TTY by calling the Federal Information Relay Service toll-free at 1–800–877–8339. You may also write to Armand Carriere via email at Armand_W._Carriere @hud.gov.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at http://www.hud.gov.

II. Amount Allocated

Approximately $7.5 million FY2002 funds plus $2.6 million carryover from FY 2001 are being made available under this SuperNOFA for HSIAC.

The maximum grant period is 36 months. The performance period will commence on the effective date of the grant agreement.

The maximum amount to be requested and awarded is $600,000. Since the Statement of Work and other facets of the technical review are assessed in the context of the proposed budget and grant request, and in the interest of fairness to all applicants, if you submit an application requesting more than $$600,000 in HUD funds, the application will be ruled ineligible. HUD reserves the right to make awards for less than the maximum amount or less than the amount requested in your application.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* The purpose of HSIAC is to assist HSIs expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development.

(1) For the purposes of this program, the term "locality" includes any city, county, township, parish, village, or other general political subdivision of a State, Puerto Rico, or the U.S. Virgin Islands within which your HSI is located.

(2) A "target area" is the locality or the area within the locality in which your institution will implement its proposed HUD grant.

VOL
67
ISS
58
MR
26
2002
UMI

(B) *Eligible Applicants.* Only if your institution is a nonprofit institution of higher education and meets the statutory definition of an HSI in Title V of the 1998 Amendments to the Higher Education Act of 1965 (P.L. 105–244) are you eligible to apply. In order for you to meet this definition, at least 25 percent of the full-time undergraduate students enrolled in your institution must be Hispanic and not less than 50 percent of these Hispanic students must be low-income individuals. You are not required to be on the list of eligible institutions prepared by the U.S. Department of Education. However, if you are not, you will be required to certify in the application that you meet the statutory definition. If you are one of several campuses of the same institution, you may apply separately from the other campuses as long as your campus has a separate administrative structure and budget from the other campuses. In addition, in order to fund as many different HSIs as possible, you can only apply if you did not receive an HSIAC grant in FY 2001. If you received an HSIAC grant in FY 2000, you may reapply as long as: (1) you propose an entirely new project for a different activity; (2) you propose a different project director; and (3) you have drawn down at least 75% of your previous grant by the application due date.

(C) *Eligible Activities.*

(1) *General.* Each activity you propose for funding must meet both a Community Development Block Grant Program (CDBG) national objective and the CDBG eligibility requirements. A discussion of the national objectives can be found at 24 CFR part 570.208. Each activity that may be funded under this SuperNOFA for the HSIAC program must meet one of the three national objectives of the CDBG program which are:

(a) Benefit to low- and moderate-income persons;

(b) Aid in the prevention or elimination of slums or blight; or

(c) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community, and other financial resources are not available to meet such needs. (You must ensure that of your aggregate grant expenditures under paragraphs (a), (b), and (c) above, at least 51% are for activities benefiting low- and moderate-income persons.)

Criteria for determining whether an activity addresses one or more of these objectives are provided at 24 CFR 570.208.

Ineligible activities are listed at § 570.207. The CDBG publication entitled, "CDBG Guide to National Objectives and Eligible Activities for Entitlement Communities" discusses the regulations. You can obtain a copy from the SuperNOFA Information Center. If you propose an activity which otherwise is eligible, it may not be funded if State or local law requires that it be carried out by a governmental entity.

In addition, you may not propose the construction or rehabilitation of your institution's facilities unless you can demonstrate that such activities would meet the purpose of this program to expand the role and effectiveness of an HSI in its locality. HUD will scrutinize proposed activities for eligibility. As examples of eligible and ineligible on-campus activities, rehabilitating a library for use by your students would not be an eligible activity, but rehabilitating it to convert it to a micro-business enterprise center for the community would be; or as another example, just undertaking your normal activities (e.g., offering English as a Second Language classes) would not be considered eligible activities because they would not expand your role and effectiveness in community development activities. You should call Armand Carriere at 202–708–3061 extension 3181 if you have any questions about the eligibility of any activities you may propose. You may also look at the Office of University Partnerships website at www.oup.org for summaries of last year's winners.

(2) *Examples of Eligible Activities.* Examples of activities that generally can be carried out with these funds, under one the three national objectives, include, but are not limited to:

(a) Acquisition of real property;

(b) Clearance and demolition;

(c) Rehabilitation of residential structures to increase housing opportunities for low- and moderate-income persons and rehabilitation of commercial or industrial buildings to correct code violations or for certain other purposes, e.g., making accessibility and visitability modifications to housing;

(d) Direct homeownership assistance to low- and moderate-income persons, as provided in section 105(a)(25) of the Housing and Community Development Act of 1974;

(e) Acquisition, construction, reconstruction, rehabilitation, or installation of public facilities and improvements, such as water and sewer facilities and streets;

(f) Relocation payments and other assistance for temporarily and permanently relocated individuals, families, businesses, and non-profit organizations where the assistance is:

(1) Required under the provision of 24 CFR 570.606 (b) or (c); or

(2) Determined by your institution to be appropriate under the provisions of 24 CFR 570.606(d).

(g) Lead-based paint hazard reduction, pursuant to the CDBG regulations;

(h) Special economic development activities described at 24 CFR 570.203, including activities designed to promote training and employment opportunities;

(i) Assistance to facilitate economic development by providing technical assistance or financial assistance for the establishment, stabilization, and expansion of microenterprises, including minority enterprises.

(j) Assistance to community-based development organizations (CBDO) to carry out a CDBG neighborhood revitalization, community economic development, or energy conservation project, in accordance with 24 CFR 570.204. This could include activities in support of a HUD approved local CDBG Neighborhood Revitalization Strategy (NRS) or HUD approved State CDBG Community Revitalization Strategy (CRS);

(k) Eligible public service activitiesup to 15 percent of the grant including:

(i) Work study programs that meet the program requirements of the Hispanic-serving Institutions Work Study program, which can be found at 24 CFR 570.416;

(ii) Outreach and other program activities as described in the Community Outreach Partnership Centers Program section of the SuperNOFA;

(iii) Educational activities including English as a Second Language (ESL) classes, adult basic education classes, GED preparation and testing, and curriculum development of courses that will lead to a certificate or degree in community planning and development;

(iv) Job and career counseling, assessment, training, and other activities designed to promote employment opportunities, not related to special economic development activities;

(v) Capacity building for community organizations;

(vi) Social and medical services for youths, adults, senior citizens, and the homeless;

(vii) Fair housing services designed to further the fair housing objectives of the Fair Housing Act (42 U.S.C. 3601–20) by making all persons, without regard to race, color, religion, sex, national origin, familial status and/or disability aware of the range of housing opportunities available to them;

(viii) Day care centers;

(ix) Continuum of care services for the homeless;

(x) Public access telecommunications centers including Twenty/20 Education Communities (formerly known as Campus of Learners) and Neighborhood Networks;

(xi) Activities to use HUD's Partnership for Advancing Technology in Housing (PATH) technology;

(l) Administrative Costs. Up to 20% of your grant for program administration costs related to the planning and execution of community development activities assisted in whole or in part with grant funds. Pre-award planning costs may not be paid out of grant funds.

(D) Ineligible CDBG Activities are listed at 24 CFR 570.207.

IV. Program Requirements

(1) Executive Order 12372, Intergovernmental Review of Federal Programs. You must comply with this Executive Order. Please refer to the General Section VII(C) for details.

(2) *Leveraging.* Although a match is not required to qualify for funding, if you claim leveraging from any source, including your own institution, you must provide letters or other documentation evidencing the extent and firmness of commitments of leveraging from other Federal (e.g., Americorps Programs), State, local, and/or private sources (including the applicant's own resources). These letters or documents must be dated no earlier than the date of this published SuperNOFA. Potential sources of leveraging assistance include: your own institution (for both direct and indirect costs);

- Federal, State and local governments;
- Housing authorities;
- Local or national nonprofit organizations;
- Banks and private businesses; foundations; and
- Faith-based and other community based organizations.

(3) *Employment of Local Area Residents (Section 3).* Please see Section II(E) of the General Section of this SuperNOFA. The requirements are applicable to certain activities that may be funded under this program section of the SuperNOFA.

(4) *Labor Standards.* If you are awarded a grant, you must comply with the labor standards (Davis-Bacon) as found at 24 CFR 570.603.

(5) *OMB Circulars.* Your grant will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and other Nonprofit Organizations), A–21 (Cost Principles for Education Institutions), and A–133 (Audits of States, Local Governments, and Non-Profit Organizations). The application kit contains a detailed explanation of what these costs are. You can access the OMB circulars at the White House website at http://whitehouse.gov/omb/circulars/index.html.

(6) *Nondiscrimination.* In addition to the fair housing and other civil rights assurances described under Section II (B) of the General Section, you must comply with Section 109 of the Housing and Community Development Act of 1974, as amended. Implementing regulations for Section 109 are found under 24 CFR 570, including, but not limited to, reporting and record-keeping requirements under 24 CFR 570.506 and 570.507.

(7) *Conducting Business In Accordance With Core Values and Ethical Standards* HUD requires that all grantees adhere to core values and ethical business practices, as described in Section II.(B)(2)) of the General Section of this SuperNOFA.

(8) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* HUD requires grantees to take all necessary affirmative steps in contracting with businesses, small disadvantaged businesses and women-owned businesses in conducting your work activities. Please refer to section II (F) of the General Section of this SuperNOFA for specific requirements.

V. Application Selection Process

HUD will conduct two types of review: a threshold review to determine applicant eligibility; and a technical review to rate the application based on the rating factors in this section.

(A) *Threshold Factors for Funding Consideration.* Under this threshold review, your application will only be rated if it is both in compliance with the requirements of the General Section of the SuperNOFA and the following additional standards are met:

(1) You must be an eligible HSI and meet the other eligibility requirements under Section III(B) of this program NOFA;

(2)Your application requests a Federal grant of $600,000 or less over the three year period.

(3) There is only one application from your institution or a campus of your institution;

(4) At least one of the activities in your application is eligible.

(B) *Factors for Award Used to Evaluate and Rate Applications.* The factors for rating and ranking applicants, and maximum points for each factor, are provided below. The maximum number of points for this program is 102. Your application must receive a minimum of 70 out of the possible total of 102 points to be considered for funding. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (15 points)

This factor addresses the extent to which you have the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which:

(1) *Knowledge and Experience (5 Points for previously funded applicants and 15 points for previously unfunded applicants).* Your application demonstrates the knowledge and experience of the overall project director and staff, including the day-to-day program manager, consultants, and contractors in planning and managing the kinds of programs for which funding is being requested. Experience will be judged in terms of recent relevant and successful experience of your staff to undertake eligible program activities. In rating this factor, HUD will consider experience within the last 5 years to be recent: experience pertaining to the specific activities being relevant: and experience producing specific accomplishments to be successful. The more recent the experience and the more recent the experience of your own staff members who work on the project have in successfully conducting and completing similar activities, the greater the number of points you will receive for this rating factor. The following categories will be evaluated:

(a) Undertaking specific successful community development projects with community-based organizations; and

(b) Providing proven leadership in solving community problems which have a direct bearing on the proposed activity.

(2) *Past Performance* (10 points for previously funded applicants)

The extent to which you have performed successfully under your previous and current HSIAC grant(s), as measured by:

(a) Your achievement of specific measurable outcome objectives consistent with timelines in your grant proposal;

(b) Your leveraging of funding consistent with or exceeding the funds originally proposed to be leveraged for that project; and

VOL
67
ISS
58
MR
26
2002
UMI

(c) The effectiveness of your administration of any previous HSIAC grants (including the timeliness and completeness of your compliance with HSIAC reporting requirements and your ability to take action to resolve problems which presented themselves during the grant period). In addressing timeliness of reports, you should compare when your reports were due with when they were actually submitted.

(d) Full points will be awarded for exceptional performance, which consistently meets and exceeds promised goals.

Rating Factor 2: Need/Extent of the Problem (15 points)

This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the importance of meeting the need in the target area. In responding to this factor, you will be evaluated on the extent to which you document the level of need for the proposed activities and the importance of meeting the need.

You should use statistics and analyses contained in one or more data sources that are sound and reliable. To the extent that your targeted community's Five (5) Year Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem and the urgency in meeting the need, you should include references to these documents in your response to this factor.

If your proposed activities are not covered under the scope of the Consolidated Plan and AI, you should indicate such, and use other sound data sources to identify the level of need and the urgency in meeting the need. Types of other sources include Census reports, HUD Continuum of Care gaps analysis, law enforcement agency crime reports, Public Housing Authorities' Comprehensive Plans, community needs analyses such as provided by the United Way, your institution, etc., and other sound and reliable sources appropriate for HSIAC. You may also address needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements. To the extent possible, the data you use should be specific to the area where the proposed activities will be carried out. You should document needs as they apply to the area where the activities will be targeted, rather than the entire locality or State, unless the target area is the entire locality or State.

Rating Factor 3: Soundness of Approach (40 points)

This factor addresses the quality and cost-effectiveness of your proposed work plan, the commitment of your institution to the proposed activities, and your actions regarding HUD's priorities and Affirmatively Furthering Fair Housing.

(1) *Quality of the Work Plan* (35. Points). This factor includes your Statement of Work and Budget.

(a) *Specific Services and/or Activities* (12 Points). Specifically, HUD will consider the extent to which your proposed activities will:

(i) Expand the role of your institution in its community;

(ii) The project you propose can be completed within the three year grant period

(iii) Relate to and not duplicate other activities in the target area;

(iv) Involve and empower the citizens of the target area, targeting specifically faith-based and other community-based grassroots organizations, in all stages of the proposed project (particularly through a committee that is representative of the target community, to guide the project); and

(v) Be disseminated to a wide variety of audiences, both academic and community-based, using a wide variety of media, including print and Internet technology.

(b) *Work Plan Impact* (13 Points). HUD will consider the feasibility of success of your program, the measurable objectives, and how timely your products will be delivered. Specifically, HUD will examine the extent to which:

(i) You propose to alleviate and/or fulfill the needs identified in Factor 2; and

(ii) The objectives are measurable (e.g., the number of loans made, the number of jobs created), result in measurable improvement to the community (e.g., fifteen more homeowners, twenty more jobs in a specific field), and how well you demonstrate that these objectives will be achieved by your proposed management plan and team and will result directly from your activities.

(c) *Involvement of the Faculty and Students* (5 points). The extent to which your application proposes to involve your students and faculty, as part of their coursework in outreach and applied research activities. HUD's goal is to encourage you to fund activities similar to those eligible under the COPC program to be undertaken as a complement to those proposed in your HSIAC application. For more information about the COPC program, you can look at the University Partnerships Clearinghouse web site at http://www.oup.org/techassist/copc/techcopc.html.

(d) *HUD Priorities* (5 points). The extent to which your application will further and support at least one of the following priorities of HUD. The quality of the response you provide to one or more of HUD's priorities will determine the score you receive. You will receive one point for each policy priority addressed, up to a total of 5 points. For a fuller explanation of each policy priority, please refer to Section VI. of the General Section of this SuperNOFA.

(i) Encouraging Accessible Design Features.

(ii) Improving Computer Access, Literacy, and Employment Opportunities.

(iii) Providing Full and Equal Access to Faith-Based and Other Community Based Organizations in HUD Program Implementation.

(iv) Ensuring that Programs are Accountable for the Promises Made and the actions taken.

(v) Improving the Quality of Public Housing and Increasing Economic Mobility Choices for Residents.

(2) *Affirmatively Furthering Fair Housing* (5 points). The extent to which you propose to undertake activities designed to affirmatively further fair housing, for example:

(a) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in the sale or rental of housing or in advertising, provision of brokerage services or lending;

(b) Promoting fair housing choice through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(c) Providing housing mobility counseling services.

Rating Factor 4: Leveraging Resources (10 points)

This factor addresses your ability to secure community resources, which can be combined with HUD program funds to achieve program objectives.

In evaluating this factor, HUD will consider the extent to which you have established partnerships with other entities to secure additional resources to increase the effectiveness of the proposed activities. Resources may include funding or in-kind contributions, such as services or equipment. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities. You may also establish partnerships with other program funding recipients to coordinate the use of resources in the target area.

You may count overhead and other institutional costs (e.g., salaries) that are waived as leveraging. However, higher points will be awarded if you secure leveraging resources from sources outside your institution.

You must provide letters or other documentation showing the extent and firmness of commitments of leveraged funds (including your own resources) in order for these resources to count in determining points under this factor. Any resource for which there is no commitment letter will not be counted, nor will the resource be counted without the proposed level of commitment being quantified. If your application does not include evidence of leveraging, it will receive zero (0) points for this Factor.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (20 points)

This factor addresses the extent to which you have coordinated your activities with other known organizations, participate or promote participation in a community's Consolidated Planning process, and are working towards addressing a need in a holistic and comprehensive manner through linkages with other activities in the community. For specific information about your locality's process, contact the local Community Development Agency or the local HUD field office. If you propose to work in a Community Development Block Grant (CDBG) non-entitlement jurisdiction, you will only need to address subfactors (1) and (3).

In evaluating this factor, HUD will consider the extent to which you demonstrate that you have:

(1) Coordinated your proposed activities with those of other groups or organizations prior to submission in order to best complement, support, and coordinate all known activities and, if funded, the specific steps you will take to share information on solutions with others. Any written agreements, memoranda of understanding in place, or that will be in place after award, should be described.

(2) Taken or will take specific steps to become active in the community's Consolidated Planning process (including the Analysis of Impediments to Fair Housing Choice) established to identify and address a need/problem that is related to the activities you propose.

(3) Taken or will take specific steps to develop linkages to coordinate comprehensive solutions through meetings, information networks, planning processes or other mechanisms with:

(a) Other HUD-funded projects/activities outside the scope of those covered by the Consolidated Plan; and

(b) Other Federal, State or locally-funded activities, including those proposed or ongoing in the community.

(4) *Institutionalization of Project Activities.* The extent to which your project will result in the kinds of proposed activities being sustained by becoming part of the mission of your institution. In reviewing this subfactor, HUD will consider the extent to which program activities relate to your institution's mission; demonstrate support and involvement of the institution's executive leadership; are linked by a formal organizational structure to other units related to outreach and community partnerships; are reflected in budget and planning documents; are part of a climate that rewards faculty work on these kinds of activities through promotion and tenure; benefit students because they are part of a service learning program at your institution; and are reflected in the curriculum. HUD will look at your monetary and non-monetary commitments to faculty and staff continuing work in the target area or other similar areas and to your longer term commitment (five years after the start of the grant) of hard dollars to similar work. If you have previously received an HSIAC grant, you must describe the progress your institution has made since you received the HSIAC grant in institutionalizing your project activities.

(C) *Selections.* In order to be funded, you must receive a minimum score of 70 points. HUD will fund applications in rank order, until it has awarded all available funds. If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 4, Leveraging, shall be selected. A minimum of two applications which include colonias projects will be funded if they receive a minimum score of 70 points.

(1) *Disclosures.* HUD will make available to the public for 5 years all applicant disclosure reports (HUD Form 2880) submitted in connection with this SuperNOFA. Update reports (update information also reported on Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period less than 3 years. All reports—both applicant disclosures and updates—will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR part 5.

(2) *Publication of Recipients of HUD Funding.* HUD's regulations at 24 CFR 4.7 provide that HUD will publish a notice in the **Federal Register** to notify the public of all decisions made by the Department to provide:

(i) Assistance subject to section 102(a) of the HUD Reform Act; or

(ii) Assistance that is provided through grants or cooperative agreements on a discretionary (non-formula, non-demand) basis, but that is not provided on the basis of a competition.

(3) *Section 103 HUD Reform Act.* HUD's regulations implementing section 103 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3537a), codified in 24 CFR part 4, subpart B, apply to this funding competition. The regulations continue to apply until the announcement of the selection of successful applicants. HUD employees involved in the review of applications and in the making of funding decisions are limited by the regulations from providing advance information to any person (other than an authorized employee of HUD) concerning funding decisions, or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance in this competition should confine their inquiries to the subject areas permitted under 24 CFR part 4.

(4) *Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the above-mentioned **Federal Register** notice, and for not less than 120 days after awards for assistance are announced, HUD will provide a debriefing to any applicant requesting a debriefing on their application. All requests for debriefings must be made in writing. Materials provided to you during your debriefing will include the final scores you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

HUD will not fund specific proposed activities that do not meet eligibility requirements (see 24 CFR part 570, subpart C) or do not meet a national objective in accordance with 24 CFR 570.208.

HUD reserves the right to make selections out of rank order to provide for geographic distribution of funded HSIACs. If HUD decides to use this option, it will do so only if two adjacent

VOL
67
ISS

2002
UMI

HUD regions do not yield at least one fundable HSIAC on the basis of rank order. If this occurs, HUD will fund the highest ranking applicant within the two regions as long as the minimum score of 70 points is achieved.

After all application selections have been made, HUD may require that you participate in negotiations to determine the specific terms of the Statement of Work and the grant budget. In cases where HUD cannot successfully complete negotiations, or you fail to provide HUD with requested information, an award will not be made. In such instances, HUD may elect to offer an award to the next highest ranking applicant, and proceed with negotiations with that applicant.

V. Application Submission Requirements

You should include an original and two copies of the items listed below. In order to be able to recycle paper, please do not submit applications in bound form; binder clips or loose leaf binders are acceptable. Also, please do not use colored paper. Please note the page limits for some of the items listed below and do not exceed them.

Your application must contain the items listed in this section. These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the "non-standard forms" can be found as Appendix A to this program section of the SuperNOFA. The items are as follows:

(A) *SF–424*, Application for Federal Assistance.

(B) *HUD–424M*, Federal Assistance Funding Matrix.

(C) *Transmittal Letter*, signed by the Chief Executive Officer of your institution or his or her designee. If a designee signs, your application must include the official designation of signatory authority.

(D) *Abstract/Executive Summary* (one page limit) describing the goals and activities of the project.

(E) *Narrative Statement Addressing the Factors for Award.* (50 page limit, including tables, and maps, but not including any letters of commitment and budget forms) (Please note that although submitting pages in excess of the page limit will not disqualify your application, HUD will not consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.). For FY 2002, the statement of work and the budget are now part of Factor 3, Soundness of Approach.

(1) The Statement of Work incorporates all activities to be funded in your application and details how your proposed work will be accomplished. For each proposed activity, your Statement of Work must:

(a) Arrange the presentation of major related activities (e.g., rehabilitation of a child care center, provision of tutoring services), summarize each activity, identify the primary persons (as described in addressing Rating Factor 1) involved in carrying out the activity and accountable for the deliverables, and delineate the major tasks involved in carrying it out. You should also describe how each activity meets a CDBG national objective.

(b) Indicate the sequence in which tasks are to be performed, noting areas of work that must be performed simultaneously. The sequence, duration, and the products to be delivered should be presented in six month intervals, up to 24 months.

(c) Identify the specific numbers of quantifiable intermediate and end products and objectives (e.g., the number of houses of be rehabilitated, the number of people to be trained, the number of minority businesses started, etc.) you aim to deliver by the end of the grant period as a result of the work performed.

(2) The budget presentation should he consistent with the Statement of Work and include:

(a) A budget by activity, using Form HUD–30004 included in the application kit and in the program area section of the SuperNOFA. This form separates the Federal and non-Federal costs of each program activity. Particular attention should be paid to accurately estimating costs; determining the necessity for and reasonableness of costs; and correctly computing all budget items and totals.

(b) A narrative statement of how you arrived at your costs, for any line item over $5,000. Indirect costs must be substantiated and the rate must have been approved by the cognizant Federal agency. If you are proposing to undertake rehabilitation of residential, commercial, or industrial structures or acquisition, construction, or installation of public facilities and improvements, you must submit reasonable costs supplied by a *qualified* entity other than your institution. Guidance for securing these estimates can be obtained from the CPD Director in your HUD field office or from your local government.

(c) A statement of compliance with the 20 percent limitation on "Planning and Administration" costs.

(3) Your narrative statement addressing the factors for award should address all factors for award. You should number the narrative in accordance with each factor and subfactor. (Please note that although submitting pages in excess of the page limit will not disqualify your application, HUD will not consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.) In addressing Factor 4, for each leveraging source, cash or in kind, you must submit a letter, dated no earlier than the date of this SuperNOFA, from the provider on the provider's letterhead that addresses the following:

- The dollar amount or dollar value of the in-kind goods and/or services committed. For each leveraging source, the dollar amount in the commitment letter must be consistent with the dollar amount you indicated in the Budget;
- How the leveraging amount is to be used;
- The date the leveraging amount will be made available and a statement that it will be for the duration of the grant period;
- Any terms and conditions affecting the commitment, other than receipt of a HUD HSIAC Grant; and
- The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services. (See the application kit and the program area section of the SuperNOFA for a sample commitment letter.)

(G) *Certifications.*

(1) SF–424B, Assurances for Non-Construction Programs.

(2) HUD–50071, Certification of Payments to Influence Certain Federal Transactions;

(3) SF–LLL, Disclosure of Lobbying Activities (if applicable);

(4) HUD–2880, Applicant/Recipient Disclosure/Update Form;

(5) HUD–50070, Certification of Drug-Free Workplace;

(6) HUD–2992, Certification Regarding Debarment and Suspension;

(7) HUD–2991, Certification of Consistency with the Consolidated Plan; and

(8) HUD–2990, Certification of Consistency with the RC/EZ/EC Strategic Plan (if applicable);

(H) *Acknowledgment of Receipt of Applications (HUD–2993).* If you wish to confirm that HUD received your application, please complete this form. This form is optional.

(I) *Client Comment and Suggestions (HUD–2994).* If you wish to offer comments on the HSIAC NOFA of this SuperNOFA or the SuperNOFA process, please complete this form. This form is optional.

You may not submit appendices or general support letters or resumes. If you submit letters of leveraging commitment, they must be included in your response to Factor 4. If you submit other documentation, it must be included with the pertinent factor responses (taking note of the page limit).

VI. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VII. Environmental Requirements

Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance under this program, in accordance with 24 CFR part 50. The results of the environmental review may require that your proposed activities be modified or that your proposed sites be rejected. You are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties prior to HUD approval of specific properties or areas. Your application constitutes an assurance that your institution will assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair, or construct property and not commit or expend HUD or local funds for these program activities with respect to any eligible property until HUD approval of the property is received. In supplying HUD with environmental information, you should use the same guidance as provided in the HUD Notice CPD–99–01 entitled "Field Environmental Review Processing for HUD Colonias Initiative (HCI) Grants" issued January 27, 1999.

VIII. Authority

This program was approved by the Congress under the section 107 of the CDBG appropriation for Fiscal Year 2001, as part of the FY 2001 HUD Appropriations Act. HSIAC is being implemented through this program section of the SuperNOFA and the policies governing its operation are contained herein.

Appendix A

The non-standard forms, which follow, are required for your HSIAC application.

The information collection requirements contained in this notice of funding availability and application kit will be used to rate applications, determine eligibility, and establish grant amounts for the Hispanic-Serving Institutions Assisting Communities (HSIAC) program. Total public reporting burden for collection of this information is estimated to average 80 hours. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The information submitted in response to the notice of funding availability for the HSIAC program is subject to the disclosure requirements of the Department of Housing and Urban Development Reform Act of 1989 (Pub.L. 101-235, approved December 15, 1989, 42 U.S.C. 3545). The agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

2002
UMI

FUNDING AVAILABILITY FOR THE ALASKA NATIVE/NATIVE HAWAIIAN INSTITUTIONS ASSISTING COMMUNITIES PROGRAM (AN/NHIAC)

PROGRAM OVERVIEW

Purpose of the Program. To assist Alaska Native/Native Hawaiian institutions of higher education (AN/NHIs) expand their role and effectiveness in addressing community development needs in their localities, consistent with the purposes of Title I of the Housing and Community Development Act of 1974, as amended.

Available Funds. Approximately $4 million plus $2.2 million in previously unexpended FY 2001 funds, to be divided evenly between Alaska Native institutions of higher education (ANIs) and Native Hawaiian institutions of higher education (NHIs).

Eligible Applicants: Only nonprofit Alaska Native and Native Hawaiian institutions of higher education that meet the definitions of Alaska Native and Native Hawaiian institutions of higher education established in Title III, Part A, Section 317 of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1998 (Pub.L. 105–244; enacted October 7, 1998).

Application Deadline. June 20, 2002

Match. None.

ADDITIONAL INFORMATION

If you are interested in applying for funds under the Alaska Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC) Program, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Your completed application is due on or before June 20, 2002, at HUD Headquarters.

Application Submission Procedures. New Security Procedures. In response to the terrorist attacks in September 2001 HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped by the following delivery services: United Parcel Service (UPS), Fed EX, DHL, or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date, when you submitted your application to the US Postal Service. The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application die date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by not later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, Fed EX, and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not service your area you should submit your application via the US Postal Service.

Address for Submitting Applications. Your completed application consists of an original signed application and two copies. Submit your completed application to the following address: Processing and Control Branch, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7251, Washington, DC, 20410. When submitting your application, please refer to AN/NHIAC and include your name, mailing address (including zip code) and telephone number (including area code).

For ANIs, HUD only will accept one application per campus. For NHIs, HUD will accept one application per institution. If your institution submits more than one application per campus (for ANIs) or more than one application per institution (for NHIs), HUD will ask you to identify which application you want evaluated. Only one application may be evaluated. If you do not respond within the stipulated cure period (see Section V of the General Section of this SuperNOFA), all of your applications will be disqualified. You should take this policy into account and take steps to ensure that multiple applications are not submitted.

For Application Kits. For an application kit and any supplemental material, you should call the SuperNOFA Information Center at 1–800–HUD–8929 (toll free). If you have a hearing or speech impairment, please call the Center's TTY number at 1–800–HUD–2209. When requesting an application kit, you should refer to AN/NHIAC Program and provide your name and address (including zip code) and telephone number (including area code). You may also access the application on the Internet through the HUD web site at www.hud.gov.

For Further Information and Technical Assistance. You may call Armand Carriere of HUD's Office of University Partnerships at 202–708–3061, extension 3181. If you have a hearing or speech impairment, you may access this number via TTY by calling the Federal Information Relay Service toll-free at 1–800–877–8339. You may also write to Mr. Carriere via email at Armand_W._Carriere@hud.gov.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at http://www.hud.gov.

II. Amount Allocated

Approximately $ 4 million in FY 2002 funds and $2.2 million in previously unexpended FY 2001 funds is being made available under this SuperNOFA for AN/NHIAC. Of this amount, $ 3.1 million is being made available for Alaska Native institutions (ANIs) of higher education and $ 3.1 million is being made available for Native Hawaiian institutions of higher education (NHIs). The performance period of 36 months will commence on the effective date of the grant agreement. The maximum amount which can be requested and awarded to a particular Alaska Native institution of higher education is $600,000. The maximum amount which can be requested and awarded to a particular Native Hawaiian institution of higher education is $3 million with each application composed of no more than five separate projects, each in a different neighborhood. Each separate project can be for no more than $600,000

Since the Statement of Work and other facets of the technical review are assessed in the context of the proposed budget and grant request, and in the interest of fairness to all applicants, if you are an ANI and submit an

VOL 67 ISS 58 MR 26 2002 UMI

application requesting more than $600,000 in HUD funds, it will be ruled ineligible. If you are an NHI and you submit an application for more than $3 million, it will be ruled ineligible. If you are an NHI and you submit an application in which you request more than $600,000 for any one project, that particular project will be ruled ineligible. HUD reserves the right to make awards for less than the maximum amount or less than the amount requested in your application.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* The purpose of AN/NHIAC is to assist AN/NHIs to expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development.

(1) For the purposes of this program, the term "locality" includes any city, county, township, parish, village, or other general political subdivision of a State within which your AN/NHI is located.

(2) A "target area" is the locality or the area within the locality in which your institution will implement its proposed HUD grant.

(B) *Eligible Applicants.* Only if your institution is a nonprofit institution of higher education and meets the statutory definition of either an Alaska Native institution of higher education or a Native Hawaiian institution of higher education, as contained in Title III, Part A, Section 317 of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1998 (Pub.L. 105–244) are you eligible to apply. If you are an Alaska Native institution of higher education, in order for you to meet this definition, at least 20 percent of your undergraduate headcount enrollment must be Alaska Native students. If you are a Native Hawaiian institution of higher education, in order to meet this definition at least 10 percent of your undergraduate headcount enrollment must be Native Hawaiian students. You are not required to be on a list of eligible AN/NHIs prepared by the U.S. Department of Education. However, if you are not, you will be required to certify in the application that you meet the statutory definition. If you are an ANI and received a grant in FY 2001, you are not eligible to submit an application in FY 2002. If you are an NHI and received a grant in FY 2001, you are not permitted to submit an application for the same specific project in a different neighborhood, another project in the same neighborhood, or another project with the same project director as the project funded in FY 2001.

If you are an ANI and your institution has multiple campuses, each one is eligible to apply separately, as long as it meets the above enrollment test. You may undertake as many projects and activities as you want, as long as you do not exceed the $600,000 cap for an application. If you are an NHI, you are permitted to submit only one application, no matter how many separate campuses you have, as long as your institution meets the above enrollment test. You may undertake up to five separate projects, each in a different neighborhood, with each project requesting no more than $600,000. In your application you must describe how each project is separate and distinct; how your proposed activities relate to that project; and that each project will not rely on any part of another project for its successful completion. A project can include one or more of the eligible activities listed below. For example, if you propose a homeownership project, you might rehabilitate housing in a neighborhood, demolish some structures to create spaces for lawns, and provide a loan pool for purchasers of this housing. All these activities could still be viewed as one project. You might also undertake a job training program for welfare-to-work families by rehabilitating a warehouse and offering the job training there. These activities could also be viewed as one project. But if you proposed to create a homeownership loan program and a job training program, these activities would be viewed as two separate projects. Your institution could undertake both, but they would have to be in two different neighborhoods.

(C) *Eligible Activities.* (1) *General.* Each activity you propose for funding must meet both a Community Development Block Grant Program (CDBG) national objective and the CDBG eligibility requirements. A discussion of the national objectives can be found at 24 CFR 570.208. Each activity that may be funded under this SuperNOFA for the Alaskan Native/Native Hawaiian program must meet one of the three national objectives of the CDBG program which are:

(a) Benefit to low- and moderate-income persons;

(b) Aid in the prevention or elimination of slums or blight; or

(c) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community, and other financial resources are not available to meet such needs. (You must ensure that of your aggregate grant expenditures under paragraphs (a), (b), and (c) above at least 51% are for activities benefiting low- and moderate-income persons).

Criteria for determining whether an activity addresses one or more of these objectives are provided at 24 CFR 570.208.

The CDBG publication entitled "CDBG Guide to National Objectives and Eligible Activities for Entitlement Communities" discusses the regulations. You can obtain a copy from the SuperNOFA Information Center. If you propose an activity which otherwise is eligible, it may not be funded if State or local law requires that it be carried out by a governmental entity.

In addition, you may not propose the construction or rehabilitation of your institution's facilities unless you can demonstrate that such activities would meet the purpose of this program to expand the role and effectiveness of an AN/NHI in its locality. HUD will scrutinize proposed activities for eligibility. As examples of eligible and ineligible on-campus activities, rehabilitating a library for use by your students would not be an eligible activity, but rehabilitating it to convert it to a micro-business enterprise center for the community would be; another example, just undertaking your normal activities (e.g., offering English as a Second Language class) would not be considered eligible activities because they would not expand your role and effectiveness in community development activities. You should call Armand Carriere at 202 708–3061 extension 3181 if you have any questions about the eligibility of any activities you may propose. You may also look at the Office of University Partnerships website at www.oup.org for summaries of winners under the Hispanic-serving Institutions Assisting Communities program, a program very similar to this one.

(2) *Examples of Eligible Activities.* Examples of activities that generally can be carried out with these funds, under one of the three national objectives, include, but are not limited to:

(a) Acquisition of real property;

(b) Clearance and demolition;

(c) Rehabilitation of residential structures to increase housing opportunities for low- and moderate-income persons and rehabilitation of commercial or industrial buildings to correct code violations or for certain other purposes, e.g., making accessibility and visitability modifications to housing;

(d) Direct homeownership assistance to low- and moderate-income persons, as provided in section 105(a)(25) of the Housing and Community Development Act of 1974;

(e) Acquisition, construction, reconstruction, rehabilitation, or installation of public facilities and improvements, such as water and sewer facilities and streets;

(f) Relocation payments and other assistance for temporarily and permanently relocated individuals, families, businesses, and non-profit organizations where the assistance is (i) required under the provision of 24 CFR 570.606(b) or (c); or (ii) determined by your institution to be appropriate under the provisions of 24 CFR 570.606 (d).

(g) Lead-based paint hazard reduction, pursuant to the CDBG regulations;

(h) Special economic development activities described at 24 CFR 570.203, including activities designed to promote training and employment opportunities;

(i) Assistance to facilitate economic development by providing technical assistance or financial assistance for the establishment, stabilization, and expansion of microenterprises, including minority enterprises;

(j) Assistance to community-based development organizations (CBDO) to carry out a CDBG neighborhood revitalization, community economic development, or energy conservation project, in accordance with 24 CFR 570.204. This could include activities in support of a HUD approved local CDBG Neighborhood Revitalization Strategy (NRS) or HUD approved State CDBG Community Revitalization Strategy (CRS);

(k) Eligible public service activities. Up to 15 percent of the grant can be used for public service activities. Examples include:

(i) Work study programs that meet the program requirements of the Hispanic-serving Institutions Work Study program, which can be found at 24 CFR 570.416;

(ii) Outreach and other program activities as described in the Community Outreach Partnership Centers Program section of the SuperNOFA;

(iii) Educational activities including English as a Second Language (ESL) classes, adult basic education classes, GED preparation and testing, and curriculum development of courses that will lead to a certificate or degree in community planning and development;

(iv) Job and career counseling assessment, training, and other activities designed to promote employment opportunities, not related to special economic development activities;

(v) Capacity building for community organizations;

(vi) Social and medical services for youths, adults, senior citizens, and the homeless;

(vii) Fair housing services designed to further the fair housing objectives of the Fair Housing Act (42 U.S.C. 3601–20) by making all persons, without regard to race, color, religion, sex, national origin, familial status and/or disability aware of the range of housing opportunities available to them; (viii) Day care centers;

(ix) Continuum of care services for the homeless;

(x) Public access telecommunications centers including Twenty/20 Education Communities (formerly known as Campus of Learners) and Neighborhood Networks;

(xi) Activities to use HUD's Partnership for Advancing Technology in Housing (PATH) technology;

(l) Administrative Costs. Up to 20% of your grant for program administration costs related to the planning and execution of community development activities assisted in whole or in part with grant funds. Pre-award planning costs may not be paid out of grant funds.

(D) Ineligible CDBG Activities are listed at CFR 570.207.

IV. Program Requirements

(A) Executive Order 12372, Intergovernmental Review of Federal Programs. You must comply with this Executive Order. Please refer to Section VII(C) of the General Section for details.

(B) *Leveraging.* Although a match is not required to qualify for funding, if you claim leveraging from any source, including your own institution, you must provide letters or other documentation evidencing the extent and firmness of commitments of leveraging from other Federal (e.g., Americorps Programs), State, local, and/or private sources (including the applicant's own resources). These letters or documents must be dated no earlier than the date of this published SuperNOFA. Potential sources of leveraging assistance include your own institution (for both direct and indirect costs); State and local governments; housing authorities; local or national nonprofit organizations; banks and private businesses; foundations; and faith-based and other community based organizations.

(C) *Affirmatively Furthering Fair Housing.* Please see Section II(D) of the General Section of this SuperNOFA.

(D) *Employment of local area residents (Section 3).* Please see Section II(E) of the General Section of this SuperNOFA. The requirements are applicable to certain activities that may be funded under this program section of the SuperNOFA.

(E) *Labor Standards.* If you are awarded a grant, you must comply with the labor standards (Davis-Bacon) as found at 24 CFR 570.603.

(F) *OMB Circulars.* Your grant will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and other Nonprofit Organizations), OMB Circular A–21 (Cost Principles for Education Institutions), and OMB Circular A–133 (Audits of States, Local Governments, and Non-Profit Organizations). The application kit contains a detailed explanation of what these costs are. You can access the OMB circulars at the White House website at http://whitehouse.gov//omb/circulars/index.html.

(G) *Nondiscrimination.* In addition to the fair housing and other civil rights assurances described under Section II (B) of the SuperNOFA General Section, you must comply with Section 109 of the Housing and Community Development Act of 1974, as amended. Implementing regulations for Section 109 are found under 24 CFR 570, including, but not limited to, reporting and record-keeping requirements under 24 CFR 570.506 and 570.507.

(H) *Conducting Business In Accordance With Core Values and Ethical Standards.* HUD requires that all grantees adhere to core values and ethical business practices, as described in Section II(B)(2) of the General Section of this SuperNOFA as a condition of award.

(I) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-owned Businesses.* HUD requires grantees to take all necessary affirmative steps in contracting with small businesses, small disadvantaged businesses and women-owned businesses in conducting your work activities. Please refer to Section II.(F) of the General Section of this SuperNOFA for specific requirements.

V. Application Selection Process

HUD will conduct two types of review: a threshold review to determine applicant eligibility; and a technical review to rate the application based on the rating factors in this section.

(A) *Threshold Factors for Funding Consideration.* Under this threshold review, your application can only be considered for rating and ranking if it is in compliance with both the requirements of the General Section of the SuperNOFA and the following additional standards are met:

VOL
67
ISS
58
MR
26
2002
UMI

(1) You must be an eligible Alaska Native or Native Hawaiian institution of higher education and meet the other eligibility requirements in Section III(B) of this program NOFA;

(2) If you are an ANI, you request a Federal grant of $600,000 or less over the three-year grant period; or

(3) If you are an NHI, you request a Federal grant of $3 million or less over the three year grant period composed of no more than five separate projects, each in a different neighborhood, and each project for an award of no more than $600,000.

(4) If you are an ANI, there is only one application from your institution or a campus of your institution. If you are an NHI, there is only one application from your institution, no matter how many campuses there are.

(5) At least one of the activities in your application is eligible.

(B) *Factors for Award Used to Evaluate and Rate Applications.* The factors for rating and ranking applicants, and maximum points for each factor, are provided below. The maximum number of points for this program is 102. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (15 points)

This factor addresses the extent to which you have the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which:

(1) Knowledge and Experience (5 Points for previously funded applicants and 15 points for previously unfunded applicants) Your application demonstrates the knowledge and experience of the overall project director and staff, including the day-to-day program manager, consultants, and contractors in planning and managing the kinds of programs for which funding is being requested. Experience will be judged in terms of recent, relevant, and successful experience of your staff to undertake eligible activities. In rating this factor, HUD will consider experience within the last 5 years to be recent experience pertaining to the specific activities being relevant and experience producing specific accomplishments to be successful. The more recent the experience and the more recent the experience of your own staff members who work on the project have in successfully conducting and completing similar activities, the greater the number of points you will receive for this rating factor. The following categories will be evaluated:

(a) Undertaking specific successful community development projects with community-based organizations; and

(b) Providing proven leadership in solving community problems and have a direct bearing on the proposed activity.

(2) Past Performance (10 Points for previously funded applicants)

The extent to which you performed successfully under your previous AN/NHAIC grant(s), as measured by:

(a) Your achievement of specific measurable outcome objectives;

(b) Your leveraging of funding beyond the funds originally proposed to be leveraged for that project; and

(c) The effectiveness of your administration of any previous AN/NHAIC grants (including the timeliness and completeness of your compliance with AN/NHAIC reporting requirements and your ability to have resolved problems which presented themselves during the grant period). In addressing timeliness of reports, you should compare when your reports were due with when they were actually submitted.

Full points will be awarded for exceptional performance, which consistently meets and exceeds promised goals.

Rating Factor 2: Need/Extent of the Problem (15 points)

This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the importance of meeting the need in the target area. In responding to this factor, you will be evaluated on the extent to which you document the level of need for the proposed activities and the importance of meeting the need.

You should use statistics and analyses contained in one or more data sources that are sound and reliable. To the extent that your targeted community's Five (5) Year Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem and the urgency in meeting the need, you should include references to these documents in your response to this factor.

If your proposed activities are not covered under the scope of the Consolidated Plan and AI, you should indicate such, and use other sound data sources to identify the level of need and the urgency in meeting the need. Types of other sources include Census reports, HUD Continuum of Care gaps analysis, law enforcement agency crime reports, Public Housing Authorities' Comprehensive Plans, community needs analyses such as provided by the United Way, your institution, etc., and other sound and reliable sources appropriate for AN/NHIAC. You may also address needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements.

To the extent possible, the data you use should be specific to the area where the proposed activities will be carried out. You should document needs as they apply to the area where the activities will be targeted, rather than the entire locality or State, unless the target area is the entire locality or State.

Rating Factor 3: Soundness of Approach (40 points)

This factor addresses the quality and cost-effectiveness of your proposed work plan and your actions regarding HUD's priorities and Affirmatively Furthering Fair Housing.

(1) *Quality of the Work Plan* (35 Points). This factor includes your Statement of Work and Budget

(a) *Specific Services and/or Activities* (12 Points). Specifically, HUD will consider the extent to which your proposed activities will:

(i) Expand the role of your institution in its community;

(ii) Alleviate and/or fulfill the needs identified in Factor 2;

(iii) Relate to and not duplicate other activities in the target area.

(iv) Involve and empower the citizens of the target area, targeting specifically faith-based and other community-based grassroots organizations, in all stages of the proposed project (particularly through a committee that is representative of the target community, to guide the project); and

(v) Be disseminated to a wide variety of audiences, both academic and community-based, using a wide variety of media, including print and Internet technology.

(b) *Work Plan Impact* (12 Points). HUD will consider the feasibility of success of your program, the measurable objectives, and how timely your products will be delivered. Specifically, HUD will examine the extent to which:

(i) The project you propose can be completed within the two-year grant period; and

(ii) The objectives are measurable (e.g., the number of loans made, the number of jobs created), result in measurable improvement to the community (e.g., fifteen more homeowners, twenty more jobs in a specific field), and how well you demonstrate that these objectives will be achieved by your proposed management plan and team and will result directly from your activities.

(c) *Involvement of the Faculty and Students* (5 points). The extent to which your application proposes to involve your students and faculty, as part of their coursework in outreach and applied research activities. HUD's goal is to encourage you to fund activities similar to those eligible under the COPC program to be undertaken as a complement to those proposed in your AN/NHIAC application.

(d) *HUD Priorities* (6 points). The extent to which your application will further and support the following priorities of HUD. The quality of the response you provide to one or more of HUD's priorities will determine the score you receive. You will receive one point for each policy priority addressed, up to a total of 6 points. For a fuller explanation of each policy priority, please refer to Section VI. of the General Section of this SuperNOFA

(i) Encouraging Accessible Design Features

(ii) Improving Computer Access, Literacy, and Employment Opportunities

(iii) Providing Full and Equal Access to Faith Based and Other Community Based Organizations in HUD Program Implementation.

(iv) Ensuring that Programs are Accountable for the Promises Made and the Actions Taken.

(v) Increasing Homeownership Opportunities for Low- and Moderate-Income Persons, Persons with Disabilities and the Elderly, and Minorities and Families where English may be a second language

(vi) Improving the Quality of Public Housing and Providing More Choices for its Residents.

(2) *Affirmatively Furthering Fair Housing* (5 points). The extent to which you propose to undertake activities designed to affirmatively further fair housing, for example:

(a) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in the sale or rental of housing or in advertising, provision of brokerage services or lending;

(b) Promoting fair housing choice through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(c) Providing housing mobility counseling services.

Rating Factor 4: Leveraging Resources (10 points)

This factor addresses your ability to secure community resources, which can be combined with HUD program funds to achieve program objectives.

In evaluating this factor, HUD will consider the extent to which you have established partnerships with other entities to secure additional resources to increase the effectiveness of the proposed activities. Resources may include funding or in-kind contributions, such as services or equipment. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities. You may also establish partnerships with other program funding recipients to coordinate the use of resources in the target area.

You may count overhead and other institutional costs (e.g., salaries) that are waived as leveraging. However, higher points will be awarded if you secure leveraging resources from sources outside the institution.

You must provide letters or other documentation showing the extent and firmness of commitments of leveraged funds (including your own resources) in order for these resources to count in determining points under this factor. Any resource for which there is no commitment letter will not be counted, nor will the resource be counted without the proposed level of commitment being quantified. If your application does not include evidence of leveraging, it will receive zero (0) points for this Factor.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (20 points)

This factor addresses the extent to which your project will result in activities that are coordinated with other agencies in the community and can be sustained as part of the mission of your institution.

(1) Coordinated your proposed activities with those of other groups or organizations prior to submission in order to best complement, support, and coordinate all known activities and, if funded, the specific steps you will take to share information on solutions with others. Any written agreements, memoranda of understanding in place, or that will be in place after award, should be described.

(2) Taken or will take specific steps to become active in the community's Consolidated Planning process (including the Analysis of Impediments to Fair Housing Choice) established to identify and address a need/problem that is related to the activities you propose.

(3) Sustainability/Institutionalization of Project Activities. The extent to which your project will result in activities that can be sustained as part of the mission of your institution. In reviewing this subfactor, HUD will consider the extent to which program activities relate to your institution's mission, benefit students because they are part of a service learning program at your institution, and are reflected in the curriculum. HUD will look at your monetary and non-monetary commitments of faculty and staff continuing work in the target area or other areas facing similar challenges, and to your longer term commitment (five years after the start of the grant) of hard dollars to similar work.

(C) *Selections.* For ANI applications, each application will be reviewed and rated based on these selection criteria. For NHI applicants, each project in an application will be reviewed and rated separately. If you are an ANI, you must receive a score of at least 70 points on your application in order to be eligible for funding. If you are an NHI, you must receive a score of at least 70 points for a project in order for that project to be eligible for funding. HUD will fund applications (for ANIs) or projects (for NHIs) in rank order, until it has awarded all available funds. HUD will rank and select applications from Alaska Native institutions and Native Hawaiian institutions separately. If, within either of these two categories, two or more applications (for ANIs) or projects (for NHIs) have the same number of points, the application (for ANIs) or project (for NHIs) with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application (for ANIs) or project (for NHIs) with the most points for Factor 4, Leveraging, shall be selected. If all the funds in one category are not awarded, they cannot be transferred to the other category.

HUD will not fund specific proposed activities that do not meet eligibility requirements (see 24 CFR part 570, subpart C), or do not meet a national objective in accordance with 24 CFR 570.208.

After all application selections have been made, HUD may require that you participate in negotiations to determine the specific terms of the Statement of Work and the grant budget. In cases where HUD cannot successfully complete negotiations, or you fail to provide HUD with requested information, an award will not be made. In such instances, HUD may elect to

VOL
67
ISS
58
MR
26
2002
UMI

offer an award to the next highest ranking applicant, and proceed with negotiations with that applicant.

(1) *Disclosures.* HUD will make available to the public for 5 years all applicant disclosure reports (HUD Form 2880) submitted in connection with this SuperNOFA. Update reports (update information also reported on Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period less than 3 years. All reports—both applicant disclosures and updates—will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR part 5.

(2) *Publication of Recipients of HUD Funding.* HUD's regulations at 24 CFR 4.7 provide that HUD will publish a notice in the **Federal Register** to notify the public of all decisions made by the Department to provide:

(i) Assistance subject to section 102(a) of the HUD Reform Act; or

(ii) Assistance that is provided through grants or cooperative agreements on a discretionary (non-formula, non-demand) basis, but that is not provided on the basis of a competition.

(3) *Section 103 HUD Reform Act.* HUD's regulations implementing section 103 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3537(a), codified in 24 CFR part 4, subpart B, apply to this funding competition. The regulations continue to apply until the announcement of the selection of successful applicants. HUD employees involved in the review of applications and in the making of funding decisions are limited by the regulations from providing advance information to any person (other than an authorized employee of HUD) concerning funding decisions, or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance in this competition should confine their inquiries to the subject areas permitted under 24 CFR Part 4.

(4) *Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the above-mentioned **Federal Register** notice, and for not less than 120 days after awards for assistance are announced, HUD will provide a debriefing to any applicant requesting a debriefing on their application. All requests for debriefings must be made in writing. Materials provided to you during your debriefing will include the final scores you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

VI. Application Submission Requirements

You should include an original and two copies of the items listed below. In order to be able to recycle paper, please do not submit applications in bound form; binder clips or loose leaf binders are acceptable. Also, please do not use colored paper. Please note the page limits for some of the items listed below and do not exceed them.

Your application must contain the items listed in this section. These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the "non-standard forms" can be found as Appendix A to this program section of the SuperNOFA. The items are as follows:

(A) *SF–424,* Application for Federal Assistance.

(B) *HUD–424M,* Federal Assistance Funding Matrix.

(C) *Transmittal Letter,* signed by the Chief Executive Officer of your institution or his or her designee. If a designee signs, your application must include the official designation of signatory authority. If you are an NHI, this letter should cover your entire application, no matter how many projects are proposed.

(D) *Abstract/Executive Summary* (one page limit for ANIs and three pages for NHIs) describing the goals and activities of the project. If you are an NHI, the abstract should cover your entire application, no matter how many projects are proposed.

(E) *Narrative Statement Addressing the Factors for Award.* (If you are an ANI, there is a 50 page limit including tables and maps, but not including any letters of commitment or budget forms. If you are an NHI, there is a 50 page limit for each separate project, including tables and maps, but not including any letters of commitment or budget forms, with each project responding to all of the Narrative Statement Addressing the Factors for Award Requirements (Please note that although submitting pages in excess of the page limit will not disqualify your application, HUD will not consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.) For FY 2002, the Statement of Work and the Budget are now part of Factor 3, Soundness of Approach.

(1) The Statement of Work incorporates all activities to be funded in your application and details how your proposed work will be accomplished. For each proposed activity, your Statement of Work must:

(a) Arrange the presentation of major related activities (e.g., rehabilitation of a child care center, provision of tutoring services), summarize each activity, identify the primary persons (as described in addressing Rating Factor (1) involved in carrying out the activity and accountable for the deliverables, and delineate the major tasks involved in carrying it out. You should also describe how each activity meets a CDBG national objective.

(b) Indicate the sequence in which tasks are to be performed, noting areas of work that must be performed simultaneously. The sequence, duration, and the products to be delivered should be presented in six-month intervals, up to 36 months.

(c) Identify the specific numbers of quantifiable intermediate and end products and objectives (e.g., the number of houses to be rehabilitated, the number of people to be trained, the number of minority businesses started, etc.) you aim to deliver by the end of the grant period as a result of the work performed.

(2) The budget presentation should be consistent with the Statement of Work and include:

(a) A budget by activity, using Form HUD–30005 included in the application kit and in the program area section of the SuperNOFA. This form separates the Federal and non-Federal costs of each program activity. Particular attention should be paid to accurately estimating costs; determining the necessity for and reasonableness of costs; and correctly computing all budget items and totals.

(b) A narrative statement of how you arrived at your costs, for any line item over $5,000. Indirect costs must be substantiated and the rate must have been approved by the cognizant Federal agency. If you are proposing to undertake rehabilitation of residential, commercial, or industrial structures or acquisition, construction, or installation of public facilities and improvements, you must submit reasonable costs supplied by a *qualified* entity other than your institution. Guidance for securing these estimates can be obtained from the CPD Director in your HUD field office or from your local government.

(c) A statement of compliance with the 20 percent limitation on "Planning and Administration" costs.

(3) Your narrative statement addressing the factors for award should address all factors for award. You should number the narrative in accordance with each factor and subfactor. Please do not repeat material in the Statement of Work.

In addressing Factor 4, for each leveraging source, cash or in kind, you must submit a letter, dated no earlier than the date of this SuperNOFA, from the provider on the provider's letterhead that addresses the following:

- The dollar amount or dollar value of the in-kind goods and/or services committed. For each leveraging source, the dollar amount in the commitment letter must be consistent with the dollar amount you indicated in the Budget;
- How the leveraging amount is to be used;
- The date the leveraging amount will be made available and a statement that it will be for the duration of the grant period;
- Any terms and conditions affecting the commitment, other than receipt of a HUD AN/NHIAC Grant; and
- The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services. (See the application kit and the program area section of the SuperNOFA for a sample commitment letter.) If you are an NHI, you should separate your leveraging sources by project and include the appropriate letters in the Narrative Statement for that project.

(G) *Certifications.*

(1) SF–424B, Assurances for Non-Construction Programs

(2) HUD–50071, Certification of Payments to Influence Certain Federal Transactions

(3) SF–LLL, Disclosure of Lobbying Activities (if applicable)

(4) HUD–2880, Applicant/Recipient Disclosure/Update Form

(5) HUD–50070, Certification of Drug-Free Workplace

(6) HUD–2992, Certification Regarding Debarment and Suspension

(7) HUD–2991, Certification of Consistency with the Consolidated Plan and

(8) HUD–2990, Certification of Consistency with the RC/EZ/EC Strategic Plan (if applicable)

(H) *Acknowledgment of Receipt of Applications (HUD–2993).* If you wish to confirm that HUD received your application, please complete this form. This form is optional.

(I) *Client Comments and Suggestion Form (HUD–2994).* If you wish to offer comments on the AN/NHIAC NOFA of this SuperNOFA or the SuperNOFA process, please complete this form. This form is optional.

You may not submit appendices or general support letters or resumes. If you submit letters of leveraging commitment, they must be included in your response to Factor 4. If you submit other documentation, it must be included with the pertinent factor responses (taking note of the page limit).

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance under this program, in accordance with 24 CFR part 50. The results of the environmental review may require that your proposed activities be modified or that your proposed sites be rejected. You are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties prior to HUD approval of specific properties or areas. Your application constitutes an assurance that your institution assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, lease, repair, or construct property and not commit or expend HUD or local funds for these program activities with respect to any eligible property until HUD approval of the property is received. In supplying HUD with environmental information, you should use the same guidance as provided in the HUD Handbook entitled "Field Environmental Review Processing for HUD Colonias Initiative Grants" issued January 27, 1998.

IX. Authority

This program was approved by Congress under section 107 of the CDBG appropriation for fiscal year 2002, as part of the FY 2002 HUD Appropriations Act. AN/NHIAC is being implemented through this program section of the SuperNOFA and the policies governing its operation are contained herein.

Appendix A

The non-standard forms, which follow, are required for your AN/NHIAC application.

The information collection requirements contained in this notice of funding availability and application kit will be used to rate applications, determine eligibility, and establish grant amounts for the Alaska Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC) program. Total public reporting burden for collection of this information is estimated to average 80 hours. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The information submitted in response to the notice of funding availability for the AN/NHIAC program is subject to the disclosure requirements of the Department of Housing and Urban Development Reform Act of 1989 (Pub.L. 101-235, approved December 15, 1989, 42 U.S.C. 3545). The agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

FUNDING AVAILABILITY FOR TRIBAL COLLEGES AND UNIVERSITIES PROGRAM

PROGRAM OVERVIEW

Purpose of the Program. To assist Tribal colleges and universities to build, expand, renovate, and equip their own facilities.

Available Funds. Approximately $3 million from Fiscal Year 2002 appropriation.

Eligible Applicants: Only tribal colleges and universities that meet the definition of a Tribal College or University (TCU) established in Title III of the 1998 Amendments to the Higher Education Act of 1965 (Pub. L. 105–244; enacted October 7, 1998)

Application Deadline. June 20, 2002

Match. None.

ADDITIONAL INFORMATION

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Your completed application is due on or before 5:30 PM, Eastern time, on June 20, 2002 at HUD Headquarters.

Applications Submission Procedures New Security Procedures. HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date, when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, FedEx and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Address for Submitting Applications. Your completed application consists of an original signed application and two copies of the application. Submit your completed application to the following address: Processing and Control Branch, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7251, Washington, DC 20410. When submitting your application, please refer to TCUP and include your name, mailing address (including zip code) and telephone number (including area code).

HUD will accept only one application per TCU campus for this program. If your institution has multiple campuses, each one many submit a separate application. If your institution submits more than one application, per campus, HUD will ask you to identify which application you want evaluated. Only one application will be evaluated. If you do not respond within the stipulated cure period (see Section VI below), all of your applications will be disqualified. You should take this policy into account and take steps to ensure that multiple applications are not submitted.

For Application Kits. For an application kit and any supplemental material, you should call the SuperNOFA Information Center at 1–800–HUD–8929. If you have a hearing or speech impairment, please call the Center's TTY number at 1–800–HUD–2209. When requesting an application kit, you should refer to TCUP and provide your name and address (including zip code) and telephone number (including area code). You may also access the application on the Internet through the HUD web site at www.hud.gov./grants.

For Further Information and Technical Assistance. You may contact Armand Carriere of HUD's Office of University Partnerships at 202–708–3061, extension 3181 or Sherone Ivey of the Office of Native American Programs at 202–401–7914, extension 4200. If you have a hearing or speech impairment, you may access this number via TTY by calling the Federal Information Relay Service toll-free at 1–800–877–8339. You may also write to Mr. Carriere via email at Armand_W._Carriere@hud.gov and Ms. Ivey at Sherone_E._Ivey@hud.gov.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at http://www.hud.gov.

II. Amount Allocated

Approximately $3 million in FY 2002 funds is being made available under this NOFA for TCUP.

The maximum grant period is 24 months. The performance period will commence on the effective date of the grant agreement.

The maximum amount to be requested and awarded is $400,000. Since the Statement of Work and other facets of the technical review are assessed in the context of the proposed budget and grant request, and in the interest of fairness to all applicants, if you submit an application requesting more than $400,000 in HUD funds, the application will be ruled ineligible. HUD reserves the right to make awards for less than the maximum amount or less than the amount requested in your application.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* The purpose of TCUP is to assist TCUs to build, expand, renovate, and equip their own facilities, especially those facilities that are used by or available to the larger community.

(B) *Eligible Applicants.* Only if your institution is a nonprofit institution of higher education and meets the statutory definition of a TCU in Title III of the 1998 Amendments to the Higher Education Act of 1965 (Pub. L. 105–244) are you eligible to apply. If you are one of several campuses of the same institution, you may apply separately from the other campuses as long as your campus has a separate administrative structure and budget from the other campuses.

(C) *Eligible Activities.* Each activity you propose for funding must meet one of the following national objectives:

(a) Benefit low- and moderate-income persons;

(b) Aid in the prevention or elimination of slums or blight; or

VOL
67
ISS
58
MR
26
2002
UMI

(c) Meet other community development needs having a particular urgency and other financial resources are not available to meet such needs.

You may not use any of your grant for public services, as defined in 24 CFR part 570, subpart C, § 570.201(e). You may use no more than 20 percent of your grant for planning and administrative activities, as defined in 24 CFR part 570, subpart C, § 570.206. Grant funds can only be used to build, expand, renovate, and equip facilities owned by your institution. Long-term leases of property (i.e., at least five years in duration) are considered an acceptable form of ownership under this program. Equipment can include, but is not limited to, computers, furniture, books, etc.

While community-wide use of your facility is permissible, the facility must be predominantly for the use of your institution (i.e., it must be used by your institution at least 51% of the time). The facility to be assisted must be for some activity or activities that your institution normally provides, as opposed to activities undertaken by other entities using your facility. Buildings in which your institution undertakes activities are eligible for assistance even if they do not serve those enrolled in your institution. A few examples are provided to show eligible uses of the grant. If your institution operates a small business assistance center, renovation of the facility in which the center is located would be an eligible grant activity, because the center is part of your institution even though it is not serving enrolled students. Conversely, if your institution rents space to another entity that operates a small business assistance center, renovation of the facility in which that center is located would not be an eligible grant activity, unless the space is used by your institution at least 51% of the time. As another example, you could build a new gymnasium solely for your students or propose to offer some physical education classes or other activities in the evening to the larger community. But if you proposed to build a new gymnasium, with the majority of the activities for non-students, or with the activities being primarily run by an outside entity, that would be an ineligible activity.

While you may choose to apply for a grant for any kind of college or university facility, facilities that will be used by or available to the larger community (as long as the use is still predominantly for your institution, as noted above) are eligible to receive extra points where the larger community has participated in the planning and implementation of this project. For example, in order to get these points, you could request a grant to rehabilitate a student union building that would also serve as a community meeting facility, with the community helping to plan the renovations and also helping to operate additional activities. As another example, you could expand a facility currently serving as a small business assistance center where current and potential small business owners helped design the expansion. As a third example, you could equip a computer lab where the larger community helped you identify the equipment needs and will also help in implementing workshops, etc. If you are proposing work on a facility that is solely for your institution (e.g., a dormitory or administration building), you can only get these points if you involve the community in the planning and implementation of the project. See Rating Factor 3 for more details. You should call Armand Carriere or Sherone Ivey at the above numbers if you have any questions about the eligibility of any activities you may propose.

(D) *Other Requirements.*

(1) *Leveraging.* Although a match is not required to qualify for funding, if you claim leveraging from any source, including your own institution, you must provide letters or other documentation evidencing the extent and firmness of commitments of leveraging from other Federal (e.g., Americorps Programs), State, local, and/or private sources (including the applicant's own resources). These letters or documents must be dated no earlier than the date of this published NOFA. Potential sources of leveraging assistance include your own institution (for both direct and indirect costs), tribes, the Indian housing authorities, financial institutions and private businesses, foundations, and faith-based and other institutions.

(2) *Federal Requirements.* If awarded a grant, you must comply with all Federal requirements, including the following:

(a) If your TCU is a part or instrumentality of a tribe, you must comply with the Indian Civil Rights Act (25 U.S.C. 1301 et seq.), but if your TCU is not a part or instrumentality of a tribe, you must comply with the Fair Housing Act (42 U.S.C. 3601–19) and implementing regulations at 24 CFR part 100 et seq. Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d–2000d–4) (Nondiscrimination in Federally Assisted Programs) and implementing regulations at 24 CFR part 1, and Section 109 of the Housing and Community Development Act of 1974, as amended, with respect to nondiscrimination on the basis of age, sex, religion, or disability and implementing regulations at 24 CFR part 6;

(b) The Age Discrimination Act of 1975 (42 U.S.C. 6101–6107) and implementing regulations at 24 CFR part 146, prohibiting discrimination on the basis of age;

(c) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and implementing regulations at 24 CFR part 8, prohibiting discrimination against handicapped individuals;

(d) Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) and implementing regulations at 24 CFR part 135, requiring that economic opportunities generated by certain HUD financial assistance shall, to the greatest extent feasible, be given to low- and very low-income persons and to businesses that provide economic opportunities for these persons;

(e) The disclosure requirements and prohibitions of 31 U.S.C. 1352 and implementing regulations at 24 CFR part 87;

(f) The requirements for funding competitions established by the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3531 et seq.);

(g) Nondiscrimination provisions of Section 109 and Labor standards of section 110 of the Housing and Community Development Act of 1974 (HCDA 1974)(42 U.S.C. 5301 et seq.), referenced at 24 CFR 570.602 and 570.603, respectively. However, in accordance with HCDA 1974 section 107(e)(2), the Secretary waives the provisions of HCDA 1974 section 109 and 110 with respect to this program for grants to a TCU that is a part of a tribe, i.e., a TCU that is legally a department or other part of the tribal government, but not a TCU that is established under tribal law as an entity separate from the tribal government. If your TCU is not a part of a tribe, the nondiscrimination provisions and labor standards of HCDA section 109 and 110 apply to activities under the grant to your TCU.

(4) *OMB Circulars.* Your grant will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and other Nonprofit Organizations), A–21 (Cost Principles for Education Institutions), and A–133 (Audits of States, Local Governments, and Non-Profit Organizations). The application kit contains a detailed explanation of what these costs are. You can access the OMB circulars at the White House website at http://www.whitehouse.gov/OMB/circulars.

(E) *Conducting Business In Accordance with Core Values and Ethical Standards.* HUD requires that all grantees adhere to core values and ethical business practices, as described in section II.(B)(2)) of the General Section of this SuperNOFA.

(F) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* HUD requires grantees to take all necessary affirmative steps in contracting with businesses, small disadvantaged businesses and women-owned businesses in conducting your work activities. Please refer to section II (F) of the General Section of this SuperNOFA for specific requirements.

IV. Application Selection Process

HUD will conduct two types of review: a threshold review to determine applicant eligibility; and a technical review to rate the application based on the rating factors in this section.

(A) *Threshold Factors for Funding Consideration.* Under this threshold review, your application can only be rated if it is in compliance with the requirements of this NOFA and the following additional standards are met:

(1) You must be an eligible TCU;

(2) Your application requests a Federal grant of $400,000 or less over the two-year grant period;

(3) There is only one application from your institution or a campus of your institution;

(4) At least one of the activities in your application is eligible.

In addition you must meet the following Civil Rights threshold requirements if your TCU is not a part or instrumentality of a tribe.

If you, the applicant, (1) have been charged with a systemic violation of the Fair Housing Act by the Secretary alleging ongoing discrimination; Act by the Secretary alleging ongoing discrimination; (2) are a defendant in a Fair Housing Act lawsuit by the Department of Justice alleging an ongoing pattern or practice of discrimination; or (3) Have received a letter of noncompliance findings under Title VI, Section 504 or Section 109, HUD will not rate or rank your application under this NOFA if the charge, lawsuit, or letter of findings has not been resolved to the satisfaction of the Department before the application deadline stated in this NOFA. HUD's decision regarding whether a charge, lawsuit, or letter of findings has been satisfactorily resolved will be based upon whether appropriate actions have been taken to address allegations of ongoing discrimination in the policies or practices involved in the charge, lawsuit, or letter of findings. If your TCU is a part or instrumentality of a tribe, there must be no outstanding violataions of Title II of the Civil Rights Act, which requires due process for all activities undertaken by Native American tribes.

(B) *Factors Used to Evaluate and Rate Applications.* The factors for rating and ranking applicants, and maximum points for each factor, are provided below. The maximum number of points for this program is 100. HUD has five standard factors and several subfactors that it uses for evaluating almost all of its programs. Additionally, the SuperNOFA provides for the award of up to two bonus points for applicants that propose to serve federally designated RC/EZ/ECs, as defined in paragraph III(C)(1) of the General Section of this SuperNOFA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 points)

This factor addresses the extent to which you have the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which your application demonstrates the knowledge and experience of the overall project director and staff, including the day-to-day program manager, consultants, and contractors in planning and managing the kinds of programs for which funding is being requested. More points will be awarded for this factor where the experience belongs to members of the TCU staff than where it belongs to consultants, contractors, and other staff outside your institution. In addition, more points will be awarded where the experience belongs to people who will actually work on your proposed project. Experience will be judged in terms of recent, relevant, and successful experience of your staff to undertake activities in:

(a) Developing and equipping facilities for your institution; and

(b) Working with your community on the planning and implementation of projects.

Rating Factor 2: Need/Extent of the Problem (15 points)

This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the importance of meeting this need. In responding to this factor, you will be evaluated on the extent to which you document the level of need for the proposed activities and the importance of meeting the need. You should use statistics and analyses contained in one or more data sources that are sound and reliable. To the extent possible, the data you use should be specific to the area where the proposed activities will be carried out.

Rating Factor 3: Soundness of Approach (45 points)

This factor addresses the quality and cost-effectiveness of your proposed work plan.

(a) *Specific services and/or activities* (10 Points). Specifically, HUD will consider the extent to which your proposed activities will:

(i) Meet an identified important need; and

(ii) Relate to and not duplicate other activities in the target area.

(b) *Community Involvement* (10 points). HUD will consider the extent to which you have involved the community in all stages of the proposed project.

(c) *Work Plan Impact* (10 Points). HUD will consider the feasibility of success of your program, the measurable objectives, and how timely your products will be delivered. Specifically, HUD will examine the extent to which:

(i) The project you propose can be completed within the two year grant period; and

(ii) The objectives are measurable (e.g., the number of classrooms added, the number of additional clients that can be helped in an expanded small business assistance center), result in measurable improvement to the community (e.g., fifty more people receiving computer literacy training, twenty more small businesses started, etc.), and how well you demonstrate that these objectives will be achieved by your proposed management plan and team and will result directly from your activities.

(d) *Involvement of the Faculty and Students* (10 points). The extent to which your application proposes to use students and faculty, as part of their coursework, for project activities. HUD's goal is to encourage students and faculty to be able to use this grant to enhance their education experience and assist their community at the same time.

(e) *HUD Priorities* (5 points). The extent to which your application will further and support the following priorities of HUD. The quality of the response you provide to one or more of HUD's priorities will determine the score you receive. You will receive one point for each policy priority addressed, up to a total of 5 points. For a fuller explanation of each policy priority,

VOL
67
ISS
58
MR
26
2002
UMI

please refer to Section VI. of the General Section of this SuperNOFA.

(i) Encouraging Accessible Design Features.

(ii) Improving Computer Access, Literacy, and Employment Opportunities

(iii) Providing Full and Equal Access of Faith-Based and Other Community Based Organizations in HUD Program Implementation.

(iv) Ensuring that programs are accountable for the promises made and the actions taken.

(v) Improving the Quality of Public Housing and Providing More Choices for its Residents.

Rating Factor 4: Leveraging Resources (10 points)

This factor addresses your ability to secure community resources, which can be combined with HUD program funds to achieve program objectives.

In evaluating this factor, HUD will consider the extent to which you have established partnerships with other entities to secure additional resources to increase the effectiveness of the proposed activities. Resources may include funding or in-kind contributions, such as services or equipment. Resources may be provided by governmental entities, e.g., the Tribe, the Federal government (Bureau of Indian Affairs, Department of Health and Human Services, Department of Education), etc., public or private nonprofit organizations, for-profit private organizations, or other entities. You may also establish partnerships with other program funding recipients to coordinate the use of resources in the target area.

You may count overhead and other institutional costs (e.g., salaries) that are waived as leveraging. However, higher points will be awarded if you secure leveraging resources from sources outside your institution.

You must provide letters or other documentation showing the extent and firmness of commitments of leveraged funds (including your own resources) in order for these resources to count in determining points under this factor. Commitment letters must state a dollar amount in order to earn points for this factor. If your application does not include evidence of leveraging, it will receive zero (0) points for this Factor.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 points)

This factor addresses the extent to which you have coordinated your activities with other known organizations and are working towards addressing a need in a holistic and comprehensive manner through linkages with other activities in the community.

In evaluating this factor, HUD will consider the extent to which you demonstrate that you have:

(1) Coordinated your proposed activities with those of other groups or organizations prior to submission in order to best complement, support, and coordinate all known activities and, if funded, the specific steps you will take to share information on solutions with others. Any written agreements, memoranda of understanding in place, or that will be in place after award, should be described.

(2) Taken or will take specific steps to develop linkages to coordinate comprehensive solutions through meetings, information networks, planning processes or other mechanisms with:

(a) Other HUD/ONAP-funded projects/activities; and

(b) Other Federal, State or locally-funded activities, including those proposed or ongoing in the community.

(3) Sustainability/Institutionalization of Project Activities. The extent to which your project will result in the kinds of proposed activities being sustained by becoming part of the mission of your institution. In reviewing this subfactor, HUD will consider the extent to which program activities relate to your institution's mission, benefit students because they are part of a service learning program at your institution, and are reflected in the curriculum. HUD will look at your monetary and non-monetary commitments to faculty and staff continuing work in the target area or other similar areas and to your longer term commitment (five years after the start of the grant) of hard dollars to similar work.

(C) *Selections.* In order to be funded, you must receive a minimum score of 70 points. HUD will fund applications in rank order, until it has awarded all available funds. If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 1, Capacity, shall be selected.

After all application selections have been made, HUD may require that you participate in negotiations to determine the specific terms of the Statement of Work and the grant budget. In cases where HUD cannot successfully complete negotiations, or you fail to provide HUD with requested information, an award will not be made. In such instances, HUD may elect to offer an award to the next highest ranking applicant, and proceed with negotiations with that applicant.

HUD will not fund specific proposed activities that do not meet one of the national objectives referenced in Section IIIC above. In addition, HUD reserves the right to fund less than the full amount requested in your application if any of your proposed activities is not eligible for funding under the statute creating this program.

(D) Applicant Debriefing. Beginning not less than 30 days after the awards for assistance are announced in the **Federal Register**, and for not less than 120 days after awards for assistance are announced, HUD will provide a debriefing to any applicant requesting a debriefing on their application. All requests for debriefings must be made in writing and submitted to Armand Carriere or Sherone Ivey. Materials provided to you during your debriefing will incude the final scores you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

V. Application Submission Requirements

You should include an original and two copies of the items listed below. In order to be able to recycle paper, please do not submit applications in bound form. Binder clips or loose leaf binders are acceptable. Also, please do not use colored paper. Please note the page limits for some of the items listed below and do not exceed them.

Your application must contain the items listed in this section. These items include the standard forms, certifications, and assurances found in the Appendix B to the General Section of this SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the "non-standard forms," can be found in Appendix A to this program section of the SuperNOFA. The items are as follows:

(A) SF–424, Application for Federal Assistance

(B) HUD–424M, Federal Assistance Funding Matrix

(C) Transmittal Letter

(Signed by the Chief Executive Officer of your institution or his or her designee. If someone else in your institution signs this letter, your application must include an official designation of signing authority to that person.)

(D) Abstract/Executive Summary

(One page limit) describing the goals and activities of the project.)

(E) Narrative Statement Addressing the Factors for Award

(50 page limit, including tables, and maps, but not including any letters of commitment and budget forms.)

(1) The Statement of Work incorporates all activities to be funded in your application and details how your proposed work will be accomplished. (Please note that although submitting pages in excess of the page limit will not disqualify your application, HUD will not consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.) For each proposed activity, your Statement of Work must:

(a) Present a step-by-step breakdown of the major activities for which you seek funding (e.g., rehabilitation of a business development center, construction of new classrooms), identify the primary persons (as described in addressing Rating Factor 1) involved in carrying out the activity and accountable for the deliverables, and delineate the major tasks involved in carrying it out. You should also describe how each activity meets one of the national objectives referenced in Section IIIC above.

(b) Indicate the sequence in which tasks are to be performed, noting areas of work that must be performed simultaneously. The sequence, duration, and the products to be delivered should be presented in six month intervals, up to 24 months.

(c) Identify the specific numbers of quantifiable intermediate and end products and objectives (e.g., the number of classrooms added, the number of additional clients that can be helped in an expanded small business assistance center, etc.) you aim to deliver by the end of the grant period as a result of the work performed.

(d) Provide a description of how any proposed new construction or renovation of existing facilities will comply with the accessibility requirements of Section 504 of the Rehabilitation Act of 1973 (24 CFR Part 8.21).

(2) The budget presentation should be consistent with the Statement of Work and include:

(a) A budget by activity, using Form HUD–30006 included in the application kit and Appendix B of this NOFA. This form separates the Federal and non-Federal costs of each program activity. Particular attention should be paid to accurately estimating costs; determining the necessity for and reasonableness of costs; and correctly computing all budget items and totals.

(b) A narrative statement of how you arrived at your costs, for any line item over $5,000. Indirect costs must be substantiated and the rate must have been approved by the cognizant Federal agency. If you are proposing to undertake rehabilitation of residential, commercial, or industrial structures or acquisition, construction, or installation of public facilities and improvements, you must submit reasonable costs supplied by a *qualified* entity other than your institution (e.g., an architect, engineer, construction firm, etc.).

(3) Your narrative statement addressing the factors for award should address each of the four factors for award. (Please note that although submitting pages in excess of the page limit will not disqualify your application, HUD will not consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.)

In addressing Factor 4, for each leveraging source, cash or in-kind, you must submit a letter, dated no earlier than the date of this NOFA, from the provider on the provider's letterhead that addresses the following:

(i) The dollar amount or dollar value of the in-kind goods and/or services committed. For each leveraging source, the dollar amount in the commitment letter must be consistent with the dollar amount you indicated in the Budget;

(ii) How the leveraging amount is to be used;

(iii) The date the leveraging amount will be made available;

(iv) Any terms and conditions affecting the commitment, other than receipt of a HUD TCUP Grant; and

(v) The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services. (See the application kit and Appendix B for a sample commitment letter.)

(G) *Certifications.*

(1) SF–424B, Assurances for Non-Construction Programs or SF–424D, Assurances-Construction Programs, depending on the activities you propose to undertake.

(2) HUD–50071, Certification of Payments to Influence Certain Federal Transactions;

(3) SF–LLL, Disclosure of Lobbying Activities (if applicable);

(4) HUD–2880, Applicant/Recipient Disclosure/Update Form;

(5) HUD–50070, Certification of Drug-Free Workplace;

(6) HUD–2992, Certification Regarding Debarment and Suspension.

(H) *Acknowledgment of Receipt of Applications (HUD–2993).* If you wish to confirm that HUD received your application, please complete this form. This form is optional.

(I) *Client Comment and Suggestions (HUD–2994).* If you wish to offer comments on the TCUP NOFA, please complete this form. This form is optional.

You may not submit appendices or general support letters or resumes. If you submit letters of leveraging commitment, they must be included in your response to Factor 4. If you submit other documentation, it must be included with the pertinent factor responses (taking note of the page limit).

VI. Environmental Requirements

Environmental Review. Certain eligible activities under this NOFA are categorically excluded from review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321) and are not subject to review under related laws, in accordance with 24 CFR 50.19 (b)(1), (b)(3), (b)(12), or (b)(14). Selection for award does not constitute approval of any proposed sites. If the TCUP application proposes the use of grant funds to assist any non-exempt activities, following selection for award, HUD will perform an environmental review of activities proposed for assistance under the program, in accordance with 24 CFR part 50. The results of the environmental review may require that your proposed activities be modified or that your proposed sites be rejected. You are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties prior to HUD approval of specific properties or areas. Your application constitutes an assurance that your institution will assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair, or construct property and not commit or expend HUD or local funds for these program activities with respect to any eligible property until HUD approval of the property is received. In supplying HUD with environmental information, you should use the same guidance as provided in HUD Notice CPD–99–01 entitled "Field Environmental Review Processing for HUD Colonias Initiative (HCI) Grants" issued January 27, 1999.

VII. Authority

This program was approved by the Congress under the CDBG appropriation for Fiscal Year 2001, as part of the FY 2002 HUD Appropriations Act (Public Law 107–73). TCUP is being implemented through this NOFA and the policies governing its operation are contained herein.

Appendix A

The non-standard forms, which follow, are required for your TCUP application.

Budget - Tribal Colleges and Universities Program

U.S. Department of Housing and Urban Development
Office of Policy Research and Development

OMB Approval No. 2528-0215
(exp. 10/31/2004)

Applicant should duplicate this page as necessary

The information collection requirements contained in this notice of funding availability and application kit will be used to rate applications, determine eligibility, and establish grant amounts for the Tribal Colleges and Universities Program (TCUP). Total reporting burden for collection of this information is estimated to average 80 hours. This include time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The information submitted in response to the notice of funding availability for TCUP is subject to the disclosure requirements of the Department of Housing and Urban Development Reform Act of 1989 (Pub. L. 101-235, approved December 15, 1989, U.S.C. 3545). The agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

FUNDING AVAILABILITY FOR THE FAIR HOUSING INITIATIVES PROGRAM (FHIP)

PROGRAM OVERVIEW

Purpose of the Program. To increase compliance with the Fair Housing Act (the Act) and with substantially equivalent State and local fair housing laws.

Available Funds. For FY 2002, approximately $20,250,000 is allocated to three (3) Initiatives as follows:

A. Private Enforcement Initiative (PEI) $11,825,000 million.

B. Education and Outreach Initiative (EOI) $6,325,000 million.

C. Fair Housing Organizations Initiative (FHOI) $2,100,000 million.

Eligible Applicants. Eligibility requirements are described in detail under each of the funded Initiatives and Components, set forth below, and eligible applicants may include: Qualified Fair Housing Organizations (QFHOs); Fair Housing Enforcement Organizations (FHOs); public or private for-profit or not-for-profit organizations or institutions, or other public or private entities that are working to prevent or eliminate discriminatory housing practices; faith-based community-based organizations, State and local governments or their agencies; and Fair Housing Assistance Program (FHAP) agencies (as defined in Section IV of this NOFA).

Application Deadline. May 22, 2002.

Match: No matching funds are required for the Education and Outreach or Private Enforcement Initiatives. However, sponsored organizations under FHOI must meet the requirements described in Section IV (D) below.

ADDITIONAL INFORMATION

If you are interested in applying for funding under the Fair Housing Initiatives Program (FHIP), please review carefully the General Section of this SuperNOFA (hereafter, the General Section), the FHIP Authorizing Statute (Sec. 561 of the Housing and Community Development Act of 1987, as amended) and the FHIP Regulations (24 CFR 125.103–501).

I. Application Due Date, Further Information, and Technical Assistance

A. *Application Due Date.* You must submit completed applications for all Initiatives and Components by 6 p.m., Eastern Time, on or before May 22, 2002 at HUD Headquarters building, at the address shown below.

See the General Section of this SuperNOFA for specific procedures governing the method of application submission (e.g., mailed applications, express mail, or overnight delivery). In addition, review all information on delivery services permitted into HUD Headquarters building without escort.

B. *Address for Submitting Applications.* Your application consists of an original signed application form (SF 424) and all items listed in the Checklist (See Section IV and Appendix C for all submission requirements). Submit your completed application (one original and five copies) to: FHIP SuperNOFA 2002 [Specify the Initiative/Component to which you apply], FHIP/FHAP Support Division, Office of Fair Housing and Equal Opportunity, U.S. Department of Housing and Urban Development, 451 Seventh Street, SW, Room 5224, Washington, DC 20410.

When you submit your application, please provide the following information at the front top left corner of the mailing envelope: your organization's name, name of contact person, mailing address (including zip code), telephone number (including area code), and fax number. Applicants for more than one Initiative or Component must submit six copies for each Initiative or Component for which you apply. See General Section of the NOFA for further information on Consolidated Application Submissions.

C. *For Further Information and Technical Assistance.* You may contact Myron P. Newry or Denise L. Brooks of the FHIP Division, at 202–708–0800 (this is not a toll-free number). Persons with hearing or speech impairments may contact the Division by calling 1–800–290–1617 (this is a toll-free number). Contained in Appendix A of this NOFA is a Question and Answer section, please review this for answers to some of your questions.

Satellite Broadcast. HUD will hold an information broadcast via satellite for prospective applicants to learn more about the program and preparing applications. For more information about the date and time of this broadcast, you should consult the HUD web site at http://www.hud.gov/grants.

II. Amounts Allocated

In Fiscal Year 2002, $20,250,000 was appropriated for the Fair Housing Initiatives Program. This amount is being made available on a competitive basis to eligible organizations responding to this NOFA. The amount available for each Initiative or Component and the maximum amount of funds that can be awarded for each grant are specified as follows:

(A) *Private Enforcement Initiative (PEI).* Approximately $11,825,000 million is allocated; maximum award is $275,000 per grant; project duration is 12 to 18 months.

(B) *Education and Outreach Initiative (EOI).* Approximately $6,325,000 million is allocated to the Regional/Local/Community-Based Program and a National Program. The maximum award is $100,000 for the Regional/Local/Community-Based Program and the project duration is 12 months. The maximum award for the National Program is $1,000,000 and the project duration is 12 months for the Media Campaign Component and 24 months for the Fair Housing Awareness Component. EOI has four Components: Regional/Local/Community-Based Programs:

(1) EOI—General Component. Approximately $3,500,000 million is allocated.

(2) EOI—Disability Component. Approximately $825,000 is allocated.

National Program:

(3) Media Campaign Component. Approximately $1,000,000 is allocated.

(4) Fair Housing Awareness Component. Approximately $1,000,000 is allocated.

(C) *Fair Housing Organizations Initiative (FHOI).* Approximately $2,100,000 is allocated; project duration is three years. Maximum award is $1,050,000 allocated over a three year period at up to $350,000 per year.

III. Program Description; Eligible Applicants; Eligible Activities

A. *Program Description.* The Fair Housing Initiatives Program (FHIP), 24 CFR part 125, assists fair housing activities that increase compliance with the Fair Housing Act (the Act) and with the substantially equivalent fair housing laws administered by state and local government agencies [Fair Housing Assistance Program Agencies (FHAP)]. Applications submitted for funding under EOI are required to describe a complaint referral process that should result in referrals to HUD of fair housing complaints and other information regarding discriminatory housing practices. Applications selected for funding under PEI and FHOI must comply with the *Mandatory Referral* requirement described in Section IV(B) of this NOFA.

B. *Changes to this year's NOFA.* To improve the FHIP NOFA, a number of changes have been made this year. There are 2 new EOI National Program Components: the Media Campaign and the Fair Housing Awareness Components. The project duration for EOI Regional/Local/Community-Based Program and the National Program Media Campaign awards is 12 months and for the National Program's Fair

VOL
67
ISS
58
MR
26
2002
UMI

Housing Awareness Component 24 months. For FHOI, the project duration is 3 years. Changes also have been made in how the applications are rated.

For EOI: See Section V (D) "Factors for Award Used to Evaluate and Rate Regional/Local Community-Based Applications" of this NOFA on changes to EOI—General.

For FHOI: HUD has determined that rural areas and areas with immigrant populations (especially racial and ethnic minorities who are not English speaking or have limited English proficiency) are underserved. These underserved areas include: the Colonias, rural areas, or areas that contain large concentrations of persons protected under the Act where either no public or private fair housing enforcement organization exists or the jurisdiction is not sufficiently served by one or more public or private fair housing enforcement organizations.

For PEI: We have increased the award cap from $250,000 to $275,000. In addition, we have eliminated the requirement that applicants with current PEI grants be excluded from participating in this year's NOFA.

Finally, for PEI and FHOI, a total of 5 points will be deducted if the applicant is an organization that has received FHIP funding in the past to conduct enforcement-related activities has not complied with the program requirements regarding mandatory referrals and reimbursement of the Federal government for compensation resulting from FHIP-funded enforcement activity. If you have received PEI funds previously, your application should clearly state how you have complied with this requirement.

Other Changes. This year HUD will take into account an applicant's past performance in evaluating applications for funding. HUD will assess performance ratings for applicants who have received FHIP funding in 1998, 1999, or 2000. If the applicant has received a "poor" performance rating for its most recent performance rating from its Government Technical Representative, its application is ineligible for FY 2002 competition. An applicant that does not agree with its determination of ineligibility for the FY 2002 competition because of "poor" performance must address to HUD's satisfaction the factors resulting in the "poor" performance rating before the FHIP application deadline. If the "poor" performance rating is not resolved to the Department's satisfaction before the application deadline, the application remains ineligible. HUD is interested in increasing the performance level of all grantees; therefore, applicants who are deemed ineligible because of a "poor" performance rating have the right and are encouraged to seek technical assistance from HUD to correct their performance in order to be eligible for future NOFA competition. All other applicants who have not received FHIP funding, or have received FHIP funding prior to 1998 will be evaluated on past performance as outlined in Rating Factor 1.

Finally, applicants must submit with their application a written code of conduct and a description of the methods you will use to ensure that all officers, employees and agents of your organization become aware of your code of conduct (See General Section). [Additional clarification is provided in Appendix A, Most Frequently Asked Questions.]

Bonus Points: See General Section III (C) "Factors For Award Used to Evaluate and Rate Applications" for information on how Bonus Points will be awarded under this SuperNOFA.

C. *Ineligible Activities.* You are reminded to read carefully the eligibility requirements for each Initiative and Component. Enforcement-related activities are not eligible for funding under EOI and there is a limit on the amount of education-related activities that can be funded in an enforcement grant (PEI or FHOI). No awardee may use FHIP funds to settle a claim, satisfy a judgment, or fulfill a court order in any defensive litigation (24 CFR 125.104(f)).

D. *Priorities.* Immigrant populations (especially racial and ethnic minorities who are not English speaking or have limited proficiency in English) often face formidable barriers because of discriminatory housing practices. It is especially important that fair housing services be directed to these underserved and immigrant populations and to the specific types of discrimination they may encounter. All applicants are encouraged to address the fair housing needs of these populations.

For FHOI, HUD will fund applications that purpose to provide services in underserved areas (See Section III (B)(1)(b) of this NOFA.

HUD expects applicants to address all forms of housing discrimination covered under the Fair Housing Act. In addition, since the September 11, 2001 attacks in the United States, incidents of bias based on religion and national origin have been on the rise. Applicants should specifically address discrimination under the Fair Housing Act based on national origin and religion and describe education and outreach efforts to these vulnerable communities to provide information about their fair housing rights.

Finally, HUD has determined there is a need to ensure equal opportunity and access to housing in communities across the nation. Applicants submitting applications to the Education and Outreach National Program's two Components (Media Campaign Component and Fair Housing Awareness Component) must address this need. For the Media Campaign Component, applicants are required to provide a centralized and coordinated effort for the development and implementation of a fair housing media campaign designed to educate the public about their fair housing rights. The Fair Housing Awareness Component will provide education and outreach to promote public awareness on predatory lending.

(A) *Private Enforcement Initiative (PEI).* This Initiative assists private, tax-exempt fair housing enforcement organizations in the investigation and enforcement of alleged violations of the Act and substantially equivalent State and local fair housing laws. As a condition of funding, you will be required to refer to HUD all cases arising from FHIP-funded enforcement activities (see Mandatory Referrals, Section IV below).

(1) *Eligible Applicants.* Eligible applicants are fair housing enforcement organizations (FHOs) with at least one year of experience in complaint intake, complaint investigation, testing for fair housing violations, and meritorious claims in the two years prior to the filing of this application (24 CFR 125.401(b)(2)) and qualified fair housing enforcement organizations (QFHOs) with at least two years of enforcement-related experience, as noted above, within the three years prior to filing this application, (24 CFR 125.103). You must certify, in the Statement of Eligibility that you submit with this application, that your organization is an FHO or a QFHO and document in the Statement of Eligibility that your organization has the required one or two years of enforcement-related experience. Remember, if you fail to submit the completed Statement of Eligibility (Appendix C), this will be a technical deficiency and you will have 14 days to provide the requested materials (Section V of the General Section of the SuperNOFA). All applicants claiming QFHO and FHO status are required also to submit with their application a copy of its Letter of Determination from the Internal Revenue Service (IRS) in support of its 501(c)(3) tax-exempt status. However, failure to provide this document with your application is a technical deficiency and you will have 14 days to provide the requested information (Section V of the General Section of the SuperNOFA).

(2) *Eligibility of Successor Organization.* HUD recognizes that QFHOs and FHOs may merge with each other or other organizations. The merger of a QFHO or an FHO with a new organization, that has a separate Employer Identification Number (EIN), does not confer QFHO or FHO status upon the successor. To determine whether the successor organization meets the eligibility requirements for this Initiative, HUD will look at the enforcement-related experience of the successor organization (based upon the successor organization's EIN). The successor organization is not eligible to apply under this Initiative unless it establishes in the Statement of Eligibility that it is a private, tax-exempt organization with the requisite two years for a QFHO or one year experience for an FHO.

(3) *Eligible Activities* include:

(a) Complaint intake of allegations of housing discrimination, testing, evaluating testing results, or providing other investigative and complaint support for administrative and judicial enforcement of fair housing laws;

(b) Investigations of individual complaints and systemic housing discrimination for further enforcement processing by HUD, through testing and other investigative methods;

(c) Mediated agreements or other voluntary resolution of allegations of fair housing discrimination after a complaint has been filed; and

(d) Costs and expenses of litigating fair housing cases, including expert witness fees.

(B) *Education and Outreach Initiative (EOI).* This Initiative assists projects that inform the public about the rights and obligations under the Act and substantially equivalent State and local fair housing laws. Under this Initiative, you must develop a complaint referral process so that activities funded under this Initiative will result in referrals to HUD of fair housing complaints and other information regarding possible discriminatory housing practices. Applications are solicited for the EOI-Regional/Local/Community-Based Program—in which activities are conducted on a regional/local/community-based level and in a National Program. You may submit your application for the Regional/Local/Community-Based General Component or Disability Component or the National Program's Media Campaign Component or Fair Housing Awareness Component depending upon its focus.

(1) *Eligible Applicants.* Eligible applicants are QFHOs; FHOs (under this Initiative an FHO is not bound by the requirement to have engaged in enforcement-related activity for at least one year, (24 CFR 125.103); public or private, for-profit or not-for-profit organizations or institutions and other public or private entities that are formulating or carrying out programs to prevent or eliminate discriminatory housing practices (this category includes entities that will be established as a result of receiving an award under this FHIP NOFA); faith-based or community-based organizations; State or local governments or their agencies; and agencies that participate in the FHAP (see the list of FHAP agencies at Appendix D). If you are a disability advocacy group, faith-based or community-based organization or traditional civil rights organization, you are encouraged to apply under this Initiative.

(2) *Eligible Activities.* The following are eligible activities for EOI: conducting educational symposia; distributing existing fair housing materials throughout your project area; providing outreach and information on fair housing through printed and electronic media; and providing outreach to persons with disabilities and/or their support organizations and service housing providers, and the general public regarding the rights of persons with disabilities under the Act. When conducting your outreach activities, we encourage the use of existing, locally or nationally available fair housing materials; except that you may modify those existing materials in languages other than English.

The Components for the Regional/Local/Community-Based Program are described below:

Disability Component. Applications that emphasize the fair housing needs of persons with disabilities, so that persons with disabilities, housing providers and the general public better understand the rights and obligations under the Act and more fully appreciate the forms of housing discrimination that persons with disabilities may encounter, should submit their applications to the EOI—Disability Component. Although the Component has a disability focus, the funded activities must provide education and outreach to all persons protected under the Act.

General Component. Applications for all other fair housing education and outreach activities should be submitted to the EOI-General Component. One point will be awarded for applications from faith-based or community-based organizations or organizations that propose to either partner or sub-contract with faith-based or community-based organizations in conducting their work programs. Applicants who are submitting applications in conjunction with a faith-based or community-based organization must include in their application a letter of firm commitment from that faith-based or community-based organization. This letter of firm commitment must: (1) identify the faith-based or community-based organization; (2) identify the activities/tasks to be undertaken by the faith-based or community-based organization under this project; and (3) be signed by the individual or organization with legal authority able to make commitments for the organization.

Finally, up to three points will be awarded for applications specifically addressing housing discrimination based on national origin and religion since the September 11, 2001 attacks, as described in Section III(D), Priorities, of this NOFA.

The Components for the *National Program* are described below:

Media Campaign Component. Activities for funding must provide a centralized, coordinated effort for the development and implementation of a fair housing media campaign designated for FY 2003 Fair Housing Month activities. Additional information on the EOI-National Program is contained within this NOFA under the Factors for Award—National Program Media Campaign Component.

Fair Housing Awareness Component. Grantees must conduct a national campaign to educate the public on the dangers of abusive lending practices that target specific neighborhoods or vulnerable segments of the population. Additional information on the EOI National Program is contained within this NOFA under the Factors for Award—National Program Fair Housing Awareness Component.

(C) *Fair Housing Organizations Initiative (FHOI).* This Initiative provides assistance to projects that establish or build the capacity of organizations to become viable fair housing enforcement organizations that conduct fair housing enforcement activities in underserved areas (as defined in Section IV) with large concentrations of persons protected by the Act. This is accomplished with the assistance of a sponsoring organization. It is the sponsoring organization that submits the application under this Initiative. The sponsored organization whose enforcement capacity is established or enhanced by funding under this Initiative, will be allowed to participate in this Initiative for three

VOL
67
ISS
58
MR
26
2002
UMI

years contingent upon annual performance reviews. Funds are allocated under this NOFA for 3 years and may be distributed to the sponsored organization by the sponsoring organization. The sponsoring organization may expend FHIP funds for administrative costs as described below. HUD has targeted for funding under this Initiative projects that will provide fair housing enforcement services to the Colonias, rural areas, or to areas with large concentrations of individuals who fall within one or more categories protected under the Act and who are immigrants (especially racial and ethnic minorities who are not English speaking or have limited English proficiency).

(1) *Eligible Applicants.* Only the sponsoring organization is eligible to apply under this Initiative. The sponsoring organization must be a qualified fair housing enforcement organization (QFHO) with at least 2 years of experience in complaint intake, complaint investigation, testing for fair housing violations, and meritorious claims in the 3 years prior to the filing of this application, as defined at 24 CFR 125.103. You must certify in the Statement of Eligibility that you submit with this application that your organization is a QFHO. Remember, if you fail to submit the completed Statement of Eligibility (Appendix C), this will be a technical deficiency and you will have 14 days to provide the requested materials (see Section V of the General Section of the SuperNOFA on technical corrections that do not affect scoring). You are also required to submit a copy of your IRS tax-exempt status with your application. However, failure to provide this document with your application is a technical deficiency, and you will have 14 days to provide the requested information (see Section V of the General Section of the SuperNOFA).

Eligibility of Successor Organization. HUD recognizes that a QFHO may merge with one or more organizations. The merger of a QFHO into a new organization, that has a separate Employer Identification Number (EIN), does not confer QFHO status upon the successor organization. To determine whether the successor organization meets the eligibility requirements for this Initiative, HUD will consider the enforcement-related experience of the successor organization (based upon the successor organization's EIN). The successor organization is not eligible to apply under this Initiative unless it can establish that it is a private, tax-exempt organization with the requisite 2 years of experience as a QFHO.

(2) *Eligible Activities.* The proposed activities must build the enforcement capacity of the sponsored organization so that it can undertake all of the following activities by the conclusion of year 3 of the grant cycle:

(a) Complaint intake of allegations of housing discrimination, testing, evaluating testing results or providing other investigative and complaint support for administrative and judicial enforcement of fair housing laws;

(b) Investigations of individual complaints and systemic housing discrimination for further enforcement processing by HUD, through testing and other investigative methods;

(c) Mediation or other voluntary resolution of allegations of fair housing discrimination after a complaint has been filed; and

(d) Costs and expenses of litigating fair housing cases, including expert witness fees.

(3) *Administrative Costs for the Sponsoring Organization.* The sponsoring organization may use no more than 15 percent of the annually awarded funds to cover its costs to administer the grant

IV. Program Requirements

(A) Requirements for All Initiatives.

In addition to the Threshold Requirements in Section II(B) of the General Section of this SuperNOFA, your FHIP-funded program application must also meet the following requirements:

(1) *Protected Basis.* All FHIP-funded projects must address housing discrimination based upon race, color, religion, sex, disability, familial status, or national origin.

(2) *Broad-Based and Full-Serviced.* Your organization must conduct a broad-based and full-service enforcement project that addresses discrimination against all persons protected by the Fair Housing Act on the basis of race, color, religion, sex, disability, familial status, or national origin.

(3) *Performance Measures and Products.* Your application must demonstrate how your project activities will support HUD goals, identify performance measures/outcomes in support of those goals, describe your proposed record-keeping and evaluation systems, and identify current (baseline) conditions and target levels of the performance measures that you plan to achieve. Your application also must contain a strategy for generating project products, with related timelines and milestones. In addition, you must include in your application and work plan program measures to ensure that promises made in your application for persons to be assisted, timelines and budgets to be followed, and results to be achieved can be accounted for and independently assessed to ensure performance goals have been met. Applicants who have included means of assessing progress, tracking performance goals and achievements against promises made in the application will receive higher rating points. If selected for funding, your final performance measures will be negotiated between you and HUD as part of your executed grant agreement.

(4) *Reports and Meetings on Performance Measures and Products.* You are required to report quarterly on the status of project products against your approved milestones and timelines and meet at least semi-annually with HUD to ensure that project activities satisfy grant requirements. In your final grant report, you must describe the status of performance measures in a spreadsheet format or other manner specified by the Department.

(5) *Single Award Limitation/ Preference Must Be Stated.* You may submit applications under all Initiatives and Components for which your organization is eligible but you will receive only one grant with the exception that successful FHOI applicants may receive a grant award under one of the other Initiatives. If you submit more than one application for funding, you must clearly state your preference in two places in each application you submit: (i) the Transmittal Letter and (ii) the Cover Page. The Selecting Official may disregard your preference if it is in the best interest of the Program to do so. Failure to submit your preference at the time of application will be treated as a technical deficiency, which may be corrected as noted in Section V of the General Section of this SuperNOFA.

(6) *Independence of Awards.* HUD will review each application separately and without reference to other applications submitted by you or others. You may submit one application to each of the Initiative/Components outlined in this NOFA. However, each application you submit must be independent and capable of being implemented without reliance on the selection of other applications submitted by you or other applicants.

(7) *Project Starting Period.* For planning purposes, assume a start date no later than thirty days after completion of negotiations. Negotiations are estimated to start on or before September 30, 2002.

(8) *Page Limitation and Formatting Requirements.* All pages in your application must be numbered consecutively from beginning to end. The maximum number is 10 pages per factor. This does not include any attachments that may be required under each factor (for example, the proposed statement of work and budget required under Factor 3: Soundness of Approach). The narrative pages must be double-spaced and you are required to use 12 point typesize. You must respond fully to each factor to obtain maximum points. Failure to: provide narrative responses to all factors or omitting requested information will result in less than the maximum points available for the given Rating Factor for Award or subfactor. Failure to provide double spaced, 12 point typesize narrative responses will result in five points being deducted from your overall score (one point per factor).

(9) *Training funds.* Your proposed budget must set-aside funds to participate in HUD-sponsored or approved training ($3,000 for EOI and PEI annually; and $6,000 annually for FHOI). Requests to attend HUD-approved training must be submitted to the GTR for approval in advance of the requested training. Do not include amounts over the $3,000 or $6,000 (as appropriate) for the training set-aside in this category. If applicants do not include these funds in the budget and you are selected for an award, HUD may modify your budget, reallocating the appropriate amount for training.

(10) *Payment Contingent on Completion.* Payment of FHIP fund is made on a reimbursement basis. Payments are contingent on the satisfactory and timely completion of your project activities and products as reflected in your grant or cooperative agreement. Requests for funds must be accompanied by financial and progress reports.

(11) *Accessibility Requirements.* All activities, facilities, and materials funded by this Program must be accessible to persons with disabilities (24 CFR 8.2, 8.4, 8.6, and 8.54).

(12) *Copyright Materials.* You may copyright any work that is eligible for copyright protection subject to HUD's right to reproduce, publish, or otherwise use your work for Federal purposes, and to authorize others to do so as required in 24 CFR 84.36.

(13) *Complaints Against Grantees/ Cooperative Agreements.* Each FHIP grantee/cooperative agreement is overseen by a HUD Grant Officer. Complaints from the public against FHIP grantees should be forwarded to the Grant Officer. The Grant Officer's name and contact information is provided in the grant/cooperative agreement. If, after notice and consideration of relevant information, the Grant Officer concludes that there has been inappropriate conduct, such as a violation of FHIP program requirements, grant, or cooperative agreement terms or conditions or any other applicable statute, regulation or other requirement, HUD will take appropriate action in accordance with 24 CFR 84.62. Such action may include: written reprimand; consideration of past performance in awarding future FHIP applications; repayment to HUD of funds received under the grant; or temporary or permanent denial of participation in the FHIP in accordance with 24 CFR part 24.

(14) *Avoiding Double Payments.* If you are awarded funds under this NOFA, you (and any subcontractor or consultant) may not charge or claim credit for the activities performed under this project to any other Federal project.

(15) *Ineligible Activities.*

(a) *Fair Housing and Free Speech.* None of the amounts made available under this NOFA may be used to investigate or prosecute under the Act any activity engaged in by one or more persons, including the filing or maintaining of a non-frivolous legal action that is protected by the First Amendment to the U.S. Constitution. This includes activities engaged in for the purpose of achieving or preventing action by a government official or entity.

(b) *Insurance Testing.* HUD will fund organizations who conduct insurance-related enforcement work under the FHIP, but no project will focus exclusively on this issue.

(16) *Key Personnel.* If your organization is selected for award, you must certify to HUD (HUD Form 40076) whether any staff member identified in the proposal or proposed to be hired (including signator on the SF–424) has been convicted of a felony or crime involving fraud or perjury. In advising HUD, you must specify the crime(s) for which the person was convicted, the date entered, and the penalty received and submit a copy of the report from the police or court documenting the conviction. Depending upon the facts, HUD may place special conditions upon the grantee or the particular person's participation in grant funded activities.

(17) *Definitions.* The definitions that apply to this FHIP section of the NOFA are as follows:

Broad-based proposals those that include activities that are not limited to a single fair housing issue; instead, they cover multiple issues related to housing discrimination covered under the Act, such as: rental, sales and financing of housing. (See also Full Service Projects below)

Colonias (See General Section).

Complainant means the person (including the Assistant Secretary) who files a complaint under Section 810 of the Act.

Disability advocacy groups mean organizations that traditionally have provided for the civil rights of persons with disabilities. This would include organizations such as Independent Living Centers, and cross-disability legal services groups. Such organizations must be experienced in providing services to persons with a broad range of disabilities, including physical, cognitive, and psychiatric/mental disabilities. Such organizations must demonstrate actual involvement of persons with disabilities throughout their activities, including on staff and board levels.

Enforcement proposals are potential complaints under the Act that are timely, jurisdictional, and well-developed, that could reasonably be expected to become enforcement actions if an impartial investigation finds evidence supporting the allegations and the cases proceeded to a resolution with HUD involvement.

Fair Housing Act means Title VIII of the Civil Rights Act of 1968 as amended by the Fair Housing Amendments Act of 1988 (42 U.S.C. 3600–3620).

Fair Housing Assistance Program (FHAP) Agencies mean State and local government agencies that administer laws substantially equivalent to the Act, as described in 24 CFR part 115 and receive FHAP funds.

Fair Housing Enforcement Organization (FHO) means an organization engaged in fair housing activities as defined in 24 CFR 125.103.

Faith-based and Other Community-based Organizations (See General Section).

Full-service projects must include the following enforcement-related activities in your project application: interviewing potential victims of discrimination; analyzing housing-related issues; taking complaints; testing; evaluating testing results; conducting preliminary investigations; conducting mediation; enforcing meritorious claims through litigation or referral to administrative enforcement agencies; and disseminating information about fair housing laws.

Meritorious claims mean enforcement activities by an organization as defined in 24 CFR 125.103.

Operating budget means your organization's total planned budget expenditures from all sources, including

VOL
67
ISS
58
MR
26
2002
UMI

the value of in-kind and monetary contributions, in the period for which funding is requested.

Qualified Fair Housing Enforcement Organization (QFHO) means an organization engaged in fair housing activities as defined in 24 CFR 125.103.

Regional/Local/Community-Based Activities are defined at 24 CFR 125.301(a) & (d).

Rural Areas, according to the Rural Housing and Economic Development Program of Community Planning and Development (CPD), may be defined in one of five ways:

(i) A place having fewer than 2,500 inhabitants (within or outside of metropolitan areas).

(ii) A county with no urban population (i.e., city) or 20,000 inhabitants or more; territory, persons and housing units in the rural portions of 'extended cities.'

(iii) The rural portions of extended cities in the United States as identified by the U.S. Census Bureau.

(iv) Open country which is not part of or associated with an urban area. The United States Department of Agriculture (USDA) describes open country as a site separated by open space from any adjacent densely populated urban area. Open space includes undeveloped land, agricultural land, or sparsely settled areas, but does not include physical barriers (such as rivers or canals) public parks, commercial and industrial developments, small areas reserved for recreational purposes, and open space set aside for future development.

(v) Any place with a population not in excess of 20,000 and that is not located in a Metropolitan Statistical Area.

Traditional Civil Rights Organizations mean non-profit organizations or institutions and/or private entities with a history and primary mission of securing Federal civil rights protection for groups and individuals protected under the Act or substantially equivalent State or local laws and that are engaged in programs to prevent or eliminate discriminatory housing practices.

Underserved Areas mean jurisdictions that contain large concentrations of persons protected under the Act and where either no public or private fair housing enforcement organizations exist or the jurisdiction is not sufficiently served by one or more public or private enforcement fair housing organizations. (See definitions of Colonias, Faith-based and Community-based organizations above).

Underserved Populations mean groups of individuals who fall within one or more of the categories protected under the Act and who are also: (1) Of an immigrant population (especially racial and ethnic minorities who are not English-speaking or with limited English proficiency), (2) in rural populations, (3) persons living in the Colonias, (4) the homeless, and (5) persons with disabilities who can be historically documented to have been subject to discriminatory practices not having been the focus of Federal, State or local fair housing enforcement efforts.

(18) *Grant/Cooperative Agreements.* The type of funding instrument HUD may offer a successful applicant will be a grant/cooperative agreement which sets forth the relationship between HUD and the grantee where the principal purpose is the transfer of funds, property, services, or anything of value to accomplish a public purpose. The agreement will identify the eligible activities to be undertaken, financial controls, and special conditions, including sanctions for violations of the agreement. HUD will monitor your progress using provisions of your grant/cooperative agreement to ensure that you have achieved the objectives set out in your agreement. Failure to meet such objectives would be the basis for HUD determining your agreement in default and exercising available sanctions, including suspension, termination, and/or the recapture of your grant/cooperative agreement funds. Also HUD may refer violations or suspected violations to enforcement offices within HUD, the Department of Justice, or other enforcement authorities.

(19) *Reallocation of Funds.* If after all applications within funding range have been selected or obligations are completed in an Initiative and funds remain available, the selecting official or designee will have the discretion to reallocate leftover funds in rank order between Initiatives as follows:

(a) for EOI, any remaining funds from any component will be reallocated first within the Initiative; if after reallocating funds within the Initiative left over funds remain, they shall be reallocated to PEI then to FHOI;

(b) for PEI, any remaining funds will be reallocated to EOI then to FHOI;

(c) for FHOI, left over funds will be reallocated to PEI then to EOI.

Reallocated funds will be awarded within Initiative as described in Section V of this NOFA.

(20) *Affirmatively Furthering Fair Housing.* A separate AFFH submission is not required for FHIP because the purpose of the program is to further fair housing.

(21) *Conducting Business in Accordance with Core Values and Ethical Standards.* (See General Section. Refer also to the discussion on Code of Conduct above).

(22) *Product Information.* Press releases and any other product intended to be disseminated to the public must be submitted to the Government Technical Representative (GTR) 2 weeks before release for approval and acceptance.

(23) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women Owned Businesses.* See General Section.

(B) Additional Requirements For PEI and FHOI

(1) *Mandatory Referrals.* You must refer to HUD all cases arising from FHIP-funded enforcement activities. In all FHIP-funded cases where you find a basis for filing a complaint on behalf of a complainant other than your organization, you must file the complaint with HUD unless the complainant declines to do so in writing. In addition to filing complaints with HUD, a complainant may file a civil action in Federal or State Court.

(2) *Outreach Expenses.* The funds awarded for enforcement grants may be used for outreach and education activities (hereafter, outreach activities) in order to promote awareness of your project's services, as follows: under FHOI, you may provide for up to 10 percent of the requested funds for the sponsored organization to be used for outreach activities; under PEI, you may designate up to 5 percent of the requested funds for outreach activities.

(3) *Tester Requirements.* Testers in your FHIP-funded testing activities must not have prior felony convictions or convictions of crimes involving fraud or perjury. All testers must receive training acceptable to HUD or be experienced in testing procedures and techniques. Testers and the organizations conducting tests, and the employees and agents of these organizations may not:

(a) Have an economic interest in the outcome of the test; except to the extent that they could recover damages as provided by law;

(b) Be a relative related by adoption, blood, or marriage of any party in a case;

(c) Have had any employment or other affiliation, within the past year, with the person or organization to be tested; or

(d) Be a licensed competitor of the person or organization to be tested in the listing, rental, sale, or financing of real estate.

(4) *Review and Approval of Testing Methodology.* If your SOW proposes testing, other than rental housing testing, HUD may require copies of the following documents to be reviewed and approved by HUD prior to your carrying out the testing activities:

(a) The testing methodology to be used,

(b) The training materials to be provided to testers, and

(c) Other forms, protocols, cover letters, etc., used in the conduct of testing and reporting of results.

The testing methodology and training materials that you submit to HUD for review and approval are for enforcement purposes and will remain confidential.

(5) *Conflict of Interest and Use of Settlement Funds.*

(a) You may not solicit funds from or seek to provide fair housing educational or other services or products for compensation either directly or indirectly to any person or organization that has been the subject of FHIP-funded testing by your organization during the 12-month period following the test. This does not preclude providing training or technical assistance that is court ordered or contained in a negotiated settlement. HUD reserves the right to impose additional provisions addressing potential conflicts of interest.

(b) You must reimburse the United States for FHIP-funded activities whenever you receive funds as the result of enforcement activities funded in whole or in part by the FHIP program, including testing. You must provide information about reimbursements and/or potential reimbursements in a report that you submit to HUD (see Reports below). Terms for reimbursing the United States will be specified in your grant or cooperative agreement. This reimbursement requirement does not apply to compensation received as a result of a judgment in Federal or State Court. Calculate your reimbursement on a per complaint basis. Identify the complaint, then subtract the amount of non-FHIP funds from the amount of FHIP funds used to resolve the complaint. The difference is the amount owed. For example:

FHIP grant of $15,000 ($10,000 which is for testing: 20 tests @ $500 each). One test results in a $15,000 conciliation/settlement. Additional expenses paid from non-FHIP funds: $100.
Total FHIP funds for the settlement activity that resulted in collected funds: $400.00 Calculation
$500 (Amt. of FHIP funds in activity resulting in conciliation/settlement) – *$100 (Non–FHIP funds used in the same activity)*
Total $400 to be repaid to HUD.

(6) *Reports.* You must provide reports in a format (which may be computer-generated), at a frequency and with contents specified by HUD. At a minimum, the report must include the number and basis of complaints filed with HUD, with a FHAP agency, or in Federal/State Court as well as the number and terms of settlements or other outcomes achieved. If HUD does not prescribe a format or frequency, you will provide a narrative report within 90 days after all grant activities have ended or at the end of each 12-month period of the grant, whichever comes first. You do not have to disclose the terms of settlements or judgment that a court or other tribunal orders be kept confidential. You will also be required to provide status reports on case referrals you have made to HUD or a FHAP agency. These reports are for enforcement purposes and will remain confidential.

(7) *Enforcement Log.* You are required to record information about the funded project in a case tracking log (or Fair Housing Enforcement Log) in a format prescribed by HUD. Such information must include: the number of complaints of possible discrimination you have received; the protected basis of these complaints; the issue, test type, and number of tests utilized in the investigation of each allegation; the respondent type and testing results; the time for case processing, including administrative or judicial proceedings; the cost of testing activities and case processing; the entity to which the case was referred; and the resolution and type of relief sought and received. You must agree to make this log available to HUD. This log will be considered confidential for enforcement purposes.

(8) *Attachments.* All PEI and FHOI applicants must submit a Statement of Eligibility. All applicants must submit resumes, or position description in lieu of resume, of all key personnel; for those who have received funding for other projects, a copy of the most recent performance assessment from the funding source, if it was a HUD funded project, the most recent SF 269. In addition, FHOI, and PEI applicants must submit the Internal Revenue Service's, Letter of Determination declaring your Section 501(c)(3) status as a tax-exempt organization.

(C) Additional Requirements for Education and Outreach Initiative

Complaint Referral Process. EOI activities do not end with the delivery of educational activities. Their purpose is to enable persons who believe they have experienced housing discrimination to file complaints for investigation and relief. EOI applicants must develop a process for referring fair housing complaints to HUD or substantially equivalent entities under the Act. HUD expects this complaint referral process will result in referrals to HUD of fair housing complaints and other information regarding discriminatory housing practices.

(D) Additional Requirements for Fair Housing Organizations Initiative

Sponsored organization's viability and fair housing enforcement capacity. Over the duration of the grant, the sponsored organization must demonstrate its capacity to become a viable, fair housing enforcement organization that conducts fair housing-related enforcement activities and leverages non-FHIP resources. These are the performance measures that, if not met, may result in termination of the grant, and your description for achieving these measures will be considered when HUD evaluates your application. We will look for this description in your response to Rating Factor 3: Soundness of Approach. Specifically, the application must address:

(a) Fair Housing-related enforcement activities. The sponsored organization must conduct all enforcement-related activities by the conclusion of year 3 of the grant: complaint intake, complaint investigation, testing for fair housing violations, and meritorious claims. Your application must identify which activities the sponsored organization will conduct at the end of the grant year 1, 2 and 3. Your performance measures will be based upon this description, and failure to meet them may result in termination of your grant or cooperative agreement.

(b) Organizational resources. The sponsored organization must not rely exclusively on FHIP funding. At the conclusion of each grant year, the sponsored organization must show increasing support from sources other than what is awarded under this program. Specifically, at the conclusion of year 1, no less than 5% of the funds supporting the sponsored organization's fair housing enforcement-related activities must be funded from non-FHIP funds; at the conclusion of year 2, no less than 10% of the funds supporting the sponsored organization's fair housing enforcement-related activities must be from non-FHIP funds; and at the conclusion of year 3, no less than 20% of the funds supporting the sponsored organization's fair housing enforcement-related activities must be from non-FHIP funds. Your application must state how you will meet these requirements. Your performance measures will be based upon these requirements, and failure to meet them may result in termination of the grant.

VOL 67 ISS 58 MR 26 2002 UMI

V. Application Selection Process

(A) Screening/Threshold Review

Only applications that satisfy all of the applicable requirements under this NOFA will be considered for funding. Applicants meeting any of the following conditions are ineligible.

(1) *General Section Requirements and Procedures.* If you do not meet the Threshold Requirements set forth in Section II (B) of the General Section of this SuperNOFA.

(2) *Debarment and Suspension.* If your organization is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal debarment or agency.

(3) *Maximum award.* If you request funding in excess of the maximum allowed under the Initiative or Component for which you are applying your application is ineligible. Any amount over the maximum award, even if less than one dollar, will be considered a request in excess of the maximum award. In addition, inconsistencies in the amount requested and/or miscalculations that result in amounts over the maximum award will be considered excessive.

(4) *Research Activities.* If 25% or more of your project is aimed solely and primarily at research. Also, your application should not require any surveys or questionnaires.

(5) *Eligibility Applicants.* If you do not meet the eligibility requirements for PEI and FHOI. For PEI, you must be a FHO or a QFHO and document in the Statement of Eligibility that your organization has the required one or two years of enforcement-related experience. For FHOI, you must be a QFHO.

(6) *Tax Exempt Status.* If you are not a tax-exempt, nonprofit, charitable organization. For PEI and FHOI, you must be a 501(c)(3) tax exempt organization as determined by the Internal Revenue Service (IRS). Your application must include a copy of your Letter of Determination from the Internal Revenue Service, dated prior to the deadline date of this NOFA, in support of your 501(c)(3) tax-exempt status.

(7) *Media-based Applications.* Applicants who submit applications under the EOI National Program Media Campaign must have as its primary responsibility advertisement and media and have at least 5 years of experience as an advertisement/media organization, or if the applicant is not a media organization, it must include as part of its proposal a subcontract with an established media/advertising or public relations organization, that has experience in conducting national media campaigns. Applicants that fail to meet this requirement or include such subcontract arrangements in their proposals will be ineligible for funding. Further, for-profit awardees must adhere to OMB Circular A–122.

(8) *Poor Performance.* HUD will assess performance ratings for applicants who have received FHIP funding in 1998, 1999, or 2000. If the applicant has received a "poor" performance rating for its most recent performance rating from its Government Technical Representative, its application is ineligible for FY 2002 competition. An applicant that does not agree with its determination of ineligibility for the FY 2002 competition because of "poor" performance must address to HUD's satisfaction the factors resulting in the "poor" performance rating before the FHIP application deadline. If the "poor" performance rating is not resolved to the Department's satisfaction before the application deadline, the application remains ineligible. HUD is interested in increasing the performance level of all grantees; therefore, applicants who are deemed ineligible because of a "poor" performance rating have the right and are encouraged to seek technical assistance from HUD to correct their performance in order to be eligible for future NOFA competition.

(9) *Suits Against the United States.* Your application is ineligible if as a current or past recipient of FHIP funds, your organization used any funds provided by HUD for the payment of expenses in connection with litigation against the United States (24 CFR 125.104(f)).

(10) *Other Litigation.* Your application is ineligible if any recipient under this Program used any funds provided by HUD to settle a claim, satisfy a judgment, or fulfill a court order in any defensive litigation (24 CFR 124.104).

(B) *Rating and Ranking.* Although all rating factors are organized the same way for all FHIP Initiatives, there are differences in application requirements and rating criteria, which are indicated throughout the Rating Factor instructions. Your application for funding will be evaluated competitively against all other applications submitted under one of the following Initiatives or Components:

(1) Private Enforcement Initiative (PEI)

(2) Education and Outreach Initiative

(a) Regional/Local/Community-Based Program:

i. General Component (EOI—GC)

ii. Disability Component (EOI—DC)

(b) National Program:

iii. Media Campaign Component

iv. Fair Housing Awareness Component

(3) Fair Housing Organizations Initiative (FHOI)

All eligible applications will be reviewed and points awarded based upon: (1) your narrative responses to the Factors for Award and accompanying materials (e.g., resumes) and (2) bonus points, if entitled. The maximum number of points to be awarded for the Rating Factors is 100. See Section III (C) of General Section for discussion on Bonus Points. Applications with a score of seventy (70) points or more will be considered of sufficient quality for funding. The Selecting Official will not select for award any application with a score below seventy (70) points. Generally, applications of sufficient quality for funding will be selected in simple rank order under each Initiative or Component. HUD reserves the right to select applicants out of rank order to achieve greater geographic distribution of awards under each Initiative or Component, as described in Section V (C) below. Selections under each Initiative or Component will continue to be made until either all allocated funds have been obligated or until no applications of sufficient quality remain.

(B) Tie Breaking

When two or more applications have the same total overall score, the application with the higher score under Rating Factor 3: Soundness of Approach will be ranked higher. If this does not break the tie, the application with the higher score under Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience will be ranked higher. If this does not break the tie, the application requesting the lower amount of FHIP funding will be ranked higher.

(C) Achieving Geographic Diversity of Awards

(1) *PEI and EOI.* HUD reserves the right to select applications out of rank order under geographic diversity, to ensure that, to the extent possible, applications from more states for each Initiative or Component are selected for funding. If the Selecting Official exercises this discretion, it shall be applied to all qualified applications (applications of sufficient quality for funding—applications that received a score of 70 or more points) in each Initiative or Component in which the Selecting Official applies geographic diversity. The geographic diversity provision will be applied as follows: when there are two or more applications of sufficient quality from the same state, the application(s) with the lower score(s) will be moved to the end of the qualified queue. The applications moved to the end of the qualified queue will retain their rank order. If sufficient funds remain, it is possible that applications moved to the end of the queue may be selected for award.

(2) *FHOI.* The geographic diversity selection procedures described in paragraph V(C)(1) will be used for FHOI for activities proposed in the same state.

(D) *Factors for Award Used to Evaluate and Rate PEI, FHOI and EOI Regional/Local Community-Based Applications.* The factors for rating and ranking applications and the maximum points for each Rating Factor are described below. Failure to provide the required information under the appropriate Factor will result in a lower score for that Factor—for example, information in the Project Abstract, although useful for obtaining a concise summary of the proposed activities is not considered in the rating of applications. Please respond fully to the criteria in each Rating Factor and sub-factor and, when directed, provide other information in support of your response. The Factors for Award are set out as follows:

In general. This section applies to **all** PEI, FHOI, and EOI Regional/Local Community-Based applicants. Your responses to each Rating Factor and including the "In Addition" section below must not exceed 10 page Rating Factor requirement.

In Addition. This section identifies issues to which you must respond, if required, by the particular Initiative or Component for which you are applying.

Rating Factor 1: Capacity of Applicant and Relevant Organizational Experience (20 Points)

You must describe staff expertise and your organization's ability to complete the proposed activities within the grant period. You must also provide performance assessments conducted by your funding sources, including HUD, that have been done of your organization's performance of these activities. Such performance assessments must be signed by or attached to a transmittal signed by the authorized representative of the funding source(s).

In General. HUD recognizes that, in carrying out the proposed activities, you may have persons already on staff, plan to hire additional staff, or rely on subcontractors or consultants to perform specific tasks. You must describe your staffing plan and the extent to which you plan to add staff (employees) or contractors.

(a) (5 Points) *Number and expertise of staff (this includes subcontractors and consultants).* You must show that you will have sufficient, qualified staff who will be available to complete the proposed activities. Provide the following information for all staff assigned to or hired for this project, not just key personnel (those persons identified in attachments to Rating Factor 3: Soundness of Approach):

(i) Identify, by name and/or title, all persons that will be assigned to the project. You must describe the knowledge and experience of the proposed overall project director and day-to-day program manager in planning and managing large and complex interdisciplinary programs. Indicate the percentage of time that key personnel will devote to your project. To receive maximum points, your day-to-day program manager must devote a minimum of 75% of his/her time to the project. You may demonstrate capacity by thoroughly describing your prior experience in fair housing. You should indicate how this prior experience would be used in carrying out your proposed activities. Your application must clearly identify those persons that are on staff at the time this application is filed, and those persons who will be assigned at a later date; describe each person's duties and responsibilities and their expertise (including years of experience) to perform project tasks; indicate whether the staff person is assigned to work full-time or part-time (if part-time, indicate the percentage of time each person is assigned to the project).

(ii) Attach resumes, or position description in lieu of resumes, for all key personnel. (Resumes do not count against the ten-page limit.)

(iii) Describe the qualifications to be considered in the selection of staff or contractors (and their staff) that will be assigned or hired at a later date, when you expect they will begin working on the project and how project activities will be carried out until then. Assume a start date of September 30, 2002.

(iv) Describe the racial/ethnic diversity of project staff and the applicant's governing board. If there is no diversity, please explain. No explanation of the lack of diversity will result in less points being awarded.

(v) Include a chart showing availability of all named personnel during the proposed period of activity.

(b) (10 Points) *Organizational experience.* In responding to this subfactor, you must show that your organization has: (i) Conducted a past project or past projects similar in scope and complexity to the project proposed in this application (whether FHIP-funded or not), or (ii) engaged in activities that, although not similar, are readily transferable to the proposed project. Experience will be judged in terms of recent, relevant and successful experience of your staff to undertake eligible activities. In rating this factor, HUD will consider experience within the last 3 years to be recent, experience pertaining to the specific activities to be relevant, and experience producing specific accomplishments to be successful. The more recent the experience and the more experience your own staff members who work on the project have in successfully conducting and completing similar activities, the greater the number of points you will receive for this rating factor. If the applicant organization has not engaged in projects similar to the scope and activities proposed in the application, two (2) points will be deducted.

In addition. If you are applying for funding under PEI or FHOI, provide the following information when responding to this subfactor:

(i) Respond completely to all questions in the Statement of Eligibility. (A copy of a blank Statement of Eligibility appears in the Appendix C to this NOFA.) For PEI, you must clearly state whether you are a QFHO or an FHO. You must provide information that establishes that your organization has engaged in each of the enforcement-related activities, for at least one year (if you are an FHO) or two years (if you are a QFHO). For FHOI, you must be a QFHO.

(ii) Describe the procedure you will use to ensure that testers comply with the requirements in Section IV (B) (3) of this program NOFA.

(iii) If you propose to conduct testing (other than rental or accessibility testing) projects proposing testing in the specific areas (for example, if testing is for sales of housing, your application should outline your sales testing experience) should document that, at a minimum, you have conducted successful testing in those areas. Provide a general description of when and where the tests occurred, the entities tested, and the overall results of the tests, including complaints filed and the settlements or remedies secured.

FHOI. Provide a statement of organizational capacity and experience of the sponsored organization.

In general. (c) (5 Points) *Performance on past project(s).* You must describe your organization's past performance in conducting activities relevant to your

VOL
67
ISS
58
MR
26
2002
UMI

proposal, in the past three years (including FY 1998–2000 FHIP grants), demonstrating good financial management and documenting timely use of funds, timely reporting and submissions of tasks and deliverables. HUD may supplement information you provide with relevant information on hand or available from public sources such as newspapers, Inspector General or General Accounting Office Reports or Findings, hotline complaints that have been proven to have merit, or other such sources of information. In evaluating past performance, the following points will be deducted from your score under this rating sub-factor:

5 points will be deducted if you obtained any "fair performance" assessment;
3 points will be deducted if you obtained any "good performance" assessment; and
0 points will be deducted if you obtained any "excellent performance" assessment.

For other Federal, State and local programs, include an assessment/review of the work performed under past projects. Attach a copy of the funding entity's performance assessment/review of this project, if applicable. The following will apply to funding received from other Federal, State and local programs:

3 points will be deducted for failing to meet target dates and schedules for performance; and
2 points will be deducted for failure to meet measurable program outputs and outcomes.

If you do not have a past performance assessment or prior experience, you should include information such as meeting target dates, meeting program outputs and successful outcomes for projects similar in scope and size and give a description of the purpose of the project and what was accomplished. If audit reports are available, submit a copy of the most recent report. Those applicants that do not submit an audit report will receive a lower score for this sub-factor than those that do.

In addition. (a) If you have received an FHOI or a PEI award under the FY 1998, 1999 or 2000 FHIP NOFA, you must:

(i) Discuss your compliance with the mandatory referral requirement of all cases arising from FHIP-funded activities requirement, as described in the FY 1998, 1999, and 2000 NOFAs. Three (3) points will be deducted for this subfactor if you do not show in your application compliance with the requirement.

(ii) Discuss your compliance with the requirement to reimburse the Federal government for compensation received from FHIP-funded enforcement activities. If you have not reimbursed the Federal government for such compensation, explain why you have not. Also, state whether you reported to HUD any likely compensation that may result in such reimbursement. Two (2) points will be deducted for this sub-factor if you have not complied with the requirement.

Rating Factor 2. Need/Distress/Extent of the Problem (20 Points)

This factor addresses the extent to which there is a need for funding the proposed activities to address a documented fair housing problem in the target area. You will be evaluated on the information that you submit that describes the fair housing need in the geographic area you propose to serve, its urgency and how your project is responsive to that need. You must also describe whether you and/or your project are not served by a State or local FHAP agency.

(a) (15 Points) *Documentation of Need.* To justify the need for your project, you must describe the following:

(1) The fair housing need, including:
(a) Geographic area to be served;
(b) Populations protected by the Act that will be served—your project must serve all persons protected by the Act; and
(c) The presence of housing discrimination, segregation and/or other indices of discrimination in the project area based upon race, color, religion, sex, national origin, familial status, or disability. You must submit data and studies that support this indication.

(2) The urgency of the identified need. For example:
(a) The consequences to persons protected by the Act if your application is not selected for funding;
(b) The extent to which the organizations provide the services identified in your application;

(3) Other sources that support the need and urgency for this project. For example, use reports, statistics, or other data sources that are sound and reliable, including but not limited to, HUD or other Federal, state or local government reports analyses, relevant economic and/or demographic data, including those that show segregation, foundation reports and studies, news articles, and other information that relate to the identified need. Chapter V of the *Fair Housing Planning Guide, Vol. 1* has other suggestions for supporting documentation. You may access the Guide from the HUD web at "www.hud.gov."

If the fair housing needs you have identified are not covered under the Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) or if your locality does not have a CP or AI, you should so indicate, and use other sound data sources to identify the level of need and the urgency in meeting the need. If your application addresses needs that are identified in the AI, you will receive more points than applicants located in an area with an AI that do not relate their program to the identified needs in the AI. For you to receive maximum points for this factor, there must be a direct relationship between your proposed activities, community needs, and the purpose of the program funding.

To the extent possible, the data you use should be specific to the area where the proposed activity will be carried out. You should document needs as they apply to the area where activities will be targeted, rather than the entire locality or state. If the data presented does not specifically represent your target area, you should discuss why the target areas were proposed.

(4) The link between the need and your proposed activities:
(a) how the proposed activities augment or improve upon on-going efforts by public and private agencies, organizations and institutions in the target area, and/or
(b) why, in light of other on-going efforts, the additional funding you are requesting is necessary.

In addition, with respect to (a) Documentation of Need, the following apply to specific FHIP Initiatives or Components:

EOI—Disability Component. Your project must serve all persons protected by the Act.

FHOI. HUD has targeted for funding under this Initiative, projects that will provide fair housing enforcement services to underserved areas and to areas with large concentrations of individuals who fall within one or more categories protected under the Act who are immigrants (especially racial and ethnic minorities who are not English-speaking or have limited English proficiency). Although HUD has targeted these areas, you are still required to justify the need for the sponsored organization by: (i) demonstrating the presence of housing discrimination, segregation and/or other indices of discrimination in the project area based upon race, color, religion, sex, national origin, familial status, or disability and submit data and studies that support your claim; and (ii) explain

why the project area is underserved and why the proposed sponsored organization is needed. Your proposal must serve all persons protected by the Act.

(b) (5 Points) *Underserved Areas.* Up to five points will be awarded when the applicant *and* project area are not served by a State or local FHAP agency. In instances where the applicant is located in an area not served by a FHAP agency but the project activities are conducted in various geographic areas, some that are not served by a State or local FHAP agency, points will be awarded as follows:

5 points will be awarded if more than 80% of the activities are conducted in areas not served by a State or local FHAP agency.

4 points will be awarded if more than 60% but less than 80% of the activities are conducted in areas not served by a State or local FHAP agency.

3 points will be awarded if more than 40% but less than 60% of the activities are conducted in areas not served by a State or local FHAP agency.

2 points will be awarded if more than 20% but less than 40% of the activities are conducted in areas not served by a State or local FHAP agency.

1 point will be awarded if less than 20% of the activities are conducted in areas not served by a State or local FHAP agency.

You must indicate whether (a) you are located in an area that is served by a State or local FHAP agency (see Appendix C for a list of FHAP agencies); (b) the activities you propose will be conducted in a project areas served by a State or local FHAP agency; and (c) explain why the project area is underserved and/or why the proposed organization or activity is needed.

Attachments. None required.

Rating Factor 3: Soundness of Approach (40 Points)

You must describe your project in detail, demonstrate how your project activities will support HUD goals, propose suggested performance measures/outcomes in support of these goals, and identify current baseline conditions and target levels of the performance measures that you plan to achieve. Also attach a SOW and budget. Your proposed activities must support HUD's goals.

(1) (4 Points) *Support of HUD Goals.* Describe how your proposed project will further and support HUD. For FY 2002 FHIP applications, address the following:

A. *EOI.* (i) Applicants that are faith-based and other community-based organizations that propose to either partner or sub-contract with faith-based and other community-based organizations in conducting their work programs will receive one point under this sub-factor. Please describe the following:

(I) Project purpose.
(II) Persons to be served.
(III) Geographic area to be served.
(IV) Proposed activities and who will conduct these activities, e.g., you or a subcontractor(s) or consultant(s).
(V) The methodology you will use to carry out these activities and tasks.

(a) Applicants who partner or sub-contract with faith-based or community based organization in conducting their work program and submit a referral process will receive two points.

(b) Applicants who partner or sub-contract with faith-based or community-based organization in conducting their work program and do not submit a referral process will receive one point.

(ii) Up to three points will be awarded for applications specifically addressing housing discrimination based on national origin and religion since the September 11, 2001 attacks, as described in Section III(D), Priorities, of this NOFA. Please describe the following:

(I) Project purpose.
(II) Persons to be served.
(III) Geographic area to be served.
(IV) Proposed activities and who will conduct these activities, e.g., you or a subcontractor(s) or consultant(s), and
(V) The methodology you will use to carry out these activities and tasks.

(a) Applicants who target outreach activities to specifically address discrimination under the Fair Housing Act based on national origin and religion since the September 11, 2001 attacks and submit a referral process will receive three points.

(b) Applicants who target outreach activities to specifically address discrimination under the Fair Housing Act based on national origin and religion since the September 11, 2001 attacks and do not submit a referral process will receive two points.

B. PEI, FHOI, and EOI—Disability

Should discuss their project purpose and proposed activities, persons to be served, geographic areas and methodology.

In addition. If you apply under the:

EOI. Describe how activities or final products can be used by other organizations and agencies. Also, describe the elements of the complaint referral process you will develop as a task under this grant. Explain how this referral process will result in an increased number of referrals to HUD.

FHOI. Over the course of the grant, the sponsored organization must conduct fair housing-related enforcement activities and leverage non-FHIP resources. These are the performance measures that, if not met, may result in termination of the grant, and your description for achieving these measures will be considered when evaluating your application.

PEI/FHOI. Describe a procedure to ensure that referrals of all complaints are made as required by this NOFA. Your description should include safeguards to ensure that referred complaints are fully jurisdictional under the Act and supported by credible and legitimate evidence that the Act has been violated.

You may conduct limited outreach activities (for PEI and for FHOI), as described in section IV (B)(2). This must be reflected clearly in your SOW and Budget.

(2) (5 Points) *Performance Objectives and Measures.* Identify and discuss the specific methods and measures you will use (in addition to HUD reporting requirements) to measure progress, evaluate program effectiveness, and identify program changes necessary to improve performance. Describe how you will obtain, document and report the information. You will receive higher points under this subfactor if your application clearly states a specified set of performance criteria and outcomes that can be measured. Clearly identify the results of the proposed activities and what you will use to measure performance. The expected outcomes of your proposed activities should support HUD's strategic goal of "Ensuring Equal Opportunity and Access to Housing." You will receive fewer points if you fail to develop measurable objectives with respect to your stated activities.

Information Requirements. For PEI and FHOI, your application must include a description of the enforcement proposals to be referred to HUD. Your description must explain the information (see 24 CFR 121.2) you intend to collect and analyze, the type of complaints you anticipate referring to HUD for enforcement purposes, and describe the procedure you will implement for referring such complaints. If you propose a testing program, you must explain how you plan to structure the tests, train investigators, conduct investigations, etc. This description should make clear the safeguards to be used to ensure that complaints referred to HUD are fully jurisdictional under the Act and supported by credible and legitimate evidence that the Act has been violated. Describe the procedures you will put in

VOL
67
ISS
58
MR
26
2002
UMI

place to ensure that referrals of all complaints are sent to HUD. Failure to provide this description of your procedure will result in the reduction of 2 points for this subfactor.

(3) (15 Points) *Proposed Statement of Work (SOW) and Financial Management.* The SOW and budget are attachments that will not count toward the 10-page limit on the narrative response to this factor. However, points will be assigned based on the relevance of proposed activities to stated needs, attention to implementation steps, proposed activities consistent with organizational expertise and capacity and accuracy of the SOW and budget. See Section VI for submission requirements.

Statement of Work—Submit a proposed SOW that comprehensively outlines in chronological order the administrative and program activities and tasks to be performed during the grant period. Your outline should identify all activities and tasks to be performed and by whom (e.g., you, a subcontractor, or partner), and the products that will be provided to HUD and when. You should also include a schedule of your activities and products (with interim implementation steps), staff allocation over the term of the project; staff acquisition and training; and activities of partners and/or subcontractors. The tasks identified in the SOW should be related to the proposed budget (See Appendix C for sample SOW).

Financial Management Capacity. Describe and provide documentation to support your organization's financial management system. In addition, provide documentation about your capabilities in handling financial resources and maintenance of an adequate accounting and internal control procedures.

(4) (16 Points) *The Budget Form and the Budget Information*—HUD will also assess the soundness of your approach by evaluating the quality, thoroughness, and reasonableness of the budget and financial controls of your organization, including information on your proposed program cost categories. As part of your response, you must prepare a budget that: (1) is reasonable and cost-effective in achieving the goals identified in your proposed SOW; (2) relates tasks in the SOW to the proposed budget costs; (3) is cost-effective; (4) is quantifiable based on the Need identified in Factor 2; and (5) documents and justifies all cost categories in accordance with the cost categories indicated in the Budget Narrative Workplan that is discussed in more detail in paragraphs (a) through (j) below.

Cost Effectiveness of Program. Discuss and provide supportive facts concerning the extent to which your proposed program is cost effective in achieving the anticipated results of the proposed activities. Also, indicate how the proposed project is quantifiable based on the needs identified in Rating Factor 2.

FHOI Provide a statement of transfer of programmatic and management responsibilities from the sponsoring to sponsored organization by the end of grant year 3.

In addition:

Your Non-Construction Programs SF–424A must show the total cost of the project and indicate other sources of funds that will be used for the project. While the costs are based only on estimates, the budget narrative work plan must include information such as quotes obtained from various vendors, or you may rely on historical data. Applicants must round all budget items to the nearest dollar.

A written budget narrative must accompany the proposed budget. It must explain and attach back-up documentation for each cost category. Generally, estimated costs for high-cost items or subcontractors/consultants should be supported by bids from at least three (3) sources. Where there are travel costs for subcontractors/consultants, you must show that local subcontractors/consultants are not available and that the combined travel costs (per diem rates should be consistent with Federal Travel Regulations 41 CFR 301.11) and rates and fees of the out-of-town subcontractors/consultants do not exceed the rates and fees charged by local subcontractors and consultants. The narrative (counted toward the 10 page limit) and supporting documentation (not counted toward the 10 page limit) must address the following for maximum points.

(a) *Direct Labor—by position or individual,* specify the estimated hours per position, the rate per hour, estimated cost per staff position and the total estimated direct labor costs;

(b) *Fringe Benefits—by staff position,* identify the rate, the salary base on which the rate was computed, estimate the cost per position, and the total estimated fringe benefits cost;

(c) *Material Costs—indicate the item,* unit costs per item, the number of items to be purchased, estimated cost per item, and the total estimated material costs;

(d) *Transportation Costs*—where use of a local private vehicle is proposed, costs must indicate the proposed number of miles (travel costs should be consistent with Federal Travel Regulations), rate per mile of travel identified by item, and estimated total private vehicle costs. Where air transportation is proposed, costs should identify the destination(s), number of trips per destination, estimated air fare and total estimated air transportation costs. If other transportation costs are listed, you should identify the other method of transportation selected, the number of trips to be made and destinations, the estimated costs, and the total estimated costs for any other transportation costs.

(e) *Per Diem*—you must identify per diem or subsistence costs per travel day, the number of travel days, and the estimated costs for per diem/subsistence, which should total estimated transportation costs. You must use the Federal Travel Regulation for per diem rates for cities listed under "Transportation Costs" in your costs estimates.

(f) *Equipment charges*—must identify the type of equipment, quantity, unit costs and total estimated equipment costs;

(g) *Consultant Costs*—indicate the type, estimated number of consultant days, rate per day, total estimated consultant costs per consultant and total estimated costs for all consultants;

(h) *Subcontract Costs*—identify each proposed subcontract and amount (each proposed subcontract must include a separate budget that identifies proposed costs by cost categories). If applicable, your project budget must include any costs related to subcontract(s) with the FHAP agencies and disability advocacy and/or traditional civil rights organizations that account for activities related to the subcontractor's role in the project. Your application must include a separate detailed budget for each subcontract.

(i) *Other Direct Costs*—listed by item, quantity, unit costs, total for each item listed, and total direct costs for the award; and

(j) *Indirect Costs*—identify your approved indirect cost rate base to which the rate applies and total indirect costs. If you do not have an accepted, federally negotiated indirect cost rate, you may use direct cost for all of your program costs. Alternatively you may develop a proposed indirect cost rate in accordance with Office of Management and Budget (OMB) Circular A–122, Cost Principles and Procedures for Non-Profit Organizations, and provide supportive documentation on this calculation. You must establish your approved indirect cost rate base in accordance with Circular A–122. Organizations that have previously established indirect cost rates should not include direct costs in their indirect category.

Rating Factor 4: Leveraging Resources (10 Points Maximum)

This factor addresses your ability to secure additional resources to support your project. Points will be awarded on the basis of the percentage of non-FHIP resources you have identified and how firm the commitment is for those resources.

Firm Commitment of Leveraging. HUD encourages you to secure resources from sources other than what is requested from this program. Community resources may include funding or in-kind contributions, such as work space or services or equipment, allocated to the purpose(s) of your proposal. Resources may be provided by governmental entities (including other HUD programs), public or private non-profit organizations, for-profit private organizations, or other entities willing to work with you. In order to secure points you must establish leveraging of resources by providing letters of firm commitment from the organizations and/or individuals who will support your project. Each letter of firm commitment must: (i) Identify the organization and/or individual committing resources to the project, (ii) identify the sources and amounts of the leveraged resources (the total FHIP and non-FHIP amounts must match those in your proposed budget submitted under Factor 3), and (iii) describe how these resources will be used as part of your SOW. The letter must be signed by the individual or organization official legally able to make commitments for the organization. If the resources are in-kind or donated goods, the commitment letter must indicate the dollar value of those resources (Do not include indirect costs within your in-kind resources. In-kind and matching contributions and Program Income must be in accordance with part 84.23 and 84.24). No points will be awarded for general letters of support endorsing the project from organizations and/or individuals (including elected officials) in your community. The commitment is firm even if the offer is contingent upon HUD making an award under this program NOFA.

For PEI and EOI, if your project will not be supported by non-FHIP resources, then you will not receive any points under this factor. Points will be assigned for PEI and EOI based on the following scale:

2 points will be awarded if your project will be supported by non-FHIP resources, but those funds are less than 5% of the project's total costs are from non-FHIP resources.

4 points will be awarded if at least 5% and less than 10% of the project's total costs are from non-FHIP resources.

6 points will be awarded if at least 10% and less than 20% of the project's total costs are from non-FHIP resources.

8 points will be awarded if at least 20% and less than 30% of the project's total costs are from non-FHIP resources.

10 points will be awarded if at least 30% of the project's total costs are from non-FHIP resources.

For FHOI, 3 points will be awarded if more than 5%, but less than 10% of the project's total cost are from non-FHIP resources.

5 points will be awarded if at least 10% and less than 20% of the project's total costs are from non-FHIP resources.

7 points will be awarded if at least 20% and less than 30% of the project's total costs are from non-FHIP resources.

10 points will be awarded if at least 30% of the project's total costs are from non-FHIP resources.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which you develop interrelationships, provide increased independence and empowerment, and generate organizational and project self-sufficiency.

1. *Coordination*—You are encouraged to join together and pool all available resources in a common, coordinated effort. You should relate your activities with other organizations in the project area, participate or promote participation in the project area's Consolidated Planning process (including Analysis of Impediments to Fair Housing Choice), and create partnerships with other activities in the community. In evaluating this factor, HUD will consider the extent to which you demonstrate:

(a) You have coordinated your activities with other known organizations that are not directly participating in your proposed work activities, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner.

(b) The extent to which your application implements practical solutions within the grant term to result in assisting beneficiaries of grant program funds in achieving independent living, economic empowerment, educational opportunities, housing choice or improved living environments;

(c) The extent to which your application addresses outreach activities to promote awareness of project activities. At a minimum, your application should discuss procedures you will use to promote awareness of the services provided by your proposal.

2. *Self-Sufficiency*—You should demonstrate the extent to which your application develops solutions that result in increased independence and empowerment for those in your target areas. Such increased independence can result from such benefits as reducing discrimination practices, increasing awareness of the Act; increasing homeownership; eliminating barriers to housing choice or overcoming the impediments identified in the AI. For the EOI—Disability Component, you should demonstrate how the activities will assist the Department in implementing the Olmstead Supreme Court decision.

3. *Sustainability*—You should demonstrate the extent to which your program can become financially self-sustaining thereby decreasing your dependence on Federal funding and relying more on State, local and private funding so your activities can be continued after your grant award period is completed.

E. Factors for Award Used To Evaluate and Rate Applications for the National Education and Outreach Initiative Program

The factors for rating and ranking applicants and the maximum points for each factor, are provided below. The maximum number of points awarded any application is 100. Bonus points are not available for this category of funding.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 Points)

This factor addresses the extent to which the applicant has the organizational resources necessary to successfully implement the proposed activities in a timely manner, and the applicant's ability to develop and implement large information campaign projects as appropriate, on a national scale. The rating of the "applicant" or the "applicant's organization and staff" for technical merit or threshold compliance, unless otherwise specified, will include any sub-contractors, consultants, sub-recipients, and members of consortia that are firmly committed to the project.

(5 Points) General Description of Applicant Organization and Relevant Experience.

VOL
67
ISS
58
MR
26
2002
UMI

In rating this factor, HUD will consider the extent to which the applicant demonstrates:

(a) The qualifications of the applicant organization; the type of organization (e.g., public, private, non-profit, for profit); and the organization's general areas of activity or line of business.

(b) If the applicant has managed large, complex, interdisciplinary projects, the applicant must include information on them in its response.

(c) Awards and major accomplishments of the applicant organization must be described. HUD will also consider any documented evidence, such as performance reviews, newspaper articles, or monitoring findings that may reflect positively or negatively upon the ability of the applicant and its proposed staff to perform the work.

(d) The applicant's capability in handling financial resources with adequate financial control procedures and accounting procedures. In addition, HUD will consider findings identified in applicants' most recent audits; accuracy of mathematical calculations; and other available information on financial management capability.

(i) For the Media Campaign Component—Applicants must describe their ability to effectively develop, implement, and manage a media campaign on a national scale. (Applicants must be or include as part of their proposal a subcontract with an established media/advertisement organization that has experience in conducting national media campaigns.) Applicants for FHIP program funding must specifically describe their experience in developing or carrying out programs to prevent or eliminate discriminatory housing practices. Applicants must discuss their and/or subcontractor's ability to implement a coordinated national marketing awareness campaign, especially in the areas of fair housing, discrimination, public health, and housing. In responding to this subfactor, the applicant must describe the extent to which its and/or subcontractor's past activities have resulted in successful national media campaigns as appropriate, especially with respect to developing and implementing innovative strategies resulting in positive public response.

(ii) For the Fair Housing Awareness Component—Applicants must describe their ability to develop, implement and manage a national campaign to raise the public's awareness of subtle abusive and deceptive discriminatory housing loans and mortgage lending practices. You must describe your ability to understand fair housing issues/policies/practices. In responding to this subfactor, describe your knowledge of the sub-prime lending market and your past experience in developing and implementing innovative strategies in combating subtle abusive and deceptive lending practices on a nationwide basis.

(10 Points) Specific Description of Staff for Proposed Activities. The applicant must demonstrate that it has or will have sufficient personnel or will be able to quickly access qualified experts or professionals to deliver the proposed activities timely and effectively, including the readiness and ability of the applicant to immediately begin the proposed work program. Also the applicant must demonstrate relevant knowledge and experience of the overall proposed project director and staff, including the day-to-day program manager, consultants and contractors in planning and managing programs for which funding is being requested. To demonstrate that the applicant has sufficient qualified personnel, the applicant must submit the proposed number of staff hours for the sub-contractor, employees and experts to be allocated and availability of proposed staff to the project, the titles and relevant professional background and experience of each employee and expert proposed to be assigned to the project, and the roles to be performed by each identified employee and expert. Highly competitive applications must demonstrate that proposed staff has at least 3 years of recent and relevant experience to undertake eligible program activities or projects similar in scope or nature and directly relevant to the work activities proposed. Finally, applicants should describe their or their sub-contractor's expertise in languages other than English and in reaching the informational needs of non-English speaking audiences.

(5 Points) Consideration of Past Performance. Your past experience in terms of your ability to attain measurable progress in the implementation of your most recent and similar activities where your performance has been assessed. HUD will take into account your past performance in managing funds, including the ability to account for funds appropriately; timely use of funds received either from HUD or other Federal, state or local programs; meeting performance targets for completion of activities and number of persons to be served or targeted for assistance. HUD will use information related to these measures based on information on hand or available from public sources such as newspapers, Inspector General or Government Accounting Office Reports or Findings, hotline complaints that have been proven to have merit, or other such sources of information. In evaluating past performance, the following will apply to Fiscal Years 1998, 1999, and 2000 FHIP grantees:

5 points will be deducted if you obtained any "fair performance" assessment;
2 points will be deducted if you obtained any "good performance" assessment; and
0 points will be deducted if you obtained any "excellent performance" assessment.

For other Federal, State and local programs, include an assessment/review of the work performed under past projects. Attach a copy of the funding entity's performance assessment/review of this project, if applicable. The following will apply to funding received from other Federal, State and local programs:

3 points will be deducted for failing to meet target dates and schedules for performance; and
2 points will be deducted for failure to meet measurable program outputs and outcomes.

If you do not have a past performance assessment or prior experience you should include information such as meeting target dates, meeting program outputs and successful outcomes for projects similar in scope and give a description of the purpose of the project and what was accomplished. If audit reports are available, submit a copy of the most recent report. Those applicants that do not submit an audit reports will receive a lower score for this sub-factor than those that do.

Rating Factor 2: Need/Approach to the Problem (20 Points)

This factor addresses the extent to which the applicant documents and defines the national need that its proposed activities and methods are intended to address, and how its proposal offers the most effective approach for dealing with that national need. In responding to this factor, an applicant will be evaluated on the following:

(1) The extent to which the applicant defines, describes, and documents the national need the application intends to address, which demonstrates a grasp of the elements of the problem, its pervasiveness at the national level, and an understanding of the necessary mass media vehicles. The applicant's description of the national need will be used to evaluate the depth of the applicant's understanding of the problem as an indication of ability to address the problem; and

(2) If the applicant has experienced staff or if the applicant proposes to use a contractor subgrantee, the extent to which the applicant provides a rationale for how it will utilize its staff or a contractor or subgrantee to incorporate its proposed activities, methods, and media techniques will most effectively deal with the national need described by the applicant in response to subfactor (1), immediately above. To the extent possible, applicants should demonstrate effectiveness in terms of scope and cost.

Rating Factor 3: Soundness of Approach (40 Points)

This factor addresses the quality and cost-effectiveness of the applicant's proposed work plan. The SOW must address the strategy, quality and time frames needed to carry out the project and all activities as proposed.

(5 Points) Measuring Performance Results. Applicants must describe their specific methods and measures to assess progress, evaluate program effectiveness, and identify program changes necessary to improve performance to ensure that commitments made and results to be achieved can be accounted for and independently assessed to ensure performance measurements are met. Applicants who have identified inputs and outcome measurements and included means for assessing these measures, tracking and monitoring performance goals and achievements against commitments made in the application will receive higher points than those that do not.

(15 Points) Statement of Work. Submit a proposed SOW that comprehensively outlines in chronological order the administrative and program activities and tasks to be performed during the grant period. Your outline should also include a schedule of proposed activities and products (with interim implementation steps), staff allocation over the term of the project, staff acquisitions and training, and activities of partners and subcontractors.

For the Media Campaign Component—HUD anticipates that products will be available in at least 3 languages plus English. Deliverables may include Public Service Announcements (PSAs) for radio and television in both majority and minority markets, and posters and other graphic materials. Graphic materials may include, but are not limited to, enlarged reproductions of several print PSAs, separately produced and printed posters for national public dissemination, and the development of ad slicks to market in newspapers and magazines nationwide. The applicant should plan on using a clipping service or other appropriate means to collect information on frequency and scope of the placement of ads.

For the Fair Housing Awareness Component—HUD anticipates that all proposed activities will be conducted in a manner that will reach and benefit those members of the public vulnerable to subtle abusive and deceptive mortgage lending practices (e.g. languages, formats, locations, distribution, use of minority media). Applicants may target such tactics as: Loan flipping, multiple refinancing transactions over short periods of time, balloon payments, insurance packing and other predatory lending tactics. Deliverables may include Public Service Announcements (PSAs) for radio and television, and posters and other graphic materials. Graphic materials may include, but are not limited to; enlarged reproductions of several print PSAs, and separately produced and printed posters for national public dissemination.

In evaluating this factor, HUD will consider the extent to which you submit and describe your:

(10 Points) Work Plan. Applications should include work plans that: (a) Clearly describe the specific activities and tasks to be performed, the sequence in which the tasks are to be performed, noting areas of work which must be performed simultaneously, estimated completion dates, and the work and program deliverables to be completed within the grant period, including specific numbers of quantifiable end products and program improvements the applicant aims to deliver by the end of the award agreement period as a result of the work performed;

(b) Provide national media market coverage, specific protected class focus, as well as focus on persons underserved (ethnic and racial minorities, especially those who are non-English speaking or who are not proficient in English); and

(c) Describe the immediate benefits of the project and how the benefits will be measured. Applicants must describe the methods they will use to determine the effectiveness of their national marketing strategies.

(d) Ensure that your application adheres to Performance Measures as outlined in Section IV(A)(2).

(10 Points) Budget Form and Budget Information. A written budget narrative must accompany the proposed budget. The narrative (counted toward the 10 page limit) and supporting documentation (not counted toward the 10 page limit) must address the following for maximum points:

(1) Cost estimates of salary levels, staff assignments, number of staff hours, and all other budget items are reasonable, allowable, and appropriate for the proposed activities;

(2) The proposed program is cost effective in achieving its anticipated results, as well as in achieving significant impact; and

(3) The proposed program is effective by explaining and attaching back-up documentation for each cost category. Generally, estimated costs for high-cost items or subcontractors/consultants should be supported by bids from at least three (3) sources. Where there are travel costs for subcontractors/consultants, you must show that local subcontractors/consultants are not available and that the combined travel costs (per diem rates should be consistent with Federal Travel Regulations) and rates and fees of the out-of-town subcontractors/consultants do not exceed the rates and fees charged by local subcontractors and consultants. A breakdown of each cost category is listed in Section V(D) of this NOFA.

In addition: (4) The proposed activities will be conducted in a manner (e.g., languages, formats, locations, distribution, use of majority and minority media) that will reach and benefit all members of the public, especially members of target groups identified in the individual program sections of this National NOFA;

(5) How proposed activities will yield long-term results and innovative strategies or "best practices" that can be readily disseminated to other organizations and State and local governments; and

(6) The proposed Media Campaign and Fair Housing Awareness Components make available activities, training and meeting sites, and information services and materials in places and formats that are accessible to all persons including persons with disabilities.

Rating Factor 4: Leveraging Resources (10 Points Maximum)

This factor addresses the ability of the applicant to secure other resources, which can be combined with HUD's program resources to achieve program purposes. In evaluating this factor HUD will consider:

The amount of non-FHIP resources you have identified and how firm the commitment is for those resources. HUD encourages you to secure resources from sources other than what is requested from this program. Resources may include funding or in-kind

VOL
67
ISS
58
MR
26
2002
UMI

contributions, such as workspace, donated media announcements, or equipment allocated to the purposes of your proposal. Resources may be provided by governmental entities (including other HUD programs) public or private non-profit organizations, for profit private organizations, or other entities willing to work with you in accordance with the proposed FHIP activities. If your project will not be supported by non-FHIP resources, then you will not receive any points under this factor. Points will be assigned based on the following scale:

2 points will be awarded if your project will be supported by non-FHIP resources, but those funds are less than 5% of the project's total costs are from non-FHIP resources.

4 points will be awarded if at least 5% and less than 10% of the project's total costs are from non-FHIP resources.

6 points will be awarded if at least 10% and less than 20% of the project's total costs are from non-FHIP resources.

8 points will be awarded if at least 20% and less than 30% of the project's total costs are from non-FHIP resources.

10 points will be awarded if more than 30% of the project's total costs are from non-FHIP resources. You must establish leveraging of resources by providing letters of firm commitment from the organizations and/or individuals committing resources to the project. Each letter of firm commitment must: (i) Identify the organizations and/or individuals committing resources to the project; (ii) identify the sources and amounts of the leveraged resources (the total FHIP and non-FHIP amounts must match those in your proposed budget submitted under Factor 3), and (iii) describe how these resources will be used as part of your SOW. The letter must be signed by the individual or organization official legally able to make commitments for the organization. If the resources are in-kind or donated goods, the commitment letter must indicate the dollar value of these resources. No points will be awarded for general letters of support endorsing the project from organizations and/or individuals (including elected officials) in your project area(s).

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which you develop interrelationships, provide increase independence and empowerment, and generate organizational and project self-sufficiency.

1. *Coordination*—You should address the extent to which your program provides materials, training or services and implements a coordinated process of addressing the national need by using HUD funding resources and other available resources. You must also describe how they plan to use their affiliated branches, or partner with other organizations, to distribute materials or services developed under this National NOFA for use at the local level. In evaluating this factor, HUD will consider:

(a) The extent to which you have developed interrelationships to help build nation-wide efforts that coordinates the resources of multiple applicants and programs. HUD encourages multiple entities to join together and pool all available resources in a common, coordinated effort to obtain national geographic coverage. Describe in your proposal how your project activities will be coordinated with other organizations and linked with: (i) Other on-going HUD-funded program activities; (ii) Other on-going national, Federal, State, local or privately funded activities.

(b) The extent to which your application addresses outreach activities to promote awareness of project activities. This includes: (i) a discussion of how your methods or approaches will ensure that project activities and materials are distributed nationally, regionally, and locally to groups and organizations, (ii) identification of such groups and organizations in your project area, and (iii) an explanation of how your project will promote national coordination with various groups or organizations. At a minimum, your application should discuss procedures you will use to promote awareness of the services provided by your proposal.

2. *Self-Sufficiency*—You should demonstrate the extent to which your application develops solutions that result in increased independence and empowerment for those on a national level. Such increased independence can result from such benefits as reducing discrimination practices; increasing awareness of the Act; increasing homeownership; or eliminating predatory lending practices.

3. *Sustainability*—You should demonstrate the extent to which your program can become financially self-sustaining thereby decreasing your dependence on Federal funding and relying more on state, local and private funding so your activities can be continued after your grant award period is completed.

(F) Applicant Notification and Award Procedures

(1) *Notification.* No information about the review and award process will be available to you during the period of HUD evaluation, which begins on the closing date for applications under this NOFA and lasts approximately 90 days thereafter, except to advise you, in writing or by telephone, if HUD determines that your application is ineligible or has technical deficiencies which may be corrected as described in Section V of the General Section of the SuperNOFA and Section VII of this NOFA.

(2) *Negotiations.* If you are selected, HUD will require you to participate in negotiations to determine the specific terms of your cooperative or grant agreement. HUD will follow the negotiation procedures described at Section III of the General Section of the SuperNOFA. The selection is conditional and does not become final until the negotiations between the applicant and the Department are successfully concluded and the grant or cooperative agreement is signed and executed. HUD will negotiate only with the person identified in the application as the Director of the organization or if specifically identified in the application, the Project Director. HUD will not negotiate with any third party (i.e, a subcontractor, etc.).

(3) *Funding Instrument.* HUD expects to award a cost reimbursable or fixed-price cooperative or grant agreement to each applicant selected for award. Upon completion of negotiations, HUD reserves the right to use the funding instrument it determines is most appropriate.

(4) *Adjustments to Funding.* As provided in Section III of the General Section of the SuperNOFA, HUD may approve an application for an amount lower than the amount requested, fund only portions of your application, withhold funds after approval, reallocate funds among activities and/or require that special conditions be added to your grant agreement, in accordance with 24 CFR 84.14, the requirements of this SuperNOFA, or where:

(a) HUD determines the amount requested for one or more eligible activities is unreasonable or unnecessary;

(b) An ineligible activity is proposed in an otherwise eligible project;

(c) Insufficient amounts remain to fund the full amount requested in the application, and HUD determines that partial funding is a viable option;

(d) The past record of key personnel warrants special conditions; or,

(e) Training funds are not reserved for FHIP training.

(5) *Performance Sanctions.* A grantee or subcontractor failing to comply with the requirements set forth in its grant agreement will be liable for such sanctions as may be authorized by law, including repayment of improperly used funds, termination of further participation in the FHIP, and denial of further participation in programs of HUD or any Federal agency.

(6) *Applicant Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the **Federal Register**, and for not longer than 120 days, HUD will, upon receiving written request from the applicant, provide a debriefing to the requesting applicant. Materials provided during the debriefing will be the applicant's final scores for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied. Applicants requesting a debriefing must send a written request to Annette Corley, Public Trust Officer, U.S. Department of Housing and Urban Development, FHIP/FHAP Support Division, 451 7th Street SW, Room 5224, Washington, DC 20410. HUD will not release the names of applicants or their scores to third parties. Selections do not become final until final negotiations with HUD are successfully concluded.

VI. Application Submission Requirements

In addition to the forms, certifications and assurances required of applicants to all HUD programs, which can be found in the General Section of the SuperNOFA, you must submit with each FHIP application, the forms, certifications and assurances described below and found at Appendix B.

In General

When applying under any Initiative or Component you must submit the following:

(A) *Transmittal Letter.* Your transmittal letter must identify: (1) The dollar amount requested, (2) the specific FHIP Initiative, or in the case of EOI, whether for the Regional/Local Community Based Program or the National Program, and the specific Component (General or Disability, Media Based or Fair Housing Awareness), for which you are applying, and (3) your preference for selection, if you are applying to more than one Initiative or Component (does not apply for FHOI).

(B) *Cover Page.* Respond to Applicant's Preference for Award which identifies your rank order preference if submitting more than one application. Failure to submit the Cover Page will result in a correctable Technical Deficiency as outlined in Section V of the General Section of this NOFA.

(C) *Narrative Statement.* Respond completely to the instructions under each of the five Factors for Award and include the related items, such as resumes, SOW, and budget. Failure to provide the required information in the appropriate Factor will result in a lower score for that Factor—for example, information in the Project Abstract, although useful for developing a project synopsis, will not be considered when evaluating applications. The narrative responses must not exceed 10 pages per factor (required attachments are not counted); text must be double-spaced and pages numbered consecutively (starting with Factor 1 through the end of Factor 5). Please use 12 typesize for your narrative responses.

(D) Applicants must develop, maintain, and submit a written code of conduct as noted in the General Section.

Listed below are requirements by Factor for the Regional/Local Community Based Programs:

Award Factor 1: Capacity of Applicant and Relevant Organizational Experience—Narrative, Performance Assessments/Evaluation of Past Projects if Applicable

In addition:

For PEI and FHOI Applicants:

(1) *Testing Experience.* You must document your prior testing experience (see Factor 1: Capacity of the Applicant and Relevant Organizational Experience),

(2) *Letter of Determination from IRS* of your 501(c)(3) tax-exempt status, and

(3) *Statement of Eligibility.*

Award Factor 2: Need/Distress/Extent of the Problem

Narrative. Reference or submit data and studies that indicate the presence of housing discrimination, segregation and/or other indices of discrimination in the project area based upon race, color, religion, sex, national origin, familial status or disability, and explain why the project area is underserved and why the proposed organization is needed. Do not attach copies of reports, computer print-outs, etc. If you have tables or exhibits include them. Make sure they are referenced in the text. Attachments not mentioned in the text will not be reviewed necessarily.

Award Factor 3: Soundness of Approach—Narrative, Statement of Work, Budget Form(s), Budget Narrative

You MUST submit a certification from an Independent Public Accountant or your cognizant government auditor on your financial management and audit information. Failure to submit this information will result in points being deducted from your application. In addition, you must describe the information you intend to collect and analyze, the type of complaints you anticipate referring to HUD for enforcement purposes, and describe the procedure you will implement for referring such complaints.

In addition: Depending upon the Initiative or Component for which you are seeking funding, you must respond to the following points in your narrative responses:

(a) For EOI Applicants, You must describe the elements you will use to develop the process for referring fair housing complaints to HUD.

(b) For FHOI Applicants,

(1) The sponsored organization must conduct all of these enforcement-related activities by the conclusion of year 3 of the grant: complaint intake, complaint investigation, testing for fair housing violations, and meritorious claims. The application must specify which activities will be conducted in year 1, year 2, and year 3. Even though HUD has targeted for award projects that assist rural and immigrant populations, you must explain why the proposed fair housing enforcement organization is needed.

(2) Performance Measures. You must address the following:

(i) the sponsored organization's capacity to become a viable, fair housing enforcement organization that conducts fair housing related enforcement activities and leverages non-FHIP resources.

(ii) that the sponsored organization will meet the required performance measures for sponsored organizations and how these measures will be achieved.

Award Factor 4: Leveraging Resources—Narrative. Letter(s) of Firm Commitment

Award Factor 5: Coordination, Self-Sufficiency and Sustainability—Narrative

No attachments are required.

Listed below are the requirements by Factor for the EOI—National Program Components.

Award Factor 1: Capacity of Applicant and Relevant Organizational Experience—Narrative

Performance Assessments/Evaluation of Past Projects if applicable.

Award Factor 2: Need/Distress/Extent of the Problem—Narrative

Reference and submit data and studies that indicate the need for a centralized, coordinated fair housing media designed to educate the public about their fair housing rights. Do not attach copies of reports, computer printouts, etc. If you have tables or exhibits include them. Make sure they are referenced in the text. Attachments not mentioned in the text will not be reviewed necessarily.

Award Factor 3: Soundness of Approach—Narrative

SOW. Budget Form(s), Budget Narrative. You MUST submit a certification from an Independent Public Accountant or your cognizant government auditor on your financial management and audit information.

Award Factor 4: Leveraging Resources—Narrative

Letter(s) of Firm Commitment.

Award Factor 5: Coordination, Self-Sufficiency and Sustainability—Narrative

No attachments are required.

Audit Information—Unless you are a new Federal applicant, you must submit a certification from an Independent Public Accountant or your cognizant government auditor, stating that the financial management system you employ meets prescribed standards for fund control and accountability required by: OMB Circular A–133, Audits of States, Local Governments and Non-Profit Organizations; OMB Circular A–110 (as codified at 24 CFR part 84), Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and other Non-Profit Organizations; and/or OMB Circular A–102 (as codified at 24 CFR Part 85) Uniform Administrative Requirements for Grants and Cooperative Agreements to State, Local and Federally-Recognized Indian Tribal Governments. This information must contain the name and telephone number of the Independent Auditor, cognizant Federal auditor, or other audit agency, as applicable. Failure to submit this information will result in points being deducted from your application. This information must be provided before HUD will enter into a grant or cooperative agreement.

VII. Corrections to Deficient Applications

Section V of the General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

In accordance with 24 CFR 50.19(b)(3), (4), (9), (12), and (13) of HUD regulations, activities assisted under this program are categorically excluded from the requirements of the National Environmental Policy Act and are not subject to environmental review under related laws and authorities.

IX. Authority

Section 561 of the Housing and Community Development Act of 1987, as amended, (42 U.S.C. 3616) established the Fair Housing Initiatives Program (FHIP)) and the implementing regulations are found at 24 CFR part 125.

APPENDIX A—FREQUENTLY ASKED QUESTIONS

Q. If data, tables, exhibits, and studies are submitted with the application, will they be counted toward the 10 page limit requirement?

A. Yes. Summarize the points you want to make in the 10 page narrative statement from the data tables, exhibits, and studies.

Q. In previous years, FHIP applicants were not required to submit the Certification of Consistency with the Consolidated Plan. Is the Certification required this year?

A. Yes.

Q. Where can I find a copy of the Application Kit?

A. There is no Application Kit for the FY2002 FHIP SuperNOFA. The NOFA clearly describes the requirements for completing a successful application and all forms and certifications needed to complete the application are included in the General and FHIP Sections of the SuperNOFA.

Q. What are the maximum number of narrative pages that can be submitted for each Rating Factor?

A. The maximum number is 10 pages per Rating Factor. This does not include any attachments that may be required under each factor (for example, the proposed statement of work and budget required under Factor 3: Soundness of Approach). The narrative pages must be double-spaced and you are required to use 12 typesize. Points will be deducted from your application if this criteria is not met.

Q. The FHIP SuperNOFA refers to QFHOs and FHOs. What is the difference between them?

A. These terms are defined in the FHIP regulations. Both organizations must be private, tax-exempt, charitable organizations that have engaged in enforcement-related activities. The amount of enforcement-related experience is an eligibility requirement for PEI, least one year for and FHOI, at least two years. (See 24 CFR 125.103 for QFHO and 24 CFR 125.401(b)(2) for FHO.)

Applicants to PEI and FHOI are required to complete the Statement of Eligibility—where they self-identify as a QFHO or an FHO and provide information, including dates of enforcement-related activities. The information you provide should enable HUD to determine if your organization meets at least the one or two year enforcement-related experience requirement.

Q. May an applicant subcontract out a percentage of its activities to subcontactors or consultants, if it is selected for a FHIP award?

A. Yes. However, when the expenditures to a particular subcontractor, partner, subgrantee, or consultant exceed 10% of the grant amount, an itemized budget is required.

Q. Is an organization "engaged in testing for fair housing violations" if it hires an organization to subcontractor or consultant in conducting its testing program?

A. Yes, so long as the applicant analyzes the test results, and undertakes some oversight or selection of testing operations.

Q. Does the SuperNOFA identify what makes an application ineligible?

A. Yes. See the eligibility requirements for each Initiative and Section IV(B) of the FHIP NOFA, and the Threshold Criteria in Section V(A).

Q. Can an applicant propose to do an Analysis of Impediments (AI)?

A. No. The applicant can identify activities to be carved out of the AI but not to do planning to develop AI.

Q. Are there major differences between this year's SuperNOFA and last year's?

A. Yes, those differences are explained in Section III of the FHIP NOFA.

Q. At what point may a FHOI "sponsored organization" apply under any FHIP Initiative?

A. A sponsored organization is eligible after three (3) years to apply for funds under EOI and, depending upon its record of conducting enforcement-related activities, may be eligible to apply for funds under PEI.

Q. What are maximum awards?

A. Maximum award is the maximum amount that will be awarded under the Initiative for which you are applying. If you request an amount over this maximum amount, your application will be declared ineligible.

Q. Where do you send completed applications?

A. All completed applications must be received by the FHIP/FHAP Support Division Office in Washington, DC. These applications should be mailed or sent by an express service to the address stated in the SuperNOFA under the Section Address for Submitting Applications.

Q. What is the best method of knowing that the appropriate person has received my application? Should I follow up with a call?

A. Include with your completed application a complete copy of the Acknowledgment of Application Receipt. Be sure to include your correct mailing address and the person to whom the Acknowledgment should be sent. HUD will not acknowledge the receipt of applications over the telephone (see General Section for return receipt requirements).

Q. What is the website address?

A. Http//www.hud.gov/grants

Q. What is the due date?

A. The due date is outlined in this NOFA under Section I, Application Due Date.

Q. If I have a technical question, can I call HUD?

A. Yes, technical questions should be directed to Lauretta A. Dixon, Myron P. Newry, or Denise L. Brooks of the [FHIP/FHAP Support Division at (202) 708–0800 (this is not a toll-free number).] Persons with hearing or speech impairments may call 1–800–290–1617 (this is a toll-free number). Technical assistance does not extend to helping you to write your individual application, but to clarify general application and program requirements.

Q. What is meant by geographic diversity?

A. See comments above in Section V.

Q. As an FHOI applicant, are education and outreach expenses required to come out of my 15% administrative costs?

A. No. The education and outreach expenses can be accounted for in the budget of the organization being established or enhanced.

STATEMENT OF WORK FOR

The applicant, _____, agrees to undertake the following activities in accordance with its FY 2002 application for funding under the _____ Initiative--_____Component (if applicable) for a ___-month project commencing _____, 2002 in the geographic area of _____. For FHOI, provide a timetable for transfer of activities/responsibilities from the sponsoring to the sponsored organization.

APPENDIX C - FORMS

Forms that must be filed with all FHIP applications, in addition to the forms listed in the **General Section** are included below:

ADMINISTRATIVE ACTIVITIES	TASKS	SUBMITTED BY	SUBMITTED TO
1.			GTR/GTM
2.			GTR/GTM
3.			GTR/GTM
4.			GTR/GTM
5.			GTR/GTM
6. Complete HUD-2880 Disclosure Statements	Submit Disclosure Statement. If no changes occur, submit statement of no change with final report	When changes occur	GTR/GTM
7. Complete SF-269A Financial Status Report and Written Quarterly Status Reports on All Activities	Submit SF-269A and Copy of Written Report	Quarterly	GTR/GTM
8. Voucher for Payment	Submit payment request to LOCCS	Per Payment Schedule	GTR/GTM
9. Complete Listing of Current or Pending Grants/Contracts/Other Financial Agreements	Submit Listing for Recipient and any contractors	45 Days and At end of Grant	GTR/GTM
10. Prepare summary of First Year (24 month grants)	Submit summary of first year accomplishments.	395 days	GTR/GTM

ADMINISTRATIVE ACTIVITIES	TASKS	SUBMITTED BY	SUBMITTED TO
11. Prepare and Submit Draft of Final Report	Submit Draft of Report. Report Summary should include objectives, accomplishments and results. Complaint and testing activities should summarize data on complaints received and tests conducted by basis and issue and outcomes including Number of credible, legitimate Complaints Filed with HUD, State or local Fair Housing Agency, Department of Justice or Private Litigator; and Types of Relief/Results.	One month before end of grant term.	GTR/GTM
12. Complete Final Report and Provide Copies of All Final Products Not Previously Submitted	Submit a copy of the Final Report and All Final Products not previously submitted to GTR and GTM.	Within 90 days after end of grant term.	GTR/GTM
13. Submit 2 copies of Final Report and all Final Program Products produced under the Grant (with diskette, where feasible) to HUD.	Activities and database entry sheet(s) to HUD Copy of HUD database entry sheet(s) or detailed description of items submitted to GTR and GTM	Within 90 days after end of grant term.	GTR/GTM/

*When individual subcontract fees exceed 10% of your grant amount, an itemized budget is required.

** If you have a Federally negotiated indirect rate, you should use that rate and the appropriate base in this section. In all other instances, you should include your current overhead rate, if any, which has been tailored to your organization's operating budget. The rate and base used here is illustrative only and you must use your organization's rate.

Cover Page FY 2002 FHIP Application

Check Initiative/Component (only one box) for which the application is being submitted. Submit a separate application for each Initiative/Project for which funding is sought.

Applicant Name _____

Initiative/Component	Catalog of Federal Domestic Assistance No.
Private Enforcement Initiative	14-410
Education and Outreach Initiative/Regional-Local-Community Based Program	14-409
General Component	14-409
Disability Component	14-409
National Program Media Campaign Component	14-409
National Program Fair Housing Awareness Component	14-409
Fair Housing Organizations Initiative	14-413

If you submit more than one application, you must indicate in the table below all Initiatives for which you are applying. In addition, if you apply for funding under more than one Initiative or Component, you must state your priority for selection and submit your preference in the table below. If you fail to submit your preference, your application will be deemed technically deficient.

Applicant's Preference for Award

STATEMENT OF ELIGIBILITY

The Completed Statement of Eligibility is required for all the Private Enforcement and Fair Housing Organizations Initiatives applicants. (You may attach additional pages if necessary.) Failure to complete and submit this Statement of Eligibility with the application will be deemed a 'technical deficiency'. (See Section V of the General Section of the SuperNOFA)

++

Check Appropriate Box: (Note: Only QFHOs are eligible for FHOI)

❑ **PRIVATE ENFORCEMENT INITIATIVE**

❑ **FAIR HOUSING ORGANIZATIONS INITIATIVE**

1) What is your organizational Status?

Is your organization a private, tax-exempt, nonprofit, charitable organization?

❑ **YES** ❑ **NO**

If yes, have you attached a copy of the "Letter of Determination" from the Internal Revenue Service confirming your status as a 501(c)(3) tax-exempt organization.

❑ **YES** ❑ **NO**

2) Are you a Qualified Fair Housing Organization (QFHO) or a Fair Housing Organization (FHO) with at least one year's experience in complaint intake, complaint investigation, testing for fair housing violations, and meritorius claims? If you check "no", you are not eligible under this initiative . if you check "yes", you must answer the remaining questions.

❑ **YES** ❑ **NO**

Please check whether you are a QFHO or an FHO as noted.

❑ **QFHO (entity with at least 2 years of enforcement-related experience)**

❑ **FHO (entity with at least 1 year of enforcement-related experience)**

3) Is your project broad-based and full service? If you check "no", your organization is not eligible to apply under this initiative. If you check "yes", you must answer the remaining questions.

❑ YES ❑ NO

4) Briefly describe your experiences in each of the following fair housing enforcement activities. Your organization must have engaged in each of these activities for at least one year in the two years preceding the filing of this application. It is not necessary that the activities were conducted simultaneously nor for consecutive/continuous years, as long as each activity has been conducted for at least one year within the past two years. (Do not limit this description to FHIP funded enforcement activities.)

When responding to the following, include dates, so that HUD can readily determine whether you have met the "at least one year" requirement.

a) **Number of complaints received and processed, by basis (e.g. race, color, religion, sex, disability, familial status, and national origin) and issue (e.g. rental, sales, lending).**

b) **Number of complaints referred to HUD for investigation.**

c) **Describe your testing program, types of tests (rental, sales, lending, insurance, and basis (e.g. race, color, religion, sex, disability, familial status, and national origin)), including number of tests conducted (both individual and systemic).**

d) **Describe the investigative experience, apart from testing, conducted by your organization.**

e) **Summarize the complaint outcomes, including judicial and administrative findings; number of pending complaints; and number of awards and amount to plaintiffs of monetary/non-monetary relief.**

5) Has your organization used FHIP funds for the payment of expenses in connection with litigation against the United States?

❑ YES ❑ NO

6) Has your organization used FHIP funds to settle a claim, satisfy a judgment or fulfill a court order in any defensive litigation?

❑ YES ❑ NO

All Current or Pending Grants/Contracts/Other Financial Agreements

All applicants are required to list all current or pending grants, contracts, or other financial agreements. The listing must include the name and address of the funding source, a brief description of the project services/activities, the start and end dates for the grant or contract, and the amount of the contract or grant. This list must be updated during the negotiations for any award under the FY 2002 FHIP, as provided for in the grant agreement schedule of articles.

A sample listing is provided below.

A blank form is provided for your use also, or you may submit the information in any convenient format.

Sample Format

Listing of Current and Pending Grants/Contracts/Other Financial Agreements

Name and Address of Entity or Organization	Brief Description of Services/Activities Provided	Dollar Amount of Grant or Contract	Start Date and Expiration Date

If the current or pending grant is a FHIP grant, please include your FHIP grant number.

Listing of Current and Pending Grants/Contracts/Other Financial Agreements

Name and Address of Entity or Organization	Brief Description of Services/Activities Provided	Dollar Amount of Grant or Contract	Start Date and Expiration Date

If the current or pending grant is a FHIP grant, please include your FHIP grant number.

FUNDING AVAILABILITY FOR THE HOUSING COUNSELING PROGRAM

PROGRAM OVERVIEW

Program Purpose. This program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and the homeless. The primary objectives of the program are to expand homeownership opportunities and improve access to affordable housing. Counselors provide guidance and advice to help families and individuals improve their housing conditions and meet the responsibilities of tenancy and homeownership.

Agencies funded through this program may also provide Home Equity Conversion Mortgage (HECM) counseling to elderly homeowners who are looking to convert equity in their homes into income that can be used to pay for home improvements, medical costs, living expenses, or other expenses.

Available Funds. Approximately $18.25 million.

Eligible Applicants. (1) HUD-approved local housing counseling agencies (LHCAs); (2) HUD-approved national and regional intermediaries; and (3) State housing finance agencies (SHFAs).

Application Deadline. May 17, 2002.

Match. No specific ratio required. However, in order to receive points under rating factor 4, applicants are required to demonstrate the commitment of other private and public sources of funding to supplement HUD funding for the applicant's counseling program. HUD does not intend for its housing counseling grants to cover all costs incurred by an applicant.

ADDITIONAL INFORMATION

I. Application Submission, Further Information and Technical Assistance

Application Submission. In addition to reviewing the applicable instructions below, all applicants should consult the General Section of this SuperNOFA and review the new security procedures that affect application submission.

Local Housing Counseling Agencies (LHCAs) and State Housing Finance Agencies (SHFAs) applying under Categories 1 and 3 must submit an original and two copies of a complete application to the Homeownership Center (HOC) whose jurisdiction includes the geographic area in which the applicant is proposing to work (see Appendix B.) *Applications submitted to a HOC must be mailed via the United States Postal Service.* HUD will not accept hand delivered applications. Your application will be considered timely if it is postmarked on or before 12 midnight on May 17, 2002 and received by the designated HUD office on or within fifteen (15) days of the application due date. *All applicants must obtain and save a Certificate of Mailing* showing the date when you submit your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was filed on time. Applications should be sent to the attention of the Program Support Division Director, and the envelope should be clearly marked "FY 2002 Housing Counseling Grant Application."

National and regional housing counseling intermediaries applying under Category 2 must submit an original and two copies of a complete application to Director, Program Support Division, Room 9166, Office of Single Family Housing, HUD Headquarters, 451 Seventh Street, SW., Washington, DC 20410. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. *No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.* The envelope should be clearly marked, "FY 2002 Housing Counseling Intermediary Application."

Mailed Applications. Your application will be considered timely if it is postmarked on or before 12 midnight on May 17, 2002 and received by the designated HUD office on or within fifteen (15) days of the application due date. All applicants must obtain and save a *Certificate of Mailing* showing the date when you submit your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was filed on time.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent to HUD Headquarters by overnight delivery or express mail, your application will be considered on time if it is received before or on May 17, 2002, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Again, you must use one of the four carrier services listed above. Delivery by these services must be made during HUD Headquarters' business hours, between 8:30 AM and 5:30 PM Eastern Time, Monday to Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Grant Application—Colonias. Applicants applying under Category 4 must submit an original and two copies of a complete application to the Santa Ana HOC (see Appendix B.) The Santa Ana HOC will be evaluating all applications submitted from across the country. Applications should be sent to the attention of the Program Support Division Director, and the envelope should be clearly marked "FY 2002 Housing Counseling—Colonias Application". Applications submitted to a HOC must be mailed *via the United States Postal Service.* HUD will not accept hand delivered applications. Your application will be considered timely if it is postmarked on or before 12 midnight on May 17, 2002 and received by the Santa Ana HOC on or within fifteen (15) days of the application due date. *All applicants must obtain and save a Certificate of Mailing* showing the date when you submit your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was filed on time.

Application Kits. There is no application kit. Specific application submission requirements are outlined in Section V.

Further Information. Local housing counseling agencies and State housing finance agencies should call the HOC serving their area (See Appendix B for the contact information for the HOCs). National and regional intermediaries should contact HUD Headquarters, Program Support Division at (202) 708–0317 (this is not a toll-free number). Persons with hearing or speech impairments may access any of these numbers via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339. These are not toll free telephone numbers.

Satellite Broadcast. HUD will hold an informational broadcast via satellite for potential applicants to learn more about the program and the application. For more information about the date and time of the broadcast, consult the HUD web site at *http://www.hud.gov/grants.*

II. Amount Allocated

Under this SuperNOFA, approximately $18.25 million of the $20 million appropriated in FY 2002 is made available for eligible applicants, including $250,000 for counseling services that specifically target Colonias.

VOL
67
ISS
58
MR
26
2002
UMI

An allocation of up to $1 million of the $20 million total in program funding has been set aside for housing counseling support which may include continuation of the Housing Counseling Clearinghouse, tuition assistance for housing counselors, and/or other HUD counseling initiatives and activities. An allocation of up to $750,000 of the $20 million appropriated is available for the Home Equity Conversion Mortgage (HECM) Program, as provided in section 255(k) of the National Housing Act (12 U.S.C. 1715z-20).

III. Grant Categories/Eligible Applicants

Grant Categories—Under the Housing Counseling Program, HUD awards grants to qualified public or private nonprofit organizations to provide housing counseling services through four grant categories: (1) Local Housing Counseling Agencies (LHCA); (2) National and Regional Intermediaries; (3) State Housing Finance Agencies (SHFA); and (4) Agencies Serving Colonias.

BILLING CODE 4210–32–P

Grant Categories	*Who Eligible*	*Total Amount Available*
Category 1 – LHCAs	HUD-approved LHCAs	$6.6 million
Category 2 – Regional and National Intermediaries	HUD-approved regional and national intermediaries	$10.4 million
Category 3 – SHFAs	SHFAs	$ 1 million
Category 4 – Colonias	HUD-approved LHCAs, HUD-approved regional and national intermediaries, and SHFAs	$250,000

Eligibility—HUD-approved LHCAs, HUD-approved national or regional intermediaries, and SHFAs are eligible for funding under Category 4, Colonias, as described below. Applicants applying under Category 4 may also apply under

one of the other three categories, as described below. A separate application must be submitted for Category 4, in addition to an application for funding under any other category. See Section I, 'Application Submission,' above for details on where to submit applications.

HUD-approved LHCAs may only apply for and receive grants under Categories 1 and/or 4, *or* Category 4 and/or one sub-grant from an intermediary under Category 2 or 3. HUD-approved LHCAs that apply under Category 1 are prohibited from also applying for a subgrant from an intermediary under Category 2 or 3. LHCAs that are not HUD-approved, but are affiliates or branches of SHFAs or national or regional intermediaries, may apply for and receive only one sub-grant from an intermediary under Category 2 or 3, but not both, and/or a sub-grant from an intermediary under category 4, Colonias. They are not, however, eligible to apply directly under Category 4.

HUD-approved national and regional intermediaries may only apply for grants under Categories 2 and/or 4.

SHFAs may only apply for grants under Categories 3 and/or 4.

Category 1—Local Housing Counseling Agencies (LHCAs). Approximately $ 6.6 million is available from HUD to directly fund HUD-approved LHCAs.

Eligible applicants include private and public nonprofit organizations that secure HUD-approval as of the publication date of this SuperNOFA, and retain such approval through the term of any grant awarded. For information on securing HUD-approval as a LHCA, contact the HOC within whose jurisdiction you are located (see Appendix B).

Award: No individual LHCA may be awarded more than $100,000. HUD anticipates that the average award will be approximately $18,500.

Funding allocation: Funding is allocated to each HOC jurisdiction by a formula that reflects the increased emphasis on the expansion of homeownership opportunities for first-time homebuyers and HUD's intent to ensure appropriate geographical distribution of program funds.

Allocations for use in local agency programs by HOC are as follows:

HOC	Funding allocation
Philadelphia HOC	$1,861,698
Atlanta HOC	1,924,468
Denver HOC	1,469,281
Santa Ana	1,344,553
Total	$6.6 million

Category 2—National and Regional Intermediaries. Approximately $10.4 million is available from HUD to directly fund HUD-approved national and regional intermediaries.

Eligible applicants include private and public nonprofit organizations that secure HUD-approval as national or regional intermediaries as of the publication date of this SuperNOFA, and retain such approval through the term of any grant awarded. For information on securing HUD approval as an intermediary, contact the HUD Headquarters Program Support Division at (202) 708–0317.

Intermediaries provide sub-grants to affiliates. Eligible sub-grantees are not required to be HUD-approved, although HUD-approved LHCAs may apply to an intermediary as a sub-grantee. Intermediaries that award sub-grants to affiliates that are not HUD-approved must assure that said affiliates meet or exceed the standards, as specified in paragraph 2–1 of HUD Handbook 7610.1, Rev-4, CHG–1, for HUD-approved LHCAs. To be eligible for a sub-grant, affiliates must certify in the sub-grant agreement that they have not applied for or received a grant under Category 1, or a sub-grant from another intermediary under Category 2, or a sub-grant from a SHFA under Category 3.

Awards for HUD-approved national and regional intermediaries may not exceed $1.5 million and $500,000, respectively.

Category 3—State Housing Finance Agencies (SHFA). Approximately $1 million is available to fund SHFAs that provide housing counseling services directly or serve as intermediaries to affiliates who offer housing counseling services.

Eligible applicants are entities that satisfy the definition in 24 CFR 266.5 of a "housing finance agency." SHFAs and eligible sub-grantees/affiliates do not need HUD-approval in order to receive these funds. HUD-approved LHCAs may apply to a SHFA as a sub-grantee. SHFAs that award sub-grants to affiliates that are not HUD-approved must assure that said affiliates meet or exceed the standards, as specified in paragraph 2–1 of HUD Handbook 7610.1, REV–4, CHG–1, for HUD-approved LHCAs. To be eligible for a sub-grant, affiliates must certify in the sub-grant agreement that they have not applied for or received a grant under Category 1, or a sub-grant from a HUD-approved intermediary under Category 2, or a sub-grant from another SHFA.

Award: There is no cap on the award amount that a SHFA, or its affiliates, may receive.

Funding Allocation: The amount of funding available to each of the four HUD Homeownership Center jurisdictions is as follows:

HOC	Funding allocation
Atlanta, GA	$254,285
Denver, CO	254,285
Philadelphia, PA	267,145
Santa Ana, CA	224,285
Total	1,000,000

Category 4—Colonias. Approximately $250,000 is available for housing counseling services that specifically target Colonias.

Eligible applicants include LHCAs and national or regional intermediaries that secure HUD-approval as of the date of the SuperNOFA publication, and retain such approval through the term of any grant awarded. SHFAs are also eligible.

Intermediaries provide sub-grants to affiliates. Eligible sub-grantees are not required to be HUD-approved, although HUD-approved LHCAs may apply to an intermediary as a sub-grantee. Intermediaries that award sub-grants to affiliates that are not HUD-approved must assure that said affiliates meet or exceed the standards, as specified in paragraph 2–1 of HUD Handbook 7610.1, REV–4, CHG–1, for HUD-approved LHCAs.

Award: There is no cap on the award amount.

IV. Eligible Activities

(A) Grantees or sub-grantees directly providing housing counseling services under Categories 1 through 4 may use their HUD housing counseling funds for one or more of the following eligible activities:

(1) *Pre-Occupancy Counseling.* This includes the following types of one-on-one counseling: pre-purchase, pre-rental, search assistance/mobility, fair housing, budgeting for mortgage or rent payments, money management, and housing care and maintenance. This also may include guidance on how to apply for housing assistance, how to identify and avoid predatory lending practices, as well as referrals to community or homeless services.

(2) *Homebuyer Education Programs.* These programs are housing related education programs in which educational materials are used in training sessions for multiple participants, including HUD's Homebuyer Education and Learning Program (HELP). For a typical homebuyer education program, participants complete eight to twelve course hours. Agencies that provide this service must also offer individual counseling to complement group sessions.

(3) *Post-Purchase/Mortgage Default and Rent Delinquency Counseling.* This includes counseling on how to: restructure debt, obtain recertification for rent subsidy, establish reinstatement plans, seek loan forbearance, and manage household finances. This counseling can also include helping victims of predatory lending, educating clients on renter's and landlord's rights, explaining the eviction process, providing referrals to other sources, and assisting clients with locating alternative housing or pursuing loss mitigation strategies.

(4) *Post-Purchase/Post-Occupancy Counseling.* This includes education programs and counseling activities on property maintenance, personal money management, and relations with lenders and landlords.

(5) *Home Equity Conversion Mortgage (HECM) Counseling.* HECM counseling assists clients who are 62 years or older with the opportunity to convert the equity in their homes into income to pay living, medical or other expenses.

(6) *Home Improvement and Rehabilitation Counseling.* This counseling includes educating the client about: their loan and grant options, the loan and/or grant application processes, what housing codes and housing enforcement procedures apply for the intended activity, how to specify and bid construction work, how to enter into construction contracts, and how to manage construction contracts, including actions to address the non-performance of contractors.

(7) *Displacement and Relocation Counseling.* This counseling includes helping clients understand their rights when faced with displacement, explaining the responsibility of the entity causing displacement, assisting clients with understanding eviction proceedings, providing assistance with locating alternate housing, and referring clients to homeless services.

(8) *Marketing and Outreach Initiatives.* This includes providing general information about housing opportunities, conducting informational campaigns, and raising awareness about critical housing topics, such as predatory lending or fair housing issues.

Note: For each of the eight general activities you propose, you must be prepared to meet the needs of all individuals requesting services, including the disabled, regardless of the complexity of the services involved.

(B) *Intermediaries and SHFAs* can directly provide the housing counseling services described above in Section A, or distribute and administer grant funds and provide technical assistance and other services to affiliates, who are eligible to undertake any or all of the eligible housing counseling activities outlined above.

Intermediaries and SHFAs have wide discretion to decide how to allocate their HUD Housing counseling and leveraged funding among their affiliates, with the understanding that a written record must be kept documenting and justifying funding decisions. This record must be made available to affiliates and to HUD. Intermediaries and SHFAs must also execute sub-grant agreements with their affiliates and branches that clearly delineate the mutual responsibilities for program management, including appropriate time frames for reporting results to HUD.

V. Application Submission Requirements

All applicants must meet the requirements listed in Section II of the General Section of the SuperNOFA. Because applications will be handled by various staff members, applications must be bound or secured in a binder, tabbed, and organized as instructed in the General Section of this SuperNOFA, and materials must be submitted in the order in which they appear in this NOFA. Use the checklist below to organize your application.

(A) *All applicants.* Unless indicated below, all applicants must submit the following:

(1) *The standard forms, certifications, and assurances* listed in Section II(H) of the General Section of the SuperNOFA (collectively, referred to as the "standard forms").

(2) *HUD-approval.* Each applicant is required to submit evidence of HUD-approval as a housing counseling agency, unless the applicant is a SHFA that satisfies the definition of a "housing finance agency" in 24 CFR 266.5.

(3) *Form HUD–9902, Housing Counseling Agency Fiscal Year Activity Report,* for fiscal year October 1, 2000 through September 30, 2001. If you did not participate in HUD's Housing Counseling Program during October 1, 2000 through September 30, 2001, this report should be completed to reflect your counseling workload during that period. A copy of this form is included in Appendix A of this SuperNOFA.

(4) *The Congressional District(s), including the names of the current Senators and Representatives,* in which your proposed activities are to occur.

(5) *Narrative statements* addressing the following five Rating Factors. Responses to the rating factors should provide HUD with detailed quantitative and qualitative information and relevant examples regarding the housing counseling work of your organization. For applicants applying under Category 4, Colonias, narrative statements must address how you will meet the needs of the Colonias you target.

Please be as specific and direct as possible. Responses to each factor should be limited to 10 double-spaced, single-sided pages. However, if you feel you need to include more information to make your case, you should feel free to do so.

Rating Factor 1: Capacity—Readiness and Effectiveness (30 Points)

This factor addresses the readiness and ability of an applicant to immediately begin the proposed work program, as well as the potential for an applicant to cost-effectively and successfully implement the proposed activities indicated under rating factor 3. In rating this factor, HUD will consider the degree to which the applicant, and, if applicable, affiliates:

(1) (10 points) Has sufficient personnel with the relevant knowledge and experience to implement the proposed activities in a timely and effective fashion. Experience is relevant if it corresponds directly to projects of a similar scale and purpose. Please submit:

—Names and titles of employees, including subcontractors and consultants, allocated to each proposed activity, as well as the corresponding staff hours for each task. Clerical staff should not be listed.

—Descriptions of each employee's, subcontractor's, or consultant's relevant professional background and experience related to the tasks they are to perform. Individual descriptions should be limited to one page.

(2) (20 points) Provide quality services in a cost-effective manner. Provide an overview, and submit any supporting data/evidence, of your organization's (and, if applicable, your affiliate organizations") prior fiscal year performance. At a minimum, responses should:

—Describe your prior fiscal year's counseling results, as they relate to your last year's goals. Include total number of clients served, the major types of counseling conducted, the outcomes for clients as a result of the counseling.

VOL 67 ISS 58 MR 26 2002 UMI

VOL 67 ISS 58 MR 26 2002 UMI

—Identify all of the sources and amounts of funds for counseling in the previous fiscal year.
—Identify specific uses of counseling funds in the previous year, such as staff costs, and the total costs for each use. Justify your expenses from the previous fiscal year to show that they were reasonable, allowable, and appropriate for the counseling activities identified above.

Characterize your performance in the past fiscal year at meeting the grant requirements for your housing counseling activities. Specifically indicate your performance at satisfying reporting requirements (such as Form HUD 9902)—indicate timeliness and completeness of your past reporting. Also indicate whether or not you fully expended grant awards for the past fiscal year. If not fully expended, provide an explanation as to why the funds were not fully expended and the steps you have taken to ensure that future funding will be expended in a timely manner.

HUD may also rely on information from performance reports, financial status information, monitoring reports, audit reports and other information available to HUD in making its determination under this factor.

Rating Factor 2: Need/Extent of the Problem (15 Points)

This factor addresses the extent to which there is a need for funding your proposed activities described under rating factor 3.

(1) (10 points) Applicants must provide recent economic and demographic data, and any other evidence, that demonstrates need relevant to the target area and your proposed activities. Applicants that fail to identify objective data will receive no points for this factor. Responses to this factor must reference data sources that demonstrate the level of need for your proposed program of activities. To the extent that the community you serve has documented need in its Consolidated Plan, Analysis of Impediments to Fair Housing Choice (AI), or other planning documents, reference these in your response. Economic and demographic data must include persons with disabilities located in the target area. The U.S. Census Bureau, for example, maintains disability data by state, county and metropolitan statistical area (MSA) at the following website address: *http:www.census.gov/hhes/www/disability.html*

(2) (5 points) Listed below are 6 FHA priorities that complement the Departmental priorities listed in Section VI of the General Section of the SuperNOFA. Please indicate which, if any, of the FHA or Departmental priorities your counseling activities will address and provide the data, and source of data, that supports the need in your target community for addressing this priority. You will receive one point for each FHA or Departmental priority you adequately address in your application, up to a total of 5 points.

—Retaining homeownership.
—Serving areas with concentrations of high default and foreclosure rates.
—Predatory lending.
—HECM.
—Fair housing.
—Serving areas underserved by financial institutions.

Rating Factor 3: Scope of Housing Counseling Services/Soundness of Approach (40 Points)

This factor addresses the quality and effectiveness of your proposed housing counseling work plan, which describes all housing counseling activities to be performed. Work plans should include:

(1) (10 points) Your goals and objectives, geographic coverage / target areas, and the proposed housing counseling services and / or intermediary activities you propose to undertake. There must be a clear relationship between the proposed activities, community needs as outlined in Rating Factor 2, and the purposes of the proposed program for an applicant to receive points for this factor.

(2) (15 points) Benefits to be achieved, and indicators by which to measure performance, including the number of clients who will be served. If the number of clients you propose to serve exceeds by 25% or more the number of clients you served in your last reporting year (October 1, 2000 through September 30, 2001), you must demonstrate that you have the financial and human resources to adequately serve the additional clients.

(3) (15 points) Costs, time and resources associated with providing the proposed activities. Describe the level of effort you anticipate is required to meet the needs of your clients. Applicants should carefully document the variety and complexity of the services to be provided. Provide the hourly-labor rate and counseling time per client for proposed tasks to demonstrate the cost-effectiveness of the specific services provided.

Rating Factor 4: Leveraging Resources (10 Points)

HUD housing counseling funding is not intended to fully fund either an organization's housing counseling program, or that of its local affiliates. All organizations that use housing counseling grant funds and their local affiliates are expected to seek other private and public sources of funding for housing counseling to supplement HUD funding. Any agency that does not have other resources available will receive no points for this factor.

Applicants will be evaluated based on their ability to provide evidence that they have obtained additional resources for their housing counseling activities, including: direct financial assistance; in-kind contributions, such as services, equipment, office space; labor; etc. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities committed to providing you assistance.

In order to obtain points under this factor, the applicant must demonstrate leveraging by providing letters from entities and/or individuals committing resources to the project that include:

—The identity of the entity or individual committing resources to the project.
—Dollar value of the resources to be committed.
—Types of resources to be committed.
—Time period for which the resources will be provided. Commitment letter must demonstrate that funds will be available during the grant period pertaining to this NOFA, October 1, 2002 " September 31, 2003.
—Responsibilities as they relate to your proposed program.
—The signature of an official of the entity legally able to make commitments on behalf of the entity.
—No conditions that would nullify the commitment. (It is, however, acceptable for the commitment to be conditional on HUD funding.)

Points for this factor will be awarded based on the satisfactory provision of evidence of leveraging and financial sustainability, as described above, *and* the ratio of requested HUD housing counseling funds to total budget, as follows:

Percentage	Points
1–10	10
11–15	9
16–20	8
21–25	7
26–30	6
31–35	5
36–40	4
41–45	3
46–50	2
51–99	1

Rating Factor 5: Coordination, Self-Sufficiency, and Sustainability (5 Points)

This factor addresses the extent to which the applicant is working towards addressing identified needs in a holistic and comprehensive manner through linkages with other organizations / activities in the community to help clients move to self-sufficiency. Sustainability refers to the potential for an applicant organization to become financially self-sustaining, and the potential of a specific project or activity to be sustained into the future absent of any HUD funding. In evaluating this factor, HUD will consider the extent to which applicants can demonstrate they have and will:

(1) Coordinate proposed activities with those of other groups or organizations, including, but not limited to, HUD funded housing counseling agencies, to coordinate the use of housing counseling and support services in your target area. Any written agreements or memoranda of understanding in place should be described and copies provided. The activities undertaken with other entities must be described in detail.

(2) Share information on solutions and outcomes with others. Any written agreements or memoranda of understanding in place should be described and copies provided.

(3) Actively participate in your community's Consolidated Planning process and the Analysis of Impediments to Fair Housing Choice (AI).

(4) Develop linkages to coordinate comprehensive solutions through meetings, information networks, planning processes or other mechanisms with other:

(a) HUD-funded projects/activities outside the scope of those covered by the target area's Consolidated Plan; and

(b) Federal, State or locally funded activities, including those proposed or on-going in the target area.

(B) *National and Regional Intermediaries and State Housing Finance Agencies* must provide the following:

(1) Identification of which affiliates will receive funding through this grant award. Applicants unable to identify which affiliates will receive sub-grants must explain why this is the case and what process will be used to select grantees. Pursuant to the applicable regulations at 24 CFR 84.82(d)(3)(iii) and 85.30(d)(4), grantees must receive HUD's written approval for sub-grants.

(2) Description of the activities of those affiliates, explicitly stating the types of services to be offered.

(3) Brief description of your relationship with your affiliates (i.e. membership organization, field or branch office, subsidiary organization, etc.).

(4) Brief description of the process that will be used to determine affiliate funding levels, distribute funds, and monitor affiliate performance, including compliance with the civil rights requirements outlined in the General Section of the SuperNOFA.

(C) *National and Regional Intermediaries* must provide a list of, and certify to, the states in which they maintain offices, including the national office and all affiliates or branch offices.

(D) *State Housing Finance Agencies* must submit evidence of their statutory authority to operate as a SHFA, and apply for, and use, any funds awarded.

VI. Application Selection Process/ Funding Policies

(A) *General.* Applications will be evaluated competitively, and ranked against all other applicants that applied in the same funding category. For Category 2, applications by national and regional intermediaries will be rated and ranked in HUD Headquarters. For Category 1, LHCAs, and Category 3, SHFAs, applications will be rated and ranked by the relevant HOC. The Santa Ana HOC will rate and rank all applications under Category 4, Colonias. The funding formula described below will be used to calculate award amounts.

(B) *Factors For Award Used to Rate and Rank Applications.* The Factors for Award, and maximum points for each factor, are outlined above in Section V (A)(5). These factors will be used to evaluate applications and the maximum number of points for each applicant is 100.

(C) *Applicant Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the **Federal Register**, and for not less than 120 days, HUD will, upon receiving written requests from the applicant, provide a debriefing to the requesting applicant. Materials provided during a briefing will be the applicant's final scores for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied. Applicants requesting to be debriefed must send a written request to the person listed as the *Contact for further information and technical assistance* in Section I above.

(D) *Funding Methodology.* Only applicants who receive at least 70 points out of the 100 will be considered eligible for funding. All eligible applicants will then be funded in proportion to the score they receive.

This year's formula will work as follows for each category: every agency that receives a score of 70 points will receive a base award of $5,000, then will receive additional funds for every point above the 70 point cutoff. The total number of agencies with scores above 70 will be multiplied by $5,000 and that amount will be subtracted from the total available under the category, or in the cases of Categories 1 and 3, to the HOC. Then, the remaining balance will be divided by the total number of points each agency scores that are above the 70 point cutoff. The division will result in a dollar value for each point. The number of points that each agency scores above the 70 point base will be multiplied by that dollar value. The result of that multiplication will be added to the $5,000 base for the total award amount. For example, an agency with a score of 85 would receive $5,000 plus the dollar value for each point times 15 (15 being the number of points above the 70 point cutoff).

(E) *Grant Period.* Funds awarded shall be available for a period of twelve (12) calendar months. Applicants selected for award must receive prior HUD approval to incur costs prior to the date of the grant agreement. Grantees may incur pre-award costs ninety (90) calendar days prior to the effective date of the grant agreement All pre-award costs are incurred at the applicant's risk and HUD has no obligation to reimburse such costs if the award is inadequate to cover such costs or the award offer is withdrawn because of the applicant's failure to satisfy the requirements of this NOFA.

(F) *Award Instrument.* HUD expects to use a grant agreement, but it reserves the right to use the award instrument it determines to be most appropriate. All Housing Counseling Program awards shall be made on a cost reimbursement basis in accordance with the requirements in OMB Circular A–87, Cost Principles for State and Local Governments and Indian Tribal Governments; or OMB Circular A–122, Cost Principles for Non-Profit Organizations, as applicable to your organization; and the administrative requirements established in OMB Circular A–102, which was implemented by 24 CFR part 85 (Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments and Indian Tribal Governments); OMB Circular A–110, which was implemented by 24 CFR part 84 (Grants and Agreements with Institutions of

VOL
67
ISS
58
MR
26
2002
UMI

Higher Education, Hospitals and Other Non-Profit Organizations); and OMB Circular A–133 which was implemented by 24 CFR parts 84 and 85. If you receive an award you are also required to ensure that any sub-recipients also comply with the above requirements. OMB circulars can be found at *www.whitehouse.omb.gov*.

(G) *Financial Management Systems.* Applicants selected for funding must provide documentation demonstrating that the applicant's financial management systems satisfy the requirements in the applicable regulations at 24 CFR 84.21(b) and 85.20. Consistent with the requirements of the Single Audit Act Amendments of 1996 (31 U.S.C. §§ 7501–07), when the applicant expended $300,000 or more in Federal awards in its most recent fiscal year, such documentation must include a certification from, or most recent audit by, the applicant's Independent Public Accountant that the applicant maintains internal controls over Federal awards; complies with applicable laws, regulations, and contract or grant provisions; and prepares appropriate financial statements. The applicant will have at least thirty (30) calendar days to respond to this requirement. If an applicant does not respond within the prescribed time or responds with insufficient documentation, then HUD may determine that the applicant has not met this requirement and may withdraw the grant offer.

(H) *Indirect Cost Rate.* You must also submit documentation establishing your organization's indirect cost rate. Such documentation may consist of a certification from, most recent audit, or indirect cost rate agreement by, the cognizant Federal agency or an Independent Public Accountant. If your organization does not have an established indirect cost rate, you will be required to develop and submit an indirect cost proposal to HUD or the cognizant Federal Agency as applicable, for determination of an indirect cost rate that will govern your award. Applicants that do not have a previously established indirect cost rate with a Federal agency shall submit an initial indirect cost rate proposal immediately after the applicant is advised that it will be offered a grant and, in no event, later than three months after the effective date of the grant. OMB Circular A–122 established the requirements to determine allowable direct and indirect costs and the preparation of indirect cost proposals, and can be found at *www.whitehouse.omb.gov*.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications. Applications will be declared ineligible for any of the following reasons:

—If you do not meet the Civil Rights Threshold Requirements set forth in Section II(B) of the General Section of this SuperNOFA.

—If you are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions from any Federal department or agency.

VIII. Program Requirements

Agencies selected as grantees or sub-grantees must comply with the following requirements:

(A) *General Requirements.* The requirements listed in Section II of the General Section of the SuperNOFA apply to this program.

(B) *Specific Requirements.* Programmatic requirements are outlined in detail in HUD Handbook 7610.1, REV–4, CHG–1, dated October 27, 1997, which can be viewed on HUD's website at *http://www.hud.gov/offices/hsg/sfh/hcc_home.cfm*. Additionally, the following also apply:

(1) *List of Agencies.* Pursuant to section 106 (C)(5) of the Housing and Urban Development Act of 1968, HUD maintains a list of all HUD-approved and HUD-funded counseling agencies, including contact information, which interested persons can access. All grantees under Categories 1 and 4, and sub-grantees under Categories 2 and 3, will be placed on this list and must accept subsequent referrals, or when they do not provide the services sought, refer the person to another agency in the area that does provide the services.

(2) *Accessibility*—All grant recipients and sub-recipients must make counseling offices and services reasonably accessible to persons with a wide range of disabilities and help persons locate suitable housing in locations throughout the applicant's community, target area, or metropolitan area, as defined by the applicant.

(C) *Religious Discrimination.* Grant recipients and sub-recipients are prohibited from:

(1) Discriminating on behalf of or against any segment of the population in the provision of services or in outreach, including those of other religious affiliations.

(2) Requiring religious instruction or religious counseling, conducting mandatory religious services or worship, engaging in religious proselytizing, and exerting religious influence in the provision of assistance under your housing counseling program.

(D) Entities that are subject to 24 CFR parts 84 and 85 (most nonprofit organizations and State, local and tribal governments or government agencies or instrumentalities who receive Federal awards of financial assistance) are required to develop and maintain a written code of conduct (*See* Section 84.42 and 85.36(b)(3)). Consistent with regulations governing housing counseling programs, your code of conduct must prohibit real and apparent conflicts of interest that may arise among employees, officers or agents; prohibit the solicitation and acceptance of gifts or gratuities by your officers, employees and agents for their personal benefit in excess of minimal value, and outline administrative and disciplinary actions available to remedy violations of such standards. If awarded assistance under this SuperNOFA, you will be required, prior to entering into a grant agreement with HUD, to submit a copy of your code of conduct and describe the methods you will use to ensure that all officers, employees and agents of your organization are aware of your code of conduct.

(E) *Performance Measurement.* Grant recipients are required to complete and submit a form HUD–9902, Fiscal Year Activity Report (APPENDIX A). The information compiled from this report provides HUD with its primary means of measuring your program performance.

(F) *Environmental Requirements.* In accordance with 24 CFR 50.19(b)(9) and (12) of the HUD regulations, activities assisted under this program are categorically excluded from the requirements of the National Environmental Policy Act and are not subject to environmental review under the related laws and authorities.

IX. Authority

HUD's Housing Counseling Program is authorized by Section 106 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x), and is generally governed by HUD Handbook 7610.1, REV–4, CHG–1, dated October 27, 1997.

Public reporting burden for this collection of information is estimated to average 1.17 hours per response, including the time for reviewing instructions, searching existing data sources, gathering end maintaining the data needed, and completing and reviewing the collection of information. This agency mey not conduct or sponsor, and a person is not required to respond to, a collection information unless that collecton displays a valid OMB control number.

This information is collected in connection with HUD's Housing Counseling Program, and will be used by HUD to determine that the grant applicant meets the requirements of the Notice of Funding Availability (NOFA) and to assign points for awarding grant funds on e competitive and equitable besis. The information is required to obtain funding under Section 106 of the Housing and Community Development Act of 1974. The information is considered sensitive and is protected by the Privacy Act which requires the records to be maintained with appropriate administrative, technical and physical safeguards to ensure their security and confidentiality.

Instructions for Form HUD-9902, Housing Counseling Agency Fiscal Year Activity Report

This **HUD Fiscal Year** Activity Report enables a HUD-approved housing counseling agency to report all of its housing counseling activity for clients with housing needs and problems. Paragraph 1-7A of the HUD Housing Counseling Program Handbook 7610.1 provides the definition of "client," "housing need," and "housing problem."

1. **Counseling Agency Name & Address** - Enter the official name of your agency in the format you submitted to HUD. If the address you enter is a new address, check the box indicating this change.
2. **Enter Report HUD Fiscal Year** - This is an annual report covering the HUD Fiscal Year. Indicate the HUD Fiscal Year covered by the report. Even if your agency was approved by HUD for less than the full year report period, include clients counseling during the full report year.

General

Clients - Please remember that you report **clients** as defined in paragraph 1-7A of HUD's Housing Counseling Program Handbook 7610.1. You are **not** reporting the number of individual persons you counseled.

Examples:

a. A **husband and wife** or a **brother and sister** or **three friends** who are mortgagors under the same note count as **one client**.
b. **Three renting families** who experience the **same problem** with the **same landlord** and come to your agency together for assistance count as **one client**.

Columnar Entries - The report contains two data columns.

a. **All Counseling Activities** - Enter data covering **all** housing counseling activities, including those performed under one or more HUD housing counseling grants.
b. **HUD Grant Activities** - Enter data covering **only** counseling provided under one or more HUD counseling grants during the report period. include this data in the "All Counseling Activities" column.

3. **Clients Counseled This Report Period** - Enter the number of clients to whom you provided counseling during the report period. This might include clients who entered your work l load the previous report period but you carried over into and counseled during the current report period.
Enter the client count in the box that best describes the status of the clients when they first entered your work load.

Disabled Person - A person reported on this line is defined in the Fair Housing Act, Sec. 802 (h) as follows:
Handicap means, with respect to a person -- (1) a physical or mental impairment which substantially limits one or more of such person's major life activities, (2) a record of having an impairment, or (3) being regarded as having such an impairment, but such term does not include current, illegal use of or addiction to a controlled substance (as defined in Section 102 of the Controlled Substance Act (21 U.S.C. 802))."

Homeless - A client reported on this line must meet the definition for "homeless" or "homeless individual" set forth in Section 103., General Definition of Homeless Individual, of the Stewart B. McKinney Homeless Assistance Act (Public Law 100-77).

Racial/Ethnic Categories - Enter number of clients to whom you provided counseling during this period.

a. **White (Non Hispanic)** - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
b. **Black (Non Hispanic)** - A person having origins in any of the black racial groups of Africa.
c. **Hispanic** - A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race.
d **American Indian or Alaskan Native** - A person having origins in any of the original peoples of North America, and who maintains, cultural identification through tribal affiliation or community recognition.
e **Asian or Pacific Islander** - A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

Other - Throughout the form, "other" provides a general category into which you place clients who do not fall under any specific category on the form.

4. **Results of Counseling** - You might achieve more than one result for the same client during the report year.
Example: A mortgagor in default enters into a **forbearance agreement** and later **sells the property.** Report both results on the appropriate lines.
5. **HUD Grant Activity - Summary Data** - Enter summary data from the "HUD Grant Activities" column for each grant under which you provided counseling during the report period. In the "Total" row, enter totals for the "No. of Clients" and the "Amount Invoiced' columns.
6. An authorized staff person must sign and date the report.

FUNDING AVAILABILITY FOR THE LEAD-BASED PAINT HAZARD CONTROL GRANT PROGRAM

PROGRAM OVERVIEW

Purpose of the Program. The purpose of the Lead-Based Paint Hazard Control Grant Program is to assist States, Indian Tribes and local governments in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately owned housing for rental or owner-occupants in partnership with faith-based and other community-based organizations.

Available Funds. Approximately $80 million in Fiscal Year 2002.

Eligible Applicants. States, Indian Tribes or local governments. If you are a State or Tribal applicant, you must have a Lead-Based Paint Contractor Certification and Accreditation Program authorized by EPA.

Application Deadline. June 14, 2002.

Match. A minimum of 10% match in local funds.

ADDITIONAL INFORMATION

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Submit your completed application (an original and four copies) to HUD postmarked on or before 12:00 midnight, Eastern Time, on June 14, 2002, at the address shown below.

See the General Section of the SuperNOFA for specific procedures concerning the form of application submission (e.g., mailed applications, express mail or overnight delivery).

Application Submission Procedures. New Security Procedures. In HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. *No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.*

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. *All applicants must obtain and save a* Certificate of Mailing showing the date when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, FedEx and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Address for Submitting Applications. For Mailed Applications. The address for mailed applications is: Department of Housing and Urban Development, Office of Healthy Homes and Lead Hazard Control, 451 Seventh Street, SW. Room P3206, Washington, DC 20410.

For Application Kits. You may obtain an application kit from the SuperNOFA Information Center at 1–800–HUD–8929. Persons with speech or hearing impairments may call the Center's TTY number at 1–800–HUD–2209. When requesting an application kit, please refer to the Lead-Based Paint Hazard Control Grant Program. Please be sure to provide your name, address (including zip code), and telephone number (including area code).

For Further Information and Technical Assistance. You may contact Ellis G. Goldman, Director, Program Management Division, Office of Healthy Homes and Lead Hazard Control, at the address above; telephone (202) 755–1785, extension 112 (this is not a toll-free number). If you are a hearing-or speech-impaired person, you may reach the above telephone numbers via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at http://www.hud.gov.

II. Amount Allocated

(A) *Available Funding.* Approximately $80 million in Fiscal Year 2002 funds will be available for the Lead-Based Paint Hazard Control Grant Program.

(B) *Allocation of Funds/Grant Awards.* Both current or prior (previously funded) grantees or previously unfunded applicants are eligible to apply for grants of $1 million to $2.5 million. Approximately 32 to 40 grants will be awarded. Approximately 80% of the funds shall be available to current and prior Lead-Based Paint Hazard Control grantees. Applications from current and prior (previously funded) grantees will be evaluated and scored as a separate group and will not be in direct competition with applications from previously unfunded applicants. A minimum score of 70 is required for fundable applications. Within the category of current and prior grantees, a new subcategory has been created this year to allow for the "renewal" of current grants that meet specific criteria. Current grantees (with active grants at the application deadline date) whose period of performance commenced on or after January 1, 2000 and that, in their most recent grant, have completed and cleared at least 65 % of the negotiated number of units and have expended, as evidenced by the drawdown from the HUD Line of Credit Control System (LOCCS), at least 45 % of their original HUD Federal grant award by March 31, 2002, are eligible to request up to $2 million to continue grant program activities for an additional 24 months after their current period of performance ends. By achieving the above referenced level of performance significantly ahead of the expected schedule, these grantees have demonstrated a clear basis for eligibility in receiving additional funds without the need to submit a full application in response to the SuperNOFA. The creation of this subcategory reflects the intention of this grant program to move towards more competitive performance-based awards. Applicants eligible to submit a "Request for Renewal" will be required to submit a Total Budget (Federal Share and Matching), work plan strategy and supporting materials prescribed in the application. In addition, grantees awarded grant funds under this subcategory will be required to meet the terms and conditions of their current grant agreement and any additional applicable requirements under this NOFA. Additional details and guidance will be provided in the application kit.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* The Lead-Based Paint Hazard Control Grant Program assists States, Indian Tribes and local governments in undertaking programs for the identification and control of lead-based paint hazards in eligible privately owned housing units for rental and owner-occupants. Appendix B (Eligibility of HUD Assisted Housing) and the application kit for this program will list the HUD-associated housing programs that meet the definition of eligible housing under this program.

(1) Because lead-based paint is a national problem, these funds will be awarded to:

(a) Maximize the combination of children protected from lead poisoning and housing units where lead-hazards are controlled;

(b) Target lead hazard control efforts at housing in which children are at greatest risk of lead poisoning;

(c) Stimulate cost-effective approaches that can be replicated;

(d) Emphasize lower cost methods of hazard control;

(e) Build local capacity to safely and effectively address lead hazards during lead hazard control, renovation, remodeling, and maintenance activities; and

(f) Affirmatively further fair housing and environmental justice.

(2) The objectives of this program include:

(a) Implementation of a national strategy, as defined in Title X of the Housing and Community Development Act of 1992 (42 U.S.C. 4851 *et. seq.*) (Title X), to build the community's capacity necessary to eliminate lead-based paint hazards in housing, as widely and quickly as possible by establishing a workable framework for lead-based paint hazard identification and control;

(b) Mobilization of public and private resources, involving cooperation among all levels of government, the private sector, and faith-based and other community-based organizations to develop cost-effective methods for identifying and controlling lead-based paint hazards;

(c) Development of comprehensive community approaches which result in integration of all community resources (governmental, faith-based and other community-based, and private businesses) to address lead hazards in housing;

(d) Integration of lead-safe work practices into housing maintenance, repair, weatherization, rehabilitation, and other programs that will continue after the grant period ends;

(e) Establishment of a public registry (listing) of lead-safe housing or inclusion of the lead-safe status of properties in another publicly accessible address-based property information system; and

(f) To the greatest extent feasible, promotion of job training, employment, and other economic opportunities for low-income and minority residents and businesses that are owned by and/or employ low-income and minority residents as defined in 24 CFR 135.5 (*See* 59 FR 33881, June 30, 1994).

(B) *Eligible Applicants.* (1) To be eligible to apply for funding under this program, the applicant must be a State, Indian Tribe, or unit of local government. Multiple units of a local government (or multiple local governments) may apply as part of a consortium; however, you must identify a single primary government or agency as "the applicant." You may submit only one application. In the event you submit multiple applications, this will be considered a curable (minor) defect and the application review process delayed until you notify HUD in writing which application should be reviewed. Your other applications will be returned unevaluated. (See the General Section of the SuperNOFA, Section V, Corrections to Deficient Applications)

(2) Threshold Requirements. As an applicant, you must meet all of the threshold requirements of Section II(B) of the General Section of the SuperNOFA as well as any specific threshold requirements for applicants under the Lead Hazard Control Grant Program. Applications will not be rated or ranked if they do not meet the threshold requirements of Section II (B) of the general Section of the SuperNOFA.

(3) Consolidated Plans. (This requirement does not apply to Indian Tribes)

(a) If your jurisdiction has a current HUD approved Consolidated Plan, you must submit, as an appendix, a copy of the lead-based paint element included in the approved Consolidated Plan.

(b) If your jurisdiction does not have a currently approved Consolidated Plan, but it is otherwise eligible for this grant program, you must include your jurisdiction's abbreviated Consolidated Plan, which includes a lead-based paint hazard control strategy developed in accordance with 24 CFR 91.235.

(4) Contracts or other formal arrangements with faith-based and other community-based organizations. If selected for funding, local and State applicants must enter into contractual relationships or other formal arrangements with faith-based and other community-based organizations. Such relationships must be established prior to actual execution of the grant agreement. This requirement does not apply to Indian Tribes.

(5) EPA Authorization. If you are a State government or an Indian Tribal government, you must have an EPA authorized Lead-Based Paint Training and Certification Program in effect on the application deadline date to be eligible to apply for Lead Hazard Control Grant funds. The approval date in the **Federal Register** notice published by the EPA will be used in determining the Training and Certification status of the applicant State or Indian Tribal government.

(6) Current or prior grantees that have not completed a minimum of 35 percent of the units in their most recent grant agreement as of March 31, 2002, are not eligible to apply under this NOFA.

(7) The eligibility factors discussed in paragraphs (1) through (5) above are threshold requirements. If you do not satisfy the appropriate eligibility requirements stated in these paragraphs, HUD will not review your application.

(C) *Eligible Activities.* HUD is interested in promoting lead hazard control approaches that result in the reduction of this health threat for the maximum number of low-income families with children under six, for the longest period of time, and that demonstrate techniques which are cost-effective, efficient, and replicable elsewhere. Activities must be conducted in compliance with HUD's Lead-Safe Housing Rule, 24 CFR Part 35, and with any applicable requirements of a Training and Certification Program that has been authorized by the Environmental Protection Agency under the requirements of 40 CFR 745.320. Copies of HUD's Lead-Safe Housing Rule, and the companion publication "Interpretive Guidance: The HUD Regulation on Controlling Lead-Based Paint Hazards in Housing Receiving Federal Assistance and Federally Owned Housing Being Sold," are available from the National Lead Information Clearinghouse at 1–800–424–LEAD and on the Internet at www.hud.gov.

(1) Direct Project Elements that you may undertake directly or through sub-recipients, include:

(a) Performing dust testing, hazard screens, inspections, and risk assessments of eligible housing constructed before 1978 to determine the presence of lead-based paint and/or lead hazards from paint, dust, or soil.

(b) Conducting the required pre-hazard control blood lead testing of children under the age of six years (72 months) residing in units undergoing inspection, risk assessment, or hazard control, unless reimbursable from Medicaid or another source.

(c) Conducting lead hazard control, which may include: interim control of lead-based paint hazards in housing (which may include specialized cleaning techniques to address lead dust); and abatement of lead-based paint hazards, including soil and dust, by means of removal, enclosure, encapsulation, or replacement methods. Complete abatement of all lead-based paint or lead-contaminated soil is not acceptable as a cost-effective strategy unless justification is provided and subsequently approved by HUD. Abatement of lead-contaminated soil should be limited to areas with bare soil in the immediate vicinity of the structure, i.e., drip line or foundation of the structure being treated, and children's play areas.

(d) Carrying out temporary relocation of families and individuals during the period in which hazard control is conducted and until the time the affected unit receives clearance for reoccupancy.

(e) Performing blood lead testing and air sampling to protect the health of the hazard control workers, supervisors, and contractors.

(f) Undertaking minimal housing rehabilitation activities that are specifically required to carry out effective hazard control, and without which the hazard control could not be completed and maintained. Hazard Control grant funds may be used for lead hazard control work done in conjunction with other housing rehabilitation programs. HUD strongly encourages integration of this grant program with housing rehabilitation, weatherization, and other energy conservation activities.

(g) Conducting clearance dust-wipe testing and laboratory analysis.

(h) Engineering and architectural activities that are required for, and in direct support of, lead hazard control.

(i) Providing resources to build capacity for lead-safe housing and lead hazard control, including free delivery of HUD-approved lead-safe work practices training courses for rehab contractors, rehab workers, homeowners, renters, painters, remodelers, maintenance staff, and others conducting renovation, rehabilitation, maintenance or other work in private housing; free delivery of lead sampling technician training, lead-based paint worker or contractor certification training; and subsidies for licensing or certification fees to low-income persons seeking credentials as lead-based paint workers or contractors or lead sampling technicians.

(j) Providing cleaning supplies for lead-hazard control, and instructions or training in their use, to faith-based and other community-based organizations, homeowners, and renters in low-income private housing.

(k) Conducting planning, coordination, and training activities to comply with HUD's Lead-Safe Housing Rule (24 CFR part 35) that became effective on September 15, 2000. These activities should support the expansion of a workforce properly trained in lead-safe work practices which is available to conduct interim controls on HUD assisted housing covered by these regulations. The regulation and interpretive guidance about the rule are available from the National Lead Information Center at 1–800–424–LEAD or *www.hud.gov.*

(l) Conducting general or targeted community awareness, education or outreach programs on lead hazard control and lead poisoning prevention including educating owners of rental properties on the Fair Housing Act and offering educational materials in languages other than English and providing training on lead-safe maintenance and renovation practices and management. Upon request, this also would include making all materials available in alternative formats to persons with disabilities (*e.g.;* Braille, audio, large type).

(m) Procuring liability insurance for lead-hazard control activities.

(n) Supporting data collection, analysis, and evaluation of grant program activities. This includes compiling and delivering such information and data as may be required by HUD. This activity is separate from administrative costs.

(o) Conducting applied research activities directed at demonstration of cost effective methods for lead hazard control.

(p) Purchasing or leasing equipment having a per unit cost under $5,000.

(q) Purchasing or leasing no more than two (2) X-ray fluorescence analyzers for use by the Lead-Based Paint Hazard Control Grant Program, if not already available.

(r) Preparing a final report at the conclusion of grant activities.

(2) Support Elements.

(a) Administrative costs. There is a 10% maximum for administrative costs. Specific information on administrative costs is included in this Lead-Based Paint Hazard Control Grant Program section of this SuperNOFA.

(b) Program planning and management costs of sub-grantees and other sub-recipients. (D) *Ineligible Activities.* You may not use grant funds for any of the following:

(1) Purchase of real property.

(2) Purchase or lease of equipment having a per unit cost in excess of $5,000, except for the purchase of X-ray fluorescence analyzers.

(3) Chelation or other medical treatment costs related to children with elevated blood lead levels. Non-Federal funds used to cover these costs may be counted as part of the required matching contribution.

(4) Lead hazard control activities in publicly owned housing, or project-based Section 8 housing.

IV. Program Requirements

In addition to the program requirements listed in the General Section of this SuperNOFA, the applicant must comply with the following requirements: (A) Conformance of proposed plans to Federal and State policies for Lead-Based Paint Hazard Control. All lead hazard control activities must be conducted in compliance with the applicable requirements of HUD's Lead-Safe Housing Rule, 24 CFR part 35, and as clarified in HUD's Interpretive Guidance about the rule. Activities must also comply with any additional requirements in effect under a State or Tribal Lead-Based Paint Training and Certification Program that has been authorized by the Environmental Protection Agency pursuant to 40 CFR 745.320.

Budgeting

(1) *Matching Contribution.* You must provide a matching contribution of at least 10% of the requested grant sum. This may be in the form of cash, including private sector funding, or in-kind (non-cash) contributions or a combination of these sources. With the sole exception of Community Development Block Grant (CDBG) funds, Federal funds may not be used to satisfy the statutorily required ten (10) percent matching requirement. Federal funds may be used, however, for contributions above the statutory requirement. If you do not include the minimum 10% match in your application, the application will be rated lower during the evaluation process. If selected for an award, you will be required to provide evidence that the matching contribution requirement will be met before being given the grant.

VOL
67
ISS
58
MR
26
2002
UMI

(2) *Direct Lead Hazard Identification and Control Activities.* The budget proposed must show a minimum of 60 percent of the total Federal amount requested identified for direct lead hazard control activities. Direct lead hazard control activities consist of dust testing, hazard screens, lead inspections, risk assessments, lead hazard control services, and clearance examinations. Direct hazard control activities do not include relocation, blood testing of residents or workers, housing rehabilitation, training, community education, applied research, purchase of supplies or equipment, or administrative costs.

(3) *Lead-Safe Work Practice Training Activities.* For most applicants, at least two (2) percent of the total Federal amount in the budget proposal will be necessary to promote the expansion of a workforce properly trained in lead-safe work practices and which is available to conduct interim controls and follow lead-safe work practices while performing work on HUD assisted housing units per the provisions of the HUD Lead Safe Housing Regulation 24 CFR Part 35(1330(a)(4)(iii)(v), and to safely repair, rehabilitate, and maintain other privately-owned residential property. Any applicant that proposes to use less than 2% of the total Federal amount for this purpose shall present evidence that there is currently in place a workforce that is sufficient in size and is properly trained to carry out the work under the Lead Hazard Control grant and the HUD Lead-Safe Housing Regulation.

(4) *Applied Research Activities.* You may identify a maximum of five (5%) percent of the total grant request for applied research activities.

(5) *Administrative Costs.* There is a 10% maximum for administrative costs as specified in Section 1011 (j) of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Title X of the Housing and Community Development Act of 1992, Public Law 102–550). Additional information about allowable administrative costs is provided in Appendix B of this NOFA and in the application kit.

(B) *Period of Performance.* The period of performance is 36 months for first time grant recipients. The period of performance for current and prior grantees is 30 months, except grantees receiving an award under a "Request for Renewal," for which there is a 24-month period of performance.

(C) *Certified and Trained Performers.* Funded activities must be conducted by persons qualified for the activities according to 24 CFR part 35 (possessing certification as abatement contractors, risk assessors, inspectors, abatement workers, or sampling technicians, or others having been trained in a HUD-approved course in lead-safe work practices).

(D) *Coastal Barrier Resources Act.* Pursuant to the Coastal Barrier Resources Act (16 U.S.C. 3501), you may not use grant funds for properties located in the Coastal Barrier Resources System.

(E) *Flood Disaster Protection Act.* Under the Flood Disaster Protection Act of 1973 (42 U.S.C. 4001–4128), you may not use grant funds for lead-based paint hazard control of a building or manufactured home that is located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards unless:

(1) The community in which the area is situated is participating in the National Flood Insurance Program in accordance with the applicable regulations (44 CFR parts 59–79), or less than a year has passed since FEMA notification regarding these hazards; and

(2) Where the community is participating in the National Flood Insurance Program, flood insurance on the property is obtained in accordance with section 102(a) of the Flood Disaster Protection Act (42 U.S.C. 4012a(a)). You are responsible for assuring that flood insurance is obtained and maintained for the appropriate amount and term.

(F) *National Historic Preservation Act.* The National Historic Preservation Act of 1966 (16 U.S.C. 470) and the regulations at 36 CFR part 800 apply to the lead-based paint hazard control activities that are undertaken pursuant to this program. HUD and the Advisory Council for Historic Preservation have developed an optional Model Agreement for use by grantees and State Historic Preservation Officers in carrying out activities under this program. This may be obtained from the SuperNOFA Clearinghouse.

(G) *Waste Disposal.* You must handle waste disposal according to the requirements of the appropriate local, State and Federal regulatory agencies. You must handle disposal of wastes from hazard control activities that contain lead-based paint but are not classified as hazardous in accordance with state or local law or the HUD Guidelines for the Evaluation and Control of Lead-Based Hazards in Housing (HUD Guidelines). The Guidelines may be purchased from HUD User (1–800–245–2691) or downloaded from the HUD website (www.hud.gov).

(H) *Worker Protection Procedures.* You must observe the procedures for worker protection established in the HUD Guidelines, as well as the requirements of the Occupational Health and Safety Administration (OSHA) (29 CFR 1926.62—Lead Exposure in Construction), or the State or local occupational safety and health regulations, whichever are most protective. If other applicable requirements contain more stringent requirements than the HUD Guidelines, the more rigorous standards shall be followed.

(I) *Prohibited Practices.* You must not engage in practices that are not allowed because of health and safety risks. Methods that generate high levels of lead dust shall be undertaken only with requisite worker protection, containment of dust and debris, suitable cleanup, and clearance. Prohibited practices include:

(1) Open flame burning or torching;

(2) Machine sanding or grinding without a high-efficiency particulate air (HEPA) exhaust control;

(3) Uncontained hydro blasting or high-pressure wash;

(4) Abrasive blasting or sandblasting without HEPA exhaust control;

(5) Heat guns operating above 1100 degrees Fahrenheit;

(6) Chemical paint strippers containing methylene chloride or other volatile hazardous chemicals in a poorly ventilated space; and

(7) Dry scraping or dry sanding, except scraping in conjunction with heat guns or around electrical outlets or when treating no more than two (2) square feet in any one interior room or space, or totaling no more than 20 square feet on exterior surfaces.

(J) *Proposed Exceptions to HUD Requirements.* Proposed methods that differ from HUD's Lead Safe Housing Rule will be considered on their merits through a separate HUD review and approval process after the grant award is made and a specific justification has been presented. HUD may consult with experts from both the public and private sectors. HUD will not approve methods that, in HUD's opinion, involve a lowering of standards that have the potential to adversely affect the health of residents, contractors or workers, or the environment.

(K) *Written Policies and Procedures.* You must have clearly established, written policies and procedures for eligibility, program marketing, unit selection, expediting work on homes occupied by children with elevated blood lead levels, and all phases of lead hazard control, including risk assessment, inspection, development of specifications, pre-hazard control blood lead testing, financing, relocation and

clearance testing. Grantees, subcontractors, sub-grantees, sub-recipients, and their contractors must adhere to these policies and procedures.

(L) *Continued Availability of Lead Safe Housing to Low-Income Families.* Units in which lead hazards have been controlled under this program shall be occupied by and/or continue to be available to low-income residents as required by Title X. You must maintain a registry (listing) of units in which lead hazards have been controlled and ensure that these units are marketed to agencies and families as suitable housing for families with children under six. The grantee must notify the owner of the information that is collected so that the owner may make disclosure to tenants in accordance with the requirements under 24 CFR part 35, Subpart A.

(M) *Testing.* In developing your application budget, include costs for inspection, risk assessment, and clearance testing for each dwelling that will receive lead hazard control, as follows:

(1) *Testing.* (a) *General.* All testing and sampling shall conform to the current HUD Guidelines and Federal, state or tribal regulations developed as part of the appropriate contractor certification program. It is particularly important to provide this full cycle of testing for lead hazard control, including interim controls. Testing must be conducted according to the HUD Guidelines and the EPA lead hazard standards rule at 40 CFR part 745. All test results must be provided to the owner in a timely fashion, together with a notice describing the owner's legal duty to disclose the results to tenants and buyers under 24 CFR part 35, Subpart A.

(b) *Pre-Hazard Control.* A combined inspection and risk assessment is recommended. You should ensure that the results of the pre-hazard control investigation are sufficient to support hazard control decisions. When appropriate, you may elect to perform a lead hazard screen in lieu of an inspection or risk assessment.

(c) *Non-Identification of Lead Hazards from Paint, Dust, Soil.* In the event you propose to conduct lead hazard control work without identification of lead hazards from paint, dust, and soil, you must fully justify the technical and other rationale for such a proposal. HUD must approve such proposals. Approval is subject to HUD environmental review under 24 CFR part 50.

(d) *Clearance Testing.* Clearance dust testing must be conducted according to the EPA lead hazards standards rule at 40 CFR part 745 for abatement projects and the Lead-Safe Housing rule (24 CFR part 35) for lead hazard control activities or other abatement. These are available at www.epa.gov and www.hud.gov respectively.

(2) *Blood lead testing.* Before lead hazard control work begins, each occupant who is under six years old must be tested for lead poisoning within the six months preceding the housing intervention. Any child with an elevated blood lead level must be referred for appropriate medical follow-up. The standards for such testing are described in the Centers for Disease Control and Prevention publications *Preventing Lead Poisoning in Young Children* (1991), and *Screening Young Children for Lead Poisoning: Guidance for State and Local Public Health Officials (1997).*

(N) *Cooperation With Related Research and Evaluation.* You shall cooperate fully with any research or evaluation sponsored by HUD, CDC, EPA or other government agency and associated with this grant program, including preservation of project data and records and compiling requested information in formats provided by the researchers, evaluators or HUD. This also may include the compiling of certain relevant local demographic, dwelling unit, and participant data not contemplated in your original proposal. Participant data shall be subject to Privacy Act protection.

(O) *Data collection.* You will be required to collect and maintain the data necessary to document the various lead hazard control methods used and the cost of these methods.

(P) *Section 3 Employment Opportunities.* Please see Section II (E) of the General Section of the SuperNOFA. The requirements of Section 3 of the Housing and Urban Development Act of 1968 are applicable to the Lead-Based Paint Hazard Control Program.

(Q) *Replacing Existing Resources.* Funds received under this grant program shall not be used to replace existing community resources dedicated to any ongoing project.

(R) *Certifications and Assurances.* You must include the certifications and assurances listed in the General Section of the SuperNOFA with your application.

(S) *Davis-Bacon Act.* The Davis-Bacon Act does not apply to this program. However, if you use grant funds in conjunction with other Federal programs in which Davis-Bacon prevailing wage rates apply, then Davis-Bacon provisions would apply to the extent required under the other Federal programs.

(T) *Conducting Business in Accordance With HUD Core Values and Ethical Standards.* If awarded assistance under this SuperNOFA, you will be required, prior to entering into a grant agreement with HUD, to submit a copy of your code of conduct and describe the methods you will use to ensure that all officers, employees and agents of your organization are aware of your code of conduct (See Section II(B)(2) of the General Section of the SuperNOFA for information about conducting business in accordance with HUD's core values and ethical standards.)

(U) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* The Department of Housing and Urban Development (HUD) is committed to ensuring that small businesses, small disadvantaged businesses and women-owned businesses participate fully in HUD's direct contracting and in contracting opportunities generated by HUD grant funds. Too often, these businesses still experience difficulty accessing information and successfully bidding on Federal contracts. HUD regulations at 24 CFR 85.36(e) require recipients of assistance (grantees and sub grantees) to take all necessary affirmative steps in contracting for purchase of goods or services to assure that minority firms, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps shall include:

(i) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

(ii) Assuring that small and minority business, and women's business enterprises are solicited whenever they are potential sources;

(iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to *permit maximum participation by small and minority business, and women's business enterprises;*

(iv) *Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women's business enterprises;*

(v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and

(vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2)(i) through (v) above.

V. Application Selection Process

(A) *Rating and Ranking.* Only those applications that meet the threshold review requirements will be rated and ranked. HUD intends to fund the highest ranked applications receiving a minimum score of 70 within the limits of funding, but reserves the right to advance other eligible applicants in funding rank. A decision to advance an applicant will be based on work plan strategies that foster innovative local approaches or lead hazard control methods.

(B) *Award Offers.* In the selection process, once available funds have been allocated to meet the requested or negotiated amounts of the top eligible applicants, HUD reserves the right to offer any residual amount as partial funding to the next eligible applicant, provided HUD is satisfied that the residual amount is sufficient to support a viable, though reduced effort, by such applicant(s). If you are an applicant offered a reduced grant amount you will have a maximum of seven (7) calendar days to accept such a reduced award. If you fail to respond within the seven-day limit, you shall be considered to have declined the award. Applicants may respond by e-mail, facsimile, or by mail.

(C) *Budget.* HUD will evaluate your proposed budget to determine if it is reasonable, clearly justified, and consistent with the intended use of grant funds. HUD is not required to approve or fund all proposed activities. Previously unfunded applicants may devote up to 36 months for the planning, implementation, and completion of lead hazard control activities. Current and prior grantees may devote up to 30 months, except those grantees awarded funds under the "Request for Renewal," for which up to 24 months can be devoted to those activities. You must thoroughly document and justify all budget categories and costs (Part B of Standard Form 424A).

Note: Current grantees eligible to submit a "Request for Renewal" are to complete the required budget forms included in the NOFA and develop a work plan strategy for conducting lead hazard control program activities during the 24-month period of performance. Do not respond to the Factors for Award listed below. The application kit will provide additional guidance for submitting an application.

(D) *Factors for Award Used to Evaluate and Rate Applications.* The factors for rating and ranking applicants, and maximum points for each factor, are stated below. The maximum number of points to be awarded is 106. This maximum includes six bonus points as described in Section III(C)(1–3) of the General Section of the SuperNOFA, which addresses EZ, Brownfield Showcase Communities, and a court-ordered consideration applicable to this program. A minimum score of 70 is required for fundable applications.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 points for all applicants)

This factor addresses your organizational capacity necessary to successfully implement the proposed activities in a timely manner. The rating of the "applicant" or the "applicant's staff" for technical merit or threshold compliance, unless otherwise specified, includes any faith-based and other community-based organizations, sub-contractors, consultants, sub-recipients, and members of consortia which are firmly committed to your project. In rating this factor, HUD will consider:

(1) The applicant's recent, relevant and successful demonstrated experience (including governmental and faith-based and other community-based partners) to undertake eligible program activities. The applicant must describe the knowledge and experience of the proposed overall project director and day-to-day program manager in planning and managing large and complex interdisciplinary programs, especially involving housing rehabilitation, public health, or environmental programs. The applicant must demonstrate that it has sufficient personnel or will be able to quickly retain qualified experts or professionals, to begin the proposed work program immediately after receiving an award and to perform lead hazard evaluation, lead hazard reduction, and other proposed activities in a timely and effective manner. In the narrative response for this factor, you should include information on your program staff, their experience, their commitment to the program, salary information, and position titles. Resumes (for up to three key personnel), position descriptions, and a clearly identified organizational chart for the lead hazard control grant program effort must be included in an appendix. Indicate the percentage of time that key personnel will devote to your project. The applicant's day-to-day program manager must be experienced in the management of housing rehabilitation or lead hazard control, or similar work involving project management, and must be dedicated to the proposed program for a minimum of 75% of the time. The applicant should provide a description of any previous experience in enrolling units and in completing lead hazard control work, housing rehabilitation or other work in a timely and effective manner. Describe how any other principal components of your agency, other public entities, or other organizations will participate in implementing or otherwise supporting or participating in the grant program. You may demonstrate capacity by thoroughly describing your prior experience in initiating and implementing lead hazard control efforts and/or related environmental, health, or housing projects. You should indicate how this prior experience will be used in carrying out your proposed comprehensive Lead-Based Paint Hazard Control Grant Program.

(2) If the applicant received previous HUD Lead-Based Paint Hazard Control Grant funding, this past experience will be evaluated in terms of cumulative progress and achievements under the previous grant(s). Where the applicant has received multiple HUD Lead Hazard Control Grants, performance under the most recent grant award will be primarily evaluated. If you are a current or prior grantee, you must provide the detail necessary to assure HUD that you will implement the proposed work immediately and perform it concurrently with existing lead hazard control grant work. The applicant must provide a description of its progress and performance in implementing the most recent grant award including the total number of housing units enrolled, assessed, in progress and completed and cleared as of the most recent calendar quarter. The applicant must also describe results from other lead hazard control grant program work plan activities and tasks including results from efforts undertaken to build local capacity for lead hazard control; in implementing HUD's Lead-Safe Housing Rule; "mainstreaming" lead-safe work practices into the private market; and in conducting effective education, outreach, and other training activities. The applicant should also cite specific instances in which the program has made a positive impact in the community. These impacts could include decreases in the number of children with elevated blood lead levels in the target area, average blood lead levels, and dust lead levels. In addition, activities undertaken to develop, enhance or expand the local infrastructure through collaboration should also be discussed.

In evaluating applications for funding HUD will take into account an applicant's past performance in managing funds, including the ability to account for funds appropriately; timely use of funds received either from HUD or other Federal, State or local programs; meeting performance targets for completion of activities and number of persons to be served or targeted for assistance. HUD may use information relating to these items based on information at hand or available from public sources such as newspapers, Inspector General or Government Accounting Office Reports or Findings, hotline complaints that have been proven to have merit, or other such sources of information.

In evaluating past performance, HUD may elect to deduct points from the rating score as specified under the Factors for Award or set threshold levels for performance as specified in the funding announcement.

Rating Factor 2: Needs/Extent of the Problem (20 points for all applicants)

This factor addresses the extent to which there is a need for the proposed program to address a documented problem and will be based on the evidence of lead poisoning, the presence of lead hazards, high risk children, and high risk housing in any proposed target area(s).

(1) Document a critical level of need for your proposed activities in the geographical area where activities will be carried out. Since an objective of the program is to prevent at-risk children from being poisoned, specific attention must be paid to documenting such need as it applies to the targeted areas, rather than the entire locality or state.

(2) Document the following for the target area(s):

(a) Numbers and percentages of children less than 72 months of age

i. numbers and percentages of children with elevated blood lead levels

ii. numbers and percentages of children tested for blood lead levels,

(b) Economic and demographic data relevant to the target area, including poverty and unemployment rates;

(c) Relevant housing market data available from HUD, or other data sources, including the Consolidated Plan/Analysis of Impediments, Public Housing Authority's Five Year Comprehensive Plan, State or local Welfare Department's Welfare Reform Plan, and;

(d) Other data relevant to the target area or jurisdiction that documents an unmet need for lead-safe housing. These data may include the number of units that have been occupied by lead poisoned children where the identified lead-based paint hazards have not been remediated; the number of lead-based paint health and/or housing code violations; or the number of pre-1978 or pre-1960 housing units anticipated to undergo rehabilitation in the next 12 months; the proportion or number of units with lead dust hazards; information about the principal sources of exposure in your community, their prevalence, and the segments and/or characteristics of the housing most affected by these exposure sources; and/or other information about housing condition.

(3) To the extent that statistics and other data contained in your community's Consolidated Plan or Analysis of Impediments to Fair Housing Choice (AI) and other data sources support the extent of the problem, you should include references to the Consolidated Plan, the AI or other data sources in your response.

(4) Provide information about the areas targeted for lead hazard control activities (data may be available from State or local sources, included in your currently approved Consolidated Plan or AI, derived from current Census Data, or available from special studies). The information to be provided includes the following:

(a) The age and condition of housing;

(b) The number and percentage of very-low (income less than 50% of the area median) and low (income less than 80% of the area median) income families, as determined by HUD, with adjustments for smaller and larger families;

(c) The number and proportion of children under six years (72 months) of age at risk of lead poisoning;

(d) The extent of the lead poisoning problem in children under six years (72 months) of age in target areas and the overall jurisdiction; and

(e) Other socioeconomic or environmental factors that demonstrate a need to establish or continue lead hazard control work in your jurisdiction.

(5) You also must provide documentation of the priority that the community's Consolidated Plan and Analysis of Impediments to Fair Housing Choice has placed on addressing the needs you described. If your application addresses needs that are in the Consolidated Plan, Analysis of Impediments to Fair Housing Choice, or the result of court orders or consent decrees, settlements, conciliation agreements, voluntary compliance agreements, and/or Childhood Lead Poisoning Prevention Programs or other relevant local initiatives you will receive more points than applicants that do not relate their program to identified needs.

(6) For you to receive maximum points for this factor, there must be a direct relationship between your proposed lead hazard control activities in the target area(s) and the documented community needs.

Rating Factor 3: Soundness of Approach (40 points for previously unfunded applicants and 50 points for current or prior grantees)

This factor addresses the quality and cost-effectiveness of your proposed work plan and the demonstrated performance of current and prior grantees both in terms of units completed and LOCCS draw downs). You should present information on your proposed lead-based paint hazard control program and describe how it will satisfy the identified needs. To the extent possible, describe a comprehensive strategy to address the need to protect targeted neighborhoods rather than individual units or homes. Your response to this factor must include the following elements:

(1) *Lead Hazard Control Work Plan Strategy* (32 points for previously unfunded applicants; 42 points for current and prior grantees). Describe your work plan goals and specific time-phased strategy to complete work under the grant within the 36-month period of performance (30 months for existing grantees) for your lead hazard control grant program. You should provide information on:

(a) *Implementing a Lead Hazard Control Program* (13 points for previously unfunded applicants; 6 points for current or prior grantees). Describe how you will implement the strategy for your proposed lead hazard control program. The description must include information on:

(i) How the project will be managed and staffed, the steps taken to ensure the availability of lead-based paint contractors and workers to conduct lead hazard control interventions, and other activities needed during the planning phase of the program and prior to beginning actual lead hazard control intervention work. In addition, a detailed description of the selection process for sub grantees, subcontractors or sub-recipients, and how assistance and funding will flow from the grantee to the actual performers of work under the grant shall be provided.

(ii) The overall number of eligible privately owned housing units scheduled for lead hazard control intervention work and the strategy for their identification, selection, prioritization, and enrollment in the selected target area(s). Discuss the eligibility criteria for unit selection and how the program will identify units that meet these criteria. Explain how referrals of eligible units from childhood lead poisoning prevention programs,

VOL 67 ISS 58 MR 26 2002 UMI

other health or housing agencies or health providers that serve children will be obtained. Also discuss how referrals from the Section 8/Housing Choice Voucher programs and other agencies that provide housing assistance to low-income households with children including CDBG, Home-funded housing programs or other sources will be obtained. (Include as attachments any referral agreements, commitment letters or other documents from other entities that describe their participation in recruiting eligible units in the lead hazard control grant program.) (*See* Rating Factor 4 Leveraging Resources and Rating Factor 5 Coordination, Self-Sufficiency and Sustainability), Provide estimates of the total number of owner occupied and/or rental units that will receive lead hazard control. You should describe how the program will respond to the needs of children with elevated blood lead levels located outside the target area(s).

(iii) The degree to which the work plan focuses on eligible privately-owned housing units occupied by low-income families with children under six years (72 months) of age. Describe your planned approaches to control lead hazards in vacant and/or occupied units before children are poisoned and your plans to ensure that the program will continue to match these units with low-income families with children under six years (72 months) of age in the future. Discuss strategies to control lead hazards in units where children have already been identified with an elevated blood lead level, including your process for referring and tracking children with elevated blood lead levels for medical case management, and your capacity to rapidly complete lead hazard control work in their units. Also describe your process for referrals of EBL-occupied units that do not meet all the eligibility criteria for inclusion in the lead hazard control grant program. Provide estimates of the number of children you will assist through this program.

(iv) The lead hazard control financing strategy, including eligibility requirements, terms, conditions, dollar limits, and amounts available for lead hazard control work. You must discuss the way assistance from the grant funds will be administered to or on behalf of property owners (e.g. use of grants, deferred loans and/or forgivable loans and the basis and schedule for forgiveness), and the role of other resources, such as private sector financing), as well as the entity that will administer the financing process. Describe any matching requirements proposed for assistance to rental property owners.

(v) You should describe how your proposed program will satisfy the stated needs in the Consolidated Plan. Describe how your proposed program will further and support the policy priorities of the Department, including promoting healthy homes; providing opportunities for self-sufficiency, particularly for persons enrolled in welfare to work programs; or providing educational and job training opportunities. Describe how your strategy will provide long-term benefits to families with children under six years of age. Describe whether any of the proposed activities will occur in an EZ/EC and how they will benefit the residents of those zones or communities.

(b) *Lead Hazard Control Outreach and Community Private Sector Involvement* (6 points for all applicants). Applicants are encouraged to solicit participation of faith-based and other community-based and private sector organizations to accomplish outreach and community involvement activities and to build long-term capacity and sustain accomplishments in the target area. Applicants that partner, fund, or subcontract with faith-based and other community-based organizations will receive higher points in this sub factor. Your application must describe:

(i) Proposed methods of community education. These may include community awareness, education, training, and outreach programs in support of the work plan and objectives. This description should include general and/or targeted efforts undertaken to assist your program in reducing lead exposure. Programs should be culturally sensitive, targeted, and linguistically appropriate. Upon request, this would include making materials available in alternative formats to persons with disabilities (*e.g.*, Braille, audio, large type), and in other languages common to the community to the extent possible.

(ii) Strategy for involving neighborhood or faith-based and other community-based organizations in your proposed activities. Your activities may include training (including training residents to screen houses through visual assessment and sampling), outreach, community education, marketing, inspection (including dust lead testing), and the conduct of lead hazard control activities. HUD will evaluate the level of substantive involvement during the review process.

(iii) Strategies and methodologies that affirmatively further fair housing and increase access to lead-safe housing for all segments of the population: homeowners, owners of rental properties, and tenants. This outreach should address ways to avoid housing discrimination against families with young children, and ways to ensure that all families will have adequate, lead-safe housing choices in the future.

(c) *Technical Approach/Performance* (13 points for previously unfunded applicants; 30 points for current or prior grantees). (Previously unfunded applicants are to respond to items (c) i–vii below)

(Current or prior grantees will be evaluated on the basis of cumulative unit production and cumulative LOCCS draw downs made under the grantee's most recent award for the period ending March 31, 2002. Current and prior grantees do not need to respond to items (c) i–vii below but are to provide a response for items viii and ix)

For Previously Unfunded Applicants

(i) Describe your process for the conduct of lead hazard evaluation (risk assessments and/or inspections) in units of eligible privately owned housing to confirm that there are lead-based paint hazards in the housing units where lead hazard control is undertaken. You may use the results of a valid risk assessment or inspection that had been previously performed within that past 6 months by certified inspectors or risk assessors in accordance with the HUD Guidelines if the report identified lead-based paint hazards and it is evident that hazards remain.

(ii) Describe your testing methods, schedule, and costs for performing blood lead testing, risk assessments, inspections and clearance examinations to be used. If you propose to use a more restrictive standard than the HUD/EPA thresholds (e.g., less than 0.5% or 1.0 mg/ square centimeter for lead in paint, or less than 40, 250, 400 mg/square foot for lead in dust on floors, sills and troughs respectively); or 400 ppm in bare soil in children's play areas and 1200 ppm for bare soil in the rest of the yard), identify the standard(s) which will be used. All testing shall be performed in accordance with applicable regulations.

(iii) Describe the lead hazard control methods and strategies that you will undertake and the number of units you will treat for each method selected (interim controls or hazard abatement). Complete abatement of all lead painted surfaces in all units is generally not acceptable as a strategy. In cases where only a few surfaces have lead hazards in a specific unit and abatement is cost-effective, the applicant must provide a detailed rationale for selecting complete abatement as a strategy. Provide an estimate of the per unit costs (and a basis for those estimates) for each lead hazard control method proposed and a schedule for initiating and completing lead hazard control work in the selected units. Discuss efforts to incorporate cost-effective lead hazard control methods. Explain your cost estimates, providing detail on how the estimates were developed, with particular references to cost effectiveness.

(iv) Schedule. Describe your expected schedule for the overall project. Discuss when you plan to perform lead hazard control on your first unit; and complete lead hazard control on all units in the lead hazard control program. Describe the schedule for a typical unit that will receive lead hazard control. Discuss the duration for referral/intake, enrollment and qualification; evaluation; hazard control; and clearance. Describe the schedule for emergency referrals (e.g. unit occupied by a child under the age of 6 years of age with an elevated blood lead level).

(v) Describe how you will integrate proposed lead hazard control activities with rehabilitation activities, including providing the training needed to create a workforce properly trained in lead-safe work practices for units assisted or rehabilitated under other HUD programs, and any collaboration with local housing or health departments, rehabilitation programs or community development corporations to stage lead hazard control and rehabilitation in the same units.

(vi) Describe your contracting process, including development of specifications or adoption of existing specifications for selected lead hazard control methods. Describe the management processes you will use to ensure the cost-effectiveness of your lead hazard control methods. Your application must include a discussion of the contracting process for the conduct of lead hazard control activities in the selected units, and requirements for coordination among lead hazard control, rehabilitation, weatherization, and other contractors.

(vii) Describe your plan for occupant protection or the temporary relocation of occupants of units selected for lead hazard control work. Describe any plan to avoid overnight relocation in small scale projects, consistent with 24 CFR 1345 (a)(2) and HUD's Interpretive Guidance J24, R18, and R19.You should address the use of safe houses and other temporary housing arrangements, storage of household goods, stipends, incentives, etc.

For Current and Prior Grantees

(viii) If you are a current or prior grantee, you must describe the actions you will take to ensure that your proposed lead hazard control work will occur concurrently with other ongoing HUD lead hazard control grant work. Your application must provide the detail necessary to assure HUD that you will implement the proposed work immediately and perform it concurrently with existing lead hazard control grant work. (*See* rating Factor 1)

(ix) If you are an existing or prior grantee, you must describe your progress in meeting the unit production goals included in your most recent lead hazard control grant award. If the unit production achieved is below the performance values (percentages of units completed) provided in the application kit, and no changes are proposed to your work plan, you should explain why the strategy in the earlier grant remains appropriate. Failure to provide this discussion will result in reduced points for this sub factor. In addition, the expenditure rate as reflected by the timely drawdown of HUD grant funds from the Line of Credit Control System (LOCCS) will be evaluated in conjunction with the achievement of the unit production goal.

(2) *Economic Opportunity* (4 points for all applicants). Describe the ways you will train individuals and contractors in housing related trades, such as painters, remodelers, renovators, maintenance personnel, and rehabilitation specialists, and others in lead-safe work practices. Describe how you will help to integrate lead-safety into other housing activities, such as meeting the requirements of the HUD Lead-Safe Housing Regulation in housing units rehabilitated or assisted with Federal funds.

Describe the methods to be used to provide economic opportunities for residents and businesses in the community. This discussion should include information on how you will promote training, employment, business development, and contract opportunities as part of your lead hazard control program. Grantees must comply with Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) and HUD's implementing rules at 24 CFR Part 135. Describe how you will accomplish the requirement by (1) providing training and employment opportunities for low and very low-income persons living within the grantee's jurisdiction, and by (2) providing business opportunities to businesses owned by low and very low-income persons living within the grantees jurisdiction.

(3) *Program Evaluation, Data Collection, and Research* (4 points for all applicants).

(a) Identify and discuss the specific methods and measures you will use (in addition to HUD reporting requirements) to measure progress, evaluate program effectiveness, and identify program changes necessary to improve performance. Describe how you will obtain, document and report the information.

(b) Provide a detailed description of any proposed applied research activities. Describe the objectives, methodology and impact at the local level of the proposed research activities.

Rating Factor 4: Leveraging Resources (10 points for previously unfunded applicants; 5 points for current or prior grantees)

This factor addresses your ability to obtain other community and private sector resources that can be combined with HUD's program resources to achieve program objectives. Current and prior grantees will be evaluated on their ability to generate new and/or additional resources and partnerships with faith-based and other community-based organizations committed to increasing lead poisoning prevention activities.

(1) In evaluating this factor, HUD will consider the extent to which you have established working partnerships with other entities to get additional resources or commitments to increase the effectiveness of the proposed program activities. Resources may include cash or in-kind contributions of services, equipment, or supplies allocated to the proposed program. Resources may be provided by governmental entities, public or private organizations, and other entities partnering with you. Leveraging arrangements with rental property owners may have the benefits of increasing the efficiency of public lead hazard expenditures and creating a financial stake for rental property owners in the quality of lead hazard control work. Contractual or other formal relationships with faith-based and other community-based organizations are a requirement for State and local government applicants. Documentation of these relationships with faith-based and other community-based organizations must be provided in this application either by signed agreements or commitment letters. This requirement does not apply to applicants who are an Indian Tribe. You also may partner with other program funding recipients to coordinate the use of resources in your target area.

(2) You should detail any activities to increase the understanding of lead poisoning prevention in your community. This could include partnerships with childhood lead screening programs, collaboration with

VOL
67
ISS
58
MR
26
2002
UMI

ongoing health, housing or environmental research efforts which could result in a greater availability of resources, and efforts to build capacity for lead-safe housing.

(3) Matching funds must be shown to be specifically dedicated to and integrated into supporting the lead-based paint hazard control program. You may not include funding from any Federally funded program (except the CDBG program) as part of your required 10% match. Other resources from the private sector or other sources committed to the program that exceed the required 10% match will provide points for this rating factor. Contributions above the first 10% may include funds from other Federally funded programs, State, local, charity, non-profit or for-profit entities. You must support each source of contributions, cash or in-kind, both for the required minimum and additional amounts, by a letter of commitment from the contributing entity, whether a public or private source. This letter must describe the contributed resources that you will use in the program and the purpose for which they are designated. Staff in-kind contributions should be given a monetary value. If you do not provide letters specifying details and the amount of the actual contributions, those contributions will not be counted. Matching contributions required of rental property owners may be included as part of your match. Documentation and estimates for the amount of the match should be provided in the annex for this factor.

(4) Applicants will not receive full points under this rating factor if they do not submit evidence of a firm commitment and the appropriate use of leveraged resources under the grant program. Such evidence must be provided by including letters of firm commitment, memoranda of understanding, or other signed agreements to participate from those entities identified as partners in your application. Each letter of commitment, memorandum of understanding, or agreement to participate should include the organization's name, the proposed level of commitment and responsibilities as they relate to your proposed program. The commitment must be signed by an official of the organization legally able to make commitments on behalf of the organization. Describe the role of faith-based and other community-based organizations in specific program activities, such as hazard evaluation and control; monitoring; and awareness, education, and outreach within the community. Describe how you will ensure that commitments to sub grantees specified in your proposal will be honored and executed, contingent upon an award from HUD.

Rating Factor 5: Coordination, Self-Sufficiency, and Sustainability (10 Points for previously unfunded applicants; 5 Points for current or prior grantees)

This factor addresses the extent to which your program reflects a coordinated, community-based process of identifying needs and building a system to prevent lead poisoning in your community's housing by using available HUD and other community resources. This factor consists of three elements: (1) The extent to which you have coordinated your activities with other known organizations that are not directly participating in your proposed work activities, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner; (2) The extent to which your application implements practical solutions within the grant term to result in assisting beneficiaries of grant program funds in achieving independent living, economic empowerment, educational opportunities, housing choice, or improved living environments; and (3) The extent to which your program exhibits the potential to be financially self-sustaining by decreasing dependence on Federal funding and relying more on State, local, and private funding so your activities can be continued after your grant award period is completed. In evaluating this factor, HUD will consider how you have:

(1) Coordinated your proposed activities with those of other groups or organizations to best support and coordinate all known activities and the specific steps you will take to share information on solutions and outcomes with others. Any written agreements or memoranda of understanding in place or proposed should be described. You should, at a minimum, describe the activities, in your metropolitan area or region, of other HUD Lead-Based Paint Hazard Control grantees, Centers for Disease Control and Prevention (CDC) Childhood Lead Poisoning Prevention grantees, Maternal and Child Health programs, State Medicaid agencies and child care providers, EPA grantees, EPA Regions and/or EPA-authorized certification and training programs, and other programs which are addressing lead poisoning prevention needs. Efforts undertaken to encourage non-profit organizations, including faith-based organizations, to participate in the program should be described. Coordination also includes providing technical assistance and training to neighboring or regional jurisdictions to facilitate the implementation of lead-based paint hazard control activities in those jurisdictions.

(2) Become actively involved (or if not currently active, describe the specific steps that will be taken to become active) in your community's Consolidated Plan and Analysis of Impediments processes and contribute information, action steps, and strategies to the element of the Consolidated Plan that has been established to identify and address the problem of childhood lead poisoning.

(3) Coordinated and integrated lead hazard control work with the local agencies responsible for housing rehabilitation, housing and health codes, and other related housing programs, as well as with the work of community development corporations, other faith-based and other community-based organizations and childhood lead poisoning prevention programs.

(a) Describe the degree to which lead hazard control work will be done in conjunction with other housing-related activities (*i.e.*, rehabilitation, weatherization, correction of code violations, and other similar work), or your plan for the integration and coordination of lead hazard control activities into those activities in the future.

(b) Describe plans to incorporate lead-based paint maintenance, and hazard control standards with the applicable housing codes and health regulations, including training of workers to conduct such activities.

(c) Describe plans to generate and use public subsidies or other private-sector resources (such as revolving loan funds) to finance future lead hazard control activities.

(d) Describe plans to develop public-private lending partnerships to finance lead hazard control as part of acquisition and rehabilitation financing including the use of Community Reinvestment Act "credits" by lending institutions.

(e) Discuss efforts undertaken to coordinate activities of all agencies and organizations participating in any aspect of the proposed program.

(f) Describe specific plans and objectives to implement a registry of lead-safe housing that is available to the public, or to incorporate housing or inclusion of the lead-safe status of properties in another publicly accessible address-based property information system. Such plans could include strategies on how the information would be managed and made available to the public so that families (particularly low income families with children under age six) can make informed decisions regarding their housing options. Existing grantee applicants must address any registry of lead-safe housing and specifically discuss the availability, amount of information contained, and the use by members of the community.

(g) Detail the extent to which the policy of affirmatively furthering fair housing for all segments of the population is advanced by the proposed activities. Detail how your proposed work plan will support the community's efforts to affirmatively further affordable housing for all segments of the population. If you have an existing grant, you should discuss activities that have contributed to enhanced lead safe housing opportunities to all segments of the population.

(h) Describe plans to adopt or amend statutes, regulations, or policies that will more fully integrate lead hazard control into community policies and priorities.

(4) Describe efforts to coordinate and cooperate with other organizations that will lead to a reduction in lead risks to community residents. This could include such activities as free training to create a workforce properly trained in lead safe work practices, lead-safe repainting and remodeling; promotion of essential maintenance practices; and provision of lead dust testing to low-income, privately-owned homes which may not receive lead hazard control assistance under this grant program.

(5) Describe how your program will be held accountable for meeting program goals, objectives, and the actions undertaken in implementing the grant program. Applicants should provide a description of the mechanism to assess progress and track performance in meeting the goals and objectives outlined in the work plan. Applicants should provide assurances that work plans and performance measures developed for the program will assist intended beneficiaries, and that work will be conducted in a timely and cost-effective manner.

VI. Application Submission Requirements

(A) Applicant Information

(1) *Application Format.* The application narrative response to the Rating Factors is limited to a maximum of 25 pages. Your response must be typewritten on one (1) side only on 8 ½" x 11" paper using a 12-point (minimum) font with not less than ¾" margins on all sides. Appendices should be referenced and discussed in the narrative response. Materials provided in the appendices should directly apply to the rating factor narrative.

(2) *Application Checklist.* Your application must contain the items listed in this Section VI(A)(B). These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively, referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (*i.e.*, excluding such items as narratives, letters), referred to as the "non-standard forms" can be found as Appendix A to this program section of the SuperNOFA. The application items are as follows:

(a) Transmittal Letter that identifies "the applicant" (or applicants) submitting the application, the dollar amount requested, what the program funds are requested for, and the nature of involvement with faith-based and other community-based organizations.

(b) The name, mailing address, telephone number, and principal contact person of "the applicant." If you have consortium associates, sub-grantees, partners, major subcontractors, joint venture participants, or others contributing resources to your project, you must provide similar information for each of these partners.

(c) Checklist and Submission Table of Contents.

(d) Applicant Abstract. An abstract describing the goals and objectives of your proposed program (2 page maximum).

(e) Standard Form 424, Application for Federal Assistance.

(f) HUD 424M, Federal Assistance Funding Matrix.

(g) A detailed budget (total budget is the federal share and matching contribution) with supporting cost justifications for all budget categories of your grant request. You must provide a separate estimate for the overall grant management element (Administrative Costs), which is more fully defined in the application kit for this program section of the SuperNOFA. The budget shall include not more than 10% for administrative costs and not less than 90% for direct project elements. A minimum of 60% of the total Federal amount requested must be dedicated to direct lead hazard control activities. A sufficient amount of the total Federal amount must be dedicated to activities to create a workforce properly trained in lead-safe work practices. In the event of a discrepancy between grant amounts requested in various sections of the application, the amount you indicate on the SF–424 will govern as the correct value.

(h) An itemized breakout (using the SF–424A) of your required matching contribution, including:

—Values placed on donated in-kind services;

—Letters or other evidence of commitment from donors; and

—The amounts and sources of contributed resources.

(i) Standard Forms SF–LLL and SF–424B, and HUD Forms 2880, 2990, 2991, 2992, 2993, 2994, 50070 and 50071.

(j) Contracts, Memoranda of Understanding or Agreement, letters of commitment or other documentation describing the proposed roles of agencies, local broad-based task forces, participating faith-based and other community or neighborhood-based groups or organizations, local businesses, and others working with the program.

(k) A copy of the lead hazard control element included in your current program year's Consolidated Plan. You should include the discussion of any lead-based paint issues in your jurisdiction's Analysis of Impediments, particularly as it addresses your target areas.

(l) Narrative responses to the five rating factors.

(B) *Proposed Activities.* All applications must, at a minimum, describe the proposed activities in the narrative responses to the rating factors. Your narrative statement must be numbered in accordance with each factor for award (Rating Factors 1 through 5).

(C) *Applicant Debriefing. See* Section VII (E)(2) of the General Section of the SuperNOFA for information about applicant debriefing. Beginning not less than 30 days after the awards for assistance are announced in the above-mentioned **Federal Register** Notice, and for at least 120 days after awards for assistance are announced, HUD will provide a debriefing to any applicant requesting a debriefing on their application. All requests for debriefings must be made in writing and submitted to the person or organization identified as the Contact under the section entitled For Further Information and Technical Assistance in the program section of the SuperNOFA under which you applied for assistance. Information provided to you during your debriefing will include the final scores you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon

VOL
67
ISS
58
MR
26
2002
UMI

which assistance was provided or denied.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

In accordance with HUD regulations in 24 CFR Part 58, recipients of lead-based paint hazard control grants will assume Federal environmental review responsibilities. Recipients of a grant under this funded program will be given guidance in these responsibilities.

IX. Authority

The Lead-Based Paint Hazard Control Program is authorized by Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Title X of the Housing and Community Development Act of 1992).

Appendix A

The non-standard forms, which follow, are required for your Lead-Based Paint Hazard Control Program application. They are the Checklist and Submission Table of Contents and the Total Budget (Federal Share and Matching Contribution, including instructions).

Appendix B

The description of "Administrative Costs" and the "Eligibility of HUD Assisted Housing" are included in this section of the NOFA.

Instructions for Completing the Budget Summary Spreadsheet

Note: an electronic version of this spreadsheet may be obtained from the HUD Office of Healthy Homes and Lead Hazard Control website at www.hud.gov/offices/lead

Item	Discussion
1 - Personnel (Direct Labor)	This section should show the labor costs for all individuals supporting the grant effort (regardless of the source of their salaries). The hours and costs are for the full life of the grant. If an individual is employed by a contractor or sub-grantee, their labor costs should not be shown here. Please include all labor costs which are associated with the proposed grant program, including those costs which will be paid for with in-kind or matching funds. Do not show fringe or other indirect costs in this section. Please use the hourly labor cost for salaried employees (use 2080 hours per year or the value your organization uses to perform this calculation). An employee working less than full time on the grant should show the numbers of hours they will work on the grant.
2 - Fringe Benefits	Use the standard fringe rates used by your organization. You may use a single fringe rate (a percentage of the total direct labor) or list each of the individual fringe charges. The spreadsheet is set up to use the Total Direct Labor Cost as the base for the fringe calculation. If your organization calculates fringe benefits differently, please use a different base and discuss how you calculate fringe as a comment.
3 - Travel	
3a - Transportation - Local Private Vehicle	If you plan on reimbursing staff for the use of privately owned vehicles or if you are required to reimburse your organization for mileage charges, show your mileage and cost estimates in this section.
3b - Transportation - Airfare	Show the estimated cost of airfare required to support the grant program effort. Show the destination and the purpose of the travel as well as the estimated cost of the tickets. Each program NOFA discusses the travel requirements which should be listed here.
3c - Transportation - Other	If you or are charged monthly by your organization for a vehicle for use by the grant program, indicate those costs in this section. Provide estimates for other transportation costs which may be incurred (metro, etc.).

VOL 67 ISS 58 MR 26 2002 UMI

3d - Per Diem or Subsistence	For travel which will require the payment of subsistence or per diem in accordance with your organization's policies. Indicate the location of the travel. Each program NOFA discusses the travel requirements that should be listed here.
4 - Equipment	Equipment is defined by HUD regulations as tangible, nonexpendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. Each program NOFA describes what equipment may be purchased using grant funding.
5 - Supplies and Materials	Supplies and materials are consumable and non-consumable items that have a unit value of less than $5,000. Please list the proposed supplies and materials as either Consumable Supplies or as Non-Consumable Materials.
5a - Consumable Supplies	List the consumable supplies you propose to purchase. General office or other common supplies may be estimated using an anticipated consumption rate.
5b - Non-consumable materials	List furniture, computers, printers, and other items that will not be consumed in use. Please list the quantity and unit cost.
6 - Consultants	Please indicate the consultants you will use. Indicate the type of consultant (skills), the number of days you expect to use them, and their daily rate.
7 - Contracts and Sub-Grantees *Note: If any contractor, sub-contractor, or sub-grantee is expected to receive over 10% of the total Federal amount requested, a separate Total Budget Summary spreadsheet should be developed for that contractor or sub-grantee and the total amount of their proposed effort should be shown as a single entry in this section.*	List the sub-grantees, sub-recipients, or sub-contractors that will help accomplish the grant effort. Besides, sub-grantees or sub-recipients, other contracts for services including those for conducting inspections, risk assessments, and clearance inspections; contracts with faith-based and community-based organizations; liability insurance; contracts with laboratories; and training and certification for contractors and workers should be listed under this item. Unless your proposed program will perform the primary grant effort with in-house employees (costs listed in Items 1 and 2), the costs for contractors, sub-grantees or sub-recipients performing the primary grant activities should be identified and listed in this section. Types of activities which should be shown in this section: • Contracts for all services • Training • Contracts with Faith-Based and Community Based Organizations or Other Governmental Organizations (note the 10% requirement discussed in this section) • Insurance if your program will procure it separately Please provide a short description of the activity the contractor or sub-grantee will perform, if not evident.

8 - Other Direct Costs	Other Direct Costs include a number of items that are not appropriate for other sections. Other Direct Costs may include: • Staff training • Telecommunications • Printing and postage • Relocation, if costs are paid directly by your organization (if relocation costs are paid by a sub-grantee, it should be reflected in Section 7)
9 - Indirect Costs	OMB Circular A87 defines indirect costs are those that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. Indirect costs include (a) the indirect costs originating in each department or agency of the governmental unit carrying out Federal awards and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs. The spreadsheet is set up to use the Total Direct Labor plus the Fringe Benefits costs as the base for the indirect cost calculation. If your organization calculates indirect costs differently, please use a different base and discuss how you calculate fringe as a comment.

The three rightmost columns allow you to identify how the costs will be spread between the Federal Share and the Match. This information will help the reviewers better understand your program and priorities. The far right column is an "error checking" function to confirm that the estimated cost is equal to the sum of the Federal Share and the Match. If there is a discrepancy, the word "Error" will appear.

Note: The formats and many of the cells for the spreadsheet (which can be downloaded from the HUD Office of Healthy Homes and Lead Hazard Control's website at: www.hud.gov/offices/lead) are protected. There is no password for the protection.

APPENDIX B

Administrative Costs

I. PURPOSE

The intent of this HUD grant program is to allow the Grantee to be reimbursed for the reasonable direct and indirect costs, subject to a top limit, for overall management of the grant. In most circumstances the Grantee, whether a state or a local government, is expected to serve principally as a conduit to pass funding to sub-grantees, which are to be responsible for performance of the lead-hazard reduction work. Congress set a top limit of ten (10) percent of the total grant sum for the Grantee to perform the function of overall management of the grant program, including passing on funding to sub-grantees. The cost of that function, for the purpose of this grant, is defined as the "administrative cost" of the grant, and is limited to ten (10) percent of the total grant amount. The balance of ninety (90) percent or more of the total grant sum is reserved for the sub-grantee/direct-performers of the lead-hazard reduction work.

II. ADMINISTRATIVE COSTS: WHAT THEY ARE NOT

For the purposes of this HUD grant program for States and local governments to provide support for the evaluation and reduction of lead-hazards in low and moderate-income, private target housing: the term "administrative costs" should not be confused with the terms "general and administrative cost", "indirect costs", "overhead", and "burden rate". These are accounting terms, usually represented by a government-accepted standard percentage rate. The percentage rate allocates a fair share of an organization's costs that cannot be attributed to a particular project or department (such as the chief executive's salary or the costs of the organization's headquarters building) to all projects and operating departments (such as the Fire Department; the Police Department; the Community Development Department, the Health Department or this program). Such allocated costs are added to those projects' or departments' direct costs to determine their total costs to the organization.

III. ADMINISTRATIVE COSTS: WHAT THEY ARE

For the purposes of this HUD grant program, "Administrative Costs" are the Grantee's allowable direct costs for the overall management of the grant program plus the allocable indirect costs. The allowable limit of such costs that can be reimbursed under this program is ten (10) percent of the total grant sum. Should the Grantee's actual costs for overall management of the grant program exceed ten (10) percent of the total grant sum, those excess costs shall be paid for by the Grantee. However, excess costs paid for by the Grantee and may be shown as part of the requirement for cost-sharing funds to support the grant.

IV. ADMINISTRATIVE COSTS: DEFINITION

A. GENERAL

Administrative costs, are the allowable, reasonable, and allocable direct and indirect costs related to the overall management of the HUD grant for lead-hazard reduction activities. Those costs shall be segregated in a separate cost center within the Grantee's accounting system, and they are eligible costs for reimbursement as part of the grant, subject to the ten (10) percent limit. Such administrative costs do not include any of the staff and overhead costs directly arising from specific sub-grantee program activities eligible under Section III(C) of this NOFA, because those costs are eligible for reimbursement under a separate cost center as a direct part of project activities.

The Grantee may elect to serve solely as a conduit to sub-grantees, who will in turn perform the direct program activities eligible under NOFA Section III(C), or the grantee may elect to perform all or a part of the direct program activities in other parts of its own organization, which shall have their own segregated, cost centers for those direct program activities. In either case, not more than 10 percent of the total HUD grant sum may be devoted to administrative costs, and not less than 90% of the total grant sum shall be devoted to direct program activities. Grantee shall take care not to mix or attribute administrative costs to the direct project cost centers.

B. SPECIFIC

Reasonable costs for the Grantee's overall grant management, coordination, monitoring, and evaluation are eligible administrative costs. Subject to the ten (10) percent limit, such costs include, but are not limited to, necessary expenditures for the following, goods, activities and services:

(1) Salaries, wages, and related costs of the Grantee's staff, the staff of affiliated public agencies, or other staff engaged in Grantee's overall grant management activities. In charging costs to this category the recipient may either include the entire salary, wages, and related costs allocable to the program for each person whose primary responsibilities (more than 65% of their time) with regard to the grant program involve direct overall grant management assignments, or the pro rata share of the salary, wages, and related costs of each person whose job includes any overall grant management assignments. The Grantee may use only one of these two methods during this program. Overall grant management includes the following types of activities:

(a) Preparing grantee program budgets and schedules, and amendments thereto;
(b) Developing systems for the selection and award of funding to sub-grantees and other sub-recipients;
(c) Developing suitable agreements for use with sub-grantees and other sub-recipients to carry out grant activities;
(d) Developing systems for assuring compliance with program requirements;
(e) Monitoring sub-grantee and sub-recipient activities for progress and compliance with program requirements;
(f) Preparing presentations, reports, and other documents related to the program for submission to HUD;
(g) Evaluating program results against stated objectives;
(h) Providing local officials and citizens with information about the overall grant program; (However, a more general education program, helping the public understand the nature of lead hazards, lead hazard reduction, blood-lead screening, and the health consequences of lead poisoning is a direct project support activity).
(i) Coordinating the resolution of overall grant audit and monitoring findings; and
(j) Managing or supervising persons whose responsibilities with regard to the program include such assignments as those described in paragraphs (a) through (i).

(2) Travel costs incurred for official business in carrying out the overall grant management;

(3) Administrative services performed under third party contracts or agreements, for services directly allocable to overall grant management such as overall-grant legal services, overall-grant accounting services, and overall-grant audit services;

(4) Other costs for goods and services required for and directly related to the overall management of the grant program, including such goods and services as telephone, postage, rental of equipment, renter's insurance for the program management space, utilities, office supplies, and rental and maintenance (but not purchase) of office space for the program.

(5) The fair and allocable share of Grantee's general costs that are not directly attributable to specific projects or operating departments such as: The Mayor's and City Council's salaries and related costs; the costs of the City's General Council's office, not charged off to particular projects or operating departments; and the costs of the City's Accounting Department not charged back to specific projects or operating departments. (If Grantee has an established burden rate it should be used; if not Grantee shall be assigned a negotiated provisional burden rate, subject to final audit.)

UMI

FUNDING AVAILABILITY FOR HEALTHY HOMES AND LEAD TECHNICAL STUDIES

PROGRAM OVERVIEW

Purpose of the Program. To fund technical studies to improve methods for detecting and controlling lead-based paint and other residential health and safety hazards. The purpose of the Healthy Homes Initiative is to develop, demonstrate and promote cost effective, preventive measures to correct multiple safety and health hazards in the home environment that are associated with serious diseases and injuries in children. The purpose of the lead technical studies program is to improve methods for detecting and controlling residential lead-based paint hazards.

Available Funds. Approximately $2.5 million for healthy homes technical studies, and $1 million for lead technical studies.

Eligible Applicants. Academic and not-for-profit institutions located in the U.S., State and local governments, and federally recognized Indian tribes are eligible to apply. For-profit firms also are eligible; however, they are not allowed to earn a fee.

Application Deadline. June 14, 2002.

Match. None required.

ADDITIONAL INFORMATION

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Your completed application is due on or before June 14, 2002.

See the General Section of this SuperNOFA for specific procedures that you must follow for the form of application submission (*e.g.*, mailed applications, express mail, overnight delivery, or hand carried).

Address for Submitting Applications. For U.S. Postal Service and Overnight/ Express Mailed Applications. The address for mailed applications is: Department of Housing and Urban Development, Office of Healthy Homes and Lead Hazard Control, 451 Seventh Street, SW, Room P3206, Washington, DC 20410.

Application Submission Requirements. New Security Procedures. HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand-delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. *No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.*

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. *All applicants must obtain and save* a Certificate of Mailing showing the date when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, FedEx and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

For Application Kits. You may obtain an application kit from the SuperNOFA Information Center at 1–800-HUD–8929. Persons with speech or hearing impairments may call the Center's TTY number at 1–800-HUD–2209. When requesting an application kit, please refer to the Healthy Homes and Lead Technical Studies grant program. Please be sure to provide your name, address (including zip code), and telephone number (including area code). Alternatively, you may obtain an application kit by downloading it from the Internet at www.hud.gov.

For Further Information and Technical Assistance. You may contact: Dr. Peter Ashley, Office of Healthy Homes and Lead Hazard Control, at the address above; telephone (202) 755–1785, extension 115, or Ms. Curtissa Coleman, Grants Officer, extension 119 (these are not toll-free numbers). Hearing- and speech-impaired persons may access the above telephone number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

II. Amount Allocated

Approximately $2.5 million from HUD's FY 2002 Healthy Homes Initiative appropriation will be available to fund technical studies proposals and approximately $1 million from the FY 2002 lead technical assistance appropriation will be available to fund lead technical studies proposals in FY 2002. Grants or cooperative agreements will be awarded on a competitive basis according to the Rating Factors described in Section V(B). For technical studies under the Healthy Homes Initiative, HUD anticipates awarding 3 to 6 grants ranging from approximately $200,000 to approximately $1 million. For lead technical studies, HUD anticipates awarding 1 to 4 grants ranging from approximately $250,000 to approximately $1 million.

III. Program Description; Eligible Applicants; Eligible Activities

(A) Program Description. Background

(1) *General Goals and Objectives.* (i) The overall goal of the Healthy Homes and Lead Technical Studies program is to gain knowledge to improve the efficacy and cost-effectiveness of methods for evaluation and control of health and safety hazards in the home. Through the Healthy Homes Initiative, HUD is assessing and promoting new risk reduction techniques and technical studies on the control of key hazards described in Appendix A. Objectives to be addressed by these projects are:

(a) Investigation of the epidemiology of housing-related hazards and illness and injury.

(b) Development and assessment of low-cost test methods and protocols for identification and assessment of housing-related hazards.

(c) Development and assessment of cost-effective methods for reducing or eliminating housing-related hazards.

(d) Evaluation of the effectiveness of housing interventions and public education campaigns, and barriers and incentives affecting future use of the most cost-effective strategies.

(e) Investigation of the health effects on children living in deteriorated housing and the impact on their development and productivity.

(ii) The overall goal of the lead technical studies program is to gain knowledge to improve the efficacy and

VOL 67 ISS 58 MR 26 2002 UMI

cost-effectiveness of methods for lead-based paint hazard evaluation and control. HUD is especially interested in the following technical studies topics:

(a) Evaluation of interior and exterior lead hazard control methodologies, especially novel approaches;

(b) The effectiveness of ongoing maintenance activities in controlling lead-based paint hazards;

(c) Other areas of focus that are consistent with the overall goals of HUD's lead technical studies program.

A table of examples of current Healthy Homes and Lead Technical Studies projects being funded by HUD can be found in Appendix C. HUD has also developed resource papers on a number of topic areas of importance under the Healthy Homes Initiative, including mold, environmental aspects of asthma, carbon monoxide, unintentional injuries, and hazard assessment. These papers can be downloaded from HHI web site at www.hud.gov.

(2) *Healthy Homes Initiative.* The Healthy Homes Initiative (HHI) departs from the more traditional approach of attempting to correct one hazard at a time (e.g., asbestos, radon). In April 1999, HUD submitted to Congress a preliminary plan containing a full description of the Initiative. This description (Summary and Full Report) is available on the HUD website at www.hud.gov. A description of the HHI is available at the HHI website, www/hud.gov.

In addition to deficiencies in basic housing facilities that may impact health, changes in the U.S. housing stock and more sophisticated epidemiological methods and biomedical research have led to the identification of new and often more subtle health hazards in the residential environment (e.g., asthma and mold-induced illness). While such hazards will tend to be found disproportionately in housing that is substandard (e.g., structural problems, lack of adequate heat, etc.), such housing-related environmental hazards may also exist in housing that is otherwise of good quality. Appendix A to this Healthy Homes and Lead Technical Studies program section of the SuperNOFA briefly describes the housing-associated health and injury hazards HUD considers key targets for intervention. Appendix B to this Healthy Homes and Lead Technical Studies program section of the SuperNOFA lists the references that serve as the basis for the information provided in this Healthy Homes and Lead Technical Studies section of this SuperNOFA.

HUD is interested in promoting approaches that are cost-effective and efficient and that result in the reduction of health threats for the maximum number of residents for the long run, and in particular low-income children. The overall goals and objectives of the HHI are to:

(i) Mobilize public and private resources, involving cooperation among all levels of government, the private sector, and faith-based and other community-based organizations to develop the most promising, cost-effective methods for identifying and controlling housing-based hazards.

(ii) Build local capacity to operate sustainable programs that will continue to prevent and, where they occur, minimize and control housing-based hazards in low and very low-income residences when HUD funding is exhausted.

HUD recognizes that there are many key scientific and implementation questions related to this Initiative, some of which were articulated in the HHI Preliminary Plan. With this NOFA, HUD hopes to advance the recognition and control of residential health and safety hazards and more closely examine the link between housing and health.

(3) *Lead Technical Studies.* HUD has been actively engaged in a number of activities relating to lead-based paint as a result of the Lead-Based Paint Poisoning Prevention Act of 1971, as amended, 42 U.S.C. 4801–4846. Sections 1051 and 1052 of the Lead Based Paint Hazard Reduction Act of 1992 ("Title X") (42 U.S.C. 4854 and 4854a) state that the Secretary of HUD, in cooperation with other Federal agencies, shall conduct technical studies on specific topics related to the evaluation and subsequent mitigation of residential lead hazards. The HUD-sponsored technical studies program also responds to recommendations that were made by the Task Force on Lead-Based Paint Hazard Reduction and Financing, which was established pursuant to section 1015 of Title X. The Task Force presented its final report to HUD and the Environmental Protection Agency (EPA) in July 1995. The Task Force Report, entitled "Putting the Pieces Together: Controlling Lead Hazards in the Nation's Housing" (see Appendix A of this technical studies program section of the SuperNOFA), recommended research be conducted on a number of key topics to address significant gaps in our knowledge of lead exposure and hazard control.

The findings of technical studies will be used in part to update HUD's *Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing* ("*Guidelines*"), which were published in June, 1995 and amended in September, 1997. The *Guidelines* are a report on state-of-the-art procedures for all aspects of lead-based paint hazard evaluation and control. The *Guidelines* reflect the Title X framework for lead hazard control, which distinguishes three types of control measures: interim controls, abatement of lead-based paint hazards, and complete abatement of all lead-based paint. Interim controls are designed to address hazards quickly, inexpensively, and temporarily, while abatement is intended to produce a permanent solution. While the *Guidelines* recommend procedures that are effective in identifying and controlling lead hazards while protecting the health of abatement workers and occupants, HUD recognizes that targeted technical studies and field experience will result in future changes to the *Guidelines*. For availability of the *Guidelines*, see Appendix A of this technical studies program section of the SuperNOFA.

(B) Eligible Applicants

Academic and not-for-profit institutions located in the U.S., State and local governments, and federally recognized Indian tribes are eligible under all existing authorizations. For-profit firms also are eligible; however, they are not allowed to earn a fee (i.e., no profit can be made from the project). Federal agencies and Federal employees are not eligible to submit applications. The General Section of the SuperNOFA provides additional eligibility requirements.

(C) Eligible Activities

(1) *Healthy Homes Initiative, Eligible Activities*

(a) Evaluation of residential health and safety hazard assessment and control methodologies (including both existing methods and the evaluation of improved or novel approaches). Areas of particular interest to HUD include:

—Improving indoor air quality, such as through cost-effective approaches to upgrading residential ventilation or improving control/management of combustion appliances. Applicants should discuss how proposed approaches might affect energy residential energy costs (e.g., increasing air exchange rates resulting in an increase in heating costs).

—Improving or assessing the efficacy of current methods for residential Integrated Pest Management (IPM). IPM approaches focus on the use of economical means for managing pests, which incorporate information on the life cycles of pests and their interaction with the environment, while minimizing hazards to people, property, and the environment (see link at www.hud.gov). HUD is particularly interested in IPM methods for reducing cockroach and/or rodent populations in multifamily housing.

—Controlling excess moisture and dust control measures (e.g., preventing track-in of exterior dust and soil, improved methods for interior dust cleaning) have been identified as key areas in the HHI Preliminary Plan.

— Additional ideas will be considered with an open mind toward novel techniques and applications.

(b) Low-cost analytical techniques for the rapid, on and off-site determination of environmental contaminants of concern (e.g., bioaerosols, pesticides, allergens).

—Establish and validate any necessary procedures, such as extraction and/or digestion that would work well with the field device/procedure.

—Improve old technology (e.g., colorimetric tests, titrimetric procedures) as well as examine and improve newer techniques.

—Consider the safety, environmental impacts, and cost of the procedure, particularly as used in the field.

In proposing technical studies within the broad topic areas discussed in III.C.2(a) and III.C.2(b), applicants should consider the following:

—The "fit" of the proposed hazard assessment and/or control methods within the overall goal of addressing multiple health and safety hazards in a cost-effective manner.

—The efficacy of the proposed methods for hazard control and risk reduction (e.g., how long is effective hazard reduction maintained?).

—Evaluate critical elements and potential weaknesses of the methods or techniques, and address how to minimize the effect of each critical element and/or eliminate or mitigate each weakness.

— Demonstrate where and how these methods have been applied and tested, and/or perform demonstration activities.

Although HUD is soliciting proposals for technical studies on these broad topics, HUD will also consider funding applications for technical studies on topics that are relevant under the overall goals and objectives of this program, as described above. In such instances, the applicant should describe how the proposed project activity addresses these overall goals and objectives.

Applicants should consider the efficiencies that might be gained by working cooperatively with some of the recipients of HUD's Healthy Homes and Lead Hazard Control grants, which are widely distributed throughout the U.S. Information on current grantees is available at www.hud.gov.

You may address one or more of the technical studies topic areas within your proposal, or submit separate applications for different topic areas. Projects need not address all of the objectives within a given topic area.

(2) *Lead Technical Studies, Eligible Activities.*

(a) *Evaluation of Interior and Exterior Lead Hazard Control Methodologies, Especially Novel Approaches.* Identify and evaluate new methods and/or techniques for lead-based paint hazard control. Identify materials and/or procedures that may be used for abatement or for interim controls. Show the potential utility of these methods for lead hazard control and risk reduction. Evaluate critical elements and potential weaknesses of the methods or techniques, and address how to minimize the effect of each critical element and/or eliminate or mitigate each weakness. Demonstrate where and how these methods have been applied and tested, and/or perform demonstration activities. Illustrate the results obtained, and the costs involved. Recommend cost-effective changes to the Program for inclusion in future HUD lead hazard control grants, and for possible inclusion in future revisions to the Guidelines.

(b) *The Effectiveness of Ongoing Maintenance Program Activities in Controlling Lead-Based Paint Hazards.* While a variety of lead abatement and interim control techniques have been evaluated for their effectiveness in controlling lead-based paint hazards at and after their implementation, there is limited study directly assessing the effectiveness of ongoing lead-based paint maintenance programs. Evaluate the effectiveness and feasibility of developing and implementing ongoing lead-based paint maintenance programs, identify program components for which particular implementation difficulties exist, and evaluate proposed measures for overcoming those difficulties. Such quantitative evaluation of program components could address whether and how technically-acceptable and cost-effective work practices are selected and implemented, how effective supervisors are in monitoring work activities to ensure that lead-based paint hazards are controlled and that dust and debris are contained and cleaned up during work, and how well clearance procedures (including necessary re-cleaning) are integrated into the maintenance program, among other factors.

(c) *Other Focus Areas that are Consistent with the Overall Goals of HUD's Lead Technical Studies Program.* Additional ideas will be considered with an open mind toward novel techniques and applications. Although HUD is soliciting proposals for technical studies on some specific topics, HUD will also consider funding applications for technical studies on topics which are relevant under the overall goals and objectives of the lead hazard control technical studies program, as described above. In such instances, the applicant should describe how the proposed activity addresses these overall goals and objectives.

(D) Ineligible Activities

(1) Purchase or lease of equipment having a per unit cost in excess of $5,000, unless prior written approval is obtained from HUD.

(2) Medical treatment costs.

IV. Program Requirements.

(A) *Applicable Requirements.* Please refer to Section II of the General Section of the SuperNOFA, Requirements and Procedures Applicable to All Programs. The threshold requirements are listed in Section II B of the General Section of this SuperNOFA. Applicants must comply with these threshold requirements.

(B) *Conducting Business in Accordance with HUD Core Values and Ethical Standards.* All applicants shall develop and maintain a written code of conduct that reflects HUD's Core Values. Refer to the General Section of the SuperNOFA for additional information.

(C) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* The Department of Housing and Urban Development (HUD) is committed to ensuring that small businesses, small disadvantaged businesses and women-owned businesses participate fully in HUD's direct contracting and in contracting opportunities generated by HUD grant funds. Refer to the General Section of the SuperNOFA for applicable requirements.

(D) *Certifications and Assurances.* In addition to the certifications mentioned in the Section II(G) of the General Section of the SuperNOFA, you must comply with the following:

(1) All relevant State and Federal regulations regarding exposure to and proper disposal of hazardous materials.

(2) Any blood lead testing, blood lead level test results, and medical referral

VOL

2002
UMI

and follow-up for children under six years of age will be conducted according to the recommendations of the Centers for Disease Control and Prevention (CDC) *Preventing Lead Poisoning in Young Children*. (See Appendix B of this technical studies program section of the SuperNOFA).

(3) HUD technical studies grant funds will not replace existing resources dedicated to any ongoing project.

(4) Laboratory analysis covered by the National Lead Laboratory Accreditation Program (NLLAP) will be conducted by a laboratory recognized under the program.

(5) Human research subjects will be protected from research risks in conformance with Federal Policy for the Protection of Human Subjects, codified by HUD at 24 CFR part 60.

(6) The requirements of OSHA (e.g., 29 CFR part 1910 and/or 1926, as applicable), or the State or local occupational safety and health regulations, whichever are most stringent, will be met.

(E) *Period of Performance.* The period of performance cannot exceed 36 months from the time of award.

(F) *Conducting Business in Accordance with HUD core Values and Ethical Standards.* If awarded assistance under this Super NOFA, you will be required, prior to entering into a grant agreement with HUD, to submit a copy of your code of conduct and describe the methods you will use to ensure that all officers, employees, and agents of your organization are aware of your code of conduct. See Section II(A)(2) of the General Section of the SuperNOFA for information about conducting business in accordance with HUD's core values and ethical standards.

V. Application Selection Process

(A) *Submitting Applications for Grants.* Applications that meet all of the threshold requirements will be eligible to be scored and ranked, based on the total number of points allocated for each of the rating factors described below in Section V (B) of this program section of the SuperNOFA. Your application must receive a total score of at least 70 points to remain in consideration for funding.

Awards will be made separately in rank order for Healthy Homes Technical Studies applications and Lead Technical Studies applications, within the limits of funding availability for each program.

Within each of the two technical studies programs, you may address more than one of the technical study topic areas within your proposal (e.g., a HH technical studies applicant can address multiple topics consistent with the HHI program objectives), or submit separate applications for different topic areas. Projects need not address all of the objectives within a given topic area. While you will not be penalized for not addressing all of the specific objectives for a given topic area, if two applications for technical study in a given topic have equal scores, HUD will select the applicant whose project addresses the most objectives.

You are encouraged to plan projects that can be completed over a short time period (e.g., 12 to 24 months from the date of award) so useful information generated from the technical studies can be available for policy or program decisions and disseminated to the public as quickly as possible.

Regarding the amount to be awarded to the selected applicants, please refer to the Negotiations section in the General Section of this SuperNOFA.

(1) *Use of Residual Funds.* In the selection process, HUD reserves the right to offer partial funding to any or all applicants. If you are offered a reduced grant amount, you will have a maximum of fourteen (14) calendar days to accept such a reduced award. If you fail to respond within the 14-day limit, you shall be considered to have declined the award.

(B) *Rating Factors.* The factors for rating and ranking applicants, and maximum points for each factor, are provided below. The factors or their assigned points differ somewhat from those used for most program areas included in this SuperNOFA because they have been amended for rating the unique aspects of technical study applications. The maximum number of points to be awarded is 100. The EZ/EC bonus points described in the General Section of the SuperNOFA do not apply to this Technical Studies NOFA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (30 Points)

This factor addresses the extent to which you have the ability and organizational resources necessary to successfully implement your proposed activities in a timely manner. The rating of you, the "applicant," will include any sub-grantees, consultants, sub-recipients, and members of consortia that are firmly committed to the project (generally, "subordinate organizations"). In rating this factor HUD will consider the extent to which your application demonstrates:

(1) *The capability and qualifications of the principal investigator and key personnel* (20 points). Qualifications to carry out the proposed study as evidenced by academic background, relevant publications, and recent (within the past 10 years) relevant research experience. Publications and research experience are considered relevant if they required the acquisition and use of knowledge and skills that can be applied in the planning and execution of the technical study that is proposed under this program section of this SuperNOFA.

(2) *Past performance of the study team in managing similar projects* (10 points). Demonstrated ability to successfully manage various aspects of a complex technical study in such areas as logistics, study personnel management, data management, quality control, community study involvement (if applicable), and report writing, as well as overall success in project completion (i.e., projects completed on time and within budget). You should also demonstrate that your project would have adequate administrative support, including clerical and specialized support in areas such as accounting and equipment maintenance.

Rating Factor 2: Need/Extent of the Problem (10 Points)

This factor addresses the extent to which there is a need for your proposed study activities to address documented problems, target areas or target groups. In responding to this factor, you should document in detail how your project would make a significant contribution towards achieving some or all of HUD's stated goals and objectives for one or more of the topic areas described in Sections III (A) and (C)(1)–(2) of this program section of the SuperNOFA.

(1) Your rating will be based on the scope and completeness of your documentation that should include available data linking housing-based hazards to disease or injuries to children. Examples of data that might be used to demonstrate need include:

(a) Rates of childhood illnesses or injuries (e.g., asthma, burns) that could be caused or exacerbated by exposure to conditions in the home environment and/or rates of environmentally-related disease or adverse health effects (e.g., hypertension, elevated blood lead levels) that would be addressed by your technical study;

(b) Unavailability of other federal, state or local funding or private sector resources that could be, or are being used, to address the problem. This includes current research projects for which funding will be terminated or significantly reduced in the next 12 months.

(c) Data documenting affected groups or areas that are traditionally underserved or have special needs.

(2) If your application addresses needs that are in the Consolidated Plan, court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements, you will receive more points than applicants that do not relate their program to identified need.

(3) In addition, if you are seeking funding for "other" technical study focus areas, as is described in Section III(C)(1)(b) and III(C)(2)(c), you must document the importance and need for the project with respect to addressing the overall goal of this technical studies program.

Rating Factor 3: Soundness of Approach (50 Points)

This factor addresses the quality of your proposed technical study plan. Specific components include the following:

(1) *Soundness of the study design* (30 points). The project description/study design must be thorough and feasible, and reflect your knowledge of the relevant scientific literature. You should clearly describe how your study builds upon the current state of knowledge for your focus area. If possible, your study should be designed to address testable hypotheses, which are clearly stated. Your study design should be statistically based, with adequate power to test your stated hypotheses. The study design should be presented as a logical sequence of steps or phases, with individual tasks described for each phase. You should identify any important "decision points" in your study plan and you should discuss plans for data management, analysis and archiving.

Indicate if you will address any of the Department's FY 2002 policy priorities that are applicable to this program (see Section VI of the General Section of the SuperNOFA for a description of these policy priorities). You will receive one point for each of the applicable policy priorities that are addressed in your application. Policy priorities that are potentially applicable to the Healthy Homes and Lead Technical Studies NOFA are: (1) Improving the Quality of Public Housing and Providing More Choices for its Residents; and (2) Colonias.

(2) *Quality assurance mechanisms* (10 points). You must describe the quality assurance mechanisms that will be integrated into your project design to ensure the validity and quality of the results. Areas to be addressed include acceptance criteria for data quality, procedures for selection of samples/sample sites, sample handling, measurement and analysis, and any standard/nonstandard quality assurance/control procedures to be followed. Documents (e.g., government reports, peer-reviewed academic literature) that provide the basis for your quality assurance mechanisms should be cited.

(3) *Project management plan* (8 points). The proposal should include a management plan that provides a schedule for the completion of major activities, tasks and deliverables, with an indication that there will be adequate resources (*e.g.*, personnel, financial) to successfully meet the proposed schedule. You are encouraged to plan a project with a duration of 24 months or less.

(5) *Budget Proposal* (2 Points). Your budget proposal should thoroughly estimate all applicable direct and indirect costs, and be presented in a clear and coherent format in accordance with the requirements listed in the General Section of this SuperNOFA. HUD is not required to approve or fund all proposed activities. Your budget should be submitted in the format provided in Appendix D; an electronic spreadsheet is available on HUD's website, *www.hud.gov*. You must thoroughly document and justify all budget categories and costs (Part B of Standard Form 424A) and all major tasks, for yourself, sub-recipients, partners, major subcontractors, joint venture participants, or others contributing resources to the project. Your budget proposal should be activity and task related.

Rating Factor 4: Leveraging Resources (5 Points)

Your proposal should demonstrate that the effectiveness of HUD's Healthy Homes and Lead Technical Studies grant funds are being increased by securing other public and/or private resources or by structuring the project in a cost-effective manner, such as integrating the project into an existing study. Resources may include funding or in-kind contributions (such as services, facilities or equipment) allocated to the purpose(s) of your project. Staff and in-kind contributions should be given a monetary value.

You should provide evidence of leveraging/partnerships by attaching to your application the following: Letters of firm commitment, memoranda of understanding, or agreements to participate from those entities identified as partners in the project efforts. Each letter of commitment, memorandum of understanding, or agreement to participate must include the organization's name, proposed level of commitment (with monetary value) and responsibilities as they relate to specific activities or tasks of your proposed program. The commitment must also be signed by an official of the organization legally able to make commitments on behalf of the organization.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (5 Points)

(1) The extent to which you have coordinated your activities with other organizations that have or are in the process of conducting similar work. Your proposed study should build upon the existing body of related work and it should not significantly duplicate work that is currently being conducted, or has been conducted, by other organizations (to the extent that this can be ascertained);

(2) The extent to which your project will help generate practical solutions that can be funded and implemented locally for the identification and mitigation of health and safety hazards in residential environments;

(3) The extent to which your project findings can be used by various local and State governmental and non-governmental organizations to develop programs to implement improved evaluation and remediation strategies for addressing health and safety hazards in the residential environment in the absence of additional Federal funding.

VI. Application Submission Requirements

(A) *Applicant Data.* Your application must contain the items listed in this Section (VI(A)). These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively, referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the non-standard forms can be found as Appendix D to this program section of the SuperNOFA: The items are as follows:

(1) Transmittal Letter that identifies what the technical study program funds are requested for (you should clearly specify that you are applying for funds under either the Healthy Homes Initiative technical studies program or the Lead Hazard Control technical studies program), the dollar amount requested, and the applicant or applicants submitting the application. If

VOL
67
ISS
58
MR
26
2002
UMI

two or more organizations are working together on the project, a primary applicant must be designated.

(2) Checklist and Submission Table of Contents (see Appendix D).

(3) The name, mailing address, telephone number, and principal contact person of the prime applicant. If you have consortium associates, sub-grantees, partners, major subcontractors, joint venture participants, or others contributing resources to your project, similar information must be provided for each of these entities.

(4) Completed Forms HUD–2880, Applicant/Recipient Disclosure/Update Report; Certification Regarding Lobbying; and/or SF–LLL, Disclosure of Lobbying Activities, where applicable. A Certification of Consistency with the Consolidated Plan is not required for this application.

(5) Completed Standard Forms SF–424, 424M, 424A, 424B, and other certifications and assurances listed in the General Section of the SuperNOFA.

(6) A detailed total budget with supporting cost justification for all budget categories of the Federal grant request. Use the budget format discussed in Section V(B) Rating Factor 3:5, above. (See Appendix D.)

(7) A two-page (maximum) abstract containing the following information: The project title, the names and affiliations of all investigators, and a summary of the objectives, expected results, and study design described in the proposal.

(8) A project description/narrative statement addressing the rating factors for award of funding under this program section of the SuperNOFA. The narrative statement must be numbered in accordance with each factor for award (Rating Factors 1 through 5). The response to the rating factors should not exceed a total of 25 pages for each technical study topic area. Any pages in excess of this limit will not be read.

(9) Any important attachments, appendices, references, or other relevant information may accompany the project description, but must not exceed twenty (20) pages for the entire application. Any pages in excess of this limit will not be read.

(10) The resumes of the principal investigator and other key personnel. Resumes shall not exceed three pages each, and are limited to information that is relevant in assessing the qualifications of key personnel to conduct and/or manage the proposed technical studies.

(B) *Applicant Debriefing.* See Section VII(E)(2) of the General Section of the SuperNOFA for information about applicant debriefing.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

In accordance with 24 CFR 50.19(b)(1) and (b)(5) of the HUD regulations, activities assisted under this program are categorically excluded from the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321) and are not subject to environmental review under the related laws and authorities.

IX. Authority

These grants are authorized under sections 1051 and 1052 of the Residential Lead Based Paint Hazard Reduction Act of 1992, which is Title X of the Housing and Community Development Act of 1992, sections 501 and 502 of the Housing and Urban Development Act of 1970, and the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2002, Pub. L. 107–73, approved November 26, 2001.

Appendix A

The following briefly describes the housing-associated health and injury hazards HUD considers key targets for intervention:

Allergens and asthma: Experts estimate that 14 million Americans have asthma, with an associated annual cost of $14 billion. Asthma is now recognized as the leading cause of school and work absence, emergency room visits and hospitalization. For sensitized children, exposure to antigens from dust mites, certain pets, and cockroaches has been associated with more severe asthma. There is a preponderance of evidence showing a dose-response relationship between exposure and prevalence of asthma and allergies; some evidence also indicates that exposure to antigens early in life may predispose or hasten the onset of allergies and asthma. Dust mites have been identified as the largest trigger for asthma and allergies. Cockroach allergens appear to be excessive in 30–50% of inner-city housing and affect 5–15% of the population, whereas dust mite appears to be the dominant allergen in other environments.

Interventions known to have beneficial effects include installation of impervious mattress and pillow covers, which can reduce allergen exposure by 90%. Other dust mite control measures include dehumidification, laundering bedding, and removal of carpets and other dust sinks. Cleaning carpets with tannic acid solution has also been demonstrated to greatly reduce dust mites. Asthma prevention program costs have been estimated at about $500 per unit, which includes about $150 for educational interventions.

Asbestos: Asbestos is a mineral fiber that has been used commonly in a variety of building construction materials and household products for insulation and as a fire-retardant. The Environmental Protection Agency (EPA) and the Consumer Product Safety Commission (CPSC) have banned most asbestos products. Manufacturers have also voluntarily limited uses of asbestos. Today, asbestos is most commonly found in older homes: In pipe and furnace insulation materials, asbestos shingles, millboard, textured paints and other coating materials, and floor tiles. Elevated concentrations of airborne asbestos can occur when asbestos-containing materials (ACM) are disturbed by cutting, sanding or other remodeling activities. Improper attempts to remove these materials can release asbestos fibers into the air in homes, increasing asbestos levels and endangering people living in those homes. The most dangerous asbestos fibers are too small to be visible. After they are inhaled, they can remain and accumulate in the lungs. Asbestos can cause lung cancer, mesothelioma (a cancer of the chest and abdominal linings), and asbestosis (irreversible lung scarring that can be fatal). Most people with asbestos-related diseases were exposed to elevated concentrations on the job; some developed disease from exposure to clothing and equipment brought home from job sites. As with radon, dose-response extrapolations suggest that lower level exposures, as may occur when asbestos-containing building materials deteriorate or are disturbed, may also cause cancer.

Intact asbestos-containing materials are not a hazard; they should be monitored for damage or deterioration and isolated if possible. Repair of damaged or deteriorating ACM usually involves either sealing (encapsulation) or covering (enclosure) it. Repair is usually cheaper than removal, but it may make later removal of asbestos more difficult and costly. Repairs should be done only by a professional trained and certified to handle asbestos safely and can cost from a few hundred to a few thousand dollars; removal can be more expensive.

Combustion products of heating and cooking appliances: Burning of oil, natural gas, kerosene, and wood for heating or cooking purposes can release a variety of combustion products of health concern. Depending upon the fuel, these may include carbon monoxide (a chemical asphyxiant), oxides of nitrogen (respiratory irritants), polycyclic aromatic hydrocarbons (e.g., the carcinogen benzo[a]pyrene), and airborne particulate matter (respiratory irritants). Carbon monoxide, an odorless gas, can be fatal. Nitrogen dioxide can damage the respiratory tract, and sulfur dioxide can irritate the eyes, nose and respiratory tract. Smoke and other particulates irritate the eyes, nose and throat, and can cause lung cancer.

Improper venting and poor maintenance of heating systems and cooking appliances can dramatically increase exposure to combustion products. Experts recommend having combustion heating systems inspected by a trained professional every year to identify blocked openings to flues and chimneys; cracked or disconnected flue pipe; dirty filters; rust or cracks in the beat exchanger; soot or creosote build-up; and exhaust or gas odors. Installing a carbon monoxide detector is also recommended; however, such a detector will not detect other combustion by-products.

Insect and Rodent pests: The observed association between exposure to cockroach antigen and asthma severity has already been noted above. In addition, cockroaches may act as vehicles to contaminate and environmental surfaces with certain pathogenic organisms. Rodents can transmit a number of communicable diseases to humans, either through bites, arthropod vectors, or exposure to aerosolized excreta. In addition, humans can become sensitized to proteins in rodent, urine, dander and saliva. Such sensitization may contribute to asthma severity among children. Insect and rodent infestation is frequently associated with substandard housing that makes it difficult to eliminate. Treatment of rodent and insect infestations often includes the use of toxic pesticides that may present hazards to occupants (*see below*). Integrated pest management (IPM) for rodents and cockroaches, which reduces the use of pesticides, is estimated to cost approximately $150 per unit. IPM control measures include sealing holes and cracks, removing food sources and use of traps.

Lead: Exposure to lead, especially from deteriorating lead-based paint, remains one of the most important and best studied of the household environmental hazards to children. Although blood lead levels have fallen nationally, a large reservoir of lead remains in housing. The most recent national survey, conducted from 1991–94, showed that nearly one million U.S. preschoolers still have elevated blood lead levels. Overall, the prevalence rate among all children under six years of age is 4.4%. Among low-income children living in older housing where lead-based paint is most prevalent, the rate climbs to 16%; and for African-American children living in such housing, it reaches 21%.

HUD estimates that 38 million dwellings have some lead-based paint, and that 26 million have significant lead-based paint hazards. Of those, about 5.7 million have young children and of those, about 1.6 million have household incomes under $30,000 per year. Costs for lead hazard control can range anywhere from $500 to $15,000 per unit. Corrective measures include paint stabilization, enclosure and removal of certain building components coated with lead paint, and cleanup and "clearance testing," which ensures the unit is safe for young children.

Mold and moisture: An analysis of several pulmonary disease studies estimates that 25% of airways disease, and 60% of interstitial lung disease may be associated with moisture in the home or work environment. Moisture is a precursor to the growth of mold and other biological agents, which is also associated with respiratory symptoms. An investigation of a cluster of pulmonary hemosiderosis (PH) cases in infants showed PH was associated with a history of recent water damage to homes and with levels of the mold Stachybotrys atra (SA) in air and in cultured surface samples. Associations between exposure to SA and "sick building" symptoms in adults have also been observed. Other related toxigenic fungi have been found in association with SA-associated illness and could play a role. For sensitive individuals, exposure to a wide variety of common molds may also aggravate asthma. Addressing mold problems in housing requires coordination among the medical, public health, microbiological, housing, and building science communities.

The cost of mold/moisture-related intervention work (e.g., integrated pest management, clean & tune furnace, remove debris, vent clothes dryer, cover dirt floor with impermeable vapor barrier) is a few hundred dollars, unless major modification of the ventilation system is needed. In Cleveland, mold interventions, including repairs to ventilation systems and basement flooring, in the most heavily contaminated homes range from $500–$5,000, with some costs also being dedicated to lead hazard control simultaneously through its lead+asthma program.

Pesticide residues: According to the EPA, 75 percent of U.S. households used at least one pesticide product indoors during the past year. Products used most often are insecticides and disinfectants. Another study suggests 80 percent of most people's exposure to pesticides occurs indoors and that measurable levels of up to a dozen pesticides have been found in the air inside homes. The amount of pesticides found in homes appears to be greater than can be explained by recent pesticide use in those households; other possible sources include contaminated soil or dust that migrates in from outside, stored pesticide containers, and household surfaces that collect and then release the pesticides. Pesticides used in and around the home include products to control insects (insecticides), termites (termiticides), rodents (rodenticides), molds and fungi (fungicides), and microbes (disinfectants). In 1990, the American Association of Poison Control Centers reported that some 79,000 children were involved in common household pesticide poisonings or exposures. In households with children under five years old, almost one-half stored at least one pesticide product within reach of children. Exposure to chlorpyriphos (CP), a commonly used organophosphate insecticide, in the prenatal and early postnatal period may impair neurodevelopment. While CP is a biodegradable pesticide, substantial persistence of CP in house dust has been demonstrated. Exposure to high levels of cyclodiene pesticides, commonly associated with misapplication, has produced various symptoms, including headaches, dizziness, muscle twitching, weakness, tingling sensations, and nausea. In addition, EPA is concerned that cyclodienes might cause long-term damage to the liver and the central nervous system, as well as an increased risk of cancer.

There are available data on hazard evaluation methods and remediation effectiveness regarding pesticide residues in the home environment.

Radon progeny: The National Academy of Sciences estimates that approximately 15,000 cases of lung cancer per year are related to radon exposure. Epidemiologic studies of miners exposed to high levels of radon in inhaled air have defined the dose response relation for radon-induced lung cancer at high exposure levels. Extrapolation of these data has been used to estimate the excess risk of lung cancer attributable to exposure to radon gas at the lower levels found in homes. These estimates indicate that radon gas is an important cause of lung cancer deaths in the U.S. Excessive exposures are typically related to home ventilation, structural integrity and location.

Radon measurement and remediation methods are well developed, and the Environmental Protection Agency (EPA) recommends that every home be measured for radon. EPA estimates that materials and labor costs for radon reduction in an existing home are $800–$2500. Including radon resistant techniques in new home construction costs $350–$500, and can save up to $65 annually in energy costs, according to the EPA.

Take home hazards from work/hobbies and work at home: When the clothing, hair, skin, or shoes of workers become contaminated with hazardous materials in the workplace, such contaminants may inadvertently be carried to the home environment and/or an automobile. Such "take-home" exposures have been demonstrated, for example, in homes of lead-exposed workers. In addition, certain hobbies or workplaces located in the home may provide an especially great risk of household contamination.

Control methods include storing and laundering work clothes separately, and showering and changing before leaving work, or immediately after arriving home. Once a home becomes contaminated, cleaning floors and contact surfaces and replacing furnishings may be necessary to reduce exposures.

Unintentional injuries/fire: Unintentional injury is now the leading cause of death and disability among children younger than 15 years of age. In 1997, nearly 7 million persons in the United States were disabled for at least 1 full day by unintentional injuries received at home. During the same year, 28,400 deaths were attributable to unintentional home injuries, of which 1800 occurred among children 0–4 years of age. Among young children, three types of events accounted for more than 3/4 of deaths: fires/burns, drownings, and mechanical suffocation. Falls and poisoning are the next most common.

Home visitation protocols have been shown to be effective in reducing exposure to such hazards. The "add-on" cost of injury prevention measures, when combined with other housing interventions are estimated at about $100 per unit. This includes the cost of some injury prevention devices, such as smoke alarms, electrical socket covers, etc.

BILLING CODE 4210–32–P

APPENDIX C ♦ Healthy Homes and Lead Technical Studies

Examples of Healthy Homes Technical Studies

No.	Title	Description
1	Urban Mold and Moisture Control Program	Assess the efficacy of low cost interventions to address mold and moisture problems as measured by subsequent reductions in fungal levels in environmental samples and reduction in asthma morbidity. Also includes development and validation of a visual assessment tool.
2	Improving the Lead Dust Final Clean Protocol to Reduce Cockroach Allergen Exposure	Determine effectiveness of modified cleaning protocols in reducing household contamination by cockroach allergen; evaluate polyclonal immunoassay for measuring cockroach allergens.
3	Healthy Public Housing	Document EHS hazards affecting public housing residents; evaluate remedial measures and quantify economic benefits of interventions
4	Head Start Healthy Homes Initiative	Evaluate home visitation with low cost interventions to Head Start families as a means of reducing health risks for asthma, lead poisoning and injury.
5	Baseline Study of Fungi in Urban Homes With No Known Moisture Problems	Identify fungal species and concentrations in samples of air and settled dust in homes with no known mold and moisture problems.
6	Use of GIS Predictive Modeling to Identify Homes at High Risk for Environmental Health Hazards	A GIS-based predictive modeling approach, built on an ongoing GIS modeling project for lead hazards, will be used to identify homes that are likely to have multiple environmental health hazards.
7	A Portable Instrument to Detect, Identify and Quantify Mold in Homes	The objective is to develop a relatively low cost, portable instrument to perform on-site evaluation of airborne concentrations of specific fungal species as well as estimates of total fungal concentration.
8	Evaluation of a Low Cost Method for Identification and Assessment of Mold Problems in Housing	The objective is to conduct laboratory and field testing of a new instrument for measuring the release of mold spores from surfaces.
9	Novel Markers of Fungal Exposure in Homes and Their Relationship to Respiratory Symptons in Children in New York City	This research is evaluating the utility of fungal exposure assessment through immunoassay measurement of fungal extracellular polysaccharides (EPS) in house dust and fungal EPS specific immunoglobulin G (IgG) in the serum of participants to identify relationships between mold exposure and respiratory symptoms.

Examples of NOFA-Funded Lead Technical Studies

No.	Title	Description
1	Cleaning Lead Contaminated Dust from Hard Surfaces	The purpose of this research is to determine the effectiveness of various detergents in cleaning lead-contaminated dust from hard surfaces under varying conditions of wear and dust loading.
2	Monitoring HEPA Vacuum Dust Pick-up with an Aerosol Photometer	The objective of this research is develop a dynamic reading instrument that will indicate when a surface is sufficiently "clean".
3	Developing a Method for Collecting and Analyzing Vacuum Dust Samples for Lead Using Field Portable XRF	This research involves the development and assessment of a field method for collecting residential dust samples and analyzing them for lead using a field portable XRF analyzer.
4	The Use of Biosolids to Reduce Soil-lead Hazards	The study involves the application of treated biosolids to lead-contaminated urban yards with subsequent assessment of the effectiveness of the treatment in reducing lead concentration and bioavailability.
5	Assessing the Effectiveness of a State Law Requiring Lead Hazard Control Treatments in pre-1950 Rental Housing	The project is assessing the effectiveness of low cost treatments in reducing residential dust-lead hazards in rental housing.

APPENDIX D

The non-standard forms, which follow, are required for your Healthy Homes and Lead Technical Studies application. They are the "Checklist and Submission Table of Contents" and the "Budget Summary," including instructions.

VOL 67 ISS 58 MR 26 2002 UMI

VOL 67 ISS 58 MR 26 2002 UMI

CHECKLIST AND SUBMISSION TABLE OF CONTENTS
HEALTHY HOMES AND LEAD TECHNICAL STUDIES GRANT PROGRAM

The following checklist is provided to ensure you have submitted all required items to receive consideration for funding. You must assemble the application in the order shown below and note the corresponding page number where the response is located. **You must include this checklist and submission table of contents with the proposal.**

		Cover page
☐	**Transmittal Letter (limited to one page)**	
☐	**Applicant Abstract** (limited to a 2-pages; does not count towards 25-page limit)	
	Application Forms (to be included in Appendix 3)	
☐	Standard Form 424 and Standard Form 424A (Section B)	
☐	Standard Form 424B (Assurances/Non-Construction Programs)	
☐	HUD 424-M	
☐	Budget Summary (Federal Share and Matching)	
☐	HUD 2880 Disclosure and Update Report	
☐	HUD 2990 Certification of Consistency with the EZ/EC Strategic Plan	
☐	HUD 2992 Certification regarding Debarment and Suspension	
☐	HUD 50070 Certification for a Drug-Free Workplace	
☐	HUD 50071 Certifications of Payments to Influence Federal Transactions	
☐	Form SF-LLL Disclosure of Lobbying Activities Required ☐ Form SF-LLL Not Required (See SuperNOFA)	

Rating Factor Response (The narrative response to the Rating Factors cannot exceed a total of 25 pages.)

☐	1. Capacity of the Applicant and Relevant Organizational Experience	
☐	2. Need/Extent of the Problem	
☐	3. Soundness of Approach	
☐	4. Leveraging Resources	
☐	5. Coordination, Self-Sufficiency and Sustainability	

Appendices

☐	Appendix 1 – Required material in support of the Rating Factors (e.g, resumes of key personnel, organizational chart, letters of commitment) arranged in order of Rating Factor. Does not count towards the 20-page limit; resumes limited to 3 pages each.	
☐	Appendix 2 – Optional material in support of the Rating Factors, arranged in order of Rating Factors, e.g., maps, letters of support. The 20-page limit applies to this Appendix.	
☐	Appendix 3 – Material relating to the forms, or budget material. (See Application Forms, above.)	
☐	HUD 2993 Acknowledgment of Application Receipt	
☐	HUD 2994 Client Comments and Suggestions (Optional)

Instructions for Completing the Budget Summary Spreadsheet

Note: an electronic version of this spreadsheet may be obtained from the HUD Office of Healthy Homes and Lead Hazard Control website at www.hud.gov/offices/lead

Item	Discussion
1 - Personnel (Direct Labor)	This section should show the labor costs for all individuals supporting the grant effort (regardless of the source of their salaries). The hours and costs are for the full life of the grant. If an individual is employed by a contractor or sub-grantee, their labor costs should not be shown here. Please include all labor costs which are associated with the proposed grant program, including those costs which will be paid for with in-kind or matching funds. Do not show fringe or other indirect costs in this section. Please use the hourly labor cost for salaried employees (use 2080 hours per year or the value your organization uses to perform this calculation). An employee working less than full time on the grant should show the numbers of hours they will work on the grant.
2 - Fringe Benefits	Use the standard fringe rates used by your organization. You may use a single fringe rate (a percentage of the total direct labor) or list each of the individual fringe charges. The spreadsheet is set up to use the Total Direct Labor Cost as the base for the fringe calculation. If your organization calculates fringe benefits differently, please use a different base and discuss how you calculate fringe as a comment.
3 - Travel	
3a - Transportation - Local Private Vehicle	If you plan on reimbursing staff for the use of privately owned vehicles or if you are required to reimburse your organization for mileage charges, show your mileage and cost estimates in this section.
3b - Transportation - Airfare	Show the estimated cost of airfare required to support the grant program effort. Show the destination and the purpose of the travel as well as the estimated cost of the tickets. Each program NOFA discusses the travel requirements which should be listed here.
3c - Transportation - Other	If you or are charged monthly by your organization for a vehicle for use by the grant program, indicate those costs in this section. Provide estimates for other transportation costs which may be incurred (metro, etc.).

VOL 67 ISS 58 MR 26 2002 UMI

3d - Per Diem or Subsistence	For travel which will require the payment of subsistence or per diem in accordance with your organization's policies. Indicate the location of the travel. Each program NOFA discusses the travel requirements that should be listed here.
4 - Equipment	Equipment is defined by HUD regulations as tangible, nonexpendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. Each program NOFA describes what equipment may be purchased using grant funding.
5 - Supplies and Materials	Supplies and materials are consumable and non-consumable items that have a unit value of less than $5,000. Please list the proposed supplies and materials as either Consumable Supplies or as Non-Consumable Materials.
5a - Consumable Supplies	List the consumable supplies you propose to purchase. General office or other common supplies may be estimated using an anticipated consumption rate.
5b - Non-consumable materials	List furniture, computers, printers, and other items that will not be consumed in use. Please list the quantity and unit cost.
6 - Consultants	Please indicate the consultants you will use. Indicate the type of consultant (skills), the number of days you expect to use them, and their daily rate.
7 - Contracts and Sub-Grantees *Note: If any contractor, sub-contractor, or sub-grantee is expected to receive over 10% of the total Federal amount requested, a separate Total Budget Summary spreadsheet should be developed for that contractor or sub-grantee and the total amount of their proposed effort should be shown as a single entry in this section.*	List the sub-grantees, sub-recipients, or sub-contractors that will help accomplish the grant effort. Besides, sub-grantees or sub-recipients, other contracts for services including those for conducting inspections, risk assessments, and clearance inspections; contracts with faith-based and community-based organizations; liability insurance; contracts with laboratories; and training and certification for contractors and workers should be listed under this item. Unless your proposed program will perform the primary grant effort with in-house employees (costs listed in Items 1 and 2), the costs for contractors, sub-grantees or sub-recipients performing the primary grant activities should be identified and listed in this section. Types of activities which should be shown in this section: • Contracts for all services • Training • Contracts with Faith-Based and Community Based Organizations or Other Governmental Organizations (note the 10% requirement discussed in this section) • Insurance if your program will procure it separately Please provide a short description of the activity the contractor or sub-grantee will perform, if not evident.

8 - Other Direct Costs	Other Direct Costs include a number of items that are not appropriate for other sections. Other Direct Costs may include: • Staff training • Telecommunications • Printing and postage • Relocation, if costs are paid directly by your organization (if relocation costs are paid by a sub-grantee, it should be reflected in Section 7)
9 - Indirect Costs	OMB Circular A87 defines indirect costs are those that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. Indirect costs include (a) the indirect costs originating in each department or agency of the governmental unit carrying out Federal awards and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs. The spreadsheet is set up to use the Total Direct Labor plus the Fringe Benefits costs as the base for the indirect cost calculation. If your organization calculates indirect costs differently, please use a different base and discuss how you calculate fringe as a comment.

The three rightmost columns allow you to identify how the costs will be spread between the Federal Share and the Match. This information will help the reviewers better understand your program and priorities. The far right column is an "error checking" function to confirm that the estimated cost is equal to the sum of the Federal Share and the Match. If there is a discrepancy, the word "Error" will appear.

Note: The formats and many of the cells for the spreadsheet (which can be downloaded from the HUD Office of Healthy Homes and Lead Hazard Control's website at: www.hud.gov/offices/lead) are protected. There is no password for the protection.

UMI

FUNDING AVAILABILITY FOR THE HEALTHY HOMES DEMONSTRATION PROGRAM

PROGRAM OVERVIEW

Purpose of the Program. The purpose of the Healthy Homes Demonstration Program is to develop, demonstrate and promote cost-effective, preventive measures to correct multiple safety and health hazards in the home environment that produce serious diseases and injuries in children. HUD is interested in reducing health threats to the maximum number of residents, especially children, in a cost efficient manner.

Available Funds. Approximately $5 million of funds.

Eligible Applicants. Not-for-profit institutions, and for-profit firms located in the U.S., state and local governments, and federally recognized Indian Tribes are eligible to apply. For-profit firms are not allowed to include a fee in the cost proposal (i.e., no profit can be made from the project). Federal agencies and federal employees are not eligible to apply for this program.

Application Deadline. June 14, 2002.

Match. None.

ADDITIONAL INFORMATION

If you are interested in applying for funding under this initiative, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. The application due date is June 14, 2002. Your completed application (one original and four copies) must be postmarked before 12:00 midnight Eastern Time, on June 14, 2002, and mailed to the address shown below.

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand-delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. *No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.*

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. *All applicants must obtain and save* a Certificate of Mailing showing the date when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, FedEx and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Address for Submitting Applications. The address for all applications submitted is: Department of Housing and Urban Development, Office of Healthy Homes and Lead Hazard Control, Attn: Ellen R. Taylor, 451 Seventh Street, SW., Room P3206, Washington, DC 20410.

For Application Kits. You may obtain an application kit from the SuperNOFA Information Center at 1–800–HUD–8929, or the TTY number at 1–800–HUD–2209. When requesting an application kit, please refer to the Healthy Homes Demonstration Program. Please be sure to provide your name, address (including zip code), and telephone number (including area code). Alternatively, you may obtain an application kit by downloading it from the Internet at www.hud.gov.

For Further Information and Technical Assistance. You may contact Ms. Ellen Taylor, Planning and Standards Division, Office of Healthy Homes and Lead Hazard Control, at the address above; telephone (202) 755–1785, extension 116, or Ms. Curtissa Coleman Grants Officer, extension 119. (These are not toll-free numbers.) Hearing- and speech-impaired persons may access the above telephone numbers via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

Satellite Broadcasts. HUD will hold information broadcasts via satellite for potential applicants to learn more about the programs in this SuperNOFA and preparation of the applications. For more information about the date and time of the broadcast, you should consult the HUD website at www.hud.gov.

II. Amount Allocated

Approximately $5 million will be available under the FY 2002 appropriation. Grants will be awarded on a competitive basis following evaluation of all proposals according to the Rating Factors described in Section V(C) of this program section. HUD anticipates that approximately 6 to 8 grants will be awarded, ranging from approximately $250,000 to approximately $1,000,000.

III. Program Description; Eligible Applicants; Eligible Activities

(A) Program Description

(1) *Background.* The Healthy Homes Demonstration Program is a part of HUD's Healthy Homes Initiative. The Healthy Homes Initiative (HHI) departs from the more traditional approach of attempting to correct one hazard at a time (e.g., asbestos, radon). In April 1999, HUD submitted to Congress a preliminary plan containing a full description of the Initiative. This description (Summary and Full Report) is available on the HUD website at www.hud.gov.

The HHI builds upon HUD's existing housing-related health and safety issues, including lead hazard control, building structural safety, electrical safety, and fire protection to address multiple childhood diseases and injuries, such as asthma, mold-induced illness, carbon monoxide poisoning, and other conditions, related to housing in a more coordinated fashion. A coordinated effort is feasible because a limited number of building deficiencies contribute to many hazards. Substantial savings are possible using this approach, because separate visits to a home by an inspector, public health nurse, or outreach worker can add significant costs to efforts to eliminate hazards. A description of the HHI program, and a link to the Healthy Homes website, are available at *www.hud.gov*.

In addition to deficiencies in basic housing facilities that may impact health, changes in the U.S. housing stock and more sophisticated epidemiological methods and

VOL 67 ISS 58 MR 26 2002 UMI

biomedical research have led to the identification of new and often more subtle health hazards in the residential environment. While such hazards will tend to be found disproportionately in housing that is substandard (*e.g.*, structural problems, lack of adequate heat, etc.), such housing-related environmental hazards may also exist in housing that is otherwise of good quality. Appendix A to the Healthy Homes (HH) Demonstration program section of the SuperNOFA briefly describes the housing-associated health and injury hazards HUD considers key targets for intervention. Appendix B to the HH Demonstration program section of the SuperNOFA lists the references that serve as the basis for the information provided in this section of the SuperNOFA.

HUD is interested in promoting approaches that are cost-effective and efficient and that result in the reduction of health threats for the maximum number of residents for the long run, and, in particular, for low-income children. Section VI of the General Section of the SuperNOFA presents HUD's FY 2002 Policy Priorities and the text below presents the overall goals and objectives of the HHI:

(a) Mobilize public and private resources, involving cooperation among all levels of government, the private sector, and faith-based and other community-based organizations to develop the most promising, cost-effective methods for identifying and controlling housing-based hazards.

(b) Build local capacity to operate sustainable programs that will prevent and control housing-based hazards in low and very low-income residences when HUD funding is exhausted.

(c) Affirmatively further fair housing and environmental justice.

(2) *Healthy Homes Demonstration Activities.* Through the Healthy Homes Demonstration program, HUD will initiate competitive projects to promote implementation of available risk reduction techniques for the control of key hazards described in Appendix A. HUD will award demonstration projects that implement housing assessment, maintenance, renovation and construction techniques to identify and correct housing-related illness and injury risk factors, and disseminate healthy homes information and replicate successful interventions.

HUD will evaluate proposals based on the elements described below. Applicants are required to be specific as to the locations where they are targeting their intervention activities to occur, the residents, individuals, or groups targeted to receive interventions, and the organizations targeted to continue to operate effective intervention strategies over the life of the award and thereafter.

Objectives to be addressed by these demonstration projects are:

(a) Identification of target areas and homes where interventions will occur.

(b) Identification and evaluation of effective methods of hazard abatement and risk reduction.

(c) Development of appropriately-scaled, flexible, cost-effective and efficient intervention strategies that take into account the range of conditions likely to be encountered in older housing, and that maximize the number of housing units that receive an intervention.

(d) Development of methodologies for evaluating intervention effectiveness.

(e) Development of local capacity in target areas and target groups to operate sustainable programs to prevent and control housing-based hazards, especially in low and very-low income residences.

(f) Development of a cost-effective protocol for identifying homes that are candidates for interventions, identifying hazards in these homes, and screening out homes where structural or other condition factors (e.g., cost) make interventions infeasible or impractical.

(g) Development and delivery of public outreach programs that provide information about effective methods for preventing housing-related childhood diseases and injuries and for promoting the use of these interventions.

(h) Targeting, through education and outreach, specific high-risk communities and other identified audiences such as homeowners, landlords, health care deliverers, pregnant women, children, residential construction contractors, maintenance personnel, housing inspectors, real estate professionals, home buyers, and low-income minority families.

(i) Implementation of media strategies to use print, radio and television to increase public awareness of housing-related hazards that threaten children.

(j) Dissemination of existing tools and, as needed, new tools to inform parents and caregivers about housing-related hazards and enable them to take prompt corrective action.

(B) Eligible Activities

The following direct activities and support activities are eligible under this grant program.

(1) *Direct Project Elements* (activities conducted by you and any sub-recipients):

(a) Performing evaluations of eligible housing to determine the presence of housing-based hazards (*e.g.*, mold growth, allergens, unvented appliances, exposed steam pipes or radiators, deteriorated lead-based paint) through the use of generally accepted testing procedures.

(b) Conducting housing interventions to remediate existing housing-based hazards and address conditions that could result in their recurrence. Any lead hazard evaluation and control work shall be conducted by persons qualified for the activities according to 24 CFR part 35, especially sections 13.1325 for abatement and 13.1330 for interim controls. Qualified persons must possess certification as abatement contractors, risk assessors, inspectors, abatement workers, or sampling technicians, or otherwise having been trained in a HUD-approved course in lead-safe work practices. You may refer to the HUD Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing (Guidelines) for additional information. The *Guidelines* and/or applicable regulations may be downloaded from the Office of Healthy Homes and Lead Hazard Control's homepage, linked to www.hud.gov. All pest control activities shall incorporate the principles and methods of integrated pest management (IPM). In technical terms, IPM is the coordinated use of pest and environmental information with available pest control methods to prevent unacceptable levels of pest damage by the most economical means and with the least possible hazard to people, property, and the environment. (One information source is the University of Minnesota's electronic textbook of Integrated Pest Management, available at *http://ipmworld.umn.edu/textbook.htm.)*

(c) Undertaking housing rehabilitation activities that are specifically required to carry out effective control of housing-based hazards, and without which the intervention could not be completed and maintained. Grant funds under this program may also be used to control lead-based paint hazards, but such controls may not be a principal focus of the grant.

(d) Carrying out temporary relocation of families and individuals, when necessary, during the period in which intervention is conducted and until the time the affected unit receives clearance for re-occupancy. Residents relocated must be guaranteed the choice of returning to the unit after the intervention.

(e) If medical examinations of young children for conditions caused or exacerbated by exposure to hazards are demonstrated to be critical to the outcome of your project, and there are no alternative sources to cover these costs, conducting such examinations.

(f) Environmental sampling, and medical testing recommended by a physician or applicable occupational or public health agency to protect the health of the intervention workers, supervisors, and contractors, unless reimbursable from another source.

(g) Conducting clearance testing and analysis for lead, mold, carbon monoxide and/or other toxins as appropriate, with respect to generally accepted standards or criteria, or where not available, other appropriate levels justified in conjunction with the project. Clearance dust samples related to lead-based paint must be analyzed by a laboratory recognized by EPA's National Lead Laboratory Accreditation Program (NLLAP). All tests results related to lead-based paint must be provided to the owner of the unit, together with a notice describing the owner's legal duty to disclose the results to tenants and buyers.

(h) Carrying out architectural, engineering and work specification development and other construction management services to control housing-based hazards and remediate existing hazards.

(i) Providing training on safe maintenance practices to homeowners, renters, painters, remodelers, and housing maintenance staff working in low or very-low income housing.

(j) Providing cleaning supplies for hazard intervention and hazard control to faith-based and other community-based organizations for use by homeowners and tenants in low-income housing, or to such homeowners and tenants directly. (*See* Section VI(E) of the General Section of the SuperNOFA for more information about faith-based and other community-based organizations.)

(k) Conducting general or targeted community education programs on environmental health and safety hazards. This activity would include training on safe maintenance and renovation practices, among other topics. It would also include making materials available, upon request, in alternative formats for persons with disabilities (*e.g.*, Braille, audio, large type), and in languages other than English that are common in the community, whenever possible.

(l) Securing liability insurance for hazard evaluation and control activities to be performed. This activity is not an administrative activity.

(m) Supporting data collection, analysis, and evaluation of project activities.

(n) Maintaining a registry (updated at least monthly) of housing units in which housing-based hazards were not found during evaluation, and those in which such problems and hazards have been controlled. Units on the registry should be given priority for affirmatively marketing to low-income families with young children, and such families should be given preference for occupancy when they are vacant. (If you are selected for an award, HUD will provide specific data requirements for the registry.)

(o) Preparing quarterly progress reports and an overall final grant report detailing activities (e.g., number of units tested, types of interventions provided, evaluation of the most cost-efficient methodologies by type of unit), findings, and recommended future actions for cost-effective interventions, at the conclusion of grant activities.

(2) *Support Elements.*

(a) Your administrative costs.

(b) Program planning and management costs of sub-grantees and other sub-recipients.

(D) Ineligible Activities

(1) Purchase of real property.

(2) Purchase or lease of equipment having a per unit cost in excess of $5,000, unless prior written approval is obtained from HUD.

(3) Medical treatment costs, except as specified in Section III (C) (1)(e) above.

IV. Program Requirements

In addition to program requirements listed in the General Section of the SuperNOFA, you, the applicant, must comply with the following requirements:

(A) *Budgeting—Administrative Costs.* There is a 10% maximum for administrative costs, as specified in Section 1011(j) of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Title X of the Housing and Community Development Act of 1992, Public Law 102–550). Additional information about allowable administrative costs is provided in Appendix C of this NOFA.

(B) *Period of Performance.* The period of performance cannot exceed 36 months from the time of the award.

(C) *Coastal Barrier Resources Act.* Pursuant to the Coastal Barrier Resources Act (16 U.S.C. 3501), funds may not be used for properties located in the Coastal Barrier Resources System.

(D) *Flood Disaster Protection Act.* Under the Flood Disaster Protection Act of 1973 (42 U.S.C. 4001–4128), funds may not be used for construction, reconstruction, repair or improvement of a building or mobile home which is located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards unless:

(1) The community in which the area is situated is participating in the National Flood Insurance Program in accordance with the applicable regulations (44 CFR parts 59–79), or less than a year has passed since FEMA notification regarding these hazards; and

(2) Where the community is participating in the National Flood Insurance Program, flood insurance on the property is obtained in accordance with section 102(a) of the Flood Disaster Protection Act (42 U.S.C. 4012a(a)). You are responsible for assuring that flood insurance is obtained and maintained for the appropriate amount and term.

(E) *National Historic Preservation Act.* The National Historic Preservation Act of 1966 (16 U.S.C. 470) (NHPA) and the regulations at 36 CFR part 800 apply to the mold intervention and related hazard control activities that are undertaken pursuant to this program. HUD and the Advisory Council for Historic Preservation have developed an optional Model Agreement for use by grantees and State Historic Preservation Officers in carrying out any lead hazard control activities under this program. This must be obtained from the SuperNOFA Information Center at 1–800–HUD–8929.

(F) *Waste Disposal.* Waste disposal will be handled according to the requirements of the Occupational Health and Safety Administration (OSHA) (*e.g.*, 29 CFR part 1910 and/or 1926, as applicable), the Environmental Protection Agency (EPA) (*e.g.*, 40 CFR parts 61, 260–282, 300–374, and/or 700–799, as applicable), the Department of Transportation (*e.g.*, 49 CFR parts 171–177), and/or appropriate state or local regulatory agencies and applicable EPA, HUD, state and local regulatory agency guidance.

(G) *Worker Protection Procedures.* You must comply with the requirements of OSHA (*e.g.*, 29 CFR part 1910 and/or 1926, as applicable), or the state or local occupational safety and health regulations, whichever are most stringent.

(H) *Written Policies and Procedures.* You must have written policies and procedures for all phases of intervention, including evaluation, development of specifications, financing, occupant relocation, independent project inspection, and clearance testing (*e.g.*, for mold, lead, carbon monoxide or other hazards, as applicable). You and all your subcontractors, sub-recipients, and their

VOL
67
ISS
58
MR
26
2002
UMI

contractors must comply with these policies and procedures.

(I) *Clearance Testing for Lead Hazard Control Activities.* Clearance dust testing must be conducted according to the EPA lead hazards standards rule at 40 CFR part 745 for abatement projects and the Lead-Safe Housing rule (24 CFR part 35) for lead hazard control activities other than abatement. These are available at *www.epa.gov/lead* and *www.hud.gov*, respectively.

(J) *Continued Availability of Safe Housing to Low-Income Families.* Units in which housing-based hazards have been controlled under this program shall be occupied by and/or continue to be available to low-income residents for not less than 3 years following the completion of intervention activities.

(K) *Environmental Review.* You must comply with HUD's regulations in 24 CFR 50.3(h) in carrying out responsibilities regarding environmental review. Recipients of a grant under this NOFA will be given guidance in these responsibilities.

(L) *Conducting Business in Accordance with HUD Core Values and Ethical Standards.* If awarded assistance under this SuperNOFA, you will be required, prior to entering into a grant agreement with HUD, to submit a copy of your code of conduct and describe the methods you will use to ensure that all officers, employees, and agents of your organization are aware of your code of conduct. See Section II(A)(2) of the General Section of the SuperNOFA for information about conducting business in accordance with HUD's core values and ethical standards.

(M) *Relocation.* Any person (including individuals, partnerships, corporations or associations) who moves from real property or moves personal property from real property directly (1) because of a written notice to acquire real property, in whole or in part, or (2) because of the acquisition of the real property, in whole or in part, for a HUD-assisted activity, is covered by Federal relocation statute and regulations. Specifically, this type of move is covered by the acquisition policies and procedures and the relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA), and the implementing government-wide regulation at 49 CFR part 24. The relocation requirements of the URA and the government-wide regulations cover any person who moves permanently from real property or moves personal property from real property directly because of acquisition, rehabilitation or demolition for an activity undertaken with HUD assistance.

(N) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* The Department of Housing and Urban Development (HUD) is committed to ensuring that small businesses, small disadvantaged businesses and women-owned businesses participate fully in HUD's direct contracting and in contracting opportunities generated by HUD grant funds. Refer to the General Section of the SuperNOFA for applicable requirements.

(O) *Economic Opportunities for Low- and Very Low-Income Persons (Section 3).* Recipients of assistance must comply with Section 3 of the Housing and Urban Development Act of 1968, 12 U.S.C. 1701u (Economic Opportunities for Low- and Very Low-Income Persons in Connection with Assisted Projects) and the HUD regulations at 24 CFR part 135, including the reporting requirements of subpart E. Section 3 requires recipients to ensure that, to the greatest extent feasible, training, employment and other economic opportunities will be directed to (1) low and very low income persons, particularly those who are recipients of government assistance for housing, and (2) business concerns which provide economic opportunities to low and very low-income persons. Frequently Asked Questions (FAQs) about Section 3 requirements are available at www.hud.gov.

(P) *Data collection and provision.* You must collect, maintain and provide to HUD the data necessary to document the various approaches used to evaluate and control housing-based hazards, including evaluation and control methods, building conditions, medical and familial information (with confidentiality of individually-identifiable information ensured) in order to determine the effectiveness and relative cost of these methods.

(Q) *Certifications and Assurances.* You must include the certifications and assurances listed in Section II(H) of the General Section of the SuperNOFA with your application. A Certification of Consistency with the Consolidated Plan is not required for this application.

(R) *Davis-Bacon Act.* The Davis-Bacon Act does not apply to this program. However, if program funds are used in conjunction with other Federal programs in which Davis-Bacon prevailing wage rates apply, then Davis-Bacon provisions would apply to the extent required under the other federal programs.

V. Application Selection Process

(A) *Threshold Requirements.* Please see Section II(B) of the General Section of this SuperNOFA. As an applicant, you must meet all of the threshold requirements of Section II(B) of the General Section of the SuperNOFA. Applications that meet all of the threshold requirements will be eligible to be scored and ranked based on the total number of points allocated for each of the rating factors described below. Your application must receive a total score of at least 70 points to remain in consideration for funding.

(B) *Rating and Ranking.* HUD intends to award the highest ranked applications listed in the Programs Section of the SuperNOFA within the limits of funding availability.

(1) In evaluating applications for funding HUD will take into account an applicant's past performance in managing funds, including the ability to account for funds appropriately; timely use of funds received either from HUD or other federal, state or local programs; meeting performance targets for completion of activities and number of persons to be served or targeted for assistance. HUD may use information relating to these items based on information at hand or available from public sources such as newspapers, Inspector General or Government Accounting Office Reports or Findings, hotline complaints that have been proven to have merit, or other such sources of information. In evaluating past performance, HUD may elect to deduct points from the rating score as specified under the Factors for Award or set threshold levels for performance as specified in the funding announcement.

(C) *Factors for Award Used to Evaluate and Rate Applications.* This section provides the factors for rating and ranking your application and the maximum points for each factor. The maximum number of points to be awarded is 106, including the potential for six bonus points, as defined in paragraphs (1) through (3) of Section III (C) of the General Section of the SuperNOFA. This maximum includes two EZ/EC bonus points, two bonus points for Brownfields Showcase Communities, and two bonus points for the court ordered consideration in the City of Dallas, Texas, as described in Section III(C) of the General Section of the SuperNOFA

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 Points)

This factor addresses your organizational capacity necessary to successfully implement your proposed activities in a timely manner. The rating of you or your staff includes any faith-based and other community-based organizations, sub-contractors, consultants, sub-recipients, and members of consortia that are firmly committed to your project. Applicants that are, or propose to, either partner, fund, or sub-contract with grassroots organizations, particularly faith-based and other community-based non-profits in conducting their work programs will receive higher rating points as specified in the Program Section of this SuperNOFA. See Section VI(E) of the General Section of the SuperNOFA for additional information. In rating this factor HUD will consider:

(1) Your recent, relevant and successful demonstrated experience in undertaking eligible program activities. You must describe the knowledge and experience of the proposed overall project director and day-to-day project manager in planning and managing large and complex interdisciplinary programs, especially those involving housing, public health, or environmental programs. In your narrative response for this factor, you should include information on your project staff, their experience, commitment to the project, and position titles. Resumes of up to three (3) pages each and position descriptions for up to three personnel in addition to the project director and project manager, and a clearly delineated organizational chart for your project must be included in an appendix. Copies of job announcements (including salary range) should be included for any key positions that are currently vacant, or contingent upon an award. Indicate the percentage of time that key personnel will devote to your project and any salary costs to be paid by funds from this program. Include descriptions of the experience and qualifications of subcontractors and consultants.

(2) Your qualifications to carry out the proposed activities as evidenced by experience, academic background, training, and/or relevant publications of project staff.

(3) Whether you have sufficient personnel, or will be able to quickly retain qualified experts or professionals to begin your proposed project immediately, and to perform your proposed activities in a timely and effective fashion. Describe how principal components of your organization will participate in, or support, your project. You should thoroughly describe capacity, as demonstrated by experience in initiating and implementing related environmental, health, or housing projects.

Rating Factor 2: Need/Extent of the Problem (15 Points)

This factor addresses the extent to which there is a need for your proposed project activities to address documented problems, target area(s) and target groups.

(1) Document a critical level of need for your proposed activities in the area where activities will be carried out. You should pay specific attention to documenting the need as it applies to your target area(s), rather than the larger geographic area.

(2) Your documentation should summarize available data linking housing-based hazards to disease or injuries to children in your target area(s). Examples of data that might be used to demonstrate need, include:

(a) Economic and demographic data relevant to your target area(s), including poverty and unemployment rates;

(b) Rates of childhood illnesses (*e.g.*, asthma, allergies, hypertension, elevated blood lead levels) or injuries (*e.g.*, falls, burns) among children residing in your target areas that could be caused or exacerbated by exposure to conditions in the home environment; and

(c) Unavailability of other Federal, state or local funding or private sector resources that could be, or are being, used to address the problem.

(3) For the areas targeted for your project activities, provide data available in your jurisdiction's currently approved Consolidated Plan and the Analysis of Impediments to Fair Housing Choice (AI) or derived from current census data or from other sources. All data that address the following should be documented:

(a) The age and condition of housing;

(b) The number and percentage of very-low and low-income families with incomes less than 50% and 80% of the median income, respectively, as determined by HUD, for the area, with adjustments for smaller and larger families. Statistics that describe low and very-low income families are available at *www.huduser.org/datasets/il/fmr00/sect82.html*. Additional census statistics are available at: *www.census.gov/hhes/www/income00.html, www.census.gov/hhes/income/income00/statemhi.html,* and *www.huduser.org/datasets/il/fmr00/index.html*.

(c) To the extent that statistics and other data contained in your community's Consolidated Plan or AI support the extent of the problem, you should include references to the Consolidated Plan or AI in your response.

(d) Data documenting targeted groups that are traditionally underserved or have special needs. If the data presented in your response does not specifically represent your target area, you should discuss why the target areas are being proposed. If your application addresses needs that are in the Consolidated Plan or AI, court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements, you will receive more points than applicants that do not relate their project to an identified need.

Rating Factor 3: Soundness of Approach (45 Points)

This factor addresses the quality and cost-effectiveness of your proposed work plan. You should present information on the proposed approach for addressing housing-based hazards and describe how proposed activities would help HUD achieve its goals for this program area. For you to receive maximum points for this factor, there must be a direct relationship between the proposed activities, community needs, and the purpose of the project. You may find that developing a Logic Model would be useful for this Rating Factor; information about developing a Logic Model is available at: *www.hud.gov*. The response to this factor should include the following elements:

(1) *Approach for Developing the Project* (25 points). Describe your overall approach for your proposed project. The description must include a discussion of specific planned project activities that address one or more of the following categories:

(a) *Project activities* (15 points).

(i) Describe in detail how you will identify, select, prioritize, and enroll units of eligible housing in which you will undertake housing-based hazard interventions, how you will integrate safe work practices into housing maintenance, repair, and improvements, and then target such units to low-income families with young children. You should use all reasonably available sources of information on controlling housing-based hazards in buildings and protecting workers and occupants during and after the intervention process.

(ii) Describe any assessment tools you would employ to establish baseline data.

(iii) Provide the estimated total number of owner occupied and/or rental units in which you will conduct interventions.

(iv) Describe your process for evaluating units of eligible housing in

VOL 67 ISS 58 MR 26 2002 UMI

which you will undertake housing-based hazard interventions.

(v) Describe any specialized testing or visual inspection that you will conduct during unit inspection with reference to source(s) of the protocol(s).

(vi) Discuss efforts to incorporate cost-effective methods to address multiple environmental health and safety hazards, and describe the specific interventions you will utilize to control housing-based hazards before children are affected; and/or to control these hazards in units where children have already been treated for illnesses or injuries associated with housing-based hazards (*e.g.*, burns, lead poisoning, asthma).

(vii) Describe the process for your referral of children for medical case management if this is not ongoing.

(viii) Describe your process for the development of work specifications for the selected interventions.

(ix) Describe your management processes to be used to ensure the cost-effectiveness of the housing interventions, and provide cost estimates per intervention and per unit.

(x) Discuss your contracting process to obtain contractors to conduct interventions in selected units.

(xi) Describe your plan for the temporary relocation of occupants of units selected for intervention, if relocation is necessary, and how you will determine the need for relocation. Address the use of safe houses and other housing arrangements, storage of household goods, stipends, incentives, etc. Describe how you will meet relocation requirements.

(xii) Describe your plan for ensuring right of return and/or first referral for occupants of units selected for intervention who have had to move for intervention to occur.

(xiii) Describe how you will affirmatively further fair housing.

(xiv) Describe the financing strategy, including eligibility requirements, terms, conditions, and amounts available, to be employed in conducting housing-based hazards activities. You must discuss the way funds will be administered (*e.g.*, use of grants, deferred loans, forgivable loans, other resources, private sector financing, etc.) as well as the agency that will administer the process.

(xv) Proposed methods of community education. These should include community awareness, education, training, and outreach programs in support of your work plan and objectives that are culturally sensitive, targeted, and linguistically appropriate.

(xvi) Proposed involvement of neighborhood, or faith-based and other community-based organizations in the proposed activities. These activities may include outreach, community education, marketing, inspection, and housing evaluations and interventions.

(xvii) Proposed methods to reach high-risk groups and communities, vulnerable populations and persons traditionally underserved.

(xviii) Indicate if, and describe how, you will address any of HUD's Departmental policy priorities. (See Section VI of the General Section of the SuperNOFA for a fuller explanation of HUD's policy priorities.) Policy priorities that are potentially applicable to the Healthy Homes Demonstration NOFA are: 1) Improving the Quality of Public Housing and Providing More Choices for its Residents; 2) Increasing the Participation of Faith-based and other Community-based Organizations in HUD Program Implementation; and 3) Colonias. You will receive one point for each of the applicable policy priorities that are addressed in your application.

(b) *Project Evaluation* (10 points). You are required to identify and discuss the specific methods you will use to measure progress towards your goals, track and report results of interventions, and evaluate the effectiveness of interventions:

(i) Discuss the performance goals for your project and identify specific outcome measures;

(ii) Describe how the outcome information will be obtained, documented, and reported.

(2) *Approach for Implementing the Project* (20 points). Describe your project goals and objectives and the strategy you will use in planning and executing the project. You should provide information on the general approach and overall plan employed.

(a) *Baseline Plan for Project Management* (10 points). Include a management plan that:

(i) Lists the project objectives, major tasks and activities. All specific activities necessary to complete the proposed project must be included in the task listing;

(ii) Incorporates appropriate performance goals and benchmarks;

(iii) Identifies major milestones and provides a schedule for the assignment, tracking and completion of major tasks and activities, and a timeframe for delivery;

(iv) Designates resources and identifies responsible entities; and

(v) Provides an estimate of per unit (or other appropriate apportionment) costs (and a basis for those estimates) for the type of interventions that are planned.

(b) *Budget Justification* (5 points). Your proposed budget will be evaluated for the extent to which it is reasonable, clearly justified, and consistent with the project management plan and intended use of program funds. HUD is not required to approve or fund all proposed activities. Your budget should be submitted in the format recommended in Appendix D of this NOFA. An electronic spreadsheet and other budgetary forms are available on HUD's website, at www.hud.gov. You must thoroughly document and justify all budget categories and costs (Part B of Standard Form 424A) and all major tasks, for yourself, sub-recipients, partners, major subcontractors, joint venture participants, or others contributing resources to the project. Describe clearly and in detail your budgeted costs for each required program element (major task) included in your overall plan.

(c) *Economic Opportunity* (5 points). To the greatest extent feasible, your project should promote job training, employment, and other economic opportunities for low-income and minority residents and businesses which are owned by, and/or employ, low-income and minority residents as defined in 24 CFR 135.5. You should:

(i) Describe how you or your partners will comply with Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) and HUD's implementing rules at 24 CFR part 135. Describe how you will accomplish this requirement by (1) providing training and employment opportunities for low- and very low-income persons living within the grantee's jurisdiction, and by (2) providing business opportunities to businesses owned by low and very low-income persons living within the grantee's jurisdiction.

(ii) Describe how you or your partners will satisfy the requirements of Section 3 of the Housing and Urban Development Act of 1968 to give preference to hiring low and very low-income persons or contracting with businesses owned by or employing low and very-low income persons. Frequently Asked Questions about Section 3 requirements are available at www.hud.gov.

(iii) Describe how your proposed project will further and support the policy priorities of the Department, including providing opportunities for self-sufficiency, particularly for persons enrolled in welfare-to-work programs; or providing educational and job training opportunities; and

(iv) Describe the extent to which your proposed activities will occur in an Empowerment Zone or Enterprise Community (EZ/EC), Urban Enhanced Enterprise Community (EEC), Strategic Planning Community or Renewal Community, Brownfields Showcase Community, or the City of Dallas, Texas as defined in Section III(C)(1) through (3) of the General Section of the SuperNOFA.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses your ability to secure other community resources (such as financing, supplies or services) that can be combined with HUD's resources to achieve project purposes.

(1) In evaluating this factor, HUD will consider the extent to which you have partnered with other entities to secure additional resources to increase the effectiveness of your proposed project. Describe how other organizations will participate in or support your project. Resources may include funding or in-kind contributions (such as services or equipment) allocated to your proposed project. Resources may be provided by state and local governmental entities, public or private organizations, or other entities willing to be your partner in this effort.

(2) Each source of contributions (financial or in-kind) must be supported by a letter of commitment from the contributing entity, whether a public or private source, which must describe the contributed resources that will be used in your project. Staff in-kind contributions should be given a market-based monetary value. If you fail to provide letters of commitment with specific details including the amount of the actual contributions, you will not get rating points for this factor. Each letter of commitment, memorandum of understanding, or agreement to participate shall include the organization's name and the proposed level of commitment and responsibilities as they relate to the proposed project. The commitment must be signed by an official legally able to make commitments on behalf of the organization.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor consists of three elements:

(1) The extent to which you have coordinated your activities with other known organizations that are not directly participating in your proposed work activities, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner. Applicants that are, or propose to, either partner, fund, or sub-contract with grassroots organizations, particularly faith-based and other community-based non-profits in conducting their work programs will receive higher rating points as specified in the Program Section of this SuperNOFA. *See* Section VI(E) of the General Section of the SuperNOFA for additional information about faith-based and other community-based organizations.

(a) Describe your plan for integrating and coordinating housing-based hazard interventions with other housing-related activities (*e.g.*, rehabilitation, weatherization, removal of code violations, and other similar work).

(b) Describe your plans to consolidate housing-based hazard interventions with applicable housing codes and health regulations.

(c) Describe your plans to generate and use public subsidies or other resources (such as revolving loan funds) to finance future interventions to prevent and control housing-based hazards, particularly in low and very low-income housing.

(d) Detail the extent to which you will ensure that the needs of minorities and persons with disabilities will be addressed adequately during your intervention activities; and that housing in which hazards have been addressed will remain available and affordable in the long run for low-income, minority, large families, and for persons with disabilities.

(2) The extent to which your application implements practical solutions within the grant term to result in assisting beneficiaries of grant program funds in achieving independent living, economic empowerment, educational opportunities, housing choice or improved living environments;

(3) The extent to which your program exhibits the potential to be financially self-sustaining by decreasing dependence on federal funding and relying more on state, local and private funding so your activities can be continued after your grant award period is completed.

(D) *Applicant Debriefing. See* Section VII (E)(2) of the General Section of the SuperNOFA for information about applicant debriefing.

VI. Application Submission Requirements

(A) *Applicant Information.* You should submit your application in accordance with the format and instructions contained in this program section of this SuperNOFA. The following is a checklist of required application contents. Your application must contain the items listed in this section. These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively, referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the "non-standard forms" are listed in the Checklist and Submission Table of Contents provided in Appendix D of this NOFA and are available electronically at *www.hud.gov*. The items are as follows:

(1) Transmittal letter (one-page only) that summarizes your proposed project, provides the dollar amount requested, and identifies you and your partners in the application.

(2) The name, mailing address, and telephone number of the principal contact person. If you are a consortium of associates, sub-recipients, partners, major subcontractors, joint venture participants, or others contributing resources to the project, similar information shall also be provided for each of these entities and you must specify the primary entity.

(3) Checklist and Submission Table of Contents.

(4) Standard Forms SF–424, 424A (Section B), 424B (Assurances/Non-Construction Programs), 424M, Total Budget (Federal Share and Matching).

(5) HUD–2880 (Disclosure and Update Report); HUD 2990 (Certification of Consistency with EZ/EC Strategic Plan); HUD 2992 (Certification regarding Debarment and Suspension); HUD 50070 (Certification for a Drug-Free Workplace); HUD 50071 (Certifications of Payments to Influence Federal Transactions); Form SF-LLL Disclosure of Lobbying Activities, where applicable. A Certification of Consistency with the Consolidated Plan is not required for this application.

(6) Application Abstract. An abstract describing the goals and objectives of your proposed program (2-page maximum) must be included in the proposal.

(7) A narrative statement addressing the rating factors for award. The narrative statement must be numbered in accordance with each factor for award (Rating Factors 1 through 5). The response to the rating factors must not exceed a total of 25 pages (12 point font with 1 inch margins). Any pages in excess of this limit will not be read. (The 25-page limit does not apply to the two-page abstract.)

(8) Any attachments, appendices, references, or other relevant information that directly support the narrative may

VOL 67 ISS 58 MR 26 2002 UMI

accompany it, but must not exceed twenty (20) pages (12 point font with 1 inch margins) for your entire application. Any pages in excess of this limit will not be read. Specific criteria for the content of the appendices for the Healthy Homes Demonstration Program grant application are listed in the Checklist and Submission Table of Contents. (See Appendix D of this NOFA.)

(9) A detailed budget with supporting cost justification for all budget categories of your funding request, in accordance with Rating Factor 3, element (2)(b). This information will not be counted towards the page limits. A detailed budget must also be provided for any subcontractors, subgrantees, or subrecipients receiving greater than 10% of the Federal budget request.

(10) The resumes and position descriptions of your project director and project manager and up to three additional key personnel (in accordance with Rating Factor 1), not to exceed three pages each (12-point font with 1-inch margins). This information is to be included in Appendix 1 and will not be counted towards the page limit.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

Activities assisted under this program are subject to HUD environmental review to the extent required under 24 CFR part 50. An award under the Healthy Homes Initiative does not constitute approval of specific sites where activities may be carried out. Following award execution, HUD will perform environmental reviews for activities to be carried out on properties proposed by your organization. You may not rehabilitate, convert, repair or construct a property, or commit or expend program funds or non-HUD funds for these program activities for any eligible property, until you receive written notification from the appropriate HUD official that HUD has completed its environmental review and the property has been approved. The results of environmental reviews may require that proposed activities be modified or proposed sites rejected.

IX. Authority

The authority for this program is Sections 501 and 502 of the Housing and Urban Development Act of 1970 and the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2002, Public Law 107–73, approved November 26, 2001.

Appendix A

The following briefly describes the housing-associated health and injury hazards HUD considers key targets for intervention. More information about housing-associated health and injury hazards is available at the Healthy Homes Initiative website, linked to www.hud.gov.

Allergens and asthma: Experts estimate that 14 million Americans have asthma, with an associated annual cost of $14 billion. Asthma is now recognized as the leading cause of school and work absence, emergency room visits and hospitalization. For sensitized children, exposure to antigens from dust mites, certain pets, and cockroaches has been associated with more severe asthma. There is a preponderance of evidence showing a dose-response relationship between exposure and prevalence of asthma and allergies; some evidence also indicates that exposure to antigens early in life may predispose or hasten the onset of allergies and asthma. Dust mites have been identified as the largest trigger for asthma and allergies. Cockroach allergens appear to be excessive in 30–50% of inner-city housing and affect 5–15% of the population, whereas dust mite appears to be the dominant allergen in other environments.

Interventions known to have beneficial effects include installation of impervious mattress and pillow covers, which can reduce allergen exposure by 90%. Other dust mite control measures include dehumidification, laundering bedding, and removal of carpets and other dust sinks. Cleaning carpets with tannic acid solution has also been demonstrated to greatly reduce dust mites. Asthma prevention program costs have been estimated at about $500 per unit, which includes about $150 for educational interventions. Additional information is available in HUD's research topic paper, "Healthy Homes Issues: Asthma" available at the Resources, Technical Resources link of HUD's Healthy Homes Initiative website, linked to www.hud.gov.

Asbestos: Asbestos is a mineral fiber that has been used commonly in a variety of building construction materials and household products for insulation and as a fire-retardant. The Environmental Protection Agency (EPA) and the Consumer Product Safety Commission (CPSC) have banned most asbestos products. Manufacturers have also voluntarily limited uses of asbestos. Today, asbestos is most commonly found in older homes: in pipe and furnace insulation materials, asbestos shingles, millboard, textured paints and other coating materials, and floor tiles. Elevated concentrations of airborne asbestos can occur when asbestos-containing materials (ACM) are disturbed by cutting, sanding or other remodeling activities. Improper attempts to remove these materials can release asbestos fibers into the air in homes, increasing asbestos levels and endangering people living in those homes. The most dangerous asbestos fibers are too small to be visible. After they are inhaled, they can remain and accumulate in the lungs. Asbestos can cause lung cancer, mesothelioma (a cancer of the chest and abdominal linings), and asbestosis (irreversible lung scarring that can be fatal). Most people with asbestos-related diseases were exposed to elevated concentrations on the job; some developed disease from exposure to clothing and equipment brought home from job sites. As with radon, dose-response extrapolations suggest that lower level exposures, as may occur when asbestos-containing building materials deteriorate or are disturbed, may also cause cancer.

Intact asbestos-containing materials are not a hazard; they should be monitored for damage or deterioration and isolated if possible. Repair of damaged or deteriorating ACM usually involves either sealing (encapsulation) or covering (enclosure) it. Repair is usually cheaper than removal, but it may make later removal of asbestos more difficult and costly. Repairs should be done only by a professional, trained and certified to handle asbestos safely and can cost from a few hundred to a few thousand dollars; removal can be more expensive.

Combustion products of heating and cooking appliances: Burning of oil, natural gas, kerosene, and wood for heating or cooking purposes can release a variety of combustion products of health concern. Depending upon the fuel, these may include carbon monoxide (a chemical asphyxiant), oxides of nitrogen (respiratory irritants), polycyclic aromatic hydrocarbons (e.g., the carcinogen benzo[a]pyrene), and airborne particulate matter (respiratory irritants). Carbon monoxide, an odorless gas, can be fatal. Nitrogen dioxide can damage the respiratory tract, and sulfur dioxide can irritate the eyes, nose and respiratory tract. Smoke and other particulates irritate the eyes, nose and throat, and can cause lung cancer.

Improper venting and poor maintenance of heating systems and cooking appliances can dramatically increase exposure to combustion products. Experts recommend having

combustion heating systems inspected by a trained professional every year to identify blocked openings to flues and chimneys; cracked or disconnected flue pipe; dirty filters; rust or cracks in the heat exchanger; soot or creosote build-up; and exhaust or gas odors. Installing a carbon monoxide detector is also recommended; however, such a detector will not detect other combustion by-products.

Insect and rodent pests: The observed association between exposure to cockroach antigen and asthma severity has already been noted above. In addition, cockroaches may act as vehicles to contaminate and environmental surfaces with certain pathogenic organisms. Rodents can transmit a number of communicable diseases to humans, either through bites, arthropod vectors, or exposure to aerosolized excreta. In addition, humans can become sensitized to proteins in rodent urine, dander and saliva. Such sensitization may contribute to asthma severity among children. Insect and rodent infestation is frequently associated with substandard housing that makes it difficult to eliminate. Treatment of rodent and insect infestations often includes the use of toxic pesticides that may present hazards to occupants (see below). Integrated pest management (IPM) for rodents and cockroaches, which reduces the use of pesticides, is estimated to cost approximately $150 per unit. IPM control measures include sealing holes and cracks, removing food sources and use of traps. In technical terms, Integrated Pest Management (IPM) is the coordinated use of pest and environmental information with available pest control methods to prevent unacceptable levels of pest damage by the most economical means and with the least possible hazard to people, property, and the environment. (One information source is the University of Minnesota's electronic textbook of Integrated Pest Management, available at *http://ipmworld.umn.edu/textbook.htm.*)

Lead: Exposure to lead, especially from deteriorating lead-based paint, remains one of the most important and best studied of the household environmental hazards to children. Although blood lead levels have fallen nationally, a large reservoir of lead remains in housing. The most recent national survey, conducted from 1991–94, showed that nearly one million U.S. preschoolers still have elevated blood lead levels. Overall, the prevalence rate among all children under six years of age is 4.4%. Among low-income children living in older housing where lead-based paint is most prevalent, the rate climbs to 16%; and for African-American children living in such housing, it reaches 21%.

HUD estimates that 38 million dwellings have some lead-based paint, and that 26 million have significant lead-based paint hazards. Of those, about 5.7 million have young children and of those, about 1.6 million have household incomes under $30,000 per year. Costs for Lead Hazard Control can range anywhere from $500 to $15,000 per unit. Corrective measures include paint stabilization, enclosure and removal of certain building components coated with lead paint, and cleanup and "clearance testing," which ensures the unit is safe for young children.

Mold and moisture: An analysis of several pulmonary disease studies estimates that 25% of airways disease, and 60% of interstitial lung disease may be associated with moisture in the home or work environment. Moisture is a precursor to the growth of mold and other biological agents, which is also associated with respiratory symptoms. An investigation of a cluster of pulmonary hemosiderosis (PH) cases in infants showed PH was associated with a history of recent water damage to homes and with levels of the mold Stachybotrys atra (SA) in air and in cultured surface samples. Associations between exposure to SA and "sick building" symptoms in adults have also been observed. Other related toxigenic fungi have been found in association with SA-associated illness and could play a role. For sensitive individuals, exposure to a wide variety of common molds may also aggravate asthma. Addressing mold problems in housing requires coordination among the medical, public health, microbiological, housing, and building science communities. Additional information is available in HUD's research topic paper, "Healthy Homes Issues: Mold" available at the Resources, Technical Resources link of HUD's Healthy Homes Initiative website, linked to *www.hud.gov.*

The cost of mold/moisture-related intervention work (*e.g.*, integrated pest management, clean and tune furnace, remove debris, vent clothes dryer, cover dirt floor with impermeable vapor barrier) is a few hundred dollars, unless major modification of the ventilation system is needed. For example, in Cleveland, mold interventions, including repairs to ventilation systems and basement flooring, in the most heavily contaminated homes range from $500—$5,000, with some costs also being dedicated to lead hazard control simultaneously through its Lead+Asthma program.

Pesticide residues: According to the EPA, 75 percent of U.S. households used at least one pesticide product indoors during the past year. Products used most often are insecticides and disinfectants. Another study suggests 80 percent of most people's exposure to pesticides occurs indoors and that measurable levels of up to a dozen pesticides have been found in the air inside homes. The amount of pesticides found in homes appears to be greater than can be explained by recent pesticide use in those households; other possible sources include contaminated soil or dust that migrates in from outside, stored pesticide containers, and household surfaces that collect and then release the pesticides. Pesticides used in and around the home include products to control insects (insecticides), termites (termiticides), rodents (rodenticides), molds and fungi (fungicides), and microbes (disinfectants). In 1990, the American Association of Poison Control Centers reported that some 79,000 children were involved in common household pesticide poisonings or exposures. In households with children under five years old, almost one-half stored at least one pesticide product within reach of children. Exposure to chlorpyriphos (CP), a commonly used organophosphate insecticide, in the prenatal and early postnatal period may impair neurodevelopment. While CP is a biodegradable pesticide, substantial persistence of CP in house dust has been demonstrated. Exposure to high levels of cyclodiene pesticides, commonly associated with misapplication, has produced various symptoms, including headaches, dizziness, muscle twitching, weakness, tingling sensations, and nausea. In addition, EPA is concerned that cyclodienes might cause long-term damage to the liver and the central nervous system, as well as an increased risk of cancer.

There are available data on hazard evaluation methods and remediation effectiveness regarding pesticide residues in the home environment.

Radon progeny: The National Academy of Sciences estimates that approximately 15,000 cases of lung cancer per year are related to radon exposure. Epidemiologic studies of miners exposed to high levels of radon in inhaled air have defined the dose response relation for radon-induced lung cancer at high exposure levels. Extrapolation of these data has been used to estimate the excess risk of lung cancer attributable to exposure to radon gas at the lower levels found in homes. These estimates indicate that radon gas is an important cause of lung cancer deaths in the U.S. Excessive exposures

VOL
67
ISS
58
MR
26
2002
UMI

are typically related to home ventilation, structural integrity and location.

Radon measurement and remediation methods are well developed, and the Environmental Protection Agency (EPA) recommends that every home be measured for radon. EPA estimates that materials and labor costs for radon reduction in an existing home are $800–$2500. Including radon resistant techniques in new home construction costs $350–$500, and can save up to $65 annually in energy costs, according to the EPA.

Take-home hazards from work/hobbies and work at home: When the clothing, hair, skin, or shoes of workers become contaminated with hazardous materials in the workplace, such contaminants may inadvertently be carried to the home environment and/or an automobile. Such "take-home" exposures have been demonstrated, for example, in homes of lead-exposed workers. In addition, certain hobbies or workplaces located in the home may provide an especially great risk of household contamination.

Control methods include storing and laundering work clothes separately, and showering and changing before leaving work, or immediately after arriving home. Once a home becomes contaminated, cleaning floors and contact surfaces and replacing furnishings may be necessary to reduce exposures.

Unintentional injuries/fire: Unintentional injury is now the leading cause of death and disability among children younger than 15 years of age. In 1997, nearly 7 million persons in the United States were disabled for at least 1 full day by unintentional injuries received at home. During the same year, 28,400 deaths were attributable to unintentional home injuries, of which 1800 occurred among children 0–4 years of age. Among young children, three types of events accounted for more than of deaths: fires/burns, drownings, and mechanical suffocation. Falls and poisoning are the next most common.

Home visitation protocols have been shown to be effective in reducing exposure to such hazards. The "add-on" cost of injury prevention measures, when combined with other housing interventions are estimated at about $100 per unit. This includes the cost of some injury prevention devices, such as smoke alarms, electrical socket covers, etc.

Appendix C

Administrative Costs

I. Purpose

The intent of this HUD grant program is to allow the Grantee to be reimbursed for the reasonable direct and indirect costs, subject to a top limit, for overall management of the grant. In most circumstances the Grantee, whether a state or a local government, is expected to serve principally as a conduit to pass funding to sub-grantees, which are to be responsible for performance of the lead-hazard reduction work. Congress set a top limit of ten (10) percent of the total grant sum for the Grantee to perform the function of overall management of the grant program, including passing on funding to sub-grantees. The cost of that function, for the purpose of this grant, is defined as the "administrative cost" of the grant, and is limited to ten (10) percent of the total grant amount. The balance of ninety (90) percent or more of the total grant sum is reserved for the sub-grantee/direct-performers of the lead-hazard reduction work.

II. Administrative Costs: What They Are Not

For the purposes of this HUD grant program for States and local governments to provide support for the evaluation and reduction of lead-hazards in low and moderate-income, private target housing: the term "administrative costs" should not be confused with the terms "general and administrative cost", "indirect costs", "overhead", and "burden rate". These are accounting terms, usually represented by a government-accepted standard percentage rate. The percentage rate allocates a fair share of an organization's costs that cannot be attributed to a particular project or department (such as the chief executive's salary or the costs of the organization's headquarters building) to all projects and operating departments (such as the Fire Department; the Police Department; the Community Development Department, the Health Department or this program). Such allocated costs are added to those projects' or departments' direct costs to determine their total costs to the organization.

III. Administrative Costs: What They Are

For the purposes of this HUD grant program, "Administrative Costs" are the Grantee's allowable direct costs for the overall management of the grant program plus the allocable indirect costs. The allowable limit of such costs that can be reimbursed under this program is ten (10) percent of the total grant sum. Should the Grantee's actual costs for overall management of the grant program exceed ten (10) percent of the total grant sum, those excess costs shall be paid for by the Grantee. However, excess costs paid for by the Grantee and may be shown as part of the requirement for cost-sharing funds to support the grant.

IV. Administrative Costs: Definition

A. General

Administrative costs, are the allowable, reasonable, and allocable direct and indirect costs related to the overall management of the HUD grant for lead-hazard reduction activities. Those costs shall be segregated in a separate cost center within the Grantee's accounting system, and they are eligible costs for reimbursement as part of the grant, subject to the ten (10) percent limit. Such administrative costs do not include any of the staff and overhead costs directly arising from specific sub-grantee program activities eligible under Section III(B) of this Healthy Homes Demonstration NOFA, because those costs are eligible for reimbursement under a separate cost center as a direct part of project activities.

The Grantee may elect to serve solely as a conduit to sub-grantees, who will in turn perform the direct program activities eligible under NOFA Section III(B), or the grantee may elect to perform all or a part of the direct program activities in other parts of its own organization, which shall have their own segregated, cost centers for those direct program activities. In either case, not more than 10 percent of the total HUD grant sum may be devoted to administrative costs, and not less than 90% of the total grant sum shall be devoted to direct program activities. Grantee shall take care not to mix or attribute administrative costs to the direct project cost centers.

B. Specific

Reasonable costs for the Grantee's overall grant management, coordination, monitoring, and evaluation are eligible administrative costs. Subject to the ten (10) percent limit, such costs include, but are not limited to, necessary expenditures for the following, goods, activities and services:

(1) Salaries, wages, and related costs of the Grantee's staff, the staff of affiliated public agencies, or other staff engaged in Grantee's overall grant management activities. In charging costs to this category the recipient may either include the entire salary, wages, and related costs allocable to the program for each person whose primary responsibilities (more than 65% of their time) with regard to the grant program involve direct overall grant management assignments, or the pro rata share of the salary, wages, and related costs of each person whose job includes any overall grant management assignments. The Grantee may use only one of these two methods during this program. Overall grant management includes the following types of activities:

(a) Preparing grantee program budgets and schedules, and amendments thereto;

(b) Developing systems for the selection and award of funding to sub-grantees and other sub-recipients;

(c) Developing suitable agreements for use with sub-grantees and other sub-recipients to carry out grant activities;

(d) Developing systems for assuring compliance with program requirements;

(e) Monitoring sub-grantee and sub-recipient activities for progress and compliance with program requirements;

(f) Preparing presentations, reports, and other documents related to the program for submission to HUD;

(g) Evaluating program results against stated objectives;

(h) Providing local officials and citizens with information about the overall grant program; (However, a more general education program, helping the public understand the nature of lead hazards, lead hazard reduction, blood-lead screening, and the health consequences of lead poisoning is a direct project support activity).

(i) Coordinating the resolution of overall grant audit and monitoring findings; and

(j) Managing or supervising persons whose responsibilities with regard to the program include such assignments as those described in paragraphs (a) through (i).

(2) Travel costs incurred for official business in carrying out the overall grant management;

(3) Administrative services performed under third party contracts or agreements, for services directly allocable to overall grant management such as overall-grant legal services, overall-grant accounting services, and overall-grant audit services;

(4) Other costs for goods and services required for and directly related to the overall management of the grant program, including such goods and services as telephone, postage, rental of equipment, renter's insurance for the program management space, utilities, office supplies, and rental and maintenance (but not purchase) of office space for the program.

(5) The fair and allocable share of Grantee's general costs that are not directly attributable to specific projects or operating departments such as: The Mayor's and City Council's salaries and related costs; the costs of the City's General Council's office, not charged off to particular projects or operating departments; and the costs of the City's Accounting Department not charged back to specific projects or operating departments. (If Grantee has an established burden rate it should be used; if not Grantee shall be assigned a negotiated provisional burden rate, subject to final audit.)

Appendix D

Forms: The non-standard forms, which follow, are required for your Healthy Homes Demonstration application. They are the Checklist and Submission Table of Contents and the Total Budget (Federal Share and Matching Contribution, including instructions).

BILLING CODE 4210–32–P

APPENDIX D

CHECKLIST AND SUBMISSION TABLE OF CONTENTS HEALTHY HOMES DEMONSTRATION GRANT PROGRAM

The following checklist is provided to ensure you have submitted all required items to receive consideration for funding. You must assemble the application in the order shown below and note the corresponding page number where the response is located. **You must include this checklist and submission table of contents with the proposal.**

		Cover page
☐	**Transmittal Letter (limited to one page)**	
☐	**Applicant Abstract** (Limited to two pages; does not count toward the 25- page limit.)	_____

Item	Discussion
1 - Personnel (Direct Labor)	This section should show the labor costs for all individuals supporting the grant effort (regardless of the source of their salaries). The hours and costs are for the full life of the grant. If an individual is employed by a contractor or sub-grantee, their labor costs should not be shown here. Please include all labor costs which are associated with the proposed grant program, including those costs which will be paid for with in-kind or matching funds. Do not show fringe or other indirect costs in this section. Please use the hourly labor cost for salaried employees (use 2080 hours per year or the value your organization uses to perform this calculation). An employee working less than full time on the grant should show the numbers of hours they will work on the grant.
2 - Fringe Benefits	Use the standard fringe rates used by your organization. You may use a single fringe rate (a percentage of the total direct labor) or list each of the individual fringe charges. The spreadsheet is set up to use the Total Direct Labor Cost as the base for the fringe calculation. If your organization calculates fringe benefits differently, please use a different base and discuss how you calculate fringe as a comment.
3 - Travel	
3a - Transportation - Local Private Vehicle	If you plan on reimbursing staff for the use of privately owned vehicles or if you are required to reimburse your organization for mileage charges, show your mileage and cost estimates in this section.
3b - Transportation - Airfare	Show the estimated cost of airfare required to support the grant program effort. Show the destination and the purpose of the travel as well as the estimated cost of the tickets. Each program NOFA discusses the travel requirements which should be listed here.
3c - Transportation - Other	If you or are charged monthly by your organization for a vehicle for use by the grant program, indicate those costs in this section. Provide estimates for other transportation costs which may be incurred (metro, etc.).

VOL 67 ISS 58 MR 26 2002 UMI

3d - Per Diem or Subsistence	For travel which will require the payment of subsistence or per diem in accordance with your organization's policies. Indicate the location of the travel. Each program NOFA discusses the travel requirements that should be listed here.
4 - Equipment	Equipment is defined by HUD regulations as tangible, nonexpendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. Each program NOFA describes what equipment may be purchased using grant funding.
5 - Supplies and Materials	Supplies and materials are consumable and non-consumable items that have a unit value of less than $5,000. Please list the proposed supplies and materials as either Consumable Supplies or as Non-Consumable Materials.
5a - Consumable Supplies	List the consumable supplies you propose to purchase. General office or other common supplies may be estimated using an anticipated consumption rate.
5b - Non-consumable materials	List furniture, computers, printers, and other items that will not be consumed in use. Please list the quantity and unit cost.
6 - Consultants	Please indicate the consultants you will use. Indicate the type of consultant (skills), the number of days you expect to use them, and their daily rate.
7 - Contracts and Sub-Grantees *Note: If any contractor, sub-contractor, or sub-grantee is expected to receive over 10% of the total Federal amount requested, a separate Total Budget Summary spreadsheet should be developed for that contractor or sub-grantee and the total amount of their proposed effort should be shown as a single entry in this section.*	List the sub-grantees, sub-recipients, or sub-contractors that will help accomplish the grant effort. Besides, sub-grantees or sub-recipients, other contracts for services including those for conducting inspections, risk assessments, and clearance inspections; contracts with faith-based and community-based organizations; liability insurance; contracts with laboratories; and training and certification for contractors and workers should be listed under this item. Unless your proposed program will perform the primary grant effort with in-house employees (costs listed in Items 1 and 2), the costs for contractors, sub-grantees or sub-recipients performing the primary grant activities should be identified and listed in this section. Types of activities which should be shown in this section: • Contracts for all services • Training • Contracts with Faith-Based and Community Based Organizations or Other Governmental Organizations (note the 10% requirement discussed in this section) • Insurance if your program will procure it separately Please provide a short description of the activity the contractor or sub-grantee will perform, if not evident.

8 - Other Direct Costs	Other Direct Costs include a number of items that are not appropriate for other sections. Other Direct Costs may include: • Staff training • Telecommunications • Printing and postage • Relocation, if costs are paid directly by your organization (if relocation costs are paid by a sub-grantee, it should be reflected in Section 7)
9 - Indirect Costs	OMB Circular A87 defines indirect costs are those that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. Indirect costs include (a) the indirect costs originating in each department or agency of the governmental unit carrying out Federal awards and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs. The spreadsheet is set up to use the Total Direct Labor plus the Fringe Benefits costs as the base for the indirect cost calculation. If your organization calculates indirect costs differently, please use a different base and discuss how you calculate fringe as a comment.

The three rightmost columns allow you to identify how the costs will be spread between the Federal Share and the Match. This information will help the reviewers better understand your program and priorities. The far right column is an "error checking" function to confirm that the estimated cost is equal to the sum of the Federal Share and the Match. If there is a discrepancy, the word "Error" will appear.

Note: The formats and many of the cells for the spreadsheet (which can be downloaded from the HUD Office of Healthy Homes and Lead Hazard Control's website at: www.hud.gov/offices/lead) are protected. There is no password for the protection.

FUNDING AVAILABILITY FOR THE BROWNFIELDS ECONOMIC DEVELOPMENT INITIATIVE (BEDI)

PROGRAM OVERVIEW

Purpose of the Program. BEDI funds are used to enhance the security of a loan guaranteed by HUD under Section 108 of the Housing and Community Development Act of 1974, as amended, for the same project, or to improve the viability of a project financed with the Section 108-guaranteed loan. HUD intends to make available approximately $26 million in BEDI funds along with almost $3 million in unobligated Economic Development Initiative (EDI) funds, totaling approximately $29 million that will be available in FY 2002 to stimulate economic development by local governments and private sector parties in brownfields.

HUD desires to see BEDI funds (as defined in Section III (A)(1) below) and Section 108 funds used to finance projects and activities in brownfields that will provide near-term results and demonstrable economic benefits, such as job creation and increases in the local tax base. A BEDI grant must be used in conjunction with a new Section 108 guaranteed loan commitment. In FY 2002, HUD seeks to increase economic development opportunity throughout the country and promote energy efficient projects.

Available Funds. Approximately $29 million, as further described in Section II below. The maximum amount of any BEDI grant award this year will be $2 million per project.

Eligible Applicants. Only units of general local government eligible for assistance under the Community Development Block Grant (CDBG) program may apply for a BEDI grant and a Section 108 Guaranteed Loan. CDBG-eligible urban counties may also apply for funding, but units of general local government which participate in the Urban County may not submit an application independent of the Urban County. (See Section III(B) below for additional information regarding eligible applicants.)

Application Deadline. July 9, 2002.

ADDITIONAL INFORMATION

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Please submit your completed applications (one original and three copies) on or before July 9, 2002, to the addresses shown below.

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that apply to application submission. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Only a limited number of express delivery services have access to the Robert C. Weaver, HUD Headquarters Building. All applications to field offices, homeownership centers and program hubs must be delivered by the United States Postal Service (USPS). Applications sent to the Robert C. Weaver Building may be mailed using the United States Postal Service or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. No other delivery services are permitted into the Robert C. Weaver Building without escort. To avoid potential delivery problems, therefore, you must use one of the four carriers listed above. For purposes of this program section to the SuperNOFA, delivery by the approved services must be made during HUD's business hours, i.e., between 8:30 AM and 5:30 PM Eastern time, Monday through Friday. If one of these companies does not serve your area, you should submit your application via the USPS.

Mailed Applications. Your application will be considered timely filed if it is postmarked on or before 12:00 midnight of the application due date and received by the designated HUD office by or within fifteen (15) days of the application due date. *All applicants must obtain and save a* Certificate of Mailing (PS Form 3817) showing the date when the application was submitted to the USPS. The Certificate of Mailing will be your documentary evidence that the application was timely filed. The Certificate of Mailing is available from the USP.

Applications Sent by Overnight/ Express Mail Delivery To HUD Headquarters. An application sent by overnight delivery or express mail to HUD Headquarters will be considered by HUD as timely filed if it is received before or on the application due date, or if documentary evidence is provided that the application was placed in transit with the overnight delivery/ express mail service by no later than the application due date.

Applications to HUD Field Offices. Applications submitted to HUD Field Offices must be mailed via the United States Postal Service. At the same time the application and copies are submitted to HUD Headquarters, an additional copy should be submitted to the Community Planning and Development Division of the appropriate HUD Field Office for the applicant's jurisdiction.

Addresses for Submitting Applications. To HUD Headquarters. Submit your completed application (an original and two copies) by mail or permitted delivery service to: Processing and Control Unit, Room 7251, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, D.C. 20410, Attention: BEDI.

When submitting the application, please specify BEDI on any label or mailing container, and include the applicant's name, mailing address (including zip code), street address (if different from mailing address) and zip code, and voice and facsimile telephone numbers (including area code), along with the contact person's name and voice and facsimile telephone numbers (including area code).

For Application Kits. To request an Application Kit and any supplemental information, please call HUD's SuperNOFA Information line toll free at 1–800-HUD–8929. When requesting an Application Kit, please refer to BEDI. Please be sure to provide the applicant's name, address (including zip code), and telephone number (including area code), along with the name and phone number of your contact person. Persons with hearing or speech impairments may call the Center's TTY number at 1–800-HUD–2209 to obtain an application kit. The Application Kit will also be available on the Internet through the HUD web site at http://www.hud.gov.

For Further Information and Technical Assistance. Contact Lisa Peoples, Economic Development Specialist, Office of Economic Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7140, Washington, DC 20410, telephone (202) 708–0614 ext. 4456 (this is not a toll-free number). Persons with speech or hearing impairments may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339. Before the application due date, HUD staff will be available to provide you with general guidance and technical assistance about this BEDI NOFA. However, HUD staff are not permitted to assist in preparing your BEDI application. Following selection of applicants, but before awards are made, HUD staff are available to assist in clarifying or confirming information

VOL
67
ISS
58
MR

2002
UMI

that is a prerequisite to the offer of an award by HUD. In addition, the Section 108 Loan Guarantee program is not a competitive program and therefore is not subject to those provisions of the HUD Reform Act pertaining to competitions that do not permit HUD staff to assist in the preparation of applications. HUD staff are available to provide advice and assistance to develop your Section 108 loan application.

Applicant Debriefing. Beginning not less than 30 days after the awards for assistance are announced, HUD will, upon receiving written request from the applicant, provide a debriefing to the requesting applicant. Information provided during a briefing will be the applicant's final scores for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied. Applicants requesting to be debriefed must send a written request to the contact person for the BEDI program, Ms. Lisa Peoples, at the address listed in the preceding paragraph.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of BEDI application(s). For more information about the date and time of the broadcast, you should consult the HUD web site at *http://www.hud.gov.*

II. Amount Allocated

HUD has available a maximum of $29,008,155 for grant awards under this program section. This amount consists of $25 million in appropriations under "Brownfields Redevelopment" heading in the Fiscal Year 2002 HUD Appropriations Act, $1,065,000 of unobligated appropriated funds from the Fiscal Year 2001 HUD Appropriations Act under the "Brownfields Redevelopment" heading, and $2,943,155 in funds originally appropriated for awards under the competitive Economic Development Initiative (EDI) program under the Fiscal Year 2000 HUD Appropriations Act. All such funds are authorized by Section 108(q) of the Act (as defined below). Consequently there will be no separate competition for EDI funds this year, and all of these funds are being made available by HUD for the purpose of assisting public entities in the redevelopment of brownfields. The maximum amount of a BEDI award under this competition is $2 million per project. If any additional funds become available for the BEDI program during Fiscal Year 2002, HUD may either fund additional applicants in accordance with this program section of the SuperNOFA, or may add these funds to funds available for future competitions pursuant to Section 108(q) of the Act.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* BEDI is designed to help cities redevelop abandoned, idled, or underutilized industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination, i.e., brownfields. BEDI provides funding to local governments to be used in conjunction with Section 108 loan guarantees to finance redevelopment of brownfields sites. A BEDI grant award will be conditioned upon, and must be used in conjunction with, a new Section 108-guaranteed loan commitment. Both Section 108 loan guarantee proceeds and BEDI grant funds are initially made available by HUD to units of general local government eligible for assistance through either HUD's Entitlement or State and Small Cities segments of the Community Development Block Grant program. Such public entities may re-loan the Section 108 loan proceeds and provide BEDI funds to a business or other entity to carry out an approved brownfield economic development project, or the public entity may carry out the eligible project itself, as provided in the approved application. In either case, BEDI grant funds and the 108 proceeds must be used to support the same eligible project.

(1) *Definitions.* Unless otherwise defined herein, terms defined in 24 CFR part 570 and used in this program section of this SuperNOFA shall have the respective meanings given thereto in that part.

Act means Title I, Housing and Community Development Act of 1974, as amended (42 U.S.C. 5301 *et seq.*).

Application means a single set of documents submitted by an eligible applicant for BEDI grant funds, in accordance with the provisions of this program section of the SuperNOFA to finance a brownfield economic development project. A BEDI application must be accompanied by a Section 108 loan guarantee request, which may consist of either a brief summary of the proposed use of 108 funds, or a full application, which may either be submitted at the same time as the BEDI application or be provided within 60 days of BEDI grant award, as more fully explained in Section IV(C) of this program section. Note that the Section 108 application must be submitted to the appropriate HUD field office concurrently with its submission to Headquarters.

Brownfields means abandoned, idled, or under-used real property (including industrial and commercial facilities) where expansion or redevelopment is complicated by real or perceived contamination.

Brownfields Economic Development Initiative (BEDI) funds means the appropriated funds made available for the competition under this program section from any available BEDI or EDI appropriation.

Brownfields Economic Development Initiative (BEDI) project means an activity or activities (including mixed use projects with housing components) that are eligible under Section 108(q) of the Act and under 24 CFR 570.703, and that increase economic opportunity for persons of low- and moderate-income or that stimulate or retain businesses or jobs or that otherwise lead to economic revitalization in connection with brownfields.

CDBG funds means those funds collectively so defined at 24 CFR 570.3, including grant funds received pursuant to Section 108(q) and this program section of this SuperNOFA.

Economic Development Initiative (EDI) grant means the provision of economic development grant assistance under Section 108(q) of the Act, as authorized by Section 232 of the Multifamily Housing Property Disposition Reform Act of 1994 (Pub.L. 103–233, approved April 11, 1994).

EPA means the U.S. Environmental Protection Agency.

Firm Commitment means either a written agreement or letter of understanding by which an applicant and/or a third party:

(1) Agrees to perform an activity specified in the application, and demonstrates its relationship to the proposed BEDI/Section 108 project;

(2) Specifies the amount of the commitment, and demonstrates that it has the financial and organizational capacity to deliver the resources necessary to successfully complete the activity; if the committed activity is to be self-financed, the third party must evidence its financial capacity through a corporate or personal financial statement or other appropriate means; and

(3) Irrevocably commits the resources to the activity either through cash or in-kind services or contributions; if any portion is to be financed through a grant or loan from another public or private organization, that institution's grant or loan commitment must be firmly committed as well.

Any such agreement or letter of understanding shall be understood as being contingent upon receipt of the BEDI grant.

In order for an applicant's commitment of CDBG funds to be accepted by HUD as additional financing for a BEDI project, a resolution from the local governing body (e.g., city/borough council) authorizing the amount and permitted use(s) of the funds must be provided. Each agreement or letter of commitment must include the organization's name and proposed total level of commitment (including how the value was determined) and responsibilities as they relate to the proposed BEDI project. The commitment must be signed by an official of the organization legally authorized to make commitments on behalf of the organization, and remain in effect for a period stated in the commitment.

Grassroots organization means any such organization as defined in Section VI (E)(2) of the General Section of the SuperNOFA above.

Showcase Community means an applicant chosen by the Federal Government's Brownfields National Partnership for inclusion in the Federal Government's Brownfields Showcase Communities program. (See Section III(C)(2) of the General Section of the SuperNOFA) for advice on locating a list of Showcase communities.)

Strategic Plan means a strategy developed and agreed to by the nominating local government(s) and State(s) and submitted in partial fulfillment of the application requirements for an Empowerment Zone or Enterprise Community designated pursuant to 24 CFR part 597 or part 598.

(2) *Background.* HUD has multiple programs which are intended to stimulate economic and community development and promote economic revitalization of distressed areas, and which can be effectively employed to address and remedy brownfields conditions. Primary among HUD's resources are the Community Development Block Grant (CDBG) program and the Section 108 loan guarantee program.

(a) The CDBG program provides grant funds ($4.341 billion in FY 2002) by formula to local governments (either directly or through States) to carry out community and economic development activities. The Section 108 loan guarantee program provides CDBG-recipient communities with a source of financing for economic development, public facilities, and other eligible large scale physical development projects. HUD is authorized pursuant to Section 108 to guarantee notes issued by CDBG entitlement communities and non-entitlement units of general local government eligible to receive funds under the State CDBG program. The Section 108 program is subject to the regulations of 24 CFR part 570 applicable to the CDBG program as described in 24 CFR part 570, subpart M. BEDI grants must support Section 108 loan guarantees as generally described in this program section of this SuperNOFA.

(b) For FY 2002, the Section 108 program is authorized at $608,696,000 in loan guarantee authority. The full faith and credit of the United States is pledged to the payment of all guarantees made under Section 108. Under this program, communities (and States, as applicable) pledge their continuing CDBG allocations as security for loans guaranteed by HUD. The Section 108 program, however, does *not* require CDBG funds to be escrowed for loan repayment (unless such an arrangement is specifically negotiated as loan security and included in the applicable "Contract for Loan Guarantee Assistance.") This means that a community can ordinarily continue to spend its existing allocation for other CDBG purposes, unless needed for loan repayment.

(3) *EDI Progrom.* The EDI authorization, Section 108(q) of the Act, was enacted in 1994 and is intended to complement and enhance the Section 108 Loan Guarantee program. $2,943,155 in FY 2000 EDI appropriations is being made available under this program section of the SuperNOFA, conditioned on their award and use for brownfields economic development projects in accordance with this program section. A purpose of EDI (and BEDI) grant funds is to reduce grantees' potential loss of future CDBG allocations:

(a) By strengthening the economic feasibility of a project financed with Section 108 funds (and thereby increasing the probability that the project will generate enough cash to repay the guaranteed loan);

(b) By directly enhancing the security of the Section 108-guaranteed loan; or

(c) Through a combination of these or other risk mitigation techniques.

(4) *BEDI Program.* In the FY 2002 HUD Appropriations Act, Congress has made a specific appropriation of $25 million as authorized by Section 108(q) of the Act to assist in financing brownfields redevelopment, which funds are being made available under this program section along with $1,065,000 in unobligated funds appropriated for FY 2001 for brownfields redevelopment.

HUD intends all the funds available pursuant to this program section of the SuperNOFA to be used for purposes of the redevelopment of brownfields sites. Accordingly, BEDI funds shall be used as the stimulus for local governments and private sector parties to commence redevelopment or continue phased redevelopment efforts on brownfields sites where contamination is known or suspected and a redevelopment plan exists. HUD desires to see BEDI and Section 108 funds used to finance projects and activities that will provide near-term results and demonstrable economic benefits, such as job creation and increases in the local tax base. HUD does not encourage applications whose scope is limited only to site acquisition and/or remediation (i.e., land banking), where there is no immediately planned redevelopment.

(5) *Integration of Other Government Brownfields Programs.* HUD expects and encourages local governments which are designated through (a) the Federal Government's Brownfields Showcase Community program, (b) other Federal brownfields programs (e.g., EPA's Assessment Pilot, Tax Incentive, or Revolving Loan Fund programs), (c) a State-supported brownfields program, or (d) a State or local related economic development program, to integrate efforts arising from those programs in developing projects for assistance under HUD's BEDI and Section 108 programs. Applicants should elaborate upon these ties in their response to the rating factors, where appropriate (*e.g.*, "Capacity of the Applicant," "Soundness of Approach," "Leveraging Resources," or " Coordination, Self-Sufficiency and Sustainability"—Rating Factors 1, 3, 4, and 5 respectively.)

(6) *Additional Security for Section 108 Loan Guarantee.* Public entities should be mindful of the need to provide additional security for the Section 108 loan guarantee pursuant to 24 CFR 570.705(b)(3). Although a public entity is required by the Act to pledge its current and future CDBG funds as security for the Section 108 loan guarantee, the public entity will usually be required to furnish additional collateral. In most cases, the additional collateral consists (in whole or in part) of the asset financed with the Section 108 loan funds (e.g., a loan made to a business as part of an economic development project). Applications proposing uses for BEDI funding that directly enhance the value of the assets securing the Section 108 loan will help ensure that the project-based asset(s)

VOL
67
ISS
58
MR
26
2002
UMI

will satisfy the additional collateral requirements.

(7) *Uses of BEDI Funds.* Provided that proposals are consistent with other CDBG requirements, including meeting National Objectives and activity eligibility requirements under § 570.703 of the Section 108 Loan Guarantee regulations, the following are illustrative of ways in which BEDI funds can be used to support 108-guaranteed loans:

(a) *Land Writedowns.* Local governments may use a combination of Section 108 and BEDI funds to acquire a brownfield site for purposes of reconveying the site to a private developer at a discount from its purchase price. This approach would provide the developer with an asset of enhanced value that could be used as collateral for other sources of funding. Such other sources of financing could be used to finance environmental remediation or other development costs. In theory, the level of BEDI assistance could approximate the difference between the original cost of the site and its remediation in comparison to the market value of the remediated property.

(b) *Site Remediation Costs.* Local governments may use BEDI funds in any of several ways to address site remediation costs. If the local government proposes to use Section 108 funds to acquire real property, BEDI funds could be used to address assessment and site remediation costs as part of demolition, clearance, or site preparation activities. If the local government uses Section 108 funds to make a loan to a developer, BEDI funds could be granted or loaned to the developer for the purpose of addressing remediation costs as part of an economic development activity.

(c) *Funding Reserves.* The cash flow generated by an economic development project may be expected to be relatively "thin" in the early stages of the project, *i.e.*, potentially insufficient to meet operating expenses and debt service obligations. The BEDI grant can make it possible for reserves to be established in a way that enhances the economic feasibility of the project.

(d) *Over-Collateralizing the Section 108 Loan.* The use of BEDI grant funds may be structured in appropriate cases to improve the likelihood that project-generated cash flow will be sufficient to cover debt service on the Section 108 loan directly and therefore enhance the security of the guaranteed loan. One technique for accomplishing this approach is over-collateralization of the Section 108 loan.

The creation of a loan pool funded with both Section 108 and BEDI grant funds, for example, would provide loans to various businesses from the combined pool at an interest rate equal to or greater than the rate on the Section 108 loan. The total loan portfolio could then be pledged to the repayment of the Section 108 loan.

(e) *Direct Enhancement of the Security of the Section 108 Loan.* The BEDI grant can be used to cover the cost of providing credit enhancements for the Section 108 loan. For example, the BEDI grant can be used to cover the cost of a standby letter of credit, issued in favor of HUD. This letter of credit will be available to fund amounts due on the Section 108 loan if other sources fail to materialize, and thus will serve to protect the public entity's future CDBG funds.

(f) *Provision of Financing to For-Profit Businesses at a Below Market Interest Rate.*

While the rates on loans guaranteed under Section 108 are only slightly above the rates on comparable U.S. Treasury obligations, they may nonetheless be higher than can be afforded by businesses, non-profit groups or public entities in severely economically distressed neighborhoods. The BEDI grant can be used to make Section 108 financing affordable by serving to "buy down" the interest rate up front, or make full or partial interest payments. This might increase the financial viability of the businesses or other entities in the early start-up period, which might not otherwise be possible with Section 108 alone. This strategy would be particularly useful where a community was undertaking a large commercial or retail project in a brownfield area in order to act as a catalyst for other development in the area.

(g) *Combination of Techniques.* A combination of the above could be employed to implement a BEDI project successfully.

(B) *Eligible Applicants.* (1) Any public entity eligible to apply for Section 108 loan guarantee assistance in accordance with 24 CFR 570.702 may apply for BEDI grant assistance under Section 108(q). Eligible applicants are CDBG entitlement units of general local government and non-entitlement units of general local government eligible to receive loan guarantees under 24 CFR part 570, subpart M. Urban Counties, as defined at 24 CFR 570.3 and 570.307, are eligible applicants for BEDI funds; units of general local government that participate in an Urban County program are not independently eligible applicants. For non-entitlement applicants other than those subject to 24 CFR 570, subpart F, applicants will be required to provide evidence in the application from an authorized official of the State agency responsible for administering the State CDBG program stating that it will support the related Section 108 loan with a pledge of its CDBG funds pursuant to the requirements of 24 CFR 570.705(b)(2). Such evidence shall take the form of the HUD Certification titled "SECTION 108 LOAN GUARANTEES: State Certifications Related to Nonentitlement Public Entities" included in this program section to the SuperNOFA, or which may be obtained either by downloading from the Internet or in the BEDI Application Kit to be published shortly after publication of this SuperNOFA. Note that effective January 25, 1995, non-entitlement public entities in the State of Hawaii are authorized to apply to HUD for Section 108 loans (see 59 FR 47510, December 27, 1994). Thus non-entitlement public entities in all 50 states and Puerto Rico are eligible to participate in the Section 108 and BEDI programs.

(2) Applicants for BEDI projects must comply with the threshold requirements of Section II of the General Section of the SuperNOFA.

(C) *Eligible Activities and National Objectives.* (1) BEDI grant funds and Section 108 loan guarantee funds may be used for activities listed at 24 CFR 570.703, provided such activities are carried out as part of a BEDI project as described in this program section of the SuperNOFA. You are required to submit applications that seek funding for BEDI projects that will contribute to the redevelopment and revitalization of brownfields. Applications that fail to meet the threshold requirements found in Section II(B) of the General Section of the SuperNOFA and the program requirements of this section will not be rated, ranked, or otherwise considered by HUD.

(2) Each activity assisted with Section 108 loan guarantee or BEDI funds must meet a national objective of the CDBG program as described in 24 CFR 570.208. Applicants must clearly identify in their narrative statement (as described in Section V(B) of this program section below) the CDBG national objective to be achieved by the proposed project and provide the appropriate CDBG national objective regulatory citation found at 24 CFR 570.208. Applicants must also address, when applicable, how the proposed activities will comply with the public benefit standards of the CDBG program as reflected in the regulation at 24 CFR 570.209 for the Entitlement and Small

Cities programs, or 24 CFR 570.482 for the State CDBG program.

(3) A grantee's aggregate use of its CDBG funds, including any Section 108 loan guarantee proceeds and Section 108(q) (BEDI) funds provided pursuant to this program section of the SuperNOFA, must comply with the CDBG primary objective requirements as described in Section 101(c) of the Act and 24 CFR 570.200(a) (3) for entitlement grantees, or 570.484 in the case of a recipient under a State's program.

(4) Applicants are reminded of the Department's Policy Priorities for FY 2002 found in SectionVI of the General Section of the SuperNOFA, several of which apply to this program section, as described below, under Rating Factors 3 and 5 in Section V of this program section.

IV. Program Requirements

(A) *CDBG Program Regulations.* In addition to 24 CFR 570.701 (Definitions), § 570.702 (Eligible applicants), and § 570.703 (Eligible activities), as explained in Section III (C) of this program section of the SuperNOFA, the CDBG regulatory requirements cited in 24 CFR 570.707, including subparts J (Grant Administration), K (Other Program Requirements), and O (Performance Reviews) govern the use of BEDI funds, as applicable.

(B) *Compliance with Applicable Laws.* Applicants are advised that an award of BEDI funding does not in any way relieve the applicant or third party users of BEDI funds from compliance with all applicable Federal, State and local laws, particularly those addressing the environment. Applicants are further advised that HUD may require evidence that any project involving remediation has been or will be carried out in accordance with applicable law, including voluntary clean up programs.

(C) *Related Section 108 Loan Guarantee Request.* (1) Each BEDI application must be accompanied by a request for new Section 108 loan guarantee assistance. The request may take any of the four forms as defined below. Notwithstanding the form of your request for new Section 108 loan guarantee assistance under paragraphs (a), (b), (c), or (d) below of this Section IV(C), you must include citations to the specific regulatory subsection supporting activity eligibility and National Objectives compliance for the Section 108 funds described in your application. (See Section III(C) of this program section of the SuperNOFA.) Both the BEDI and Section 108 funds must be used in conjunction with the same BEDI project.

(a) A full application for new Section 108 loan guarantee(s), including the documents listed at 24 CFR 570.704(b).

(b) A brief description (not to exceed three pages) of the project to be applied for in a subsequent new Section 108 loan guarantee application(s). Such a 108 application(s) will be submitted within 60 days of written notice of BEDI selection. BEDI awards will be conditioned on approval of actual Section 108 loan commitments in a specific ratio of BEDI funds to Section 108 funds as approved by HUD in the BEDI award. The application description must be sufficient to support the basic eligibility of the proposed project and activities for Section 108 assistance. (See Section III(C) of this program section of the SuperNOFA.)

(c) A copy of a pending, unapproved Section 108 loan guarantee application, and any proposed amendments to the Section 108 application which are related to the BEDI application. The applicant's submission of such a BEDI/Section 108 application shall be deemed by HUD to constitute a request to suspend separate processing of the Section 108 application. The Section 108 application will not be approved until on or after the date of the related BEDI award.

(d) A request for Section 108 loan guarantee assistance (analogous to Section IV(C)(1)(a) or (b) of this BEDI section of the SuperNOFA) that proposes to increase the amount of a previously approved application. However, any amount of Section 108 loan guarantee authority approved before HUD's announcement of a BEDI grant for the same project is not eligible to be used in conjunction with a BEDI grant under this program section.

(2) Further, a Section 108 loan guarantee amount that is required to be used in conjunction with a prior EDI or BEDI grant award, whether or not the Section 108 loan guarantee has been approved as of the date of this SuperNOFA, is not eligible for a BEDI award under this SuperNOFA. For example, if a public entity has a previously approved Section 108 loan guarantee commitment of $12 million, even if none of the funds have been utilized, or if the public entity had previously been awarded a BEDI grant of $1 million and had agreed to submit a Section 108 loan application for $10 million in support of that BEDI grant, the public entity's application under this program section of this SuperNOFA must propose to increase the amount of its total Section 108 loan guarantee commitments beyond those amounts (the $12 million or $10 million in this example) to which it has previously agreed.

(D) *Prohibitions on Use of BEDI and Section 108 Funds.* Certain restrictions shall apply to the use of BEDI and Section 108 funds:

(1) BEDI grant funds must not be used as a resource to immediately repay the principal of a loan guaranteed under Section 108. Repayment of principal is only permissible with BEDI grant funds as a matter of security if other sources projected for repayment of principal prove to be unavailable.

(2) Section 108 loan obligations may not be subordinated, directly or indirectly, to federally tax exempt obligations. Pursuant to Office of Management and Budget (OMB) Circular A–129 (Rev.) Appendix A, Sections II. 2.c. and d., (Policies for Federal Credit Programs and Non-Tax Receivables), Section 108 guaranteed loan funds may not directly or indirectly support federally tax-exempt obligations.

(3) BEDI grant funds shall not be used in any manner by grantees to provide public or private sector entities with funding to remediate conditions caused by their own actions, where the public entity (or other known prospective beneficiary of the proposed BEDI grant) has been determined responsible for causation and remediation by order of a court or a Federal, State, or local regulatory agency, or is responsible for the remediation as part of a settlement approved by such a court or agency.

(4) Applicants may not propose projects on sites which are listed or proposed to be listed on EPA's National Priority List (NPL). Further, applicants are cautioned against proposing projects on sites where the nature and degree of environmental contamination is not well quantified or which are the subject of on-going litigation or environmental enforcement action.

(5) Your attention is called to Section I (D) of the General Section of the SuperNOFA, which notes that the FY 2001 HUD Appropriations Act prohibits the use of funds appropriated under such Act from being used to benefit a facility whose predominant use is the sale of tobacco. See that section for more details.

(6) In addition, BEDI grant assistance cannot be used to leverage a Section 108 loan guarantee approved prior to the date of HUD's announcement of a BEDI grant pursuant to this SuperNOFA. However, the BEDI grant may be awarded before HUD approval of the Section 108 commitment if HUD

VOL
67
ISS
58
MR
26
2002
UMI

determines that such award will further the purposes of the Act.

(7) A BEDI award will not be made if the Section 108 request contained in the application (See Section IV(C) of this program section) calls for the use of the Section 108-guaranteed obligation solely as security for other financing on the project.

(A) *Time-frames.* BEDI grant awards will contain conditions requiring grantees to adhere to time-frames mutually agreed on by the applicant/grantee and HUD for implementing proposed projects and drawing Section 108 and BEDI funds. However, as a condition of any award under this program section, if the related Section 108 application has not been submitted and approved and the Note guaranteed within fifteen (15) months of written HUD notification of grant award, HUD may deobligate the BEDI funds. In addition, if a grantee should fall fifty percent (50%) or more behind both the stated activity and draw-down schedules provided for in the BEDI grant agreement within the first eighteen (18) months of the grant period, and for each quarter thereafter, HUD may recapture the balance of the grant funds (unless HUD has authorized an amendment to the stated schedules in writing, in which case the aforementioned 50% calculation would apply to the amended and approved schedules). If BEDI grant funds and Section 108 loan proceeds are not disbursed to the applicant within the timeframes specified in the BEDI Grant Agreement, HUD reserves the right to recapture the BEDI funds.

(F) *Limitations on Grant Amounts.* (1) HUD expects to approve BEDI grant amounts for approvable applications with a range of ratios of BEDI grant funds awarded to new Section 108 loan guarantee commitments but the minimum ratio will be $1.00 of Section 108 loan guarantee commitments for every $1.00 of BEDI grant funds. However, if you propose a leverage ratio of exactly 1:1, your application, while still meeting the threshold requirement, will not receive any points under the Rating Factor 4, paragraph (1): "Leverage of Section 108 Funds."

To receive points under this Factor, applications will have to exceed the 1:1 minimum ratio, and the higher the ratio, the more points will be awarded. Because the proposed ratio of BEDI funds to Section 108 funds represents an applicant's financial commitment, HUD will condition the BEDI grant award on the grantee's achievement of that specific ratio. Its failure to meet that condition by obtaining timely HUD approval of a commitment for, and issuance of, the required Section 108 guaranteed obligations ratio will result in the cancellation and recapture of all or a proportionate share of the BEDI grant award.

(2) HUD will cap BEDI awards at a maximum of $2 million per project. An application in excess of $2 million will be reduced to the extent HUD determines that such a reduction is appropriate.

(3) After selection, but prior to grant award, if HUD determines that an application can be funded at a lesser BEDI grant amount than requested and still be feasible and consistent with the proposed plan and the purposes of the Act, it reserves the right to reduce the amount of the BEDI award and/or increase the required Section 108 loan guarantee commitment.

(4) In the event you are awarded a BEDI grant that has been reduced below the original request (e.g., your application contained some activities that were ineligible, exceeded the $2 million cap, or there were insufficient funds to fund the last competitive application at the full amount requested), you will be required to modify your project plans and application to conform the terms of HUD approval before HUD will execute a grant agreement.

(5) HUD also will proportionately reduce or deobligate the BEDI award if you do not submit an approvable Section 108 loan guarantee application and issue Section 108-guaranteed obligations on a timely basis (including any extension authorized by HUD) in the amount required by the BEDI/108 leveraging ratio, which will be approved by HUD as a special condition of the BEDI grant award (*see* Section IV(E)(1) above of this program section of the SuperNOFA).

(6) Any modifications or amendments to your application approved pursuant to this SuperNOFA, whether requested by you or by HUD, must be within the scope of the approved original BEDI application in all respects material to rating the application, unless HUD determines that your revised application remains within the competitive range and is otherwise approvable under this SuperNOFA competition.

(7) In the case of a requested increase in guarantee assistance for a project with a previously approved Section 108 loan guarantee commitment (as further discussed in Section IV(C)(1)(d), above), the BEDI assistance approved will be based on the increased amount of Section 108 loan guarantee assistance.

(G) *Timing of Grant Awards and Disbursements.* (1) To the extent you submit a full and complete Section 108 application with the BEDI grant application, HUD will evaluate your Section 108 application immediately following the competition for BEDI grant funds. Note that the 108 application must be submitted to the appropriate HUD field office concurrently with submission to Headquarters.

(2) HUD's notice to you of the amount and conditions of BEDI funds awarded, based upon review of the BEDI application, constitutes an obligation of grant funds, subject to compliance with the conditions of award and execution of a grant agreement. However, BEDI funds must not be disbursed to the grantee before the issuance of the related Section 108 guaranteed obligations.

(3) Pursuant to the FY 2002 HUD Appropriations Act (Pub. L. 107–73, under the "Brownfields Redevelopment" heading) and 31 U.S.C. 1552(a), FY 2002 BEDI funds must be obligated (i.e., awarded) by HUD by September 30, 2003, and must be disbursed by HUD to the grantee by September 30, 2008. FY 2000 EDI funds must be obligated by September 30, 2002, and must be disbursed by HUD to the grantee by September 30, 2007. FY 2001 BEDI funds are not subject to statutory obligation or disbursement deadlines. In all cases, however, HUD reserves the right to require earlier disbursement under a BEDI grant agreement.

(H) *Economic Opportunities for Low and Very Low-Income Persons, including Those with Disabilities.* Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) is applicable to BEDI grant recipients. Please see Section II(E) of the General Section of the SuperNOFA.

(I) *Nondiscrimination.* In addition to the other requirements found in Section II of the General Section of this SuperNOFA, Section 109 of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 5309), is applicable to BEDI grant recipients. Applicants must therefore adhere to HUD regulations at 24 CFR parts 6 and 570, including, but not limited to, reporting and record-keeping requirements under 24 CFR 570.506 and 570.507, and must have resolved to HUD's satisfaction any letter of noncompliance findings under Section 109 before the deadline for BEDI application submission.

(J) *Obligation to affirmatively further fair housing.* Grantees that use BEDI funds in projects that involve the construction, rehabilitation, or other provision of residential housing are obliged to affirmatively further fair housing. Therefore, applicants that propose to use BEDI funds in projects that involve residential housing must include in their applications an explanation of how they propose to further fair housing opportunities for persons on the basis of race, color, national origin, sex, religion, familial status, or disability. Applicants should respond to this requirement under Rating Factor 3, subfactor (1). Affirmative activities include, but are not limited to, initial and periodic assessments of the extent to which affordable and accessible housing opportunities are provided or denied to persons by race, color, national origin, sex, religion, familial status, or disability; outreach to persons in underserved population groups or advocacy organizations representing such persons; and affirmatively fair marketing. Applicants that do not propose to use BEDI funds in projects that involve residential housing should include a statement to this effect in their applications.

(K) *Core Values—your attention is called to Section II(B)(2) of the General Section of the SuperNOFA.*

(L) *Small Businesses—another of HUD's goals, to increase the participation of small and disadvantaged, including women-owned, businesses, if possible, is described more particularly in Section II(F) of the General Section of the SuperNOFA.*

V. The Application Selection Process

(A) Rating and Ranking.

(1) Each rating factor and the maximum number of points are provided below. The maximum number of points to be awarded is 106. To be eligible for funding, a BEDI application must obtain a total score of at least 70 points, of which a minimum of 40 points (out of a maximum possible score of 60 points) must be achieved in Rating Factors 1 (Capacity) and 3 (Soundness of Approach) combined.

(2) All applications meeting BEDI program and threshold requirements will be rated under the selection criteria below. *Applications must include citations to the specific regulatory subsections supporting eligibility of activities and compliance with National Objectives.* (See Section III(C) of this program section of this SuperNOFA). The applicant must also provide narrative statements in response to each of the rating factors below.

Applications will be selected for funding as follows:

(3) All BEDI grant applications that meet threshold requirements will be ranked separately in order of points assigned with the applications receiving more points ranked above those receiving fewer points.

(4) In the event two or more applications are given the same score, but there are insufficient funds to fund all of the tied applications, the application(s) with the highest score(s) on Rating Factor 3 (Soundness of Approach) shall be selected. If there is still a tie, the following Factors will be considered sequentially, with the application having the high score on that Factor taking precedence until the tie is broken: Rating Factor 1 (Capacity and Experience), Rating Factor 2 (Distress/Extent of the Problem), Rating Factor 4 (Leveraging Resources), and Rating Factor 5 (Coordination, Self-Sufficiency and Sustainability).

(5) Fundable BEDI project applications must meet the threshold requirements stipulated in Section II(B) of the General Section of this SuperNOFA and be complete as required by the submission requirements of this program section of the SuperNOFA or they will not be ranked. Economic development projects will be funded in rank order until the total aggregate amount of the applications funded is equal to the maximum amount available in the competition (subject to the limitations described in Section IV(F) above).

(B) BEDI Narrative Statement

(1) Applications must contain narrative statements printed in 12 point type, with sequentially numbered pages for the entire application, including forms and exhibits. The BEDI narrative statement must not exceed three (3) 8.5" by 11" pages, doubled-spaced. The BEDI narrative statement should:

(a) Describe the activities that will be carried out with the BEDI grant funds, and explain the nature and extent of the brownfield problem(s) affecting the the site and/or structure(s) already on the site; and

(b) Describe how the proposed uses of BEDI funds will meet the National Objectives under 24 CFR 570.208 of the CDBG program and qualify as eligible activities under 24 CFR 570.703. *Applications must include citations to the specific regulatory subsections supporting eligibility of activities and compliance with National Objectives.* (See Section III(C) of this program section of this SuperNOFA).

(2) The applicant must also provide in narrative form responses to each of the rating factors below.

(C) *Factors for Award Used to Evaluate and Rate Applications.* HUD will evaluate all applications for funding assistance based on the following factors, the responses to which demonstrate the quality of the proposed project or activities, and the applicant's capacity and commitment to use the BEDI funds in accordance with the purposes of the Act.

(D) Responses to Rating Factors 1–5 below shall not exceed fifteen (15) double-spaced pages combined.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (25 Points Maximum)

This factor addresses the extent to which you have the organizational resources necessary to successfully implement the proposed activities in a timely manner. The rating of the "applicant" or the "applicant's organization and staff" will include any subcontractors, consultants, and sub-recipients that are firmly committed (see definition in Section III(A)(1) above) to participate in the activities described in the application. In rating this factor, HUD will consider the following:

(1) (up to 15 points) The applicant should demonstrate that it has the organization, the staff and financial resources in place to implement the specific steps required to successfully carry out its proposed BEDI/Section 108 project. Evidence of this capacity includes:

(a) Performance in the administration of its CDBG, HOME or other HUD programs;

(b) Performance, if any, in carrying out economic development projects similar to that proposed, including brownfields economic development or redevelopment projects, if any, and the ability to conduct prudent underwriting, if applicable;

(c) Ability to carry out projects and programs in a timely manner. An applicant must address its performance in spending previously awarded funds, if any, in a timely manner, including, for CDBG entitlement recipients, the extent to which it has met the HUD standard of having no more than 1.5 times its entitlement amount undisbursed (see 24 CFR 570.902(a)(1)(i)); and,

(d) If applicable, capacity to manage projects and funds awarded as a result of a federal Empowerment Zone/Enterprise Community designation (including Enhanced Enterprise Community (EEC) designation).

(e) An applicant that has previously received an EDI or BEDI grant award must describe the status of the implementation of those project(s) assisted with EDI or BEDI funds, any delays that have been encountered and the actions it is taking to overcome any

VOL
67
ISS
58
MR
26
2002
UMI

such delays in carrying out the project(s) in a timely manner. For such previously funded EDI or BEDI grant projects, HUD will award more rating points for applications providing evidence of achievement of specific measurable outcomes in carrying out approved activities funded with such grant funds and the associated Section 108-guaranteed loan funds.

If any of the rating criteria listed under (a) through (e) above do not apply to an application, the rating for this subfactor (1) shall be based solely upon the other applicable criteria.

(2) (up to 10 points) Experience and performance of subrecipients, nonprofit organizations and other entities, if any, that have a role in implementing the proposed BEDI/108 program should be included in the response to this subfactor (2). If there are no third parties participating with the applicant in the proposed project, points under this subfactor (2) will be allocated under subfactor (1) and added to the maximum points possible under it.

Experience will be judged in terms of recent (i.e., within the past 3 years) and successful performance of activities relevant to those proposed in the BEDI application. The more recent and extensive the experience, the greater the number of points that will be awarded for this Factor.

In responding to sections (1) and (2) above of this Factor, applications that merely summarize the amount of funds received/spent/under management will receive fewer points than those providing specific measurable information on accomplishments.

In addition to the application, HUD also may rely on information at hand or available from public sources such as newspapers, from performance and/or monitoring reports, Inspector General or Government Accounting Office reports or findings, hotline complaints that have been proven to have merit, audit reports and other available information in rating this Factor.

Rating Factor 2: Distress/Extent of the Problem (20 Points Maximum)

This Factor addresses the extent to which there is need for funding the proposed activities based on levels of distress in both the jurisdiction of the public entity that is the applicant *and* the geographic area that will benefit from the project. In responding to this Factor, applications will be evaluated on the extent to which the level of distress is documented and compared with national data.

(1) In applying this Factor, HUD will consider current levels of distress defined in standard geographic terms in the area (*i.e.*, Census Tract(s) or Block Groups immediately surrounding the project site up to a radius of one-half mile), or it may be the target area proposed to be served by the project, along with the jurisdiction in which the project is to be located. The applicant should describe the nature of the distress that the project is designed to address and the rationale for its definition of the area to be benefited. Examples of project beneficiaries include: (a) those receiving or using products or services produced by the project, and (b) those employed by the project.

To the extent that the applicant's Consolidated Plan, its Analysis of Impediments to Fair Housing choice (AI), and/or its Anti-Poverty Strategy found therein identify the level of distress in the jurisdiction and the neighborhood in which the project is to be carried out, references to such documents should be included in preparing the response to this Factor.

Notwithstanding the above, an applicant proposing a project to be located outside the area for which benefit is claimed could still receive points under this Factor if a clear rationale is provided linking the proposed project location and the benefits to be derived by persons living in the target area.

(2) Applicants should provide data that address the following specific indicators of distress:

(a) Poverty rate (up to 8 points)—data should be provided in both absolute and percentage form (i.e., whole numbers and percents) for both the target area and the applicant's jurisdiction as a whole; an application that compares the local poverty rate in the following manner to the national average at the time of submission will receive points under this section as follows:

(i) Equal to or greater than, but less than twice, the national average: 2 points;

(ii) Equal to or greater than twice, but less than three times, the national average: 5 points;

(iii) Equal to or greater than three times the national average: 8 points.

(b) Unemployment (up to 8 points)—an application that compares the local unemployment rate for the applicant's jurisdiction and the target area in the following manner to the national average at the time of submission will receive points under this Section as follows:

(i) Equal to or greater than, but less than twice, the national average: 2 points;

(ii) Equal to or greater than twice, but less than three times, the national average: 4 points;

(iii) Equal to or greater than three times, but less than four times, the national average: 6 points;

(iv) Equal to or greater than four times the national average: 8 points.

(c) Other Indicators of social and/or economic decline that best capture the applicant's local situation (up to 4 points)—examples that could be provided under this section include information demonstrating the target area and the jurisdiction's stagnant or falling tax base, including recent (within the last three years) commercial or industrial closings, downturns or layoffs; housing conditions, such as the number and percentage of substandard and/or overcrowded units; rent burden (defined as average housing cost divided by average income) for both the target area and jurisdiction; local crime statistics.

HUD requires use of sound and reliable data (*e.g.*, U.S. Census data, State statistical reports, university studies/reports that are verifiable) to support distress levels cited in each application. A source for all information along with the publication or origination date must also be provided. Updated Census data are available as follows for the listed indicators:

Unemployment rate—estimated monthly for counties, with a two-month lag;

Poverty rate—estimated every two years, with a three-year lag, with 2000 being the most recent available.

In rating applications under this Factor, HUD reserves the right to consider sources of available objective data other than, or in addition to, those provided by applicants, in order to compare such data to those provided by applicants.

Rating Factor 3: Soundness of Approach (35 Points Maximum)

This factor addresses the quality and cost-effectiveness of the proposed plan. The relationship between the proposed eligible activities, community needs and purposes of the program funding must be clearly described, as follows, in order to receive points for this Factor. In rating this Factor, HUD will consider the following:

(1) Consistency/appropriateness of proposed activities with identified needs. (Up to 8 points)—The extent to which the proposed plan for use of BEDI grant/Section 108-guaranteed loan funds will address the needs described in Rating Factor 2 above regarding the distress and extent of the problem in the target area or area to be benefited. The applicant should provide a clear and quantified explanation of this relationship. As part of the response to this Factor, an applicant should also identify the specific eligible activities it will carry out, and should fully describe:

(a) How the project will achieve one of the National Objectives under the Community Development Block Grant program, and

(b) How the project will address the applicant's Consolidated Plan and its Analysis of Impediments, if any, including the following issues:

(i) Affordable housing—the extent to which the applicant will offer current residents of the proposed site or area that will benefit from the proposal an opportunity to relocate to environmentally healthy housing or neighborhoods which have more amenities and services, better employment and educational opportunities, and to housing that provides the accessibility and visitability features that families require, or to remain in the revitalized neighborhood, if applicable; and

(ii) The extent to which it will be used to accommodate people with disabilities.

(2) Feasibility and Demonstrable Benefits. (Up to 15 points)—The extent to which the plan is logical, feasible and likely to achieve its stated purpose. HUD's desire is to fund projects and activities that will quickly produce demonstrable results and advance the purposes of the BEDI program. Points for this subfactor will be awarded in two parts, for the following:

(a) Understanding of Steps to Implement. (Up to 8 points)—The extent to which the plan demonstrates a clear understanding of the steps required to implement the project, including the actions that all parties responsible for implementing the project must complete.

(i) Pre-construction—the extent to which your response to this Factor takes into account site selection, planning, and environmental issues typical of many brownfields remediation efforts will be considered under this subfactor. You are cautioned, for example, against proposing projects on sites where the nature and degree of environmental contamination is not well-quantified or that are the subject of on-going litigation or environmental enforcement. Moreover, sites with unknown or exceptionally expensive contamination problems may be beyond the scope of the BEDI program's financial resources, and sites subject to pending and current litigation may not be available for remediation and development or redevelopment in a time-frame consistent with HUD's desire for rapid progress in the use of BEDI and Section 108 funds.

(ii) Description of problem and solution—the applicant should explain each undertaking and the sequence of undertakings that are required to complete the project. This includes a full description of both the problem (including, but not limited to, the extent of environmental contamination) and the benefits that will accrue from the project, i.e., permanent jobs, amount of commercial or industrial space, housing units to be provided, and the timing of the delivery of benefits. For multi-phase projects, the response to this Factor must clearly delineate the different phases, whether or not they are to be funded by BEDI/Section 108 funds, as well as a proposed schedule for drawing down all funds necessary to complete the project, including BEDI and Section 108 funds.

(iii) Monitoring performance—the extent to which applications describe means of assessing progress, tracking performance goals and achievements against Plan objectives.

(b) Timeliness (Up to 7 points)—The extent to which the plan demonstrates that the project is "ready to go", *i.e.*, will produce demonstrable benefits within a short period of time.

(i) Applications providing evidence that authority necessary to proceed with the project activities identified in subfactor (a) above, such as any necessary zoning classification, waivers, general and special use permits, assessment district designation, public easements and rights-of way, memoranda of understanding, site control, etc., have been sought and/or received will receive up to three (3) points for this subfactor (i).

(ii) The applicant should provide a specific time schedule (with both beginning and end dates) for carrying out the project and identify measurable objectives (acquisition, site improvements, construction, etc.) to be accomplished. (Up to 2 points)

A timeline form is provided in Appendix A to this program section of the NOFA and also in the Application Kit for this purpose, but HUD will consider the timeline only as an illustration of the narrative response to this subfactor (2).

(iii) BEDI applications accompanied by a full and complete Section 108 application will receive up to two (2) points for this subfactor (iii).

(3) Financial Feasibility/Need (up to 10 Points)—The extent to which the applicant demonstrates that its project is financially feasible based on its proposed use of BEDI and Section 108 funds. In responding to this subfactor (3), the applicant must clearly address the question of why the BEDI funds are critical to the success of this project by providing the following items, as applicable:

(a) Project costs and financial requirements—a funding sources and uses statement, as well as the derivation of project costs;

(b) How the BEDI and Section 108 funds will be used;

(c) The applicant's criteria for determining funding need and feasibility;

(4) Other (Up to 2 Points)—

(a) The extent to which the project demonstrates energy-efficient solutions to the problems addressed in Rating Factor 2 above, in the construction and/or the operation phases once the overall project is completed. Examples of such conservation and/or other efficiencies include the following: combining heat and power systems as part of electrical generation; adopting Department of Energy weatherization guidelines for property rehabilitation; and purchasing Environmental Protection Agency-identified Energy Star appliances. (Up to 1 point)

(b) Applications providing evidence of partnership, funding and/or subcontracting agreements with grassroots organizations, as defined in Section II(F)(2) of the General Section of the SuperNOFA, will receive up to one (1) point under this subfactor (b).

Rating Factor 4: Leveraging Resources (15 Points Maximum)

In evaluating this factor, HUD will consider the extent to which the response demonstrates the likelihood that the project will leverage both Section 108 loan and other public or private funds as part of the total project resources. This factor has two subfactors, each with its own maximum point total:

(1) *Leverage of Section 108 funds.* (Up to 8 points)—

The minimum ratio of Section 108 funds to BEDI funds in any project may not be less than 1:1. The extent to which the proposed project leverages an amount of Section 108 funds greater than a 1:1 ratio will result in that application's receiving a higher number of points. If the application has a ratio of 1:1, it will not receive any points under this subfactor. The higher the ratio of additional new Section 108 funds to BEDI funds proposed in an application, the more points it will receive under this subfactor. (*See* Section IV(F)(1) and (5) of this program section of the SuperNOFA regarding the

VOL 67 ISS 58 MR 26 2002 UMI

conditioning of BEDI awards on achievement of a specific BEDI/Section 108 leveraging ratio.)

(2) *Leverage of Other Financial Resources.* (Up to 7 points)—

HUD will evaluate the extent to which other funds (public or private) are leveraged by BEDI grant funds, and the extent to which such other funds are firmly committed to the project. This could include the use of CDBG funds, other federal or state grants or loans, local general funds, project equity or commercial financing provided by private sources or funds from non-profits or other sources. Funds will be considered committed to the project if they meet the definition of "Firm Commitment" found in Section III(A)(1) above, and may be subject to completion of any environmental review required under 24 CFR part 58 for the project.

Rating Factor 5: Coordination, Self-Sufficiency & Sustainability (5 Points Maximum)

This factor addresses the extent to which the applicant has coordinated its activities with other organizations not directly participating in the proposed project, but which share common community development goals; the extent to which it participates or promotes participation in its or the State's Consolidated Planning process; and that it is working towards addressing a need described in Rating Factor 2 above in a comprehensive manner through linkages with other activities in the community.

(1) Coordination—in evaluating this factor, HUD will consider the extent to which the applicant demonstrates it has coordinated its proposed activities with those of other groups or organizations, including other federal, state or local governmental activities in the area, if any, before submission, in order to best complement, support and coordinate all activities; and developed specific steps to share information on solutions and outcomes with others. Any written agreements or memoranda of understanding in place, or that will be in place after award, should be described in the application.

(2) Developed linkages—applications should describe linkages with other HUD-funded projects/activities outside the scope of those covered by the Consolidated Plan, as well as established linkages and outreach with residents of the project area, i.e., specific steps to develop linkages with other activities, programs or projects (through meetings, information networks, planning processes or other mechanisms to coordinate activities), so that solutions are holistic and comprehensive.

(3) Self-sufficiency—applications should describe the extent to which project activities will result in long term physical and economic improvement for the current residents of the target area or neighborhood in which the project will be carried out, and which will allow them to continue to live in a redeveloped or revitalized neighborhood and thus share in the anticipated economic benefits the project is expected to generate.

(4) Sustainability—the extent to which the project incorporates one or more elements that facilitate a successful transition of welfare recipients to work, including the number of jobs that are part of career path or apprenticeship programs to be created by the project and the impact of the project on job creation that will benefit individuals on welfare or low-to very low-income persons. Such an element could include, for example, linking the proposed project or loan fund to social and/or other services needed to enable welfare recipients to successfully secure and carry out full-time jobs in the private sector; provision of job training to welfare recipients who might be hired by businesses financed through the proposal; and/or incentives for businesses financed with BEDI/Section 108 funds to hire and train welfare recipients, including those with disabilities.

Bonus Points

An application may receive up to six (6) bonus points, until the maximum of six points are achieved. Two bonus points may be awarded for each of the following:

(a) Projects that are located either in federally-designated Empowerment Zones, Enterprise or Renewal Communities, or Strategic Planning Communities (See Section III(C)(2) of the General Section of the SuperNOFA) for advice on locating a list of designated communities);

(b) Projects that are located in Brownfields Showcase Communities designated by EPA (See Section III(C)(2) of the General Section of the SuperNOFA) for advice on locating a list of Showcase communities.)

(c) Qualifying projects in the City of Dallas, Texas, as mandated by a decision by the U.S. District Court for the Northern District of Texas, Dallas Division. Up to two (2) additional points will be awarded to an application that describes how the use of BEDI and Section 108 loan funds will be used to help eradicate the vestiges of racial segregation in the Dallas Housing Authority's programs consistent with the Court's order. For specific details, please see Section III(C)(3) in the General Section of the SuperNOFA.

VI. Application Submission Requirements

(A) *BEDI Funding.* An application for a BEDI grant under this program section of the SuperNOFA must have the following items to be complete. The standard forms, certifications and assurances that are required for the BEDI application (and listed in paragraph (I) below) can be found in Appendix B to the General Section. The remaining application items that are forms (i.e., excluding such items as narratives or letters, etc.), referred to as the "non-standard forms", can be found in Appendix A to this program section of the SuperNOFA.

(B) *Transmittal Letter* signed by the authorized representative of the eligible applicant indicating that it is submitting the application for funding under the Brownfields Economic Development Initiative Program and is requesting funding consideration for a BEDI project.

(C) *Checklist and Submission Table of Contents* indicating the page numbers where the submission items can be found in the application (form HUD–40076–EDI/BEDI).

(D) *BEDI Narrative Statement* (not to exceed 3 pages) describing BEDI-funded eligible activities within the proposed project. (See Section V(B) of this program section.)

(E) *EDI/BEDI/Section 108 Funding Eligibility Statement.* A completed EDI/BEDI Section 108 Funding Eligibility Statement (form HUD–40076–EDI/BEDI).

(F) *Request for Loan Guarantee Assistance.* A request for loan guarantee assistance under Section 108, as further described in Section IV(C) of this program section of the SuperNOFA. Full application guidelines for the Section 108 program are found at 24 CFR 570.704.

(G) *Narrative Responses to Factors for Award (not to exceed 15 pages overall):*

(1) Rating Factor 1: Capacity and Relevant Organizational Experience. Provide a narrative indicating the capacity of your organization and staff to perform the work for which it is requesting funding.

(2) Rating Factor 2: Need Statement Identifying the level of Distress/Extent of the Problem. Provide a narrative statement including any documentation supporting the statement of need. Optional form HUD–40076-EDI/BEDI may also be used as a format to respond to this Factor for Award.

(3) Rating Factor 3: Soundness of Approach. Include the activities, budget and time frame for conducting activities in the response (see form HUD 40076–EDI/BEDI).

(4) Rating Factor 4: Leveraging Resources. The response should include a completed copy of form HUD–40076–EDI/BEDI, "Rating Factor 4: Leveraging Resources—Sources and Uses Statement."

(5) Rating Factor 5: Coordination, Self-sufficiency and Sustainability: Provide a narrative response to this factor.

(H) *Request for Funds.* A single application must contain a request for funds for a single BEDI/108 project. An applicant may submit more than one application for each additional unrelated BEDI/108 project, but in no event will HUD rate and rank more than one BEDI project per application.

(I) *Additional Application Forms and Certifications.* In addition to any forms that have been submitted in response to Section VI (A)—(H) above (which may be found at Appendix A), the following forms and certifications must also be submitted in accordance with Section II(H) of the General Section of this SuperNOFA:

(1) Application for Federal Assistance (Standard Form (SF–424);

(2) Federal Assistance Funding Matrix (HUD 424–M);

(3) Standard Form for Assurances—Non-Construction Programs (SF 424–B) and/or Standard Form for Assurances—Construction Programs (SF 424–D): not required for BEDI applications since the "Leveraging Resources—Sources and Uses Statement" serves the same purpose as a budget form, but must be submitted with the Section 108 application. Since these forms contain assurances of compliance with civil rights and other regulatory requirements, BEDI applicants may elect to provide the signed assurances either with the BEDI or the Section 108 application.

(4) Drug-Free Workplace Certification, HUD–50070.

(5) Certification of Payments to Influence Federal Transactions, HUD–50071, (and if applicant and/or participating parties are engaged in lobbying, the Disclosure Form Regarding Lobbying, SF–LLL);

(6) Applicant/Recipient Disclosure/Update Report, HUD–2880;

(7) Certification Regarding Debarment and Suspension, HUD–2992;

(8) Certification of Consistency With EZ/EC Strategic Plan, HUD–2990;

These forms are found in the Appendix B to the General Section of this SuperNOFA. The non-standard forms for the BEDI applications are in Appendix A to this program section.

If an applicant wishes to receive an acknowledgment of HUD's receipt of its application, it should submit a completed Acknowledgment of Receipt of Application form.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

(A) *Environmental Review.* After the completion of this competition and after HUD's award of BEDI grant funds, pursuant to 24 CFR 570.604, each project or activity assisted under this program is subject to the provisions of 24 CFR part 58, including limitations on the BEDI grantee and Section 108 public entity's commitment of HUD and non-HUD funds prior to the completion of environmental review, notification and release of funds. No such assistance will be released by HUD until a request for release of funds is submitted and the requirements of 24 CFR part 58 have been met. All public entities, including non-entitlement public entities, shall submit the request for release of funds and related certification, required pursuant to 24 CFR part 58, to the appropriate HUD field office for each project to be assisted.

(B) *Environmental Justice.* (1) Executive Order 12898 (Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations) directs Federal agencies to develop strategies to address environmental justice. Environmental justice seeks to rectify the disproportionately high burden of environmental pollution that is often borne by low-income, minority, and other disadvantaged communities, and to ensure community involvement in policies and programs addressing this issue.

(2) Brownfields are often located in distressed neighborhoods, contribute to neighborhood blight, and lower the quality of social, economic, and environmental health of communities. The BEDI program is intended to promote the clean up and redevelopment of brownfields sites and HUD expects that projects presented for BEDI funding will integrate environmental justice concerns and provide demonstrable benefits for affected communities and their current residents for the long term.

IX. Authority

Section 108(q), Title I, Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301); 24 CFR part 570.

RATING FACTOR 2: DISTRESS/EXTENT OF PROBLEM
(optional form)

Applicant: _____

Project Name/Title: _____

Instructions: The applicant is required to provide information related to the poverty rate for the Target Neighborhood (the area in which EDI/BEDI assistance will be used) and the larger jurisdiction. In addition, the applicant may include optional indicators such as the unemployment rate, median income of persons living in the area, or other indicators of the applicant's choosing. A data source and date are required for each indicator. Use of data from the applicant's Consolidated Plan and/or its Analysis of Impediments to Fair Housing Choice (AI) is encouraged.

	Distress Indicators	Target Neighborhood	Jurisdiction	Data Source & Date
1	Poverty Rate			
2	Unemployment			
3	Median Income			
4				
5				
6				
7				
8				

Definitions: Describe how the areas are defined (i.e., city boundaries, census tracts, zip codes, etc.)

Neighborhood: _____

_____

Jurisdiction: _____

RATING FACTOR 3: SOUNDNESS OF APPROACH
PROJECT TIMELINE

Applicant: _____

Project Name/Title: _____

Instructions: Identify and list each major task/activity associated with the project. Darken appropriate boxes for quarter(s) when task/activity will occur. Fill in the amount of EDI/BEDI/108 funds associated with each task/activity in column labeled EDI/BEDI/108 Funds for Task." Fill in the amount of other sources of funding associated with each task in the column labeled "Other Funds." If the project extends beyond the timeframe indicated on the form, please attach justification/description of proje of pr oject term. Use as many as you need to show beginning -- end timeframes for all phases.

EDI/BEDI/SECTION 108/CDBG FUNDING ELIGIBILITY STATEMENT
Page 1 of 2

Applicant: _____

Project Name/Title: _____

Instructions: The applicant should first enter the total project cost (line 16). Then, working backwards, the applicant should enter the total costs paid with CDBG (line 14) and non CDBG-related funds (line 15). These two amounts should equal the total listed in line 16. Next, the applicant should enter dollar amounts on lines 1-13 in order to demonstrate among which eligible activities the EDI/BEDI, Section 108 or CDBG funds are to be allocated.

Eligible Activities 1/	EDI or BEDI	Section 108	CDBG 2/	Total
1 **Acquisition of Real Property** 24 CFR 570.703(a)				
2 **Rehabilitation of Publicly Owned Real Property** 24 CFR 570.703(b)				
3 **Payment of Interest** 24 CFR 570.703(c)				
4 **Relocation Payments** 24 CFR 570.703(d)				
5 **Clearance, Demolition, Removal** 24 CFR 570.703(e)				
6 **Site Preparation** 24 CFR 570.703(f)				
7 **Payment of Issuance Fees** 24 CFR 570.703(g)				
8 **Housing Rehabilitation** 24 CFR 570.703(h)				
* 9 **Economic Development Activities** 24 CFR 570.703(i) (and 570.203/.204)				
10 **Construction of Housing** 24 CFR 570.703(j)				
11 **Debt Service Reserve** 24 CFR 570.703(k)				
12 **Public Facilities** 24 CFR 570.703(l)				
13 **Public Facilities - Colonias** 24 CFR 570.703(m)				
14 **Subtotal**				
15 **Costs Paid with Non CDBG-Related Funds**				
16 **Total Project Costs 3/**				

1/ The eligible Section 108 activities are defined in detail at 24 CFR 570.703.
2/ CDBG grants and program income other than EDI, BEDI or Section 108.
3/ This figure should match the total provided on the Sources & Uses stateme nt.

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 202–523–6641. This list is also available online at *http://www.nara.gov/fedreg/plawcurr.html.*

The text of laws is not published in the **Federal Register** but may be ordered in "slip law" (individual pamphlet) form from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202–512–1808). The text will also be made available on the Internet from GPO Access at *http://www.access.gpo.gov/nara/nara005.html.* Some laws may not yet be available.

S. 1857/P.L. 107–153

To encourage the negotiated settlement of tribal claims. (Mar. 19, 2002; 116 Stat. 79)

Last List March 19, 2002

Public Laws Electronic Notification Service (PENS)

PENS is a free electronic mail notification service of newly enacted public laws. To subscribe, go to *http://hydra.gsa.gov/archives/publaws-l.html* or send E-mail to **listserv@listserv.gsa.gov** with the following text message:

SUBSCRIBE PUBLAWS-L Your Name.

Note: This service is strictly for E-mail notification of new laws. The text of laws is not available through this service. **PENS** cannot respond to specific inquiries sent to this address.

FUNDING AVAILABILITY FOR SELF-HELP HOMEOWNERSHIP OPPORTUNITY PROGRAM (SHOP)

PROGRAM OVERVIEW

Purpose of the Program. To facilitate and encourage innovative homeownership opportunities through self-help housing where the homebuyer contributes a significant amount of sweat-equity toward the construction of the new dwelling.

Available Funds. Approximately $22 million.

Eligible Applicants. You must be a national or regional nonprofit organization or consortium.

Application Deadline. June 19, 2002.

Match. None.

ADDITIONAL INFORMATION

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information:

I. Application Due Date, Standard Forms, Further Information, and Technical Assistance

Application Due Date. Applications for SHOP grants are due on or before June 19, 2002.

See the General Section of this SuperNOFA for specific procedures governing the form of application submission (*e.g.*, mailed applications, express mail, or overnight delivery).

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that apply to application submission. Please read the following instructions carefully and completely. HUD will not accept hand-delivered applications. Applications may be mailed using the United States Postal Service (UPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without an escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received in HUD Headquarters on or within fifteen (15) days of the application due date. Applicants must obtain and save a Certificate of Mailing showing the date, when your application was submitted to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express service no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, FedEx and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday through Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Address for Submitting Applications. Submit one original and two copies of the application to Department of Housing and Urban Development, Office of Community Planning and Development, Processing and Control Unit, 451 Seventh Street, SW, Room 7251, Washington, DC 20410, ATTN: Self-Help Homeownership Opportunity Program (SHOP).

For Application Forms. Only national and regional nonprofit organizations and consortia are eligible to apply. There is no separate application kit. This notice contains all the information necessary for submission of your application. Copies of the standard forms are located in the General Section of this SuperNOFA or you may request copies by calling HUD's SuperNOFA Information Center at: 1–800-HUD–8929. If you have a hearing or speech impairment, please call the Center's TTY number at 1–800-HUD–2209. When requesting standard forms, you should refer to SHOP and provide your name and address (including zip code) and telephone number (including area code). See Section VI for application submission requirements. You may also access the application requirements on the Internet through HUD's web site at *www.hud.gov/grants.*

Further Information and Technical Assistance. You may contact Lou Thompson, Office of Affordable Housing Programs, Department of Housing and Urban Development, Room 7168, 451 Seventh Street, SW., Washington, DC 20410; telephone (202) 708–2684, ext. 4594 (this is not a toll-free number). This number can be accessed via TTY by calling the Federal Information Relay Service Operator at 1–800–877–8339.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at *http://www.hud.gov/grants.*

II. Amount Allocated

The amount available for this program is approximately $22 million. Any unobligated funds from previous competitions or additional funds that may become available, as a result of deobligation or recaptures from previous awards or budget transfers, may be used in addition to the Fiscal Year 2002 appropriation to fund applications submitted in response to this NOFA.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* SHOP is intended to facilitate and encourage innovative homeownership opportunities on a national geographically-diverse basis through self-help housing where the homebuyer contributes a significant amount of sweat-equity toward the construction or rehabilitation of the dwelling.

Decent, safe, and sanitary non-luxury dwellings developed under SHOP must be made available to eligible homebuyers at prices below the prevailing market prices. Eligible homebuyers are low-income individuals and families (those whose annual incomes do not exceed 80 percent of the median income for the area, as established by HUD) who are unable to purchase a dwelling. Housing assisted under this Notice must involve community participation through the use of homebuyers and/or volunteers in the construction of dwellings and by other activities that involve the community in the project.

(B) *Eligible Applicants.* You must be a national or regional nonprofit organization or consortium that has the capacity and experience to provide or facilitate self-help housing homeownership opportunities. Local affiliates of national or regional organizations or consortia must apply as part of the national or regional organization or consortia and may not apply for SHOP independently. "Regional" is defined for the purpose of this program section of the SuperNOFA to be a "regional area" such as the Southwest or Northeast that must include at least two or more States (the States need not be contiguous and the operational boundaries of the organization need not precisely conform to State boundaries). If you are a consortium, one organization must be chosen as the lead entity. The lead entity must submit the application and,

VOL 67 ISS 58 MR 26 2002 UMI

if selected for funding, will execute the grant agreement and assume primary responsibility for carrying out grant activities in compliance with all program requirements. Other participants in your consortium must be identified in your application.

Your application may not propose a partnership with or funding for any affiliate or consortium member that is also included in another SHOP application. You must assure that any affiliate or consortium member under your FY 2002 application is not also seeking funding from another SHOP applicant for FY 2002 funds.

(C) *Eligible Activities.* The only eligible activities are: (1) land acquisition (including financing and closing costs), which may include reimbursing an organization, consortium, or affiliate, upon approval of any required environmental review, for nongrant amounts of the organization, consortium, or affiliate advanced to acquire land before completion of the review; (2) infrastructure improvements (installing, extending, constructing, rehabilitating, or otherwise improving utilities and other infrastructure, including removal of environmental hazards); and (3) administration, planning and management development as defined under the HOME Investment Partnerships Program (24 CFR 92.207) and not to exceed 20 percent of any SHOP grant. Funding of eligible activities may be used for both single-family and multifamily dwellings.

(D) *Ineligible Costs:* Costs associated with the rehabilitation, improvement, or construction of dwellings *are not eligible* uses of program funds.

IV. Program Requirements

In addition to meeting the Requirements and Procedures Applicable to All Programs in Section II of the General Section of this SuperNOFA, you are subject to the following SHOP requirements:

(A) *Conducting Business In Accordance With Core Values and Ethical Standards:* See Section II(B)(2) of General Section of the SuperNOFA.

(B) *Statutory Requirements.* You must comply with all statutory requirements applicable to SHOP as cited in Section IX of this program section below. There are no regulations for this program. You must be capable of:

(1) Developing, through significant amounts of sweat-equity and volunteer labor, at least 30 dwellings at an average cost of no more than $10,000 per unit in SHOP funds for land acquisition and infrastructure improvements;

(2) Using your grant to leverage other sources of funding, including private or other public funds, to complete the housing units;

(3) Developing quality dwellings that comply with local building and safety codes and standards and which will be available to homebuyers at prices below the prevailing market price; and

(4) Scheduling activities to expend all grant funds awarded and substantially fulfill your obligations under your grant agreement, including timely development of the appropriate number of dwelling units. Grant funds must be expended within 24 months, except that grant funds provided to affiliates and consortium members that develop five or more units must be expended within 36 months.

(C) *Economic Opportunities for Low- and Very Low-Income Persons (Section 3).* If you fund infrastructure improvements under this program, you are required to comply with section 3 of the Housing and Urban Development Act of 1968, 12 U.S.C. 1701u (Economic Opportunities for Low- and Very Low-Income Persons) and the HUD regulations at 24 CFR part 135, including the reporting requirements in subpart E. Section 3 requires that you provide training, employment and other economic opportunities, to the greatest extent feasible, to: (1) Low- and very low-income persons, particularly those who are recipients of government assistance for housing and (2) business concerns which provide economic opportunities to low- and very low-income persons.

V. Application Selection Process

(A) *Rating.* HUD will review all applications in accordance with the Application Selection Process in Section III of the General Section of this SuperNOFA. HUD will review all applications based on the threshold factors listed in Section V(D) of this program section below. Applications that meet all threshold requirements will be rated according to the selection factors in this section of the SuperNOFA. Applications that do not meet all threshold factors will be rejected and not rated.

(B) *Ranking and Selection Procedures.* Applications that receive a total rating of 70 points or more (without the addition of Empowerment Zones/Enterprise Communities/Urban Enhanced Enterprise Communities/Strategic Planning Communities, or Renewal Communities [RC/EZ/ECs] bonus points) will be eligible for selection, and HUD will place them in rank order. After adding any bonus points for RC/EZ/ECs, HUD will consider rank order and funds availability in the selection and funding of applications.

HUD reserves the right to fund less than the full amount requested in any application to ensure a fair distribution of the funds and that dwellings will be developed on a national geographically-diverse basis as required by the statute. HUD will not fund any portion of an application that is ineligible for funding under program statutory requirements, or which does not meet the requirements of the General Section of this SuperNOFA or the requirements in the SHOP section of the SuperNOFA. HUD will not fund any eligible applicant for less than the minimum amount necessary to complete at least 30 homes (at a maximum investment of $10,000 per home or a lesser amount if lower costs are reflected in the application). If funds remain after all selections have been made, these funds may be available for other competitions.

(C) *Applicant Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the **Federal Register**, and not longer than 120 days, HUD will, upon receiving a written request from an applicant, provide a debriefing to the requesting applicant. Materials provided during a briefing will be the applicant's final score for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied. Applicants requesting to be debriefed must send a written request to Lou Thompson, Office of Affordable Housing Programs, Department of Housing and Urban Development, Room 7168, 451 Seventh Street, SW, Washington, DC 20410.

(D) *Threshold Requirements.* The following threshold requirements apply specifically to SHOP. You must also be sure to address the threshold requirements listed in Section II(B) of the General Section of the SuperNOFA and must submit all forms, certifications, and assurances identified in Section II(H) of the General Section.

(1) You, the applicant, must be eligible to apply under SHOP (see Section III(B) of this program section of the SuperNOFA).

(2) The amount of funding you request must support no less than 30 self-help units and may not exceed an average investment of $10,000 per unit in SHOP funding.

(3) The population you plan to serve must be eligible under SHOP (see Section III(A) of this program section of the SuperNOFA).

(4) You must demonstrate that you have completed at least 30 self-help homeownership units within a national or regional area (where the homebuyers contributed a significant amount of sweat-equity and/or volunteer labor toward the construction of the dwellings) within the 24-month period preceding the publication of this SuperNOFA.

Submission Threshold Requirements:

(1) Evidence of your non-profit status, such as a copy of a current Internal Revenue Service ruling that your organization is exempt from taxation under section 501(c)(3) or 501(c)(4) of the Internal Revenue Code of 1986. Where an IRS ruling is unavailable, you may submit a certified copy of your approved charter, articles of incorporation or bylaws demonstrating that you are established as a nonprofit organization under state law. If you are a consortium, each participant in your consortium must be a nonprofit organization. Each consortium member must submit evidence of its nonprofit status to the lead entity for inclusion in the Consortium's application package.

Submission threshold requirements (2) through (4) require no additional submissions. These requirements are addressed under the submission requirements for the rating factors listed in Section V(D) of this program section of the SuperNOFA below.

(E) *Factors for Award Used to Evaluate Applications.* HUD will rate all SHOP applications that successfully complete technical processing using the Rating Factors and the Application Submission Requirements described below. The maximum number of points for this program is 102. This includes two RC/EZ/EC bonus points, as described in Section III(C)(1) of the General Section of the SuperNOFA. In evaluating applications for funding, HUD will take into account an applicant's past performance in managing funds, including accounting for funds appropriately, the timely use of funds received from HUD, meeting performance targets for completion of activities, and the number of persons served.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Staff (20 Points)

This factor examines the extent to which you, as a single applicant or as a consortium (including affiliates and/or members of the consortium, if any), have the experience and organizational resources necessary to carry out the proposed activities in a timely manner.

In evaluating this factor, HUD will consider your recent and relevant experience in carrying out the activities you propose, and your administrative and fiscal management capability to administer the grant, including the ability to account for funds appropriately. HUD will assess your organization's past performance based upon performance reports for completion of activities and the number of families/persons provided housing, financial status information focusing on expediency of draws and use of funds, monitoring reports, audit reports and other information available to HUD in making its determination under this factor. If you are not a current recipient of HUD funds, you should submit any existing internal or external performance reports or other information that will assist HUD in making this determination.

Submission Requirements for Rating Factor 1.

(1) You must describe your past experience in carrying out activities (describe the time frame when these activities occurred) that are the same as, or similar to, the activities you propose for funding, and demonstrate reasonable success in carrying out those activities. You may demonstrate such reasonable success by showing that your previous activities were carried out as proposed consistent with the time frame you proposed for completion of all work. You must show that established benchmarks for acquiring properties and completing housing construction were met and performance reports were submitted, as required. You must also describe any delays that were encountered, and the actions you took to overcome such delays to successfully complete your program.

(2) You must demonstrate that you have completed at least 30 self-help homeownership units within a national or regional area (where the homebuyers contributed sweat-equity and/or volunteer labor toward the construction of the dwellings) within the 24-month period preceding the publication of this SuperNOFA. In identifying these recent projects, please include all projects completed, regardless of whether they were funded with Federal, State, local, public or private funds.

(3) You must provide a description of your organization's management structure. You must also describe how you will staff and manage your proposed activities within the organization if funds are awarded.

(4) You must demonstrate your ability to handle financial resources with adequate financial control and accounting procedures. You must describe how your financial control procedures meet 24 CFR 84.21, "Standards for Financial Management Systems." You must provide a copy of your most recent audit (only an audit of the lead entity must be provided with an application for a consortium).

(5) You must demonstrate your experience and ability in constructing and altering homes by describing the kinds of features that you have used to design homes in accordance with universal design or otherwise make homes accessible to the elderly or persons with disabilities.

Rating Factor 2: Need/Extent of the Problem (15 Points)

This factor examines the extent to which you identify the community need, or problem, or distress that your proposed activities will target, and the urgency of meeting that need.

The purpose of this factor is to make sure that funding is provided where a need for funding exists. Under this factor, you must identify the need or needs in the community that your proposed activities are designed to address or, if you plan to select specific affiliates only after you receive SHOP funding, you must demonstrate how you plan to identify need prior to your selection of affiliates.

Submission Requirements for Rating Factor 2.

(1) Identify the communities or areas in which your proposed activities will be carried out or how you will select communities or projects based on need after you have received an award under SHOP.

(2) Depending on the type of activities proposed, the kind of information you submit to demonstrate the need or needs in the target area may include, but is not limited to, one or more of the following:

(a) Housing market data such as information included in the local Five Year Consolidated Plan or other data sources;

(b) Data dealing with such factors as housing density, housing affordability, housing age or deterioration, and lack of adequate infrastructure or utilities;

(c) Data on the need for accessible homes in the area;

(d) Evidence of housing discrimination;

(e) Evidence from the local Analysis of Impediments to Fair Housing Choice that shows the need for this program.

Rating Factor 3: Soundness of Approach (45 Points)

This factor examines the quality of your plan of proposed activities. In evaluating this factor HUD will consider:

VOL
67
ISS
58
MR
26
2002
UMI

(1) Your specific use of SHOP funds, the number of units and the type(s) of housing to be constructed, and the use of sweat equity/volunteer labor; your established timeline for performance; your schedule for expending funds and completing construction; the proposed budget and cost effectiveness of your program; and your plans to reach all potentially-eligible homebuyers, including those with disabilities or least likely to apply. You may not require a homebuyer to make financial contributions to a unit other than cash contributed for down payment or closing costs at the time of acquisition.

(2) How your planned activities further the Department's FY 2002 policy priorities noted in Section VI of the General Section. You will receive one rating point for each priority addressed in your program of activities and associated with performance measures. For FY 2002, HUD's policy priorities are:

(i) Increasing Homeownership Opportunities for Low- and Moderate-Income Persons, Persons with Disabilities and the Elderly, and Minorities and Families where English may be a second language.

(ii) Improving the Quality of Public Housing and Providing More Choices for Its Residents.

(iii) Encouraging Accessible Design Features: Visitability in New Construction and Substantial Rehabilitation Activities and Universal Design.

(iv) Improving Computer Access, Literacy, and Employment Opportunities.

(v) Providing Full and Equal Access to Faith Based and Other Community Based Organizations in HUD Program Implementation.

(vi) Ensuring that Programs are Accountable for the Promises Made and the Actions Taken.

(vii) Colonias.

Submission Requirements for Factor 3

(1) Identify all activities you propose to fund with SHOP.

(2) Provide a timetable for the selection of your participating local affiliates if they are not specified in the application.

(3) Identify the housing type(s) (single family or multifamily, or both) you plan to develop and the form of ownership (fee simple, condominium, cooperative, etc.) you propose to use.

(4) Submit a construction and completion schedule which expends SHOP funds and substantially fulfills your obligations, including the development of the appropriate number of dwelling units, within 24 months, or in the case of affiliates that develop five or more units, within 36 months, and demonstrates that remaining housing construction will be completed within a reasonable period of time.

(5) Submit a timeline listing milestones against which HUD is to measure your performance progress in expending funds, and completing acquisition, infrastructure and housing construction activities within the schedule in Item 4 above. These milestones should be at reasonable intervals (*e.g.*, monthly, quarterly, etc.).

(6) Describe how your proposed activities address the need or needs you have identified under Rating Factor 2 above.

(7) List the long- and short-term benefits from your activities to the community and targeted groups within the community, and describe how you will ascertain and measure the benefits.

(8) Provide a detailed budget with a break out for each proposed task and each budget category (acquisition, infrastructure improvements, and administration) in the SF–424A. If SHOP funds will be used for administration of your grant, you must include the cost of monitoring affiliates once during the grant period. Your budget must also include leveraged funding to cover all costs of completing the proposed number of units.

(9) Demonstrate that projected costs for the proposed activities do not deviate substantially from the norm in the locale in which your activities will take place, will not exceed an average cost of $10,000 per unit in SHOP funds, and illustrate your ability to carry out your proposed activities cost effectively.

(10) Describe how each of the Department's policy priorities are furthered by your proposed activities. To receive a point for a policy priority, you must describe how your proposed work activities address the specific policy and list proposed performance measurements related to it.

(11) Describe how you will reach potential homebuyers through the use of services and materials that are accessible or visitable to all persons, including persons with disabilities (*e.g.*, languages, formats, locations, distribution, and use of minority media to attract those least likely to apply).

(12) Describe your criteria and procedures for selecting homebuyers and how activities will benefit eligible homebuyers.

(13) Describe how your proposed activities will yield long-term results and innovative strategies or "best practices" that can be readily disseminated to other organizations, communities, and/or State and local governments.

(14) Describe how your program will provide reasonable accommodations for persons with a variety of disabilities by providing "sweat equity" assignments that can be performed by the client regardless of disability.

Rating Factor 4: Leveraging Resources (15 Points)

This factor addresses your ability to secure other resources that can be combined with HUD's program resources to achieve the purposes of SHOP. HUD will consider only those leveraging contributions for which current firm commitments have been provided. Leveraging can be counted only if you have secured a firm financial commitment described and listed under this Factor. A firm commitment letter means the agreement by which the contributing partner or entity agrees to perform an activity specified in your application which should demonstrate your financial capacity to deliver the resources necessary to carry out the activity. Firm commitments of resources may be in the form of cash funding, in-kind contributions, or personnel from Federal, State, local, and private sources, which are jointly referred to as your leverage partners. HUD will also consider the extent that the applicant's proposed sweat-equity requirements and other leveraged resources will serve to reduce costs to the homebuyers.

Submission Requirements for Factor 4

(1) Provide a list of amounts and sources of all firm commitments of cash funding, in-kind contributions, or personnel from other Federal, State, local, and private sources which will be available to complete your project. Together with the grant funds, these commitments must be sufficient to develop the proposed number of units in your application, which must be 30 units or more.

(2) Provide firm written commitments (letters, agreements, etc.) from the source of the commitment to support your list of firm commitments. This written commitment should include your organization's name, the contributing organization's name, and the proposed type and level of commitment and responsibilities as they relate to your proposed program. This leveraging commitment must be signed by an official of the organization legally able to make the commitment on behalf of the organization and must be specifically targeted to support your FY 2002 SHOP application. The written commitment may be contingent upon your receiving a grant award.

(3) Provide a description of the individual sweat-equity requirements (types of tasks and number of hours) of your program and how this contribution of labor will serve to reduce the costs of the home to the homebuyer. Reasonable accommodation must be allowed for persons with a variety of disabilities to participate in your program.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (5 Points)

This factor addresses the extent to which your application reflects a comprehensive approach that coordinates effectively with other organizations in the community and fosters self-sufficiency of beneficiaries in your program after completion of the grant award. In evaluating this factor, HUD will consider:

(1) The extent to which you have coordinated your activities with other known organizations that are not directly participating in your proposed work activities, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner; and

(2) The extent to which your application implements practical solutions within the grant term to result in assisting beneficiaries of grant program funds in achieving independent living, housing choice or improved living environments.

Submission Requirements for Factor 5

(1) Describe the steps taken to coordinate your program activities at the national, regional and local levels with other organizations not directly participating in your program and work activities. If affiliates are selected after grant award, you must describe how your selections will be made to ensure that the affiliates' programs fit in with other activities and programs that are being carried out by others in the local communities.

(2) Describe the steps to be taken within the grant term that provide assistance to homebuyers in a manner that achieves independent living, housing choice in a wider range of neighborhoods and improved living conditions free from overcrowding and environmental hazards, such as lead-based paint, Brownfields, etc.

VI. Application Requirements and Checklist for Application Submission

Your application consists of the items listed in this Section VI. The standard forms, certifications, and assurances that are applicable to this funding (collectively, referred to as the "standard forms") can be found in Appendix B to the General Section of the SuperNOFA. The following checklist helps to ensure that all of the required items have been submitted in order to receive consideration for funding:

_____ Standard Form 424, Application for Federal Assistance (signed by the authorized representative of the organization eligible to receive funds)
_____ Evidence of Non-Profit status
_____ A copy of your code of conduct and a narrative description of the methods you will use to ensure that all officers, employees and agents of your organization become aware of your code of conduct.

Narrative Statement Addressing:
_____ Factor 1—Capacity of the Applicant and Relevant Organizational Staff, including recent audit.
_____ Factor 2—Need/Extent of the Problem
_____ Factor 3—Soundness of Approach
_____ Factor 4—Leveraging Resources
_____ Factor 5—Coordination, Self Sufficiency and Sustainability

Forms, Certifications and Assurances:
_____ SF 424A, Budget Information, Non-Construction Programs
_____ SF 424B, Assurances—Non-Construction Programs
_____ SF 424M, Federal Assistance Funding Matrix
_____ HUD–50070, Certification for a Drug-Free Workplace
_____HUD–50071, Certification of Payment to Influence Federal Transactions
_____SF–LLL, Disclosure of Lobbying Activity, as applicable
_____HUD–2880, Applicant/Recipient Disclosure/Update Report
_____HUD–2990, Certification of Consistency with the RC/EZ/EC Strategic Plan
_____HUD–2992, Certification Regarding Debarment and Suspension
_____HUD–2993, Acknowledgment of Application Receipt

VII. Corrections to Deficient Applications

The *General Section* of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

The provisions contained in Section 305(c) of the Multifamily Housing Property Disposition Reform Act of 1994, Environmental Review, implemented in the Environmental Review regulations at 24 CFR part 58, are applicable to properties assisted with SHOP funds. All SHOP assistance is subject to the National Environmental Policy Act of 1969 and related federal environmental authorities. SHOP grant applicants are cautioned that no federal or non-federal funds or assistance which limits reasonable choices or could produce a significant adverse environmental impact may be committed to a project until all required environmental reviews and notifications have been completed by a unit of general local government, tribe or State and until HUD approves a recipient's request for release of funds under the environmental provisions contained in 24 CFR part 58. Not withstanding the preceding sentence, in accordance with Section 11(d)(2)(A) of the Housing Opportunity Extension Act of 1996 and HUD Notice CPD–01–09, an organization, consortium or affiliate receiving SHOP assistance may advance nongrant funds to acquire land prior to completion of an environmental review and HUD's approval of a request for release of funds and environmental certification. Any advances to acquire land prior to such approval are made at the risk of the organization, consortium or affiliate and reimbursement from SHOP funds for such advances will depend on the result of the environmental review.

IX. Authority

The funding made available under this program section of the SuperNOFA is authorized by section 11 of the Housing Opportunity Program Extension Act of 1996 (42 U.S.C. 12805 note) (the "Extension Act").

FUNDING AVAILABILITY FOR THE YOUTHBUILD PROGRAM

PROGRAM OVERVIEW

Purpose of the Program. The purpose of the Youthbuild program is to assist disadvantaged young adults in distressed communities in completing their high school education, to provide on-site construction training experiences which also results in the rehabilitation or construction of housing for homeless persons and low- and very low-income families, to foster leadership skills, to further opportunities for placement in apprenticeship programs, and to promote economic self-sufficiency.

Available Funds. Approximately $59.750,000 is available for the Youthbuild Program.

Adjustments to Funding. HUD reserves the right to utilize this year's funding to fund previous years errors prior to rating and ranking this year's applications. HUD reserves the right to reallocate funds between categories to achieve the maximum allocation of funds.

Eligible Applicants. Eligible applicants are public or private nonprofit agencies, including State or local housing agencies or authorities, State or units of local government, or any entity eligible to provide education and employment training under other Federal employment training programs, as further defined in HUD's regulation at 24 CFR 585.4.

Application Deadline. May 30, 2002.

Match. None.

ADDITIONAL INFORMATION

If you are interested in applying for funding under this program, please carefully review the *General Section* of this SuperNOFA and the following additional information.

I. Application Due Date and Technical Assistance

Application Due Date. Completed applications (one original signed application and two copies) must be submitted on or before May 30, 2002 to the HUD Headquarters address shown below.

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that impact application submission procedures. Please read the following instructions carefully and completely.

Addresses for Submitting Applications. Completed applications (one original signed application and two copies) must be submitted to the Processing and Control Unit, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7255, Washington, DC 20410, Attention: Youthbuild Program. When submitting your application, please include your name and mailing address (including zip code) and telephone number and fax number (including area code).

Applications sent to HUD headquarters may be mailed using the United States Postal (USPS) or may be shipped via the following delivery services: United Parcel Services (UPS), FedEx, DHL, or Falcon Carrier. *No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above. Delivery of these services must be made during business hours between 8:30 AM and 5:30 PM Eastern time, Monday through Friday. If these companies do not service your area, you should submit your application via the United State Postal Service.*

Mailed Applications. Your applications will be considered timely filed if postmarked on or before 12:00 midnight (Eastern Time) on the application due date and received at the address above on or within fifteen (15) calendar days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was filed in a timely manner.

Applications sent by overnight delivery or express mail will be considered timely filed if they are received before or on the application due date, or upon submission of documentary evidence that your application was placed in transit with the overnight delivery service by no later than the specified application due date. *For Application Kits.* For an application kit and any supplemental material please call the SuperNOFA Information Center at 1–800-HUD–8929. Persons with hearing or speech impairments may call the Center's TTY number at 1–800–HUD–2209. An application kit also will be available on the Internet through the HUD web site at http://www.hud.gov. When requesting an application kit, please refer to Youthbuild and provide your name, address (including zip code), and telephone number (including area code).

For information concerning the HUD Youthbuild program, contact Ms. Phyllis Williams, Community Planning and Development Specialist, Office of Rural Housing and Economic Development, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7136, Washington, DC 20410; telephone (202) 708–2035 (this is not a toll-free number). Persons with speech or hearing impairments may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

For Technical Assistance. Write or call Mr. Peter Twichell, YouthBuild USA, 58 Day Street, Somerville, MA 02144, telephone (617) 623–9900, ext. 1211, under contract with HUD to provide technical assistance. Prior to the application deadline, YouthBuild USA will be available to provide general guidance on the application submission process and location of information, but not guidance in actually preparing the application. HUD staff will also be available to provide technical assistance.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of an application. For more information about the date and time of this broadcast, you should consult the HUD web site at http://www.hud.gov.

II. Amount Allocated

(A) *Available Funds.* Approximately $59,750,000 in Fiscal Year (FY) 2002 funding is being made available through this program section of this SuperNOFA for the Youthbuild program. The breakdown of funding is discussed below.

The FY 2002 HUD Appropriations Act. The Department of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2002 (Pub.L. 107–73 approved November 26, 2001) (the "FY 2002 HUD Appropriations Act") made $65,000,000 available of which $59,750,000 is allocated for grants.

(B) *Funding Categories.* HUD will award up to $59,750,000 on a competitive basis. Funds will be divided between four categories of grants as described below.

Category 1 *New Applicants.* HUD will award up to $10,000,000 for new applicants that have not previously received implementation grants since the inception of the Program for a period not to exceed 30 months. The maximum amount awarded to a successful applicant in this category is $400,000.

Category 2 *Grants up to $700,000.* HUD will award up to $37,750,000 for grants up to $700,000 for a period not to exceed 30 months. The maximum

VOL
67
ISS
58
MR
26
2002
UMI

amount awarded to a successful applicant in this category is $700,000.

Category 3 *Underserved and Rural Areas.* HUD will award up to $10,000,000 for grants to organizations serving clients in underserved and rural areas as defined in this NOFA for a period not to exceed 30 months. The maximum amount awarded to a successful applicant in this category is $400,000.

Category 4 *Individual Development Accounts (IDAs).* HUD will award up to $2,000,000 for grants for previous or existing Youthbuild grantees for a period not to exceed 30 months, to support the outreach, development and implementation of Individual Development Accounts (IDAs) for Youthbuild program participants. The maximum amount awarded under this category is $200,000.

Applicants must indicate on their transmittal/cover letter which funding categories they are applying for.

III. Program Description and Eligible Activities

(A) *Program Description.* The purposes of the Youthbuild Program are to:

(1) Provide economically disadvantaged young adults with opportunities to obtain an educational experience that will enhance their employment skills, as a means to achieving self-sufficiency;

(2) Foster the development of leadership skills and commitment to community;

(3) Expand the supply of permanent affordable housing for homeless and low- and very low-income persons by providing implementation grants for carrying out a Youthbuild program;

(4) Provide disadvantaged young adults with meaningful on-site training experiences in housing construction and rehabilitation that will enable them to render a service to their communities by helping to meet the housing needs of homeless persons and low-income families; and

(5) Give to the greatest extent possible, job training, employment, contracting and other economic opportunities to low-income young adults.

HUD also focuses on the Youthbuild Program as a way to foster the development of nonprofit organizations which over time can provide the services mentioned above to disadvantaged youth and which at the same time rely less on HUD's financial support to carryout these activities.

(B) *Eligible Activities.*

(1) Work and activities associated with the acquisition, architectural and engineering work, rehabilitation or construction of the housing, as defined in HUD's regulations at 24 CFR 585.309, 585.310, and 585.311.

(2) Relocation payments and other assistance required to comply with HUD's regulation at 24 CFR 585.308;

(3) Costs of ongoing training and technical assistance needs related to carrying out a Youthbuild program;

(4) Education, job training, counseling, employment, leadership development services and optional activities that meet the needs of the participants including entrepreneurial training, drivers' education, apprenticeship opportunities, financial literacy, credit counseling, assistance programs for those with learning disabilities, and in-house staff training;

(5) Outreach to potential participants;

(6) Wages, benefits, and need-based stipends for participants and;

(7) Administrative costs, which must not exceed 10 percent of the grant award.

HUD encourages you to use grant funds for outreach, recruitment, training and other services for the participants that facilitate program implementation. Please refer to HUD's regulation at 24 CFR 585.305 for further details on eligible activities.

IV. Program Requirements

In addition to the requirements listed in the General Section of this SuperNOFA, as an applicant you must comply with the following Youthbuild program requirements:

(A) *Eligible Applicants.* Eligible applicants as defined in HUD's regulation at 24 CFR 585.4.

(B) *Eligible Participants.* Participants in a Youthbuild program must be very low-income high school dropouts between the ages of 16 and 24, inclusive, at the time of enrollment. Up to 25 percent of participants may be above very low-income, or may be high school graduates (or equivalent), but must have educational needs (such as lack of reading, writing and communication skills) that justify their participation in the program.

(C) *Locational Limitations.* You may submit more than one application in the current competition if your program's participant recruitment and housing areas are in different jurisdictions. Each application you submit may only propose activities to carry out one Youthbuild program, i.e., to start a new Youthbuild program or to fund new classes of Youthbuild participants for an existing program.

(D) *Response to NOFA—Page Limitation.* The total narrative response to all factors identified in Section VI of this program NOFA must not exceed 15 pages, and must be submitted on 8.5" by 11" paper, using a 12 point font, with lines double spaced and printed only on one side. Please note that submitting pages in excess of the page limit will not disqualify your application. However, HUD will not review or consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.

(E) *Youthbuild Program Components.* Applications that receive assistance under this Youthbuild Program section of the SuperNOFA must contain the three components described as follows:

(1) Educational and job training services;

(2) Leadership training, counseling, and other support activities;

(3) On-site training through actual housing rehabilitation and/or new construction work, including the provision of alternative training experiences that are necessary as a reasonable accommodation for students with disabilities.

(F) *Identification of and Access to Property.* Your application must identify the location of the site(s) or property(ies) (e.g. addresses, parcel numbers, etc.) that will be used for on-site construction. Your application MUST contain a letter from the property owner or property management company(ies) allowing access to the housing site(s) for on-site construction training. HUD may deem as ineligible any application that fails to specifically identify the location of the on-site construction.

(G) *Training Requirement.* Each program must be structured so that 50 percent of each participant's time is spent in on-site training and the other 50 percent in educational training.

(H) *Economic Opportunities for Low and Very Low-Income Persons (Section 3).* Section 3 of the Housing and Urban Development Act of 1968, (12 U.S.C. 1701u) is applicable to the Youthbuild program. Please see Section II of the General Section of the SuperNOFA.

(I) *Participation in Local Workforce Investment Act One-Stop Center.* Youthbuild grantees are mandatory partners in one-stop centers authorized by the Workforce Investment Act of 1998 (Pub. L. 105–220).

V. Desirable Elements of a Youthbuild Program

You should document the extent to which HUD's initiatives are furthered by the proposed activities. Such initiatives include:

(1) Promoting healthy, safe, and energy efficient homes;

(2) Affirmatively furthering fair housing by promoting greater opportunities for housing choice for minorities and persons with disabilities;

(3) Providing opportunities for self-sufficiency, particularly for persons enrolled in welfare to work programs;

(4) Providing educational, apprenticeship and job training opportunities;

(5) Promoting welfare reform;

(6) Encouraging visitability in new construction and substantial rehabilitation activities; and

(7) Encouraging universal design.

First time applicants. If you are a first time applicant applying for funding under Category 1, HUD recommends that you have a graduating class of not more than 20 participants.

VI. Application Selection Process

Applicants must meet all of the applicable threshold requirements of Section II(B) of the General Section of the SuperNOFA and Sections IV(A), (B), (C), (D), (E), (F), (G) and (H) of this program section of the SuperNOFA. HUD will review each application and assign points in accordance with the selection factors described in this section. The maximum number of points is 102 (except for an application submitted by the City of Dallas, Texas, which would be eligible for a maximum of 104 points). HUD will award up to two (2) additional points, as described in the General Section of the SuperNOFA, to any application submitted by the City of Dallas, Texas, to the extent that Factor 3 is addressed. Due to an order of the U.S. District Court for the Northern District of Texas, Dallas Division, with respect to any application submitted by the City of Dallas, Texas, HUD will consider the extent to which the application's proposed activities will eradicate the vestiges of racial segregation in the Dallas Housing Authority's programs consistent with the Court's order. This maximum includes two Renewal Community/Empowerment Zone/Enterprise Community (RC/EZ/EC) bonus points as described in Section III(C) of the General Section of the SuperNOFA. An application must receive a minimum of 70 points to be eligible for funding.

(A) *Rating and Ranking.*

(1) *General.* To review and rate applications, HUD may establish panels including officials from other Federal agencies and outside experts or consultants to obtain certain expertise and other outside points of view. In evaluating applications for funding, HUD will take into account an applicant's past performance in managing funds, including the ability to account for funds appropriately, timely use of funds received either from HUD or from other Federal, State or local programs and meeting performance targets for completion of activities and number of persons served or targeted for assistance. HUD may use information relating to these items based on information at hand or available from public sources such as newspapers, Inspector General or Government Accounting Office Reports or Findings, hotline complaints that have been proven to have merit, or other such sources of information.

(2) *Rating.* All applications for funding will be evaluated against the rating factors described in Section (VI) of this NOFA.

(3) *Ranking.* Applications will be ranked separately within each of the four funding categories. Applications will be selected for funding in accordance with their rank order in each category.

(4) To be eligible for funding, an application must have an overall minimum score of 70 points and a minimum score of 40 points for the total combined number of points for Rating Factors 1 (Capacity of the Applicant and Relevant Organization) and Rating Factor 3 (Soundness of Approach).

If two or more applications are rated fundable and have the same score, but there are insufficient funds to fund all of them, HUD will select the application(s) with the highest score for Rating Factor 3 (Soundness of Approach). If two or more applications still have the same score, the highest score in the following factors will be selected sequentially until one highest score can be determined: Rating Factor 1 (Capacity of the Applicant and Relevant Organization); Rating Factor 4 (Leveraging of Resources) and Rating Factor 2 (Need/Extent of the Problem).

(B) *Categories of Grants.* HUD will make grants in four categories:

(1) *Category 1 Grants.* Grants for new applicants that have not previously received funding under the Youthbuild program since the inception of the Program and that have elected not to apply under Category 2 or 3. HUD will make available approximately $10,000,000 to new applicants proposing grant(s) of $400,000 or less for activities not to exceed 30 months.

(2) *Category 2 Grants.* HUD will make available approximately $37,750,000 to applicants proposing grant(s) of $700,000 or less for activities not to exceed 30 months.

(3) *Category 3 Grants.* HUD will make available $10,000,000 for applicants proposing grant(s) of $400,000 or less to establish programs in underserved and rural areas not to exceed 30 months. Rural and Underserved areas are defined as follows:

(a) *Rural Area.* A Rural area is defined in one of five ways:

(i) A place having fewer than 2,500 inhabitants (within or outside of metropolitan areas).

(ii) A county with an urban population of 20,000 inhabitants or more.

(iii) Rural portions of extended cities, as identified by the U.S. Census Bureau.

(iv) Open country, which is not part of or associated with an urban area. The United States Department of Agriculture (USDA) describes "open country" as a site separated by open space from any adjacent densely populated urban area. Open space includes undeveloped land, agricultural land or sparsely settled areas but does not include physical barriers, (such as rivers and canals), public parks, commercial and industrial developments, small areas reserved for recreational purposes, and open space set aside for future development.

(v) Any place with a population not in excess of 20,000 and not located in a Metropolitan Statistical Area.

(b) *Underserved Area.* An underserved area is defined as an area comprised of census tracts with the following distress criteria:

(i) A census tract where the unemployment remains high (50 percent or more above the nation's unemployment rate) and

(ii) A census tract where high rates of poverty (50 percent or more above the national average) persists.

(4) *Category 4 Grants.* HUD will make available approximately $2,000,000 for applicants proposing grants of $200,000 or less to develop or support Individual Development Accounts (IDAs).

IDAs are matched savings accounts designed to assist low and very low-income families to accumulate savings for education, job training, homeownership or small business or micro-enterprise development. IDAs may be structured to provide both current program participants and those who successfully completed the program with access to IDAs. This category of funds must be used in conjunction with funds awarded under Category 2 or Category 3 and may be used for outreach, financial literacy training, matching funds, administrative costs and/or monitoring. Participants save monthly for a specific purpose with their savings matched by designated funders (usually at a rate ranging from one dollar for each dollar saved to four dollars for each dollar saved). In order to be considered for

VOL
67
ISS
58
MR
26
2002
UMI

funding under Category 4 (Individual Development Accounts), the applicant must apply for Category 4 along with either Category 2 or Category 3. In order to be awarded funding under Category 4, the applicant must also be awarded funding under either Category 2 or Category 3.

(C) *Grant Period.* You must expend funds awarded within 30 months of the effective date of the grant agreement, or such other period specified.

(D) *Maximum Awards.* Under the competition established by this Youthbuild Program section of the SuperNOFA, the maximum award for a Youthbuild grant is $700,000. Special Note: The maximum award under the combined categories 2 and 4 is $900,000. HUD will not make amendments to awards under this competition that will increase previously approved grant amounts.

(E) *Potential Environmental Disqualification.* HUD reserves the right to disqualify an application where one or more environmental thresholds are exceeded if HUD determines that it cannot conduct the environmental review and satisfactorily complete the review within the HUD application review period. (See 24 CFR 585.307.) Environmental thresholds are explained in Appendix A of this program section of this SuperNOFA. Complete form 2C13a, 2C13b, or 2C13c and form 2C15 only if you are proposing to use Youthbuild funds for new housing construction or rehabilitation.

(F) *Notification of Approval or Disapproval.* HUD will notify you whether or not you have been selected for an award. If you are selected, HUD's notice to you of the amount of the grant award based on the approved application will constitute HUD's CONDITIONAL approval, subject to negotiation and execution of the grant agreement by HUD.

(G) *Rating Factors for Award Used to Evaluate and Rate Applications.* The factors for rating and ranking applicants, and maximum points for each factor, are provided below. The maximum number of points for the program is 104. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA and two bonus points given to the city of Dallas, TX.

(H) *Application Debriefing.* Beginning not less than 30 days after the awards for assistance are announced in the **Federal Register**, and for not less than 120 days, HUD will, upon written request from the applicant, provide a debriefing to the requesting applicant. Materials provided during the debriefing will be the applicant's final scores for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which the assistance was provided or denied. Applicants requesting to be debriefed must send a written request to Ms. Jackie W. Mitchell, Director, Office of Rural Housing and Economic Development (ORHED), Office of Community Planning and Development, 451 Seventh Street, SW, Room 7136, Washington, DC 20410. Debriefing information can be found in Section VII(E)(2) of the General Section of the SuperNOFA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (15 points)

This factor addresses the qualifications and experience of the applicant and participating parties to implement a successful young adult education, training program in accordance with your work plan as further described in Factor 3. HUD will review and evaluate information provided documenting recent capability. Experience within the last 5 years will be considered recent. In reviewing this rating factor, HUD will evaluate the following sub-factors:

(1) *Team Member Composition and Experience (5 points).* Your experience and the experience of your project director, core staff competencies including your day-to-day program manager, consultants and contractors. You must demonstrate that your program manager has the background, experience and capacity to implement all of the program components of the proposed work plan, as evidenced by recent work experience (within the last 5 years) in managing projects of the same or similar size, dollar amount, types of activities and beneficiaries as those proposed in your work plan. If any gaps exist in your experience or organizational structure to carry out the program, describe how you will fill those gaps including the hiring of consultants or other outside parties. Applicants for funding under Category 4 (Individual Development Accounts) should include in their response their experience and capability in providing support services to low income individuals and families seeking to achieve economic sustainability and self-sufficiency and in recruiting, educating and assisting project participants to increase their economic independence and general well-being through economic literacy education and the accumulation of assets.

(2) *Organizational Structure (5 points).* The structure of your organization, management structure, including reporting relationships of key staff, a system for coordinating with outside contractors or third party service providers, a mechanism for an internal and external auditing relationships, and an accounting system which meets Federal accounting system requirements. You should provide a clear description of how your organizational structure will operate to carry out your work plan.

(3) *Relevant Experience (5 points).* The objectives and accomplishments of your past experience in conducting similar activities. You must describe your past project objectives and accomplishments which are similar to those of your proposed work plan to show your effectiveness and timeliness in managing similar projects. If you have received similar grants including previous Youthbuild grants, you must describe your effectiveness of your administration including timeliness and performance in meeting reporting requirements and your ability to have resolved problems that presented themselves during the grant period. In addressing timeliness of reports, you must compare when your reports were due with when they were actually submitted. You must describe your achievements, including those of previous Youthbuild grants, of specific measurable outcome objectives. Specific outcome objectives include: number of youths recruited, trained and received GEDs; number of youths obtaining jobs (i.e. those that are a part of a career path or apprenticeship program), number of youths participating in apprenticeships and number of housing units rehabilitated or constructed and made available for low and moderate income persons.

Also, you must describe the extent to which you or participating partners have been successful in past education, training and employment programs and activities, including Federally-funded Youthbuild programs. If you have received a Youthbuild grant, you must submit copies of your last two progress reports or, if applicable, a closeout report. In applying the rating criteria, HUD will take into consideration your performance (including meeting target dates and schedules) as reported.

The more recent, relevant, and successful the experience of the proposed team members, organization and other participating entities in relation to the work plan, the greater the number of points that you will receive. For previous and existing Youthbuild grantees, applicants that can demonstrate a closer and greater linkage between the expected outcomes and the previously generated outcomes will receive a higher amount of points for this Factor.

Rating Factor 2: Need/Extent of the Problem (25 Points)

This Factor addresses the extent to which there is need for funding the proposed activities based on levels of distress and an indication of the urgency of meeting the need/distress in the applicant's target area. In responding to this Factor, applications will be evaluated on the extent to which the level of need for the proposed activity and the urgency in meeting the need are documented and compared, vis-a-vis the target area and national data.

(1) In applying this Factor, HUD will consider current levels of distress for the area (i.e., Census Tract(s) or Block Groups) immediately surrounding the project site or the target area to be served by the proposed project, and in the nation. This means that an application that provides data that show levels of distress in the target area expressed as a percent greater than the national average will be rated higher under this Factor.

Notwithstanding the above, an applicant proposing a project to be located outside the target area could still receive points under the Distress Factor if a clear rationale and linkage is provided linking the proposed project location and the benefits to be derived by persons living in more distressed area(s) of the applicant's target area.

(2) Applicants should provide data that address indicators of distress, as follows:

(a) Poverty (5 points)—data should be provided in both absolute and percentage form (i.e., whole numbers and percents) for the target area(s); an application that compares the local poverty rate in the following manner to the national average at the time of submission will receive points under this section as follows:

(1) Less than the national average: 0 points
(2) Equal to but less than twice the national average: 1 points
(3) Twice but less than three times the national average: 3 points
(4) Three or more times the national average: 5 points

(b) Unemployment (5 points)—for the project area;

(1) Less than the national average: 0 points
(2) Equal to but less than twice the national average: 1 points
(3) Twice but less than three times the national average: 2 points
(4) Three but less than four times the national average: 3 points
(5) Four but less than five times the national average: 4 points
(6) Five or more times the national average: 5 points

(c) High School Dropouts (10 points)—for the project area;

(1) Less than the national average: 0 points
(2) Equal to but less than twice the national average: 2 points
(3) Twice but less than three times the national average: 4 points
(4) Three but less than four times the national average: 6 points
(5) Four but less than five times the national average: 8 points
(6) Five or more times the national average: 10 points

(d) Other Indicators of social and/or economic decline that best capture the applicant's local situation (5 points). Examples that could be provided under this section are information on the community's stagnant or falling tax base, including recent commercial or industrial closings, housing conditions, such as the number and percentage of substandard and/or overcrowded units, rent burden (defined as average housing cost divided by average income) for the target area and urgency in addressing problems facing youth, local crime statistics, etc.

(3) In rating applications under this Factor, HUD reserves the right to consider sources of available objective data, such as the U.S. Census, other than, or in addition to, those provided by applicants, and to compare such data to those provided by applicants and local crime statistics for the project site.

HUD requires use of sound and reliable data (e.g., U.S. Census data, State statistical reports, university studies/reports that are verifiable) to support distress levels cited in each application. A source for all information along with the publication or origination date must also be provided.

Updated Census data are available as follows for the listed indicators:

(a) Unemployment rate—estimated monthly, with a two-month lag;

(b) Population—estimated for incorporated places through 2000;

(c) Poverty rate—1990 data being the most recent available.

Rating Factor 3: Soundness of Approach (40 points)

Youthbuild Program Work Plan. This factor addresses the quality and cost-effectiveness of your proposed work plan. There must be a clear relationship between your proposed activities, community needs and the purpose of the Youthbuild program. HUD will consider the overall quality and feasibility of your proposed work plan and budget which must be consistent with the Youthbuild program as measured by your specific activities and outcomes.

Specifically, HUD will consider the following categories when assessing your proposed work plan:

(1) Program Components (15 points):

(a) Outreach strategy, recruitment strategy and selection activities. HUD will determine the extent to which you demonstrate a clear linkage with the following work plan activities and proposed outcomes and results. Points will be awarded based upon overall quality and feasibility of the outreach, recruitment and selection activities, the number and types of outreach activities, number of youths to be recruited including eligible participants who are harder to reach and comprehensiveness of the local selection process.

Letters describing specific resources or services to be contributed by non-applicant organizations must be included in your application. In evaluating this category, HUD will consider:

(i) Specific steps you will take to attract potential eligible participants who are unlikely to be aware of this program (because of race, ethnicity, sex or disability) and selection strategies;

(ii) Special outreach efforts you will make to recruit eligible young women, young women with dependent children, and persons receiving public assistance; and

(iii) Recruitment arrangements you have made with public agencies, courts, homeless shelters, local school systems, local workforce development systems, one-stop centers and, community-based organizations, etc. You will receive a greater number of points if your outreach and recruitment arrangements are consistent with the purpose of the Youthbuild program and your project goals and the resources provided.

(b) Educational and job training services and activities. HUD will evaluate the extent to which you demonstrate a clear linkage with the following work plan activities and proposed outcomes and results.

Letters describing specific resources or services to be contributed by non-applicant organizations must be included in your application. Points will be awarded based upon the quality and feasibility of your proposed curriculum, qualifications of instructors and proposed wages and stipends for youth participants. In evaluating this category, HUD will consider:

(i) The types of in-class academic and vocational instruction you will provide;

VOL
67
ISS
58
MR
26
2002
UMI

(ii) The number and qualifications of program instructors and ratio of instructors to participants;

(iii) Scheduling plan for classroom and on-the-job training needed to meet program requirements and ensure timely completion of your program; and

(iv) Reasonable payments of participants' wages, stipends, and incentives. You will receive a greater number of points if your educational and job training services are consistent with the purpose of the Youthbuild program and your project goals and the resources provided.

(c) Leadership development. HUD will determine the extent to which you demonstrate a clear linkage with work plan activities and proposed outcomes and results. Letters describing specific resources or services to be contributed by non-applicant organizations must be submitted in your application. Points will be awarded based upon the quality and feasibility of your proposed leadership curriculum, qualifications of instructors and the impact of the proposed leadership activities on the target area. You must describe the leadership development training you will offer to participants and strategies for providing the training to build group cohesion and peer support. You will receive a greater number of points if your leadership development activities are consistent with the purpose of the Youthbuild program and your project goals and the resources provided.

(d) Support services. HUD will determine the extent to which you demonstrate a clear linkage with work plan activities and proposed outcomes and results.

Letters describing specific resources or services to be contributed by non-applicant organizations must be included in your application. Points will be awarded based upon the quality and feasibility of your proposed support services strategy and stipends for the participants.

You must assess the need for counseling and referral services during each stage of program implementation: outreach strategy, recruitment strategy, youths interviewed and not selected for the program, program participants, youths who drop out of the program and graduates of the program. Describe how the participant needs will be addressed, document counseling and referral services to be offered to participants, the type of counseling, social services, and/or need-based stipends you will provide.

Special Note to applicants under Category 4 for Individual Development Accounts:

Applicants under this Category should precisely identify the target population(s) to be served and provide a description of the geographic area to be impacted. Applicants that target individuals residing in one or more well defined neighborhoods or communities (including public housing developments, RCs/EZs/ECs) that experience high rates of poverty or unemployment will also receive a greater number of points under this subfactor. Applicants applying under Category 4 should describe, in outline form, how the IDA program would operate. The applicant should outline: (i) The process for the recruitment of participants; (ii) how participants will be selected; (iii) how and with what assistance will the participant determine the levels of savings and purpose or qualified expenses; (iv) when, where and with whom the participant is to sign a savings plan agreement; (v) the process for opening an IDA account and the role of the participating financial institution; (vi) how and where savings deposits are to be made and the consequences to a participant should the participant fail to make a scheduled deposit; (vii) where, when and from whom the participant will receive financial literacy, credit repair and other training and support services; (viii) where, when and from whom will the participant receive training needed support to remain employed to assure continued savings from earned income; (ix) where, when and from whom the participant will receive training needed with respect to the qualified expenditure or purpose of the IDA, in the area of homeownership, pursuit of educational goal, business plan development and management, etc.; and (x) when, where and how the participant will make withdrawals to support the purposes of the IDA, once the IDA savings and match goals have been achieved. Applicants must also identify the state or Federal institution with which they are partnering in the development and implementation of their IDA project.

All applicants under Category 4 must include a copy of a signed agreement between the applicant and the financial institution(s), which sets forth: (i) That the project's reserve fund will be established in the financial institution; (ii) the rate of interest to be paid on amounts in the reserve fund; (iii) how, when, and where participant deposits will be made; (iv) how and when matching contributions will be made (e.g. in a parallel account); (v) the rate and frequency of interest payments on accounts, including matching contributions; (vi) the data and reports that will be furnished to the grantee concerning the reserve fund and IDA accounts; (vii) the contribution, if any, being made by the financial institution for deposit in the reserve fund, and the schedule of deposits of such contribution; and (viii) other services to be provided by the financial institution(s) that could strengthen the project, such as financial education seminars, favorable pricing on fees, out-stationing of services in community facilities, or assistance in recruitment of project participants. The narrative response to this subfactor need only identify the partnering financial institution(s) and reference the agreement(s) provided with the application.

Applicants will receive a greater number of points if your support service activities are consistent with the purpose of the Youthbuild program and your project goals and the resources provided.

(e) Follow-up assistance and support activities to program graduates. HUD will evaluate the extent to which you provide assistance to Youthbuild program participants after graduation. Letters describing specific resources or services to be contributed by non-applicant organizations must be included in your application. Points will be awarded based upon the quality and feasibility of your proposed strategy. You must describe the type of proposed assistance and support which should be based upon an assessment of the needs of the program graduates and should include continued linkage to the local Youthbuild program, counseling and social service referral services. You will receive a greater number of points if your follow-up assistance and support service activities to program graduates are consistent with the purpose of the Youthbuild program and your project goals and the resources provided.

(f) On-site training. HUD will evaluate the extent to which the work plan provides for quality and comprehensive on-site construction training by addressing the categories below. Letters describing specific resources or services to be contributed by any non-applicant organizations must be included in your application. Points will be awarded based upon the quality and feasibility of your proposed curriculum, experience of proposed instructors, number of youth to be trained and wages or stipends for participants. HUD will consider:

(i) The housing construction or rehabilitation activities participants will undertake at the site(s) to be used for the on-site training component of the program as provided in the training curriculum and methodology for carrying out on-site training;

(ii) The qualification and number of on-site supervisors;

(iii) The ratio of trainers to participants;

(iv) The number of participants per site; and

(v) The amounts, wages, and/or stipends you will pay to participants during on-site work.

All applicants will receive a greater number of points if your on-site training plan is consistent with the purpose of the Youthbuild program and your project goals and the resources provided.

(2) Strategy for Job Placement. (10 points)

HUD will evaluate the quality and feasibility of your proposed strategy to place youth participants in permanent jobs.

Letters describing specific resources or services to be contributed by non-applicant organizations must be included in your application. You will be rated on the following factors: (a) Proposed number of youth to obtain jobs that promote economic self-sufficiency (*i.e.* those that are a part of career paths or apprenticeship programs); (b) proposed number of youths who will continue post-secondary or secondary education; (c) proposed number of youths to receive entrepreneurship training. Two points of this factor will be awarded based upon the comprehensiveness and feasibility of your strategies and procedures to place youth participants in related apprenticeships and commitments from construction trade unions. You will receive a greater number of points if your strategy for job placement is consistent with the purpose of the Youthbuild program, your proposed project and the resources provided.

(3) Expected Outcomes. (5 points). Describe the number of youths to be trained and the number of housing units to be rehabilitated or constructed. As a part of this evaluation, HUD will assess the cost effectiveness of your stated outcomes as compared to the funds that you are requesting in the Youthbuild Grant Budget. You will receive a greater number of points if your proposed outcomes are consistent with the purpose of the Youthbuild program, your proposed project and the resources provided.

(4) Housing Program Priority. (10 points) HUD will assign Housing Program Priority points to all applications that contain evidence that housing resources for other Federal, State, local or private sources that are available and firmly committed to cover all costs, in full, for the following housing activities for the proposed Youthbuild program: acquisition, architect and engineering fees, construction, and rehabilitation. Applications that do not include proper documentation of firm financial commitments of non-Youthbuild resources or propose to use Youthbuild grant funds, in whole or in part, or do not evidence site control, for any one of the housing activities listed above will not be entitled to housing program priority points. Forms 2C, Housing Site Description, and 2C10, Youthbuild Grant Individual Housing Project Site Estimate, must be completed to receive the Housing Program Priority points.

Rating Factor 4: Leveraging Resources (10 Points)

(Exhibit 4B Non-Housing Program Resources Must Be Complete and You Must Provide Letters of Firm Commitment From the Donor With the Amount of Cash of In-Kind Contribution) This factor addresses the ability of the applicant to secure non-HUD resources. This factor measures the extent to which you have established partnerships with other entities to secure resources for your proposed program. Each commitment described in the narrative for this Factor must have a firm commitment letter. Grantees who leverage significant resources will receive a greater number of points.

HUD will evaluate the extent to which firm commitment of resources are obtained from Federal, State, local, and private and nonprofit sources. HUD will award a greater number of points based upon a comparison of the extent of leveraged funds and the requested Youthbuild grant. The greater the amount of resources leveraged, the higher the points that will be awarded. In assigning points for this criterion, HUD will consider the level of non-applicant resources obtained for cash or in-kind contributions to cover the following kinds of areas:

(1) Social services (*i.e.*, counseling and training);

(2) Use of existing vocational, adult, and bilingual educational courses;

(3) Donation of labor, resource personnel, supplies, teaching materials, classroom, and/or meeting space;

(4) For Individual Development Accounts matching funds, financial services or other resources to be provided in support of such accounts; and

(5) Other commitments. In rating this element, HUD will consider only those contributions for which current firm commitments have been provided. HUD will evaluate the level of non-applicant resources proposed based on their importance to the total program. Leveraging will only be counted if you have secured a firm financial commitment. A firm commitment letter means the agreement by which an applicant's partner or contributing entity agrees to perform an activity specified in the application and demonstrates the financial capacity to deliver the resources necessary to carry out the activity, and commits the resources to the activity either in cash, through in-kind services or contributions and is irrevocable, subject only to approval and receipt of a FY 2002 Youthbuild grant. For all applicants, each letter of commitment should include the organization's name, the applicant's name, the proposed program, the proposed total level of commitment and responsibilities as they relate to the proposed program. The commitment must also be signed by an official of the organization legally able to make commitments on behalf of the organization and not earlier than the date that this NOFA is published. In documenting a firm commitment, the applicant's partner or contributing entity must:

(i) Specify the authority by which the commitment is made, the amount of the commitment and the use of funds. If the committed activity is to be self-financed, the applicant's partner or contributing entity must evidence its financial capability through a corporate or personal financial statement or other appropriate means. If any portion of it is to be financed through a lending institution, the participant must evidence the institution's commitment to fund the commitment.

(ii) State the amount and use of the commitment, and the relationship of the commitment to the proposed investment; and

(iii) Affirm that its investment is contingent only upon receipt of FY 2002 Youthbuild funds and state a willingness on the part of the signatory to sign a legally binding commitment (conditioned on HUD environmental review and approval of a property, where applicable) upon award of the grant.

Resources from other Federal, State, Local governments or Private Entities. HUD encourages use of existing housing and homeless assistance programs administered by HUD or other Federal, State, local governments, or private and nonprofit housing programs as part of your Youthbuild program. In addition, HUD encourages use of other non-Youthbuild funds available for vocational, adult, and bilingual

VOL
67
ISS
58
MR
26
2002
UMI

education programs or for job training under the Workforce Investment Act and the Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

Grantees who leverage significant resources will receive more points.

(1) Public sector sources—Federal, State, or local government sources to provide resources to carry out Youthbuild activities. (5 points)

(2) Private or nonprofit sector sources to provide resources to carry out Youthbuild activities. (5 points)

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which your proposed program is coordinated with other ongoing and related activities in the area you propose to serve, how well your program outcomes result in increased independence and empowerment to your beneficiaries, and your organization's ability to becoming financially self-sustaining into the future absent any HUD funding. Your response to this sub-factor should provide a clear statement of the adverse conditions to be addressed by your organization's assistance, the expertise of your organization in addressing those conditions and your plans for ensuring that your organization will be able to sustain those efforts without further assistance from HUD at the conclusion of the grant period. HUD will evaluate the extent to which your application meets the following three elements: (1) *Coordination of activities* (4 points). The extent to which you have coordinated your activities with other known organizations that are not directly in your proposed work activities, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner. The goal of coordination is to ensure that programs do not operate in isolation. The more your activities are coordinated with other agencies in your service area, the more points you will receive. An example of coordination activities would be the applicant's partnership with an existing child day care facility (which is not funded by program) that provides day care services to the Youthbuild participants during the hours they are being trained or receiving education. (2) *Self-Sufficiency* (3 points) The extent to which your application implements practical solutions within the grant term that result in assisting beneficiaries of grant program funds in achieving independent living, economic empowerment, educational opportunities, housing choice or improved environments which are free from environmental hazards such as lead hazards, brownfields, overcrowded housing, etc. Applicants that clearly describe the extent to which proposed activities result in increased independence and empowerment for their beneficiaries will receive higher points in this sub-factor. (3) *Sustainability* (3 points). The extent to which your program exhibits the potential to be financially self-sustaining by decreasing dependence on Youthbuild funding and relying more on state, local and private funding so your activities can be continued after your grant award is complete. Applicants that demonstrate a reduced dependence on Youthbuild funds over the life of their award will receive a greater number of points for this sub-factor. This decreasing dependence on Youthbuild funds should be present in a workplan that explains how this independence will be achieved.

VII. Application Submission Requirements

(A) *Site Access Submission Requirements.* You must submit identification of specific housing sites, and firm evidence of site access.

(1) Guidance on evidence of site access:

(i) If the applicant or joint applicant has a contract or option to purchase the property, you should provide a statement to that effect and include a copy of the contract or option;

(ii) If a third party owns the property or has a contract or option to purchase, that third party must provide a letter to you stating the nature of the ownership and specifically providing you with access to the property for the purposes of the program and the time frame in which the property will be available. In the case of a contract or option, include a copy of the document; and

(iii) You must provide the required certification that the proposed activities are consistent with the HUD-approved Consolidated Plan in accordance with 24 CFR part 91 and referenced in the General Section of the SuperNOFA.

(B) *Category 3 applicants only.* You must state that the proposed project to be established will be located in an underserved or rural area as defined in Section (VI)(B)(3) of this notice.

(C) *Application Items.* Your application must contain the items listed in this section. These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively, referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (*i.e.*, excluding such items as narratives, letters), referred to as the "non-standard forms" can be found as Appendix B to this program section of the SuperNOFA. The items are as follows:

(1) SF–424, Application for Federal Assistance.

(2) HUD–424M, Federal Assistance Funding Matrix.

(3) SF–424A, Budget Information for Non-Construction Programs.

(4) SF–424B, Assurances for Construction Programs.

(5) SF–424C, Budget Information for Construction Programs.

(6) HUD–50070, Certification of Drug-Free Workplace.

(7) HUD–2880, Applicant/Recipient Disclosure/Update Form.

(8) HUD–50071, Certification of Payments to Influence Certain Federal Transactions;

(9) SF–LLL, Disclosure of Lobbying Activities (if applicable);

(10) HUD–2992, Certification Regarding Debarment and Suspension;

(11) Letters from property owners allowing access to the housing site for construction training.

(12) Submission of 501(c)(3) status and/or letter certifying non-profit status if the applicant is a public non-profit organization.

(13) Narrative Response to Factors for Award.

Factor 1—Capacity of the Applicant and Relevant Organizational Experience.

Factor 2—Need/Extent of the Problem.

Factor 3—Soundness of Approach, including the following non-narrative items: (a) Completed Youthbuild Grant Budget (Exhibit 4A), (b) housing site description (Exhibit 2C), (c) Youthbuild Grant individual housing site estimate (Exhibit 2C10), (d) letters from non-applicant resource providers describing contributions or support, (e) documentation necessary to complete environmental review (Exhibit 2C15), and description of relocation, if applicable.

Factor 4—Leveraging Resources, including your letters(s) evidencing the leveraged commitment(s), which will not be counted in the 15 page limitation.

Factor 5—Coordination, Self Sufficiency and Sustainability, include HUD–2991, Certification of Consistency with the Consolidated Plan.

(14) HUD–2990, Certification of Consistency with the EZ/EC Strategic Plan (if applicable);

(D) The total narrative response to all factors identified in Section VI(C)(13) of this program NOFA must not exceed 15 pages, and must be submitted on 8.5" by 11" paper, using a 12 point font, with lines double-spaced and printed only on one side. Please note that submitting pages in excess of the page limit will not disqualify your application. However, HUD will neither review nor consider the information on any excess pages, which may result in a lower score or failure to meet a threshold.

VIII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

IX. Environmental Requirements

Environmental procedures apply to HUD approval of grants when you propose to use Youthbuild funds to cover any costs for the lease, acquisition, rehabilitation, or new construction of real property proposed for housing project development. Environmental procedures do not apply to HUD approval of your application when you propose to use your Youthbuild funds solely to cover costs for classroom and/or on-the-job construction training and support services.

If you propose to use your Youthbuild funds to cover any costs of the lease, acquisition, rehabilitation, or new construction of real property, you must submit all relevant environmental information in your application to support HUD decision-making in accordance with the environmental procedures and standards set forth in HUD Regulation 24 CFR 585.307.

X. Authority

This program is authorized under subtitle D of title IV of the Cranston-Gonzalez National Affordable Housing Act, as added by section 164 of the Housing and Community Development Act of 1992 (Pub. L. 102–550, 106 Stat. 3723, 42 U.S.C. 12899). The Youthbuild Program regulations are found in 24 CFR part 585.

Appendix A—Instructions for Completion of Youthbuild Environmental Requirements (Exhibit 2C(15))

A. Instructions to Applicants

1. If you propose to use Youthbuild funds to cover any costs of the lease, acquisition, rehabilitation, or new construction or real property, you shall submit all relevant environmental information in your application to support HUD decision making in accordance with the environmental procedures and standards set forth in 24 CFR 585.307. For each proposed Youthbuild property for which HUD environmental procedures apply, you are to prepare a separate Exhibit 2C(15) in which you supply HUD with environmental threshold information and letters from qualified data sources (see definition below) which support the information. HUD will review your submission and determine how, if necessary, HUD will comply with any Federal laws and authorities that may be applicable to your property proposed for Youthbuild funding. If environmental procedures apply and Exhibit 2C(15) with supporting documentation is not included then the application will be deemed ineligible.

You are to follow these instructions for preparing Exhibit 2C(15). The instructions advise you on how to obtain and document certain information to be supplied to HUD in this exhibit. Before selecting a property for Youthbuild funding, you should read these instructions and be advised that HUD encourages you to select, to the extent practicable, properties and locations that are free of environmental hazards and problems discussed in these instructions. The responses to the environmental criteria in Exhibit 2C(15) will be used to determine environmental approval or disapproval by HUD of proposals for physical development of properties.

2. After selecting a property for proposed Youthbuild funding, you are to determine the activities to be undertaken with your Youthbuild funds. You are to indicate in Section E whether the Youthbuild funds will be used for:

(a) Lease or purchase of a property;

(b) Minor rehabilitation or

(c) Major rehabilitation; or

(d) New construction of housing.

The activities proposed for Youthbuild funding will determine the kind of data that you will need to obtain from a qualified data source in order to complete Exhibit 2C(15).

3. Once you have selected a property and determined the activities for Youthbuild funding, you are advised to check with your city or county agency that administers HUD's Community Development Block Grant program and performs environmental reviews, or the local planning agency. The reason is that most, if not all, the data needed for preparing Exhibit 2C(15) is readily available from the local community development agency and the local planning agency. You are advised to ask the environmental staff of those agencies the following:

(a) Has the agency ever prepared an environmental review of the proposed Youthbuild property or the neighborhood in which the property is located, and if so, would it provide a copy to the applicant for use by HUD;

(b) Would the agency assist you in completing section G; or if the agency is not able to help complete any item in section G, would the agency advise you which local or State agency is the appropriate qualified data source for obtaining the information.

Also, you should check with the local planning agency before proceeding elsewhere for the information.

You are advised that the cost of preparing information and analyses needed for Exhibit 2C(15) is an eligible cost under the Youthbuild program and is reimbursable if you are approved for a grant.

4. The following definitions are of key terms used in these instructions. Most of the other terms are technical and their definition would be known to qualified data sources.

(a) Qualified data source means any Federal, State or local agency with expertise or experience in environmental protection (e.g., the local community development agency; the land planning agency; the State environmental protection agency; the State Historic Preservation Officer) or any other source qualified to provide reliable information on the particular subject. A letter supporting the information from each qualified data source is to be attached to Exhibit 2C(15).

(b) Minor rehabilitation means proposed fixing and building repair:

(i) Where the estimated cost of the work is less than 75 percent of the property value after completion;

(ii) That does not involve changes in land use from residential to nonresidential, or from nonresidential to residential;

(iii) That does not involve the demolition of one or more buildings, or parts of a building, containing the primary use served by the project; and

(iv) That does not increase unit density by more than 20 percent.

For minor rehabilitation of a building located in a floodplain, the criteria for substantial improvement modify this definition. (See Item B 3 below)

(c) Major rehabilitation means proposed fixing and building repair:

(i) Where the estimated cost of the work is 75 percent or more of the property value after completion; or

(ii) That involves changes in land use from residential to nonresidential, or from nonresidential to residential; or

(iii) That involves the demolition of one or more buildings, or parts of a building, containing the primary use served by the project; or

(iv) That increases unit density by more than 20 percent.

(d) Multifamily housing means any residential building that contains five or more apartments or rooming units.

(e) Single-family housing means any residential building that contains one-to-four dwelling units.

Because each Federal environmental law or authority has compliance requirements that differ according to the type of proposed activity to be funded, you are required to supply information in Exhibit 2C(15) only for the type of activity for which the Youthbuild grant will be used.

(a) If you propose new construction or major rehabilitation of multifamily housing, you must supply complete and reliable environmental threshold information for items 1 through 13 in section G.

(b) If you propose new construction of single family housing, you must supply complete and reliable environmental threshold information for items 1 through 12 in section G.

VOL
67
ISS
58
MR
26
2002
UMI

(c) If you propose minor rehabilitation of multifamily or single-family housing, or the purchase or lease of a property, you must supply complete and reliable environmental threshold information for items 1 through 7 in section G.

5. Applicants subject to HUD's environmental procedures are to submit Exhibit 2C(15) and accompanying documentation to HUD with the applications for grant assistance. Such applicants are prohibited from committing or expending State, local or other funds to undertake property rehabilitation, construction (including demolition), or acquisition (including lease), until HUD and the grantee execute a grant agreement for the proposed Youthbuild project.

6. HUD reserves the right to disqualify any application where one or more environmental thresholds are exceeded if HUD determines that the compliance review cannot be conducted and satisfactorily completed within the HUD review period for Youthbuild applications.

B. Environmental Threshold and Documentation Requirements

The threshold and documentation requirements for each of the Federal environmental laws and authorities are described below, following the same order as they appear in section G .

1. Site within designated coastal barrier resources:

Threshold: Youthbuild applicants are prohibited by Federal law from using Federal financial assistance for properties, if the properties are located within designated coastal barriers of the Atlantic Ocean, Gulf of Mexico, and the Great Lakes (Coastal Barrier Resources Act, as amended, 16 U.S.C. 3501).

* *Documentation:* You are to select either A or B for the condition that best describes the property and report the option selected in item 1 of section G.

A. You state that your program operates in a community that does not contain any shores along the Atlantic Ocean, the Gulf of Mexico, or the Great Lakes.

B. If your program operates in a community that does contain shores along the Atlantic Ocean, the Gulf of Mexico, or the Great Lakes, you must provide HUD with a finding made by a qualified data source stating that the proposed property is not located within a designated coastal barrier resource by citing the map panel number of the official maps issued by the Department of the Interior (DOI) on the basis of which the finding was made.

2. Site contaminated with toxic chemicals and radioactive materials:

Threshold: Under HUD policy, as described in HUD Notice 79–33 (Policy Guidance to Address the Problems Posed by Toxic Chemicals and Radioactive Materials), HUD will not approve the provision of financial assistance to residential properties located on contaminated sites. Sites known or suspected to be contaminated by toxic chemicals or radioactive materials include but are not limited to sites: (i) listed on either an EPA Superfund National Priorities List (NPL) or CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act) List, or equivalent State list; (ii) located within 3,000 feet of a toxic or solid waste landfill site; or (iii) with an underground storage tank (which is not a residential fuel tank).

* *Documentation:* You are to select either A or B for the condition that best describes property and report the option selected in item 2 of section G.

A. You are providing HUD with a finding made by a qualified data source stating that the proposed Youthbuild property and any neighboring properties do not contain any sites known or suspected to be contaminated with toxic chemicals and radioactive materials.

B. You are providing any site contamination data by a qualified data source in your letter for HUD's evaluation of contamination and/or suspicion of any contamination of a proposed property or any neighboring properties.

3. Site affecting a floodplain:

Threshold: A property located within a floodplain and proposed for funding is subject to Executive Order 11988, Floodplain Management. The Executive Order directs HUD to avoid, where practicable, proposed financial support for any floodplain property, whenever HUD has options to approve properties in flood-free locations. The Order does not apply to existing single-family properties proposed for purchase or lease except for: (i) Property that is located within a floodway or coastal high hazard area; and (ii) substantial improvement. Substantial improvement for flood hazard purposes means any property rehabilitation which: (a) Increases the unit density of the property; or (b) equals or exceeds 50 percent of the market value of the property before rehabilitation, but excluding the costs for correcting health, sanitary, and safety code violations. Note: Proposed funding for substantial improvement and new construction are subject to the Executive Order decision-making process. This may result in a disqualification of your application (refer above to number 7 under "Instructions to Applicants").

* *Documentation:* You are to select A or B for the condition that best describes your property and report the option selected in item 3 of section G.

A. You are providing HUD with a finding made by a qualified data source stating that the property is not located within the Special Flood Hazard Area (SFHA).

B. You are providing HUD with a finding made by a qualified data source that the property is located within the Special Flood Hazard Area (SFHA) and indicating if whether the property is located within a floodway or coastal high hazard area.

The information for A and B must provide HUD with the flood map panel number obtained either from the official maps issued for the National Flood Insurance Program or from the property appraisal report used to make the finding.

For all proposed rehabilitation of properties that are located within a SFHA, you must provide HUD with estimates of: (i) the property value before rehabilitation, and (ii) the cost of the proposed rehabilitation. Provide the estimates in section F.

If the property is found to be located within a SFHA, proceed to item 4 on flood insurance protection. Otherwise proceed to item 5.

4. Building requiring flood insurance protection:

Threshold: HUD will estimate the amount and period of flood insurance coverage that is to be made a condition of approval of any HUD financial assistance for a building located within a Special Flood Hazard Area (SFHA). The Flood Disaster Protection Act of 1973 requires owners of HUD-assisted buildings to purchase and maintain flood insurance protection as a condition of approval of any HUD financial assistance for the proposed purchase, rehabilitation, or new construction of any SFHA building. The law prescribes the coverage period and dollar amount of flood insurance protection.

Proof of Purchase of Flood Insurance Protection: You must provide HUD with proof of purchase of flood insurance protection for any proposed Youthbuild building located within the SFHA, whenever HUD funding is being used for property purchase, rehabilitation, or new construction. The standard documentation for compliance is the Policy Declarations form issued by the National Flood Insurance Program (NFIP) or issued by any property insurance company offering coverage under the NFIP. Whenever the requirement applies to coverage which extends to future years, the grant agreement will require that the insured has its insurer automatically forward to HUD, in the same manner as to the insured, an information copy of the Policy Declarations form, which is used to verify compliance. The Youthbuild applicant's responsibility ceases in cases where a mortgage loan is approved requiring flood insurance as condition of loan approval by a lender (other than the Youthbuild applicant), whose responsibility is to assure flood insurance coverage for the loan.

**Documentation:* You are to select either A or B for the condition that best describes your property and report the option selected in item 4 of section G.

A. You already own the property and attach a copy of the Policy Declarations form confirming that a current flood insurance policy is in effect and the policy provides adequate coverage for the building proposed for the Youthbuild project located within the Special Flood Hazard Area.

B. After you have purchased (or constructed, in the case of proposed new construction) the Youthbuild property, you must obtain and maintain flood insurance protection. For the term and amount of coverage prescribed by law, you must provide HUD with a copy of the Policy Declarations form confirming that the flood insurance policy is in effect and the policy provides adequate coverage for the Youthbuild building located within the Special Flood Hazard Area.

5. Site within clear zones or accident potential zones of airports and airfields:

Threshold: HUD policy as described in 24 CFR part 51, subpart D applies to HUD approval of financial assistance to: (a) properties located within clear zones; and (b) in the case of new construction or major rehabilitation, properties located within accident potential zones.

(a) Clear zones: New construction and major rehabilitation of a property that is located on a clear zone site is prohibited. HUD financial assistance in a clear zone is allowed only for the proposed lease, purchase, or minor rehabilitation of properties (24 CFR 51.302(a)). For HUD funding approval for any property in a clear zone: (a) HUD will give advance written notice to the prospective property buyer in accord with 24 CFR 51.303(a)(3); and (b) a copy of the HUD notice signed by the prospective property buyer will be placed in the property file. The written notice informs the prospective property buyer of: (i) The potential hazards from airplane accidents which studies have shown more likely to occur within clear zones than in other areas around the airport/airfield; and (ii) the potential acquisition by airport or airfield operators, who may wish to buy the property at some future date as part of a clear zone acquisition program.

(b) Accident potential zones: For properties located within the accident potential zone (APZ), HUD shall determine whether the use of the property is generally consistent with Department of Defense "Land Use Compatibility Guidelines for Accident Potential Zones."

**Documentation:* You are to select either A or B for the condition that best describes your property and report the option selected in item 5 of section G.

A. The property is not located within 3,000 feet of a civil airport or military airfield.

B. If your property is located within 3,000 feet of a civil airport or military airfield, you must provide HUD with a finding from the airport operator stating whether or not the property is located within a runway clear zone at a civil airport, or a clear zone or accident potential zone at a military airfield.

For properties that are located within a runway clear zone or a clear zone or accident potential zone, if you propose to rehabilitate such a property you must provide HUD with estimates of: (i) The cost of the proposed rehabilitation, and (ii) the property value after completion of the rehabilitation. The estimates are to be provided in section F.

6. Site is or affects an historic property:

Threshold: Only if a property is proposed for rehabilitation or new construction must HUD in consultation with the State Historic Preservation Officer (SHPO), and following the Department of the Interiors Standards and Guidelines for Evaluation, make a determination whether the property is:

(a) Listed on or formally determined to be eligible for listing on the National Register of Historic Places;

(b) Located within or directly adjacent to an historic district; or

(c) A property whose area of potential effects includes an historic district or property.

Historic properties and districts are subject by law to special protection and historic preservation processing which HUD must perform to comply with the regulations of the Advisory Council on Historic Preservation (ACHP: 36 CFR part 800). Note: If you are using information from the SHPO as a qualified data source you need to allow sufficient time to obtain the information from the SHPO. You may wish to make special arrangements with the SHPO for rapid review of the proposed property where this is practicable. In addition, for properties determined to be historic properties, HUD will require 30 to 90 days in most cases for HUD to perform historic preservation compliance with the ACHP regulations. This may result in a disqualification of the application (refer above to number 7 under "Instructions to Applicants").

**Documentation:* You are to select one of the following options that best describes the condition of your property and report the option selected in item 6 of section G.

A. You propose financial assistance for rehabilitation or new construction, and are providing HUD with a SHPO's finding that the proposed Youthbuild activity:

1. Is located within an area where there are no historic properties; or

2. Will have no effect on historic properties; or

3. Will have an effect on historic properties not considered adverse

B. You propose financial assistance for rehabilitation or new construction, and are providing HUD with a SHPOs finding that the proposed Youthbuild activity will have an adverse effect on historic properties.

C. You are providing HUD with a copy of a letter from the SHPO stating any reasons for not being able to provide you with the requested information and finding.

7. Site near hazardous industrial operations:

Threshold: Properties that are located near hazardous industrial operations handling fuels or chemicals of an explosive or flammable nature are subject to HUD safety standards (24 CFR 51, Subpart C). However, under the Youthbuild program, these standards would apply only if you propose: (i) Construction of a building; (ii) conversion of a non-residential land use to a residential land use including making habitable a building condemned for habitation; or (iii) rehabilitation that increases the density of a residential structure by increasing the number of dwelling or rooming units. In the case of tanks containing common liquid fuels, the requirement for an acceptable separation distance (ASD) calculation only applies to storage tanks that have a capacity of more than 100 gallons.

**Documentation:* You are to select one of the following options that best describe the condition of the property, and report the option selected in item 7 of section G.

A. The proposed project does not include: (i) Construction of a building; (ii) conversion of a non-residential land use to a residential land use including making habitable a building condemned for habitation; or (iii) rehabilitation that increases the density of a residential structure by increasing the number of dwelling or rooming units.

B. The proposed project includes: (i) construction of a building; (ii) conversion of a non-residential land use to a residential land use including making habitable a building condemned for habitation; or (iii) rehabilitation that increases the density of a residential structure by increasing the number of dwelling or rooming units; and you are providing HUD with a finding by a qualified data source that the proposed property is not located within the immediate vicinity of hazardous industrial operations handling fuel or chemicals of an explosive or flammable nature by citing data used and the maps used.

C. The applicant proposes: (i) Construction of a building; (ii) conversion of a non-residential land use to a residential land use including making habitable a building condemned for habitation; or (iii) rehabilitation that increases the density of a residential structure by increasing the number of dwelling or rooming units; and the grantee provides HUD a finding made by a qualified data source stating: (1) That the proposed property is located within the immediate vicinity of hazardous industrial operations handling fuel or chemicals of an explosive or flammable nature; (2) the type and scale of such hazardous industrial operations; (3) the distance of such operations from the proposed property; (4) a preliminary calculation of the acceptable separation distance (ASD) between such operations and the proposed property; and (5) a recommendation as to whether it is safe to use the property in accord with 24 CFR 51, Subpart C.

8. Site near high noise source:

Threshold: For new construction which is to occur in high noise areas (i.e. exceeding 65 decibels), applicants shall incorporate noise attenuation features to the extent required by HUD environmental criteria and standards contained in Subpart B (Noise Abatement and Control) of 24 CFR part 51. Approvals in a Normally unacceptable noise zone require a minimum of 5 decibels additional sound attenuation for buildings having noise-sensitive uses if the day-night average sound level is greater than 65 decibels but does not exceed 70 decibels, or a minimum of 10 decibels of additional sound attenuation if the day-night average sound level is greater than 70 decibels but does not exceed 75 decibels.

Proposed housing sites with above 75 decibels are unacceptable and the noise attenuation measures require the approval of the Assistant Secretary for Community Planning and Development. In Unacceptable noise zones, HUD strongly encourages conversion of noise-exposed sites to non-housing land uses compatible with the high noise levels.

For major rehabilitation projects involving five or more dwelling units located in the "Normally Unacceptable" and "Unacceptable" noise zones, HUD actively seeks to have project sponsors incorporate noise attenuation features, given the extent and nature of the rehabilitation being undertaken and the level of exterior noise exposure.

**Documentation:* You are to select A or B for the condition that best describes their project and report the option selected in item 8 of section G.

A. You are providing HUD with a finding made by a qualified data source stating that the property proposed by the applicant for a major rehabilitation or new construction project involving five or more dwelling units is not located within: (I) 1,000 feet of a major noise source, road, or highway; (ii) 3,000 feet

of a railroad; or (iii) 1 mile of a civil or 5 miles of a military airfield.

B. The applicant provides HUD with a finding made by a qualified data source: (I) Stating that the plans for the property proposed by the applicant for a major rehabilitation or new construction project involving five or more dwelling units will incorporate noise attenuation features in accord with HUD environmental criteria and standards contained in Subpart B (Noise Abatement and Control) of 24 CFR part 51; (ii) stating whether the property is located within a "Normally Unacceptable" or "Unacceptable" noise zone; and (iii) providing HUD plans and a statement of the anticipated interior noise levels.

9. Site affecting coastal zone management:

Threshold: Only for proposed activities involving new construction or major rehabilitation of multifamily housing does the Coastal Zone Management (CZM) authority apply. Projects that can affect the coastal zone must be carried out in a manner consistent with the approved State coastal zone management program under Sec. 307 of the Coastal Zone Management Act of 1972, as amended.

**Documentation:* You are to select either A or B for the condition that best describes the project and report the option selected in item 9 of section G.

A. You state that your project is not located within a coastal zone, as defined by the States Coastal Zone Management Plan.

B. If your project is located within a coastal zone, you are providing HUD with a finding made by the State CZM agency that the project proposed by the applicant is consistent with the approved State coastal zone management program.

10. Site affecting a sole source aquifer:

Threshold: The sole source aquifer authority applies primarily to activities involving proposed new construction or conversion to housing of non-residential property. Projects which can affect aquifers designated by the Environmental Protection Agency (EPA) must be reviewed for impact on such designated aquifer sources. The Safe Drinking Water Act of 1974 requires protection of drinking water systems which are the sole or principal drinking water source for an area and which, if contaminated, would create a significant hazard to public health.

**Documentation:* You are to select either A or B for the condition that best describes their project and report the option selected in item 10 of section G.

A. You are providing HUD with a finding made by a qualified data source stating that the proposed property is not located on nor does it affect a sole source aquifer designated by EPA.

B. If your project proposes new construction or conversion activities that are located on or may affect any sole source aquifer designated by the EPA, you are identifying the aquifer and providing HUD with an explanation of the effect on the aquifer from a qualified data source, and/or a copy of any comments on the proposed project that have been received from the EPA Regional Office as well as from any State or local agency with jurisdiction for protecting the drinking water system.

11. Site affecting endangered species:

Threshold: The Endangered Species Protection (ESP) authority applies primarily to activities involving proposed new construction or conversion to housing of a non-residential property. Projects which can affect listed or proposed endangered or threatened species or critical habitats require consultation with the Department of the Interior in compliance with the procedure of Section 7 of the Endangered Species Act of 1973, as amended.

**Documentation:* You are to select either A or B for the condition that best describes the property and report the option selected in item 11 of section G.

A. If your project proposes new construction or conversion activities, you are providing HUD with a finding made by a qualified data source that the project is not likely to affect any listed or proposed endangered or threatened species or critical habitat. The finding shall indicate whether the project is located within a critical habitat, and if so, explain why the project is not likely to affect the species or habitat.

B. If your project proposes new construction or conversion activities that are likely to affect listed or proposed endangered or threatened species or critical habitat, you are providing HUD with a statement from a qualified data source explaining the likely affect, and/or a finding made by the Fish and Wildlife Service of the Department of the Interior stating as acceptable the proposed mitigation that you will provide to protect any affected endangered or threatened species or critical habitat.

12. Site affecting a designated wetland:

Threshold: New construction or conversion to housing of a non-residential property located within a designated wetland is subject to Executive Order 11990, Protection of Wetlands. This Executive Order directs HUD to avoid, where practicable, financial support for new construction on wetland property. Note: Proposed funding for new construction or conversion is subject to the Executive Order decision making process. This may result in a disqualification of the application (refer above to number 7 under "Instructions to Applicants").

**Documentation:* You are to select A or B for the condition that best describes the property and report the option selected in item 12 of section G.

A. You are providing HUD with a finding made by a qualified data source stating that the property is not located within a designated wetland where new construction or conversion is proposed.

B. You are providing HUD with a finding made by a qualified data source that the property is located within a designated wetland, which applies only to property where new construction or conversion is proposed.

The information for A and B must provide HUD with the wetland panel number obtained from official maps issued by the Department of the Interior on the basis of which the finding was made, or where DOI has not mapped the area, a letter or other documentation from the Army Corps of Engineers or other Federal agency.

13. Significant impact to the human environment:

Threshold: HUD must perform an environmental assessment of any property proposed for major rehabilitation or new construction except for a single-family property having one-to-four dwelling units. It is the policy of the Department to reject proposals which have significant adverse environmental impacts and to encourage the modification of projects in order to enhance environmental quality and minimize environmental harm. This policy is authorized by the National Environmental Policy Act (NEPA) and the implementing regulations of the Council on Environmental Quality and HUD's Environmental Rule at 24 CFR part 50.

**Documentation:* You are to provide HUD with any information on any adverse environmental impacts that affect the property or that the project would create. You are to report this data on a separate sheet and attach it to Exhibit 2C(15). Examples of adverse impacts are: soil instability and erodibility; natural or person-made hazards and nuisances; air pollution; inadequate infrastructure (e.g., water supply, waste water treatment, storm water management, solid waste collection), inadequate public services (i.e., fire, police, health care, social services, schools, parks) and transportation; and encroachment on prime farmlands and wild and scenic river areas. You are to identify any significant impacts to the human environment.

Appendix B

The non-standard forms, which follow, are required for your Youthbuild application.

BILLING CODE 4210-32-P

APPENDIX B

Exhibit 2F: Court-ordered Consideration

Due to an order of the U.S. District Court for the Northern District of Texas, Dallas Division, with respect to any application by the City of Dallas, Texas, for HUD funds, HUD shall consider the extent to which the Youthbuild strategy for the Dallas area will be used to eradicate the vestiges of segregation in the Dallas Housing Authority's low-income housing programs.

Is the applicant the City of Dallas, Texas?

☐ **No**

☐ **Yes**

If "yes", please attach a statement that addresses the effect(s), if any, that vestiges of racial segregation in the Dallas Housing Authority's low-income programs have no potential participants in the Youthbuild program and identify proposed actions for remedying those vestiges. Label this documentation Exhibit 2F.

2 C. Housing Site Description

Complete **all** sections.

1. Housing Site Identification	2. Number of housing units planned to be produced	3. Type of housing to be produced: (check all that apply) ☐ residential rental ☐ homeownership ☐ transitional housing for the homeless

4. Homeless Housing: For housing that will be transitional housing for the homeless, attach a description of the plan for the outreach and placement of homeless families or individuals. (1 page) **Label this narrative Exhibit 2C4.**

5. Will all housing produced be provided for homeless, low-income, or very-low income persons? ☐ Yes ☐ No	6. The on-site training will consist of: ☐ New Construction ☐ Rehabilitation
7. Are any of the units currently occupied? ☐ Yes ☐ No If yes, attach a relocation narrative that identifies: the number of persons, the business or others occupying the property on the date of submission of this application, the number to be displaced, the number to be temporarily relocated but not displaced, the estimated cost of relocation services payments and services, the source of funds for relocation, and the organization that will provide relocation assistance to occupants and the contact person's name and phone number. **Label this attachment as Exhibit 2C7.**	8. Name of the current owner of the property.

9. Documentation of Access: Attach required evidence of site access. (Letter from the owner identified in No. 8) **Label this attachment Exhibit 2C9.**

10. Individual Housing Project Site Estimate and Documentation of Resources

Complete the attached Exhibit 2C10 for each housing project site to be used in conjunction with the Youthbuild implementation program. **Attach documentation of resources behind each Exhibit 2C10.**

11. Describe the applicant's role and responsibilities for the on-site housing construction or rehabilitation work. **Label this description Exhibit 2C11.**

12. Name the entity which will own and manage the property after the construction or rehabilitation work is completed.	13. Housing Project Certifications. Housing Certifications are Attached: ☐ Yes ☐ No
14. Model Lease A Model Lease is attached: ☐ Yes ☐ No	15. Environmental Threshold Information for Property Proposed for Youthbuild funding Exhibit 2C15 and supporting documentation is attached: ☐ Yes ☐ No

16. Picture: (optional) Provide a picture of each potential housing site. **Label it Exhibit 2C16.**

2 C 15: Environmental Threshold Information for a Property Proposed for Youthbuild Funding

(See instructions for completing this exhibit.)

Youthbuild Applicant's Name.	Contact Person's Name.	Phone Number (include Area Code).

A. Street address for the property:(include City, State, Zip Code)

B. Attach a map of the community and mark on themap the location of the property.
Map is attached: Yes ☐ No ☐

C. Attach a copy of any environmental review for the property obtained from the local qualified data source.
Environmental review is attached: Yes ☐ No ☐

D. Indicate the present and proposed use of the property (i.e., whether single-family, multifamily or non-residential); and number of dwellings or rooming units.
Present use: No. of units: _____
Proposed use: No. of units: _____

E. Indicate the activities for which you are proposing to use Youthbuild funds for the property.
☐ Lease or purchase of a property ☐ Major Rehabilitation ☐ Minor Rehabilitation ☐ New Construction

F. If the proposed Youthbuild property is located within a floodplain, or a clear zone or accident potential zone of an airport or airfield, provide the following information:

Property value before rehabilitation (est. in thousands)	Rehabilitation costs (est. in thousands)	Property value after completion of rehabilitation (est. in thousands)
$	$	$

G. For new construction or major rehabilitation of multifamily housing, complete items 1 through 13. For new construction of single-family housing, complete items 1 through 12. For minor rehabilitation of multifamily or single-family housing, or for the purchase or lease of a property, complete items 1 through 7. The designation "A" or "B" or "C" refers to the type of documentation required by the instructions contained in the Appendix

1. Site within designated coastal barrier resources: Indicate A or B ____
2. Site contaminated with toxic chemicals and radioactive materials: Indicate A or B ____
3. Site affecting a floodplain: Indicate A or B ____
4. Building requiring flood insurance protection: Indicate A or B ____
5. Site within clear zones or accident potential zones of airports and airfields: Indicate A or B ____
6. Site is or affects an historic property: Indicate A, B, or C ____
7. Site near hazardous industrial operations: Indicate A, B, or C ____
8. Site near high noise source: Indicate A or B ____
9. Site affecting coastal zone management: Indicate A or B ____
10. Site affecting a sole source aquifer: Indicate A or B ____
11. Site affecting endangered species: Indicate A or B ____
12. Site affecting a designated wetland: Indicate A or B ____
13. Significant impact to the human environment: Are there any adverse environmental impacts that affect the property or that the project would create?
Yes ☐ If yes, document on separate sheet(s).
No ☐

2 C 13a: Housing Project Certifications For Residential Rental Units

Applicants requesting Youthbuild Grant funds to fund any part of the acquisition, architectural and engineering fees, construction, rehabilitation, operating costs or replacement reserves for a housing project that will be used for residential rental units, must make the following certifications. If the rightful property owner is not the applicant, then these certifications must be signed by that property owner. A separate certification must be signed for each housing project.

The Applicant or Rightful Property Owner certifies that, for a period of not less than ten (10) years after construction or rehabilitation is completed and an occupancy permit is issued for the Youthbuild residential rental housing project receiving Youthbuild assistance, it:

A. Will maintain at least a 90 percent level of occupancy for individuals and families with incomes less than 60 percent of the area median income, adjusted for family size. The remaining ten percent of the units will be made available to and occupied by low-income families. The income test will be conducted only at the time of entry for each unit available for occupancy. Each available rental unit will be made available to the 60 percent-of-area-median-income group for an advertising period of not less than 90 days upon each vacancy occurrence throughout the ten year period. Community-wide advertisements for tenants of this income group will be conducted. If, at the end of the 90-day advertising period, no qualifying tenant leases the unit, the unit will be advertised for individuals and families with incomes between 60 and 80 percent of the area median income, adjusted for family size, for another 90-day period. Leases for tenants whose incomes are between 60 and 80 percent of the area median income (exclusive of the ten percent allowance) will be limited to one year and such temporary tenants are not covered by paragraphs C., E., and F. below.

B. Will use the model lease submitted with the Youthbuild application with any modifications approved by HUD at the time of grant award.

C. Will not terminate the tenancy or refuse to renew the lease of a tenant occupying a Youthbuild residential rental housing unit except for serious or repeated violations of the terms and conditions of the lease, or for violation of applicable Federal, state or local laws, or for other good cause. Any termination or refusal to renew the lease will be preceded by a not less than 30-day written notice to the tenant specifying the grounds for the action.

D. Will maintain the premises in compliance with all applicable HUD, other Federal, State or local program housing quality standards and local code requirements. If no public assistance is involved other than the Youthbuild grant, HUD's Section 8 housing quality standards will be followed.

E. Will develop and adopt a tenant selection plan that:
(1) Is consistent with the purpose of providing housing for homeless and very low-income families and individuals;
(2) Is reasonably related to program eligibility and the certifying entity's ability to perform the obligations of the lease;
(3) gives reasonable consideration to the housing needs of families that would qualify for a preference under section 6(c)(4)(A) of the United States Housing Act of 1937;
(4) provides for the selection of tenants from a written waiting list in the chronological order of their application, to the extent practicable, and for the prompt notification in writing of any rejected applicant of the grounds for any rejection; and
(5) acknowledges that a family holding tenant-based assistance under section 8 of the United States Housing Act of 1937 will not be refused tenancy because of the status of the prospective tenant as a holder of such assistance.

2 C 13b: Housing Project Certifications For Transitional Housing

Applicants requesting Youthbuild Grant funds to fund any part of the acquisition, architectural and engineering fees, construction, rehabilitation, operating costs or replacement reserves for a housing property that will be used for Transitional housing for the homeless must make the certifications below. If the rightful property owner is not the applicant, these certifications must be signed by that owner. A separate certification must be signed for each housing project.

The Applicant or Rightful Property Owner certifies that, for a period of not less than ten (10) years after construction or rehabilitation is completed and an occupancy permit is issued for the Youthbuild transitional housing project receiving Youthbuild assistance, it:

A. Will ensure that the aggregate monthly rental for each Youthbuild project will not exceed the operating costs of the project (including debt service, management, adequate reserves and other documented operating costs) plus a six percent return on any equity investment of the project owner.

B. Will, **if it is a nonprofit organization**, use any profit received from the operation, sale or other disposition of the project for the purposes of providing housing for low- and moderate-income families. Any profit-motivated partners in a nonprofit partnership will receive: (i) not more than a six percent return on their equity investment from project operations; and (ii) upon disposition of the project, not more than an amount equal to their initial equity investment plus a return on that investment equal to the increase in the Consumer Price Index for the geographic location of the project since the time of the initial investment of such partner in the project.

C. Will ensure that the transitional housing project shall adhere to the requirements regarding service delivery, housing standards and rent limitations applicable to comparable housing receiving assistance under title IV of the Stewart B. McKinney Homeless Assistance Act, unless these requirements are expressly waived by the Secretary of HUD to permit the conversion of the project to a permanent housing project.

D. Will not convey ownership of the property unless the instrument of conveyance requires a subsequent owner to comply with the above certifications for the balance of the ten year period.

Signature of Authorized Certifying Official of:

2 C 13c: Housing Project Certifications For Homeownership

Applicants requesting Youthbuild Grant funds to fund any part of the acquisition, architectural and engineering fees, construction, or rehabilitation for a housing property that will be used for homeownership must provide the certifications below. If the rightful property owner is not the applicant, then these certifications must be signed by that property owner. A separate certification must be signed for each housing project.

The Applicant or Rightful Property Owner certifies that, for a period of not less than ten (10) years after construction or rehabilitation is completed and an occupancy permit is issued for the Youthbuild homeownership housing project receiving Youthbuild assistance, it:

A. Will ensure that the homeownership project will comply with the requirements of the HOPE II or HOPE III programs authorized under subtitles B or C respectively of title IV of the Cranston-Gonzales National Affordable Housing Act.

B. Will not convey ownership of the property unless the instrument of conveyance requires a subsequent owner to comply with the above certification for the balance of the ten year period.

FUNDING AVAILABILITY FOR THE RURAL HOUSING AND ECONOMIC DEVELOPMENT PROGRAM

PROGRAM OVERVIEW

Purpose of Program: The purpose of the Rural Housing and Economic Development (RHED) program is to build capacity at the State and local level for rural housing and economic development and to support innovative housing and economic development activities in rural areas. The funds made available under this program will be awarded competitively, through a selection process conducted by HUD in consultation with the United States Department of Agriculture (USDA).

Available Funds: Approximately $25 million in Fiscal Year (FY) 2002 funding.

Eligible Applicants: Local, rural, non-profit organizations; community development corporations; federally recognized Indian tribes; State housing finance agencies; and, State economic development and/or community development agencies.

Application Deadline: April 26, 2002.

Match: None.

ADDITIONAL INFORMATION

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information:

I. Application Due Date, Further Information and Technical Assistance

Application Due Date: Applications for RHED grants are due on or before April 26, 2002.

See the General Section of this SuperNOFA for specific procedures governing the form of application submission (e.g., mailed applications, express mail, or overnight delivery).

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that apply to application submission . Please read the following instructions carefully and completely. HUD will not accept hand-delivered applications. Applications may be mailed using the United States Postal Service (UPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. No other delivery services are permitted into HUD Headquarters without an escort. You must, therefore, use one of the four carriers listed above.

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received in HUD Headquarters on or within fifteen (15) days of the application due date. Applicants must obtain and save a Certificate of Mailing showing the date, when your application was submitted to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/ Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express service no later than the application due date. Due to new security measures, you must use one of four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, FedEx and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday through Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Address for Submitting Applications: Completed applications (one original and two copies) must be submitted to: Processing and Control Unit, Room 7255, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410; ATTN: Office of Rural Housing and Economic Development. When submitting your application, please include your name, mailing address (including zip code), telephone number, and fax number (including area code).

For Application Kits. An application kit is not necessary for submitting an application in response to this announcement. This announcement contains all the information necessary for the submission of your application for the Rural Housing and Economic Development Program.

For Further Information and Technical Assistance. All information and materials required to submit an application for funding under the HUD Rural Housing and Economic Development program are included in the Appendix to this NOFA.

For information concerning the HUD Rural Housing and Economic Development program, contact Mr. Marty Horwath, Community Planning and Development Specialist, or Ms. Holly A. Kelly, Economic Development Program Specialist, Office of Community Planning and Development (CPD), Department of Housing and Urban Development, 451 7th Street, SW., Room 7136, Washington, DC 20410; telephone 202–708–2035 (this is not a toll-free number). Persons with speech or hearing impairments may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

Prior to the application deadline, HUD staff at the number above will be available to provide general guidance, but not guidance in actually preparing the application. Following selection, but prior to award, HUD staff will be available to assist in clarifying or confirming information that is a prerequisite to the offer of an award by HUD.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of an application. For more information about the date and time of this broadcast, consult the HUD web site at *www.hud.gov.*

II. Amount Allocated

(A) *Available Funds.* Approximately $25 million in Fiscal Year (FY) 2002 funding is being made available through this NOFA. The breakdown for this funding is below.

(B) *The FY 2002 HUD Appropriations Act.* The Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2002 (Pub. L. 107–73 approved November 26, 2001) (the "FY 2002 HUD Appropriations Act") made $25 million in FY 2002 funds available under the RHED program.

(C) *Funding Categories/ Maximum Award Amounts.* HUD will award up to approximately $25 million on a competitive basis in the following funding categories. Applicants must apply for funds in one of the two categories: Category (1), Capacity Building; or Category (2), Support for Innovative Housing and Economic Development Activities. Only one application will be accepted from any given organization.

(1) *Capacity Building.* HUD will award up to approximately $10 million to build capacity. This amount will go directly to local rural non-profits, community development corporations (CDCs) and federally recognized Indian tribes to increase an organization's capacity to support innovative housing and economic development activities. The maximum amount awarded to a successful applicant in this category will be $150,000. If you received two or more RHED grant for capacity building since 1999, you are not eligible to apply

VOL
67
ISS
58
MR
26
2002
UMI

under this category. If you received an RHED grant in 2001 for capacity building, you are eligible for a maximum award of $100,000 under this category.

(2) *Support for Innovative Housing and Economic Development Activities.* HUD will award up to approximately $15 million to federally recognized Indian tribes, State Housing Finance Agencies (HFAs), state community and/or economic development agencies, local rural non-profits and CDCs to support innovative housing and economic development activities in rural areas nationwide. The maximum amount awarded to a successful applicant in this category will be $400,000.

III. Program Description; Eligible Applicants; Eligible Activities

(A) Program Description.

(1) *Background.* There is a great need for expanding the supply of housing in rural America, particularly affordable housing for low-income families and individuals. A number of rural areas have experienced rapid growth as a result of employment opportunities, and now face a shortage of affordable housing. In other rural areas, out-migration other factors contributing to economic dislocation, have caused severe economic distress. There has been a growing national recognition of the need to enhance the capacity of federally recognized Indian tribes, local rural non-profits, CDCs, and State community and/or economic development agencies to expand the supply of affordable housing and to engage in economic development activities in rural areas.

A number of resources are available from the Federal government to address these problems, including programs of the United States Department of Agriculture (USDA), the Economic Development Administration (EDA), the Appalachian Regional Commission (ARC), the Department of Interior (for Indian Tribes) and HUD. The Rural Housing and Economic Development program has been developed to supplement these resources and to focus specifically on capacity building and innovative approaches to housing and economic development in rural areas. In administering these funds, HUD encourages you to coordinate your activities supported by any of these agencies.

(2) *Definitions. Appalachia's Distressed Counties* means those counties in Appalachia that ARC has determined to have unemployment and poverty rates that are 150 percent of the respective U.S. rates and per capita income that is less than 67 percent of the U.S. per capita income, and counties with 200 percent of the U.S. poverty rate and one other indicator such as percent of overcrowded housing, etc. Appendix B to this notice identifies ARC's list of distressed counties.

Colonia means any identifiable community that:

(i) Is located in the State of Arizona, California, New Mexico, or Texas;

(ii) Is located in the U.S.-Mexico border region (that is, within 150 miles of the border between the U.S. and Mexico); and

(iii) Meets objective need criteria, including lack of potable water supply, lack of adequate sewage systems, and lack of decent, safe, sanitary, and accessible housing.

Farmworker means a farm employee of an owner, tenant, labor contractor, or other operator raising or harvesting agricultural or aquacultural commodities; or a worker in the employment of a farm operator, handling, planting, drying, packing, grading, storing, delivering to storage or market, or carrying to market agricultural or aquacultural commodities produced by the operator. Seasonal farm workers are those farm employees who typically do not have a constant year round salary.

A *firm commitment* means the agreement by which an applicant's partner agrees to perform an activity specified in the application and demonstrates the financial capacity to deliver the resources necessary to carry out the activity, and commits the resources to the activity either in cash or through in-kind contributions and is irrevocable, subject only to approval and receipt of a FY 2002 RHED grant. Each letter of commitment should include the organization's name, the applicant's name, the proposed program, the proposed total level of commitment and responsibilities as they relate to the proposed program. The commitment must also be signed by an official of the organization legally able to make commitments on behalf of the organization and dated not earlier than the date of publication of this NOFA. In documenting a firm commitment, the applicant's partner must:

(i) Specify the authority by which the commitment is made, the amount of the commitment, the use of funds and the relationship of the commitment to the proposed investment. If the committed activity is to be self-financed, the applicant's partner must evidence its financial capability through a corporate or personal financial statement or other appropriate means. If any portion of it is to be financed through a lending institution, the participant must evidence the institution's commitment to fund the loan;

(ii) Affirm that the commitment is contingent only upon the receipt of FY 2002 RHED funds and state a willingness on the part of the signatory to sign a legally binding commitment (conditioned on HUD environmental review and approval of a property, where applicable) upon award of the grant.

Indian tribe means any entity eligible to apply for funding under the Indian Community Development Block Grant (ICDBG) program (see 24 CFR 1003.5(a)). The list of federally recognized Indian tribes can be found notice published by the Department of the Interior on March 13, 2000, at 65 FR 13299, and is also available from HUD.

Innovative housing activities means projects, techniques, methods, combinations of assistance, construction materials, and energy efficiency improvements or financing institutions or sources new to the eligible area, or its population. The innovative activities can also build upon and enhance a model that already exists.

Local rural non-profit or community development corporation means either:

(i) Any private entity with tax-exempt status recognized by the Internal Revenue Service (IRS) which serves the eligible rural area involved in the application (including local affiliates of national organizations that provide technical and capacity building assistance in rural areas); or

(ii) Any public non-profit such as a Council of Governments that will serve specific local non-profit organizations in the eligible area.

Lower Mississippi Delta Region means the eight state, 235 county/parish region defined by Congress in the Lower Mississippi Delta Development Act, Pub.L. 100–460. Appendix C to this notice identifies the counties referenced in the Act.

Rural area may be defined in one of five ways:

(i) A place having fewer than 2,500 inhabitants (within or outside of metropolitan areas).

(ii) A county with an urban population of 20,000 inhabitants or less.

(iii) Territory, persons, and housing units in the rural portions of "extended cities." The U.S. Census Bureau identifies the rural portions of extended cities.

(iv) Open country that is not part of or associated with an urban area. The USDA describes "open country" as a site separated by open space from any adjacent densely populated urban area. Open space includes undeveloped land, agricultural land, or sparsely settled areas, but does not include physical barriers (such as rivers and canals), public parks, commercial and industrial developments, small areas reserved for recreational purposes, and open space set aside for future development.

(v) Any place with a population not in excess of 20,000 and not located in a Metropolitan Statistical Area.

State economic development and/or community development agency means any state agency that has promotion of statewide or local community/economic development as its primary purpose.

State Housing Finance Agency means any state agency created to assist local communities and housing providers with financing assistance for development of housing in rural areas, particularly for low- and moderate-income people.

(3) *Eligible applicants.* Eligible applicants for each of the funding categories are as follows:

(a) *For capacity building funding.* If you are a local rural non-profit, CDC, or federally recognized Indian tribe, you are eligible for capacity building funding to carry out innovative housing and economic development activities which may also enable an applicant to become self-sustaining in the future.

(b) *For support for innovative housing and economic development activities funding.* If you are a local, rural non-profit; CDC; federally recognized Indian tribe; State HFA; or State economic development and/or community development agency, you may apply for funding to support innovative housing and economic development activities in rural areas.

(4) *Eligible activities.* The following are examples of eligible activities under the Rural Housing and Economic Development program. These examples are illustrative and are not meant to limit the activities that you may propose in your application.

(a) *For capacity building funding.* Capacity building for innovative rural housing and economic development involves the enhancement of existing organizations to carry out new functions and/or to more effectively perform existing functions. Activities may include, but are not limited to the following:

(i) Enhancement of existing functions or creation of new functions to provide affordable housing and economic development in rural areas;

(ii) Acquisition of additional space and support facilities;

(iii) Salaries for additional staff needed to conduct the work, including financial management specialists, and economic development specialists;

(iv) Training of staff in the areas of financial management, economic development financing, housing accessibility and visitability standards, fair housing issues and complaint filing;

(v) Development of business plans in order for the organization to be self-sustaining;

(vi) Development of Management Information Systems (MIS) and software to enable better and more accurate reporting of information to HUD and to other entities;

(vii) Development of feasibility studies and market studies;

(viii) Training on energy efficiency in construction for housing and commercial projects;

(ix) Housing counseling services including the provision of information on budgeting, access to credit and other federal program assistance available including the Section 502 Single Family Housing Loan program under the USDA;

(x) Coordinating with the USDA in holding training sessions with your staff on the Section 502 Single Family Housing loan program and other housing or economic development programs available from USDA;

(xi) Conducting conferences or meetings with other Federal and State agencies to inform residents of programs, rights and responsibilities associated with homebuying opportunities; and;

(xii) Arranging for technical assistance to conduct needs assessments, conduct asset inventories and to develop strategic plans.

(i) Administrative costs for assistance under this funding category may not exceed fifteen percent (15%) of the total grant award.

(b) *For support of innovative housing and economic development activities.*

(i) This category is intended to support, but not be limited to, other costs for innovative housing and economic development activities. Activities may include, but are not limited to the following:

(i) Cost for using new or innovative construction, energy efficiency or other techniques that will result in the design and/or construction of innovative housing and economic development projects;

(ii) Preparation of plans, architectural or engineering drawings;

(iii) Preparation of legal documents, government paperwork requirements and applications to allow construction of housing and economic development activities to occur in the jurisdiction;

(i) Financial assistance for the acquisition of land and buildings;

(i) Demolition of property to permit construction or rehabilitation activities to occur;

(i) Development of infrastructure to support the housing or economic development activities;

(i) Purchase of construction materials;

(ii) Job training to support the activities of the organization;

(iii) Homeownership counseling, including credit counseling, budgeting, access to credit, and other federal assistance available including the Section 502 Single Family Housing Loan program under the USDA;

(iv) Coordinating with the USDA in holding training sessions with staff on the Section 502 Single Family Housing loan program and other housing or economic development programs available from USDA;

(v) Conducting conferences or meetings with other Federal and State agencies to inform residents of programs, rights and responsibilities associated with homebuying opportunities;

(vi) Development of feasibility studies and market studies;

(vii) Development of Management Information Systems (MIS) and software to enable better and more accurate reporting of information to HUD and to other entities;

(viii) Establishing Community Development Financial Institutions (CDFIs), lines of credit, revolving loan funds, microenterprises, and small business incubators; and

(ix) Provision of direct financial assistance to homeowners/businesses/developers, etc. This can be in the form of establishing default reserves, pooling/securitization mechanisms, loans, grants, etc.

Applicants are reminded that they must affirmatively further fair housing. Grantees should demonstrate that their activities will continue to serve the populations that are in need and that beneficiaries will have a choice of innovative housing and economic development opportunities as a result of these activities.

(i) Administrative costs for assistance under this funding category may not exceed fifteen percent (15%) of the total grant award.

(5) Ineligible activities. Examples of ineligible activities for both funding categories include:

(i) the use of RHED grant funds for income payments to subsidize individuals or families;

(ii) political activities;

(iii) general governmental expenses other than expenses related to the administrative cost of the grant; or

(iv) projects and activities intended for personal gain or private use.

VOL 67 ISS 58 MR 26 2002 UMI

IV. Program Requirements

(A) *General.* To be eligible for funding under this program section of this SuperNOFA, you must meet the threshold and statutory or regulatory requirements applicable to all programs set forth in Section II of the General Section of the SuperNOFA. In addition to the above, you must meet the following program specific requirements.

(B) *Accounting System Requirements.* RHED requires that successful applicants have in place an accounting system that meets the policies, guidance, and requirements as described in the following applicable OMB Circulars and Code of Federal Regulations:

(1) OMB Circular No. A–87 (Cost Principles Applicable to Grants, Contracts and Other Agreements with State and Local Governments);

(2) OMB Circular No. A–122 (Cost Principles for Nonprofit Organizations), (3) OMB Circular No. A–133 (Audits of States, Local Governments, and Non-Profit Organizations);

(4) 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals, and other Non-Profit Organizations); and

(5) 24 CFR part 85 (Administrative Requirements for Grants and Cooperative Agreements to State, Local, and Federally recognized Indian tribal governments).

These documents apply to the award, acceptance and use of assistance under the Rural Housing and Economic Development program NOFA, and to the remedies for noncompliance, except when inconsistent with the provisions of the FY 2002 HUD Appropriations Act, other Federal statutes or the provisions of this NOFA.

(C) *Ethical Standards.* HUD requires that all grantees adhere to core values and ethical business practices, as described in Section II (B)(2) of the General Section of the SuperNOFA as a condition of the award.

(D) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* HUD requires grantees to use small businesses, small disadvantaged businesses and women-owned businesses in conducting your work activities, if possible. Please refer to Section II (F) of the General Section of the SuperNOFA for specific requirements.

(E) *Forms, Certifications and Assurances.* You, the applicant, are required to submit signed copies of the standard forms, certifications and assurances included in the Appendix of this NOFA signed by the managing officer of your organization.

(F) *Environmental Review.* Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance under this part, in accordance with 24 CFR part 50. The results of the environmental review may require that proposed activities be modified or that proposed sites be rejected. Applicants are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties (including establishing lines of credit that permit financing of such activities or making commitments for loans that would finance such activities from a revolving loan fund capitalized by funds under this NOFA) prior to HUD approval of specific properties or areas. Each application must contain an assurance that you, the applicant, will assist HUD to comply with part 50; will supply HUD with all available, relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair or construct property, nor commit or expend HUD or local funds for these program activities with respect to any eligible property, until HUD approval of the property is received. In supplying HUD with environmental information, grantees are to use the same guidance as provided in the Notice CPD–99–01, entitled "Field Environmental Processing for HUD Colonias Initiative (HCI) grants" issued January 27, 1999.

(G) Conflicts of Interest. Consultants and experts assisting HUD in rating and ranking applicants for funding under this NOFA are subject to 18 U.S.C. 208. Refer to Section II (K) of the General Section of the SuperNOFA.

(H) Grant Amounts. In the event, you, the applicant, are awarded a grant that has been reduced (e.g. the application contained some activities that were ineligible or budget information did not support the request), you will be required to modify your project plans and application to conform to the terms of HUD's approval before execution of the grant agreement. HUD reserves the right to reduce or de-obligate the award if approvable modifications to the proposed project are not submitted by the awardee in the required amounts in a timely manner. Any modifications must be within the scope of the original application. HUD reserves the right not to make awards under this NOFA.

(I) Grant Period. Recipients will have 36 months from the date of the executed grant agreement to complete all project activities. .

(J) Lead-Based Paint Hazard Control. All property assisted under the Rural Housing and Economic Development program is covered by the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4821–4846) and HUD's implementing regulations at 24 CFR part 35.

(K) Adjustments to Funding. In addition to the items identified under Section III (E) of the General Section of the SuperNOFA, HUD:

(1) reserves the right to utilize this year's funding to fund previous year's errors prior to rating and ranking this year's applications. HUD reserves the right to reallocate funds between categories to achieve the maximum allocation of funds in both categories.

(2) If after all eligible applicants have been selected for funding in Category 2 and funds remain, the remaining funds will be allocated to Category 1 to fund additional eligible applications in that category. If a balance of funds remain, HUD reserves the right to utilize those funds toward the following year's competetion.

V. Policy Priorities

You should document the extent to which HUD's policy priorities are furthered by the proposed activities. Applicants that include activities that can result in the achievement of these Departmental policy priorities as described below and in Section VI of the General Section of this SuperNOFA will receive higher rating points in evaluating your application for funding. Four Departmental policy priorities are listed below. You will receive 1 rating point for each priority addressed in your program of activities and associated with performance measurements and your management plan under Rating Factor 3, described in Section VI of this program NOFA. Such priorities include:

(1) Increasing homeownership for low- and moderate-income persons, persons with disabilities and the elderly, and minorities and families where English may be a second language.

(2) Encouraging visitability in new construction and substantial rehabilitation activities, allowing a person with mobility impairments access into a home, but not requiring that all features be made accessible. A visitable home also serves persons without disabilities, such as a person pushing a stroller or delivering a large appliance. Encouraging universal design, simplifying life for everyone by making products, communications and the built environment more usable by as many people at little or no extra cost. Universal design is the design of products and environments to be usable by all people, to the greatest extent possible at little or not extra cost.

(3) Improving computer access, literacy, and employment opportunities, by providing access to computers to low- and moderate-income adults and children who do not have access and therefore may be disadvantaged with respect to education, work and training opportunities. HUD encourages applicants to incorporate education and job training opportunities through initiatives such as HUD's Neighborhood Networks and 20/20 Education communities in their programs.

(4) Increasing economic mobility choices for rural residents. HUD wants to improve the quality of life for rural residents by providing more residents a chance to move into homeownership opportunities or to provide a community with greater housing choices.

VI. Application Selection Process

(A) *Rating and Ranking.*

(1) *General.* To review and rate applications, HUD may establish panels including outside experts or consultants to obtain certain expertise and outside points of view, including views from other Federal agencies.

(2) *Rating.* All applicants for funding will be evaluated against the criteria below. In evaluating applications for funding, HUD will take into account an applicant's past performance in managing funds, including the ability to account for funds appropriately; timely use of funds received either from HUD or other Federal, State or local programs; meeting performance targets for completion of activities and number of persons to be served or targeted for assistance. HUD may use information relating to these items based on information at hand or available from public sources such as newspapers, Inspector General or Government Accounting Office Reports or Findings, hotline complaints that have been proven to have merit, or other such sources of information. In evaluating past performance, HUD will deduct points from rating scores as specified under Rating Factor 1, Capacity of the Applicant and Relevant Organizational Experience, described in this Section below.

(3) *Ranking.* Applicants will be ranked separately within each of the two funding categories. Applicants will be selected for funding in accordance with their rank order in each category. An application must receive a minimum score of 70 points to be eligible for funding. If two or more applications are rated fundable and have the same score, but there are insufficient funds to fund all of them, the applications(s) with the highest score for Rating Factor 2 (Need and Extent of the Problem) shall be selected. If applications still have the same score, the highest score in the following factors will be selected sequentially until one highest score can be determined, Rating Factor 3 (Soundness of Approach), Rating Factor 1 (Capacity and Experience), Rating Factor 5 (Coordination, Self-Sufficiency, and Sustainability) and Rating Factor 4 (Leveraging Resources). To be eligible for funding in the Innovative category, an application must have a minimum score of 30 points for the total combined number of points for Rating Factors 1 and 3. To be eligible for funding in the Capacity Building category, an application must have a minimum score of 25 points for Rating Factor 3.

(B) *Initial screening.* During the period immediately following the application deadline, HUD will screen each application to determine eligibility. Applications will be rejected if they:

(1) Are submitted by ineligible applicants (including applicants that do not meet the threshold requirements described in Section II(B) of the General Section of the SuperNOFA);

(2) Do not serve an eligible rural area;

(3) Do not meet the objectives of the RHED program;

(4) Propose a program for which significant activities are ineligible.

(C) *Rating Factors for Award Used to Evaluate and Rate Applications.* The factors for rating and ranking applicants, and maximum points for each factor, are provided below. The maximum number of points for this program is 102. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA.

(D) *Notification of Approval and Disapproval.* HUD will notify you whether or not you have been selected for an award. If you are selected, HUD's notice to you of the amount of the grant award based on the approved application will constitute HUD's preliminary approval, subject to negotiation and execution of the grant agreement by HUD.

(E) *Applicant Debriefing.* Any applicant can obtain a debriefing of their application. Please refer to Section VII (E) of the General Section of the SuperNOFA for details on the conditions and timeframes for requesting a debriefing. In addition, applicants requesting a debriefing must send a written request to Ms. Jackie W. Mitchell, Director, Office of Rural Housing and Economic Development (RHED), at the address listed in Section I of this NOFA under "For Further Information and Technical Assistance."

Rating Factor 1—Capacity of the Applicant and Relevant Organizational Experience (15 points)

This rating factor addresses the extent to which you have the organizational resources necessary to successfully implement your proposed work plan as further described in Rating Factor 3 in a timely manner within the 36 month award period.

Rating standards applicable to individual funding categories. The two funding categories have different objectives. Accordingly, in addition to the generally applicable rating standard discussed above, different standards as discussed below will be used to judge the experience and qualifications of the applicants for each of the two funding categories. HUD fully supports emerging organizations who desire to develop internal capacity. Therefore, the following categories will be evaluated:

(1) *For Capacity Building applications.* (15 points) *Team members, composition, experience, organizational structure and management capacity.* Your response to this subfactor should clearly state the need which your organization is to address through the request for assistance. In addition, you should describe how the enhanced capacity realized through the assistance will fulfill that need. HUD will evaluate the experience of your project director, core staff, any outside consultants, contractors, subrecipients, and project partners to implement all of the work activities in your workplan as they relate to innovative housing and economic development activities. In evaluating your capacity to do the work, HUD will assess the recentness and relevancy of the prior work experience of each of the parties listed above to execute the prescribed activities; the services that consultants or other parties will provide to fill gaps in your staffing structure to enable you to carry out the proposed workplan; the experience of your project director in managing projects of similar size, scope, and dollar amount; the lines of authority and procedures that you have in place for ensuring that workplan goals and objectives are being met, consultants and other project partners are performing as planned, and that beneficiaries are being adequately served. In responding to this sub-factor, please indicate how the capacity

VOL
67
ISS
58
MR
26
2002
UMI

building assistance will strengthen or otherwise impact your organization's current housing or economic development program portfolio, or if you are a new grantee, how will the capacity assistance ensure that you can carry out your proposed activities. In judging your response to this factor, HUD will only consider work experience gained within the last 3 years. When responding, please be sure to provide the dates, job titles and relevancy of the past experience to work undertaken by the employee or contractor under your proposed RHED application. The more recent, relevant, and successful the experience is of your team members in relationship to the workplan activities, the greater the number of points that you will receive.

(2) *For Support for Innovative Rural Housing and Economic Development Activities applications.*

(a) (5 points) *Team members, composition, and experience.* HUD will evaluate the experience of your project director, core staff, any outside consultants, contractors, subrecipients, and project partners to implement all of the work activities in your workplan. In evaluating your capacity to do the work, HUD will assess the recentness and relevancy of the prior work experience of each of the parties listed above, to execute the prescribed activities; the services that consultants or other parties will provide to fill gaps in your staffing structure to enable you to carry out the proposed workplan; the experience of your project director in managing projects of similar size, scope, and dollar amount; the lines of authority and procedures that you have in place for ensuring that workplan goals and objectives are being met, that consultants and other project partners are performing as planned, and that beneficiaries are being adequately served. In judging your response to this factor, HUD will only consider work experience gained within the last 7 years. When responding, please be sure to provide the dates, job titles and relevancy of the past experience to work undertaken by the employee or contractor under your proposed RHED application. The more recent, relevant, and successful the experience is of your team members in relationship to the workplan activities, the greater the number of points that you will receive.

(b) (5 points) *Organizational structure and management capacity.* HUD will evaluate the extent to which you can demonstrate your organization's ability to manage a workforce composed of full time and/or part-time staff as well as any consultant staff and your ability to work with community-based groups or organizations in resolving issues related to affordable housing and economic development. In evaluating this sub-factor, HUD will take into account your experience in working with community-based organizations to design and implement programs which address the identified housing and economic development issues. The more recent, relevant, and successful the experience is of your organization and any participating entities, the greater the number of points that you will receive.

(c) (5 points) *Experience with performance based funding requirements.* HUD will evaluate your experience in producing timely products and reports in any previous grant programs undertaken with HUD funds or other Federal, state, local or non-profit or for-profit organization funds. In assessing points for this sub-factor, HUD reserves the right to take into account your past performance in meeting performance and reporting goals on any previous HUD awards. HUD will deduct one point for each of the following activities related to previous HUD grant programs for which unsatisfactory performance has been verified and related to: (1) Managing funds, including the ability to account for funds appropriately; (2) timely use of funds received either from HUD or other Federal, State, or local programs; and (3) significant and consistent failure to met performance targets. Among the specific outcomes to be measured are the number of jobs created or retained the number of people trained, the number of housing units rehabilitated or constructed and made available for low- and moderate-income persons, or other relevant objective performance measures related to your previous job experience and/or grant programs. Applicants that can demonstrate a closer and greater linkage between the expected outcomes and the previously generated outcomes will receive higher points for this sub-factor.

Rating Factor 2—Need and Extent of the Problem (25 Points)

The Rural Housing and Economic Development program has been designed to address the problems of rural poverty, inadequate housing and lack of economic opportunity. This Factor addresses the extent to which there is need for funding the proposed activities based on levels of distress, and an indication of the urgency of meeting the need/distress in the applicant's target area. In responding to this Factor, applications will be evaluated on the extent to which the level of need for the proposed activity and the urgency in meeting the need are documented and compared, vis-à-vis, the target area, and national data.

(1) In applying this Factor, HUD will compare current levels of need in the area (i.e. Census Tract(s) or Block Groups), immediately surrounding the project site or the target area to be served by the proposed project and in the national level of need. This means that an application that provides data that show levels of need in the project area expressed as a percent greater than the national average, will be rated higher under this Factor. Notwithstanding the above, an applicant proposing a project to be located outside the target area could still receive points under the Need Factor if a clear rationale and linkage is provided linking the proposed project location and the benefits to be derived by persons living in more distressed area(s) of the applicant's target area.

(2) Applicants should provide data that address indicators of need as follows:

(a) *Poverty Rate* (5 points)—data should be provided in both absolute and percentage form (i.e., whole numbers and percents) for the target area(s). An application that compares the local poverty rate in the following manner to the national average at the time of submission will receive points under this section as follows:

(i) Less than the national average = 0 points;

(ii) Equal to but less than twice the national average = 1 points;

(iii) Twice but less than three times the national average = 3 points;

(iv) Three or more times the national average = 5 points.

(b) *Unemployment* (5 points)—for the target area:

(i) Less than the national average = 0 points;

(ii) Equal to but less than twice the national average = 1 points;

(iii) Twice but less than three times the national average = 2 points;

(iv) Three but less than four times the national average = 3 points;

(v) Four but less than five times the national average = 4 points;

(vi) Five or more times the national average = 5 points.

(c) *Other indicators of social and/or economic decline that best capture the applicant's local situation* (5 points)—Examples that could be provided under this section are information on the community's stagnant or falling tax base, including recent commercial or industrial closings, housing conditions, such as the number and percentage of substandard and/or overcrowded units, rent burden (defined as average housing cost divided by average income) for the target area, local crime statistics, etc. To the extent that the applicant's statewide or local Consolidated Plan, its Analysis of Impediments to Fair Housing choice (AI), and/or its Anti-Poverty Strategy identify the level of distress in the community and the neighborhood in which the project is to be carried out, references to such documents should be included in preparing the response to this Factor.

(3) In rating applications under this Factor, HUD reserves the right to consider sources of available objective data other than, or in addition to, those provided by applicants, and to compare such data to those provided by applicants for the project site. This data includes the use of U.S. Census data or information received from USDA.

(a) HUD requires use of sound and reliable data (e.g., U.S. Census data, State statistical reports, university studies/reports that are verifiable) to support distress levels cited in each application. A source for all information along with the publication or origination date must also be provided.

(b) Updated Census data are available for the following indicators:

(i) Unemployment rate—estimated monthly for counties, with a two-month lag;

(ii) Population—estimated for incorporated places and counties, through 2000;

(c) Poverty rate—1990 data being the most recent available.

(d) *Demographics of Distress—Special Factors (10 points).* Because of the concern of HUD with meeting the needs of certain underserved areas, you will be awarded a total of ten points if you are located in or propose to serve one or more of the following populations, your application demonstrates that 100 percent of the beneficiaries supported by RHED funds are in one or more of the following populations. You must also specifically identify how each population will be served and that the proposed service area meets the definition of "eligible rural area" as described in Section III(A)(2) of this NOFA:

(i) Areas with very small populations in non-urban areas (2,500 population or less);

(ii) Seasonal farmworkers;

(iii) Federally recognized Indian Tribes;

(iv) Colonias;

(v) Appalachia's Distressed Counties; or

(vi) The Lower Mississippi Delta Region (8 States and 235 counties/parishes). For these underserved areas, you should ensure that the populations that you serve and the documentation that you provide is consistent with the information described in the above paragraphs under this rating factor.

Rating Factor 3—Soundness of Approach (40 Points)

This factor addresses the overall quality of your proposed workplan, taking into account the project and the activities proposed to be undertaken; the cost-effectiveness of your proposed program; and the linkages between identified needs, the purposes of this program and your proposed activities and tasks. In addition, this factor addresses your ability to ensure that a clear linkage exists between innovative rural housing and economic development. In assessing cost-effectiveness, HUD will take into account your staffing levels, beneficiaries to be served, a timetable for the achievement of program outcomes, the delivery of products and reports and any anticipated outcomes or products. You will receive a greater number of points if your workplan is consistent with the purpose of the RHED program, your program goals and the resources provided.

(a) (20 points) *Management Plan.* A clearly defined management plan which identifies each of the projects and activities you will carry out to further the objectives of this program; describes the linkage between rural housing and economic development activities; and addresses the needs identified in Factor 2, including needs that had been previously identified in a statewide or local Analysis of Impediments to Fair Housing Choice (AI) or Consolidated Plan. The populations that were described in Rating Factor 2 for the purpose of documenting need should be the same populations which will receive the primary benefit of the activities, both immediately and longterm. The benefits should be affirmatively marketed to those populations least likely to apply for and receive these benefits without such marketing. Your timetable should address the measurable goals and objectives to be achieved through the proposed activities; the method you will use for evaluating and monitoring program progress with respect to those activities and the method you will use to ensure that the activities will be completed on time and within your proposed budget estimates. Applicants that have a clearly defined management plan and which can produce results in less than 36 months will receive higher rating points for this sub-factor. Your management plan should also include the budget for your program, broken out for each line item. Documented projected cost estimates from outside sources are also required. Applicants should submit their workplan on a spreadsheet showing each project, to be undertaken and the tasks (to the extent necessary or appropriate) in your workplan to implement the project with your associated budget estimate per activity/task. Your workplan should provide the rationale for your proposed activities and any assumptions used in determining your project timeline and budget estimates. Failure to provide your rationale may result in an application receiving fewer points for lack of clarity in the proposed management plan. Applicants that propose as part of their workplan activities that address and support HUD's policy priority areas as outlined in Section (V) of this NOFA will receive one rating point for each of the policy priorities described under this sub-factor.

(b) (15 points) *Expected Outcomes.* HUD encourages applicants to include in their workplans, program measures to ensure that goals established in your application can be accounted for and independently assessed to ensure that performance measures have been met. HUD will be assessing outcomes resulting from your proposed workplan for the likelihood it will result in measurable and achievable outcomes that will alleviate or address the needs described in Rating Factor 2 and that those outcomes can and will be sustained beyond the grant period, without further assistance from HUD. You must include in this sub-factor a qualitative or quantitative description of estimated outcomes in order to receive points for this sub-factor. Outcomes may be described in terms of the estimated number of new units constructed or units rehabilitated; jobs retained or created; loans financed; individuals trained, counseled or assisted; and/or number of persons on welfare or under-employed trained in a career path or apprenticeship program.

The exact nature of the expected outcomes will vary according to your proposed workplan. Applicants that propose activities to increase their capacity to carry out innovative rural housing and economic development activities should include among their projected outcomes performance measures for maintaining the financial health and integrity of the organization. Applicants that can demonstrate clearly identified outcomes and the means for ensuring that outcomes will be tracked and are likely to be achieved will receive a greater number of points under this sub-factor.

VOL
67
ISS
58
MR
26
2002
UMI

(c) (5 points) *Self-monitoring and Program Evaluation.* Your workplan will be evaluated to ensure that you have a mechanism for monitoring and self-assessing your progress in meeting program goals and objectives, ensuring that the integrity of the use of funds is in accordance with OMB Cost Principles and record-keeping requirements and the approved program budget. Applicants that clearly define roles and responsibilities and steps to be taken to meet this requirement will receive a greater number of rating points in the evaluation. Therefore, your workplan should describe and identify the specific steps that you will take to carry out a self-monitoring function that meets these requirements.

Rating Factor 4—Leveraging Resources (10 Points)

This factor addresses the extent to which applicants for any of the two funding categories have obtained firm commitments of financial or in-kind resources from other Federal, State, local, and private sources. For every RHED dollar anticipated, you should provide the specific amount of dollars leveraged. In assigning points for this criterion, HUD will consider the level of outside resources obtained for cash or in-kind services that support activities proposed in your application. HUD will award a greater number of points based upon a comparison of the extent of leveraged funds compared to the requested RHED grant. This criterion is applicable to both funding categories under this NOFA. The level of outside resources for which commitments are obtained will be evaluated based on their importance to the total program. You must provide evidence of leveraging by including in the application letters of firm commitment to participate from any entity, including your own organization, that will be providing matching funds to the project. Each commitment described in the narrative of this factor must be in accordance with the definition of "firm commitment" as defined in Section III(A)(2) of this NOFA.

Rating Factor 5—Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which your proposed program is coordinated with other ongoing and related activities in the area you propose to serve, how well your program outcomes result in increased independence and empowerment to your beneficiaries, and your organization's ability to becoming financially self-sustaining into the future absent any HUD funding.

This factor consists of three elements:

(1) Coordination of activities (4 points). The extent to which you have coordinated your activities with other known organizations that are not directly participating in your proposed work activities, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner. The goal of coordination is to ensure that programs do not operate in isolation. The more your activities are coordinated with other ongoing activities in your service area, the more points you will receive.

(2) Self-Sufficiency (3 points). The extent to which your application implements practical solutions within the grant term that result in assisting beneficiaries of grant program funds in achieving independent living, economic empowerment, educational opportunities, housing choice or improved living environments which are free from environmental hazards such as lead hazards, brownfields, overcrowded housing, etc. Applicants that clearly describe the extent to which proposed activities result in increased independence and empowerment for their beneficiaries will receive higher points in this sub-factor.

(3) Sustainability (3 points). The extent to which your program exhibits the potential to be financially self-sustaining by decreasing dependence on RHED funding and relying more on state, local, and private funding so your activities can be continued after your grant award is complete. Applicants that demonstrate a reduced dependence on RHED funds over the life of their award will receive a greater number of rating points for this sub-factor.

RC/EZ/EC Bonus Points (2 points)

HUD will award two bonus points to all applications that include documentation stating that the proposed eligible activities/projects will be located in and serve Federally designated Rural Renewal Communities, Rural Empowerment Zones or Enterprise Communities (Rural EZs/ECs). A listing of Federally designated Rural RCs, EZs and ECs is available on the Internet at http://www.hud.gov.

VII. Application Submission Requirements

(A) *Form of Application.* All pages of the application shall be numbered sequentially. Your application must include an original and two copies of the items listed below.

(B) *Application Items.* Your application must contain the items listed in this section. These items include the standard forms and non-standard certifications that can be found in the Appendices to this program section of the SuperNOFA. The items are as follows:

(1) A transmittal letter;

(2) A table of contents;

(3) A signed SF–424 (application form);

(4) A budget for all funds (Federal and Non-Federal) and a breakdown of all Federal funds requested, in the format provided in Appendix A of this NOFA;

(5) Documentation of funds pledged in support of Rating Factor 4—"Leveraging Resources" (which will not be counted in the 15 page limitation);

(6) The required certifications (signed, as appropriate, and attached as an Appendix);

(7) Acknowledgment of the Application Receipt form (submitted with application and returned to you as verification of timely receipt).

(8) If you are a private nonprofit organization, a copy of your organization's IRS ruling providing tax-exempt status under section 501 of the IRS Code of 1986, as amended.

(9) The attached forms specifying:

(a) Which category of funds, as described in Section II(C), you are applying for.

(b) Which of the five definitions of the term "rural area" set forth in Section III(A)(2) of this NOFA applies to the proposed service area and accompanying documentation as indicated on the form; and

(10) The Environmental Review Assurance.

(11) Narrative Response to Factors for Award

(a) You must describe your organization and the assignment of responsibilities for the work to be carried out under the grant (Rating Factor 1).

(b) You must describe the need and extent of the problem and populations to be served (Rating Factor 2).

(c) You must submit a workplan which describes your soundness of approach and the clear linkage between rural housing and economic development (Rating Factor 3). In addressing this submission requirement, you must:

(i) Describe the activities you propose to undertake to address the needs which have been identified, the linkage between rural housing and economic development, and describe the specific outcomes you expect to achieve.

(ii) Include a management plan which identifies the specific actions you will take to complete the proposed activities on time and a budget in the format provided which explains the uses of both Federal and non-Federal funds and the period of performance under the grant.

(iii) Include a discussion of the process by which the work accomplished with the grant will be evaluated to determine if the objectives of the grant were met.

(d) You must identify the resources which will be leveraged by the amount of this grant's funding that you are requesting. (Rating Factor 4). To receive the maximum number of points under Rating Factor 4 you must provide evidence of firm commitments. The commitment can be contingent upon HUD site approval following environmental review.

(e) You must describe the extent to which your program reflects a coordinated, community based process of identifying needs and building a system to address these needs, providing program beneficiaries outcomes resulting in increased independence and empowerment, and the potential for your organization to become financially self-sustaining.(Rating Factor 5).

The total narrative response to all factors should not exceed 15 pages and must be submitted on 8.5" by 11" paper, using a 12 point font size, with lines double spaced and printed only on one side. Please note that although submitting pages in excess of the page limit will not disqualify your application, HUD will not consider or review the information on any excess pages, which may result in a lower score or failure to meet a threshold.

VIII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications. After the application due date, HUD may not, consistent with its regulations in 24 CFR part 4, subpart B, consider any unsolicited information you, the applicant, may want to provide. HUD may contact you, however, to clarify an item in your application or to correct technical deficiencies. You should note, however, that HUD may not seek clarification of items or responses that improve the substantive quality of your response to any eligibility or selection factors. Examples of curable (correctable) technical deficiencies include your failure to submit the proper certifications or your failure to submit an application that contains an original signature by an authorized official. In each case, HUD will notify you in writing by describing the clarification or technical deficiency. HUD will notify applicants by facsimile or by return receipt requested. Applicants must submit clarifications or corrections of technical deficiencies in accordance with the information provided by HUD within 5 calendar days of the date of receipt of the HUD notification. If your deficiency is not corrected within this time period, HUD will reject your application as incomplete, and it will not be considered for funding.

Catalog of Federal Domestic Assistance

Environmental Review Assurances

The award of funds under this program is subject to the environmental review requirements of 24 CFR part 50. These requirements only apply to grant-funded projects fully or partially funded by HUD, undertaken by grantees and all tiers of subgrantees and subcontractors.

When a project is limited to activities described in 24 CFR 50.19, it does not require an environmental review. All other activities (for example, acquisition of real property, construction and alteration) are subject to an environmental review. Since the approval of the initial grants in this program must occur prior to the identification of properties to be treated, as is provided for in 24 CFR 50.3(h), the applicant hereby agrees that it will assist HUD to comply with 24 CFR part 50, and that the applicant shall:

1. Advise HUD of all projects requiring a review under 24 CFR part 50 prior to their approval and supply HUD with all available and relevant information necessary for HUD to perform for each property any environmental review required by 24 CFR part 50;

2. Carry out mitigating measures required by HUD or select an alternate property or project;

3. Not acquire, rehabilitate, convert, lease, repair or construct property, nor commit or expend HUD or local funds for these program activities on a HUD-assisted project until HUD has completed an environmental review to the extent required under 24 CFR 50 and has given notification of its approval in accordance with 24 CFR 50.3(h)(3); and

4. Include the above requirements in all subgrants and subcontracts.

FUNDING AVAILABILITY FOR PUBLIC HOUSING RESIDENT OPPORTUNITIES AND SELF SUFFICIENCY (ROSS) PROGRAM

PROGRAM OVERVIEW

Purpose of Program. The purpose of the Public Housing Resident Opportunities and Self Sufficiency (ROSS) Program is to link services to public and Indian housing residents by providing grants for supportive services, resident empowerment activities and activities to assist residents in becoming economically self-sufficient.

Available Funds. A total of $80.1 million; approximately $70 million from FY 2002 funds and $10.1 million in carryover funding.

Eligible Applicants. Public Housing Agencies (PHAs), resident management corporations (RMCs), resident councils (RCs), resident organizations (ROs), Intermediary Resident Organizations (IROs), City-Wide Resident Organizations (CWROs) and nonprofit entities supported by residents. Indian tribes (tribes) and tribally designated housing entities (TDHEs) are eligible for grants under the Resident Management and Business Development (RMBD), Capacity Building (CB), and Resident Service Delivery Models (RSDM) funding categories. Tribes and TDHEs are not eligible for grants as part of Neighborhood Networks, Homeownership Supportive Services and renewal of public housing service coordinator funding categories.

Application Deadline for ROSS Funding Categories.

May 14, 2002 for Resident Management and Business Development;

May 14 2002 for Capacity Building;

June 18, 2002 for Resident Service Delivery Models;

July 10, 2002 for Homeownership Supportive Services;

July 10, 2002 for Neighborhood Networks Centers; and

May 14, 2002 for Public Housing Service Coordinator.

Match. At least 25 percent of the grant amount is required as the grant match. This match does not have to be a cash match. The match can be in-kind and/or cash contributions.

ADDITIONAL INFORMATION

If you are interested in applying for funding under any of these programs, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information and Technical Assistance.

Application Due Date. Your completed application (one original and two copies is due on or before 12:00 midnight, Eastern time, on the following application due dates to HUD Headquarters at the address shown below.

May 14, 2002 for Resident Management and Business Development;

May 14, 2002 for Capacity Building;

June 18, 2002 for Resident Service Delivery Models;

July 10, 2002 for Homeownership and Supportive Services;

July 10, 2002 for Neighborhood Networks Centers; and

May 14, 2002 for Renewal of Public Housing Service Coordinator grants.

See the General Section of this SuperNOFA for specific procedures governing the form of application submission (e.g., mail application, express mail, overnight delivery, or hand-carried).

New Security Procedures. HUD has implemented new security procedures that impact on application submission procedures. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applicants must comply with the procedures included in the General Section of the SuperNOFA.

Address for Submitting Applications. You must submit your completed ROSS Program application (the original and two copies) to the Grants Management Center (GMC), 501 School Street, SW., Suite 800, Washington, DC 20024, by mail using the United States Postal Service (USPS) or it may be delivered only via the following four carrier services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 am and 5:30 pm Eastern Standard Time, Monday to Friday. If these companies do not service your area, you must submit your application via the United States Postal Service. All mailed applications must be postmarked on or before midnight of their due date and received within 15 days of the due date.

In the case of tribes/TDHEs, please submit your completed application (the original and two copies) to Denver Program Office of Native American Programs (DPONAP), 1999 Broadway, Suite 3390, Denver, CO 80202, by mail using the United States Postal Service (USPS) or it may be delivered only via the following four carrier services: United Parcel Service (UPS), FedEx, DHL, or Falcon Carrier. Delivery by these services must be made during HUD's business hours, between 8:30 am and 5:30 pm Eastern Standard Time (or Mountain Standard Time for Tribes/TDHEs), Monday to Friday. If these companies do not service your area, you must submit your application via the United States Postal Service. All mailed applications must be postmarked on or before midnight of their due date and received within 15 days of the due date.

For Application Kits. For an application kit and any supplemental material, please call the SuperNOFA Information Center at 1–800-HUD–8929. Persons with hearing or speech impairments may call the Center's TTY number at 1–800-HUD–2209. When requesting an application kit, please refer to the ROSS Program, and provide your name, address (including zip code) and telephone number (including area code). An application kit is also available on the Internet through the HUD web site at *http://www.hud.gov/grants.*

For Further Information and Technical Assistance. You may contact the local HUD field office or you may call the Public and Indian Housing Information and Resource Center at 1–800–955–2232. In the case of tribes/TDHEs, please contact the Local Area DPONAP or Carol Quinlan, DPONAP, Denver Program Office at 1–800–561–5913 or (303) 675–1600 (this is not a toll free number).

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at *http://www.hud.gov/grants.*

II. Amount Allocated

(A) *Total Amount.* A total amount of $80.1 million is allocated for this NOFA. This amount is comprised of $70 million from the FY 2002 Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act of 2001, and $10.1 million in carryover funding. For FY 2002, approximately $55 million is available for the Resident Opportunities and Self Sufficiency Program under Section 34 of the U.S. Housing Act of 1937, and $15 million is available from the Public Housing Capital Fund for Neighborhood Networks in public housing developments. The $10.1 million in carryover funding is composed of approximately $8.2 million from FY 1998 and FY 1999 carryover funding is being used from the Public Housing

VOL
67
ISS
58
MR
26
2002
UMI

Capital Fund, and an additional $1.9 million is carried over from the FY 2000 Community Development Block Grant fund. The $8.2 million is composed of approximately $2.6 million from the Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations Act of 1998 and approximately $5.6 million from the Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations Act of 1999.

(B) *Allocation.* To the extent that there are a sufficient number of qualified applications, not less than 25 percent of funds available for ROSS shall be provided directly to Resident councils (RCs), Resident Organizations (ROs), Resident Management Corporations (RMCs), Intermediary Resident Organizations (IROs), tribes/TDHEs on behalf of tribal residents and City-Wide Resident Organizations (CWROs). This requirement will be implemented by the awards made to resident organizations for the Resident Management and Business Development, Capacity Building, and the Resident Service Delivery Models funding categories.

(C) *Funding Categories and Funds Allocated to Each Category.* The funding categories under ROSS and the amount allocated for each funding category are as follows:

(1) *Resident Management and Business Development (RMBD).* A total of $6 million is allocated for this funding category.

(i) Grants will be made directly to site-basedRAs/ROs, RMCs, CWROs, and to tribal ROs, tribal RMCs, tribes/TDHEs that partner with tribal ROs and tribal RMCs to: increase resident involvement and participation in their housing developments; develop resident management opportunities; provide resident-led business or cooperative development opportunities; and obtain necessary supportive services for self-sufficiency.

(ii) The maximum grant award for this funding category is $100,000 per applicant.

(2) *Capacity Building (CB).* A total of $5 million is allocated for this funding category, described below:

(i) CB grants will be made to Intermediary Resident Organizations (IROs), tribes/TDHEs on behalf of tribal housing residents, tribal ROs, tribal RMCs, and non-profits which operate associations and networks that administer programs benefiting resident organizations. These grants provide assistance to site-based resident associations who do not yet have the capacity to administer a welfare-to-work program or conduct management activities.

(ii) You may apply for funding that will be used to assist public and tribal housing residents in establishing a new resident organization or you may apply for funds to help or enhance the capacity of existing resident organizations to enable residents to participate in housing agency decision-making, manage all or a portion of their housing developments, and/or apply for and administer grants.

(iii) The maximum amounts for CB grants are: $100,000 for CWROs or tribes/TDHEs per applicant, and $240,000 per applicant for all other eligible applicants. Applicants are required to allocate at least two-thirds of the total grant to direct funding of CB activities for site-based RAs/ROs and/or tribal ROs. CWROs or tribes/TDHEs are required to serve a minimum of 3 RAs and/or tribal ROs. All other applicants are required to serve a minimum of 10 RAs and/or tribal ROs.

(3) *Resident Service Delivery Models (RSDM).* A total of $22.9 million is allocated for this category of funding. The Resident Service Delivery Models (RSDM) funding category provides grants to Public Housing Agencies (PHAs), tribes/TDHEs or directly to resident management corporations, resident councils, or resident organizations, and nonprofit entities supported by residents. There are two sub-categories of grants under this funding category: Family Grants for program-related activities and supportive services to establish and implement comprehensive programs that achieve resident self-sufficiency for families; and Elderly and Persons with Disabilities Grants for independent living for the elderly and persons with disabilities.

(a) RSDM Family sub-category.

(i) *Maximum grant amount.* For RSDM, the maximum grant amounts are as follows:

For PHAs applying for family grants, the maximum grant application award will be based on the number of occupied family conventional public housing units. Tribes/TDHEs applying for RSDM should refer to section III (e) of this NOFA for computation of units for the maximum grant amount.

(ii) For the RSDM family category, PHAs must use the number of occupied conventional family public housing units to determine the maximum grant amount in accordance with the categories listed below for families:

— For PHAs with 1 to 780 occupied family units, the maximum grant award is $250,000.
— For PHAs with 781 to 7,300 occupied family units, the maximum grant award is $500,000.
—For PHAs with 7,301 or more occupied family units, the maximum grant award is $1,000,000.

(b) RSDM Elderly and persons with disabilities sub-category.

(i) Maximum grant amount. For the Elderly and Persons with Disabilities RSDM Category, PHAs must use the number of occupied elderly conventional public housing units to determine the maximum awards listed below:

— For 1 to 217 units occupied by elderly residents and persons with disabilities, the maximum grant award is $100,000.
— For 218 to 1,155 units occupied by elderly residents and persons with disabilities, the maximum grant award is $200,000.
— For 1,156 or more units occupied by elderly residents and persons with disabilities, the maximum grant award is $300,000.

(c) The maximum grant award is $100,000 for each RA.

(d) Nonprofit entities supported by residents or RAs/ROs are limited to $100,000 for each RA/RO. A non-profit may submit a single application for no more than three different RAs for a maximum grant award of $300,000.

(e) Tribes/TDHEs should use the number of units counted as Formula Current Assisted Stock for Fiscal Year 2001 as defined in 24 CFR 1000.316. Tribes who have not previously received funds from the Department under the 1937 Housing Act should count housing units under management that are owned and operated by the Tribe and are identified in their housing inventory as of September 30, 2001 for either family or elderly/disabled units.

(4) *Homeownership Supportive Services (HSS).* A total of $11.2 million is allocated for this funding category.

(i) This funding category provides grants for a targeted group of public housing residents who were beneficiaries of previously awarded ROSS grants, and public housing Family Self-Sufficiency participants funded through operating subsidy. This funding category recognizes the improved earning capacity of residents participating in self-sufficiency programs and provides the support necessary to achieve increased opportunities for homeownership for public housing residents through housing choice vouchers. Under this funding category, PHAs will receive grants for counseling and other supportive services to achieve homeownership for public housing residents. PHAs will design and develop homeownership supportive services for public housing residents. These supportive services shall comprehensively address the needs identified by the PHA for public housing families to obtain homeownership.

(ii) Grants will be made to PHAs. Tribes/TDHEs are not eligible applicants for the HSS.

(iii) For the Homeownership Supportive Services grants, PHAs must use the number of occupied conventional family public housing units to determine the maximum grant amount in accordance with the categories listed below for families:

— For PHAs with 1 to 780 occupied family units, the maximum grant award is $300,000.
— For PHAs with 781 to 7,300 occupied family units, the maximum grant award is $400,000.
— For PHAs with 7,301 or more occupied family units, the maximum grant award is $500,000.

(5) *Neighborhood Networks (NN).* A total of $15 million is allocated for this funding category. Of this funding, $12 million will provide grants to PHAs to establish and operate new Neighborhood Networks Centers for public housing residents; and $3 million will provide funding to update and expand existing computer technology centers to become Neighborhood Networks centers. Computer centers operating in public housing developments or planned for public housing developments will receive assistance to secure the necessary space, computer hardware, software and peripherals necessary to operate self-sustaining NN centers. Conversion to NN centers will be part of the proposed grant for existing and new computer centers.

(i) For new NN centers, PHAs must use the number of occupied conventional family public housing units to determine the maximum grant amount in accordance with the categories listed below for families:

— For PHAs with 1 to 780 occupied family units, the maximum grant award is $150,000.
— For PHAs with 781 to 7,300 occupied family units, the maximum grant award is $250,000.
— For PHAs with 7,301 or more occupied family units, the maximum grant award is $450,000.

(ii) To update and expand new and existing technology centers, PHAs must use the number of occupied conventional family public housing units to determine the maximum grant amount in accordance with the categories listed below for families:

— For PHAs with 1 to 780 occupied family units, the maximum grant award is $50,000.
— For PHAs with 781 to 7,300 occupied family units, the maximum grant award is $100,000.
— For PHAs with 7,301 or more occupied family units, the maximum grant award is $200,000.

(6) Service Coordinator Renewals. A total of $20 million is allocated for this funding category.

(i) The Service Coordinator Renewal category provides grants to PHAs to address the needs of public housing residents who are elderly and persons with disabilities. Service coordinators help residents obtain supportive services that are needed to maintain independent living. Only renewals of FY 1995 Public Housing Elderly and Persons with Disabilities Service Coordinator grants will be funded under this ROSS competition; no applications for new Service Coordinator grants will be accepted.

(ii) These funds may only be used as follows:

— Renewal of existing Service Coordinator (SC) grants from FY 1995. This limitation is imposed to achieve Congressional intent to renew all service coordinator and congregate services grants.
— For the Elderly and Persons with Disabilities Service Coordinators category, award amounts cannot be higher than your highest funding and staffing level for any one-year period that was approved for their last funded Service Coordinator Grant. An increase of up to 2 percent over this amount will be allowed if supported by a narrative justification.

(D) *Transfer of Funds.* Funds for Neighborhood Networks centers may not be transferred to any other funding category within this NOFA. If all funds are not awarded in the RMBD, CB, HSS, SC funding categories, funds will be transferred to the RSDM funding category in this competition.

(E) *Number of Applications Permitted.* PHAs applying for Service Coordinator Renewal grants under this program section of the SuperNOFA may apply for one renewal grant and three additional grants in the NN, HSS and RSDM funding categories. RO applicants may submit a total of two applications for RMBD and RSDM, but not more than one application in any one funding category. Nonprofit applicants may submit a total of two applications for CB and RSDM, but not more than one application in any one funding category under this ROSS competition. Please read each funding category carefully for additional limitations.

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* The purpose of ROSS is to assist residents to become economically self-sufficient by providing supportive services and resident empowerment activities. This program is consistent with the Department's goal to most effectively focus resources on "welfare to work" and on independent living for the elderly and persons with disabilities. HUD is looking for applications that implement practical solutions within the grant term, and result in improved economic self-sufficiency for public or Indian housing residents. HUD seeks holistic solutions that involve the support of the entire community in providing self-sufficiency opportunities for residents. Therefore, HUD encourages you to involve elderly and persons with disabilities in activities that support self-sufficiency, such as child-care, mentoring, or after school care. This philosophy should be reflected in your proposed grant activities for all funding categories within this ROSS competition. Current experience with welfare to work programs has shown that a single approach or program does not always result in residents reaching desired self-sufficiency goals. The ROSS program permits proposed grant activities, which will build on or expand previous self-sufficiency efforts. Within the scope of the ROSS Program, proposed grant activities may be directed toward building on the foundation created by previous ROSS grants or other federal, State and local self-sufficiency efforts. Proposed grant activities may enhance self-sufficiency by providing opportunities for increased earning capacity; use of tools to encourage economic capacity (such as Individual Development Accounts); and action on resident goals to move toward homeownership. A description of each of the funding categories was provided in Section II of this program section. This section describes the eligible applicants and eligible activities of each funding category.

(B) *Definitions.*

City-Wide Resident Organization consists of members from Resident Councils, Resident Management Corporations, and Resident Organizations who reside in housing developments that are owned and operated by the same PHA within a city.

VOL
67
ISS
58
MR
26
2002
UMI

Community Facility means a non-dwelling structure that provides space for multiple supportive services for the benefit of public or Indian housing residents and others eligible for the services provided. Services that may include but are not limited to:

(1) Child care;

(2) After-school activities for youth;

(3) Job training;

(4) Twenty/20 Education Communities (TECs) (formerly Campus of Learners) activities; and

(5) English as a Second Language (ESL) classes.

Contract Administrator means an overall administrator and/or a financial management agent that oversees the financial aspects of a grant and assists in the entire implementation of the grant. A signed Contractor Administrator Partnership Agreement must be included in your application. This agreement may be contingent upon you receiving a grant award and adherence to PHA or tribe/TDHE procurement policies. The contract administrator must assure that the financial management system and procurement procedures fully comply with 24 CFR part 84. Contract Administrators may be: Local Housing Agencies; community-based organizations such as Community Development Corporations (CDCs), churches, temples, synagogues, mosques; non-profits; State/Regional associations and organizations. Troubled PHAs are not eligible to be Contract Administrators.

Firmly Committed means that the amount of resources and their dedication to ROSS-funded activities must be explicit, in writing and signed by a person authorized to make the commitment or by a person who certifies the commitment is by an authorized body or person. This written agreement may be contingent upon receiving an award.

Elderly person means a person who is at least 62 years of age.

Jurisdiction-Wide Resident Organization means an incorporated nonprofit organization or association that meets the following requirements:

(1) Most of its activities are conducted within the jurisdiction of a single housing agency;

(2) There are no incorporated Resident Councils or Resident Management Corporations within the jurisdiction of the single housing agency;

(3) It has experience in providing start-up and capacity-building training to residents and resident organizations; and

(4) Public housing residents representing unincorporated Resident Councils within the jurisdiction of the single housing agency must comprise the majority of the board of directors.

Tribally Designated Housing Entity (TDHE) is an entity authorized or established by one or more Indian tribes to act on behalf of each such tribe authorizing or establishing the housing entity.

Indian Tribe means any tribe, band, nation, or other organized group of a community of Indians, including any Alaska native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act, that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians pursuant to the Indian Self Determination and Education Act of 1975.

Intermediary Resident Organizations means Jurisdiction-Wide Resident Organizations, City-Wide Resident Organizations, State-Wide Resident Organizations, Regional Resident Organizations, and National Resident Organizations.

National Resident Organization (NRO) means an incorporated nonprofit organization or association for public housing that meets each of the following requirements:

(1) It is national (i.e., conducts activities or provides services in at least two HUD Areas or two States);

(2) It has experience in providing start-up and capacity-building training to residents and resident organizations; and

(3) Public housing residents representing different geographical locations in the country must comprise the majority of the board of directors.

Person with disabilities means a person who:

(1) Has a condition defined as a disability in section 223 of the Social Security Act;

(2) Has a developmental disability as defined in section 102 of the Developmental Disabilities Assistance Bill of Rights Act; or

(3) Is determined to have a physical, mental, or emotional impairment which:

(a) Is expected to be of long-continued and indefinite duration;

(b) Substantially impedes his or her ability to live independently; and

(c) Is of such a nature that such ability could be improved by more suitable housing conditions.

The term "person with disabilities" does not exclude persons who have the disease of acquired immunodeficiency syndrome or any conditions arising from the etiologic agent for acquired immunodeficiency syndrome. In addition, no individual shall be considered a person with disabilities, for purposes of eligibility for low-income housing, solely on the basis of any drug or alcohol dependence.

The definition provided above for persons with disabilities is the proper definition for determining program qualifications. However, the definition of a person with disabilities contained in section 504 of the Rehabilitation Act of 1973 and its implementing regulations must be used for purposes of reasonable accommodations.

Program Coordinator is a person who is responsible for coordinating various proposed activities to ensure that their accomplishment will assist in achieving the overall grant goals and objectives.

Project is the same as "low-income housing project" as defined in section 3(b)(1) of the United States Housing Act of 1937 (42 U.S.C. 1437 *et seq.*) (1937 Act).

Resident Association (RA) means any or all of the forms of resident organizations as they are defined elsewhere in this Definitions section and includes Resident Councils (RC), Resident Management Corporations (RMC), Regional Resident Organizations (RRO), Statewide Resident Organizations (SRO), Jurisdiction-Wide Resident Organizations, and National Resident Organizations (NRO).

Resident Council (RC) means (as provided in 24 CFR 964.115) an incorporated or unincorporated nonprofit organization or association that shall consist of persons residing in public housing and must meet each of the following requirements in order to receive official recognition from the PHA/HUD, and be eligible to receive funds for RC activities and stipends for officers for their related costs for volunteer work in public housing. (Although 24 CFR part 964 defines an RC as an incorporated or unincorporated nonprofit organization, HUD requires RC applicants for ROSS grants to be registered with the State at the time of application submission.) The following also applies to resident councils:

(1) The RC must adopt written procedures such as by-laws, or a constitution, which provides for the election of residents to the governing board by the voting membership of the public housing residents. The elections must be held on a regular basis, but at least once every 3 years. The written procedures must provide for the recall of the resident board by the voting membership. These provisions shall allow for a petition or other expression of the voting membership's desire for a recall election, and set the percentage of voting membership that must be in agreement in order to hold a recall election. This threshold shall not be less than 10 percent of the voting membership.

(2) The RC must have a democratically elected governing board that is elected by the voting membership. At a minimum, the governing board should consist of five elected board members. The voting membership must consist of heads of households (any age) and other residents at least 18 years of age or older and whose names appear on a lease for the unit in the public housing that the resident council represents.

(3) The RC may represent residents residing in:

(a) Scattered site buildings in areas of contiguous row houses;

(b) One or more contiguous buildings;

(c) A development; or

(d) A combination of the buildings or developments described above.

Regional Resident Organization (RRO) means an incorporated nonprofit organization or association for public housing that meets each of the following requirements:

(1) The RRO is regional (i.e., not limited by HUD Areas);

(2) The RRO has experience in providing start-up and capacity-building training to residents and resident organizations; and

(3) Public housing residents representing different geographical locations in the region must comprise the majority of the board of directors.

Resident Management Corporation (RMC) (see 24 CFR 964.7, 964.120) means an entity that consists of residents residing in public housing and must have each of the following characteristics in order to receive official recognition by the PHA and HUD:

(1) The RMC shall be a nonprofit organization that is validly incorporated under the laws of the State in which it is located;

(2) The RMC may be established by more than one RC, so long as each such council:

(a) Approves the establishment of the corporation; and

(b) Has representation on the Board of Directors of the corporation.

(3) The RMC shall have an elected Board of Directors, and elections must be held at least once every 3 years;

(4) The RMC's by-laws shall require the Board of Directors to include resident representatives of each RC involved in establishing the corporation; include qualifications to run for office, frequency of elections, procedures for recall; and term limits if desired;

(5) The RMC's voting members shall be heads of households (any age) and other residents at least 18 years of age and whose names appear on the lease of a unit in public housing represented by the RMC;

(6) Where an RC already exists for the development, or a portion of the development, the RMC shall be approved by the RC board and a majority of the residents. If there is no RC, a majority of the residents of the public housing development it will represent must approve the establishment of such a corporation for the purposes of managing the project; and

(7) The RMC may serve as both the RMC and the RC, so long as the corporation meets the requirements of 24 CFR part 964 for an RC.

Resident Organization (RO) for tribal entities means an incorporated or nonprofit tribal organization or association that meets each of the following criteria:

(1) It shall consist of residents only, and only residents may vote;

(2) If it represents residents in more that one development or in all of the developments of the tribal/TDHE community, it shall fairly represent residents from each development that it represents;

(3) It shall adopt written procedures providing for the election of specific officers on a regular basis; and

(4) It shall have democratically elected a governing board. The voting membership of the board shall consist solely of the residents of the development or developments that the tribal RO represents.

Secretary means the Secretary of Housing and Urban Development.

Site-Based Resident Associations means Resident Councils and Resident Management Corporations.

Statewide Resident Organization (SRO) means a Site-Based incorporated nonprofit organization or association for public housing that meets the following requirements:

(1) The SRO is Statewide;

(2) The SRO has experience in providing start-up and capacity-building training to residents and resident organizations; and

(3) Public housing residents representing different geographical locations in the State must comprise the majority of the Board of Directors.

Tribal/TDHE Resident Group means tribal/TDHE resident groups that are democratically elected groups such as IHA-wide resident groups, area-wide resident groups, single development groups, or resident management corporations (RCMs).

(C) *Resident Management and Business Development (RMBD).* This funding category makes grants to establish and strengthen organizational capacity for site-based resident organizations that do not have the capacity to administer a welfare to work program or conduct management activities, conduct training or implement business development.

(1) *Eligible applicants.* Site-Based Resident Associations (RAs), tribes/TDHES, tribes/TDHEs that partner with tribal ROs or tribal RMCs and City-Wide Resident Organizations (CWROs). If you are an RA/RO that is a beneficiary or recipient of proposed grant activities by a CWRO/TDHE, then you cannot also apply under this category. You may only submit one application under this funding category.

(2) *Eligible participants.* Program participants must be residents of conventional public housing or Indian housing programs. You must provide a certification that at least 51 percent of those served by your proposed activities are residents affected by welfare reform.

(3) *Eligible Activities.* Funding is limited to the following activities below:

(a) Training related to resident-owned business, cooperative development, resident property management and technical assistance for job training and placement in housing developments. Proposed grant activities may include but are not limited to: feasibility and market studies; development of business plans; outreach activities; and innovative financing methods including revolving loan funds and the development of credit unions; and legal advice in establishing a resident-managed business entity or cooperative.

(b) Establishing and funding revolving loan funds. Revolving loan funds cannot be used for acquisition, disposition, or physical development;

(c) Training residents, as potential employees of an RMC, in skills directly related to the operation, management, maintenance and financial systems of a development;

(d) Training residents with respect to fair housing requirements; and

(e) Gaining assistance in negotiating management contracts and designing a long-range planning system.

(f) Providing social support needs (such as self-sufficiency and youth initiatives) including:

(g) Feasibility studies to determine training and social services needs;

(h) Training in management-related trade skills, computer skills, and similar skills;

VOL
67
ISS
58
MR
26
2002
UMI

(i) Management-related employment training and counseling including job search assistance, job development assistance, job placement assistance, and follow up assistance;

(j) Supportive services including: child care services; educational services, remedial education, literacy training, ESL instruction, assistance in attaining a GED; vocational training including computer training; health care outreach and referral services; meal services for the elderly or persons with disabilities; personal assistance to maintain hygiene/appearance for the elderly or persons with disabilities; housekeeping assistance for the elderly or persons with disabilities; transportation services; congregate services for the elderly or persons with disabilities; and case management;

(k) Training for programs such as childcare, early childhood development, parent involvement, volunteer services, parenting skills, before and after school programs;

(l) Training programs on health, nutrition, safety and substance abuse. Food costs that are directly attributable to the nutrition and health training are eligible grant expenditures. These are not food costs associated with entertainment.

(m) Workshops for youth services including: child abuse and neglect prevention, tutorial services, youth leadership skills, youth mentoring, peer pressure reversal, life skills, and goal planning. The workshops can be held in partnership with community-based organizations such as local Boys and Girls Clubs, YMCA/YWCA, Boy/Girl Scouts, Campfire, and Big Brother/Big Sisters. Proposed activities may include training in the development of strategies to successfully implement a youth program. For example, assessing the needs and problems of youth, improving youth initiatives that are currently active, and training youth, housing agency staff, resident management corporations and resident councils or resident organizations on youth initiatives and program activities;

(n) Physical improvements to facilities at public or tribal housing developments to provide space for self-sufficiency activities for residents, i.e. to provide cosmetic improvements and repairs to space to conduct community activities; or to expand existing community space for your proposed ROSS activities or modifications for accessibility for persons with disabilities. Renovation, conversion, and repair costs may be essential parts of physical improvements. In addition, architectural, engineering, and related professional services required to prepare architectural plans or drawings, write-ups, specifications or inspections may also be part of the cost components to implement physical improvements. Your physical improvements may not exceed 50 percent of the total grant amount and must be directly related to providing space for self-sufficiency activities for residents. Refer to Office of Management and Budget (OMB) Circular A–87, Cost Principles for State, Local and Indian Tribal Governments; all renovations must meet appropriate accessibility requirements, including Section 504 requirements at 24 CFR part 8, Architectural Barriers Act at 24 CFR part 40, the Americans with Disabilities Act and the Fair Housing Act.

(i) The renovation, conversion, or combination of vacant dwelling units in a PHA or tribal development to create common areas to accommodate the provision of supportive services is an eligible activity for physical improvements.

(ii) The renovation of existing common areas in a PHA or tribal development to accommodate the provision of supportive services.

(iii) The renovation or repair of facilities located near the premises of one or more PHA or tribal developments to accommodate the provision of supportive services.

(iv) If renovation, conversion, or repair is done off-site, the PHA, tribe or owner must provide documentation that it has control of the proposed property for not less than 2 years and preferably for 4 years or more. Control can be evidenced through a lease agreement, ownership documentation, or other appropriate documentation.

(4) *Ineligible Resident Management and Business Development Activities and Costs.*

(a) Entertainment, including associated costs such as food and beverages, except normal per diem for meals related to travel performed in connection with implementing the Work Plan. A travel budget limit of a maximum of $5,000 is allowed to support travel expenses. These travel expenses must directly pertain to travel related to work plan implementation.

(b) Purchase or rental of land.

(c) Activities not directly related to the welfare-to-work initiatives (*e.g.*, lead-based paint testing and abatement and operating capital for economic development activities).

(d) Purchase of any vehicle (car, van, bus, etc.).

(e) Payment of salaries for routine project operations, such as security and maintenance, or for applicant staff, except that a reasonable amount of grant funds may be used to hire a person to coordinate the Resident Management and Business Development grant activities or coordinate on-site social services.

(f) Payment of fees for lobbying services.

(g) Any expenditures that are fraudulent, wasteful or otherwise incurred contrary to HUD or OMB directives.

(h) Any cost otherwise eligible under this program section of the SuperNOFA for which funds are being provided from any other source.

(i) Entertainment equipment such as televisions, radios, stereos, and VCRs. An exception to this item may be granted by the HUD Field or DPONAP Office if funding is being utilized specifically for the purposes of establishing a business directly related to radio, television or film or some other form of technical communication, and equipment is being utilized for training of residents, ROs or RAs. All such exceptions must be authorized in writing by the HUD Field or DPONAP Office before purchases may be made.

(j) The cost of application preparation is not eligible.

(5) *Supporting Information.* The following information may be useful in developing proposed grant activities and costs:

(a) *Training.* Training activities may include training on HUD regulations and policies governing the operation of low-income public or Indian housing including contracting/procurement regulations; financial management; job and business development training; capacity building to develop the necessary skills to assume management responsibilities at the project and property management; and training in accessing other funding sources.

(b) *Hiring trainers or other experts.* Resident grantees must ensure that all training is provided by a qualified public housing or management specialist (Consultant/Trainer), HUD Headquarters, Field or DPONAP staff, or the local PHA or tribe /TDHE. A qualified trainer is one who has a high degree of working program knowledge. To ensure the successful implementation of the grant Work Plan activities, you are required to determine the need to contract for outside consulting/training services. You and the PHA or tribe/TDHE must jointly select and approve the consultant/trainer. Your application should make maximum use of your PHA, non-profit, or other Federal, State, or local government resources for technical assistance and training needs. The amount allowed for hiring an individual consultant for this purpose shall not exceed 30 percent of your total grant amount or $30,000, whichever is less. The amount available for all consultants and contracts should not exceed 50 percent of your grant amount or $50,000, whichever is less. HUD Field or DPONAP Offices will monitor this process to ensure compliance with program and OMB requirements, and particularly the requirement for competitive bidding. You must use performance-based contracting, which requires that fees be paid in exchange for goods and services actually delivered. For example, a trainer would be paid for the number of residents that were trained, *i.e.*, performance, regardless of the maximum dollar amount quoted in the contract.

(c) *Stipends.* Trainees and program participants of an RA, RO or CWRO, may receive stipends for participating in or receiving training under Resident Management to cover reasonable costs related to participation in training and other activities in your program, subject to the availability of funds. The stipends should be used for additional costs incurred during the training programs, such as childcare and transportation costs. The cost of stipends may not exceed $200 per month per trainee without written HUD Field or DPONAP Office authorization.

(d) *Reimbursement of Reasonable Expenses.* Reimbursement of reasonable expenses incurred by Officers and Board members in the performance of their fiduciary duties and/or training related to the performance of their official duties.

(e) *Travel.* Travel directly related to the successful completion of your required Work Plan adhere to the travel policy that sets travel costs at a maximum amount of $5,000 per RA or RO without special HUD approval.

(f) *Child-Care Expenses.* Childcare expenses for individual staff, board members, or residents in cases where those who need child care are involved in training-related activities associated with your grant activities.

(g) *Costs incurred by a RA or RO in applying for 501(c) tax-exempt status with the Internal Revenue Service.* Please refer to the Internal Revenue Service (IRS) Publication 557, which describes the requirements for section 501(c) tax exempt organizations and list the applicable forms required.

(h) *Administrative costs.* These costs are necessary for the implementation of your grant activities. Administrative costs are not to exceed 20 percent of the grant. Appropriate administrative costs include, but are not limited to, the following reasonable costs or activities:

(i) *Space and equipment.* Maintenance, utility costs, postage, building lease/rental costs, purchase or lease of telephone, computer, printing, copying, and sundry non-dwelling equipment (such as office supplies, software, and furniture). If appropriate, you may also include rental or lease of a car, van, or bus by resident grantees to attend training. You must justify the need for this equipment or space based on services being delivered in relationship to implementing your approved grant activities;

(6) *Grant term.* The grant term for Resident Management and Business Development grants is thirty-six months from the execution date of your grant agreement.

(D) *Capacity Building.*

(1) *Eligible applicants.* (a) Intermediary Resident Organizations (IROs) on behalf of public or Indian housing residents, which include Public Housing Site-Based Resident Councils, Resident Organizations and Resident Management Corporations, may apply for Capacity Building (CB) grants. IROs include National Resident Organizations, Statewide Resident Organizations, Regional Resident Organizations, City-Wide Resident Organizations, and Jurisdiction-Wide Resident Organizations.

(b) Non-profits that operate as associations or networks that administer programs that benefit public or Indian housing resident organizations are also eligible for this funding category.

(2) Eligible activities. Eligible activities for CB grants may include, but are not limited to:

(a) Training for Resident Advisory Board Members and Resident representatives that serve on the PHA Board of Directors, and for resident Board members in community organizing, Board development, and leadership training;

(b) Assessing the feasibility of training existing resident groups for resident management or for a specific resident management project;

(c) Assisting in the creation of an RMC, such as consulting and legal assistance to incorporate, preparing by-laws and drafting a corporate charter;

(d) Developing the management capabilities of existing resident organizations; and

(e) Determining the feasibility of homeownership by residents, including assessing the feasibility of other housing (including HUD-owned or held single or multi-family) affordable for purchase by residents.

(3) *Ineligible Activities.* Ineligible activities are the same as those listed in Section III(C)(4) of this program section of the SuperNOFA, above.

(a) In addition, physical development activities are not eligible for funding under CB grants.

(b) The cost of application preparation is not eligible.

(4) *Administrative costs* may include, but are not limited to, purchase of furniture, office equipment and supplies, training, quality assurance, travel, and utilities. Administrative costs must not exceed 20 percent of the total grant costs.

(5) *Grant term.* The grant term for Capacity Building grants is thirty-six months from the execution date of the grant agreement.

(E) *Resident Service Delivery Models (RSDM).*

(1) *Eligible Applicants.* (a) Family. This funding category provides grants to PHAs, tribes/TDHEs, resident management corporations, resident councils, resident organizations, and nonprofit entities supported by residents, to enable them to establish and implement comprehensive programs that assist residents in becoming self-sufficient.

(b) *Elderly and Persons with Disabilities.* PHAs, tribes/TDHEs and non-profits supported by a duly elected resident council are the only eligible applicants in providing supportive services for the elderly and persons with disabilities.

(c) IROs with 501(c) status may apply as non-profit entities under this funding category.

(2) *Number of RSDM Applications Permitted.*

(a) *General.* A PHA or tribe/TDHE must submit an application either for a family or an elderly grant. ROs or RCs must submit one application for a family grant; and non-profits may submit one application for a family or elderly grant representing up to three public or Indian housing resident groups.

(b) *Joint applications.* Two or more applicants may join together to submit a joint application for proposed grant activities. Joint applications must designate a lead applicant. All parties in a joint application (lead or non-lead) are considered to be applying for ROSS and are therefore subject to the limit of one ROSS application per applicant, with the exception of those Public Housing Service Coordinator renewal applicants that may also apply in one additional ROSS category. Both lead and non-lead applicants are subject to threshold requirements. Joint applications may include PHAs, RAs, IROs, Tribes/TDHEs, and nonprofit entities on behalf of resident organizations. Joint

VOL
67
ISS
58
MR
26
2002
UMI

applications must also provide evidence of resident support. The maximum funding for joint applications cannot exceed the sum of the individual grants as specified above. Any eligible applicant can serve as a lead applicant.

(3) *Eligible participants.* Program participants must be residents of conventional public or Indian housing. You must provide a certification that at least 51 percent of those served by your proposed activities are residents affected by welfare reform.

(4) *Eligible Activities.* Funds may be used for the activities described below for the family category.

(a) *Program Coordinator.* You are encouraged to include a Program Coordinator for either proposed family or elderly RSDM activities for the entire term of your grant. A Program Coordinator is a person who is responsible for coordinating various proposed activities to ensure that their accomplishment will assist in achieving overall grant goals and objectives.

(b) *Physical improvements.* Physical improvements to provide space for self-sufficiency activities for residents (*i.e.* to provide cosmetic repairs for space to conduct community activities; or to expand existing community space for proposed ROSS activities) or modification for accessibility for persons with disabilities. Renovation, conversion, and repair costs may be essential parts of physical improvements. In addition, architectural, engineering, and related professional services required to prepare architectural plans or drawings, write-ups, specifications or inspections may also be part of the cost components to implement physical improvements. Physical improvements may not exceed 50 percent of the total grant amount and must be directly related to providing space for self-sufficiency activities for residents. Refer to Office of Management and Budget (OMB) Circular A–87, Cost Principles for State, Local and Indian Tribal Governments. All renovations must meet appropriate accessibility requirements, including Section 504 requirements at 24 CFR part 8, Architectural Barriers Act at 24 CFR part 40, the Americans with Disabilities Act and the Fair Housing Act. Physical improvements include the following:

(i) The renovation, conversion, or combination of vacant dwelling units in a housing development to create common areas to accommodate the provision of supportive services is an eligible activity for physical improvement;

(ii) The renovation of existing common areas in a housing development to accommodate the provision of supportive services is an eligible activity for physical improvements;

(iii) The renovation or repair of facilities located near the premises of one or more housing developments to accommodate the provision of supportive services is an eligible activity for physical improvements;

(iv) If renovation, conversion, or repair is done off-site, you must provide documentation that you have control of the proposed property for not less than 2 years and preferably for 4 years or more. Control can be evidenced through a lease agreement, ownership documentation or other appropriate documentation.

(c) *Entrepreneurship training.* Entrepreneurship training includes literacy training, computer skills training, and business development planning.

(d) *Entrepreneurship development.* Entrepreneurship development includes entrepreneurship training curriculum and entrepreneurship courses.

(e) *Micro/Loan fund.* Developing a strategy for establishing a revolving micro/loan fund and/or capitalizing a loan fund, including licensing, bonding, and insurance needed to operate a business. Revolving loan funds cannot be used for acquisition, disposition, or physical development.

(f) *Developing credit unions.* Developing a strategy to establish and/or create on-site credit union(s) to provide financial and economic development initiatives to PHA residents. (RSDM grant funds cannot be used to capitalize a credit union.) The credit union can support the normal financial management needs of the community (*i.e.*, check cashing, savings, consumer loans, micro-businesses money management, home buyer counseling, educational loans, and other revolving loans).

(g) *Individual development accounts.* Activities or programs that encourage residents to contribute to matched savings accounts known as Individual Development Accounts (IDAs). These programs include financial counseling and education activities. (RSDM funds cannot be used as matching funds for the actual savings account).

(h) *Employment training and counseling* (*e.g.*, job training, establishing registered apprenticeship programs, preparation and counseling, job search assistance, job development and placement, and supportive services to support job training and apprenticeship activities).

(i) *Employer linkage and job placement.*

(j) *Enhanced self-sufficiency programs or work initiatives.* These programs will reinforce initial welfare to work programs and will focus on efforts to increase the earning capacity of residents. With a goal of increased resident earning capacity, additional efforts may be undertaken to establish or develop programs through job training, employment training and counseling, employer linkages and job placement, or other welfare to work initiatives. Activities may include but are not limited to assisting eligible residents in: securing better-paying jobs, seeking an improved work environment, preparing for work in a new job category, or obtaining enhanced job-related skills and educational training.

(k) *Family only—supportive services activities.* The provision of services to assist eligible residents to become economically self-sufficient, particularly families with children where the head of household would benefit from the receipt of supportive services and is working, seeking work, or is preparing for work by participating in job training or educational programs. Eligible supportive services may include, but are not limited to:

(1) Child care, of a type that provides sufficient hours of operation and serves appropriate ages as needed to facilitate parental access to education and job opportunities;

(2) Computer-based educational opportunities, skills training, and entrepreneurial activities;

(3) Homeownership training and counseling, development of feasibility studies and preparation of homeownership plans/proposals;

(4) Education including but not limited to: remedial education; computer skills training; career counseling; literacy training; assistance in the attainment of certificates of high school equivalency; two-year college tuition assistance; trade school assistance; youth leadership skills and related activities (activities may include peer leadership roles training for youth counselors, peer pressure reversal, life skills, and goal planning). Academic support shall not be limited to TANF recipients;

(5) Youth mentoring of a type that mobilizes a potential pool of role models to serve as mentors to public housing youth. Mentor activities may include after-school tutoring, help with problem resolution issues, illegal drugs avoidance, job counseling, or mental health counseling;

(6) Transportation costs, as necessary to enable any participating family member to receive available services to commute to his or her training or supportive services activities or place of employment;

(7) Personal well-being (e.g., family/parental development counseling, parenting skills training for adult and teenage parents, self-development counseling, support groups/counseling for victims of domestic violence, and/or families with a mentally ill member, etc.);

(8) Supportive health care services (e.g., outreach and referral services to substance and alcohol abuse treatment and counseling, mental health services, wellness programs). Food costs that are directly attributable to the actual nutrition and health training are eligible grant expenditure. These are not food costs associated with entertainment;

(9) Contracting for case management services or employment of case managers, which must ensure confidentiality about resident's disabilities;

(l) *Administrative costs.* Administrative costs may include, but are not limited to, purchase of furniture, office equipment and supplies, quality assurance, travel, and utilities. Administrative costs must not exceed 20 percent of the total grant costs;

(m) *Stipends.* No more than $200 per participant per month of the grant award may be used for stipends for active trainees and program participants to cover the reasonable costs related to participation in training and other activities.

(5) *Elderly and persons with disabilities"eligible activities.* Supportive services activities for elderly and persons with disabilities activities may include, but are not limited to:

(a) A Program Coordinator (See Section III (E) (4) (a) for a description);

(b) Meal service adequate to meet nutritional need;

(c) Assistance with daily activities;

(d) Housekeeping aid;

(e) Transportation services;

(f) Health and nutrition programs, preventive health education, referral to community resources;

(g) Personal emergency response;

(h) Congregate services—includes supportive services that are provided in a congregate setting at a conventional public housing development;

(i) Case management;

(6) *Administrative costs.* Administrative costs, which may include, but are not limited to, purchase of furniture, office equipment and supplies, training, quality assurance, travel, and utilities. Administrative costs must not exceed 20 percent of the total grant costs.

(7) *Ineligible Activities.* Activities for which costs are ineligible for funding under the RSDM funding category include:

(a) Elderly Service Coordinator salary funding;

(b) Payment of wages and/or salaries to participants receiving supportive services and/or training programs, except that grant funds under family RSDM may be used to hire a resident(s) as a Program Coordinator or to provide training program activities;

(c) Purchase or rental of land;

(d) New construction, materials, costs;

(e) Purchase of vehicles; and

(f) Cost of application preparation is not eligible.

(8) *Grant term.* The grant term for Resident Service Delivery Models grants is thirty-six months from the execution date of the grant agreement.

(F) *Homeownership Supportive Services (HSS).* This funding category makes grants to PHAs for homeownership counseling and other supportive services for public housing residents who have participated in self-sufficiency programs. HSS activities including housing counseling are a missing link for working public housing residents to secure homeownership. HSS will build on the foundation of previous self-sufficiency activities to enhance the economic benefit for residents. Through these self-sufficiency programs the improved earning capacity of residents can be recognized as a foundation for homeownership. These grants will provide public housing residents with critical preparation for moving from renting to homeownership. In addition, HSS grants will create a pool of residents adequately prepared to pursue homeownership through the housing choice voucher program or other local homeownership programs. Therefore, HSS supports the existing section 8 homeownership program activities.

(1) *Eligible Applicants.* This funding category provides grants to PHAs for homeownership supportive services for public housing residents that were recipients of previously awarded ROSS grants and participates in the public housing Family Self Sufficiency Program funded from the operating fund. Tribes/TDHEs are not eligible applicants for HSS.

(2) *Eligible participants and requirements.* Program participants must meet all of the following conditions:

(a) This funding category is targeted to the population of public housing residents that were recipients/beneficiaries of previously awarded ROSS grants between FY 1999 and FY 2000, and participates in the public housing Family Self Sufficiency Program funded from the operating fund.

(b) Program participants must be residents of conventional public housing. As the applicant you must provide a statement that all of those served are residents affected by welfare reform. This includes those residents who are currently eligible, currently receiving, or have received within the preceding five years, assistance or services funded under TANF, SSI, or food stamp program.

(c) Where the number of targeted residents is not sufficient, the PHA may request a waiver to include conventional public housing residents, who participated in State and/or local self sufficiency programs in order to address homeownership needs in the local area.

(d) ROSS families or PH FSS residents to be targeted for proposed grant activities must meet the following eligibility requirements: Demonstrate an increase over a base year in earned income of at least 35 percent; achieve a level of income within the acceptable range for the local minimum income for home purchases in the local area; and currently reside in public housing.

(e) PHAs must have a Section 8 Homeownership program as stated in 24 CFR 982.625 *et seq.* (65 FR 55163). Those PHAs that have not elected to provide assistance under the voucher homeownership option (see final rule published September 12, 2000, 65 FR 55134), will be required to make such option available to eligible applicants who receive a voucher.

(f) In applying for HSS, applicants will be required to offer a minimum of 10 housing choice vouchers per year for eligible residents described above.

(3) *Eligible Activities.* Under this funding category, PHAs will design and develop homeownership supportive services for public housing residents. These supportive services shall comprehensively address the needs identified by the PHA for public housing families to obtain homeownership.

(a) Eligible activities shall include but not be limited to: Pre-purchase homeownership counseling and training; which may include training on such subjects as credit and financial management; credit repair; housing search; how to finance purchase of a home; fair housing; Individual Development Accounts, Real Estate Settlement Procedures Act (RESPA); and home maintenance.

(b) *Program Coordinator.* You are encouraged to include a Program Coordinator for activities for the entire term of your grant. A Program

VOL
67
ISS
58
MR
26
2002
UMI

Coordinator is a person who is responsible for coordinating various proposed activities to ensure that their accomplishment will assist in achieving overall grant goals and objectives.

(c) *Physical improvements.* Physical improvements to facilities at public or tribal housing developments to provide space for self-sufficiency activities for residents, i.e. to provide cosmetic improvements and repairs to space to conduct community activities; or to expand existing community space for your proposed ROSS activities or modifications for accessibility for persons with disabilities. Renovation, conversion, and repair costs may be essential parts of physical improvements. In addition, architectural, engineering, and related professional services required to prepare architectural plans or drawings, write-ups, specifications or inspections may also be part of the cost components to implement physical improvements. Your physical improvements may not exceed 50 percent of the total grant amount and must be directly related to providing space for self-sufficiency activities for residents. Refer to Office of Management and Budget (OMB) Circular A–87, Cost Principles for State, Local and Indian Tribal Governments; All renovations must meet appropriate accessibility requirements, including Section 504 requirements at 24 CFR part 8, Architectural Barriers Act at 24 CFR part 40, the Americans with Disabilities Act and the Fair Housing Act.

(i) The renovation, conversion, or combination of vacant dwelling units in a PHA or tribal development to create common areas to accommodate the provision of supportive services is an eligible activity for physical improvements.

(ii) The renovation of existing common areas in a PHA or tribal development to accommodate the provision of supportive services.

(iii) The renovation or repair of facilities located near the premises of one or more PHA or tribal developments to accommodate the provision of supportive services.

(iv) If renovation, conversion, or repair is done off-site, the PHA, tribe or owner must provide documentation that it has control of the proposed property for not less than 2 years and preferably for 4 years or more. Control can be evidenced through a lease agreement, ownership documentation, or other appropriate documentation.

(d) PHAs are strongly encouraged to partner with HUD-approved housing counseling agencies, or other agencies that provide housing counseling services.

(e) *Administrative Costs.* These costs are necessary for the implementation of your grant activities. Administrative costs are not to exceed 10 percent of the grant. Appropriate administrative costs include, but are not limited to, the following reasonable costs or activities:

(f) *Space and equipment.* Maintenance, utility costs, postage, building lease/rental costs, purchase or lease of telephone, computer, printing, copying, and sundry non-dwelling equipment (such as office supplies, software, and furniture). You must justify the need for this equipment or space based on services being delivered in relationship to implementing your approved grant activities.

(4) *Grant Term.* The grant term for Homeownership supportive services grants is thirty-six months from the execution date of your grant agreement.

(G) *Neighborhood Networks.* This funding category provides grants to PHAs to establish and/or operate Neighborhood Networks Centers that use computer technology and telecommunications or to update and expand existing computer centers. These computer centers will function as self-sustaining Neighborhood Networks Centers that: Increase the use of computer technology; reduce welfare dependency; promote economic self sufficiency; improve human development; provide opportunities for job training and development; expand educational opportunities for residents; develop access to health and nutrition information; and empower the clients they serve. All awardees will be required to complete the NN Business Plan and receive designation as a NN center within the grant term as part of proposed grant activities.

(1) *Eligible Applicants.* This funding category provides grants to PHAs. Tribes/TDHEs are not eligible applicants for NN under this funding category.

(2) *Eligible Activities.* Under this funding category, funds may be used for the following activities for either new NN or to update and expand existing computer centers to become NN:

(a) *Program Coordinator.* You are encouraged to include a Program Coordinator for NN activities for the entire term of your grant. A Program Coordinator is a person who is responsible for coordinating various proposed activities to ensure that their accomplishment will assist in achieving overall grant goals and objectives.

(b) *Physical improvements.* Physical improvements must directly relate to providing space for Neighborhood Networks Center activities for residents, including modifications for accessibility for persons with disabilities. Renovation, conversion, and repair costs may be essential parts of physical improvements. In addition, architectural, engineering, and related professional services required to prepare architectural plans or drawings, write-ups, specifications or inspections may also be part of the cost components to implement physical improvements. Your physical improvements may not exceed 20 percent of the total grant amount and must be directly related to providing space for self-sufficiency activities for residents. Refer to Office of Management and Budget (OMB) Circular A–87, Cost Principles for State, Local and Indian Tribal Governments; All renovations must meet appropriate accessibility requirements, including Section 504 requirements at 24 CFR part 8, Architectural Barriers Act at 24 CFR part 40, the Americans with Disabilities Act and the Fair Housing Act.

(i) The renovation, conversion, or combination of vacant dwelling units in a PHA or tribal development to create common areas to accommodate the provision of a NN and supportive services is an eligible activity for physical improvements.

(ii) The renovation of existing common areas in a PHA development to accommodate the provision of a NN and supportive services.

(iii) The renovation or repair of facilities located near the premises of one or more PHA or tribal developments to accommodate the provision of supportive services.

(iv) If renovation, conversion, or repair is done off-site, the PHA, tribe or owner must provide documentation that it has control of the proposed property for not less than 2 years and preferably for 4 years or more. Control can be evidenced through a lease agreement, ownership documentation, or other appropriate documentation.

(3) *Maintenance and insurance costs.* Include installing, training, and maintaining the hardware and software as well as insurance coverage for the space and equipment. Costs of computer hardware and software necessary to accommodate the needs of persons with disabilities are an eligible cost for this funding category.

(4) *Online computer center coordinator.* Costs for implementing the Neighborhood Networks Center and coordinating with social and supportive services staff.

(5) *Security and related costs.* Includes space and minor refitting, locks, and oversight.

(6) *Resident development and training courses.* These courses may be on disk, through the Web, and/or presented live.

(7) *Distance Learning Equipment.* Distance learning equipment, including the costs for video casting and purchase/lease/rental of distance learning equipment.

(8) *Administrative Costs.* Administrative costs may include, but are not limited to, purchase of furniture, office equipment and supplies, training, quality assurance, travel, and utilities. Administrative costs must not exceed 20 percent of the total grant costs.

(9) *Grant Term.* The grant term for Neighborhood Networks grants is thirty-six months from the execution date of the grant agreement.

(H) *Service Coordinators for Elderly and Persons with Disabilities.*

(1) *Eligible Applicants.* This funding category provides grants to PHAs with developments designated for the elderly and persons with disabilities, which were initially awarded in FY 1995. Tribes/TDHEs are not eligible for public housing service coordinator renewal grants.

(2) *Joint Applications.* Two or more PHAs may join together to share a service coordinator and to submit joint applications. Joint applicants must designate a lead applicant. All joint applicants must be existing service coordinator grantees.

(3) *Eligible Developments.* To be eligible, a development must have elderly residents and/or non-elderly residents with disabilities who together total at least 25 percent of the building's residents.

(4) *Eligible Activities.* Under this funding category, funds may be used for the following activities:

(a) *Service Coordinator.* To pay for the salary, fringe benefits, and related administrative costs for employing a service coordinator. A service coordinator is a social service staff person hired or contracted by the PHA. The coordinator is responsible for assuring that elderly residents, especially those who are frail or at risk, and those non-elderly residents with disabilities are linked to the supportive services they need to continue living independently in that development. The service coordinator, however, may not require any elderly person or person with disabilities to accept the supportive services. For the purposes of this program, a service coordinator is any person who is responsible for one or more of the following functions:

(i) Working with community service providers to coordinate the provision of services and to tailor the services to the needs and characteristics of eligible residents;

(ii) Establishing a system to monitor and evaluate the delivery, impact, effectiveness and outcomes of supportive services under this program;

(iii) Coordinating this program with other independent living or self-sufficiency, education and employment programs;

(iv) Performing other duties and functions to assist residents to remain independent, and to prevent unnecessary institutionalization; and

(v) Mobilizing other national and local public/private resources and partnerships.

(b) *Administrative Costs.* Administrative costs may include, but are not limited to, purchase of furniture, office equipment and supplies, training, quality assurance, travel, and utilities. Administrative costs must not exceed 20 percent of the total grant costs.

(5) *Ineligible Activities/Costs.* (a) Applicants may not use these monies to replace current funding from other sources for a Service Coordinator or for some other staff person who performs service coordinator functions; and

(b) The cost of application preparation is not eligible.

(6) *Grant Term.* The grant term for Elderly or Persons with Disabilities Service Coordinator grants is 12 months.

IV. Program Requirements

The requirements of this section are applicable to all applicants, and grantees under this announcement of funding availability.

(A) *Compliance with Fair Housing and Civil Rights Laws.* Your application must meet all the applicable threshold requirements found in Section II (B) of the General Section of the SuperNOFA, as well as the following requirements.

(B) *Affirmatively Furthering Fair Housing.* You must adhere to the requirements as provided in Section II(D) of the General Section of the SuperNOFA.

(C) *Conducting Business In Accordance With Core Values and Ethical Standards.* All applicants shall develop and maintain a written code of conduct that reflects Core Values. See Section II(B)(2) of the General Section of the SuperNOFA for requirements.

(D) *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses.* The Department of Housing and Urban Development (HUD) is committed to ensuring that small businesses, small disadvantaged businesses and women-owned businesses participate fully in HUD's direct contracting and in contracting opportunities generated by HUD grant funds. See Section II (F) of the General Section of the SuperNOFA for requirements.

(E) *Economic Opportunities for Low and Very Low Income Persons (Section 3).* You must adhere to the requirements as provided in Section II (E) of the General Section of the SuperNOFA.

(F) *Certifications and Assurances.* You must comply with the certifications and assurances contained in Section II (G) of the General Section of the SuperNOFA.

(G) *Applicant Internet Access.* Prior to the initial draw down, all grantees must have secured online access to the Internet as a means to communicate with HUD on grant matters. Tribes/TDHEs awardees may submit a waiver request to the Office of Native American Programs for this requirement if Internet access cannot be obtained.

(H) *ROSS Evaluation and Assessment.* All applicants selected for award must be willing to participate in the evaluation and assessment that HUD intends to conduct for the ROSS Program. At grant award HUD will provide additional information on the evaluation and assessment for applicants who receive awards.

(I) *ROSS Performance Measures.* All applicants selected for award must use ROSS Performance Measures in grant reporting for all awards. A comprehensive list of Performance Measures is provided in Appendix A to this NOFA. At grant award HUD will provide additional information on the Performance Measures for applicants who receive awards.

V. Application Selection Process

(A) Application Selection Process for Resident Management and Business Development. Applicants for Resident Management and Business Development grants are required to address application submission requirements, but are not required to address selection factors. Eligibility will be determined by applications that meet the threshold requirements of Section VI of this program section of the SuperNOFA. HUD will accept for funding a maximum of the first five eligible applications from each of the ten federal regions and DPONAP on a first-come, first-serve basis for this SuperNOFA. Any funds remaining after making awards to the first five eligible applications from each region and DPONAP will be awarded to the next eligible application from each region, then the next, and so forth until funds are exhausted. If sufficient funds are not available in any round to fund an eligible application from each region and DPONAP, the eligible applications will then be funded in the order in which they were received regardless of region. Where physical development

VOL
67
ISS
58
MR
26
2002
UMI

activities are proposed, HUD will perform an environmental review, to the extent required by 24 CFR part 50, prior to award. The results of the environmental review may require that proposed activities be modified or proposed sites rejected. If all funds are not awarded in this funding category, available funds may be transferable to the RSDM funding category in this ROSS competition.

(B) Application Selection Process for Capacity Building. Applicants for Capacity Building grants are required to address application submission requirements but are not required to address selection factors. Eligibility will be determined by applications that meet the threshold requirements of Section VI of this program section of the SuperNOFA. HUD will accept for funding the first two eligible applications from each of the ten federal regions and DPONAP on a first-come, first-served basis for this SuperNOFA. Any funds remaining after making awards to the first two eligible applications from each region and DPONAP will be awarded to the next eligible application from each region and DPONAP, then the next, and so forth until funds are exhausted. If sufficient funds are not available in any round to fund an eligible application from each region and DPONAP, the eligible applications will then be funded in the order in which they were received regardless of region and DPONAP. If all funds are not awarded in this funding category, available funds may be transferable to the RSDM funding category in this ROSS competition.

(C) Application Selection Process for Resident Service Delivery Models.

(1) Three types of reviews will be conducted: a screening to determine if your application submission is complete and on time; a threshold review to determine applicant eligibility; and a technical review to rate your application based on the five rating factors provided in this section. A minimum score of 70 is required to be considered for funding. If you are not the PHA or Tribe/TDHE, where physical development activities are proposed, HUD will perform an environmental review, to the extent required by 24 CFR part 50, prior to award. The results of the environmental review may require that proposed activities be modified or proposed sites rejected.

(2) The selection process is designed to achieve geographic diversity of grant awards throughout the country. HUD will first select the highest ranked application from each of the ten federal regions and DPONAP for funding. After this "round," HUD will select the second highest ranked application in each of the ten federal regions and DPONAP for funding (the second round). HUD will continue this process with the third, fourth, and so on, highest ranked applications in each federal region and DPONAP until the last complete round is selected for funding. If available funds exist to fund some but not all eligible applications in the next round, HUD will make awards to those remaining applications in rank order regardless of region and DPONAP and will fully fund as many as possible with remaining funds. Additional funding rounds to utilized transferred funding will be awarded utilizing the process described above.

(3) Factors for Award Used to Evaluate and Rate RSDM Applications. The factors for rating and ranking applicants and maximum points for each factor are provided below. The maximum number of points available for this program is 102. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA. The application kit contains a certification that must be completed for the applicant to be considered for RC/EZ/EC bonus points and a listing of federally designated RCs, EZs and ECs. In addition, a list of RCs, EZs, and ECs is attached to the General Section of the SuperNOFA as Appendix A–2 and is also available from the SuperNOFA Information Center, and the HUD web site, *www.hud.gov*. A RSDM application must receive a total of 70 points out of 100 to be eligible for funding.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 Points)

This factor addresses the extent to which the applicant has the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor HUD will consider the extent to which the proposal demonstrates:

(1) *Proposed Program Staffing.* (7 Points)

(a) *Experience.* (4 Points) The knowledge and experience of your proposed project director and staff, including the day-to-day program manager, sub-recipients and partners in planning and managing programs for which funding is being requested. Your experience will be judged in terms of recent, relevant and successful experience to undertake eligible program activities.

(b) *Sufficiency.* (3 Points) You and your sub-recipients and partners have sufficient personnel or will be able to quickly access qualified experts or professionals, to deliver the proposed activities in each proposed service area in a timely and effective fashion, including your readiness and ability to immediately begin the proposed work program. To demonstrate sufficiency, you must submit the proposed number of staff years to be allocated to your program by employees and experts, the titles and relevant professional background and experience of each employee and expert proposed to be assigned to your program, and the roles to be performed by each identified employee and expert.

(2) *Program Administration and Fiscal Management.* (7 Points)

(a) *Program Administration.* (4 Points) The soundness of the proposed management of your proposed RSDM program. To receive a high score, you must provide a comprehensive description of your project management structure. Your narrative must provide a description of how any co-applicants, sub-grantees, and other partner agencies relate to the program administrator as well as the lines of authority and accountability among all components of your proposed program.

(b) *Fiscal Management.* (3 Points) The soundness of your proposed fiscal management. To receive a high score you must provide a comprehensive description of the fiscal management structure, including, but not limited to, budgeting, fiscal controls, and accounting. The application must identify the staff responsible for fiscal management, and the processes and timetable for implementation during the proposed grant period.

(3) *Applicant/Administrator Track Record.* (6 Points) To receive a high score, you must demonstrate your (or your proposed Administrator's) program compliance and successful implementation of any resident self-sufficiency, enhanced self-sufficiency program, welfare-to-work initiative, or economic independence oriented grants (including those listed below) awarded to you or overseen by your Administrator. If you or your Administrator has no prior experience in operating programs that foster resident self-sufficiency, enhanced self-sufficiency program, welfare-to-work initiative, or economic independence you will receive a score of 0 on this factor. Your past experience may include, but is not limited to, administering the following grants: Family Investment Center Program; Youth Development Initiative under Family Investment Center Program; Youth Apprenticeship Program; Apprenticeship Demonstration in the Construction Trades Program; Urban Youth Corps Program; HOPE I Program; Public Housing Service Coordinator Program; Public Housing Drug Elimination Program; Tenant Opportunities Program; Economic Development and Supportive Services; Indian Housing Drug Elimination Program; and Youth Sports Program.

Rating Factor 2: Need/Extent of the Problem (20 Points)

This factor addresses the extent to which there is a need for funding your proposed program activities to address a documented problem in the target area. You will be evaluated on the extent to which they document a critical level of need in the development or your proposed activities in the area where activities will be carried out. In responding to this factor, you will be evaluated on:

(1) *A Needs Assessment Document.* (18 Points) HUD will award up to 18 points based on the quality and comprehensiveness of the needs assessment document.

(a) To obtain maximum points for Family RSDM applications, this document must contain statistical data, which provides:

(i) A thorough socioeconomic profile of the eligible residents to be served by your program, in relationship to PHA-wide and national public and assisted housing data on residents who are on TANF, SSI benefits, or other fixed income arrangements; in job training, entrepreneurship, or community service programs; and employed;

(ii) Specific information on training, contracting, and employment through the PHA or tribe/TDHE;

(iii) An assessment of the current service delivery system as it relates to the needs of the target population, including the number and type of services, the location of services, and community facilities currently in use. For enhanced self-sufficiency programs, you must describe specific baseline elements upon which goals will be measured;

(iv) A description of the goals, objectives, and program strategies that will result in the successful transition of residents from welfare-to-work increased earning capacity or sustained work; and

(v) For enhanced self-sufficiency programs, you must describe how your proposed grant activities will contribute to the economic stability of the affected area.

(b) In order to obtain maximum points for Elderly and Persons with Disabilities RSDM applications, the needs assessment document should contain statistical data that provide:

(i) The numbers of residents needing assistance for activities of daily living;

(ii) An assessment of the current service delivery system as it relates to the needs of the target population, including the number and type of services, the location of services, and community facilities currently in use;

(iii) A description of the goals, objectives, and program strategies that will result in increased independence for proposed program participants;

(2) *Level of Priority in Consolidated Plan or Indian Housing Plan.* (2 Points) Documentation of the level of priority the locality's, or in the case of small cities, the State's, Consolidated Plan, or Indian Housing Plan has placed on addressing the needs. You may also address needs in terms of fulfilling the requirements of court actions or other legal decisions or which expand upon the Analysis of Impediments to Fair Housing Choice (AI) to further fair housing. If you address needs that are in your community's Consolidated Plan, AI, or a court decision, or identify and substantiate needs in addition to those in the AI, you will receive a greater number of points than applicants who do not relate their proposed program to the approved Consolidated Plan or AI or court action. There must be a clear relationship between your proposed activities, community needs and the purpose of the program funding for you to receive points for this factor.

Rating Factor 3: Soundness of Approach (40 Points)

This factor addresses the quality and cost-effectiveness of your proposed work plan. In rating this factor HUD will consider: the viability and comprehensiveness of your strategies to address the needs of residents; budget appropriateness/efficient use of grant; the speed at which you can realistically accomplish the goals of the proposed RSDM program; the soundness of your plan to evaluate the success of your proposed RSDM program at completion and during program implementation; and resident and other partnerships; and policy priorities.

(1) *Viability and comprehensiveness of the strategies to address the needs of residents* (21 Points). The score under this subfactor will be based on the viability and comprehensiveness of your strategies to address the needs of residents:

(a) *Services.* (18 Points for Family RSDM applicants and 21 Points for Elderly and Persons with Disabilities RSDM applicants). More points are awarded in the Elderly and Persons with Disabilities RSDM applications to balance other sections of the rating criteria where points are not applicable to an Elderly and Persons with Disabilities RSDM applicant) The score under this subfactor will be based on the following:

(i) For Family RSDM applications, the extent to which your plan provides services that specifically address the successful transition from welfare to work of non-elderly families. To receive a high score, your plan must include case management/counseling, job training/development/placement (and/or business training/development/startup), childcare, and transportation services. If you are not proposing to use RSDM funding for these activities, you must show that you will provide these services with other funds or through specific commitments from partners.

(ii) In order to receive maximum points, the goals and objectives of your proposed plan must represent significant achievements related to welfare-to-work, enhanced self-sufficiency programs or other initiatives which build on previous welfare-to-work programs, and other self-sufficiency/independence goals. Specifically for those residents affected by welfare reform, we are interested in achievements that are performance outcomes such as the number of residents employed or businesses started, in addition to process descriptions, such as the number of residents receiving training. Similarly, for those residents involved in enhanced self-sufficiency programs, we are interested in achievements related to performance measures such as sustained work and increased earning capacity.

(iii) For Elderly and/or Persons with Disabilities RSDM applications, services in your plan should include case management, health care, congregate services and transportation. To obtain maximum points, you must describe the goals, objectives, and program strategies that will result in increased independence for proposed program participants; your services must be located in a community facility; and must be available on a 12-hour basis or as needed by the eligible residents.

(b) *Resident Contracting and Employment.* (3 Points for Family RSDM applicants) The score in this factor will be based on the extent to which residents will achieve self-sufficiency or increased earning capacity through your contracts with resident-owned businesses and through resident employment. A high score will be awarded where there is documentation (a letter or resolution from your governing body) describing

VOL 67 ISS 58 MR 26 2002 UMI

your commitment to hire or contract with at least 15 percent of residents and a narrative describing the number of resident jobs or contracts involved, as well as the training processes related to the comprehensive plan of your application. Elderly and Persons with Disabilities RSDM applications will not be scored on the criterion in this subcategory.

(2) *Budget Appropriateness/Efficient Use of Grant.* (5 Points for Family RSDM and Elderly and Persons with Disabilities RSDM) The score in this factor will be based on the following:

(a) *Detailed Budget Breakout.* The extent to which your application includes a detailed budget breakout for each budget category in the SF–424A.

(b) *Reasonable Administrative Costs.* The extent to which your application includes administrative costs at or below the 20 percent administrative cost ceiling.

(c) *Budget Efficiency.* The extent to which your application requests funds commensurate with the level of effort necessary to accomplish your goals and anticipated results.

(3) *Reasonableness of the Timetable.* (2 Points for Family RSDM applicants and 4 Points for Elderly and Persons with Disabilities RSDM applicants. More points are awarded in Elderly and Persons with Disabilities RSDM applications in order to balance other sections of the rating criteria where points are not applicable to an Elderly and Persons with Disabilities RSDM applicant)

The score in this factor will be based on a reasonable response that you can accomplish the goals of your proposed RSDM program. To receive a high score, you must demonstrate that it will make substantial program implementation progress within the first six months after grant execution, including putting staff in place, finalizing partnership arrangements, completing the development of requests for proposals, and achieving other milestones that are prerequisites for implementation of the program. In addition, you must demonstrate that your proposed timetable for all components of the proposed program is feasible considering the size of your award and activities and results that can be accomplished within the 36-month time limit.

(4) *Program Assessment.* (3 Points for Family RSDM and Elderly and Persons with Disabilities RSDM) The score in this factor will be based on the soundness of your plan to evaluate the success of your proposed RSDM program both at the completion of your program and during program implementation. At a minimum, you must track the goals and objectives of your proposed work plan program, which must include, if applicable, a plan for monitoring your Contract Administrator's performance. Your application should track specific measurable achievements for the use of program funds, such as number of residents employed, salary scales of jobs obtained, persons removed from welfare roles 12 months or longer, number of elderly or persons with disabilities residents receiving supportive services, increased earnings based on grant activities, and number of persons receiving certificates for successful completion of training in careers such as computer technology.

(5) *Resident and Other Partnerships* (9 Points for Family RSDM applicants and 7 Points for Elderly and Persons with Disabilities RSDM applicants)

(a) *Resident Involvement in RSDM Activities* (3 Points for Family RSDM applicants and 4 Points for Elderly and Persons with Disabilities RSDM applicants. More points are awarded in Elderly and Persons with Disabilities RSDM applications in order to balance other sections of the rating criteria where points are not applicable to an Elderly and Persons with Disabilities RSDM applicant): The score in this factor will be based on the extent of resident involvement in developing your proposed RSDM program as well as the extent of proposed resident involvement in implementing your proposed RSDM program. To receive a high score on this factor, you must describe the involvement of residents in the planning phase for this program, and a commitment to provide continued involvement in grant implementation. For applicants to receive the maximum number of points, a work plan must be included.

(b) *Other Partnerships.* (3 Points) The score in this factor will be based on the successful integration of partners into implementation of the proposed RSDM program. To receive a high score, you must provide a signed Memorandum of Understanding (MOU) or other equivalent signed documentation that delineates the roles and responsibilities of each of the parties in your program and the benefits they will receive. In assessing this subfactor, HUD will examine a number of aspects of the proposed partnership, including:

(i) The division of responsibilities or management structure of your proposed partnership relative to the expertise and resources of your partners;

(ii) The extent to which the partnership as a whole addresses the unmet resident needs; and

(iii) The extent to which the addition of the partners provides the ability to meet needs that the applicant could not meet without the partner(s).

(c) *Overall Relationship/Coordination.* (3 Points for Family RSDM only) For Family RSDM applicants, the score in this factor will be based on the extent of coordination between your proposed RSDM program and any existing or proposed programs within your jurisdiction. To receive a high score, you must contain an MOU that describes collaboration between the applicant and residents on all of the specific components related to the work plan of the proposed RSDM program. To receive points, at a minimum, you must have a narrative description of this collaboration. Elderly and Persons with Disabilities RSDM applications will not be scored on this criterion.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses your ability to secure community resources (note: financing is a community resource) that can be combined with HUD's program resources to achieve program purposes. You must have at least a 25 percent cash or in-kind match to receive points under this rating factor. Leveraging in excess of the 25 percent of the grant amount will receive a higher point value. In evaluating this factor HUD will consider the extent to which you have partnered with other entities to secure additional resources to increase the effectiveness of your proposed program activities. The budget, the work plan, and commitments for additional resources and services, other than the grant, must show that these resources are firmly committed, will support the proposed grant activities and will, in combined amount (including in-kind contributions of personnel, space and/or equipment, and monetary contributions) equal at least 25 percent of the RSDM grant amount proposed in this application. "Firmly committed" means there must be a written agreement with the provider of resources, signed by an official legally able to make commitments on behalf of the organization. The signed, written agreement may be contingent upon you receiving a grant award. Other resources and services may include: the value of in-kind services, contributions or administrative costs provided to the applicant; funds from Federal sources (not including RSDM funds); funds from any State or local government sources; and funds from private contributions. You may also partner with other program funding recipients to coordinate the use of resources in your target area.

You must provide evidence of leveraging/partnerships by including in the application letters of firm commitments, Memoranda of Understanding, or agreements to participate from those entities identified as partners in the application. To be firmly committed there must be a written agreement with the provider of resources signed by an official legally able to make commitments on behalf of the organization. This agreement may be contingent upon you receiving a grant award. Each letter of commitment, Memorandum of Understanding, or agreement to participate should include the organization's name, proposed level of commitment and responsibilities as they relate to the proposed program.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which your program reflects a coordinated, community-based process of identifying needs and building a system to address the needs by using available HUD funding resources and other resources available to the community.

In evaluating this factor HUD will consider the extent to which your application addresses:

(1) *Coordination with the Consolidated Plan or Indian Housing Plan.* (2 Points for Family RSDM applicants and 6 points for Elderly and Persons with Disabilities RSDM applicants. More points are awarded for Elderly and Persons with Disabilities RSDM applications in order to balance other sections of the rating criteria where points are not applicable to an Elderly and Persons with Disabilities RSDM applicant.) Demonstrates the applicant has reviewed the community's Consolidated Plan and/or Analysis of Impediments to Fair Housing Choice, and has proposed activities that address the priorities, needs, goals or objectives in those documents; or substantially furthers fair housing choice in the community.

(2) *For Family RSDM Applications, Coordination with the State and/or Local Welfare Plan* (4 Points): Provides evidence that your proposed RSDM program has been coordinated with and supports the PHA's efforts to increase resident self-sufficiency or increase resident earning capacity and is coordinated and consistent with the State, or local Welfare Plan.

(3) *Coordination with Other Activities* (4 Points) Demonstrates that in carrying out your program activities, you will develop linkages with: other HUD-funded program activities proposed or on-going in the community; or other State, Federal or locally funded activities proposed or on-going in the community which, taken as a whole, support and sustain a comprehensive system to address the needs.

(D) *Application Selection Process for Homeownership Supportive Services.*

(1) Three types of reviews will be conducted: a screening to determine if your application submission is complete and on time; a threshold review to determine applicant eligibility; and a technical review to rate your application based on the five rating factors provided in this section.

The selection process is designed to achieve geographic diversity of grant awards throughout the country. HUD will first select the highest ranked application from each of the ten federal regions for funding. After this "round," HUD will select the second highest ranked application in each of the ten federal regions for funding (the second round). HUD will continue this process with the third, fourth, and so on, highest ranked applications in each federal region until the last complete round is selected for funding. If available funds exist to fund some but not all eligible applications in the next round, HUD will make awards to those remaining applications in rank order regardless of region and will fully fund as many as possible with remaining funds. If all funds are not awarded in RMBD, CB, HSS, SC funding categories, funds will be transferred to RSDM funding categories in this competition.

(2) *Factors for Award Used to Evaluate and Rate HSS Applications.* The factors for rating and ranking applicants and maximum points for each factor are provided below. The maximum number of points available for this program is 1024. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA. The application kit contains a certification that must be completed for the applicant to be considered for RC/EZ/EC bonus points and a listing of federally designated RCs, EZs and ECs. In addition, a list of RCs, EZs, and ECs is attached to the General Section of the SuperNOFA as Appendix A–2 and is also available from the SuperNOFA Information Center, and the HUD web site, *www.hud.gov.* A HSS application must receive a total of 70 points out of 100 to be eligible for funding.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 Points)

This factor addresses the extent to which the applicant has the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor HUD will consider the extent to which the proposal demonstrates:

(1) *Proposed Program Staffing.* (7 Points)

(a) *Experience.* (4 Points) The knowledge and experience of your proposed project director and staff, including the day-to-day program manager, sub-recipients and partners in planning and managing programs for which funding is being requested. Your experience will be judged in terms of recent, relevant and successful experience to undertake eligible program activities.

(b) *Sufficiency.* (3 Points) You and your sub-recipients and partners have sufficient personnel or will be able to quickly access qualified experts or professionals, to deliver the proposed activities in each proposed service area in a timely and effective fashion, including your readiness and ability to immediately begin the proposed work program. To demonstrate sufficiency, you must submit the proposed number of staff years to be allocated to your program by employees and experts, the titles and relevant professional background and experience of each employee and expert proposed to be assigned to your program, and the roles to be performed by each identified employee and expert.

(2) *Program Administration and Fiscal Management.* (7 Points)

(a) *Program Administration.* (4 Points) The soundness of the proposed management of your proposed HSS program. To receive a high score, you must provide a comprehensive description of your project management structure. Your narrative must provide a description of how any co-applicants, sub-grantees, and other partner agencies relate to the program administrator as well as the lines of authority and accountability among all components of your proposed program.

(b) *Fiscal Management.* (3 Points) The soundness of your proposed fiscal management. To receive a high score you must provide a comprehensive description of the fiscal management structure, including, but not limited to, budgeting, fiscal controls, and accounting. The application must identify the staff responsible for fiscal management, and the processes and

VOL
67
ISS
58
MR
26
2002
UMI

timetable for implementation during the proposed grant period.

(3) *Applicant/Administrator Track Record.* (6 Points) To receive a high score, you must demonstrate your (or your proposed Administrator's) program compliance and successful implementation of any resident self-sufficiency, homeownership or independence-oriented grants (including those listed below) awarded to you or overseen by your Administrator. If you or your Administrator has no prior experience in operating programs that foster resident self-sufficiency, homeownership, or independence you will receive a score of 0 on this factor. Your past experience may include, but is not limited to, administering the following grants or programs: Family Self Sufficiency; Family Investment Center Program; Youth Development Initiative under Family Investment Center Program; Youth Apprenticeship Program; Apprenticeship Demonstration in the Construction Trades Program; Urban Youth Corps Program; HOPE I Program; Public Housing Service Coordinator Program; housing choice voucher homeownership program; Public Housing Drug Elimination Program; Tenant Opportunities Program; Economic Development and Supportive Services; and Youth Sports Program.

Rating Factor 2: Need/Extent of the Problem (20 Points)

This factor addresses the extent to which there is a need for funding your proposed program activities to address the need/goal of the target population of pervious ROSS recipients/beneficiaries. You will be evaluated on the extent to which you document your proposed activities demonstrate that participants in self sufficiency programs are able to move from renting to homeownership, based on need, increases in resident income and other self sufficiency efforts. In responding to this factor, you will be evaluated on:

(1) *A Needs/Goals Assessment Document.* (18 Points) HUD will award up to 18 points based on the quality and comprehensiveness of the needs assessment document. To obtain maximum points for HSS applications, this document must contain statistical data that provides:

(a) A thorough socioeconomic profile of the eligible residents to be served by your program, in relationship to PHA-wide and national public and assisted housing data on residents who are on TANF, SSI benefits, or other fixed income arrangements; in job training, entrepreneurship, or community service programs; and employed;

(b) Specific information on training, contracting, and employment through the PHA;

(c) An assessment of the current service delivery system as it relates to the needs of the target population, including the number and type of services, the location of services, and community facilities currently in use;

(d) A description of the goals, objectives, and program strategies that will result in the successful transition of residents from renters to homeowners.

(2) *Level of Priority in Consolidated Plan.* (2 Points) Documentation of the level of priority the locality's, or in the case of small cities, the State's, Consolidated Plan has placed on addressing the needs. You may also address needs in terms of fulfilling the requirements of court actions or other legal decisions or which expand upon the Analysis of Impediments to Fair Housing Choice (AI) to further fair housing. If you address needs that are in your community's Consolidated Plan, AI, or a court decision, or identify and substantiate needs in addition to those in the AI, you will receive a greater number of points than applicants who do not relate their proposed program to the approved Consolidated Plan or AI or court action. There must be a clear relationship between your proposed activities, community needs and the purpose of the program funding for you to receive points for this factor.

Rating Factor 3: Soundness of Approach (40 Points)

This factor addresses the quality and cost-effectiveness of your proposed work plan. In rating this factor HUD will consider: The viability and comprehensiveness of your strategies to address the needs of residents; budget appropriateness/efficient use of grant; the speed at which you can realistically accomplish the goals of the proposed HSS program; the soundness of your plan to evaluate the success of your proposed HSS program at completion and during program implementation; and resident and other partnerships; and policy priorities.

(1) *Viability and comprehensiveness of the strategies to address the homeownership of transferred residents.* (18 Points) The score under this subfactor will be based on the viability and comprehensiveness of your strategies to address the counseling needs of residents identified for homeownership.

(a) *Services.* The score under this subfactor will be based on the following:

(i) The extent to which your plan provides services that specifically addresses the successful transition from renters to homeowners. To receive a high score, your plan must include case management and/or counseling.

(ii) In order to receive maximum points, the goals and objectives of your proposed plan must represent significant achievements related to moving from renting to homeownership. Specifically for those residents affected by welfare reform, we are interested in achievements that are performance outcomes of residents targeted for homeownership, in addition to, descriptions of residents receiving training and homeownership counseling activities.

(2) *Budget Appropriateness/Efficient Use of Grant.* (8 Points) The score in this factor will be based on the following:

(a) *Detailed Budget Breakout.* The extent to which your application includes a detailed budget breakout for each budget category in the SF–424A.

(b) *Reasonable Administrative Costs.* The extent to which your application includes administrative costs at or below the 10 percent administrative cost ceiling.

(c) *Budget Efficiency.* The extent to which your application requests funds commensurate with the level of effort necessary to accomplish your goals and anticipated results.

(d) *Reasonableness of the Timetable.* The score in this factor will be based on a reasonable response that you can accomplish the goals of your proposed HSS program. To receive a high score, you must demonstrate that it will make substantial program implementation progress within the first six months after grant execution, including putting staff in place, finalizing partnership arrangements, completing the development of requests for proposals, and achieving other milestones that are prerequisites for implementation of the program. In addition, you must demonstrate that your proposed timetable for all components of the proposed program is feasible considering the size of your award and activities and results that can be accomplished within the 36-month time limit.

(3) *Program Assessment.* (5 Points). The score in this factor will be based on the soundness of your plan to evaluate the success of your proposed HSS program both at the completion of your program and during program implementation. At a minimum, you must track the goals and objectives of your proposed work plan program. Your application should track specific measurable achievements for the use of program funds, such as number of residents counseled on becoming homeowners.

(4) *Resident and Other Partnerships.* (9 Points)

(a) *Resident Involvement in HSS Activities.* (3 Points). The score in this factor will be based on the extent of resident involvement in developing your proposed HSS program as well as the extent of proposed resident involvement in implementing your proposed HSS program. To receive a high score on this factor, you must describe the involvement of residents in the planning phase for this program, and a commitment to provide continued involvement in grant implementation. For applicants to receive the maximum number of points, a work plan, must be included.

(b) *Other Partnerships.* (3 Points) The score in this factor will be based on the successful integration of partners into implementation of the proposed HSS program. To receive a high score, you must provide a signed Memorandum of Understanding (MOU) or other equivalent signed documentation that delineates the roles and responsibilities of each of the parties in your program and the benefits they will receive. In assessing this subfactor, HUD will examine a number of aspects of the proposed partnership, including:

(i) The division of responsibilities or management structure of your proposed partnership relative to the expertise and resources of your partners;

(ii) The extent to which the partnership as a whole addresses the unmet resident needs; and

(iii) The extent to which the addition of the partners provides the ability to meet needs that the applicant could not meet without the partner(s).

(c) *Overall Relationship/Coordination.* (3 Points) For HSS applicants, the score in this factor will be based on the extent of coordination between your proposed HSS program and any existing or proposed programs within your jurisdiction. To receive points, at a minimum, you must have a narrative description of this collaboration.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses your ability to secure community resources (note: financing is a community resource) that can be combined with HUD's program resources to achieve program purposes. You must have at least a 25 percent cash or in-kind match to receive points under this rating factor. Leveraging in excess of the 25 percent of the grant amount will receive a higher point value.

In evaluating this factor HUD will consider the extent to which you have partnered with other entities to secure additional resources to increase the effectiveness of your proposed program activities. The budget, the work plan, and commitments for additional resources and services, other than the grant, must show that these resources are firmly committed, will support the proposed grant activities and will, in combined amount (including in-kind contributions of personnel, space and/or equipment, and monetary contributions) equal at least 25 percent of the HSS grant amount proposed in this application. "Firmly committed" means there must be a written agreement with the provider of resources, signed by an official legally able to make commitments on behalf of the organization. The signed, written agreement may be contingent upon you receiving a grant award. Other resources and services may include: The value of in-kind services, contributions or administrative costs provided to the applicant; funds from Federal sources (not including HSS funds); funds from any State or local government sources; and funds from private contributions. You may also partner with other program funding recipients to coordinate the use of resources in your target area.

You must provide evidence of leveraging/partnerships by including in the application letters of firm commitments, Memoranda of Understanding, or agreements to participate from those entities identified as partners in the application. To be firmly committed there must be a written agreement with the provider of resources signed by an official legally able to make commitments on behalf of the organization. This agreement may be contingent upon you receiving a grant award. Each letter of commitment, Memorandum of Understanding, or agreement to participate must include the organization's name, proposed level of commitment and responsibilities as they relate to the proposed program.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which your program reflects a coordinated, community-based process of identifying needs and building a system to address the needs by using available HUD funding resources and other resources available to the community.

In evaluating this factor HUD will consider the extent to which your application addresses:

(1) *Coordination with the Consolidated Plan* (2 points). Demonstrates the applicant has reviewed the community's Consolidated Plan and/or Analysis of Impediments to Fair Housing Choice, and has proposed activities that address the priorities, needs, goals or objectives in those documents; or substantially furthers fair housing choice in the community.

(2) *For HSS Program Applications, Coordination with the State and/or Local Welfare Plan* (4 Points). Provides evidence that your proposed HSS program has been coordinated with and supports the PHA's efforts to increase resident homeownership and is coordinated and consistent with the State, or local Welfare Plan.

(3) *Coordinotion with Other Activities* (4 Points). Demonstrates that in carrying out your program activities, you will develop linkages with: other HUD-funded program activities proposed or on-going in the community; or other State, Federal or locally funded activities proposed or on-going in the community which, taken as a whole, support and sustain a comprehensive system to address the needs.

(E) *Application Selection Process for Neighborhood Networks Centers.*

(1) Three types of reviews will be conducted: A screening to determine if your application submission is complete and on time; a threshold review to determine applicant eligibility; and a technical review to rate your application based on the five rating factors provided in this section. A minimum score of 70 is required to be considered for funding.

(2) The selection process is designed to achieve geographic diversity of grant awards throughout the country. HUD will first select the highest ranked application from each of the ten federal regions for funding. After this "round," HUD will select the second highest ranked application in each of the ten federal regions for funding (the second round). HUD will continue this process with the third, fourth, and so on, highest ranked applications in each federal region until the last complete round is selected for funding. If available funds exist to fund some but not all eligible applications in the next round, HUD will make awards to those remaining applications in rank order regardless of region and will fully fund as many as possible with remaining funds. NN funds may not be transferred to any other funding category within this NOFA.

(3) *Factors for Award Used to Evaluate and Rate NN Applications.* The factors for rating and ranking applicants and maximum points for each factor are provided below. The

VOL
67
ISS
58
MR
26
2002
UMI

maximum number of points available for this program is 102. This includes two RC/EZ/EC bonus points, as described in the General Section of the SuperNOFA. The application kit contains a certification that must be completed for the applicant to be considered for RC/EZ/EC bonus points and a listing of federally designated RCs, EZs and ECs. In addition, a list of RCs, EZs, and ECs is attached to the General Section of the SuperNOFA as Appendix A–2 and is also available from the SuperNOFA Information Center, and the HUD web site, *www.hud.gov*. A NN application must receive a total of 70 points out of 100 to be eligible for funding.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 Points)

This factor addresses the extent to which the applicant has the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor HUD will consider the extent to which the proposal demonstrates:

(1) *Proposed Program Staffing.* (7 Points)

(a) *Experience.* (4 Points) The knowledge and experience of your proposed project director and staff, including the day-to-day program manager, sub-recipients and partners in planning and managing programs for which funding is being requested. Your experience will be judged in terms of recent, relevant and successful experience to undertake eligible program activities.

(b) *Sufficiency.* (3 Points) You and your sub-recipients and partners have sufficient personnel or will be able to quickly access qualified experts or professionals, to deliver the proposed activities in each proposed service area in a timely and effective fashion, including your readiness and ability to immediately begin the proposed work program. To demonstrate sufficiency, you must submit the proposed number of staff years to be allocated to your program by employees and experts, the titles and relevant professional background and experience of each employee and expert proposed to be assigned to your program, and the roles to be performed by each identified employee and expert.

(2) *Program Administration and Fiscal Management.* (7 Points)

(a) *Program Administration.* (4 Points) The soundness of the proposed management of your proposed NN program. To receive a high score, you must provide a comprehensive description of your project management structure. Your narrative must provide a description of how any co-applicants, sub-grantees, and other partner agencies relate to the program administrator as well as the lines of authority and accountability among all components of your proposed program.

(b) *Fiscal Management.* (3 Points) The soundness of your proposed fiscal management. To receive a high score you must provide a comprehensive description of the fiscal management structure, including, but not limited to, budgeting, fiscal controls, and accounting. The application must identify the staff responsible for fiscal management, and the processes and timetable for implementation during the proposed grant period.

(3) *Applicant/Administrator Track Record.* (6 Points) To receive a high score, you must demonstrate your (or your proposed Administrator's) program compliance and successful implementation of any resident self-sufficiency, technology-oriented training, community-based job training, telecommunications, or other computer services (including those listed below) awarded to you or overseen by your Administrator. If you or your Administrator has no prior experience in operating programs that foster resident use of technology, computer instruction, or other computer services you will receive a score of 0 on this factor. Your past experience may include, but is not limited to, administering the following grants or programs: Family Self Sufficiency; Family Investment Center Program; Youth Development Initiative under Family Investment Center Program; Youth Apprenticeship Program; Apprenticeship Demonstration in the Construction Trades Program; Urban Youth Corps Program; HOPE I Program; Public Housing Service Coordinator Program; housing choice voucher homeownership program; Public Housing Drug Elimination Program; Tenant Opportunities Program; Economic Development and Supportive Services; and Youth Sports Program.

Rating Factor 2: Need/Extent of the Problem (20 Points)

This factor addresses the extent to which there is a need for funding your proposed program activities to address the need of public housing residents for computer technology. You will be evaluated on the extent to which you document your proposed activities in this area. In responding to this factor, you will be evaluated on:

(1) *A Needs/Goals Assessment Document.* (18 Points) HUD will award up to 18 points based on the quality and comprehensiveness of the needs assessment document. To obtain maximum points for NN applications, this document must contain statistical data that provides:

(a) A profile of the eligible residents to be served by your NN center and its programs;

(b) Specific information on activities and programs to be undertaken as part of the NN center including job training, adult education, using the Internet to make linkages with health care providers, health services, and health information, youth and afterschool programs and other proposed activities;

(c) An assessment of the needs of the target population, including the number and type of services, the location of services, and community facilities currently in use;

(d) A description of the goals and objectives of the NN center.

(2) *Level of Priority in Consolidated Plan.* (2 Points) Documentation of the level of priority the locality's, or in the case of small cities, the State's, Consolidated Plan has placed on addressing the needs. You may also address needs in terms of fulfilling the requirements of court actions or other legal decisions or which expand upon the Analysis of Impediments to Fair Housing Choice (AI) to further fair housing. If you address needs that are in your community's Consolidated Plan, AI, or a court decision, or identify and substantiate needs in addition to those in the AI, you will receive a greater number of points than applicants who do not relate their proposed program to the approved Consolidated Plan or AI or court action. There must be a clear relationship between your proposed activities, community needs and the purpose of the program funding for you to receive points for this factor.

Rating Factor 3: Soundness of Approach (40 Points)

This factor addresses the quality and cost-effectiveness of your proposed work plan. In rating this factor HUD will consider: the viability and comprehensiveness of your strategies to address the needs of residents; budget appropriateness/efficient use of grant; the speed at which you can realistically accomplish the goals of the proposed NN program; the soundness of your plan to evaluate the success of your proposed NN program at completion and during program implementation; and resident and other partnerships; and policy priorities.

(1) *Viability and comprehensiveness of the strategies to address Neighborhood Networks needs in the proposed area.* (10 Points) The score under this subfactor will be based on the viability and comprehensiveness of your strategies to address electronic information needs.

Your application must describe how the Neighborhood Networks Center or its conversion to Neighborhood Networks will address job training, adult education, using the Internet to make linkages with health care providers, health services, and health information, and youth and after-school programs.

(2) *Budget Appropriateness/Efficient Use of Grant.* (10 Points) The score in this factor will be based on the following:

(a) *Detailed Budget Break-Out.* The extent to which your application includes a detailed budget breakout for each budget category in the SF–424A. Your application must include Chart C: Summary of Budget Line Items, for your proposed activities, and Chart D: Budget Work Plan Summary.

(b) *Reasonable Administrative Costs.* The extent to which your application includes administrative costs at or below the 15 percent administrative cost ceiling.

(c) *Budget Efficiency.* The extent to which your application requests funds commensurate with the level of effort necessary to accomplish your goals and anticipated results.

(d) *Reasonableness of the Timetable.* The score in this factor will be based on a reasonable response that you can accomplish the goals of your proposed NN program. To receive a high score, you must demonstrate that it will make substantial program implementation progress within the first six months after grant execution, including putting staff in place, finalizing partnership arrangements, completing the development of requests for proposals, and achieving other milestones that are prerequisites for implementation of the program. In addition, you must demonstrate that your proposed timetable for all components of the proposed program is feasible considering the size of your award and activities and results that can be accomplished within the 36-month time limit.

(3) *Program Assessment.* (10 Points) The score in this factor will be based on the soundness of your plan to evaluate the success and sustainability of your proposed NN program both at the completion of your program and during program implementation. At a minimum, you must track the goals and objectives of your proposed work plan program. Your application should track specific measurable achievements for the use of program funds, such as number of residents using proposed computer related services/programs being offered by the NN. Each applicant must describe how the existing computer center or proposed computer center will become a Neighborhood Networks Center and be self-sustaining after the proposed grant period has been completed.

(4) *Resident and Other Partnerships* (10 Points).

(a) *Resident Involvement in NN Program Activities* (4 Points) The score in this factor will be based on the extent of resident involvement in developing and planning for your proposed NN program as well as the extent of proposed resident involvement in implementing your proposed NN program. To receive a high score on this factor, you must describe the involvement of residents in the planning phase for this program, and a commitment to provide continued involvement in grant implementation. For applicants to receive the maximum number of points, a work plan, must be included.

(b) *Other Partnerships.* (3 Points) The score in this factor will be based on the successful integration of partners into implementation of the proposed NN program. To receive a high score, you must provide a signed Memorandum of Understanding (MOU) or other equivalent signed documentation that delineates the roles and responsibilities of each of the parties in your program and the benefits they will receive. Your application should include local partnerships in support of NN activities such as job training, adult education, using the Internet to make linkages with health care providers, health services, and health information, and youth and after school programs. In assessing this subfactor, HUD will examine a number of aspects of the proposed partnership, including:

(i) The division of responsibilities/management structure of your proposed partnership relative to the expertise and resources of your partners;

(ii) The extent to which the partnership as a whole addresses the unmet resident needs; and (iii) The extent to which the addition of the partners provides the ability to meet needs that the applicant could not meet without the partner(s).

(c) *Overall Relationship/Coordination.* (3 Points) For NN applicants, the score in this factor will be based on the extent of coordination between your proposed NN program and any existing or proposed programs within your jurisdiction. To receive points, at a minimum, you must have a narrative description of this collaboration.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses your ability to secure community resources (note: financing is a community resource) that can be combined with HUD's program resources to achieve program purposes. You must have at least a 25 percent cash or in-kind match to receive points under this rating factor. Leveraging in excess of the 25 percent of the grant amount will receive a higher point value.

In evaluating this factor HUD will consider the extent to which you have partnered with other entities to secure additional resources to increase the effectiveness of your proposed program activities. The budget, the work plan, and commitments for additional resources and services, other than the grant, must show that these resources are firmly committed, will support the proposed grant activities and will, in combined amount (including in-kind contributions of personnel, space and/or equipment, and monetary contributions) equal at least 25 percent of the NN grant amount proposed in this application. "Firmly committed" means there must be a written agreement with the provider of resources, signed by an official legally able to make commitments on behalf of the organization. The signed, written agreement may be contingent upon you receiving a grant award. Other resources and services may include: the value of in-kind services, contributions or administrative costs provided to the applicant; funds from Federal sources (not including NN funds); funds from any State or local government sources; and funds from private contributions. You may also partner with other program funding recipients to coordinate the use of resources in your target area.

You must provide evidence of leveraging/partnerships by including in the application letters of firm commitments, Memoranda of Understanding, or agreements to participate from those entities identified as partners in the application. To be firmly committed there must be a written agreement with the provider of resources signed by an official legally able to make commitments on behalf of the organization. This agreement may be contingent upon you receiving a grant award. Each letter of commitment, Memorandum of Understanding, or agreement to participate must include the organization's name, proposed level of commitment and responsibilities as they relate to the proposed program.

Rating Factor 5: Coordination, Self-Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which your program reflects a coordinated, community-based process of identifying needs and building a system to address the needs by using available HUD funding resources and other resources available to the community.

In evaluating this factor HUD will consider the extent to which your application addresses:

(1) *Coordination with the Consolidated Plan* (2 points). Demonstrates the applicant has reviewed the community's Consolidated Plan and/or Analysis of Impediments to Fair Housing Choice, and has proposed activities that address the priorities, needs, goals or objectives in those documents; or substantially furthers fair housing choice in the community.

(2) *For NN Program Applications, Coordination with the State and/or Local Welfare Plan* (4 Points). Provides evidence that your proposed NN program has been coordinated with and supports the PHA's efforts to reduce welfare dependency coordinated and consistent with the State, or local Welfare Plan.

(3) *Coordination with Other Activities* (4 Points). Demonstrates that in carrying out your program activities, you will develop linkages with: other HUD-funded program activities proposed or on-going in the community; or other State, Federal or locally funded activities proposed or on-going in the community which, taken as a whole, support and sustain a comprehensive system to address the technology needs of public housing residents.

(F) *Application Selection Process for Service Coordinators.*

Applicants for Service Coordinators are required to address application submission requirements but are not required to address selection factors. Eligibility will be determined by applications that meet the threshold requirements of Section IV of this program section of the SuperNOFA.

If all funds are not awarded in RMBD, CB, HSS, or SC funding categories, funds will be transferred to RSDM funding categories in this competition.

VI. Application Submission Requirements

(A) *All Applications.* All applications for assistance under the ROSS competition for all funding categories must include the forms, certifications and assurances listed in Section IV of the General Section of the SuperNOFA (collectively referred to as the "standard forms"). These forms are:

SF–424, Application Federal Assistance;

HUD–424M, Federal Assistance Funding Matrix;

SF–424A, Federal Assistance Budget Information—Non Construction;

SF–424B, Assurances for Non-Construction Programs;

HUD Form 50070, Drug-Free Workplace Certification;

HUD Form 50071, Certification of Payments to Influence Federal Transactions, and if applicable SF-LLL, Disclosure of Lobbying Activities;

HUD Form 2880, Applicant/Recipient Disclosure/Update Report;

HUD Form 2991, Certification of Consistency with the Consolidated Plan;

HUD Form 2992, Certification of Debarment and Suspension;

HUD Form 2993, Acknowledgment of Application Receipt.

The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (*i.e.*, excluding such items as narratives), referred to as the "non-standard forms" can be found as Appendix A to this program section of the SuperNOFA.

All applicants must include the following information regardless of the category under which they are applying for funds.

(1) ROSS Application Cover Sheet;

(2) ROSS Fact Sheet;

(3) ROSS Program Summary;

(4) Certification of Consistency and Compliance with General SuperNOFA Program Requirements;

(5) Match Requirement. (a) You must supplement grant funds with an in-kind and/or cash match of not less than 25 percent of the grant amount. This match does not have to be a cash match. The match may include: the value of in-kind services, contributions or administrative costs provided to the applicant; funds from Federal sources (but not ROSS funds); funds from any State or local government sources; and funds from private contributions. Any services, such as childcare or mentoring, conducted by elderly or persons with disabilities residents who are not TANF participants, will not be counted toward your match requirement. You may also satisfy the match requirement by establishing the in-kind value of computer and office equipment, software and space used for training in computer technology, education/employment and skills development for self-sufficiency training programs such as Twenty/20 Education Communities (TEC Centers) or Neighborhood Networks Centers.

(b) You must demonstrate that the cash or in-kind resources and services, which you will use as match amounts (including resources from a Comprehensive Grant, other governmental units/agencies of any type, and/or private sources, whether for-profit or not-for-profit), are firmly committed and will support the proposed grant activities. "Firmly committed" means there must be a written agreement to provide the resources and services signed by an official legally able to make commitments on behalf of the organization that specifies the cash and/or in-kind assistance to be provided. If offering in-kind assistance, the letter must provide an estimated dollar value for the in-kind services. The written agreement may be contingent upon your receiving a grant award. The following are guidelines for valuing certain types of in-kind contributions:

(i) The value of volunteer time and services shall be computed at a rate of six dollars per hour except that the value of volunteer time and services involving professional and other special skills shall be computed on the basis of the usual and customary hourly rate paid for the service in the community where the activity is located; and

(ii) The value of any donated material, equipment, building, or lease shall be computed based on the fair market value at time of donation. Such value shall be documented by bills of sale, advertised prices, appraisals, or other information for comparable property similarly situated not more than one-year old taken from the community where the item or activity is located, as appropriate. You may also satisfy the match requirement by establishing the in-kind value of computer and office equipment, software and space used for training in computer technology, education/employment and skills development for sufficiency training programs such as Twenty/20 Education Communities (TEC Centers) or Neighborhood Networks Centers.

(B) *RMBD Applications.* Applicants for Resident Management and Business Development grants are required to address application submission requirements, but are not required to address selection factors. A threshold review, and not application submission requirements, will be used for determining eligibility for first-come first serve funding.

All applications for funding under this funding category must contain the following documents and information (Please note that items 1–9 are threshold requirements used to determine awards for this category; item 10 and its

subsections will be used for grant administration):

(1) Your application must contain a written certification that at least 51 percent of the public housing residents to be included in the proposed program are currently eligible to receive, are currently receiving, or have received within the preceding five years, assistance or services funded under the TANF, SSI, food stamp programs, or tribal welfare programs.

(2) Your application must contain a signed Memorandum of Understanding (MOU) between the RA and the PHA or the RO/RMC and the Tribe/TDHE which describes the specific roles, responsibilities and activities to be undertaken by all parties to the MOU. Your MOU, at a minimum must identify the principal parties (*i.e.* the name of the PHA or tribe/TDHE and RA or RO, the terms of agreement), expectations or terms for each party, and indicate that the agreement pertains to the support of your grant application. This document is the basis for the foundation of the relationship between the RA or RO and PHA or tribe/TDHE. The MOU must be precise and outline the specific duties and objectives to be accomplished under the grant. All MOUs must be finalized, dated and signed by duly authorized officials of both the RA or RO and PHA or tribe/TDHE upon submission of the application.

(3) Accessible Community Facility. You must provide written evidence (*e.g.* through an executed use agreement if the facility is to be provided by an entity other than the PHA or tribe/TDHE) that a majority of the proposed activities will be administered at community facilities within easy transportation access (i.e., walking or by direct (no transfers required)), convenient, inexpensive and reliable transportation of the property represented by the PHA or tribe/TDHE. The written agreement must certify that community facilities meet the structural accessibility requirement of section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act of 1990. If a tribe/TDHE is the applicant and is using its own property as a community facility, it is not exempt from this requirement. The tribe/TDHE is still required to provide a narrative to address all details requested for this threshold requirement.

(4) Your application must contain letter(s) of support indicating supplemental grant funds of not less than 25 percent of the grant amount. See Section VI(A)(5) of the program section of this SuperNOFA.

(5) For applicants other than Tribes/TDHEs, you must provide either a signed certification from HUD or an Independent Public Accountant that your financial management system and procurement procedures fully comply with 24 CFR part 84, or your application must contain a signed Contract Administrator Partnership Agreement that you will use the services of a Contract Administrator in administering your grant. Applicants that are troubled PHAs are required to provide written agreement that a Contract Administrator has been retained for the term of the grant. Those tribes/TDHEs that HUD has determined to have difficulty in managing grants will be required to provide a written agreement that a Contract Administrator has been retained for the term of the grant. In cases where the Contract Administrator is the PHA or tribe/TDHE, the Contract Administration responsibilities can be incorporated into the MOU discussed above.

(6) Except for Tribes/TDHEs, if you are a RA/RC/RMC/CWRO you must include evidence that your organization is registered with the State as a nonprofit corporation at the time of application submission or has section 501(c) status with the United States Internal Revenue Service at the time of application. Evidence of State registration shall be a copy of the certificate of incorporation or certificate of good standing from the State Government (*i.e.* Secretary of State or Secretary of Corporations). Evidence of 501(c) status shall be a copy of the IRS 501(c) designation.

(7) Certification of Resident Council Board Elections. If you are a Resident Organization, you must submit certifications of the RA/ROs board election as required by HUD, signed by the local PHA or tribe/TDHE and/or an independent third party monitor and notarized.

(8) List of RAs, ROs or Indian housing residents participating with the City-Wide Resident Organization (CWRO) or tribe/TDHE. You must list in your application, the name(s) of RAs or ROs that will receive services and you must submit letters of support from each RA or RO identified in your application. Your application must describe the Indian housing residents to be served by proposed grant activities.

(9) Physical Improvements. You must submit a description of the renovation or conversion to be conducted along with a budget and timetable for those activities. You must demonstrate a firm commitment of assistance from one or more sources ensuring that supportive services will be provided for not less that 2 years following the completion of renovation, conversion, or repair activities funded under this ROSS competition.

(10) The following are application submission requirements and will not be used for determining eligibility for first-come first serve funding:

(a) Explanations for proposed grant activities must be provided by narrative statements or descriptions;

(b) Resident Management and Business Development grant applications must include a narrative description (two page limit) describing the activities that you will carry out with RMBD grant funds. Your description must include specific goals, objectives and program strategies that will result in successful transition of residents from welfare to work or other proposed grant activities;

(c) Your RMBD application must provide information about the RA or RO, including its history, staff qualifications, and its previous experience (two page limit). For proposed grant staffing, you must include a resume or summary of qualifications for all proposed grant staff:

Chart A—RMBD Program Staffing

Chart B—RMBD Applicant/ Administrator Track Record

Chart C—Summary RMBD Budget line Items

(d) You must provide a summary of a proposed work plan to carry out proposed grant activities. This work plan must include tasks, budgeted amounts, and dates for all activities during the grant period.

Chart D—Budget Workplan Summary.

(C) *Applications for Capacity Building.* All applications for funding under this funding category must contain the following documents and information. Only threshold requirements, and not application submission requirements, will be used for determining eligibility for funding. (Please note that items 1–6 are threshold requirements for a threshold review that will be used to determine awards for this category; items 7–11 will not be used to select awardees):

(1) Except for Tribes/TDHEs applicants, you must provide evidence that your organization has registered with the State as a nonprofit corporation or has 501(c) nonprofit corporation status with the United States Internal Revenue Service at the time of application submission.

(2) Your application must contain letter(s) of support indicating supplemental grant funds of not less than 25 percent of the grant amount. See Section VI(A)(5) of this program section of the SuperNOFA.

VOL 67 ISS 58 MR 26 2002 UMI

(3) In CB applications, you must list in your application the name of the RAs or ROs that will receive training, technical assistance and/or coordinated supportive services and you must submit letters of support from each entity identified in your application.

(4) For applicants other than Tribes/TDHEs, you must provide either a signed certification from HUD or an Independent Public Accountant that your financial management system and procurement procedures fully comply with 24 CFR part 84 or part 85, or your application must contain a signed Contract Administrator Partnership Agreement that you will use the services of a Contract Administrator in administering your grant. Applicants that are troubled PHAs are required to provide written agreement that a Contract Administrator has been retained for the term of the grant. In cases where the Contract Administrator is the PHA the Contract Administration responsibilities can be incorporated into the MOU discussed below.

(5) Your application must contain a signed Memorandum of Understanding (MOU) between the RA or RO and PHA or tribe/TDHE which describes the specific roles, responsibilities and activities to be undertaken by all parties to the MOU. Your MOU, at a minimum, must identify the principal parties (i.e. the name of the PHA or tribe/TDHE and IRO/nonprofit , the terms of agreement), expectations or terms for each party, and indicate that the agreement pertains to the support of your grant application. This document is the basis for the foundation of the relationship between the IRO/nonprofit and PHA or tribe/TDHE. The MOU must be precise and outline the specific duties and objectives to be accomplished under the grant. All MOUs must be finalized, dated and signed by duly authorized officials of both the IRO/nonprofit and PHA or tribe/TDHE upon submission of the application.

(6) You must provide written evidence (e.g. through an executed space use agreement if the facility is to be provided by an entity other than the PHA or tribe/TDHE) that proposed CB activities or training will take place. The community facilities must be within easy transportation access (i.e., walking or by direct (no transfers required)), convenient, inexpensive and reliable transportation of the property represented by the PHA or tribe/TDHE. The written agreement must certify that community facilities meet the structural accessibility requirement of section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act of 1990. If a tribe/TDHE is the applicant and is using its own property as a community facility, it is not exempt from this requirement. The tribe/TDHE is still required to provide a narrative to address all details requested for this threshold requirement.

The following are application submission requirements. Only threshold requirements, and not application submission requirements, will be used to determine eligibility for first-come first serve funding.

(7) Explanations for proposed grant activities must be provided by narrative statements or descriptions as well as the forms indicated below.

(8) Needs Assessment. For the CB grant applications you must provide a narrative description of proposed activities that addresses the following information:

(a) A description of the geographic boundaries of the RAs, ROs, RMCs, or tribes/TDHEs included in the application;

(b) A description of the public or Indian housing community;

(c) A detailed description of the issues or problems involved with each RA or RO to be served by the grant; and

(d) The resources that are currently being devoted to the problem or issue under consideration.

(9) Proposed Program Activities. CB grant applications must include a narrative description describing the activities that you will carry out with CB grant funds. Your description must include specific goals, objectives and program strategies that will result in successful proposed grant activities;

(10) Experience and Staffing. Your CB grant application must provide information about the your organization, including its history, staff qualifications, and its previous experience (two page limit). For proposed grant staffing, you must include a resume or summary of qualifications for all proposed grant staff:

Chart A—CB Program Staffing
Chart B—CB Applicant/Administrator Track Record
Chart C—Summary CB Budget Line Items

(11) Budget and Cost Information. You must provide a summary of your proposed work plan to carry out your proposed grant activities. The work plan must include tasks/activities, budgeted amounts, and start and end dates for all activities during the grant period.

Chart D—Budget Workplan Summary

(D) Application Submission Requirements for Resident Service Delivery Models. All applications for funding under this funding category must contain the following documents and information (Please note that items 1–10 are threshold requirements for a threshold review and responses to factors of award will be used to determine scoring of rating and ranking factors for this category):

(1) Your application must contain a written certification that at least 51 percent of the public housing residents to be included in the proposed program are currently eligible to receive, are currently receiving, or have received within the preceding five years, assistance or services funded under the TANF, SSI, food stamp programs or tribal welfare programs.

(2) Elderly and/or Persons with Disabilities Housing Development Certification. A certification that at least 25 percent of the residents of the development(s) proposed for grant activities are elderly and/or non-elderly people with disabilities at the time of application.

(3) Accessible Community Facility. You must provide evidence (e.g. through an executed use agreement if the facility is to be provided by an entity other than the PHA or tribe/TDHE) that a majority of the proposed activities will be administered at community facilities within easy transportation access (i.e., walking or by direct (no transfers required)), convenient, inexpensive and reliable transportation) of the property represented by the PHA or tribe/TDHE. The written agreement must certify that the community facilities meet the structural accessibility requirements of section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act of 1990. If a tribe/TDHE is the applicant and is using its own property as a community facility, it is not exempt from this requirement. The tribe/TDHE is still required to provide a narrative to address all details requested for this threshold requirement.

(4) Your application must contain letter(s) of support indicating supplemental grant funds of not less than 25 percent of the grant amount. See Section VI(A)(5) of this program section of the SuperNOFA.

(5) Physical Improvements. You must submit a description of the renovation or conversion to be conducted along with a budget and timetable for those activities. You must demonstrate a firm commitment of assistance from one or more sources ensuring that supportive services will be provided for not less that 2 years following the completion of renovation, conversion, or repair activities funded under this ROSS competition.

(6) Except for PHA's or tribes/TDHEs, you must provide either a signed certification from HUD or an Independent Public Accountant that your financial management system and procurement procedures fully comply with 24 CFR part 84 or 85, or your application must contain a signed Contract Administrator Partnership Agreement that you will use the services of a Contract Administrator in administering your grant. Applicants that are troubled PHAs are required to provide evidence that a Contract Administrator has been retained for the term of the grant. In cases where the Contract Administrator is the PHA, the Contract Administration responsibilities can be incorporated into the MOU discussed below.

(7) Applicant Non-Profit Status. Except for PHAs or tribes/TDHEs, you must provide evidence that the applicant is registered with the State as a nonprofit corporation or has 501(c) status with the United States Internal Revenue Service at the time of application submission. Evidence of State registration shall be a copy of the certificate of incorporation or certificate of good standing from the State Government (i.e. Secretary of State or Secretary of Corporations). Evidence of 501(c) status shall be a copy of the IRS 501(c) designation.

(8) Certification of Resident Council Board Elections.

(9) List of RAs or ROs Receiving Support. In RSDM applications you must list in your application the name of the RAs or ROs that will receive training, technical assistance and/or coordinated supportive services and must submit letters of support from each entity identified in your application.

(10) Responses to Factors of Award may be narrative statements or descriptions and the forms indicated below:

Factor 1—Capacity of the Applicant and Relevant Organizational Experience;
Chart A—Program Staffing
Chart B—Applicant/Administrator Track Record
Factor 2—Need/Extent of the Problem;
Chart C—Summary Budget line Items
Chart D—Budget Workplan Summary
Factor 3—Soundness of Approach;
Factor 4—Leveraging Resources; and
Factor 5—Coordination, Self-Sufficiency and Sustainability.
Certification of Consistency with the Consolidated Plan
Bonus Points
Certification of Consistency with the RC/EZ/EC Strategic Plan

(E) *Application Submission Requirements for Homeownership Supportive Services.* All applications for funding under this funding category must contain the following documents and information (Please note that items 1–5 are threshold requirements for a threshold review and responses to factors of award will be used to determine scoring of rating and ranking factors for this category):

(1) Your application must contain a written certification that at least 51 percent of the public housing residents to be included in the proposed program are currently eligible to receive, are currently receiving, or have received within the preceding five years, assistance or services funded under the TANF, SSI, or food stamp programs.

(2) Your application must provide evidence that the targeted population of public housing residents to be served by the proposed grant (a) were beneficiaries of a previously awarded ROSS grant between FY 1999 and FY 2000, or a state or local self-sufficiency program, (b) participates in a public housing family self-sufficiency program funded from operating subsidies, (c) had increases in earned income of at least 35% over a base year, and (d) achieved a level of income that is within the acceptable range of the local minimum income required for the purchase of a home in the local area.

(3) You must provide evidence (e.g. through an executed use agreement if the facility is to be provided by an entity other than the PHA) that a majority of the proposed activities will be administered at accessible community facilities within easy transportation access (i.e., walking or by direct (no transfers required)), convenient, inexpensive and reliable transportation) of the property represented by the PHA. The written agreement must certify that the community facilities meet the structural accessibility requirements of section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act of 1990.

(4) Physical Improvements. You must submit a description of the renovation or conversion to be conducted along with a budget and timetable for those activities. You must demonstrate a firm commitment of assistance from one or more sources ensuring that supportive services will be provided for not less that 2 years following the completion of renovation, conversion, or repair activities funded under this ROSS competition.

(5) Your application must contain letter(s) of support indicating supplemental grant funds of not less than 25 percent of the grant amount. See Section VI(A)(5) of this program section of the SuperNOFA.

(6) Responses to Factors of Award may be narrative statements or descriptions and the forms indicated below:

Factor 1—Capacity of the Applicant and Relevant Organizational Experience;
Chart A—Program Staffing.
Chart B—Applicant/Administrator Track Record.
Factor 2—Need/Extent of the Problem;
Factor 3—Soundness of Approach;
Chart C—Summary Budget line Items.
Chart D—Budget Work plan Summary.
Factor 4—Leveraging Resources; and
Factor 5—Coordination, Self-Sufficiency and Sustainability.
Certification of Consistency with the Consolidated Plan
Bonus Points
Certification of Consistency with the RC/EZ/EC Strategic Plan.

(F) *Application Submission Requirements for Neighborhood Networks Centers.* All applications for funding under this funding category must contain the following documents and information (Please note that items 1–5 are threshold requirements that will be used for a threshold review and responses to factors of award will be used to determine scores for rating and ranking for this category:);

(1) Your application must contain a written certification that at least 51 percent of the public housing residents to be included in the proposed program are currently eligible to receive, are currently receiving, or have received within the preceding five years, assistance or services funded under the TANF, SSI, or food stamp programs.

(2) Accessible Community Facility. You must provide written evidence (e.g. through an executed use agreement if the facility is to be provided by an entity other than the PHA that a majority of the proposed activities will be administered at community facilities within easy transportation access (i.e., walking or by direct (no transfers required)), convenient, inexpensive and reliable transportation) of the property represented by the PHA. The written agreement must certify that community facilities meet the structural accessibility requirement of section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act of 1990.

(3) Your application must contain letter(s) of support indicating supplemental grant funds of not less than 25 percent of the grant amount. See Section VI(A)(5) of the program section of this SuperNOFA.

(4) You must have an approved financial management system and procurement procedures. As evidence of your approved financial management or procurement system, you must provide

VOL 67 ISS 58 MR 26 2002 UMI

a copy of your latest audit report indicating that there are no deficiencies in either area and that your financial management system and procurement procedures fully comply with 24 CFR part 85. Applicants that are troubled PHAs are required to provide written agreement that a Contract Administrator has been retained for the term of the grant.

(5) Physical Improvements. You must submit a description of the renovation or conversion to be conducted along with a budget and timetable for those activities. You must demonstrate a firm commitment of assistance from one or more sources ensuring that supportive services will be provided for not less than 2 years following the completion of renovation, conversion, or repair activities funded under this ROSS competition. The following are application submission requirements and will not be used for determining eligibility for funding.

(6) Responses to Factors of Award may be narrative statements or descriptions and the forms indicated below:

Factor 1—Capacity of the Applicant and Relevant Organizational Experience;
Chart A—Program Staffing
Chart B—Applicant/Administrator Track Record
Factor 2—Need/Extent of the Problem;
Factor 3—Soundness of Approach;
Chart C—Summary Budget line Items
Chart D—Budget Work plan Summary
Factor 4—Leveraging Resources; and
Factor 5—Coordination, Self-Sufficiency and Sustainability.
Certification of Consistency with the Consolidated Plan
Bonus Points
Certification of Consistency with the RC/EZ/EC Strategic Plan.

(G) *Application Submission Requirements for Public Housing Service Coordinators for the Elderly and Persons with Disabilities.* All applications for funding under this funding category must contain the following documents and information (Please note that items 1–2 are threshold requirements for a threshold review to be used to determine renewal funding for this category):

(1) Your application must contain letter(s) of support indicating supplemental grant funds of not less than 25 percent of the grant amount. See Section VI(A)(5) of this program section of the SuperNOFA.

(2) SC Request Letter Format.

The following are application submission requirements. Only threshold requirements, and not application submission requirements, will be used for determining eligibility for renewal funding.

(3) Evidence of comparable salaries in local area; and

(4) Lead Agency letter format (if appropriate);

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Environmental Requirements

It is anticipated that most activities under this ROSS funding will be categorically excluded under 24 CFR 58.34(a)(3) or (a)(9), 58.35(b)(2) or (b)(4), 50.19(b)(3), (b)(9), (b)(12), or (b)(14). An applicant proposing any long-term leasing, or physical development activities is prohibited from rehabilitating, converting, leasing, repairing or constructing property, or committing or expending HUD or non-HUD funds for these types of program activities, until one of the following has occurred:

(1) If the grantee is not a PHA or tribe/TDHE, HUD has completed an environmental review to the extent required by 24 CFR part 50, prior to grant award.

(2) If the grantee is a PHA or tribe/TDHE, HUD has approved the grantee's Request for Release of Funds (HUD Form 7015.15) following a Responsible Entity's completion of an environmental review under 24 CFR part 58, where required, or if HUD has determined in accordance with § 58.11 to perform the environmental review itself under part 50, HUD has completed the environmental review.

IX. Authority

Section 34 of the U.S. Housing Act of 1937 and 24 CFR 964.

Appendix B

The non-standard forms, which follow, are required for the ROSS application.

BILLING CODE 4210–32–P

APPENDIX A

ROSS PERFORMANCE MEASURES FOR THE FY 2002 ROSS NOFA

ROSS Funding Category	OUTPUTS	PERFORMANCE MEASURE (S)	OUTCOMES
RMBD	Deliver training sessions	• Number of residents enrolled or recruited; • Number of residents completing training; • Number of training sessions completed	Increased capacity and skills
	Develop Business Plans	• Number of business plans completed	Generate new business opportunities
	Deliver technical assistance	• Number of technical assistance sessions completed	Increased management and leadership skills
	Deliver Supportive Services	• Number of new services provided by the ROSS grant; • Number of residents served	Increased resident opportunities in local welfare to work and other self sufficiency programs
CB	Complete training sessions	• Number of residents enrolled or recruited; • Number of residents completing training; • Number of training sessions completed	Increase resident participation and involvement
RSDM	Deliver training sessions	• Number of residents enrolled or recruited; • Number of residents completing training; • Number of training sessions completed	Increased capacity and skills
	Complete training related to entrepreneurship	• Number of training sessions completed • Number of Business plans completed	Increase knowledge, skills or capacity
	Establish a Revolving Loan Fund	• Number of loans made • Status of loans made (i.e., current, outstanding, paid-off, delinquent)	Increased access to financing and resources
	Deliver Supportive Services	• Number of new services provided by the ROSS grant; • Number of residents served	Increased resident opportunities in local welfare to work and other self sufficiency programs

ROSS Funding Category	OUTPUTS	PERFORMANCE MEASURE (S)	OUTCOMES
HSS	Deliver Homeownership Counseling	• Number of residents recruited or enrolled; • Number of homeownership counseling sessions held; • Number of residents completing homeownership counseling; • Number of residents moving from renting to homeownership.	Movement from self sufficiency programs to homeownership
NN	Deliver Computer Technology and Support	• Number of computer technology centers established; • Number of computer technology centers upgraded; • Number of residents using technology center.	
SC	Deliver Supportive Services	• Number of new services provided by the ROSS grant; • Number of residents served	Improved quality of life for elderly residents and persons with disabilities

RESIDENT MANAGEMENT AND BUSINESS DEVELOPMENT

Applicant: _____ **Date:** _____

THRESHOLD REQUIREMENTS

1. Focus on Residents Affected by Welfare Reform. Your RMBD application must contain the following written certification that at least 51% of residents to be included in your proposed program are affected by welfare reform.

RMBD CERTIFICATION ON RESIDENTS AFFECTED BY WELFARE REFORM

I certify that a total of _____ people reside in the housing developments listed below, which are targeted for activities during the proposed RMBD grant.

_____

_____

_____

This proposed RMBD grant will serve a total of _____ residents. Included in the recipients to be served are residents affected by welfare reform who are:

(1) Currently eligible to receive, are currently receiving, or shall have received within the preceding 4 years assistance or services funded under Temporary Assistance for Needy Families (TANF), SSI, or Food Stamps.

(2) Elderly or disabled, otherwise not affected by welfare reform, who will provide services such as child care or mentoring to families affected by welfare reform.

I certify that _____% of the residents to be served are affected by welfare reform, as defined above. **At least 51% of residents must be affected by welfare reform for your application to meet the threshold requirement of this NOFA.**

Certification of Consistency and Compliance with General SuperNOFA Program Requirements

I CERTIFY that the proposed ROSS activities will be consistent with the following and comply with all statutes, regulations, and U.S. Department of Housing and Urban Development guidance related to the following:

1. **Compliance with Fair Housing and Civil Rights laws**. Compliance with all Fair Housing and Civil Rights laws, statues, regulations, and Executive order as enumerated in 24 CFR 5.105(a). Federally recognized Indian tribes must comply with non-discrimination provisions in 24 CFR 1003.601.

2. **Affirmatively Furthering Fair Housing.** Affirmative duty to further fair housing, including elimination of impediments to fair housing; the local jurisdiction or regional Analysis of Impediments to Fair Housing Choice; and the affirmative duty to carry out activities proposed specifically in your application to address the furtherance of fair housing. *Section 109 of the Housing and Community Development Act of 1974.*

3. **Economic Opportunities for Low and Very Low-Income Persons.** Section 3 of the *Housing and Urban Development Act of 1968*, 12 U.S.C. sec. 1791u, Economic Opportunities for Low and Very Low-Income Persons; HUD regulations at 24 CFR part 135, including but not limited to subpart E and G reporting requirements; and any Section 3 employment, housing opportunity, or other plan adopted by the Housing Agency.

4. **Conducting Business In Accordance With Core Values and Ethical Standards.** Documentation of a written code of conduct as contained in 24 CFR 84.42 and 85.36(b)(3)

5. **Ensuring the Participation of Small Business, Small disadvantaged Businesses, and Women-Owned Businesses.** Compliance with 24 CFR 84.44(b) and 85.36(e) in contracting for purchasing of goods and services.

6. **Uniform Relocation.** *Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970*, as amended (URA) and implementing regulations at 49 CFR part 24.

7. **Nondiscrimination.** The *Americans with Disabilities Act*, Title IX of the *Education Amendments Act of 1972*, *Fair Housing Act*, Title VI of the *Civil Rights Act of 1964*, section 504 of the *Rehabilitation Act of 1973*, the *Age Discrimination Act of 1975*, and section 109 of the *Housing and Community Development Act of 1974.*

8. **Cost Principles.** OMB Circular No. A-122 (Cost Principles for Nonprofit Organizations) or OMB Circular No. A-87 (Cost Principles for Local Units of Government), as appropriate.

THRESHOLD CHECKLIST

Applicant:_____ **Date:**_____

You must address the following threshold requirements for your application to be complete and acceptable for rating and ranking. You can verify that information is included in your application kit by using a check mark in the space provided. Please note that HUD will also verify that information is included appropriately. (See ROSS NOFA, Section VI (A) & (C) and General SuperNOFA Section II). *Note: Items marked with an * do not apply to tribes/TDHEs.*

THRESHOLD REQUIREMENT	APPLICANT USE ONLY	HUD USE ONLY
1. *Proof of Applicant Nonprofit Status -- Copy of Certification of Incorporation or Good Standing from the State **or** Copy of IRS 501(c) designation	____	____
2. Match Agreements—Not less than 25% of grant requested	____	____
3. List of RAs to Receive Support **and** Letters of Support from RAs	____	____
4. *Certificate of Compliance with either 24 CFR Part 84 **or** Contract Administrator Signed Statement	____	____
5. MOU between Applicant and PHA/tribe/TDHE	____	____
6. Accessible Community Facility – Description or Executed Use Agreement	____	____

OMB Approval No. 2577-0221

ROSS FY 2002 FUNDING CAPACITY BUILDING

Applicant: _____ **Date:** _____

THRESHOLD REQUIREMENTS

1. Focus on Residents Affected by Welfare Reform. This requirement is not applicable to your program if it serves the elderly or persons with disabilities. Your Family CB application must contain a certification (using the certification provided below) that at least 51% of residents to be included in your proposed program are affected by welfare reform. □

CB CERTIFICATION ON RESIDENTS AFFECTED BY WELFARE REFORM

I certify that a total of _____ people reside in the housing developments listed below, which are targeted for activities during the proposed CB grant.

_____

_____

_____

This proposed CB grant will serve a total of _____ residents. Included in the recipients to be served are residents affected by welfare reform who are either:

(1) Currently eligible to receive, are currently receiving, or shall have received within the preceding 4 years assistance or services funded under Temporary Assistance for Needy Families (TANF), SSI, or Food Stamps.

(2) Elderly or disabled persons, otherwise not affected by welfare reform, who will provide services such as child care or mentoring to families affected by welfare reform.

I certify that _____% of residents to be served are affected by welfare reform, as defined above. **At least 51% of residents must be affected by welfare reform for your application to meet the threshold requirement of this NOFA.**

Certification of Consistency and Compliance with General SuperNOFA Program Requirements

I CERTIFY that the proposed ROSS activities will be consistent with the following and comply with all statutes, regulations, and U.S. Department of Housing and Urban Development guidance related to the following:

1. **Compliance with Fair Housing and Civil Rights laws**. Compliance with all Fair Housing and Civil Rights laws, statues, regulations, and Executive order as enumerated in 24 CFR 5.105(a). Federally recognized Indian tribes must comply with non-discrimination provisions in 24 CFR 1003.601.

2. **Affirmatively Furthering Fair Housing.** Affirmative duty to further fair housing, including elimination of impediments to fair housing; the local jurisdiction or regional Analysis of Impediments to Fair Housing Choice; and the affirmative duty to carry out activities proposed specifically in your application to address the furtherance of fair housing. *Section 109 of the Housing and Community Development Act of 1974.*

3. **Economic Opportunities for Low and Very Low-Income Persons.** Section 3 of the *Housing and Urban Development Act of 1968*, 12 U.S.C. sec. 1791u, Economic Opportunities for Low and Very Low-Income Persons; HUD regulations at 24 CFR part 135, including but not limited to subpart E and G reporting requirements; and any Section 3 employment, housing opportunity, or other plan adopted by the Housing Agency.

4. **Conducting Business In Accordance With Core Values and Ethical Standards.** Documentation of a written code of conduct as contained in 24 CFR 84.42 and 85.36(b)(3).

5. **Ensuring the Participation of Small Business, Small disadvantaged Businesses, and Women-Owned Businesses.** Compliance with 24 CFR 84.44(b) and 85.36(e) in contracting for purchasing of goods and services.

6. **Uniform Relocation.** *Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970*, as amended (URA) and implementing regulations at 49 CFR part 24.

7. **Nondiscrimination.** The *Americans with Disabilities Act*, Title IX of the *Education Amendments Act of 1972*, *Fair Housing Act*, Title VI of the *Civil Rights Act of 1964*, section 504 of the *Rehabilitation Act of 1973*, the *Age Discrimination Act of 1975*, and section 109 of the *Housing and Community Development Act of 1974*.

8. **Cost Principles.** OMB Circular No. A-122 (Cost Principles for Nonprofit Organizations) or OMB Circular No. A-87 (Cost Principles for Local Units of Government), as appropriate.

THRESHOLD REQUIREMENTS

1. Focus on Residents Affected by Welfare Reform. This requirement is not applicable to your program if it serves the elderly or persons with disabilities. Your Family RSDM application must contain a certification (using the certification provided below) that at least 51% of residents to be included in your proposed program are affected by welfare reform. ❑

RSDM CERTIFICATION ON RESIDENTS AFFECTED BY WELFARE REFORM

I certify that a total of _____ people reside in the housing developments listed below, which are targeted for activities during the proposed RSDM grant.

_____

_____

_____

This proposed RSDM grant will serve a total of _____ residents. Included in the recipients to be served are residents affected by welfare reform who are either:

(1) Currently eligible to receive, are currently receiving, or shall have received within the preceding 4 years assistance or services funded under Temporary Assistance for Needy Families (TANF), SSI, or Food Stamps.

(2) Elderly or disabled persons, otherwise not affected by welfare reform, who will provide services such as child care or mentoring to families affected by welfare reform.

I certify that _____% of residents to be served are affected by welfare reform, as defined above. **At least 51% of residents must be affected by welfare reform for your application to meet the threshold requirement of this NOFA.**

Signed this _____ day of _____ , 2002.

Certification of Consistency and Compliance with General SuperNOFA Program Requirements

I CERTIFY that the proposed ROSS activities will be consistent with the following and comply with all statutes, regulations, and U.S. Department of Housing and Urban Development guidance related to the following:

1. **Compliance with Fair Housing and Civil Rights laws**. Compliance with all Fair Housing and Civil Rights laws, statues, regulations, and Executive order as enumerated in 24 CFR 5.105(a). Federally recognized Indian tribes must comply with non-discrimination provisions in 24 CFR 1003.601.

2. **Affirmatively Furthering Fair Housing.** Affirmative duty to further fair housing, including elimination of impediments to fair housing; the local jurisdiction or regional Analysis of Impediments to Fair Housing Choice; and the affirmative duty to carry out activities proposed specifically in your application to address the furtherance of fair housing. *Section 109 of the Housing and Community Development Act of 1974.*

3. **Economic Opportunities for Low and Very Low-Income Persons.** Section 3 of the *Housing and Urban Development Act of 1968*, 12 U.S.C. sec. 1791u, Economic Opportunities for Low and Very Low-Income Persons; HUD regulations at 24 CFR part 135, including but not limited to subpart E and G reporting requirements; and any Section 3 employment, housing opportunity, or other plan adopted by the Housing Agency.

4. **Conducting Business In Accordance With Core Values and Ethical Standards.** Documentation of a written code of conduct as contained in 24 CFR 84.42 and 85.36(b)(3).

5. **Ensuring the Participation of Small Business, Small disadvantaged Businesses, and Women-Owned Businesses.** Compliance with 24 CFR 84.44(b) and 85.36(e) in contracting for purchasing of goods and services.

6. **Uniform Relocation.** *Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970*, as amended (URA) and implementing regulations at 49 CFR part 24.

7. **Nondiscrimination.** The *Americans with Disabilities Act*, Title IX of the *Education Amendments Act of 1972, Fair Housing Act*, Title VI of the *Civil Rights Act of 1964*, section 504 of the *Rehabilitation Act of 1973*, the *Age Discrimination Act of 1975*, and section 109 of the *Housing and Community Development Act of 1974*.

8. **Cost Principles.** OMB Circular No. A-122 (Cost Principles for Nonprofit Organizations) or OMB Circular No. A-87 (Cost Principles for Local Units of Government), as appropriate.

THRESHOLD REQUIREMENTS

1. Focus on Residents Affected by Welfare Reform. This requirement is not applicable to your program if it serves the elderly or persons with disabilities. Your NN application must contain a certification (using the certification provided below) that at least 51% of residents to be included in your proposed program are affected by welfare reform. □

NN CERTIFICATION ON RESIDENTS AFFECTED BY WELFARE REFORM

I certify that a total of _____ people reside in the housing developments listed below, which are targeted for activities during the proposed NN grant.

_____

_____

_____

This proposed NN grant will serve a total of _____ residents. Included in the recipients to be served are residents affected by welfare reform who are either:

(1) Currently eligible to receive, are currently receiving, or shall have received within the preceding 4 years assistance or services funded under Temporary Assistance for Needy Families (TANF), SSI, or Food Stamps.

(2) Elderly or disabled persons, otherwise not affected by welfare reform, who will provide services such as child care or mentoring to families affected by welfare reform.

I certify that _____% of residents to be served are affected by welfare reform, as defined above. **At least 51% of residents must be affected by welfare reform for your application to meet the threshold requirement of this NOFA.**

Applicant Name

HUD-2002-ROSS (02/02)

OMB Approval No. 2577-0229

ROSS FY 2002 FUNDING
Certification of Consistency and Compliance with General SuperNOFA Program Requirements

I CERTIFY that the proposed ROSS activities will be consistent with the following and comply with all statutes, regulations, and U.S. Department of Housing and Urban Development guidance related to the following:

1. **Compliance with Fair Housing and Civil Rights laws**. Compliance with all Fair Housing and Civil Rights laws, statues, regulations, and Executive order as enumerated in 24 CFR 5.105(a). Federally recognized Indian tribes must comply with non-discrimination provisions in 24 CFR 1003.601.

2. **Affirmatively Furthering Fair Housing.** Affirmative duty to further fair housing, including elimination of impediments to fair housing; the local jurisdiction or regional Analysis of Impediments to Fair Housing Choice; and the affirmative duty to carry out activities proposed specifically in your application to address the furtherance of fair housing. *Section 109 of the Housing and Community Development Act of 1974.*

3. **Economic Opportunities for Low and Very Low-Income Persons.** Section 3 of the *Housing and Urban Development Act of 1968*, 12 U.S.C. sec. 1791u, Economic Opportunities for Low and Very Low-Income Persons; HUD regulations at 24 CFR part 135, including but not limited to subpart E and G reporting requirements; and any Section 3 employment, housing opportunity, or other plan adopted by the Housing Agency.

4. **Conducting Business In Accordance With Core Values and Ethical Standards**. Documentation of a written code of conduct as contained in 24 CFR 84.42 and 85.36(b)(3).

5. **Ensuring the Participation of Small Business, Small disadvantaged Businesses, and Women-Owned Businesses.** Compliance with 24 CFR 84.44(b) and 85.36(e) in contracting for purchasing of goods and services.

6. **Uniform Relocation.** *Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970*, as amended (URA) and implementing regulations at 49 CFR part 24.

7. **Nondiscrimination.** The *Americans with Disabilities Act*, Title IX of the *Education Amendments Act of 1972*, *Fair Housing Act*, Title VI of the *Civil Rights Act of 1964*, section 504 of the *Rehabilitation Act of 1973*, the *Age Discrimination Act of 1975*, and section 109 of the *Housing and Community Development Act of 1974*.

8. **Cost Principles.** OMB Circular No. A-122 (Cost Principles for Nonprofit Organizations) or OMB Circular No. A-87 (Cost Principles for Local Units of Government), as appropriate.

1.) For residents eligible for Homeownership, your application must provide evidence/certification that the targeted population of public housing residents to be served by the proposed grant were beneficiaries of a previously awarded ROSS grant between FY 1999 and FY 2000; eligible population group, 35% earned income and that income is within the range of the income minimum.

_____ Total number of residents (previous participants in ROSS for 1999 or 2000, or other State & Local Self Sufficiency Programs) who will participate in proposed homeownership activities

Proposed Targeted Residents	Minimum Local Income Level for Homeownership	Base Year	Base Year Income	Current Income	Percentage over Base Year

I certify that the proposed residents to be served are within the eligible population group; have an earned income increase of at least 35% and are within the minimum range of income for Homeownership in my local area.

FUNDING AVAILABILITY FOR CONTINUUM OF CARE HOMELESS ASSISTANCE PROGRAMS—SUPPORTIVE HOUSING PROGRAM (SHP), SHELTER PLUS CARE (S+C), SECTION 8 MODERATE REHABILITATION SINGLE ROOM OCCUPANCY PROGRAM FOR HOMELESS INDIVIDUALS (SRO)

PROGRAM OVERVIEW

Purpose of the Programs. The purpose of the Continuum of Care Homeless Assistance Programs is to fund projects that will fill gaps in locally developed Continuum of Care systems to assist homeless persons to move to self-sufficiency and permanent housing. An important element of meeting this objective is to fund projects that will meet the Department's goal of ending chronic homelessness.

Available Funds. Approximately $950 million.

Eligible Applicants. The chart in the Appendix A to this program section of this SuperNOFA identifies the eligible applicants for each of the three programs under the Continuum of Care.

Application Deadline. June 21, 2002.

Match. Yes.

ADDITIONAL INFORMATION

If you are interested in applying for funding under any of the Continuum of Care Homeless Assistance programs, please review carefully the General Section of the SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Your completed application (an original containing the signed documentation and two copies) is due on or before 5:30 PM Eastern time, on June 21, 2002 to the addresses shown below.

See the General Section of this SuperNOFA for specific procedures that you must follow for the form of application submissions (e.g., mailed applications, express mail, or overnight delivery).

New Security Procedures. HUD has implemented new security procedures that apply to application submission. Please read the following instructions carefully and completely. HUD will not accept hand delivered applications. Applications may be mailed using the United States Postal Service (USPS) or may be shipped via the following delivery services: United Parcel Service (UPS), FedEX, DHL, or Falcon Carrier. *No other delivery services are permitted into HUD Headquarters without escort. You must, therefore, use one of the four carriers listed above.*

Mailed Applications. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by HUD Headquarters on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date when you submitted your application to the United States Postal Service (USPS). The Certificate of Mailing will be your documentary evidence that your application was timely filed.

Applications Sent by Overnight/Express Mail Delivery. If your application is sent by overnight delivery or express mail, your application will be timely filed if it is received before or on the application due date, or when you submit documentary evidence that your application was placed in transit with the overnight delivery/express mail service by no later than the application due date. Due to new security measures, you must use one of the four carrier services that do business with HUD Headquarters regularly. These services are UPS, DHL, FedEx, and Falcon Carrier. Delivery by these services must be made during HUD's Headquarters business hours, between 8:30 AM and 5:30 PM Eastern time, Monday to Friday. If these companies do not service your area, you should submit your application via the United States Postal Service.

Addresses for Submitting Applications. To HUD Headquarters. Submit your original completed application (the application with the original signed documentation) to: Room 7270, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, Attention: Continuum of Care Programs.

To the Appropriate CPD Field Office. Also submit two copies of your completed application to the Community Planning and Development Division of the appropriate HUD Field Office for your jurisdiction. The HUD Field Office must receive the two copies of your application by the deadline date as well. The determination, however, that your application was received on time will be made *solely on receipt of the application at HUD Headquarters in Washington.* Reviews will be based upon the contents of the application submitted to HUD Headquarters.

For Application Kits. For an application kit, please call the SuperNOFA Information Center at 1–800–HUD–8929 (voice) or 1–800–HUD–2209 (TTY), or you may download an application by Internet at *http://www.hud.gov.*

For Further Information. You may contact the HUD Field Office serving your area, at the telephone number shown in Appendix A to the General Section of the SuperNOFA, or you may contact the Community Connections Information Center at 1–800–998–9999 (voice) or 1–800–HUD–2209 (TTY) or by Internet at: *http://www.hud.gov.*

For Technical Assistance. Before the application deadline, HUD staff will be available to provide you with general guidance. HUD staff, however, cannot provide you with guidance in actually preparing your application. HUD Field Office staff also will be available to help you identify organizations in your community that are involved in developing the Continuum of Care system. Following conditional selection of applications, HUD staff will be available to assist selected applicants in clarifying or confirming information that is a prerequisite to the offer of a grant agreement or Annual Contributions Contract by HUD. However, between the application deadline and the announcement of conditional selections, HUD will accept no information that would improve the substantive quality of your application pertinent to HUD's funding decision.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at *http://www.hud.gov.*

II. Amount Allocated

Approximately $950 million is available for this competition in FY 2002. Any unobligated funds from previous competitions or additional funds that may become available as a result of deobligations or recaptures from previous awards or budget transfers may be used in addition to 2002 appropriations to fund applications submitted in response to this program section of this SuperNOFA. The FY 2002 HUD Appropriation Act requires HUD to obligate all Continuum of Care homeless assistance funds by September 30, 2004. While these funds will remain available for expenditure for five years following that date, any funds that you have not used by September 30, 2009, will cease to be available altogether. In the Continuum programs, obligation occurs upon execution of the grant agreement by HUD and the grantee, or in the Section 8 Moderate Rehabilitation for

VOL
67
ISS
58
MR
26
2002
UMI

Single Room Occupancy program, execution of the Annual Contributions Contract (ACC). If you do not have a fully executed grant agreement or ACC by September 30, 2004, your award will be withdrawn. If you have not used all program funds by September 30, 2009, the funds will be deobligated. This requirement is in conflict with the statutory ten years of funding that is authorized for the Section 8 Moderate Rehabilitation Single Room Occupancy for Homeless Individuals program, the Shelter Plus Care/SRO component program and the Shelter Plus Care with Rehabilitation component program. HUD will seek legislative authority to exempt these programs from the statutory mandate that any unexpended balances remaining in an account five years after they cease to be available for obligation are cancelled. If this legislative authority is not passed, project applicants should be aware that remaining funds will be cancelled by September 30, 2009. The funds available for the Continuum of Care program can be used under any of three programs that can assist in creating community systems for combating homelessness. The three programs are:

(1) Supportive Housing;
(2) Shelter Plus Care; and
(3) Section 8 Moderate Rehabilitation Single Room Occupancy for Homeless Individuals.

The chart in the Appendix A to this program section of this SuperNOFA summarizes key aspects of the programs, and also provides the citations for the statutes and regulations that authorize these programs. The regulations listed in the chart provide more detailed descriptions of each of the programs.

As in previous funding availability announcements for the Continuum of Care Homeless Assistance Programs, HUD will not specify amounts for each of the three programs this year. Instead, the distribution of funds among the three programs will depend largely on locally determined priorities and overall demand. Local priorities notwithstanding, the FY 2002 HUD Appropriations Act requires that not less than 30 percent of this year's $1.123 billion Homeless Assistance Grants appropriation, excluding amounts provided for one-year renewals under the Shelter Plus Care Program, must be used for permanent housing projects. For the purposes of this 2002 NOFA, HUD is estimating that $118 million of the appropriation will be provided for one-year Shelter Plus Care Program renewals. (See Sections V(A)(5)(b) and V(A)(8) of this program section of the SuperNOFA for additional information.) Since this permanent housing set-aside requirement is expected to continue to be part of future competitions and may affect project funding selections as described below, you are strongly encouraged to begin planning as soon as possible for new permanent housing projects to be included as part of your submission in this and future competitions.

Under the FY 2002 HUD Appropriations Act, eligible Shelter Plus Care Program grants whose terms are expiring in FY2003 and Shelter Plus Care Program grants that have been extended beyond their original five-year terms but which are projected to run out of funds in FY 2003 will be renewed for one year provided that they are determined to be needed by the Continuum of Care as evidenced by their inclusion on the priority chart. These projects must also meet the applicant and sponsor eligibility and capacity requirements described in Section V(A)(1) of this NOFA. However, these S+C renewal projects will not count against a continuum's pro rata need amount. On the other hand, no S+C renewal adjustment will be made to a Continuum of Care's pro rata need amount since these projects are being funded outside of the competition. Please be advised that Shelter Plus Care renewal applications which are not submitted as part of either a "consolidated" or "associated" Continuum of Care application will not be considered as eligible for funding. (See Section VI for a description of the three options for submitting applications.)

III. Program Description; Eligible Applicants; Eligible Activities

(A) Program Description.

(1) *Developing Continuum of Care Systems.* The purpose of the Continuum of Care Homeless Assistance Programs is to fund projects that will fill gaps in locally developed Continuum of Care systems to assist homeless persons, especially the chronically homeless, to move to self-sufficiency and permanent housing. The process of developing a Continuum of Care system to assist homeless persons is part of the community's larger effort of developing a Consolidated Plan. For a community to successfully address its often complex and interrelated problems, including homelessness, the community must marshal its varied resources—community and economic development resources, social service resources, housing and homeless assistance resources—and use them in a coordinated and effective manner. The Consolidated Plan, including the Analysis of Impediments to Fair Housing Choice, serves as the vehicle for a community to comprehensively identify each of its needs and to coordinate a plan of action for addressing them.

In addition to prevention, a Continuum of Care system consists of four basic components:

(a) A system of outreach and assessment for determining the needs and conditions of an individual or family who is homeless;

(b) Emergency shelters with appropriate supportive services to help ensure that homeless individuals and families receive adequate emergency shelter and referral to necessary service providers or housing finders;

(c) Transitional housing with appropriate supportive services to help those homeless individuals and families who are not prepared to make the transition to permanent housing and independent living; and

(d) Permanent housing, or permanent supportive housing, to help meet the long-term needs of homeless individuals and families.

A Continuum of Care system is developed through a community-wide or region-wide process involving nonprofit organizations (including those representing persons with disabilities), government agencies, public housing authorities, faith-based and other community-based organizations and other homeless providers, housing developers and service providers, private businesses and business associations, law enforcement agencies, funding providers, and homeless or formerly homeless persons. To ensure that the Continuum of Care system addresses the needs of homeless veterans, it is particularly important that you involve veteran service organizations with specific experience in serving homeless veterans. A Continuum of Care system should address the specific needs of each homeless subpopulation: the jobless, veterans, persons with serious mental illnesses, persons with substance abuse issues, persons with HIV/AIDS, persons with co-occurring diagnoses, victims of domestic violence, youth, and any others: The term "co-occurring diagnoses" may include diagnoses of multiple physical disabilities or multiple mental disabilities or a combination of these two types.

Your application is more likely to be given a high score under the Continuum of Care scoring factors if the application demonstrates the achievement of three basic goals:

• That you have provided maximum participation by nonprofit organizations (including those representing persons with disabilities), government agencies, public housing authorities, faith-based and other community-based organizations and other homeless providers, housing developers and service providers, private businesses and business associations, law enforcement agencies, funding providers, and homeless or formerly homeless persons.

• That you have created, maintained and built upon a community-wide inventory of housing and services for homeless families and individuals; identified the full spectrum of needs of homeless families and individuals; and coordinated efforts to fill gaps between the current inventory and existing needs. This coordinated effort must appropriately address all aspects of the continuum, especially permanent housing.

• That you have instituted a Continuum of Care-wide strategy to coordinate homeless assistance with mainstream health, social services and employment programs for which homeless individuals and families may be eligible. These programs include Medicaid, Children's Health Insurance Program, Temporary Assistance for Needy Families, Food Stamps, and services funding through the Mental Health Block Grant and Substance Abuse Block Grant, Workforce Investment Act, Welfare-to-Work grant program, and Veterans Health Care.

Should HUD determine, in its sole discretion, that sufficient evidence exists to confirm that the entity responsible for convening and managing the Continuum of Care process in a community has failed to follow locally established or accepted procedures governing the conduct of that process or has failed to provide for a fair process, including a project priority selection process that gives equal consideration to projects proposed by nonprofit organizations, HUD reserves the authority to impose sanctions up to and including a prohibition on that entity and the individuals comprising that entity from participating in that capacity in the future. In making this determination, HUD will consider as evidence court proceedings and decisions, or the determinations of other independent and impartial review bodies. This authority cannot be exercised until after a description of procedural safeguards, including an opportunity for comment and appeal, and the specific process and procedures for imposing a prohibition or debarment, have been published in the **Federal Register**.

In deciding what geographic area you will cover in your Continuum of Care strategy, you should be aware that the single most important factor in being awarded funding under this competition will be the strength of your Continuum of Care strategy when measured against the Continuum of Care rating factors described in this program section of the SuperNOFA. When you determine what jurisdictions to include in your Continuum of Care strategy area, include only those jurisdictions that are involved in the development and implementation of the Continuum of Care strategy.

The more jurisdictions you include in the Continuum of Care strategy area, the larger the pro rata need share that will be allocated to the strategy area (as described in Section V (A)(5) of this program section of the SuperNOFA). However, it would be a mistake to include jurisdictions that are not fully involved in the development and implementation of the Continuum of Care strategy since this would adversely affect the Continuum of Care score. If you are a rural county, you may wish to consider working with larger groups of contiguous counties to develop a region-wide or multi-county Continuum of Care strategy covering the combined service areas of these counties.

Since the basic concept of a Continuum of Care strategy is to create a single, coordinated, inclusive homeless assistance system for an area, the areas covered by Continuum of Care strategies should not overlap. If the geography included in your Continuum of Care strategy geographically overlaps to the extent that it competes with another application, projects within the Continuum of Care application that receive the highest Continuum of Care score will be eligible for up to 40 Need points. Projects in the competing Continuum of Care application with the lower Continuum of Care score will be eligible for only 10 Need points. In no case will the same geographical area be used more than one time in assigning Need points. The local HUD Field Office can help you determine if any of the areas proposed for inclusion by your Continuum of Care system is also likely to be claimed under another Continuum of Care system in this competition.

(2) *Prioritizing.* In HUD's view, project priority decisions are best made through a local process, which includes nonprofit organizations, and are key to the ultimate goal of reducing homelessness. Again this year, you must list all projects proposed for funding in priority order from the highest priority to the lowest, and indicate the applicant, project sponsor, and term for each project. Generally, this priority order will mean, for example, that if HUD has funds available only to award 8 of 10 proposed projects, then it will award funding to the first eight eligible projects listed, except as may be necessary to achieve the 30 percent overall permanent housing requirement—in which case higher priority non-permanent housing projects may be skipped over to fund lower priority permanent housing projects. Since you are now able to closely calculate your Continuum of Care's total pro rata need amount using information provided to you from HUD, and now that you no longer need to carry the large cost burden imposed by Shelter Plus Care five-year renewals, the tiering of projects (splitting into two or more projects by year or by units) on your priority list is not permitted.

To promote permanent housing, a special incentive is being provided to Continuum of Care systems that place an eligible, new permanent housing project in the number one priority slot on the priority list. See Section V (A)(5)(b) of this program section of the SuperNOFA for a description of this incentive.

HUD will use this priority list to award up to 40 points per project under the "Need" scoring factors. Higher priority projects will receive more points under Need than lower priority projects. A project priority chart is included in the application kit and you should complete and submit it. If you do not submit clear project priority designations for the continuum, or if HUD, at its sole discretion, cannot determine priority designations, then HUD will give all projects the lowest score for Need.

(3) *Project renewals.* If your Supportive Housing or Shelter Plus Care grant will be expiring in calendar year 2003, or if your Shelter Plus Care Program grant has been extended beyond its original five-year term and is projected to run out of funds in FY 2003, you must apply under this Continuum of Care program section of the SuperNOFA to get continued funding.

Your local needs analysis process must consider the need to continue funding for projects expiring in calendar year 2003. HUD will not fund competitive renewals out of order on the priority list except as may be necessary to achieve the 30 percent overall permanent housing requirement. HUD reserves the authority to use FY 2003 funds, if available, to conditionally select for one year of funding lower-

VOL 67 ISS 58 MR 26 2002 UMI

rated eligible SHP renewal projects that are assigned 40 need points in either a "consolidated" or "associated" Continuum of Care application receiving at least 20 points under the Continuum of Care scoring factor that would not otherwise receive funding for these projects.

It is important that SHP renewals and Shelter Plus Care non-competitive renewals meet minimum project eligibility and capacity standards identified in this program section of the SuperNOFA or they will be rejected from consideration for either competitive or non-competitive funding.

For the renewal of a Supportive Housing Program project, you may request funding for one (1), two (2) or three (3) years. The total amount of the request cannot exceed the average yearly amount received in total for leasing, supportive services, and/or operations for the grant being renewed, plus up to five percent for administration.

For the renewal of a Shelter Plus Care project, the grant term will be one (1) year, as specified by Congress. For Shelter Plus Care renewals, you may request up to the amount determined by multiplying the number of units under lease at the time of your application for renewal funding by the applicable current Fair Market Rent(s) by 12 months, except that for Shelter Plus Care grants having been awarded one year of renewal funding in 2001, the number of units requested for renewal this year may not exceed the number of units funded in 2001. While full funding of existing grants may be requested, there is no guarantee that the entire amount will be awarded. As is the case with SHP, HUD will recapture Shelter Plus Care grant funds remaining unspent at the end of the previous grant period when it renews a grant. The one-year term of non-competitively awarded Shelter Plus Care renewal projects may not be extended.

This program section of the SuperNOFA is not applicable to the renewal of funding under the SRO program. For further guidance on SRO renewals, please contact your local HUD Field Office.

As a project applicant, you are eligible to apply for renewal of a grant only if you have executed a grant agreement for the project directly with HUD. If you are a project sponsor or subrecipient who has not signed such an agreement, you are not eligible to apply for renewal of these projects. HUD will reject applications for renewal submitted by ineligible applicants. If you have questions about your eligibility to apply for project renewal, contact the local HUD field office. To be considered an applicant when applying as part of a "consolidated" application, you must be an eligible applicant for the program for which you are applying, and you must submit an originally signed Form SF–424 and the necessary certifications and assurances. (See Section VI for a description of the three options for submitting an application.) Only public housing authorities and private nonprofits are eligible applicants for the Section 8 Moderate Rehabilitation for Single Room Occupancy program. If you are a unit of general local government acting as an applicant for a consolidated application and plan to include a request for Section 8 SRO funds, you must have a public housing authority or nonprofit listed as the Section 8 SRO applicant and they must submit a signed Form SF–424, along with all necessary certifications and assurances applicable to the Section 8 SRO project.

(B) Eligible Applicants

See Appendix A.

(C) Eligible Activities

See Appendix A.

IV. Program Requirements

(A) Conducting Business In Accordance With Core Values and Ethical Standards

See Section II(A)(2) of General Section of the SuperNOFA.

(B) Statutory and Regulatory Requirements

If your project is selected for funding as a result of the competition, you will be required to coordinate and integrate your homeless program with other mainstream health, social services, and employment programs for which homeless populations may be eligible, including Medicaid, Children's Health Insurance Program, Temporary Assistance for Needy Families, Food Stamps, and services funding through the Mental Health Block Grant and Substance Abuse Block Grant, Workforce Investment Act, Welfare-to-Work grant program and Veterans Health Care. In addition, as a condition for award, any governmental entity serving as an applicant must agree to develop and implement, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of persons from publicly funded institutions or systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons. This condition for award is intended to emphasize that States and units of general local government are primarily responsible for the care of these individuals, and to forestall attempts to use scarce McKinney-Vento Act funds to assist such persons in lieu of State and local resources.

(C) Program specific requirements follow:

(1) *SRO Program.* As an applicant, you need to know that the following limitations apply to the Section 8 SRO program:

- Under section 8(e)(2) of the United States Housing Act of 1937, no single project may contain more than 100 assisted units;
- Under 24 CFR 882.802, applicants that are private nonprofit organizations must subcontract with a Public Housing Authority to administer the SRO assistance;
- Under section 8(e)(2) of the United States Housing Act of 1937 and 24 CFR 882.802, rehabilitation must involve a minimum expenditure of $3,000 for a unit, including its prorated share of work to be accomplished on common areas or systems, to upgrade conditions to comply with the Housing Quality Standards.
- Under section 441(e) of the McKinney-Vento Act and 24 CFR 882.805(d)(1), HUD publishes the SRO per unit rehabilitation cost limit each year to take into account changes in construction costs. This cost limitation applies to rehabilitation that is compensated for in a Housing Assistance Payments Contract. For purposes of Fiscal Year 2002 funding, the cost limitation is raised from $18,200 to $18,500 per unit to take into account increases in construction costs during the past 12-month period.
- The SRO Program is subject to the Federal labor standards provisions at 24 CFR part 882, subpart H.
- Individuals assisted through the SRO Program must meet the definition of homeless individual found at section 103 of the McKinney-Vento Act.

(2) *Shelter Plus Care/SRO Component.* With regard to the SRO component of the Shelter Plus Care program, if you are a State or a unit of general local government, you must subcontract with a Public Housing Authority to administer the Shelter Plus Care assistance. Also with regard to this component, no single project may contain more than 100 units.

(3) *Supportive Housing Program.* Please be advised that where an applicant for Supportive Housing Program funding is a State or unit of general local government that utilizes one or more nonprofit organizations to administer the homeless assistance project(s), administrative funds provided as part of the SHP grant must be passed on to the nonprofit organization(s) in proportion to the administrative burden borne by them for the SHP project(s). HUD will consider States or units of general local government that pass on at least 50 percent of the administrative funds made available under the grant as having met this requirement which was contained in the congressional committees' report accompanying the FY 2001 HUD Appropriations Act. This requirement does not apply to either the SRO Program, since no administrative funds are provided as part of the grant, or to the S+C Program, since paying the costs associated with the administration of these grants is ineligible by regulation.

(D) Match

You must match Supportive Housing Program funds provided for acquisition, rehabilitation, and new construction with an equal amount of funds from other sources; for operating costs, since by law SHP can pay no more than 75% of the total operating budget for supportive housing, you must provide at least 25% of the annual operating costs. In addition, you must provide a 25% cash match of all SHP funding for supportive services. The cash source may be you, the Federal Government, State and local governments, or private resources. You must match rental assistance provided through the Shelter Plus Care Program in the aggregate with supportive services.

(E) Timeliness Standards

As an applicant, you are expected to initiate your approved projects promptly in accordance with Section II of this NOFA. In addition, HUD may take action if you fail to satisfy the following timeliness standards:

(1) Supportive Housing Program

- HUD will deselect your award if you do not demonstrate site control within one (1) year of the date of your grant award letter, as required by the McKinney-Vento Act at 42 U.S.C. 11386(a)(3) and implemented in program regulations at 24 CFR 583.320(a).
- HUD may deobligate SHP funds if the following additional timeliness standards are not met:

—You must begin construction activities within eighteen (18) months of the date of HUD's grant award letter and complete them within thirty-six (36) months after that notification.

—For activities that cannot begin until construction activities are completed, such as supportive service or operating activities that will be conducted within the building being rehabilitated or newly constructed, you must begin these activities within three (3) months after you complete construction.

—You must begin all activities that may proceed independent of construction activities within twelve (12) months of the date of HUD's grant award letter.

(2) Shelter Plus Care Program Components Except SRO Component

HUD may deobligate S+C funds if you do not meet the following timeliness standards:

- For Tenant-based Rental Assistance, for Sponsor-based Rental Assistance, and for Project-based Rental Assistance without rehabilitation, you must start the rental assistance within twelve (12) months of the date of HUD's grant award letter.
- For Project-based Rental Assistance with rehabilitation, you must complete the rehabilitation within twelve (12) months of the date of HUD's grant award letter.

(3) SRO Program and SRO Component of the Shelter Plus Care Program

For projects carried out under the SRO program and the SRO component of the S+C program, the rehabilitation work must be completed and the Housing Assistance Payments contract executed within twelve (12) months of execution of the Annual Contributions Contract. HUD may reduce the number of units or the amount of the annual contribution commitment if, in HUD's determination, the Public Housing Authority fails to demonstrate a good faith effort to adhere to this schedule.

V. Application Selection Process

(A) *Review, Rating and Conditional Selection.* HUD will use the same review, rating, and conditional selection process for all three programs (S+C, SRO, and SHP). The standard factors for award identified in the General Section of this SuperNOFA have been modified in this program section as described below. Only the factors described in this program section—Continuum of Care and Need—will be used to assign points. To review and rate applications, HUD may establish panels. In order to obtain certain expertise and outside points of view, including views from other Federal agencies, these panels may include persons not currently employed by HUD. Two types of reviews will be conducted. Paragraphs (1) and (2) below describe threshold reviews and paragraphs (3) and (4) describe factors—Continuum of Care and Need—that will be used to assign points. Up to 104 points (including 2 bonus points for RC/EZ/EC communities described in Section III (C)(1), and 2 bonus points for the court-ordered consideration described in Section III (C)(3), of the General Section of the SuperNOFA) will be assigned using these factors.

(1) *Applicant and sponsor eligibility and capacity.* HUD will review your capacity as the applicant and project sponsor to ensure the eligibility and capacity standards in this section are met. If HUD determines these standards are not met, the project will be rejected from the competition. The eligibility and capacity standards are:

- You must be eligible to apply for the specific program;
- You must demonstrate ability to carry out the project(s). With respect to each proposed project, this means that in addition to knowledge of and experience with homelessness in general, the organization carrying out the project, its employees, or its partners, must have the necessary experience and knowledge to carry out the specific activities proposed, such as housing development, housing management, and service delivery;
- If you or the project sponsors are current or past recipients of assistance under a HUD McKinney-Vento Act program, there must have been no delay in implementing projects exceeding applicable program timeliness standards that HUD determines is within your or the project sponsor's control, no unresolved HUD finding, or no outstanding audit finding of a material nature regarding the administration of the program; and
- You and the project sponsors must be in compliance with applicable civil rights laws and Executive Orders, and must meet the threshold requirements of Section II(B) of the General Section of the SuperNOFA.

(2) *Project eligibility.* HUD will review projects to determine if they meet the following eligibility standards. If HUD determines the following standards are not met by a specific project or activity, the project or activity will be rejected from the competition.

- The population to be served must meet the eligibility requirements of the specific program, as described in this program section;
- At least one of the activities for which assistance is requested must be eligible under the specific program, as described in the program regulations;

VOL
67
ISS
58
MR
26
2002
UMI

• The project must be cost-effective in HUD's opinion, including costs associated with construction, operations, administration, and supportive services with such costs not deviating substantially from the norm in that locale for the type of structure or kind of activity;

• For the Section 8 SRO program, at least 25 percent of the units to be assisted at any one site must be vacant at the time of application. Tenants returning after having vacated their units during the rehabilitation period are not eligible to receive rental assistance under the SRO Program since they do not meet the McKinney-Vento Act definition of homeless individual; and

• For those projects proposed under the SHP innovative category: Whether or not a project is considered innovative will be determined on the basis that the particular approach proposed is new and can be replicated.

(3) *Project quality.* HUD will review projects to determine if they meet the following quality standards. The housing and services proposed must be appropriate to the needs of the persons to be served. HUD may find a project to be inappropriate if:

• The type, scale and general location of the housing or services do not fit the needs of the proposed participants. A S+C or SHP project renewal will be considered as having met this requirement through its previously approved grant application.

• A specific plan for ensuring that clients will be assisted to obtain the benefits of the mainstream health, social service, and employment programs for which they are eligible is not provided. A S+C project renewal will be considered as having met this requirement through its previously approved grant application;

• Housing accessibility for persons with disabilities will not be provided as required by applicable laws. A SHP or S+C project renewal will be considered as having met this requirement through its previously approved grant application;

• The description of supportive services only projects, and all others, do not show how participants will be helped to access permanent housing and achieve self-sufficiency. A S+C project renewal will be considered as having met this requirement through its previously approved grant application;

• Renewal projects must evidence satisfactory performance for their existing grant in HUD's opinion based upon the substantial achievement of their program goals as reflected in their most recent Annual Progress Report. (New projects funded for one year in 2001 are not subject to this requirement.);

• Renewal projects do not evidence that they have assisted clients to obtain the benefits of the mainstream health, social service, and employment programs for which they were eligible as evidenced in their most recent Annual Progress Report;

(4) *Continuum of Care.* HUD will award up to 60 points as follows:

(a) *Process and Strategy.* HUD will award up to 20 points based on the extent to which your application demonstrates:

• The existence of a coordinated and inclusive community process, including organizational structure(s), for developing and implementing a Continuum of Care strategy which includes nonprofit organizations (such as veterans service organizations, organizations representing persons with disabilities, faith-based and other community-based organizations, and other groups serving homeless persons), State and local governmental agencies, public housing authorities, housing developers and service providers, law enforcement, hospital and medical entities, funding providers, local businesses and business associations, and homeless or formerly homeless persons; and

• That a well-defined and comprehensive strategy has been developed which addresses the components of a Continuum of Care system (i.e., prevention, outreach, intake, and assessment; emergency shelter; transitional housing; permanent and permanent supportive housing) and that strategy has been designed to serve all homeless subpopulations in the community (e.g., seriously mentally ill, persons with multiple diagnoses, veterans, persons with HIV/AIDS), including those persons living in emergency shelters, supportive housing for homeless persons, or in places not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(b) *Gaps and Priorities.* HUD will award up to 20 points based on the extent to which your application:

(i) Describes the gap analysis performed, uses reliable information and sources that are presented completely and accurately; and

(ii) Proposes projects that are not inconsistent with the gaps analysis described in the Continuum of Care strategy, describes a fair project selection process, explains how gaps identified through the analysis are being addressed, and correctly completes the priority chart.

When HUD reviews a community's Continuum of Care to determine the points to assign, HUD will consider whether the community took its renewal needs into account in preparing its project priority list. (See discussion on renewals in Section III(A)(3) of this NOFA.)

(c) *Supplemental Resources.* HUD will award up to 15 points based on the extent to which your application incorporates mainstream resources and demonstrates leveraging of funds requested under this program section of the SuperNOFA with other resources, including private, other public, and mainstream services and housing programs. To achieve the highest rating for this factor, applicants must evidence explicit Continuum of Care-wide strategies to coordinate homeless assistance with mainstream health, social services and employment programs for which homeless populations may be eligible. These include Medicaid, Children's Health Insurance Program, Temporary Assistance for Needy Families, Food Stamps, and services funding through the Mental Health Block Grant and Substance Abuse Block Grant, Workforce Investment Act, the Welfare-to-Work grant program, and Veterans Health Care.

(d) *Emphasis on housing.* HUD will award up to 5 points based upon the relationship between funds requested for housing activities and funds requested for supportive service activities among projects assigned 40 need points (excluding Shelter Plus Care renewals). Points will be awarded on a sliding scale with the Continuums with the highest percentage of approvable requests for funds for housing activities receiving the highest points. To receive points, the Continuum must have a total amount of approvable funds for housing activities that is at least 50 percent of funds for all approvable projects that are assigned 40 need points (excluding Shelter Plus Care renewals). HUD will count as housing activity all approvable funds for rental assistance and approvable funds for acquisition, rehabilitation, construction, leasing and operations when used in connection with housing.

(e) *EZ/EC bonus points.* As provided for in Section III(C)(1) of the General Section of this SuperNOFA, HUD will add a bonus of up to 2 points to the Continuum of Care score when: (1) At least one proposed homeless assistance project will be located within the boundaries and/or will principally serve the residents of a federal Empowerment Zone, Enterprise Community, Enhanced Enterprise Community, Strategic Planning Community or Renewal Community (collectively "EZ/EC"); and (2) if priority placement will be given by the project(s) to homeless persons living on the streets or in shelters within the EZ/EC, or whose last known address was within the EZ/EC. In addition, and in order for a Continuum of Care system to receive any of the bonus points, the applicant must specifically state how it meets the requirements for the two EZ/EC bonus points, and provide a narrative describing the extent of the linkages and coordination between proposed projects and the EZ/EC. Examples of such coordination include having common board or committee membership (EZ/EC and Continuum of Care), and having EZ/EC resources directed toward Continuum of Care activities. The greater the extent of EZ/EC involvement in, and coordination with, the implementation strategy for the Continuum of Care system and projects, the greater the likelihood that bonus points will be awarded.

(f) *Court-ordered consideration.* Section III(C)(3) of the General Section is applicable to this program.

(5) *Need.* HUD will award up to 40 points for need. There is a three-step approach to determining the need scores to be awarded to projects:

(a) *Determining relative need:* To determine the homeless assistance need of a particular jurisdiction, HUD will use nationally available data, including the following factors as used in the Emergency Shelter Grants program: data on poverty, housing overcrowding, population, age of housing, and growth lag. Applying those factors to a particular jurisdiction provides an estimate of the relative need index for that jurisdiction compared to other jurisdictions applying for assistance under this program section of the SuperNOFA.

(b) *Applying relative need:* HUD will then apply that relative need index to the total amount of funding estimated to be competitively available under this program section of the SuperNOFA to determine a jurisdiction's pro rata need. However, in order to promote permanent housing for the homeless, if a Continuum of Care's number one priority project qualifies as an eligible, new permanent housing project, then the full amount of that project's eligible activities, up to the lesser of 100 percent of the Continuum of Care's preliminary pro rata need or $500,000, will be added to the final pro rata need amount for the Continuum. HUD also reserves the right to adjust pro rata need, if necessary, to address SHP project renewals.

(c) *Awarding need points to projects:* Once the pro rata need is established, it is applied against the priority project list in the application. Starting from the highest priority project, HUD proceeds down the list to award need points to each project. An eligible project will receive the full 40 points for need if at least one half of its requested amount falls within the pro rata need amount for that Continuum of Care (COC). Thereafter, HUD proceeds further down the priority project list and awards 15 points for need to each project if at least one half of its requested amount falls within the "second tier" of pro rata need amount for that Continuum of Care. The "second tier" is the amount between the pro rata need and twice the pro rata need for the COC. Remaining projects each receive 10 points. If projects are not prioritized for the Continuum, then all projects will receive 10 points for Need.

In the case of competing applications from a single jurisdiction or service area, projects in the application that received the highest score out of the possible 60 points for Continuum of Care are eligible for up to 40 points under Need. Projects in the competing applications with lower Continuum of Care scores are eligible for only 10 points under Need.

(6) *Ranking.* HUD will add the score for Continuum of Care to the Need score and EZ/EC bonus points, if any, to obtain a total score for each project. The projects will then be ranked from highest to lowest according to the total combined score.

(7) *Conditional Selection and Adjustments to Funding.*

(a) *Conditional Selection.* Whether a project is conditionally selected, as described in Section V (B) below, will depend on its overall ranking compared to others, except that HUD reserves the right to select lower rated eligible projects in order to meet the 30 percent overall permanent housing requirement. (See Section V (A)(8) for additional selection information.)

When insufficient funds remain to fund all projects in the competition having the same total score, HUD will first fund permanent housing projects if necessary to achieve the 30 percent overall permanent housing requirement. HUD will then break ties among the remaining projects with the same total score by comparing scores received by the projects for each of the following scoring factors, in the order shown: Need, Overall Continuum of Care score, COC Process and Strategy, COC Gaps and Priorities, and COC Supplemental Resources. The final tie-breaking factor is the priority number of the competing projects on the applicable COC priority list(s).

(b) *Adjustments to Funding.* The Secretary of HUD has determined that geographic diversity is appropriate to carrying out homeless assistance programs in an effective manner. HUD believes that geographic diversity can be achieved best by awarding grants to as many COCs as possible. To this end, in instances where any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Northern Mariana Islands, the Virgin Islands, and American Samoa does not have at least one funded COC, HUD reserves the right to fund eligible project(s) receiving 40 Need points in the COC with the highest total score in that jurisdiction. To qualify for funding, the total score for these first tier projects on the COC priority list must be at least 65 points. In the case of two or more COCs with the same total score, HUD will use the tie-breaking rules described above. In addition, if the highest priority project passing threshold requirements within a COC fails to meet the criteria for receiving 40 Need points, HUD reserves the right to reduce the total requested amount for that project to allow it to qualify for 40 Need points. Finally, if the total amount that would be awarded for first tier projects in a Continuum of Care exceeds the final pro rata need amount for that COC by more than $250,000, the lowest priority first tier project being selected for funding will be reduced to the level necessary to ensure that the total amount being awarded for such projects does not exceed the final pro rata need amount by more than $250,000. HUD may otherwise adjust funding of applications in accordance with the provisions of Section III(E) of the General Section of the SuperNOFA. In addition, HUD reserves the right to ensure that a project that is applying for, and eligible for, selection under this competition is not awarded funds that duplicate activities.

(8) *Additional selection considerations.* HUD also will apply the limitations on funding described below in making conditional selections.

In accordance with the appropriation for homeless assistance grants in the Fiscal Year 2002 Appropriation Act for HUD (Pub.L. 107–73, approved November 26, 2001; 115 Stat. 651), HUD will use not less than 30 percent of the total FY 2002 Homeless Assistance Grants appropriation, excluding amounts provided for renewals under the Shelter Plus Care Program, to fund projects that meet the definition of permanent housing. Projects meeting the definition of permanent housing for this purpose are: (1) New Shelter Plus Care projects, (2) Section 8 SRO projects, and (3) new and renewal

VOL
67
ISS
58
MR

2002
UMI

projects under the Supportive Housing Program that are designated as either permanent housing for homeless persons with disabilities or Safe Havens projects having the characteristics of permanent housing for homeless persons with disabilities, including leases with the program participants, that, in addition, have been assigned at least 15 Need points, and which are submitted as part of either a "consolidated" or "associated" Continuum of Care application receiving at least 20 points under the Continuum of Care scoring factor. However, no Continuum of Care application may receive more than 30 percent of its pro rata need, up to $3 million, for "second-tier" permanent housing projects assigned 15 Need points that are selected for funding under this procedure. (See Section V(A)(5)(c) for definition of "second-tier".) Since the FY 2002 Homeless Assistance Grants appropriation, excluding an estimated $118 million for Shelter Plus Care Program renewals, is $1.005 billion, not less than approximately $302 million must be awarded to permanent housing projects unless an insufficient number of approvable permanent housing projects are submitted. This permanent housing funding requirement may result in higher scoring non-permanent housing projects being skipped over to fund lower scoring permanent housing projects or, within a Continuum, higher priority non-permanent housing projects being skipped over to fund lower priority permanent housing projects. HUD will first skip over new non-permanent housing projects when making project selections in order to meet the 30 percent requirement. If the 30 percent requirement has not been met after skipping over the new non-permanent housing projects, then HUD will skip over non-permanent housing renewal projects. In skipping over new non-permanent housing projects, HUD will begin with the lowest rated, eligible new non-permanent project at the funding line and continue up the ranking until the 30 percent requirement is met. If HUD is required to skip over non-permanent housing renewal projects, HUD will proceed in the same way.

In accordance with section 429 of the McKinney-Vento Act, HUD will award Supportive Housing funds as follows: Not less than 25 percent for projects that primarily serve homeless families with children; not less than 25 percent for projects that primarily serve homeless persons with disabilities; and not less than 10 percent for supportive services not provided in conjunction with supportive housing. After projects are rated and ranked, based on the factors described above, HUD will determine if the conditionally selected projects achieve these minimum percentages. If not, HUD will skip higher-ranked projects in order to achieve these minimum percentages.

In accordance with section 463(a) of the McKinney-Vento Act, as amended by the Housing and Community Development Act of 1992, at least 10 percent of Shelter Plus Care funds will be awarded for each of the four components of the program: Tenant-based Rental Assistance; Sponsor-based Rental Assistance; Project-based Rental Assistance; and Section 8 Moderate Rehabilitation of Single Room Occupancy Dwellings for Homeless Individuals (provided there are sufficient numbers of approvable projects to achieve these percentages). After projects are rated and ranked, based on the factors described above, HUD will determine if the conditionally selected projects achieve these minimum percentages. If necessary, HUD will skip higher-ranked projects in order to achieve these minimum percentages.

In accordance with section 455(b) of the McKinney-Vento Act, no more than 10 percent of the assistance made available for Shelter Plus Care in any fiscal year may be used for programs located within any one unit of general local government. In accordance with section 441(c) of the McKinney-Vento Act, no city or urban county may have Section 8 SRO projects receiving a total of more than 10 percent of the assistance made available under this program. HUD is defining the 10 percent availability this fiscal year as $10 million for Shelter Plus Care and $10 million for Section 8 SRO. However, if the amount awarded under either of these two programs exceeds $100 million, then the amount awarded to any one unit of general local government (for purposes of the Shelter Plus Care program) or city or urban county (for the purposes of the SRO program) could be up to 10 percent of the actual total amount awarded for that program.

Lastly, HUD reserves the right to reduce the amount of a grant if necessary to ensure that no more than 10 percent of assistance made available under this program section of the SuperNOFA will be awarded for projects located within any one unit of general local government or within the geographic area covered by any one Continuum of Care. If HUD exercises a right it has reserved under this program section of the SuperNOFA, that right will be exercised uniformly across all applications received in response to this program section of the SuperNOFA.

(B) *Action on Conditionally Selected Applications.* HUD will notify conditionally selected applicants in writing. As necessary, HUD will subsequently request them to submit additional project information, which may include documentation to show the project is financially feasible; documentation of firm commitments for cash match; documentation showing site control; information necessary for HUD to perform an environmental review, where applicable; and such other documentation as specified by HUD in writing to the applicant, that confirms or clarifies information provided in the application. HUD will notify SHP, SRO, S+C and S+C/SRO applicants of the deadline for submission of such information. If an applicant is unable to meet any conditions for fund award within the specified timeframe, HUD reserves the right not to award funds to the applicant, but instead to either: use them to select the next highest ranked application(s) from the original competition for which there are sufficient funds available; or add them to funds available for the next competition for the applicable program.

(C) *Applicant Debriefing.* See Section VII (E)(2) of the General Section of the SuperNOFA.

VI. Application Submission Requirements

The application kit provides the application materials, including Form SF–424 and certifications, that must be used in applying for homeless assistance under this SuperNOFA. These application materials substitute for the forms, certifications, and assurances listed in Section II(H) of the General Section of the SuperNOFA (collectively, the "standard" forms).

In addition to the required narratives, the items that you must submit to HUD as part of the application for homeless assistance funding are the following:

(1) 2002 Application Summary Form
(2) Continuum of Care and Project Exhibits
(3) Gaps Analysis Form
(4) Project Priorities Form
(5) Project Leveraging Form
(6) EZ/EC Certification
(7) SF–424
(8) Applicant Certifications
(9) Consolidated Plan Certification(s)

The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining forms

(i.e., excluding such items as narratives), referred to as the non-standard forms, can be found in Appendix B to this program section of the SuperNOFA).

The application requires a description of the Continuum of Care system and the proposed project(s). To ensure that no applicant is afforded an advantage in the rating of the Continuum of Care element (described in Section V (A)(4) above), HUD is establishing a limitation of 25 pages, excluding required multiple page tables or charts but including any attachments, on the length of Exhibit 1 of any application submitted in response to this NOFA. HUD will not consider the contents of any pages exceeding this limit when rating the Continuum of Care element of any application. The application kit also contains certifications that the applicant will comply with fair housing and civil rights requirements, program regulations, and other Federal requirements, and (where applicable) that the proposed activities are consistent with the HUD-approved Consolidated Plan of the applicable State or unit of general local government, including the Analysis of Impediments to Fair Housing Choice and the Action Plan to address these impediments. Projects funded under this SuperNOFA shall operate in a fashion that does not deprive any individual of any right protected by the Fair Housing Act (42 U.S.C. 3601–19), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), Section 109 of the Housing and Community Development Act of 1974 (42 U.S.C. 5301) or the Age Discrimination Act of 1974 (42 U.S.C. 6101).

There are three options for submitting an application under this program section of the SuperNOFA.

One: A "Consolidated Application" is submitted when a jurisdiction (or a consortium of jurisdictions) submits a single application encompassing a Continuum of Care strategy and containing all the projects within that strategy for which funding is being requested. Individual projects are contained within the one consolidated application. Grant funding may go to one entity which then administers all funded projects submitted in the application, or under this option, grant funding may go to all or any of the projects individually. Your application will specify the grantee for each project.

Two: "Associated Applications" are submitted when applicants plan and organize a single Continuum of Care strategy that is adopted by project sponsors or operators who choose to submit separate applications for projects while including the identical Continuum of Care strategy. In this case, project funding would go to each successful applicant individually and each would be responsible to HUD for administering its separate grant.

Three: A "Solo Application" is submitted when an applicant applies for a project exclusive of participation in any community-wide or region-wide Continuum of Care development process.

Options one and two are not substantively different and will be considered equally competitive. Applicants are advised that projects that are not a part of a Continuum of Care strategy will receive few, if any, points under the Continuum of Care rating factors.

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications (See Section V of the General Section).

VIII. Environmental, Local Resident Employment, and Relocation Requirements

(A) *Environmental Requirements.* All Continuum of Care assistance is subject to the National Environmental Policy Act and applicable related Federal environmental authorities. Section 208 of Public Law 106–377 (114 Stat. 1441, approved October 27, 2000) amended section 443 of the Stewart B. McKinney-Vento Homeless Assistance Act to provide that for purposes of environmental review, Continuum of Care projects shall be treated as assistance for special projects that are subject to section 305(c) of the Multifamily Housing Property Disposition Reform Act of 1994, and shall be subject to HUD's regulations implementing that section. The effect of this provision is that environmental reviews for Continuum of Care activities are to be completed by responsible entities (States or units of general local government) in accordance with 24 CFR part 58, whether or not the applicant is itself a State or a unit of general local government. Applicants (such as PHAs or nonprofit organizations) that are not States or units of general local government must request the unit of general local government to perform the environmental review. This statutory provision supersedes those portions of 24 CFR 582.230 and 583.230 that provide for automatic HUD environmental review in the case of applications from such entities. With this exception, conditional selection of projects under the Continuum of Care Program is subject to the environmental review requirements of 24 CFR 582.230, 583.230, and 882.804(c), as applicable. Recipients may not commit or expend any Continuum of Care assistance or nonfederal funds on project activities (other than those listed in 24 CFR 58.22(c), 58.34 or 58.35(b)) until HUD has approved a Request for Release of Funds and environmental certification from the responsible entity. The expenditure or commitment of Continuum of Care assistance or nonfederal funds for such activities prior to this HUD approval may result in the denial of assistance for the project under consideration.

(B) *Local Resident Employment.* To the extent that any housing assistance (including rental assistance) funded through this program section of the SuperNOFA is used for housing rehabilitation (including reduction and abatement of lead-based paint hazards, but excluding routine maintenance, repair, and replacement) or housing construction, then it is subject to section 3 of the Housing and Urban Rehabilitation Act of 1968, and the implementing regulations at 24 CFR part 135. Section 3, as amended, requires that economic opportunities generated by certain HUD financial assistance for housing and community development programs shall, to the greatest extent feasible, be given to low- and very low-income persons, particularly those who are recipients of government assistance for housing, and to businesses that provide economic opportunities for these persons.

(C) *Relocation.* The SHP, S+C, and SRO programs are subject to the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA). These requirements are explained in HUD Handbook 1378, Tenant Assistance, Relocation and Real Property Acquisition. Any person or family that moves, even temporarily, as a direct result of acquisition, rehabilitation or demolition for a project that is assisted through one of these programs (whether or not HUD funded the acquisition, rehabilitation or demolition) is entitled to relocation assistance. Displacement that results from leasing a unit in a structure may also trigger relocation requirements. Relocation assistance can be expensive. To avoid unnecessary costs, it is important to provide occupants with timely information notices, including a general information notice to be sent at

VOL
67
ISS
58
MR
26
2002
UMI

the time the application is submitted to HUD. HUD Handbook 1378 contains guideform information notices. The HUD field office can provide a copy of the handbook and copies of appropriate information booklets to be provided to occupants. Accordingly, if the site is occupied, the applicant should contact the HUD field office in the planning stage to obtain advice, including help in estimating the cost of required relocation assistance.

IX. Authority

The Supportive Housing Program is authorized by title IV, subtitle C, of the Stewart B. McKinney-Vento Homeless Assistance Act (McKinney-Vento Act), 42 U.S.C. 11381. Funds made available under this program section of the SuperNOFA for the Supportive Housing Program are subject to the program regulations at 24 CFR part 583.

The Shelter Plus Care program is authorized by title IV, subtitle F, of the McKinney-Vento Act, 42 U.S.C. 11403. Funds made available under this program section of the SuperNOFA for the Shelter Plus Care program are subject to the program regulations at 24 CFR part 582.

The Section 8 Moderate Rehabilitation Program for Single Room Occupancy Dwellings for Homeless Individuals (SRO) is authorized by section 441 of the McKinney-Vento Act, 42 U.S.C. 11401. Funds made available under this NOFA for the SRO program are subject to the program regulations at 24 CFR part 882, subpart H.

FUNDING AVAILABILITY FOR SECTION 202 SUPPORTIVE HOUSING FOR THE ELDERLY PROGRAM (SECTION 202 PROGRAM)

PROGRAM OVERVIEW

Purpose of the Program. This program provides supportive housing for very low-income persons 62 years of age or older.

Available Funds. Approximately $485.6 million.

Eligible Applicants. Private nonprofit organizations and nonprofit consumer cooperatives (see Section III(B) of this NOFA). (See Section VIII of this NOFA for information regarding the formation of the Owner corporation.)

Eligible Activities. New construction, rehabilitation, or acquisition of housing with or without rehabilitation (see Section III(C) of this NOFA).

Application Deadline. June 5, 2002.

Match Requirements. No.

ADDITIONAL INFORMATION

If you are interested in applying for funding under this program, please review carefully the General Section of this SuperNOFA and the following additional information.

I. Application Due Date, Application Kits, Further Information, and Technical Assistance

Application Due Date. Submit your completed applications on or before 6 p.m., local time, on June 5, 2002 at the address shown below.

See the General Section of this SuperNOFA for specific procedures governing the submission of applications to HUD Field Offices. Only Section 202 applications mailed by United States Postal Service (USPS) will be accepted.

Address for Submitting Applications. Submit your completed application (an original and four copies are required) to the Director of the appropriate Multifamily Hub Office or Multifamily Program Center as listed in Appendix A to the Section 811 program section of this SuperNOFA with the following exceptions:

1. Applications for projects proposed to be located within the jurisdiction of the Seattle, Washington and the Anchorage, Alaska Offices must be submitted to the Portland, Oregon Office.

2. Applications for projects proposed to be located within the jurisdiction of the Sacramento, California Office must be submitted to the San Francisco, California Office.

3. Applications for projects proposed to be located within the jurisdiction of the Cincinnati, Ohio Office must be submitted to the Columbus, Ohio Office.

4. Applications for projects proposed to be located within the jurisdiction of the Washington, DC Office must be submitted to the Baltimore, Maryland Office.

The application kit also includes a listing of the Multifamily Hubs and Program Centers, their addresses and telephone numbers, including TTY numbers. This information is also available from HUD's SuperNOFA Information Center at 1–800–HUD–8929 and from the Internet through the HUD web site at *http://www.hud.gov/grants.* Persons with hearing or speech impairments may call the Center's TTY number at 1–800–HUD–2209.

For Application Kits. For an application kit and any supplemental materials, please call HUD's SuperNOFA Information Center at 1–800–HUD–8929. Persons with hearing or speech impairments may call the Center's TTY number at 1–800–HUD–2209. When requesting an application kit, please refer to the Section 202 Program and provide your name, address (including zip code), and telephone number (including area code). The application kit also will be available on the Internet through the HUD web site at *http://www.hud.gov/grants* and from the appropriate Multifamily Hub or Multifamily Program Center.

For Further Information and Technical Assistance. You may contact the appropriate Multifamily Hub Office or Multifamily Program Center, Evelyn Berry at HUD Headquarters at (202) 708–2866, or access the Internet at *http://www.hud.gov/grants.* Persons with hearing and speech challenges may access the above number via TTY (text telephone) by calling the Federal Relay Service at 1–800–877–8339 (this is a toll-free number).

HUD encourages minority organizations and grassroots organizations (e.g., civic organizations, congregations and faith-based and other community-based organizations) to participate in this program and strongly recommends that prospective applicants attend the local HUD Office workshop. At the workshops, HUD will explain application procedures and requirements as well as address concerns such as local market conditions, building codes and accessibility requirements, historic preservation, floodplain management, displacement and relocation, zoning, and housing costs. If you are interested in attending the workshop, make sure that your name, address and telephone number are on the appropriate HUD Office's mailing list so that you will be informed of the date, time and place of the workshop. Persons with disabilities should call the appropriate HUD Office to ensure that any necessary arrangements can be made to enable your attendance and participation in the workshop.

If you cannot attend the workshop, call the appropriate HUD Office if you have any questions concerning the submission of applications to that particular office and to request any materials distributed at the workshop.

Satellite Broadcast. HUD will hold an information broadcast via satellite for potential applicants to learn more about the program and preparation of the application. For more information about the date and time of the broadcast, you should consult the HUD web site at *http://www.hud.gov/grants.*

II. Amount Allocated

For FY 2002, $ 485,585,696 is available for capital advances for the supportive housing for the elderly program. The FY 2002 HUD Appropriations Act, Pub. L. 107–73, approved November 26, 2001, (HUD Appropriations Act) provides $683,286,000 for capital advances, including amendments to capital advance contracts, for supportive housing for the elderly as authorized by section 202 of the Housing Act of 1959 (12 U.S.C. 1701q), as amended by section 801 of the Cranston-Gonzalez National Affordable Housing Act (Pub. L. 101–625, approved November 28, 1990), and for project rental assistance, and amendments to contracts for project rental assistance, for supportive housing for the elderly under section 202(c)(2) of the Housing Act of 1959. Of this amount, $600,000 shall be transferred to the Working Capital Fund for the development and maintenance of information technology systems.

In accordance with the waiver authority provided in the HUD Appropriations Act, the Secretary is waiving the following statutory and regulatory provision: The term of the project rental assistance contract is reduced from 20 years to 5 years. HUD anticipates that at the end of the contract terms, renewals will be approved subject to the availability of funds. In addition to this provision, HUD will reserve project rental assistance contract funds based on 75 percent rather than on 100 percent of the current operating cost standards for approved units in order to take into account the average tenant contribution toward rent.

The allocation formula used for Section 202 reflects the "relevant characteristics of prospective program participants," as specified in 24 CFR

VOL 67 ISS 58 MR 26 2002 UMI

791.402(a). The FY 2002 formula consists of one data element: A measure of the number of one and two person elderly renter households with incomes at or below HUD's Very-low Income Limit (50 percent of area median family income, as determined by HUD, with an adjustment for household size), which have housing deficiencies. The counts of elderly renter households with housing deficiencies were taken from a special tabulation of the 1990 Decennial Census. The formula focuses the allocation on targeting the funds based on the unmet needs of elderly renter households with housing problems.

Under Section 202, 85 percent of the total capital advance amount is allocated to metropolitan areas and 15 percent to nonmetropolitan areas. In addition, each HUD Office jurisdiction receives sufficient capital advance funds for a minimum of 20 units in metropolitan areas and 5 units in nonmetropolitan areas. The total amount of capital advance funds to support these minimum set-asides are subtracted from the respective (metropolitan or nonmetropolitan) total capital advance amounts available. The remainder is fair shared to each HUD Office jurisdiction whose fair share exceeds the minimum set-aside based on the allocation formula fair share factors described below.

Note: The allocations for metropolitan and nonmetropolitan portions of the Multifamily Hub or Program Center jurisdictions reflect the most current definitions of metropolitan and nonmetropolitan areas, as defined by the Office of Management and Budget.

A fair share factor is developed for each metropolitan and nonmetropolitan portion of each local HUD Office jurisdiction by dividing the number of elderly renter households in the respective metropolitan and nonmetropolitan portion of the jurisdiction by the total number of elderly rental households in the metropolitan and nonmetropolitan portions of the United States. The resulting percentage for each local HUD Office jurisdiction is then adjusted to reflect the relative cost of providing housing among the HUD Office jurisdictions. The adjusted needs percentage for the applicable metropolitan or nonmetropolitan portion of each jurisdiction is then multiplied by the respective total remaining capital advance funds available nationwide. Based on the allocation formula, HUD has allocated the available capital advance funds as shown on the following chart:

III. Program Description; Eligible Applicants; Eligible Activities

(A) *Program Description.* HUD provides capital advances and contracts for project rental assistance in accordance with 24 CFR part 891. Capital advances may be used for the construction or rehabilitation of a structure, or acquisition of a structure with or without rehabilitation (including structures from the Federal Deposit Insurance Corporation (FDIC). Capital advance funds bear no interest and are based on development cost limits published in this SuperNOFA. Repayment of the capital advance is not required as long as the housing remains available for occupancy by very low-income elderly persons for at least 40 years.

Project rental assistance contract (PRAC) funds are used to cover the difference between what the residents pay for rent and the HUD-approved expense to operate the project. PRAC funds may also be used to provide supportive services and to hire a service coordinator in those projects serving the frail elderly residents. The supportive services must be appropriate to the category or categories of frail elderly residents to be served.

(B) *Eligible Applicants.* Private nonprofit organizations and nonprofit consumer cooperatives are the only eligible applicants under this Section 202 Program. Neither a public body nor an instrumentality of a public body is eligible to participate in the program.

A Sponsor or Co-sponsor may not apply for more than 200 units of housing for the elderly in a single Hub or more than 10 percent of the total units allocated to all HUD Offices. Also, no single application may propose more than the number of units allocated to a HUD office or 125 units, whichever is less. Reservations for projects will not be approved for fewer than 5 units. If the proposed project will be a scattered-site development, the 5-unit minimum requirement will apply to each site. Affiliated entities that submit separate applications are considered to be a single entity for the purpose of these limits.

(C) *Eligible Activities.* Section 202 capital advance funds must be used to finance the development of housing through new construction, rehabilitation, or acquisition of housing with or without rehabilitation. Capital advance funds may also be used in combination with other non-Section 202 funding sources to develop additional units for a mixed-finance or mixed-used project. Project rental assistance funds are provided to cover the difference between the HUD-approved operating costs and the amount the residents pay (each resident pays 30 percent of adjusted income) as well as to provide supportive services to frail elderly residents. In projects principally serving the frail elderly, eligible costs include the salary of a service coordinator.

Note: For purposes of approving Section 202 capital advances, HUD will consider proposals involving mixed-financing or a mixed-use purpose for additional units. However, you must obtain funds to assist the additional units with other than PRAC funds. HUD will not provide PRAC funds for non-Section 202 units.

(D) *Ineligible Activities.* Section 202 funds may not be used for nursing homes, infirmaries, medical facilities, mobile home projects, community centers, headquarters for organizations for the elderly, nonhousekeeping accommodations, or refinancing of sponsor-owned facilities without rehabilitation.

Note: You may propose to rehabilitate an existing currently-owned or leased structure that may or may not already serve elderly persons.

IV. Program Requirements

In addition to the program requirements listed in the General Section of this SuperNOFA, as an applicant, you must comply with the following requirements. By signing the Section 202 Application for a Fund Reservation, you are certifying that you, the applicant, will comply with all program requirements, including the following requirements:

(A) *Statutory and Regulatory Requirements.* You must comply with all Section 202 Program statutory and regulatory requirements, as listed in Sections III, IV and IX of this program section of the SuperNOFA.

(B) *HUD/RHS Agreement.* HUD and the Rural Housing Service (RHS) have an agreement to coordinate the administration of the agencies' respective rental assistance programs. As a result, HUD is required to notify RHS of applications for housing assistance it receives. This notification gives RHS the opportunity to comment if it has concerns about the demand for additional assisted housing and possible harm to existing projects in the same housing market area. HUD will consider RHS' comments in its review and application selection process.

(C) Development Cost Limits. (1) The following development cost limits, adjusted by locality as described in Section IV(C)(2) of this program section of the SuperNOFA, below, will be used to determine the capital advance amount to be reserved for projects for the elderly:

(a) The total development cost of the property or project attributable to dwelling use (less the incremental development cost and the capitalized operating costs associated with any excess amenities and design features you must pay for) may not exceed:

Nonelevator structures:
- $41,238 per family unit without a bedroom;
- $47,548 per family unit with one bedroom;
- $57,344 per family unit with two bedrooms;

For elevator structures:
- $43,398 per family unit without a bedroom;
- $49,748 per family unit with one bedroom;
- $60,493 per family unit with two bedrooms.

(b) These cost limits reflect those costs reasonable and necessary to develop a project of modest design that complies with HUD minimum property standards; the accessibility requirements of § 891.120(b); and the project design and cost standards of § 891.120 and § 891.210.

(2) Increased development cost limits.

(a) HUD may increase the development cost limits set forth in Section IV(C)(1) of this program section of the SuperNOFA, above, by up to 140 percent in any geographic area where the cost levels require, and may increase the development cost limits by up to 160 percent on a project-by-project basis. This increase may include covering additional costs to make dwelling units accessible through rehabilitation.

(b) If HUD finds that high construction costs in Alaska, Guam, the Virgin Islands, or Hawaii make it infeasible to construct dwellings, without the sacrifice of sound standards of construction, design, and livability, within the development cost limits provided in Section IV(C)(1) of this program section of the SuperNOFA, above, the amount of the capital advances may be increased to compensate for such costs. The increase may not exceed the limits established under this section (including any high cost area adjustment) by more than 50 percent.

(D) *Minimum Capital Investment.* Selected nonprofit organizations must provide a minimum capital investment of one-half of one percent of the HUD-approved capital advance amount, not to exceed $10,000 in accordance with § 891.145, with the following exception. If you, as Sponsor or Co-Sponsor, have

VOL
67
ISS
58
MR
26
2002
UMI

one or more Section 202 or one or more Section 811 project(s) under reservation, construction, or management in two or more different HUD geographical regions (Hubs), the minimum capital investment shall be one half of one percent of the HUD-approved capital advance amount, not to exceed $25,000.

(E) *Accessibility.* If you intend to construct, substantially rehabilitate, or acquire, with or without rehabilitation, structures to be used as housing for the elderly, you should note 24 CFR 891.120, which requires that your project meets accessibility requirements. In addition, you should note that 24 CFR 8.4(b)(5) prohibits the selection of a site or location which has the purpose or effect of excluding persons with disabilities from the Federally-assisted program or activity. Thus, if you choose an existing structure, make sure that it can be made accessible in accordance with 24 CFR 891.120 and section 504 of the Rehabilitation Act of 1973, without resulting in an infeasible project. HUD also encourages you to add accessible design features beyond those required under civil rights laws and regulations. See Section VI(C) of the General Section of this SuperNOFA, entitled "Encouraging Accessible Design Features."

(F) *Conducting Business in Accordance with HUD Core Values and Ethical Standards.* Section 202 Sponsors are not subject to the requirements of 24 CFR parts 84 and 85 as outlined in the General Section of this SuperNOFA. However, Sponsors are still subject to the core values and ethical standards as they relate to the conflict of interest provisions in 24 CFR 891.130. To ensure compliance with the program's conflict of interest provisions, Section 202 applicants are required to sign a Conflict of Interest Resolution and include it in the Section 202 application package. Further, if awarded a Section 202 fund reservation, the officers, directors, board members, trustees, stockholders and authorized agents of the Section 202 Sponsor and Owner entities will be required to submit to HUD individual certifications regarding compliance with HUD's conflict of interest requirements.

(G) *Ensuring the Participation of Small Businesses , Small Disadvantaged Businesses, and Women-Owned Businesses.* Although the Section 202 program is not subject to the provision of 24 CFR 85.36(e) as described in the corresponding paragraph in the General Section of the SuperNOFA, you are required to comply with Executive Order 12432, Minority Business Enterprise Development and Executive Order 11625, Prescribing Additional Arrangements for Developing and Coordinating a National Program for Minority Business Enterprise as they relate to the encouragement of HUD grantees to utilize minority business enterprises.

(H) *Fair Housing Requirements.* You must comply with the requirements of the Fair Housing Act, Title VI of the Civil Rights Act, the Age Discrimination Act of 1975, the affirmative fair housing marketing requirements of 24 CFR part 200, subpart M and the implementing regulations at 24 CFR part 108, and other applicable Federal, State and local laws prohibiting discrimination and promoting equal opportunity. In addition, you are required to affirmatively further fair housing in conducting your program or activities in accord with Section II(D) of the General Section of the SuperNOFA entitled "Affirmatively Furthering Fair Housing."

(I) *Economic Opportunities for Low and Very Low-Income Persons (Section 3).* You must comply with Section 3 of the Housing and Urban Development Act of 1968, 12 U.S.C. 1701u (Economic Opportunities for Low and Very Low-Income Persons), and its implementing regulations at 24 CFR part 135. You must ensure that training, employment and other economic opportunities shall, to the greatest extent feasible, be directed toward low and very low-income persons, particularly those who are recipients of government assistance for housing and to business concerns which provide economic opportunities to low and very low-income persons. To comply with Section 3 requirements, you are hereby certifying that you will strongly encourage your general contractor and subcontractors to participate in local apprenticeship programs or training programs registered with or certified by the Department of Labor's Office of Apprenticeship, Training, Employer and Labor Services or recognized State Apprenticeship Agency.

(J) *Design and Cost Standards.* You must comply with HUD's Section 202 design and cost standards (24 CFR 891.120 and 891.210, the Uniform Federal Accessibility Standards (24 CFR 40.7), Section 504 of the Rehabilitation Act of 1973 and HUD's implementing regulations at 24 CFR part 8, and for covered multifamily dwellings designed and constructed for first occupancy after March 13, 1991, the design and construction requirements of the Fair Housing Act and HUD's implementing regulations at 24 CFR part 100, and the Americans with Disabilities Act of 1990.

(K) *Acquisition and Relocation.* You must comply with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (49 CFR part 24, and 24 CFR 891.155(e)) (URA) which covers the acquisition of sites, with or without, existing structures. However, you are exempt from complying with the site acquisition requirements of the URA if you do not have the power of eminent domain and prior to entering into a contract of sale, option to purchase or any other method of obtaining site control, you inform the seller of the land (1) that you do not have the power of eminent domain and, therefore, you will not acquire the property if negotiations fail to result in an amicable agreement, and (2) of the estimate of the fair market value of the property. An appraisal is not required to meet this requirement, however, your files must include an explanation (with reasonable evidence) of the basis for the estimate.

(L) *Formation of Owner Corporation.* You must form an Owner (in accordance with 24 CFR 891.205) after issuance of the capital advance, must cause the Owner to file a request for determination of eligibility and a request for capital advance, and must provide sufficient resources to the Owner to ensure the development and long-term operation of the project, including capitalizing the Owner at firm commitment processing in an amount sufficient to meet its obligations in connection with the project.

(M) *Supportive Services.* You must not require residents to accept any supportive services as a condition of occupancy.

(N) *Davis-Bacon.* You must comply with the Davis-Bacon requirements and the Contract Work Hours and Safety Standards Act.

(O) *Flood Disaster Protection Act of 1973.* You must comply with the requirements under the Flood Disaster Protection Act of 1973 (42 U.S.C. 4001–4128) and the Coastal Barrier Resources Act (16 U.S.C. 3601).

(P) *National Environmental Policy Act.* You must comply with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321) and applicable related environmental authorities at 24 CFR 50.4, HUD's implementing regulations at 24 CFR part 50 and 24 CFR 891.155(b).

(Q) *Truth and Accuracy.* By signing your application, you are certifying that the information you are providing to HUD in your application under the Section 202 Program of Supportive Housing for the Elderly is true and accurate, to the best of your knowledge.

(R) *Expiration of Section 202 Funds.* The FY 2002 HUD Appropriations Act requires HUD to obligate all 202 funds appropriated for FY 2002 by September 30, 2004. Under 31 U.S.C. Section 1551, no funds can be disbursed from the account after September 30, 2009. Under Section 202, obligation of funds occurs for both capital advances and project rental assistance upon fund reservation and acceptance. If all funds are not disbursed by HUD and expended by the project Owner by September 30, 2009, the funds even though obligated will expire and no further disbursements can be made from this account. In submitting an application you need to carefully consider whether your proposed project can be completed through final capital advance closing no later than September 30, 2009. Furthermore, absent Congressional relief, all unexpended balances, including any remaining balance on PRAC contracts, will be cancelled as of October 1, 2009. Amounts needed to maintain PRAC payments for any remaining term on the affected contracts beyond that date will have to be funded from other current appropriations.

V. Application Selection Process

(A) Review for Curable Deficiencies. You should ensure that your application is complete before submitting it to the appropriate HUD Office. HUD will screen all applications received by the deadline for curable deficiencies. A curable deficiency is a missing Exhibit or portion of an Exhibit that will not affect the rating of the application. The following is a list of the deficiencies that will be considered curable in a Section 202 application:

Exhibits

(1) Form 92015–CA (Application Form)*
(2) (a) Articles of Incorporation*
(b) By-laws*
(c) IRS tax exemption ruling*
(4) (c)(ii) Energy efficiency
(d)(i) Evidence of site control
(d)(ii) Evidence site is free of limitations, restrictions or reverters
(d)(vi) Phase I Environmental Site Assessment
(d)(vii) Letter from State Historic Preservation Officer (SHPO)
(6) Relocation
(7) (a) Standard Form 424, Application for Federal Assistance and Compliance with Executive Order 12372*
(b) HUD–50070, Certification of a Drug-free Workplace
(c) Form-HUD 50071, Certification of Payments to Influence Federal Transactions and Standard Form-LLL, Disclosure of Lobbying Activities
(d) Form-HUD 2880, Applicant/Recipient Disclosure/Update Report
(e) Form-HUD 2992, Certification Regarding Debarment and Suspension
(f) Form-HUD 2991, Certification of Consistency with Consolidated Plan
(g) Conflict of Interest Resolution
(h) Resolution for Commitment to Project*

The HUD Office will notify you in writing if your application is missing any of the above exhibits or portions of exhibits and you will be given 14 days from the date of the HUD notification to submit the information required to cure the noted deficiencies. The items identified by an asterisk (*) must be dated on or before the application deadline date.

(B) *Rating.* HUD will review and rate your application in accordance with the Application Selection Process in the General Section of this SuperNOFA with the following exception. HUD will not reject your application based on technical review without notifying you of that rejection with all the reasons for rejection, and providing you an opportunity to appeal. You will have 14 calendar days from the date of HUD's written notice to appeal a technical rejection to the HUD office.

The HUD office will make a determination on an appeal before making its selection recommendations. All applications will be either rated or technically rejected at the end of technical review. If your application meets all program eligibility requirements after completion of technical review, it will be rated according to the rating factors in Section V(D) of this Section 202 Program section of the SuperNOFA.

If an Exhibit or portion of an Exhibit listed above as curable is not discovered as a missing item until technical processing, HUD will provide you with 14 calendar days in which to cure the deficiency.

(C) *Ranking and Selection Procedures.* Applications submitted in response to the advertised metropolitan allocations or nonmetropolitan allocations that have a total base score (without the addition of EC/EZ bonus points) of 70 points or more and meet all of the applicable threshold requirements of Section II(B) of the General Section of the SuperNOFA will be eligible for selection, and HUD will place them in rank order per metropolitan or nonmetropolitan allocation. These applications, after adding any bonus points for EC/EZ, will be selected based on rank order, up to and including the last application that can be funded out of each HUD office's metropolitan or nonmetropolitan allocation. HUD offices must not skip over any applications in order to select one based on the funds remaining. After making the initial selections in each allocation area, however, HUD may use any residual funds to select the next rank-ordered application by reducing the number of units by no more than 10 percent, rounded to the nearest whole number, provided the reduction will not render the project infeasible. For this purpose, however, HUD will not reduce the number of units in projects of five units or less.

Once this process has been completed, HUD offices may combine their unused metropolitan and nonmetropolitan funds in order to select the next ranked application in either category, using the unit reduction policy described above, if necessary.

After the offices have funded all possible projects based on the process above, combined metropolitan and nonmetropolitan residual funds from all HUD Offices in each Multifamily Hub will be combined. These funds will be used first to restore units to projects reduced by HUD offices based on the above instructions. Second, additional applications within each Multifamily Hub will be selected in rank order with only one application selected per HUD Office. More than one application may be selected per HUD Office if there are no approvable applications in other HUD Offices within the Multifamily Hub. This process will continue until there are no more approvable applications within the Multifamily Hub that can be selected with the remaining funds. Applications may not be skipped over to select one based on funds remaining. However, HUD may use any remaining residual funds to select the next rank-ordered application by reducing the number of units by no more than 10 percent rounded to the nearest whole number, provided the reduction will not render the project infeasible or result in the project being less than five units.

Funds remaining after these processes are completed will be returned to Headquarters. HUD Headquarters will use these residual funds first to restore units to projects reduced by HUD offices as a result of the instructions for using their residual funds. Second, HUD Headquarters will use these funds for selecting applications based on field offices' rankings beginning with the highest rated application nationwide. However, after restoring units to projects where necessary, priority will be given to those applications for projects in non-metropolitan areas, if necessary to meet the statutory requirement pertaining to Section 202 funding in non-metropolitan areas. Only one application will be selected per HUD office from the national residual amount. If there are no approvable applications in other HUD offices, the process will begin with the selection of the next highest rated application nationwide. This process will continue until all approvable applications are

VOL

2002
UMI

selected using the available remaining funds.

(D) *Factors For Award Used To Evaluate and Rate Applications.* HUD will rate applications that successfully complete technical processing using the Rating Factors set forth below and in accordance with the application submission requirements identified in Section VI(B) below. The maximum number of points an application may receive under this program is 102. This includes two EZ/EC bonus points, as described in the General Section of the SuperNOFA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Staff (25 Points)

This factor addresses the extent to which you have the organizational resources to successfully implement the proposed activities in a timely manner. Submit information responding to this factor in accordance with Application Submission Requirements in paragraphs (B)(2), (B)(3)(a), (B)(3)(b), (B)(3)(e) and (B)(5) of Section VI of this program section of the SuperNOFA.

In rating this factor, HUD will consider the extent to which your application demonstrates your ability to develop and operate the proposed housing on a long-term basis, considering the following:

(a)(i) (14 points) The scope, extent, and quality of your experience in providing housing or related services to those proposed to be served by the project and the scope of the proposed project (i.e., number of units, services, relocation costs, development, and operation) in relationship to your demonstrated development and management capacity as well as your financial management capability;

(a)(ii) (1 point) Your organization is a grassroots organization as defined in the General Section of this SuperNOFA.

(b) (10 points) The scope, extent, and quality of your experience in providing housing or related services to minority persons or families as well as your ties to the community at large and to the minority and elderly communities in particular. For purposes of this program section of the SuperNOFA, "minority" means the basic racial and ethnic categories for Federal statistics and administrative reporting, as defined in the Appendix section of the Office of Management and Budget's (OMB) **Federal Register** Notice entitled "Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity" and dated October 30, 1997 (62 FR 58782–90). It can be found on the OMB Website at *www.whitehouse.gov/omb/fedreg/ombdir15.html.*

(c) (−2 points) A fund reservation you received under either the Section 202 Program of Supportive Housing for the Elderly or the Section 811 Program of Supportive Housing for Persons with Disabilities has been extended beyond 36 months (except if the delay was beyond your control). Examples of such delays include, but are not limited to, initial closing delays that are: (1) directly attributable to HUD, (2) directly attributable to third party opposition, including litigation, and (3) due to a disaster, as declared by the President of the United States.

(d) (−1 point) Amendment money was required as a result of the delay (except if the delay was beyond your control).

Rating Factor 2: Need/Extent of the Problem (15 Points)

This factor addresses the extent to which there is a need for funding the proposed activities to address a documented problem in the target area. Submit information responding to this factor in accordance with Application Submission Requirements in paragraphs (B)(4)(a) and (B)(4)(b) of Section VI of this program section of the SuperNOFA. In evaluating this factor, HUD will consider:

The extent of the need for the project in the area based on a determination by the HUD Office. In making this determination, HUD will consider your evidence of need in the area, as well as other economic, demographic, and housing market data available to the HUD office. The data could include information on the number of existing Federally assisted housing units (HUD and RHS) for the elderly in the area and current occupancy in such facilities; Federally assisted housing for the elderly under construction or for which fund reservations have been issued; and in accordance with an agreement between HUD and the RHS, comments from the RHS on the demand for additional assisted housing and the possible harm to existing projects in the same housing market area. The Department will also review more favorably those applications which establish a connection between the proposed project and the community's Analysis of Impediments to Fair Housing Choice (AI) or other planning document that analyzes fair housing issues and is prepared by a local planning or similar organization. You must show how your proposed project will address an impediment to fair housing choice described in the AI or meet a need identified in the other type of planning document.

Rating Factor 3: Soundness of Approach (40 Points)

This factor addresses the quality and effectiveness of your proposal. There must be a clear relationship between your proposed activities, the community's needs and purposes of the program funding for your application to receive points for this factor. Submit information responding to this factor in accordance with Application Submission Requirements in paragraphs (B)(4)(c), (B)(4)(d) and (B)(4)(e) of Section VI of this program section of the SuperNOFA. In evaluating this factor, HUD will consider the following:

(a)(i) (15 points) The proximity or accessibility of the site to shopping, medical facilities, transportation, places of worship, recreational facilities, places of employment, and other necessary services to the intended occupants; adequacy of utilities and streets; freedom of the site from adverse environmental conditions; compliance with site and neighborhood standards (24 CFR 891.125(a), (d) and (e));

(a)(ii) (-1 point) HUD will deduct one (1) point from this Factor if the site(s) is not already permissively zoned for the intended use.

(b) (10 points) The suitability of the site from the standpoints of promoting a greater choice of housing opportunities for minority elderly persons/families, and affirmatively furthering fair housing. In reviewing this criterion, HUD will assess whether the site meets the site and neighborhood standards at 24 CFR 891.125(b) and (c) by examining relevant data in your application or in the HUD Office. Where appropriate, HUD may visit the site.

(i) The site will be deemed acceptable if it increases housing choice and opportunity by:—Expanding housing opportunities in non-minority neighborhoods (if located in such a neighborhood). The term "nonminority area" is defined as one in which the minority population is lower than 10 percent; or

— Contributing to the revitalization of and reinvestment in minority neighborhoods, including improvement of the level, quality and affordability of services furnished to minority elderly. You should refer to the Site and Neighborhood Standards provisions of the regulations governing the Section 202 Supportive Housing for the Elderly program (24 CFR 891.125(b) and (c)) when considering sites for your project.

(ii) For the purpose of this competition, the term "minority neighborhood (area of minority concentration)" is defined as one where any one of the following statistical conditions exists:

— The percentage of persons of a particular racial or ethnic minority is at least 20 points higher than the minority's or combination of minorities' percentage in the housing market as a whole; or,

— The neighborhood's total percentage of minority persons is at least 20 points higher than the total percentage of minorities for the housing market as a whole; or,

— In the case of a metropolitan area, the neighborhood's total percentage of minority persons exceeds 50 percent of its population.

(c) (3 points) The extent to which your proposed design will meet the special physical needs of elderly persons;

(d) (3 points) The extent to which the proposed size and unit mix of the housing will enable you to manage and operate the housing efficiently and ensure that the provision of supportive services will be accomplished in an economical fashion;

(e) (3 points) The extent to which the proposed design of the housing will accommodate the provision of supportive services that are expected to be needed, initially and over the useful life of the housing, by the category or categories of elderly persons the housing is intended to serve;

(f) (3 points) The extent to which the proposed supportive services meet the identified needs of the anticipated residents; and

(g) (3 points) The extent to which you demonstrate that the identified supportive services will be provided on a consistent, long-term basis.

(h) (−1 point) HUD will deduct one (1) point from the rating of this Factor if you do not include a plan for completing your project within the initial fund reservation period of 18 months.

Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses your ability to secure other community resources which can be combined with HUD's program resources to achieve program purposes. Submit information responding to this factor in accordance with Application Submission Requirements in paragraphs (B)(3)(c) and (B)(3)(d) of Section VI of this program section of the SuperNOFA.

(a) (5 points) The extent of local government support (including financial assistance, donation of land, provision of services, etc.) for the project; and

(b) (5 points) The extent of your activities in the community, including previous experience in serving the area where the project is to be located, and your demonstrated ability to enlist volunteers and raise local funds.

Rating Factor 5: Coordination, Self Sufficiency and Sustainability (10 Points)

This factor addresses the extent to which you coordinated your activities with other known organizations that will not be directly involved in the proposed project, participate or promote participation in the community's planning process (e.g., the Consolidated Planning process, including the Analysis of Impediments to Fair Housing Choice), and are working toward addressing a need in a holistic and comprehensive manner to ensure that the project will not operate in isolation. This factor also addresses the extent to which your project will implement practical solutions that will result in assisting residents in achieving independent living, educational opportunities, and improved living environments. Finally, this factor addresses the extent to which the long-term viability of your project will be sustained for the duration of the 40-year capital advance period. Submit information responding to this factor in accordance with Application Submission Requirements in paragraphs (B)(3)(f), (B)(3)(g), (B)(3)(h),(B)(3)(i) and (B)(3)(j) of Section VI of this program section of the SuperNOFA.

(a) (2 points) Your involvement of elderly persons, particularly minority elderly persons, in the development of the application, and your intent to involve elderly persons, particularly minority elderly persons, in the development and operation of the project;

(b) (2 points) The extent to which you coordinated your application with other organizations that will not be directly participating in your project, but with which you share common goals and objectives and are working toward meeting these objectives in a holistic and comprehensive manner;

(c) (2 points) The extent to which you demonstrated that you have been actively involved, or if not currently active, the steps you will take to become actively involved in the community's planning process (e.g., the Consolidated Planning process, including the Analysis of Impediments to Fair Housing Choice) to identify and address a need/problem that is related in whole or part, directly or indirectly to the proposed project;

(d) (2 points) The extent to which your project will implement practical solutions that will result in assisting residents in achieving independent living, educational opportunities, and improved living environments; and

(e) (2 points) The extent to which you demonstrated that your project will remain viable as housing with the availability of supportive services for very low-income elderly persons for the 40-year capital advance period.

Bonus Points

(2 bonus points) Location of proposed site in an EZ/EC area, as described in the General Section of this SuperNOFA. Submit the information responding to the bonus points in accordance with the Application Submission Requirements in paragraph (B)(7)(i) of Section VI of this program section of the SuperNOFA.

(E) *Applicant Debriefing.* Beginning not less than 30 days after the awards for assistance are announced pursuant to this program NOFA, HUD will provide a debriefing to any applicant requesting a debriefing on their application. All requests for debriefings must be made in writing and submitted to the Director, of the Office of Multifamily Housing in the local HUD Office in which the application was filed. Materials provided to you during your debriefing will include the final scores you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

VI. Application Submission Requirements

(A) *Application.* Your application must include all of the information, materials, forms, and exhibits listed in Section VI(B) of this program section of the SuperNOFA (unless you were selected for a Section 202 fund reservation within the last three funding cycles). If you qualify for this exception, you are not required to submit the information described in Sections VI(B)(2)(a), (b), and (c) of this program section of the SuperNOFA (Exhibits 2.a., b., and c. of the application kit), which are the articles of incorporation, (or other organizational documents), by-laws, and the IRS tax exemption, respectively. If there has been a change in any of these documents since your previous HUD approval, you must submit the updated information in your application. HUD offices will verify your indication of previous HUD approval by checking the project number and approval status with the appropriate HUD Office based on the

VOL
67
ISS
58
MR
26
2002
UMI

information submitted in response to Section VI(B)(2) below.

In addition to this relief of paperwork burden in preparing applications, you will be able to submit information and exhibits you have previously prepared for prior applications under Section 202, Section 811, or other funding programs. Examples of exhibits that may be readily adapted or amended to decrease the burden of application preparation include, among others, those on previous participation in the Section 202 or Section 811 Programs, your experience in the provision of housing and services, supportive services plan, community ties, and experience serving minorities.

(B) *General Application Requirements.* Your application must contain the items listed in this Section VI(B). These items include the standard forms, certifications, and assurances listed in the General Section of the SuperNOFA that are applicable to this funding (collectively referred to as the "standard forms"). The standard forms can be found in Appendix B to the General Section of the SuperNOFA. The remaining application items that are forms (i.e., excluding such items as narratives), referred to as the "non-standard forms" can be found as Appendix B to this program section of the SuperNOFA. The items are as follows:

(1) Form HUD–92015–CA, Application for Section 202 Supportive Housing Capital Advance.

(2) Evidence of your and each Co-Sponsor's legal status as a private nonprofit organization or nonprofit consumer cooperative, including the following:

(2)(a) Articles of Incorporation, constitution, or other organizational documents;

(2)(b) By-laws;

(2)(c) IRS tax exemption ruling (this must be submitted by you and each Co-Sponsor, including churches). A consumer cooperative that is tax exempt under State law, has never been liable for payment of Federal income taxes, and does not pay patronage dividends may be exempt from the requirement set out in the previous sentence if it is not eligible for tax exemption.

Note: If you received a Section 202 Fund Reservation within the last three funding cycles, you are not required to submit the documents described in paragraphs (2)(a), (2)(b), and (2)(c), above. Instead, you must submit the project number of the latest application selected and the HUD office to which it was submitted. If there have been any modifications or additions to the subject documents, indicate such, and submit the new material.

(3) A description of your purpose, community ties, and experience, including the following:

(3)(a) A description of your purpose, current activities and how long you have been in existence;

(3)(b) A description of your ties to the community in which your project will be located and to the minority and elderly communities in particular, including a description of the specific geographic area(s) in which you have served;

(3)(c) A description of local government support for the project (including financial assistance, donation of land, provision of services, etc.);

(3)(d) Letters of support for your organization and for the proposed project from organizations familiar with the housing and supportive services needs of the elderly that you expect to serve in the proposed project;

(3)(e) A description of your housing and/or supportive services experience. The description should include any rental housing projects and/or supportive services facilities that you have sponsored, owned, and/or operated; your past or current involvement in any programs other than housing that demonstrates your management capabilities (including financial management) and experience; your experience in serving the elderly, including elderly persons with disabilities, and/or families and minorities; and the reasons for receiving any increases in fund reservations for developing and/or operating previously funded Section 202 or Section 811 projects. The description should include data on the facilities and services provided, the racial/ethnic composition of the populations served, if available, and information and testimonials from residents or community leaders on the quality of the activities. Examples of activities that could be described include housing counseling, nutrition and food services, special housing referral, screening and information projects.

(3)(f) A description of your efforts to involve elderly persons, including minority elderly persons, in the development of the application, as well as your intent to involve elderly persons in the development and operation of the project.

(3)(g) A description of the steps you took to coordinate your application with other organizations, that will not be directly involved in your project but with which you share common goals and objectives, to complement and/or support the proposed project so that the project will provide a comprehensive and holistic solution to the needs of the elderly. Also, describe the steps you will take, if funded, to share information on solutions and outcomes relative to the development of the proposed project.

(3)(h) A description of your involvement in the community's planning process (e.g., the Consolidated Planning process, including the Analysis of Impediments to Fair Housing Choice), including:

(3)(h)(i) An identification of the lead/facilitating agency that organizes/administers the process;

(3)(h)(ii) An identification of the areas of the community's planning process in which you participate;

(3)(h)(iii) Your level of participation in the process, including active involvement with any neighborhood-based organizations, associations, or any committees that support programs and activities that enhance projects or the lives of residents of the projects, such as the one proposed in your application.

If you are not currently active, describe the specific steps you will take to become active in the community's planning process. If adopting the Consolidated Plan community process, consult the local HUD Office for the identification of the appropriate area.

(3)(i) A description of the practical solutions you will implement which will enable the residents of your project to achieve independent living. In addition, describe the educational opportunities you will provide for the residents and how you will provide them. This description should include any activities that will enhance the quality of life for the residents. And, finally, describe how your proposed project will be an improved living environment for the residents when compared to their previous place of residence.

(3)(j) Describe how you will ensure that your proposed project will remain viable as housing with the availability of supportive services for very low-income elderly persons for the 40-year capital advance period. This description should address the measures you would take should any of the following occur: (i) funding for any of the needed supportive services becomes depleted, or (ii) if, for any state-funded services for your project, the state changes its policy regarding the provision of supportive services to projects such as the one you propose, or (iii) if the need for housing for the elderly wanes over time, causing vacancies in your project.

(4) Project information, including the following:

(4)(a) Evidence of need for supportive housing. Such evidence would include a description of the category or

categories of elderly persons the housing is intended to serve and evidence demonstrating sustained effective demand for supportive housing for that population in the market area to be served, taking into consideration the occupancy and vacancy conditions in existing Federally assisted housing for the elderly (HUD and RHS; e.g., public housing); State or local data on the limitations in activities of daily living among the elderly in the area; aging in place in existing assisted rentals; trends in demographic changes in elderly population and households; the numbers of income eligible elderly households by size, tenure, and housing condition; the types of supportive services arrangements currently available in the area; and the use of such services as evidenced by data from local social service agencies or agencies on aging. Also, a description of how information in the community's Analysis of Impediments to Fair Housing Choice was used in documenting the need for the project.

(4)(b) A description of how the proposed project will benefit the target population and the community in which it will be located.

(4)(c) A description of the project, including the following:

(4)(c)(i) A narrative description of the building design, including a description of the number of units with bedroom distributions, any special design features, amenities, and/or community space, and how this design will facilitate the delivery of services in an economical fashion and accommodate the changing needs of the residents over the next 10–20 years.

Note: If these community spaces, amenities, or features would not comply with the project design and cost standards of 24 CFR 891.120 and the special project standards of 24 CFR 891.210, you must state your ability and willingness to contribute both the incremental development cost and continuing operating cost associated with the community spaces, amenities, or features;

(4)(c)(ii) A description of whether and how the project will promote energy efficiency, and, if applicable, innovative construction or rehabilitation methods or technologies to be used that will promote efficient construction.

(4)(c)(iii) If applicable, a description of any plans and the actions you have taken to create a mixed-finance/mixed-use project by developing additional units (i.e., in addition to the Section 202 units) with the use of Section 202 capital advance funds in combination with other funding sources. Specify the number of Section 202 units and the number of additional units from non-Section 202 funding sources. Provide copies of any letters you have sent seeking outside funding for the non-Section 202 units and any responses thereto. You also must demonstrate your ability to proceed with the development of a Section 202 project that will not involve mixed-financing or a mixed-use purpose, as proposed in your application, in the event you are later unable to obtain the necessary outside funding or HUD disapproves your proposal for mixed-financing or a mixed-use.

Note: Approval of the Section 202 capital advance will not necessarily be approval of the mixed-finance/mixed-use proposal. If approved for a reservation of capital advance funds, you will be required to submit, after reservation of capital advance funds, a detailed proposal outlining how you will fund both development and operation of the additional units in accordance with HUD instructions that will be issued later. Based on the strength of your organization and HUD's prior experience with your projects, as well as your outline of your intentions, at the time of making the fund reservation, HUD will determine whether you will be permitted to submit a mixed-finance/mixed-use proposal at a later time. Only those Sponsors that indicate in their application for a fund reservation an intention to propose additional units will be eligible to submit, at a later time, a mixed-finance/mixed-use proposal for additional units. (A mixed-finance/mixed-use project, as used here, does not include the development of Section 202 units using secondary/supplemental financing or the development of a mixed-use project in which the Section 202 units are mortgaged separately from the other uses of the structure).

(4)(c)(iv) Describe your plan for completing the proposed project within the initial 18-month term of the fund reservation (optional).

(4)(d) Evidence that the Sponsor has site control and permissive zoning, including the following:

(4)(d)(i) Acceptable evidence of site control is limited to any one of the following:

(*A*) Deed or long-term leasehold which evidences that you have title to or a leasehold interest in the site. If a leasehold, the term of the lease must be at least 75 years;

(*B*) Contract of sale for the site which is free of any limitations affecting ability to deliver ownership to you after you receive and accept a notice of Section 202 capital advance. The only condition for closing on the sale can be your receipt and acceptance of the capital advance. The contract of sale cannot require closing on a date earlier than the Section 202 closing.

(*C*) Option to purchase or for a long-term leasehold which must remain in effect for six months from the date on which the applications are due, and must state a firm price binding on the seller. The only condition on which the option may be terminated is if you are not awarded a fund reservation. The option must be renewable at the end of the six months option period.

(*D*) Where the proposed site is subject to a mortgage under a HUD program (e.g., an earlier 202 or an FHA insured mortgage), you must submit evidence that consent to release of the site from that mortgage has been obtained or has been requested from HUD and from the mortgagee, if other than HUD.

(*E*) For sites to be acquired from a public body, evidence is needed that the public body possesses clear title to the site and has entered into a legally binding agreement to lease or convey the site to you after you receive and accept a notice of Section 202 capital advance. Where HUD determines that time constraints of the funding round will not permit all of the required official actions (e.g., approval of Community Planning Boards) that are necessary to convey publicly-owned sites, a letter in the application from the mayor or director of the appropriate local agency indicating that conveyance or leasing of the site is acceptable without imposition of additional covenants or restrictions and only contingent on the necessary approval action. Such a letter commitment will be considered sufficient evidence of site control.

Note: For this funding cycle, New York City-owned sites that are designated as community gardens and are involved in litigation will not meet site control requirements due to litigation involving those sites.

(4)(d)(ii) Whether you have title to the site, a contract of sale, an option to purchase, or are acquiring the site from a public body, you must provide evidence (a title policy or other acceptable evidence) that the site is free of any limitations, restrictions, or reverters which could adversely affect the use of the site for the proposed project for the 40-year capital advance period under HUD's regulations and requirements (e.g., reversion to seller if title is transferred). If the title evidence contains restrictions or covenants, copies of such covenants or restrictions must be submitted with the application. If the site is subject to any such limitations, restrictions, or reverters, the application will be rejected. Purchase money mortgages that will be satisfied from capital advance funds are not considered to be limitations or restrictions that would adversely affect the use of the site. If the contract of sale or the option agreement contains

provisions that allow a Sponsor not to purchase the property for reasons such as environmental problems, failure of the site to pass inspection, or the appraisal is less than the purchase price, then such provisions are not objectionable and a Sponsor is allowed to terminate the contract of sale or the option agreement.

Note: A proposed project site may not be acquired or optioned from a general contractor (or its affiliate) that will construct the section 202 project or from any other development team member.

(4)(d)(iii) Evidence that the project as proposed is permissible under applicable zoning ordinances or regulations, or a statement of the proposed action required to make the proposed project permissible and the basis for your belief that the proposed action will be completed successfully before the submission of the firm commitment application (e.g., a summary of the results of any requests for rezoning and/or the procedures for obtaining special or conditional use permits on land in similar zoning classifications and the time required for such rezoning, or preliminary indications of acceptability from zoning bodies, etc.).

(4)(d)(iv) A narrative topographical and demographic description of the suitability of the site and area, and how the site will promote greater housing opportunities for minority elderly persons, thereby affirmatively furthering fair housing.

Note: You can best demonstrate your commitment to affirmatively furthering fair housing by describing how your proposed activities will assist the jurisdiction in overcoming impediments to fair housing choice identified in the applicable jurisdiction's Analysis of Impediments to Fair Housing Choice (AI), which is a component of the jurisdiction's Consolidated Plan, or any other planning document that addresses fair housing issues. The applicable Consolidated Plan and AI may be the Community's, the County's, or the State's, to which input should have been provided by local community organizations, agencies in the community, and residents of the community. Alternatively, a document that addresses fair housing issues and remedies to barriers to fair housing in the community that was previously prepared by a local planning, or similar organization, may be used. Applicable impediments could include the need for improved housing quality and services for elderly minority families, lack of affirmative marketing and outreach to minority elderly persons, and the need for quality eldercare services within areas of minority concentration when compared with the type and quality of similar services and housing in nonminority areas.

(4)(d)(v) A map showing the location of the site, the racial composition of the neighborhood, and any areas of racial concentration. For this competition, applicants should use the racial and ethnic data categories stated in the Appendix section of the October 30, 1997, Office of Management and Budget **Federal Register** Notice (62 FR 58782–90), (*www.whitehouse.gov/omb/fedreg/ombdir15.html*) and data from the 1990 Census of Population when determining the racial and ethnic composition of the neighborhood surrounding the proposed site. Data from the 1990 Census of Population may be found at *www.factfinder.census.gov/servlet/BasicFactsServlet.*

(4)(d)(vi) A Phase I Environmental Site Assessment (ESA), in accordance with the American Society for Testing and Material (ASTM) Standards E 1527–97, as amended. The Phase I ESA must be completed and submitted with the application. In order for the Phase I ESA to be acceptable, it must have been completed, or updated, no earlier than six months prior to application deadline date. Therefore, it is important that you start the Phase I ESA process as soon after publication of this SuperNOFA as possible.

If the Phase I ESA indicates the possible presence of contamination and/or hazards, you must decide whether to continue with this site or choose another site. Should you choose another site, the same Phase I ESA process identified above must be followed for the new site. NOTE: You are not limited to acquiring properties from the FDIC. However, if the property is to be acquired from the FDIC, include a copy of the FDIC prepared Transaction Screen Checklist or Phase I ESA, and applicable documentation, per the FDIC/RTC Environmental Guidelines.

If you choose to continue with the original site on which the Phase I ESA indicated contamination or hazards, you must undertake a detailed Phase II Environmental Site Assessment (ESA) by an appropriate professional. If the Phase II ESA reveals site contamination, the extent of the contamination and a plan for clean-up of the site must be submitted to the local HUD office. The plan for clean-up must include a contract for remediation of the problem(s) and an approval letter from the applicable Federal, State, and/or local agency with jurisdiction over the site. In order for the application to be considered for review under this FY 2002 funding competition, you must submit this information to the local HUD office on or before July 5, 2002.

Note: This could be an expensive undertaking. You must pay for the cost of any clean-up and/or remediation.

(4)(d)(vii) A letter from the State Historic Preservation Officer (SHPO) indicating whether the proposed site has any historical significance. If you cannot obtain a letter from the SHPO due to the SHPO not responding to your request or the SHPO responding that it cannot or will not comply with the requirement, you must submit the following:

(*A*) A letter indicating that you attempted to get the required letter from the SHPO but that the SHPO either had not responded to your request or would not honor or recognize your request;

(*B*) A copy of your letter to the SHPO requesting the required letter; and,

(*C*) A copy of the SHPO's response, if available.

(4)(e) Provision of supportive services in the proposed facility:

(4)(e)(i) A detailed description of the supportive services proposed to be provided to the anticipated occupancy;

(4)(e)(ii) A description of public or private sources of assistance that reasonably could be expected to fund the proposed services;

(4)(e)(iii) The manner in which such services will be provided to such persons (i.e., on or off-site), including whether a service coordinator will facilitate the adequate provision of such services, and how the services will meet the identified needs of the residents.

Note: You may not require residents, as a condition of occupancy, to accept any supportive service.

(5) A list of the applications, if any, that you have submitted or are planning to submit to any other HUD office in response to this announcement of Section 202 Program funding availability or the announcement of Section 811 Program (Supportive Housing for Persons with Disabilities) funding availability, published elsewhere in this SuperNOFA. Indicate by HUD office, the proposed location by city and State, and the number of units requested for each application. Include a list of all FY 2001 and prior year projects to which you are a party. Identify each by project number and HUD Office and include the following information: (a) Whether the project has initially closed and, if so, when; (b) if the project was older than 36 months when it initially closed or is older than 36 months now and has not initially closed, provide the reasons for the delay in closing; (c) whether amendment money was or will be needed for any project in (b) above; and (d) those projects which have not been finally closed.

(6) A statement that:

(6)(a) Identifies all persons (families, individuals, businesses, and nonprofit organizations), by race/minority group, and status as owners or tenants, occupying the property on the date of submission of the application for a capital advance;

(6)(b) Indicates the estimated cost of relocation payments and other services;

(6)(c) Identifies the staff organization that will carry out the relocation activities; and

(6)(d) Identifies all persons who have moved from the site within the past 12 months.

Note: If any of the relocation costs will be funded from sources other than the section 202 capital advance, you must provide evidence of a firm commitment of these funds. When evaluating applications, HUD will consider the total cost of proposals (i.e., cost of site acquisition, relocation, construction, and other project costs).

(7) *Certifications and Resolutions.* In addition to the certifications and assurances listed in the General Section of this SuperNOFA with the exception of SF–424A, SF–424B, SF–424C, SF–424D, HUD–424M and the OMB Circulars which are not required, you are required to submit signed copies of the following:

(7)(a) *Standard Form 424.* Application for Federal Assistance, indication of whether you are delinquent on any Federal debt, and compliance with Executive Order 12372 (a certification that you have submitted a copy of your application , if required, to the State agency (Single Point of Contact) for state review in accordance with Executive Order 12372). (See instructions for submitting this form in the Consolidated Application Submission section of the General Section of the SuperNOFA.)

(7)(b) *Drug-Free Workplace (HUD–50070).* Certification to provide a drug-free workplace.

(7)(c) *Payments to Influence Federal Transactions (HUD–50071) and Standard Form LLL, Disclosure of Lobbying Activities.* Certification of whether any of the funds received will be used to influence any Federal transactions and disclosure of those activities, if applicable.

(7)(d) *Applicant/Recipient Disclosure/Update Report, including Social Security Numbers and Employee Identification Numbers, (HUD–2880).* A disclosure of assistance from other government sources received in connection with the project.

(7)(e) *Certification Regarding Debarment and Suspension (HUD–2992) (24 CFR 24.510).* A certification attesting to the eligibility of your principals.

(7)(f) *Certification of Consistency with the Consolidated Plan (Plan), Form HUD–2991, for the jurisdiction in which the proposed project will be located.* The certification must be made by the unit of general local government if it is required to have, or has, a complete Plan. Otherwise, the certification may be made by the State, or by the unit of general local government if the project will be located within the jurisdiction of the unit of general local government authorized to use an abbreviated strategy, and if it is willing to prepare such a Plan.

All certifications must be made by the public official responsible for submitting the Plan to HUD. The certifications must be submitted as part of the application by the application submission deadline date set forth in this program section of the SuperNOFA. The Plan regulations are published in 24 CFR part 91.

(7)(g) *A certified Board Resolution that no officer or director of the Sponsor or Owner has or will have any financial interest in any contract with the Owner* or in any firm or corporation that has or will have a contract with the Owner, including a current listing of all duly qualified and sitting officers and directors by title, and the beginning and ending dates of each person's term.

(7)(h) *A certified Board Resolution, acknowledging the responsibilities of sponsorship,* long-term support of the project(s), your willingness to assist the Owner to develop, own, manage, and provide appropriate services in connection with the proposed project, and that it reflects the will of your membership. Also, the resolution shall indicate your willingness to fund the estimated start-up expenses, the Minimum Capital Investment (one-half of one-percent of the HUD-approved capital advance, not to exceed $10,000, if nonaffiliated with a National Sponsor; one-half of one-percent of the HUD-approved capital advance, not to exceed $25,000, for all other Sponsors;), and the estimated cost of any amenities or features (and operating costs related thereto) that would not be covered by the approved capital advance.

(7)(i) *Certification of Consistency with the EZ/EC Strategic Plan, HUD–2990).* A certification that the project is consistent with the EZ/EC strategic plan, is located within the EZ/EC, and serves EZ/EC residents. (This certification is not required if the project site(s) will not be located in an EZ/EC.)

VII. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

VIII. Formation of Owner Corporation for Development of Section 202 Projects and for Section 202 Projects Involving Mixed-Financing or a Mixed-Use Purpose.

Applicant eligibility for purposes of applying for a Section 202 fund reservation under this NOFA has not changed; i.e., all Section 202 Sponsors and Co-Sponsors must be private nonprofit organizations and nonprofit consumer cooperatives. However, the Owner corporation, when later formed by the Sponsor, may be (1) a single-purpose private nonprofit organization that has tax-exempt status under Section 501(c)(3) or Section 501(c)(4) of the Internal Revenue Code of 1986, (2) nonprofit consumer cooperative, OR (3) for purposes of developing a mixed-finance/mixed-use project for developing additional units over and above the Section 202 units, a for-profit limited partnership with a nonprofit entity as the sole general partner.

IX. Authority

The Section 202 Supportive Housing for the Elderly Program is authorized by section 202 of the Housing Act of 1959 (12 U.S.C. 1701q), as amended by section 801 of the Cranston-Gonzalez National Affordable Housing Act (Pub.L. 101–625; approved November 28, 1990); the Housing and Community Development Act of 1992 (Pub.L. 102–550; approved October 28, 1992), the Rescissions Act (Pub.L. 104–19; enacted on July 27, 1995); the American Homeownership and Economic Opportunity Act of 2000 (Pub. L. 106–569; approved December 27, 2000); and the Fiscal Year 2002 HUD Appropriations Act (Pub. L. 107–73, approved November 26, 2001).

Appendix A

Addresses for Submitting Applications

Please see Appendix A to the Section 811 Program Section of this SuperNOFA. Submit your completed application (an original and four copies) to the Director of the appropriate Multifamily Hub Office or Multifamily Program Center as listed in Appendix A to the Section 811 program section of this SuperNOFA. See Section I., Address for Submitting Applications, of this program NOFA, for the exceptions regarding where to file your application.

Appendix B

The non-standard forms, which follow, are required for your Section 202 Program application.

TABLE OF CONTENTS

PAGE

PART I - APPLICATION FORM FOR SECTION 202 SUPPORTIVE HOUSING - CAPITAL ADVANCE

EXHIBIT 1: Form HUD-92015-CA, Application for Section 202 Supportive Housing Capital Advance _____

PART II - YOUR ABILITY TO DEVELOP AND OPERATE THE PROPOSED PROJECT

EXHIBIT 2: Your Legal Status

(a) Articles of Incorporation (or other organizational documents) _____

(b) By-laws _____

(c) IRS Tax Exemption Ruling _____

[EXCEPTION: SEE EXHIBIT TO DETERMINE IF YOU MAY BE EXEMPT FROM SUBMITTING THESE DOCUMENTS.]

EXHIBIT 3: Your purpose, community ties and experience:

(a) Purpose(s), current activities, how long you have been in existence _____

(b) Ties to the community at large, to the target population, and description of geographic areas served _____

(c) Local government support for project _____

(d) Letters of support for your organization and for the proposed project _____

(e) Housing and/or supportive services experience _____

PAGE

(f) Efforts to involve target population _____

(g) Identification/coordination with other organizations; information sharing on solutions/outcomes about project development _____

(h) Involvement in the community's planning process including Analysis of Impediments to Fair Housing Choice:

(i) Agency that organizes/ administers the process _____

(ii) Identification of areas of community's planning process in which you participate _____

(iii) Level of your participation in the process _____

OR

Specific steps you will take to become active in the process _____

(i) Description of practical solutions to be implemented _____

(j) Description of how project will remain viable _____

PART III - THE NEED FOR SUPPORTIVE HOUSING FOR THE TARGET POPULATION IN THE AREA TO BE SERVED, SITE CONTROL AND SUITABILITY OF SITE, ADEQUACY OF THE PROVISION OF SUPPORTIVE SERVICES AND OF THE PROPOSED PROJECT

EXHIBIT 4: Project information including:

(a) Evidence of need for project _____

(b) How project will benefit target population and community _____

(c) A narrative description of the project, including:

(i) Building design _____

PAGE

(ii) Whether and how project will promote energy efficiency _____

(iii) If, applicable, description of plans and actions to create a mixed-finance/mixed-use project _____

(iv) Description of plan for completing project within 18 mth fund reservation period (optional) _____

(d) Evidence of site control and permissive zoning

(i) Site control document(s) _____

(ii) Evidence site is free of limitations, restrictions, or reverters

(iii) Evidence of permissive zoning or statement of proposed action required to make project permissible _____

(iv) Narrative topographical/ demographic description of site/area suitability, how site will promote greater housing opportunities for minorities/target population _____

(v) Racial composition/concentration map of site _____

(vi) Phase I Environmental Site Assessment _____

(vii) Letter from State Historic Preservation Office (SHPO) _____

OR

If no response from SHPO:

(A) Letter indicating no response from SHPO and why _____

(B) Your letter to SHPO requesting required letter _____

PAGE

(C) SHPO's response, if available _____

(e) Provision of supportive services:

(i) Description of services _____

(ii) Public/private funding sources for proposed services _____

(iii) Manner in which services will be provided _____

PART IV - GENERAL APPLICATION REQUIREMENTS, CERTIFICATIONS AND RESOLUTIONS

EXHIBIT 5: **A list of applications, if any, you have submitted or are planning to submit to any other HUD Office** in response to the Section 202 or Section 811 NOFA, and required information about each _____

EXHIBIT 6: **A statement that:**

(a) Identifies all persons occupying property on application submission date _____

(b) Indicates estimated cost of relocation payments/other services _____

(c) Identifies staff organization that will carry out relocation activities _____

(d) Identifies all persons who have moved from site within past 12 months _____

EXHIBIT 7: **CERTIFICATIONS AND RESOLUTIONS:**

(a) Standard Form 424 _____

(b) Drug-Free Workplace (HUD-50070) _____

(c) Certification of Payments to Influence Federal Transactions (HUD-50071), and _____

Disclosure of Lobbying Activities (Standard Form LLL), if applicable _____

Public reporting burden for this collection of information is estimated to average 46 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

This collection of information is in support of HUD's efforts to expand the supply of Supportive Housing for Persons with Disabilities under Section 811. The information is necessary to assist HUD to determine applicant eligibility and ability to develop housing for disabled with statutory and program criteria. A thorough evaluation of an applicant's qualifications and capabilities is critical to protect the Government's financial interest and to mitigate any possibility of fraud, waste or mismanagement of public funds. This application does not collect any sensitive information. HUD does not ensure confidentiality.

SPONSOR'S CONFLICT OF INTEREST RESOLUTION

TO: The Secretary of Housing and Urban Development

SUBJECT: Section 202 Program - Application for Fund Reservation
Section 811 Program - Application for Fund Reservation

Sponsor:
Project Location:

WHEREAS, Section 202 of the Housing Act of 1959, as amended, authorizes the making of capital advances for housing for the elderly to private, nonprofit corporations, OR Section 811 of the National Affordable Housing Act of 1990, as amended, authorizes the making of capital advances to nonprofit corporations for housing for persons with disabilities, no part of the net earnings of which inure to the benefit of any member, founder, contributor or individual;

WHEREAS, HUD has implemented this statutory requirement by promulgating a regulation providing that the Sponsor may not be controlled by or under the direction of persons or firms seeking to derive profit or gain therefrom. The regulation also prohibits any officer or director of the Sponsor from having any financial interest in any contract in connection with the rendition of services, the provision of goods or supplies, procurement of furnishings or equipment, construction of the project, procurement of the site or any other matters whatsoever, except with respect to management or supportive services contracts entered into by the Owner with the Sponsor or its nonprofit affiliate.

WHEREAS, HUD has determined that assurance of compliance with this prohibition can best be obtained by requiring that all officers and directors of the Sponsor certify that they do not have and will not have during their term of office, any prohibited financial interest.

WHEREAS, because of the time constraints imposed under the application process and difficulties in meeting these deadlines caused by such factors as large boards and unavailability of officers and directors of the board, some prospective Sponsors have been unable or experienced hardship in obtaining all of the required certifications for submission with the applications for fund reservation.

WHEREAS, HUD is willing to defer submission of the required Sponsors' Conflict of Interest and Disclosure Certifications until the submission of the firm commitment applications by those

VOL

2002
UMI

(2)

Owners for which fund reservations were approved, if such certifications are provided by all the Sponsor's officers and directors listed below, who are duly qualified and sitting in these capacities from the date of the Sponsor's fund reservation application.

[LIST THE NAME, TITLE, AND THE BEGINNING AND ENDING DATES OF THE TERM OF ALL OFFICERS AND DIRECTORS]

NOW, THEREFORE, in order to induce HUD to forego requiring submission of the Conflict of Interest and Disclosure Certifications until after projects have been selected and fund reservations granted, it is hereby resolved and agreed by the Board of Directors of the Sponsor:

1. That it will submit an updated Incumbency Certificate, in a form prescribed by HUD, showing all changes in incumbency for submission with the Owner's Application for Firm Commitment, initial closing and final closing.

2. That no officer or director of the Sponsor has or will be permitted to have any prohibited interest which would prevent him or her from signing the required Conflict of Interest and Disclosure Certification.

3. That the fund reservation will be subject to cancellation by HUD if the officers or directors of either the Sponsor or the Owner fail to submit Conflict of Interest and Disclosure Certifications duly executed by each and all of their respective officers and directors.

4. That no HUD capital advance funds or project rental assistance funds will be expended on account of any contract or arrangement where a conflict of interest is determined to exist, and the Sponsor shall be responsible for the payment of any and all obligations involving its officers and directors.

5. That should any contract or arrangement entered into by the Owner be determined by HUD to involve a conflict of interest, involving either the Sponsor's or Owner's officers or directors, the Sponsor will exercise its best efforts to cause the Owner to promptly cancel or terminate such contract or arrangement at HUD's request.

Adopted and approved by the Board of Trustees of the Sponsor on the _____ date of _____, _____.

_____
Authorized Signature

SPONSOR'S RESOLUTION FOR COMMITMENT TO PROJECT

TO: Secretary of Housing and Urban Development

SUBJECT: Section 202 Program - Application for Fund Reservation
Section 811 Program - Application for Fund Reservation

Sponsor:
Project Location:

1. **WHEREAS**, under the Section 202 Program for Supportive Housing for the Elderly, the Sponsor acknowledges its responsibilities of sponsorship, long-term support, its willingness to assist the Owner to develop, own, manage and provide appropriate services in connection with the proposed project, and it reflects the will of its membership. The Sponsor is required to make a commitment to cover the estimated start-up expenses, the minimum capital investment of 1/2 of one percent of the HUD-approved capital advance, not to exceed $25,000 ($10,000 for sponsors not affiliated with a national sponsor) and the estimated cost of any amenities or features (and operating costs related thereto) which would not be covered by the approved capital advance.

OR

Whereas, under the Section 811 Program of Supportive Housing for Persons with Disabilities, the Sponsor acknowledges its respon-sibilities of sponsorship, long-term support, its willingness to assist the Owner to develop, own, manage and provide appropriate services in connection with the proposed project, and that it reflects the will of its membership. The Sponsor is required to make a commitment to cover the estimated start-up expenses, the minimum capital investment of 1/2 of one percent of the HUD-approved capital advance, not to exceed $10,000 and the estimated cost of any amenities or features (and operating costs related thereto) which would not be covered by the approved capital advance.

2. **WHEREAS**, HUD has determined that assurance by the Sponsor of its commitment and willingness to provide those funds can best be assured by requiring a resolution of the Board of Directors that funds will be made available for such purposes.

3. **NOW, THEREFORE**, the Board of Directors of the Sponsor hereby resolves and agrees that funds will be available for the subject project to meet estimated start-up expenses, the

FUNDING AVAILABILITY FOR THE ASSISTED LIVING CONVERSION PROGRAM (ALCP) FOR ELIGIBLE MULTIFAMILY HOUSING PROJECTS

PROGRAM OVERVIEW

Purpose of the Program. The purpose of this program is to provide grants for the conversion of some or all of the dwelling units in an eligible project into assisted living facilities (ALFs) for frail elderly persons.

Available Funds. Approximately $93 million are available for the conversion of eligible multifamily projects to ALFs ($50 million under the Fiscal Year 2002 Appropriations Act and $43 million in Fiscal Year 2001 carryover funds).

Eligible Applicants. Only private nonprofit project owners of eligible developments (as described in Section III of this NOFA) may apply for and become the recipient of a grant.

Application Due Dates. July 3, 2002.

Match. None required.

ADDITIONAL INFORMATION

I. Application Due Date, Application Kits, and Technical Assistance

Application Due Date. Your completed application (one original and four copies) is due on July 3, 2002, at the address shown below.

Application Submission Procedures. New Security Procedures. HUD has implemented new security procedures that impact application submission procedures. See the General Section of the SuperNOFA for specific procedures governing the form of application submission (e.g., mailed applications, express mail, or overnight delivery.) Only ALCP applications mailed by the United States Postal Service (USPS) will be accepted by HUD.

Addresses for Submitting Applications. The official place for receipt of your application is ONLY in the appropriate Multifamily Hub Office. Submit an original and four copies of the ALCP application to the Director of the appropriate HUD Multifamily Hub Office, as listed in Appendix A of this NOFA, with jurisdiction over your development.

Appendix B to this NOFA lists the 18 Multifamily Hubs with the Program Centers under them, to facilitate applicants knowing the correct location to send the application. Your application will be considered timely filed if your application is postmarked on or before 12:00 midnight on the application due date and received by the designated HUD Office on or within fifteen (15) days of the application due date. All applicants must obtain and save a Certificate of Mailing showing the date, when you submit your application to the USPS. The Certificate of Mailing will be your documentary evidence that your application was timely filed.

For Application Kits, Further Information, and Technical Assistance.

For Application Kits. You may obtain an ALCP application kit and supplemental information by calling the SuperNOFA Information Center at (voice) 1–800–HUD–8929 (1–800–483–8929). Persons with hearing or speech impairment may call the Center's TTY number at 1–800–HUD–2209. Please be sure to provide your name, address (including zip code), and telephone number (including area code). The application kit is also available on the Internet through the HUD web site at http://www.hud.gov/grants.

Note: There is a separate application kit for service coordinator funds (which is necessary for those needing to enhance or add service coordination per Section III (B)(13) of this NOFA).

For Further Information and Technical Assistance. You should contact the Multifamily Hub where you will be mailing your ALCP Application. (Please refer to Hub telephone numbers in Appendix A.)

You also may contact Faye Norman, Housing Project Manager at (202) 708–3000 x2482 or Aretha Williams, Director, Grant Policy and Management Division, Room 6138 at (202) 708–3000 x2480 for questions regarding the ALF process. This is not a toll free number. Ms. Williams can be reached, by e-mail, at "*aretha_m._williams@hud.gov*" and Ms. Norman at "*faye_l._norman@hud.gov*. Both Ms. Williams and Ms. Norman are located at the Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410.

If you have a hearing or speech impairment, you may access the telephone number via TTY by calling the Federal Information Relay Service at 1–800–877–8339.

II. Amount Allocated

This NOFA makes available approximately $93 million (approximately $78 million for the physical conversion of eligible multifamily assisted housing projects or portions of projects to ALFs and approximately $15 million for the conversion of up to 3 unused or underutilized commercial properties to ALFs). The Fiscal Year (FY) 2002 funding of $50 million is in the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act Pub.L.107–73, approved November 26, 2002). The $93 million includes $43 million in Fiscal Year 2001 carryover funds. The allocation formula used for the ALCP to fair share the $78,000,000 reflects demographic characteristics of age and incidence of frailty that would be expected for program participants. The FY 2002 formula consists of three data elements from the 1990 decennial census:

(1) The number of non-institutional elderly population aged 75 years or older with a self-care limitation,

(2) The number of non-institutional elderly population aged 75 or older with a mobility limitation, and,

(3) The number of the non-institutional elderly population aged 75 or older with both a mobility limitation and a self-care limitation. The data were taken from the 1990 Census Special Tabulation on Aging, STP–14, sponsored by the Administration on Aging, U.S. Department of Health and Human Services.

A mobility limitation is defined as a health condition that has lasted for six (6) or more months, making it difficult for the person to go outside the home alone. This includes outside activities such as shopping or visiting the doctor's office. A self-care limitation is defined as a health care limitation that has lasted for six (6) months or more which makes it difficult for the person to take care of his/her own personal needs such as dressing, bathing, or getting around in the home.

A fair share factor for each state was developed by taking the sum of the three elements within each state as a percentage of the sum of the three elements for the total United States. The resulting percentage for each state was then adjusted to reflect the relative difference in the cost of providing housing among the states. The total of the grant funds available ($78 million) was multiplied by the adjusted fair share percentage for each state, and the resulting funds for each state were totaled for each Hub.

The ALCP grant funds fair share allocations, based on the formula above, to the 18 multifamily Hubs are as shown on the following chart:

III. Program Description; Eligible and Ineligible Applicants, Developments, and Activities

(A) *Program Description.* Assisted living facilities (ALFs) are designed to accommodate frail elderly persons and people with disabilities who need certain support services (e.g., assistance with eating, bathing, grooming, dressing and home management activities). ALFs must provide support services such as personal care, transportation, meals, housekeeping, and laundry. Frail elderly person means an individual 62 years of age or older who is unable to perform at least three activities of daily living (ADLs) as defined by the regulations for HUD's Section 202 Program (Supportive Housing for the Elderly) at 24 CFR 891.205. Assisted living is defined in section 232(b)(6) of the National Housing Act (12 U.S.C. 1715w).

The ALCP provides funding for the physical costs of converting some or all of the units of an eligible multifamily development into an ALF, including the unit configuration, common and services space and any necessary remodeling, consistent with HUD or the State's statute/regulations (whichever is more stringent). Typical funding will cover basic physical conversion of existing project units, common and services space. There must be sufficient community space to accommodate a central kitchen or dining facility, lounges, recreation and other multiple-areas available to all residents of the project, or office/staff spaces in the ALF. When food is prepared at an off-site location, the preparation area of the facility must be of sufficient size to allow for the installation of a full kitchen, if necessary. You must provide supportive services for the residents either directly or through a third party. Your application must include a firm commitment for the supportive services to be offered within the ALF as part of the application. You may charge assisted living residents for meals and/or service fees. Residents may contract with third party agencies directly for nursing, therapy or other services not offered by the ALF.

(B) *Program Requirements.* The following program requirements apply: (**Note:** Program Requirements described in paragraphs 3, (8)(a) and (b), and (12) below are not applicable to applicants requesting funding to convert commercial facilities):

(1) Your ALF facility must be licensed and regulated by the state (or if there is no state law providing such licensing and regulation, by the municipality or other subdivision in which the facility is located). Each assisted living unit must include its own kitchen, bathroom, living/dining area (1 bedroom unit) or bedroom/living/dining area (efficiency unit) and must meet the state and/or local licensing, building, zoning and other requirements for an ALF.

(2) Your ALF must be available to qualified elderly persons and persons with disabilities, consistent with the rules and payment plans of the State, who need and want the supportive services in order to remain independent and avoid premature institutionalization.

(3) Your ALF's residents must be tenants or residents of the multifamily project and must comply with the requirements applicable to the project. Thus, you cannot charge additional rent over what is charged to residents in the non-ALF portion of the project. All admissions to the ALF must be through the applicable project admissions office. However, persons accepted into the ALF also must sign an ALF admissions agreement which shall be an addendum to the applicable project lease.

(4) At a minimum, your ALF must provide room, board (as defined in Section III(B)(6)) of this NOFA) and continuous protective oversight (CPO). CPO involves a range of activities and services that may include such things as awareness by management and staff of the occupant's condition and location as well as an ability to intervene in a crisis for dependent and relatively independent occupants on a 24-hour basis. The two occupant groups in an ALF are:

(a) *Independent Occupants:* Awareness by management and staff of the occupant's condition and whereabouts as well as the availability of assistance for the occupants as needed.

(b) *Dependent occupants:* Supervision of nutrition, assistance with medication and continuous responsibility for the occupants' welfare.

(5) Anyone moving into an ALF unit must agree to accept as a condition of occupancy the board and services required for the purpose of complying with state and local law and regulation. *However, occupancy in an ALF unit may not be conditioned on receipt of other services or board not required by state or local requirements.*

(6) Your ALF must offer three meals per day to each resident.

(a) Residents in projects which were originally constructed without kitchens in their units must take such meals as required by their mandatory meals agreement, or by the state's mandated requirements if more stringent (e.g., 2 meals, 2 snacks daily).

(b) Residents whose apartments have kitchens must take at least the number of meals a day provided by the facility, per their mandatory meals requirement, or as required by state or local rules, if more stringent. If the facility does not have a mandatory meals plan, then state and local rules govern.

In either case, ALF management must coordinate meals requirements with the needs of residents who are out part of the day (e.g., in day care). The meals program may not be operated at a profit by the project owner.

(7) Your ALF's operation must be part of the project owner's management organization. Some or all of its functions may be contracted out. The ALF must predicate its budget on a two-tiered structure under which board and supportive service income and expenses must be maintained separately and independently from the regular income and expenses of the applicable project. The two components of ALF costs are:

(a) Charges/payment for board, which may be on a sliding scale or any other equitable fee system; and

(b) Charges/payment for necessary supportive services, which may include a combination of resident fees, Medicaid and/or other third party payments.

(8) Priority admissions for ALF units are as follows:

(a) Current residents desiring an ALF unit and meeting the program requirements (no resident can be required to accept an ALF unit).

(b) Qualified individuals or families needing ALF services who are already on the project's waiting list;

(c) Qualified individuals or families in the community needing ALF services wanting to be added to the project's waiting list; and

Note: Qualified disabled non-elderly persons needing assisted living services are eligible to occupy these units on the same basis as elderly persons, except for section 202 project rental assistance contracts (PRAC) projects and unused/underutilized commercial properties.

(9) The management of the project must set up a separate waiting list for ALF units. ALF units must be for eligible residents who meet the admissions/discharge requirements as established for assisted living by State and local licensing, or HUD frailty requirements under 24 CFR 891.205 if more stringent.

(10) Costs of meals and supportive services are NOT covered by this HUD grant. These items must be paid for through other sources (e.g., a mix of resident fees and/or third party providers). Evidence of third party commitment(s) must be included as part of the application. (See Section IV(B) of this NOFA.) The assisted living supportive services program must promote independence and provide personal care assistance based on individual needs in a home-like environment (see Section VI(B)(8)(b) through (c) of this NOFA).

(11) Upon receipt of a grant under this program, all project owners participating in the ALCP must provide a Declaration of Restrictive Covenants (DRC), which will be recorded with the land, to retain the low income character of the housing, and to maintain the project (including the ALF), as a moderate, low, or very low income facility (as appropriate) for at least 20 years beyond the current 40-to-50 year term of the mortgage loan or capital advance. Recipients of grant funds to convert unused or underutilized commercial property must provide a DRC for at least 20 years or for the term of the mortgage on the property whichever is longer.

(12) This program does NOT allow permanent displacement of any resident living in the project at the time the application was submitted to HUD. (HUD will only provide temporary relocation costs for current tenants if they must vacate their unit while conversion work is underway (normal temporary relocation costs include increases in rent, reconnection of telephones, moving costs and appropriate out-of-pocket expenses)).

(13) The ALCP requires service coordination responsible for linking the ALF to services in the community which are available to low income persons. All projects funded under this NOFA must have sufficient service coordination in place, or request additional funds if appropriate, to ensure that services meeting licensing requirements are available to ALF residents on an ongoing basis. Service coordination must be described in the application (see Section VI(B)(8)(b) through (c) of this NOFA). If you need to enhance an existing service coordination program or add one where it does not exist, you may apply for funding through the Service Coordinator NOFA, published elsewhere in this SuperNOFA, and attach a copy of the Form HUD 424M so indicating the request to the ALCP application. Alternatively, you may show evidence that funding for the enhanced service coordination is provided by other sources and indicate such funding on the HUD Form 424M which is exhibit 10(c) of your ALF application. If you are funded under this NOFA and requested new or enhanced service coordination you will be funded first under the service coordinator NOFA.

Note: If you are a Section 202 PRAC project owner or an owner with unused or underutilized commercial properties, you are NOT eligible to request funding under the service coordinator NOFA. Section 202 PRAC owners can pay for the service coordinator out of PRAC funds.

In addition to above requirements, the following applicable guidelines are stated:

(a) The ALF must be staffed either directly or through coordination with local agencies, depending on state regulations or local requirements. These may also serve non-ALF residents of the project on a time available and appropriate fee basis.

(b) The ALF may cater to the special needs of residents depending on their condition or diagnosis, such as Alzheimer's disease. If it does so, the design/environment of such facilities must accommodate those needs, e.g., dementia special care unit. However, the ALF CANNOT provide a service it is not licensed by the State or locality to provide.

Note 1: Owners of section 202/PRAC projects are reminded that they may include a PRAC payment of up to $15/unit/month not to exceed 15% of the total program cost, consistent with 24 CFR 891.225(b)(2) to cover part of the cost of meals and/or supportive services for frail elderly residents, including residents of the ALF.

Note 2: Training for ALF staff is an eligible project cost under existing operating procedures.

For further information on ALFs, please refer to Handbook 4600.1, CHG–1, "Mortgage Insurance for Residential Care Facilities," Chapter 13. This Handbook and recent ALF program Notices are accessible through HUDCLIPS on HUD's web site. The URL for the HUDCLIPS Database Selection Screen is *http://www.hudclips.org/subscriber/cgi/legis.cgi.* These notices are in the Handbooks and Notices—Housing Notices database. Enter only the number without the letter prefix (e.g., 99–16) in the "Document number" to retrieve the program notice.

For further guidance on service coordinators, please refer to Handbook 4381.5 REV–2, CHANGE–2, Chapter 8, "The Management Agent's Handbook," which is also available through the HUDCLIPS database.

(C) *Eligible Applicants.* Only private nonprofit owners of eligible multifamily assisted housing developments specified in section 683(2) (B), (C), (D), (E), and (F) of the Housing and Community Development Act of 1992 (Pub. L. 102–550, approved October 28, 1992) and private nonprofit owners of an unused or underutilized commercial property are eligible for funding. To be eligible, project owners must meet the following criteria where applicable:

(1) Must be in compliance with your Loan Agreement, Capital Advance Agreement, Regulatory Agreement, Housing Assistance Payment contract, Project Rental Assistance Contract, Rent Supplement or LMSA contract, or any other HUD grant or contract document.

(2) Must be in compliance with all fair housing and civil rights laws, statutes, regulations, and executive orders as enumerated in 24 CFR 5.105(a). See Section V(B) of this NOFA for further explanation.

Note: If your eligibility status changes during the course of the grant term, making it ineligible to receive the grant (e.g., prepayment of mortgage, sale/TPA of property, or opting out of a Section 8 Housing Assistance Payment (HAP) contract), HUD retains the right to terminate the grant and recover funds made available through this NOFA.

(D) *Eligible Developments.*

(1) Section 202 projects, Section 202 projects receiving rental assistance under Section 8, and Section 202 projects receiving project rental assistance under Section 202(C)(2). Rural housing projects assisted under Section 515 of the Housing Act of 1949 receiving Section 8 rental assistance are also included. Projects receiving project-based rental assistance under Section 8, among others, housing constructed, substantially rehabilitated or receiving moderate rehabilitation assistance under Section 8. Also included are housing financed by a below-market interest rate loan or mortgage insured under Section 221(d)(3) of the National Housing Act; and housing with financing insured, assisted or held by HUD or a State or State Agency under Section 236 of the National Housing Act. The housing projects must be owned by a private

VOL 67 ISS 58 MR 26 2002 UMI

nonprofit entity that is designated primarily for occupancy by elderly persons. The project must have been in occupancy for at least five years from the date the HUD–92485 Form Permission to Occupy Project Mortgages was issued and final closing must have been completed. Your project must:

(a) Meet HUD's Uniform Physical Conditions Standards at 24 CFR part 5, subpart G. Meeting these standards as described, means that the project, based on the most recent Real Estate Assessment Center (REAC) physical inspection report and responses thereto, must have a "satisfactory" rating as evidenced by a score of 60 or better or a HUD-approved and on schedule repair plan for developments scoring less than 60. Additionally, the project must have no uncorrected and outstanding Exigent Health and Safety violations. Finally, the project must not have on file a management review with a rating of "minimally satisfactory" or "unsatisfactory" with open and unresolved findings.

(b) Have a residual receipts account separate from the Reserve for Replacement account, or agree to establish this account as a condition for getting the award(s).

(2) Unused and underutilized commercial properties.

(E) *Ineligible Applicants.*

(1) Owners of developments designed specifically for people with disabilities.

(2) Owners of Section 232 developments.

(3) Property management companies and agents of property management companies.

(4) Limited dividend partnerships.

(5) Nonprofit Public Agencies.

(6) Owners of unused/underutilized hospitals or other health-related facility which are considered to be eleemosynary institutions rather than commercial enterprises.

(F) *Eligible Conversion Activities.* Eligible activities are:

(1) Retrofitting to meet Section 504 accessibility requirements, minimum property standards for accessibility and/or building codes and health and safety standards for ALFs in that jurisdiction. Examples are items such as addition of:

(a) Sprinkler systems;

(b) An elevator or upgrades thereto;

(c) Lighting upgrades;

(d) Major physical or mechanical systems of projects necessary to meet local code or assisted living requirements;

(e) Upgrading to accessible units for the ALF with movable cabinetry, accessible appliances, sinks, bathroom and kitchen fixtures, closets, hardware and grab bars, widening of doors, etc.;

(f) Upgrades to safety and emergency alert systems;

(g) Addition of hallway railings; and,

(h) Medication storage and work stations;

(2) Retrofitting to add, modify and/or outfit common space, office or related space for ALF staff including a service coordinator and file security, and/or a central kitchen/dining facility to support the ALF function (e.g., outfit lounge/common space/dining furniture, kitchen equipment for cooking/serving and dishware).

(3) Retrofitting to upgrade a regular unit to an accessible unit for a person/family with disabilities who is being displaced from an accessible unit in the portion of the project that is being converted to the ALF, where another accessible unit is not available.

(4) Temporary relocation (not applicable to commercial property).

(5) Consultant, architectural and legal fees.

(6) Vacancy payments not more than 30 days after conversion to an ALF.

(G) *Ineligible Activities.* You may not use funds available through this NOFA to:

(1) Add additional dwelling units to the existing project (not applicable to commercial property);

(2) Pay the costs of any of the necessary direct supportive services needed to operate the ALF;

(3) Purchase or lease additional land;

(4) Rehabilitate (see definition at 24 CFR 891.105) the project for needs unrelated directly to the conversion of units and common space for assisted living;

(5) Use the ALCP to reduce the number of accessible units in the project that are not part of the ALF (not applicable to commercial property);

(6) Permanently relocate any resident out of the project; and,

(7) Increase the management fee.

IV. Program Requirements

Each applicant must comply with the following requirements:

(A) *Statutory, Regulatory, and Other Program Requirements.* You must comply with all applicable statutory requirements to the projects specified in Section 202(b) and statutory requirements under Section 232(b)(6). Please note that all ALCP projects must conform to the 500-year flood plain limitation (See Section VII of this NOFA.) Construction of ALCP units is considered a "critical action" for purposes of the flood plain requirement.

Excess Residual Receipts (over $500/unit) and Reserve for Replacement (R4R) funds (over $1000/unit) in Project Accounts that are not approved for another use at the time of application to HUD under this NOFA are considered available funds and must be applied towards the cost of conversion activities. Before making this determination, however, HUD staff will consider the extent of repair/replacement needs indicated in the most recent REAC physical inspection and not yet approved and any ongoing commitments such as non-grant-based service coordinator or other funding, where existing, deduct the estimated costs of such items from the R4R and residual receipts balances to determine the extent of available residual receipts and R4R funds for the ALCP. (This paragraph is not applicable to commercial properties.)

If funded, you must also file a HUD Form-2530 for all construction contractors, architects, consultants, and service provider organizations under direct contract with you that will be engaged under this NOFA and comply with all State and local licensing, zoning and building code requirements.

(B) *Meals and Supportive Services.* You must develop and submit a Supportive Services Plan (SSP) for the services and coordination of the supportive services which will be offered in the ALF to the appropriate state or local organization(s) which are expected to fund those supportive services. (See Section VI(B)(8) of this NOFA below, for the information which must be in the SSP.) You must submit one copy of your SSP to each appropriate State or local service funding organizations well in advance of the application deadline, for appropriate review. The State or local funding organization(s) must return the SSP to you with appropriate comments and indication of funding commitment, which you will then include with the application you submit to HUD.

You must ALSO submit the SSP to the appropriate organization(s) which license ALFs in your jurisdiction. The licensing agency(ies) must approve your plan, and must also certify that the ALF and the proposed supportive services identified in your SSP, are consistent with local statute and regulations and well designed to serve the needs of the frail elderly and people with disabilities who will reside in the ALF portion of your project.

Finally, you must also submit an agreement to pursue appropriate ALF licensing in a timely manner.

(C) *Minimum Size Limits for an ALF.* An ALF must be economically feasible. Consistent with HUD Handbook 4600.1, CHG–1, the minimum size for an ALF is five units.

(D) *Economic Opportunities for Low and Very Low Income Persons (Section 3).* You must comply with section 3 of the Housing and Urban Development Act of 1968, 12 U.S.C. 1701u (Economic Opportunities for Low and Very Low Income Persons), and its implementing regulations at 24 CFR part 135. You must ensure that training, employment and other economic opportunities shall, to the greatest extent feasible, be directed toward low and very low income persons, particularly those who are recipients of government assistance for housing and to business concerns which provide economic opportunities to low and very low income persons and including people with disabilities.

(E) *Compliance with Fair Housing and Civil Rights Laws.* If you, the applicant (a) have been charged with a systemic violation of the Fair Housing Act by the Secretary alleging ongoing discrimination; (b) are the defendant in a Fair Housing Act lawsuit filed by the Department of Justice alleging an ongoing pattern or practice of discrimination; or (c) have received a letter of noncompliance findings under Title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973, or section 109 of the Housing and Community Development Act of 1974, your application will not be evaluated under this NOFA if, the charge, lawsuit, or letter of findings has not been resolved to the satisfaction of the Department before the application deadline, HUD's decision regarding whether a charge, lawsuit, or a letter of findings has been satisfactorily resolved will be based upon whether appropriate actions have been taken to address allegations of ongoing discrimination in the policies or practices involved in the charge, lawsuit, or letter of findings.

(F) *Additional Nondiscrimination Requirements.* As you will be converting some of your project to an ALF, you should note that 24 CFR 891.120(b) requires you to meet all accessibility requirements. Additionally, you must comply with the section 504 regulations at 24 CFR part 8, the Americans with Disabilities Act and the regulations at 28 CFR part 36, as applicable.

(G) *Executive Order 12372.* Information regarding this requirement may be found in the General Section of the SuperNOFA.

(H) *Conducting Business in Accordance with HUD Core Values and Ethical Standards.* Owners are required to develop and maintain a written code of conduct in accordance with 24 CFR 84.42. Consistent with regulations governing specific programs, your code of conduct must prohibit real and apparent conflicts of interest that may arise among employees, officers or agents; prohibit the solicitation and acceptance of gifts or gratuities by your officers, employees and agents for their personal benefit in excess of minimal value, and outline administrative and disciplinary actions available to remedy violations of such standards. If awarded assistance, you will be required, prior to entering into a grant agreement with HUD, to submit a copy of your code of conduct and describe the methods you will use to ensure that all officers, employees and agents of your organization are aware of your code of conduct. You will also be required to sign the Conflict of Interest Resolution and include it in your application see Exhibit (10)(i).

(I) *Ensuring the Participation of Small Businesses, Small Disadvantaged Business, and Women-Owned Business.* Information regarding this provision may be found in the General Section of the SuperNOFA. Upon acceptance of grant funds under the ALCP, Grantees must comply with the requirements pursuant to Executive Orders 11625 and 12432 (concerning Minority Business Enterprises) and Executive Order 12138 (concerning Women's Business Enterprise).

(J) *Compliance with Other Program Requirements:* By the submission of the application for grant funds, the Owner is certifying to comply with the following program requirements:

(1) Establish a residual receipt account as soon as there is surplus cash available, if applicable.

(2) Apply for an ALF license with due diligence and in a timely fashion.
